Dear Mom and Dad—

Well we have left Borneo for reassignment and maybe (prayer) de-commissioning. They have already started on S. C. (Sub. Chasers). Hope they get to us soon so that we all can get home to the good old U. S. A. and a well earned rest.

About those watch straps pins, I hope they have springs in them, and that they are not just a rust, but nothing can stand up against the salt water and air out here. Some times I catch my watch on something and the pin just snaps off where it has rusted.

Had a letter from Skip (Dick Ritchie) the other day and he's doing pretty well, much better than I did.

The only thing I saw of any interest in Borneo was a Jap tank. The story goes that a U. S. Destroyer went into the bay there, and the tank, used as a white flag, and as soon as the "can" had moved up closer, opened fire, well the "can" didn't like that kind of monkey business, so she sank her or rather forced her up on the beach.

One of our guys picked up another monkey—only this one is the size of a small ape—smart devil too. You laugh at her and she'll come tearing and screaming after you, you should see her with the dog, she really uses those hands of hers and they are almost exactly like a human's. She boxes the dog on the nose, which is tender and the dog almost goes nuts. Of course the dog can't catch the monkey, unless...

Stress Need to Fight Diptheria

Parents of School Children Urged to Cooperate with School Immunization Program

The Health Service of the Northville schools is sending out letters to parents and guardians of school children stressing the need of immunization against diptheria. Such preventative measures will be offered at the Northville Grade school on Oct. 25 at 9:30 a. m. and the follow-up on Nov. 28 at the same hour.

The letter urges "mothers of pre-school children, from nine months of age, and up, to take them to the clinic for these preventative measures. According to statistics, there were 518 cases of diptheria and 32 deaths last year in Michigan, 209 cases being reported in Wayne county, with several deaths. So far this year there have been 850 children of these cases show they are not protected from diptheria by toxoid. The disease can be prevented by immunization."

The Northville Parent-Teacher association and the local Mothers' club are co-operating on this project with Miss Ruth Knapp, R. N., who is health director for the school. Also behind this service are Dr. W. H. Johnston, health officer, and Dr. L. W. Snow, president of the Northville Board of Education.

Crowds Break Records at Downs

Third Week of Racing Sets New Records for Attendance at Track and Mutuels

Record-breaking crowds continue to arrive for the Fall race meeting here at Northville Downs. The meeting which is now in its third week is setting up all kinds of new records, and there is no question now but that it is the greatest harness horse race meeting ever given in Michigan.

A crowd which came within just two hundred persons of equalling the all-time attendance record for Northville, set last summer when the \$6,000 Michigan Pacing Derby was raced, turned out the past Saturday night to witness the first racing of the Free-for-all pacing stakes. The first racing of the pacing stake had the mammoth crowd on their feet throughout the race, which carried a value of \$1,500 comes up for decision on Saturday night. Present indications are that another big field will go to the starting post.

Northville Downs fans got a look at a real trotting star on Saturday when the southern trainer Carl Hatchell paraded Kiplator the first time. Starting in the first of the handicap features that will be given during the balance of the meeting, the mare who just ten days ago equaled the world's half-mile track race record for mares, 2:03 flat, started from the top penalty of 170 feet and won handily.

Stables continue to arrive at the track, and stabling facilities have been taxed to the very limit, with the overflow having to be quartered away from the oval. Upwards of 400 horses are here for the meeting, which runs into November, and the great racing that the fans are seeing each night is a result of this meeting of the top stables from all sections of the country. A total of 26 different states and Canada are represented in the list of stable now at the track a record for all time at a Michigan harness horse race meeting.

Local Eleven Beat Clarenceville

Northville High '11' Comes Back to Defeat Opponents in Home Game 13-7

On Wednesday, October 10, a determined Northville team met and defeated Clarenceville in a home game, by the score of 13-7.

On the first kick-off play, the Clarenceville team, after working their way to Northville's 50 yard line, scored their only touchdown of the game, on a wide end run, also making the extra point by a line plunge.

Northville, on its way to a touchdown in the first quarter, fumbled on its own eight yard line and Clarenceville recovered.

In the second quarter the NHTS team completed a pass for a touchdown and scored the extra point with an end run. Later in the second quarter the Northville team made a line plunge for their second score; they failed to make the extra point.

The third and fourth quarters were scoreless for both teams. The final score being 13-7.

Sacred Concert at St. Paul's Church

Sacred Concert Will Be Presented Sunday Evening at St. Paul's Lutheran Church

A sacred concert will be presented this Sunday, October 21, at St. Paul's Lutheran Church at eight o'clock. There is no admission charge. But free-will offering will be taken for the benefit of the Church building fund.

The program of the evening will consist of numbers by Schuette's orchestra, hymns sung by the Junior and Senior choirs, and piano and vocal solos.

The committee in charge consists of Henry Schuette, Mrs. Florence Miller, Selma Schuette and Lelia Rossow.

Evelyn Ambler, daughter of Plymouth and the late Mr. Ambler, writes the following letter to her mother, telling of her narrow escape from death in the typhoon which recently hit the area of Okinawa. Evelyn graduated from N.H.S. during the time the Amblers lived here and is the grand daughter of Mrs. Mark Ambler of Cady street. Formerly employed in the offices of the Diesel Co. near Plymouth, she enlisted about a year ago in the recreational department of the Red Cross. She is now located at Yokohama.

Her graphic description of the storm follows in part:

"Typhoon was only a word to me. It's much more than that now. I shall never hear it said or see it written without shuddering inwardly."

"On Saturday, Sept. 15 we pulled into Buckner Bay, Okinawa. As per schedule, but, because it was late afternoon, we weren't to debark until Sunday morning. The skipper found out we had arrived at the wrong harbor and would have to go around the island to Naha. Plans were made to do this on the 16th. During the night a typhoon formed off Guam, headed for Okinawa."

"It was an amazing sight. There were many more than one hundred ships in the harbor. Early (Continued on back page)"

Community To Raise \$5000 for The Year

G. V. Harrison Is Chairman of Northville Drive; Two-Fifths of Funds Raised Remain in Village

The opening gun of the Northville Community War Chest Drive will be fired Monday, October 22, when the local drive gets under way led by G. V. Harrison, Northville Chairman. The Northville quota of \$5000.00 will be raised by October 29 when the Victory War Loan starts. Of the quota assigned to Northville, \$2000.00 will go for the work of the several national organizations approved as participating in the chest. \$2000.00, or two fifths of the amount raised in Northville, will be retained here for local youth recreational and welfare work. The local funds are administered by the Northville Coordinating Council.

In the village the house to house canvass will be conducted by the War Activities Committee of the Northville Woman's Club. Ward Masters will head the committee to contact the business and professional places in the township members of the Woman's Club who are not listed on the War Activities Committee will solicit the homes under the leadership of Robert Coolman.

Dr. Wilbur Johnston will contact the several organizations of the community.

A Russell Clarke is treasurer of the drive. Mr. Harrison suggests that in making this contribution we remember that this is the last War Chest drive and that the pledge covers a period of 15 months, or until December 1946, when the War Chest and its affiliated organization will cease to function as units of an organized united drive.

Please consider the great need of the War Chest, and that the workers are all contributing their time and effort. Your ready response will save time and effort and make every one happy.

Now that Victory is won, the needs are even greater.

"Until the War won't be over... until the Service Flags come down from your street. Until then we have but one thought, one aim -- to help set the world back on its feet."

That is the job of your Community War Chest... to serve the men who won the Victory for us, to aid the starving and homeless in other countries and to help solve postwar problems at home.

President Truman has told us about the situation in Europe. What he said can now be applied to Asia as well:

"As the winter comes on, the distress will increase. Unless we do what we can to help, we may lose next winter what we won at such terrible cost last spring. If we let Europe go cold and hungry, we may lose some of the foundations of order on which the hope for world peace must rest."

25 men tired and weary of war, to others in training, hospitalized or waiting for demobilization, your dollars through various agencies bring entertainment, laughter and relaxation. Such morale-building efforts must be continued.

Fete Public School Teachers

On Wednesday eve, October 10th, the Northville Rotary Club was host to the faculty and staff of the Northville Public Schools, at the Methodist Church house. The event was attended by about 150 Rotarians, their wives and family members.

Following a delicious dinner served by the ladies of the Methodist Church, a short musical program was enjoyed and introductions were made. Prof. Fred McCluskey spoke on "Language and the Movies."

Next Thomas Sloan arrived in the village recently, honorably discharged from the Army Air Forces. Tom piloted a B-25 and flew fifty-four missions in Corsica and Italy. He has been in service three years, and overseas for nine months of that time. Tom received his discharge from Fort Sheridan, Ill. and is the son of Mrs. Nora Sloan of Walnut street.

Mr. and Mrs. Harry Shafer of First street left Sunday for a vacation at Mio.

for Today and Tomorrow

Always, Michigan industries have had the know-how and—even in the pit of depression—the courage to expand and prepare. Hence, when war came Michigan could take the lead and become the "Arsenal of Democracy."

So, too, Michigan's electrical needs always have been anticipated by The Detroit Edison Company. Long before the war, orders had been placed for two 100,000-horsepower gen-

erators. One was delivered and put in operation during the war. The second is being installed and will be in operation sometime in 1946. We expect that more current will be used for peace than was needed for war. There will be no "standing in line" for that current.

The Detroit Edison Company is ready to serve all the electrical needs of southeastern Michigan today and tomorrow.

It takes more than a telephone to provide service

If all we need were new telephone instruments, the job of providing service for the 125,000 families now waiting would be much easier and faster. However, nearly two-thirds of those waiting are in areas where present central office equipment cannot handle any more telephones, or where all outside wire and cable are in use. Large-scale manufacture of civilian telephone equipment is under way, and no effort is being spared to hasten production. But cable and central office equipment are not ready for use when they leave the factory. They must be fitted into the existing telephone system before they can be used to connect new telephones. This is a complicated, time-consuming process.

If you are among those waiting, you may be sure that we'll fill your order in its proper turn as soon as possible. But it may be nearly two years before telephones can be installed generally without delay.

Corporal Hugg Tells of Exploring Japanese Cave

Mr. and Mrs. F. E. Hugg of Currie Road have recently received interesting news from their two service sons, Cpl. Francis and Frederick J. C. M. 3/c.

Cpl. Francis had quite an experience recently when several men of his company opened a Jap cave for the purpose of collecting souvenirs. They were greeted by the explosion of a hand grenade which injured several men, one receiving fourteen wounds; he, however, is expected to survive. Since the American officers were living in a tent on top of the cave, this episode caused them to send a Jap captain into the cave to take out the Japs. Three live Japs were taken out, none of whom knew that the war was over. All had long beards and tattered clothes. Francis wrote the caves were wet and dirty and contained centipedes four and five inches long and spiders as large as a human hand, as well as insects and vermin. The caves were built in rock and clay and it is said the Japs had been building them for the past thirty years.

This company went thru the typhoon which hit the island on Sept. 14 and 15, during which their tents were blown away, along with all their letters and pictures. Another typhoon was expected in a week or so and Francis wrote he hoped he would be on his way home by then, since he never wanted to see another. Wind velocity of the one which he experienced rose to 125 miles per hour.

The corporal is believed to be on his way home from Naha, Okinawa. He has been in service for four years, two years and eight months of which were spent in the Aleutians. Francis writes that the company of which he is a member was alerted early this month for transportation home.

The Huggs' other service son, Frederick, who flew to Greenland August 14, to do some work at radar stations, expects to be back by Christmas time, when he probably will be released, as his enlistment expired on August 12 of this year.

DDT Is a Boon And Boomerang

Kills Not Only Mosquitoes, Flies, but Birds and Fish, Tests Show.

CHICAGO. — DDT, the war-developed insecticide, is proving to be both a boon and a boomerang, says the Associated Press.

It is killing mosquitoes and flies, but it is killing birds and fish, too. These intended and unintended results are being noted in tests now underway in forest, farm and marsh areas around the country, tests which make it clear that DDT must be used with great care.

A progress report on current experiments was obtained in an interview with Dr. Clarence Cottam, chief of the division of wildlife research of the interior department's fish and wildlife service.

"DDT is effective against most types of insects," he said. "It is highly effective against flies and mosquitoes. Where properly used, it also will have great value in the control of field insects."

But it will kill a lot of things we don't want killed. Our studies show that five pounds per acre in a forest will either kill birds or drive them out. More than one-half pound per acre is damaging to fish, turtles and frogs. DDT is effective against bees.

"It kills beneficial insects as well as obnoxious insects. Therefore, it should be used with understanding, intelligence and caution. DDT has great potential use, but it will be an excess, it will be like scalping to cure a head cold. It will do more harm than good."

During the war scientists watched the chemical used in checking typhus at Naples and to destroy disease-carrying flies, moths and lice in other war zones. They too figured that it could be harmful as well as helpful if handled indiscriminately.

Last spring the fish and wildlife service joined in experiments designed to determine the smallest amounts of DDT that could be used effectively against pests without destroying desirable or economically important forms of life.

Shown by Tests.

The Patuxent wildlife research refuge in Maryland, a 2,600-acre reservation, became one of the proving grounds.

An airplane strewed the compound over a 117-acre tract there on the basis of two pounds per acre. The drifting spray killed fish in pits 150 to 200 yards away from the test area.

Dr. Cottam reported that DDT can control certain forest insects but it also eliminates insects on which birds feed. The department of agriculture's bureau of entomology, he added, recommends that the insecticide be used on a small scale in wooded sectors and be restricted in such cases to no more than a half pound per acre. Preliminary observations, he said, indicated that it is effective against mosquitoes in doses as small as one-tenth of a pound per acre.

Still without answers are these questions:

When the chemical remains in water, will it have a cumulative effect on such delicacies as ducks, oysters, clams and crabs?

What effect will it have in agricultural districts on necessary soil bacteria?

Casualties of War Rise To Total of 1,070,819

WASHINGTON. — With reports still to come in, combat casualties of the war announced by the armed forces have now reached 1,070,819.

The army recently reported its casualties, as received here through August 21, as 320,401. The latest navy report was 147,338.

The aggregate represented an increase of 681 since the last report. Navy casualties actually declined by 43 as a result of revisions and shifts in the wounded, missing and prisoner of war classifications.

The services will continue to announce casualty figures until the final reports have been received. A breakdown on army casualties and corresponding figures for the last report follow:

Killed 199,656 and 199,133; wounded 571,179 and 570,997; missing 33,547 and 33,533; prisoners 119,103 and 118,924.

The decline in the number of missing resulted from transfers to other categories. The war department said that 357,414 of the wounded have returned to duty and 95,521 of the prisoners have been exchanged or returned to military control.

Similar figures for the navy: Killed 53,229 and 52,563; wounded 80,039 and 80,171; missing 10,426 and 10,533; prisoners 3,644 and 3,694.

less she wants to be caught and then they have a free for all. My Ronson lighter is practically the ship's smoking lamp, some ones always bounding me for a light, rather a nuisance at times. I let another guy use the lighter sent me, to ease the strain some. I'll need some flints pretty soon.

The sea was a little rough tonight and we lost our washing machine over the side. (Boat camp days are here again.)

Well I guess that's all for now. Oh yes tell me, are you getting a bond a month from the Navy? If not I'll write the bond Dir. I want that all clear when I get (and if I get) off this ship.

Eye for now, all of my love, Jim.

V. Louis Herrick, M.O.M.M. 2/c arrived home last night after receiving a discharge from the Navy at Great Lakes. Louis has been in service three and one-half years, two of these years being spent overseas in the European Theatre. For the last six months he has been on duty at Port Lauderdale, Florida. He is the son of Mr. and Mrs. Arnold Teshka of W. Main.

V. Lt. John Litsenberger arrived home "crusade" from Maxwell Field, Okla. on terminal leave till Nov. 3, when his discharge from the Air Force becomes effective. Accompanying him was his wife, the former Barbara Wood. John is the son of Mr. and Mrs. Arthur Litsenberger of Randolph street and has been in service four and a half years.

V. Pvt. Roy Warner and wife, the former Marion Goldman are expected back from their trip through the Sicily mountains this week-end. They left Wednesday, October 10th.

V. Sgt. Flier Ward Lester, his wife and small son, arrived in town

Sunday night to spend the sergeant's funeral. He reports back to Sparta, S.C. on Oct. 30 but Mrs. Lester and Eber Ward, Third, plan to stay in Northville for a time. By coincidence the Lesters met Mr. and Mrs. Geo. Price in a Cincinnati, O. hotel and made the remainder of the trip to Northville in their company. The Prices are the parents of Mrs. Lester, and had been away on a business trip.

V. Capt. Harold Sparling is home on furlough, pending discharge from the U. S. Army. The doctor is spending his furlough with his wife, Dr. Irene Sparling, and his two daughters, Marcia and Carol, at their home, on east Main street.

V. John Kennard, EM 3/c, is home on a 15 day leave from his duties at the U. S. Naval repair base in San Diego. He is the son of Mr. and Mrs. G. A. Kennard who formerly lived on Novi Road but are now residents of Ann Arbor.

V. Sgt. Robert Hazlett was discharged last week from San Antonio, Texas after six years in service, three years and eight months of which was spent overseas. Robert served in the Coast Artillery and is the son of the late Harry Hazlett of Mead Road, Waterford.

V. S. 1/c R. M. Richard C. Ritchie was in the village for the week-end visiting his parents, Mr. and Mrs. J. R. Ritchie of Dunlap street. Dick left Sunday evening to report back to Indianapolis, Ind., and from there he will be sent to Great Lakes, Ill. for re-assignment.

V. The following letter was received recently by Mr. and Mrs. S. B. Stephens of North Center street, from Mrs. E. H. Stevens of Watertown, N. Y.

"I am writing to you for my husband recently of the U. S. Army. A short time ago, I found among the things he brought back from Europe a small Service Prayer Book, that was presented to your son Donald E. Stephens. This information is contained in front of the book. It names you as the next of kin. Also Rev. E. E. Rossow his home pastor. I know you would probably like to have this returned to your son. My husband located it south of Colburn on the border of Germany and France. Not knowing your son personally, he brought it back to the States with him. If you wish me to send it to you, please let me know and I will send it right away."

Don Stephens, a member of the 4th Armored Division, was wounded last February in the fighting in Germany and his parents think the prayer book might have been lost when Don was evacuated to a hospital, where he spent about six weeks in two intervals. He is still in Germany, at Landshut at present. He is nineteen years old.

The prayer book and a Bible were presented to Don when he left for service by St. Paul's Lutheran church. The local church has followed this custom ever since the war started, forty copies having been presented to boys from the Northville church and others of no particular faith. Rev. E. F. Rossow is pastor of St. Paul's church.

V. S. C. 1/c Ward Schultz received his discharge from the Navy at Great Lakes, Ill. last Monday. Mrs. Schultz went to Chicago to

meet him, and both returned to Northville the latter part of last week. Ward returned to the States aboard the Sea Runner after twenty-three months' duty on the Solomon Islands. The Schultz home is on First street. Ward's brother, Sgt. Carl Schultz, in the M. P. S., has left a port of embarkation, and is homeward bound from England. Both are the sons of Mrs. Millie Schultz of Lake street.

Typhoon

(Continued from front page)

Sunday morning all of them started out of the harbor bound for open sea. The line, single file, stretched ahead of us as far as we could see and in back of us the same.

"So tremendous is the power of a typhoon that ships left in harbor were shattered into bits on the beach. Two LSTs were lost that way and, as of this writing, they have been unable to contact twelve of the ships which left with us."

"We headed directly into the storm hoping to turn west once out of danger of the reefs. All day the wind velocity increased, when we tried to turn, we couldn't. The waves were 75 feet high, the wind was blowing 140 miles per hour. Our life boats were torn loose."

"In the middle of it all—when everything standing had smashed and crashed to the floor, we sprung leaks in our wardrobe. They worked for over an hour to plug it so the full fury of the gale wouldn't split the ship in two."

"I was lying in bed—terrified, I admit, when the first gust of water came through the seams in the waist next to me. Twice I was thrown to the deck, with only minor bruises to show for it. Many were hurt, we were lucky in our ward. There are 17 of us and we all came through with flying colors."

"The Skipper had a tough decision to make. Barometric pressure was at 26 degrees. At 25 degrees we would have turned over. He could either run, full speed ahead, through the center of the typhoon, or ram the ship on the reefs."

"If we had gone down, there would have been no survivors, for with 75 foot waves and spray against the hull we couldn't have lived. However, had we rammed at the reefs, a few of us would have been saved. We sweated it out for six hours. At 1:00 a.m. the barometer started to rise."

"I owe my life to three things, Bethlehem Steel, for the job done on this ship, Captain Britton, the best skipper in the Navy, and the Grace of God."

"Words can never express the fear that accompanies a typhoon. It's a deafening, maddening sound. We received SOS signals but were absolutely powerless to help those poor people who were so near but yet so far."

"Maybe you can imagine the power if you think of it this way. The worst wind storms we had in Chicago were 20 mile winds. This was 140."

"This morning, when they handed us our sandwiches (the mess hall and galley are a shambles) every person had tears in his eyes—tears of thankfulness to the ship, gallant as she is, and the Skipper. What a night!"

"We're in another storm now—45 mile wind. We just walk around deck, quite indifferent to anything so insignificant."

"Our ship is beautiful two days ago, is certainly scarred now. Lights bent double, radar blown off, bits of metal all over the decks."

"Someday, I'll tell you about it in person. They just told us it's the worst storm since 1800."
