I guess it's just about time I wrote another letter of appreciation for receiving the Record every week. It seems as though a fellow really learns to appreciate the home town paper when he doesn't get it for a couple of weeks. The way they are moving, all the fellows around town, I'll bet it is really hard to keep track of everyone. We sure appreciate all the folks' efforts at home though, very much. I have been transferred from Ft. Monmouth to Camp Crowder, Mo. to finish my course in "power" school. After that maybe there will be a chance for a furlough. If there are any fellows from Northville here at camp I'd sure like to meet them. I'm in Co. H of the CSCR area. Thanks again for the paper and enclosed is my new address. Sincerely yours, Robert Vogtlin.

Schools Will Hold Thanksgiving Programs Next Week

Northville schools, both High and Grade, have planned Thanksgiving programs for various days next week. The 7th and Senior High pupils will hear a talk by Win. Wolfe on Monday. Mr. Wolfe, self-styled "ambassador of good will for China," who is sponsored by the Detroit News, will explain the customs of China to the school children. He will also tell of the food, clothes, family life and alphabet of the Chinese race and will demonstrate some of their musical instruments. This speaker has traveled for months throughout China.

An assembly program for fourth, fifth and sixth graders, after school, will include a talk by Rev. E. E. Rossow of St. Peter's Lutheran church and group singing led by Miss Genevieve Daley. The lower grades plan to combine for a program. Pupils of Miss Florence Keith and Miss Margaret Carpenter will sing for the Kindergarten.

Evangelist Comes to Novi Baptist Church

Evangelist Tom Presnell, of the America for Christ Organization, will conduct a great spiritual crusade in the Novi Baptist Church beginning Sunday, November 18th, and continuing until December 2nd. The services will begin each night at 8 p. m. with an inspirational song service led by Howard N. Jewell, song leader and soloist of the Guild Baptist Church of Detroit. Mr. Presnell is one of the few evangelists in the world whose biography is included in The International Blue Book (Who's Who in The World) and is often referred to as being "The Pat O'Brien of The Pulpit." The Chicago Herald-American says: "Today there is evangelism which preaches Christ rather than trying to whip the Devil out of a penitent. The sawdust trail is coming back with Evangelist Presnell." And the Springfield Union reports: "Presnell's technique is far different from the 'blood and thunder' type of evangelists of a half century ago. They appealed to emotion. Presnell appeals to the intelligence."

Commission Asks That 7 Mile By Pass Village

The State Highway Commission has asked that the proposed 7 mile by pass be constructed around the village of Northville. The commission's report states that the current route is a "congestion of traffic" and that the new route would be a "bypass" around the village. The commission is currently reviewing the request and expects to make a final decision in the next few weeks.

State Officials Visit Site on 7 Mile Road

State officials are again showing interest in a Northville site for the proposed mental hospital that is to cost some \$10,000,000. Last week state officials including Lieut.-Gov. Vernon J. Brown, Secretary of State, Herman H. Dignam, William J. Norton, chairman of the Mental Health Commission, Charles F. Wagg, executive officer of the commission, and A. N. Langius, State director of buildings and construction, inspected a site on Seven Mile road that embraces a large acreage surrounding the Carpi enton property.

The Northville site is 16 miles from Detroit's center of population. Another site suggested near New Hudson is approximately 27 miles from the center of population. The officials said that the water supply problem might be solved at the Northville site by a two-mile main connection with the Detroit water system, while sewage disposal might be provided by a connection with the Wayne County system. "It looked to all of us as if we could find something in the vicinity of Northville and Plymouth," Lieut.-Gov. Vernon J. Brown said, predicting an early decision if prices prove to be reasonable.

Advantages listed for the area included 45-minute bus transportation from Detroit and the availability of connections with the Detroit water supply system and the Wayne County sewage disposal system. The Legislature, which has appropriated \$150,000 for a site of about 400 acres probably will be asked at a special session in January to provide \$5,000,000 for construction of the initial units. State officials have been interviewing property owners in the vicinity of the proposed site, and asking for permission to test for water and other basic privileges.

Downs Makes Donation to Hospital Project

The contribution of the Northville Downs to the Northville Hospital project is \$1000.00. The cash received from the gate receipts was \$997 which with the late receipts of tickets sold by solicitors will, it is hoped, bring the receipts for the project to about \$1050.00.

Mail Greeting Cards to Overseas Soldiers Now

According to Fred Van Atta local postmaster, the war department advises that Christmas greeting cards to soldiers overseas must be sent in sealed envelopes and prepaid at the first-class rate. The war department, he says, further urges that such cards be mailed at once, stating that cards mailed now will, according to the Army Postal Service, reach even the most remote A.P.O.'s by December 25.

Northville Downs Sets Many Records; Most Successful Year

Northville horse racing has gone "Big Time." That fact was demonstrated here at Northville Downs, the smart little fairgrounds race plant during the 35 nights of racing at the Fall meeting, which came to a bang-up close on Saturday night, when all State harness racing records were knocked sky-high. A year ago the past September Northville Downs took over the operation of the fairgrounds track Sam Wierick's general manager and treasurer had made a heartache in getting started, but a definite goal had been set for Northville and for Michigan

W. A. Parmenter Sets Record for Half Century in One Business, in One Location, and One Town

Today, Friday, Nov. 16, marks the fifty anniversary of the business career of W. A. Parmenter of the Northville Cider and Vinegar Co., which is located at 708 Base Line Road. This would seem to set a record-fifty years in one business, in one location, in one town. On Nov. 16, 1895, "Louise" as he is familiarly known here, entered into partnership in the local Cider and Vinegar Co. with his father, the late B. A. Parmenter, who passed away at his home on Eight Mile Road, twenty-four years ago. During the years past, the business has grown from the requirements of horse power to steam and, some thirty years ago, it was found necessary to (Continued on back page)

Attitude of County Board and Village Commission Revealed in Exchange of Correspondence. Last August the Northville Village Commission went on record, by resolution, asking the Wayne County Road Commission to construct Seven Mile Road, straight through, by-passing the village. The resolution was transmitted to the County Road Commission. Under date of Nov. 2nd the County Commission replied as follows: "The Board of Road Commissioners and its engineers have given this matter careful study and it is estimated that to extend Seven Mile for just one quarter of a mile west of the Northville Road and there connect up with the Edward N. Hines Parkway Drive, would cost approximately \$57,000.00 for the right of way, not now owned by the Board, a bridge over the Rouge River, and one-quarter mile of cement concrete pavement. The benefits to be derived from the project would be (1) the by-passing of truck traffic around the Village of Northville and (2) shortening the distance of traveling, but when considering that this would mean, (1) utilizing a parkway drive for commercial traffic; (2) dividing the parkway into, and (3) constructing one-quarter mile of concrete road at a rate of \$250,000.00 per mile, it is believed that the objections far outweigh the benefits at this particular time. Therefore the Board Commissioners at their meeting yesterday decided that the question be postponed." Under date of Nov. 6th the Village Commission again wrote to the Road Commission restating their position of the postponement and requesting that the County Board send a representative to the Commission meeting Nov. 15th, to further discuss the matter in detail. In his reply to the County Road Commission, President D. J. Hahn, restated the former request and further said, "We regret you have come to this decision as we feel that this request is not an unreasonable one and that the expenditure of \$67,000.00 for this project does not seem to us to be prohibitive. A great deal of pressure has been brought to bear upon us by both our citizens, as well as the Board of Education, to make some provision for keeping the heavy truck traffic off our Main street. As you probably know, our schools are located on this highway, and the continuous passing of heavy gravel trucks with their accompanying noise interferes greatly with classes; also it is hazardous for the children crossing the street. This is only one of the many reasons why we feel that you should reconsider your decision, from our view point it is very important that this matter be given more study on your part."

## The American Legion Digest

This column is edited and paid for by the Lloyd H. Green Post No. 147, American Legion of Northville, for the information of the men in the service. Questions from Servicemen will be welcomed, and answered in this column.

### "Will War II Vets Join the Legion?" "Will They? ... Read the Statistics!"

The way that men still in the Armed Forces started coming into the American Legion—as soon as the gates of eligibility were thrown wide open by the cessation of hostilities in Japan on September 2, 1945, is making oldtimers at National Headquarters think of the stories—and pictures of the land rushes of the old days.

These men who are still wearing the uniform as coast guardsmen, marines soldiers and sailors—and in ranks from private to high brass—are joining their town posts in such numbers that the post adjutants and department adjutants are working overtime to process their cards and get them reported to National Headquarters so they may start getting their publications, The National Legionnaire and The American Legion Magazine.

In addition to these, add those who are being processed at the separation centers and are going home. It seems that one of the first places they are stopping after they get through with the welcome at their home, is at the headquarters of the Legion post. And what they want there, nine times out of ten, is an application blank for membership.

Exciting Statistics  
Reports were requested from department adjutants as to the rate in which advance 1946 membership dues were being paid, and what percentage of those paid were members from World War II. The replies have been surprising. Some of them are shown here, to indicate what is going on.

These figures are taken from telegrams received late in September and early in October. Not all have been heard from. Wires are arriving daily. From those received, however, these quotes are eloquent.

Alabama reports 47 per cent from World War II; Arkansas, 40 per cent; Colorado, 22 per cent; Florida, 42 per cent; Idaho, 80 per cent; Illinois, 50 per cent; Kansas, 25 per cent; Massachusetts, 19 per cent; Michigan, 25 per cent; Mississippi, 60 per cent; Montana, 40 per cent; New Hampshire, 50 per cent; New Mexico, 55 per cent; Oklahoma, 44 per cent; Oregon, 26 per cent; South Carolina, 27 per cent; South Dakota, 35 per cent; Tennessee, 30 per cent; Texas, 56 per cent; Utah, 20 per cent; Virginia, 76 per cent; Washington, 20 per cent.

**HOW TO APPLY FOR LEGION MEMBERSHIP IF IN SERVICE**  
How does a man still in the Armed Forces apply for membership in The American Legion? There are several ways in which this can be done:  
1. His application may be made for him by some relative, with The American Legion post of his choice.  
2. He may write direct to the Post Adjutant of the Legion post in his home town or neighborhood, sending in his application blank or asking that one be sent to him to be filled out.  
3. If he does not know the name of the post in his home town, or if he comes from a city where there are a large number of posts and he does not know which of these is closest to him, either by geographical location or in the interests of the member, he may write to the Department Adjutant of his home state, asking that his application be forwarded to a post in his home area.  
Annual dues in a post of The American Legion are established by the Post itself, so we cannot give you that information here. These dues average around \$5 a year—some more and some less. But whatever they are— you

never made a better buy with your money.

An application blank is printed here in this issue, which any eligible reader may fill out and send in to the post he wants to join.

### IS THIS YOUR QUESTION?

Some who are located now in France, England, Hawaii, Guam and elsewhere where there are American Legion posts, would like to join the Legion there, but wonder what they will do when they finally come back to the United States.

In such a case, a member can transfer his membership from the post he originally joined to a post in his new location.

Some who are joining a post because they want to get in the Legion, wonder what the score will be in the event they find another nearby post in which many of their friends are members, or which has a program that appeals more to them. What do they do in this event?

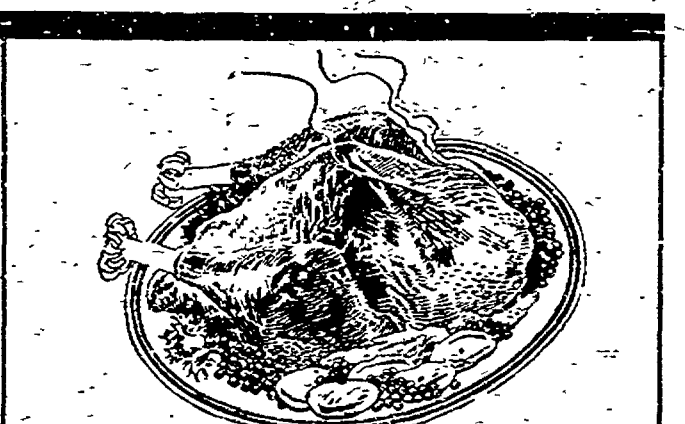

In such a case, the same rule applies. He may transfer to another post more to his liking by applying for a transfer and asking the new post to accept his membership.

Beauty may be only skin deep, but who would choose a scabby looking apple?

## IT PAYS TO BE A GOOD RURAL LINE NEIGHBOR

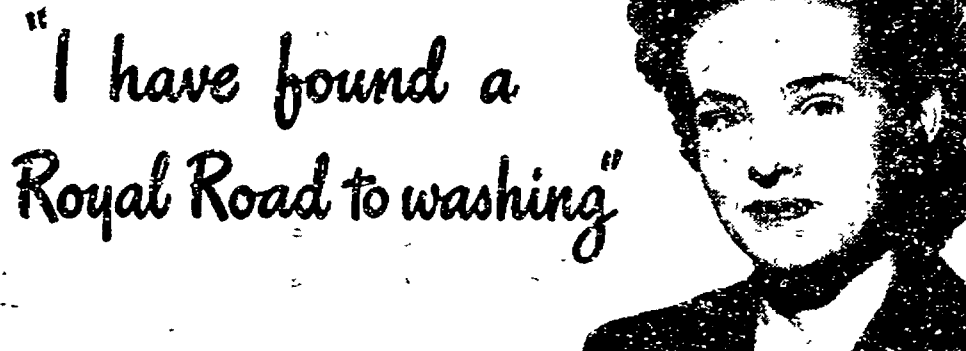

If you're considerate of others in the use of your telephone, they'll be more apt to be considerate of you. And today, when there are more telephones per line than before the war, it's especially important that everyone co-operates.

We intend to proceed with the job of adding more rural lines and more central office equipment just as fast as conditions permit. This will enable us to fill the orders of those who are waiting for telephones and reduce the number of telephones per line.

Meanwhile, here are three simple ways you can show friendly consideration of those who share your telephone line:

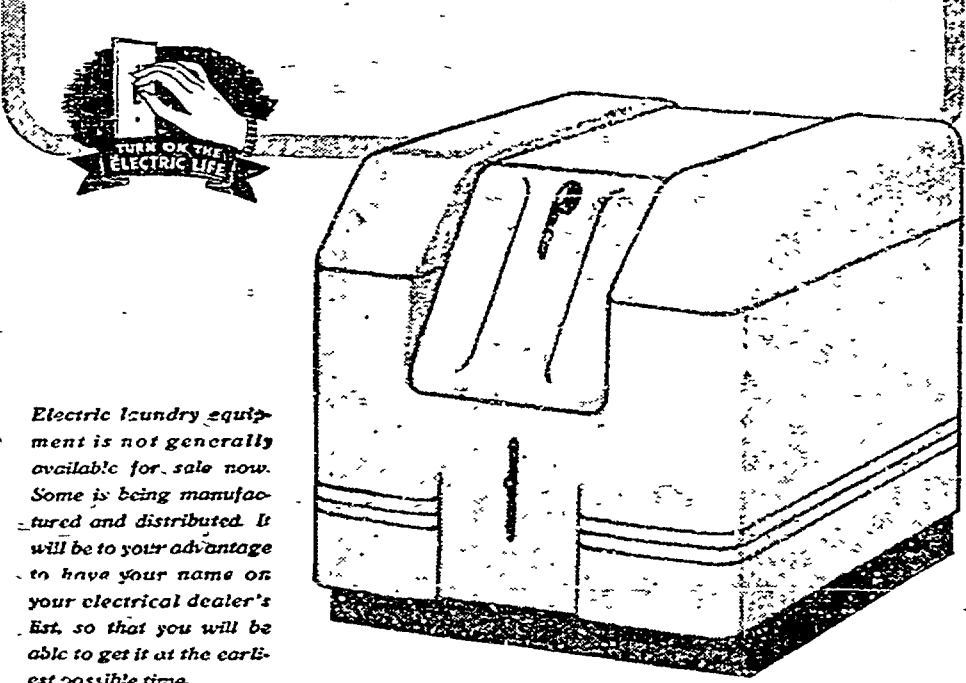

1. Keep all calls short.
2. Avoid interrupting when the line is in use.
3. Hang up your receiver carefully. One receiver off the hook can tie up a whole line.

"I have found a Royal Road to washing"

"It's true—there may be no royal road to learning... but I've learned of a royal road to washing pleasure—my all-electric laundry. I used to dread washday... now all I do is place the clothes in my washer, add soap and turn a switch. As if by magic the clothes are washed, rinsed and wrung, even as I do some of the cleaning upstairs. That isn't all, though—the electric dryer damp-dries the clothes so that they are ready for ironing in about a half-hour. Then comes the real pleasure of washday—ironing with the electric ironer, with a real saving of time and effort. My electric laundry means a minimum of work... a maximum of time for other things."

Electric laundry equipment is not generally available for sale now. Some is being manufactured and distributed. It will be to your advantage to have your name on your electrical dealer's list, so that you will be able to get it at the earliest possible time.

Psychiatric Cases Are Returned to Active Duty. FORT CUSTER, MICH.—An army spokesman disclosed recently that approximately 90 per cent of the army's overseas neuro-psychiatric cases were sent back to duty, 65 per cent of them being returned to combat outfits.

Dr. Eli Ginsberg, chief of the resources analysis division of the surgeon general's department, told officers at a three-day army service forces convalescent hospital conference here that only 10 per cent of the men were brought back to this country for treatment. Nevertheless, Ginsberg said, more neuro-psychiatric than medical cases were returned from the Pacific theater from January 1 to June 30 of this year.

Ginsberg said that for every four medical cases and every nine battle-wound cases there were two psychiatric cases.

## Adler Reports at First Hand From Poland

The story of Poland destroyed and rising again is the gist of Philip A. Adler's first hand reports.

Mr. Adler finds Warsaw 80% destroyed but not without hope; inflation rampant but being gradually brought under control.

He notes the strange contrasts of stores filled with articles not even to be seen in London and Paris, but not a vestige of transportation visible.

He tries to find old friends and finds them vanished without trace; whole streets and sections have disappeared and with them 12 millions of Poland's population.

You will want to read these articles for the eye-witness information they contain about what happened to Poland under the Nazis; what is happening today and what may be expected in the future, for as Mr. Adler points out, on Poland depends the peace and welfare of all Central Europe.

**Many U. S. Vessels Salvaged by Navy**  
Clearing Manila Bay One Of Largest Undertakings.

WASHINGTON.—Military and naval craft valued at millions of dollars, in addition to an estimated \$500,000,000 in sunken merchant ships and cargo, were salvaged during the war, the navy has announced.

One of the last and largest jobs of naval salvage units prior to the Japanese surrender was the clearing of 600 vessels from Manila bay. Many of them had been sunk by American army and navy forces prior to the Philippine invasion, and others were scuttled by the Japanese.

The Manila bay job began immediately after the Lingayen gulf landings last January and was in full swing within two weeks with 800 men and 60 officers engaged in the task while simultaneously fighting off Japanese snipers who would swim to the wrecks at night to pick off the salvage crews when they returned to the next day.

The entire navy salvage force numbered less than 2,000 officers and men, but its record was written in North Africa, Italy, France and in the Pacific. Some of the resorted vessels were used again by the army or navy, while others were either blown up or towed out of the harbors to "graveyards."

Operations along the Atlantic and Pacific coasts of the United States were done by a commercial salvage firm, operating under navy direction.

"It always throws me out of step to talk," he said.  
"Does it?" she replied. "I hadn't noticed that you were saying anything."

"Mr. Chairman," complained the speaker, "I have been on my feet nearly ten minutes, but there is so much noise here that I can hardly hear myself speak."  
"Cheer up, guv'nor," yelled a man at the rear, "you ain't missin' much."

"May I have a chance, Miss Wabby?" he asked.  
"Delighted," she replied. "I have only the sixteenth left."  
"I don't expect to be here as late as that."  
"I don't, either."

that was on tap right from the opening night. Better racing has never been seen at any race track.

Interesting Figures

Some highly interesting figures of the Fall meeting at Northville Downs are as follows: the final night, Saturday, November 10, was a new mutual-record for the track being established, despite the cold night. The final figures were \$125,914. The total for the final week, the largest Northville has ever had, \$643,000, and

is the highest weeks mutual total ever credited to any trotting track in the United States aside from the famous Roosevelt Raceway in New York City.

The mutual handle for the six weeks of the Fall meeting went to the grand total of \$2,847,482. This within the handle of the summer meeting of 27 nights, brings the total for 1945 to \$4,261,000, a new all-time high for any Michigan trotting meeting. This places Northville right up among the nation's leaders, something that officials of the Association are not only more than proud of, but also, members of the Northville Driving Club, whose efforts also helped to make such a grand suc-

cess of racing in this community. Top driving honors for the final week went to George Rattenbury, the popular young trainer-driver from Northville. Rattenbury led all drivers for the week to win the \$50 War Bond each week, having a total of 44 points, second highest scored by any trainer for a week at the meeting.

109 different drivers finished first, second or third in the races. A grand total of 159 different horses won races, believed to be an all-time record for a race meeting of similar length. All in all 478 horses were first, second or third.

With racing for 1945 now over, officials of the Downs Association have already laid their plans for the new 1946 campaign. When another racing season opens visitors here will find one of the most modern and up-to-date racing plants to be found anywhere in the country.

Improvements To Come

An extensive round of improvements will get under way very shortly. Among these planned are the building of a brand new paddock for the horses to race out of. This will be of 96 stalls with lounge facilities for both the drivers and caretakers. For the fans a brand new clubhouse is to be built, which will be the last word in comfort and convenience for the race fans. The starting chute is to be widened to 120 feet, making the starting point for the races the very finest in the country. These and many more will greet the fans when they come out for the 1946 season of racing here at Northville Downs.

install an electric motor. The Parmenter plant was the first in Northville to use electric power.

The Cider Mill, located for many years on the Parmenter property on Eight Mile Road, just south of the Northville-Novi Road, has long been a favorite place for many of the Northville business men of today. Many of them in their boyhood days took apples to the Mill for cider or sold apples to the firm in order to obtain spending money. The same holds true for this generation.

The 1945 fall season has been short, due to the smallest crop of apples in the history of the business. The Mill has ground about 2,000 bushels of apples this year, with an estimated yield of some 7,000 gallons of cider. Last year they handled 50,000 bushels of fruit, cider and vinegar from which was sold by the truck loads to dealers in Detroit and Northville. The firm has enjoyed the co-operation of thousands of farmers and consumers, throughout the surrounding territory.

Mr. and Mrs. Parmenter plan to leave Northville Dec. 1 for Dana, near Ft. Lauderdale, Fla., where they will spend the next six months. They have lived in the family home, adjoining the Mill, for a number of years. Their family includes three daughters, Mrs. Willard Ely, now a resident of Dana, Fla., Mrs. C. W. Rick of Rogers street, who is spending the winter in Dana, Mrs. Edward Farrell of First street, a son Harold who was recently discharged from the Navy, and five grandchildren.

Mr. Parmenter will celebrate his seventy-first birthday today.

line, and completed a short pass, Nitro to Whipple. With the ball on the 5 yard line, Nitro set a quarter back sneak and over for a touchdown. The half ended 20-6.

In the third quarter, Walled Lake scored again on a long pass but failed to make the extra point.

On a power play in the third quarter, Walled Lake scored on a line plunge.

Northville in the fourth quarter, on a double reverse with Cole carrying the ball, went 45 yards to score. Northville made the extra point and quickly tried to score again but after a long march, time ran out. The final score 32-13.

The line up for Northville: LE-Sutton; LT-Frid; LG-Litler; DEpt.; C-Parrell; RG-Remaley; RT-Wall; RE-Croemer; QB-Nitro; RH-Rutenbar; LH-Boyd; FB-Graham. Walled Lake line up: LE-Morre; LT-Smith; LG-Ones; C-Dee; RG-Nissen; RT-Sweeney; RE-Burt; QB-Denner; RH-Pringle; LH-Coaty; FB-Blake.
