To the People of this Community

It would be pleasant to report that the Victory Loan is simply a voluntary act to a great home front war program, a sort of final salute to the millions of volunteers who have worked hard and unselfishly to sell you defense and war bonds, a platform from which to pat ourselves on the back for a magnificent bond buying job.

Victory bonds, however, are not on sale for the purpose of self-praise. The government is asking you in this last drive to buy extra bonds because billions of dollars in war bills are unpaid, billions of extra dollars must be spent to bring your uniformed men and women home, billions of extra dollars will be needed for care of the wounded, liquidation of war contracts and maintenance of occupation forces.

Besides serving as guardians of the peace in enemy lands, Victory Bonds hold off the threat of inflation at home. For your own good, the Victory Loan should be your best performance of all the war loans.

Reported Killed

Pfc. James A. Reid

War Dept. States Pfc. Jas. Reid Killed June 12

Telegram to Mrs. Emma Reid States That Further Details Will Follow; Confusion and Delay Involved in Reports

The village flag flew at half-mast over the week-end in honor of Pfc. James A. Reid, M. P. of Fairbrook Road, who is reported to have died June 12 while on duty overseas.

Mrs. Emma Reid received this word regarding her son, last Friday night, in a telegram from the War Department. The word also stated that a letter giving more information would follow.

No word has come to Mrs. Reid from her son since a letter dated June 2 arrived. In that letter Jim stated that he was stationed in a dangerous spot, being one of six or seven American soldiers located at Friedrichshafen, Germany, about ninety miles from the nearest Yankee Post. Since that time, reports have been current in the States of disturbances in that region, reportedly caused by Frenchmen crossing over the border into Germany for the purpose of regaining some of the possessions which they lost in the war. In the absence of authentic details, it is thought by the family that Jim, as an M.P., might have lost his life in one of these incidents.

Letters written to this soldier were returned, beginning on Labor Day, with various markings, some said "Hospitalized." In October a voucher for a small amount of cash was sent home, the paper bearing the letters "K.I.A." Later a billfold and other personal effects arrived. Repeated efforts have been made by family, organizations and friends, over this entire period of time to clear up the matter of the whereabouts and health of James. The wire received here Friday from the War Department was preceded by one dated Nov. 13, from the Adjutant General's office at Washington, D. C. stating "Casualty reports to date do not contain the name of Pfc. James Reid."

Jim, who was twenty-one years old in April, was born in Detroit and moved to Northville with the family upon the death of his father, the late Edward Reid of Whitmore Lake, in 1935. Jim sang in the school choir and worked part time in the office of a gravel company while attending High school here. Jim was the first N.H.S. graduate to be awarded a diploma while serving with the armed services in World War II. The diploma was presented, on his behalf by Supt. Amerman to a younger brother, Wallace, at the graduating exercises in June, 1933. Jim, having credits enough in January, left school to enter service in April of '43 and trained at Camp Custer and Miami Beach in a military police detachment. He was sent to England in October of that year and remained in that country until the next August, when he went to France. From there he was sent to Luxembourg and on into Belgium, where he was stationed at the time of the Battle of the Bulge. Holland, Austria and Germany were other foreign countries in which Jim served with the Ninth Air Force, Detachment A, 1201 Military Police Company.

There are two other Reid sons and one daughter. Edward, C. Q. M. U.S. Navy, is enroute home from Saipan, Ed. has served in both the Atlantic and Pacific areas for the past six years. He expects to receive his discharge when he reaches the States. He graduated from Northville High in 1938.

Victory Bond Sales Climbing

About One-Half of Community Quota Subscribed to Date; Need More Sales to Go Over Top

Northville has reached about one half of its quota of Victory War Loan to date. Totals assembled on Nov. 28th showed sales of all issues of \$114,330.00 maturity value. Quota assigned to the Village is \$237,700.00, of which \$145,000.00 is allotted to E Bonds.

Sales at the Depositors State Bank total \$31,330.00 of E Bonds and \$55,000.00 of other issues. Post office sales of E bonds came to \$27,800.00.

If the community is to make the goal of its quota, some last scratching is needed before the end of the drive.

Fire Damages Schoultz Home

Friday Night Blaze of Undetermined Origin Burns Rear Portion of Home

Fire broke out in the Clyde Schoultz home corner of Cady and First streets about 1 o'clock last Thursday night. The blaze was discovered by the younger Schoultz son, David, when smoke drifting into his bedroom awakened him. The Northville Fire department responded to the call and the flames were extinguished before they could spread through to the front of the house.

The exact origin of the fire is not yet certain, but it was thought the blaze might have started from wiring in an unused back stairway, just off the kitchen; the latter room was practically burned out as were both the lower and upper stairways.

The Schoultzes carried insurance on their property.

Buy a Christmas Gift for a Yank in a Hospital

The Lloyd H. Green Post and Unit No. 117 of the American Legion are again appealing to the citizens of this community to donate Christmas gift boxes for the thousands of men and women confined in service, veteran and private hospitals.

The local committee has contacted all churches and organizations in Northville asking for donations. Due to the restricted list of gifts which may be sent to service men and women, it was decided best to stipulate that donations be in the form of money (each box costs from \$2.50 to \$5.00).

The Northville Legion and Auxiliary invite active participation in the great Christmas party for 15 (15) Michigan veteran patients. Mrs. Merrill Sweet of Grace avenue is chairman for the local drive and her committee must have all boxes ready for distribution by Dec. 10.

Explosion Wrecks W. A. Foreman Home on 7 Mile

An unusual home accident occurred here Thanksgiving afternoon, about 1:30 o'clock, in the W. A. Foreman place on West Seven Mile Road. The furnace exploded at that hour, causing considerable damage to the property, though fortunately no one was home at the time.

It is thought that the explosion was caused by terrific pressure resulting from the lack of enough water in the boiler. The utility room, kitchen and breakfast nook walls and floors were badly damaged and many windows were broken. The loss is estimated at between \$1,000 and \$1,200 and insurance is expected to cover the same.

Among the boys returning from the north woods with their backs this week were Tunis Biddle, Bill Forney, and Ernest Wilsher.

Clothing for Relief To Be Collected Here

Altho victory of arms has been achieved, liberated peoples all over the world are facing a most desperate winter, because of lack of food, fuel and clothing. Clothing being a woman's field, the Church Committee on Overseas Relief and Reconstruction is appealing to the women of America through the women's departmental organizations, in co-operation with the United Council of Church Women, to carry out this clothing relief program. At a time when many national relief organizations are being disbanded because of victory, this very victory may be made secure by the sharing of America's abundance and by continuing to contribute time, abilities and enthusiasm to help clothe the peoples of the world.

This program will be continuous and cumulative and will overlap no other national program. It will supplement the work of the U.N.R.R.A. and the Red Cross and has the approval of the President's War Relief Control Board. Distribution will be made through church centers all over the world.

The following articles are especially needed men's, women's and children's clothing, shoes, sweaters, stockings, socks, quilts, blankets, sheets, towels, old portieres and cretonnes; also small soft toys, animals and dolls. The Women's Union of the Northville Presbyterian church has already started to work on this community project, with Mrs. C. E. Woodruff as chairman, assisted by Mesdames Harold Bloom and C. C. Yerkes.

Clothing and other articles to be donated may be left at the Presbyterian church for shipment.

S/Sgt. Eber Ward Lester, Jr., came up from Camp Croft, S. C., to spend the Thanksgiving week-end with his wife, the former Virginia Price, and their small son at the family home on Carpenter avenue. A buddy, S/Sgt. Richard Alexander, accompanied him home for the holiday.

"MICHIGAN AND THE OLD NORTHWEST" Superior! Erie! Michigan!

I attended a meeting of the Northville P.T.A. last night at which a panel discussion of the educated child was presented. There was some stress placed on the subject of discipline.

It appeared to me that everyone was overlooking one of the best examples of discipline to be found. A group of third graders had sung at the beginning of the program, and beautifully too. Most of them then went down into the audience. There had been a short business meeting and then followed the discussion. Those youngsters sat through it all without making the least disturbance of any kind. Being children and so essentially honest they did not pretend to be interested in the proceedings but they saw to it that they did not in any way detract from the opportunity for their elders to listen and participate. They were not coaxed or awed they were simply well behaved.

I have no way of knowing to whom the credit should be given but in all probability the school and home should share equally.

Very truly yours,
T. Edward Johnson.

To the People of this Community

Take a tip from your favorite retail merchant. His Christmas counters are stocked for the first time since 1935 with commodities you dreamed about in the darkness of war. And yet he and his employees will go the limit today in telling you for your own good to buy "something else" first. As a war-wise thrifty American you need not be told that the name of this grocer is Victory Bonds that it can never be worth less than you pay for it, that it will return 54 for every 35 invested when held to maturity 10 years hence, that it is your personal servant at the same time it is serving your country's current needs, that it will assure you not only a merry Christmas this year but help to make Christmas merry in the years to come. Your merchant knows a great product. That's why he is putting every effort to stuff the Christmas stockings of this community with extra Victory Bonds.

THE EDITOR

Mrs. Austin Ault were in Detroit this week-end to visit the "Meet the Misses" radio program.

The Norman Kauranen attended a birthday celebration at the home of Mrs. Kauranen's mother in Detroit Sunday afternoon.

Helen Ruth Ault arrived home Sunday evening from a short visit with friends in Ohio.

Mrs. Walter Dixon, Britton Road, visited with Mrs. J. W. Ault Sunday evening.

The feature of the Thanksgiving program conducted by the Neighborhood Church Sunday morning was a talk by Mrs. Margaret Martin, Grandmother Martin, who will be eighty years old on her next birthday, described the Thanksgiving days of her early girlhood. Youngsters listened with great interest.

At the Vesper meeting in the Neighborhood Church Sunday evening the pianist, Mrs. Gordon Vance, was requested to play "Happy Birthday" music. When she agreed the group, lustily sang "Happy Birthday" to the pianist herself.

Edward Stange, Jr., is reported quite ill.

Farmers Elect Committeemen

Wayne County farmers will take time out from seasonal work in the next three weeks to elect AAA community and county committeemen for the coming year.

Three community committeemen and two alternates as well as a delegate to the county convention will be chosen in each of the county's eleven farming communities. The delegates will later elect the county committee which will administer AAA activities within the county.

Chairman Fred C. Ernest, of the county AAA committee, said today that dates, hours, and places for holding the annual election are now being determined. Announcement will be made next week.

In Wayne and Oakland Counties, Mr. Ernest said, hundreds of farmers are eligible to vote on committeemen this year. "Eligible" farmers are those who par-

ticipated in the 1945 agricultural conservation program, the sugar program, or who signed a crop insurance application.

The solution of the postwar problems ahead of us is the vital concern of every farmer. Consequently, it is to his own best interest to vote in the coming elections to make sure that the men administering AAA programs in the county are the ones he wants to represent him.

Base Line School
By Connie Reinshaw

The boys and girls had a nice Thanksgiving vacation. All are still full of turkey and did not feel much like doing school work.

The upper and lower grades are studying plays and pieces for Christmas. Studying and practicing our pieces are making up most of our English studies.

All the boys and girls had a good time at our Thanksgiving party. We played our new dart game and Joseph Vinyak won the prize. We also played bingo and Shirley Schudlick and Phyllis Becker were fortunate in getting the prizes.

Our Bible teacher will visit us November 27 so were studying the Bible verse left for us to learn.

Mrs. Dickinson bought us some new library books which are very interesting and which we like very much.

Miss Louise Hetherington, our library lady, will be visiting us some day this week and will bring us some new library books.

Mrs. Dickinson went to a music meeting on Nov. 26 at Sheldon school so school closed early that day.

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

New Veterans' Hospitals

Enlargement of the facilities of the Veterans' administration for more adequate care of returning disabled war veterans is getting under way with the announcement recently that locations had been approved for 19 new veterans' administration hospitals and additions to 15 existing hospitals to provide a total of 15,276 new beds for Veterans' administration patients.

These beds are a part of the 25,000 bed program approved by President Truman on August 4, and funds for the construction program are to be requested for the current (1946) fiscal year. The new hospitals are to be located at or near:

New Haven, Conn.; Albany, N. Y.; Buffalo, N. Y.; Newark, N. J.; Baltimore, Md.; Washington, D. C.; Gainesville, Fla.; Clarkburg, W. Va.; Louisville, Ky.; Decatur, Ill.; Duluth, Minn.; Southern Minnesota; Iowa City, Iowa; Omaha, Neb.; New Orleans, La.; El Paso, Texas; Oklahoma City, Okla.; Phoenix, Ariz.; and Cincinnati, Ohio.

In the meantime, Gen. Omar N. Bradley, Veterans' administrator, has announced appointment of Dr. Paul B. Magnuson, associate professor of surgery at Northwestern university, to be head of the research and post-graduate training program in the Veterans' hospitals throughout the country. Dr. Magnuson is considered one of the country's outstanding surgeons and orthopedic specialists.

Questions and Answers

Q. I was inducted in the army and served seven months when I was discharged on account of age. Four of us asked officers if they wished we would get out and they answered, yes. So we went to an employment office in Tacoma and received a slip saying we were more vital to the war industry than in the army and on those grounds they gave us a discharge. Now they tell us we are not entitled to mustering-out pay. At that time we knew nothing about mustering-out pay. Also am I entitled to a serviceman's loan?—R. H. Hinkwood, etc., Superior, Wis.

A. Probably you are not entitled to mustering-out pay. It may be that you were discharged before mustering-out pay was adopted, and if not, you were discharged for your own convenience to take a job in war industry, and without overseas service, are not entitled to mustering-out pay. You are entitled to benefits of the G. I. bill, however.

Q. My husband joined the marine corps in June, 1942. He spent 18 months overseas, received 3 bronze stars and the presidential unit citation, but because his record book was late in arriving at the Islands, he has not been credited with the bronze stars. How can this error be corrected? He has just been sent back to the Pacific with 57 points. I have been told all marines with 40 points would not be sent over again. He should be credited with 72 or 77 points. How can this be corrected?—Mrs. L. L. Carpenter, Northville, Mich.

A. Any superior officer who knows your husband's record could correct his record insofar as the bronze stars are concerned, the marine corps says. It is true that it is the

policy of the marine corps not to re-ship men with 40 points overseas. It is also true that your husband has more than enough points to make him eligible for discharge. The marine corps, however, says there are many reasons why he may have been shipped back for duty, one being, he may have requested overseas service. Suggest you write direct to the marine corps headquarters, Washington, D. C., and ask for details concerning your husband's record.

Q. Can a serviceman stop his allotment to his wife and child?—A. If you mean his family allowance, which is made up of equal contributions from the soldier's pay and the army, no, he cannot stop that. He can stop his allotment, which is a voluntary contribution of the soldier to his dependents over and above his family allowance.

Q. When they start discharging servicemen with two years of service will they include only those already serving two years or will it be effective for all when their two years are up?—Wife, Chelsea, Kan.

A. Under the present ruling, men in the army must be 35, 36 or 37 with two years service before they are eligible unless they have the necessary number of points. The war department says a new ruling may be in effect by midwinter to release all men with two years service, regardless of age.

"But," said the man who had gone to the butcher's shop for a roast, "you're giving me a pretty big piece of bone ain't you?" "No," replied the butcher, as he tossed the hunk upon the scales, "you're paying for it."

News from Novi

By Mrs. Luther Rix

Mr. and Mrs. Luther Lapham and daughters Lucille and Lorraine of Northville had their Thanksgiving dinner on Sunday with their relatives, Mr. and Mrs. Guy Nichols and Mrs. Eliza Nichols of Walled Lake Road.
Mr. and Mrs. Ed Schwartz were most fortunate deer hunters this year as each brought home a buck when their party came home on Monday. L. J. Futham also brought home a deer. Mr. and Mrs. L. J. Grant brought their buck home earlier in the week. L. C. Rix bagged a black bear in Ontonagon county early in the hunting season.
Mrs. Harry Watson had the honor at the District meeting of the Rebekah Lodge in November of being elected as District treasurer. At present Mrs. Watson is the Noble Grand of the Walled Lake Rebekah Lodge, No. 432 of Novi.
The Methodists will have a community night-pot-luck at the church at 7 o'clock Friday.

Weatherstripping Will Save Fuel
Proper weatherproofing of the home will save much scarce and high-priced fuel this winter. The logical place to start, says E. F. Besemer, county agricultural agent, is where the saving in heat is greatest for each dollar invested.
As a rule, storm windows and weatherstripping bring the most saving for the money. Storm windows, properly fitted, will reduce the loss of heat through window areas by nearly one-half. Condensation on windows also is reduced. Weatherstripping will provide insulation. Felt stripping is temporary and will have to be replaced frequently, but it is relatively inexpensive. Metal stripping is more permanent, but is more difficult to install, generally requiring the services of a skilled mechanic.
Insulation of the attic is the next logical step in weatherproofing. If the attic floor is unfinished, this is a very simple task. Several forms of insulation are available that may be placed between the floor joists. If the attic floor is finished and the space is to be used for any purpose, the insulation material can be applied between studs and rafters of the unfinished walls and roof.
Of less value, and much more expensive to install, is side-wall insulation. However, if wall spaces are open from sill to plate, insulating material can be forced in without great difficulty. But if braces or fire stops are in place, it is necessary to remove strips of siding at the plate and just below each obstruction to fill the spaces.

The Rebekah Club will meet on Wednesday, Dec. 5 at the hall. Mrs. Hadley Bachert and Mrs. Luther Rix will be the hostesses.

HANG ON!

Don't let go now—when the battle against rising prices is almost won. Now is the time to hang on to your War Bonds, to keep buying new Bonds, to plan your spending and plan your saving.

Here is why. Prices are high today. Goods are scarce. Competitive buying of scarce commodities bids prices up, makes our dollars buy less.

Help the nation's efforts to keep your living costs DOWN, the buying power of your dollar UP.

So, plan your savings now—buy Victory Bonds, add to your bank account regularly—for that big purchase you will want to make in the future, a home of your own, perhaps. Later, in a more abundant time, this institution can supply you with the credit needed to buy what you most want—if you save the down-payment now.

PLAN YOUR SPENDING FOR YOUR COUNTRY—YOURSELF PLAN YOUR SAVING.

Inflation Stiff China Problem

Situation Most Critical of Postwar Questions, Says Finance Minister.

By PAULINE FREDERICK—(WNU Staff Correspondent)

CHUNGKING, CHINA.—How would you like to pay \$300 for one ordinary handkerchief, or \$350 for a towel, or \$4,000 for a blouse?

These are some of the prices the Chinese are paying today, in Chinese dollars of course. I know, because I have walked through the streets of this Chinese capital and priced some of the wares in the shops along the way. And Chungking, situated on steep hills along the Yangtze and Chialing rivers, is rebuilt and doing business, even though the Japs bombed it many times.

Inflation is one of the many critical problems China has to deal with as a result of the war. When I entered the country, the black market rate of exchange in which every one deals, was 1,800 Chinese dollars to one American dollar. Two weeks later, it was 3,000 to 1. I talked with Finance Minister O. K. Yun, and former mayor of Shanghai, about the matter. He told me:

"Inflation has reached the point where it demands action, but almost anything we do now will be temporary. There can be no permanent cure for the situation until the rich areas and ports the Japanese hold are opened and more goods can be brought in to relieve the shortages. Even after the ports are open it will be five or six months more before we will get much consumer goods, for the military will probably need all the supplies up until that time."

Improvement Essential.
"When the goods do come in," Minister Yun went on, "transportation and communication will have to be improved in order to get them properly distributed."

But more than goods are needed to steady China's wobbling currency.

"We can't increase taxes now," the finance minister explained, "because of low incomes. But we are renovating old taxes and trying to open up new sources of income. Another obstacle in raising revenue is the difficulty of floating bonds because of the high profit in speculation. An investor asks why he should take 6 per cent from the government when in two weeks in speculation he can double his income."

"Would a new loan from the United States help?" I asked Mr. Yun.

"A new loan from the United States would be helpful," he replied, "but we need more than dollars. We need assets to which we can link our currency so as to give it stability."

I asked the finance minister whether price control and rationing would not help to counteract the inflation. But he said that because of China's decentralized economy, each farmer growing and transporting and marketing his own goods, it would be impossible to enforce such a program.

Exchange Rate 20 to 1.
The official government rate of exchange has been fixed at 20 Chinese dollars to 1 American dollar, but this is expected to be increased. The government rate applies to all official transactions, and for individuals who want to go to the United States and desire to change their money into dollars. The black market exchange rate is not recognized by the government. In fact, there is a penalty for dealing in it, but the market flourishes since the penalty is not enforced.

A Chinese general draws a salary of \$30,000 (Chinese) a month, or \$10 gold, roughly speaking. In addition, he receives \$10,000 worth of free rice. Cloth and oil are provided for him at the official rate. All other military and civil employees are paid on the same basis. A junior government official receives \$1,500 (Chinese) a month.

Although China's economic and financial condition is Minister Yun's primary concern these days, there is another subject very close to his heart. As I said he was the former mayor of Shanghai—he still considers himself the mayor, for he held that position in 1937 when the Japs came in. He then went to Hongkong and five minutes before the attack on Pearl Harbor, he was summoned to Chungking to be vice minister of finance. Last year he succeeded Dr. H. H. Kung as minister. Mr. Yun is going back to Shanghai one of these days, so I asked him what he would do first in that event.

"I will direct the rebuilding of Shanghai and help it to regain its position," he said. "This will need foreign co-operation."

What's the matter, darling?" she asked, meeting him at the door. "You're awfully late, and you look so worried."

"I couldn't get the books to balance," he replied.

"Well, then, why don't you ask them to get you some that will?"

"So you are going to the hospital? You look perfectly well."

"Oh, yes, I feel well enough too, but I've decided to undergo an operation."

"What for?"

"To find out whether anybody cares enough for me to send flowers."

See-Action News Letter

The continued drift of the Nation towards state socialism, although to a lesser degree than in the case of England under the Atlee labor government, is illustrated by President Truman's message to Congress (Nov. 19) advocating national compulsory health insurance.

It is not the presumptuous intention of this column to proclaim judgment on the merits of national health insurance. We do feel, however, it is proper and timely to present the viewpoint of the average Michigan physician and surgeon, as represented by his state professional organization, and to outline briefly the general issue involved.

Medical care is a subject that reaches into the intimate lives of every man, woman and child in every community of Michigan. Health insurance typifies the

AMERICAN HEROES
by WOODY COWAN

INVESTING in War Bonds with their increase in value each year judged against the courage of Lt. J. L. Knight, Weatherford, Texas, 124th Cavalry Reg., seems insignificant, but it helps supply our fighters with weapons. Facing heavily defended Jap positions on the Burma road, Lt. Knight led his men through dense jungle and secured their objective. Reconnoitering the area, he found himself in a honeypot formation of concealed Jap pillboxes and their grenades, destroying four. Wounded, he saw that those in his command were protected until he died. A medal of honor was awarded Lt. Knight posthumously.

growing controversy over voluntary vs. compulsory action as a solution of our many complex problems.

Prior to World War II, compulsory health insurance had been adopted by twenty-nine countries with a combined population of more than 500,000,000.

Five additional nations, as a substitute for compulsory health insurance, granted government subsidies to volunteer organizations (sponsored by doctors) which insured their members in an acceptable manner. They are: New Zealand, Belgium, Sweden, Denmark and Spain.

The American movement began about 1915 following the adoption in England of the British Act of 1911. However, the idea was not received here favorably at the time. The American Medical Association went on record against it in 1926; among the critics were insurance companies, many employers' organizations, druggists and patent medicine manufacturers. The American Federation of Labor through President Campers and the executive council, and several religious groups. It was denounced as being un-American, socialist, a wrong method of attack, and a death blow to the personal relationship between doctor and patient—just to mention a few objections.

After considerable discussion, the Michigan medical profession chose to do something about it.

The Michigan State Medical society, 4,600 members strong with William J. Burns as a talented and capable secretary, evidenced its progressive leadership by recognizing the basic need for prepaid health insurance.

Instead of compulsory insurance under government control,

the Michigan remedy was that two volunteer, non-profit corporations, the Michigan Medical Service and the Michigan Hospital Service, each chartered by the state legislature in 1939 whereby any citizen is eligible to subscribe to low-cost insurance covering both medical and hospital expenses.

Today the Hospital Service has more than 1,000,000 members; the Medical Service, close to 900,000. No other state health insurance program has begun to approach this outstanding success. Michigan not only leads the entire country; it leads the world.

Paradoxically, Michigan's progress reveals and emphasizes a weakness of the American Medical profession.

While 568,000 persons are now insured in Michigan against medical expense incurred during illness, only 200,000 are so protected in Massachusetts and 175,000 in California, second and third ranking states in voluntary health insurance.

To expect the only prevailing idea elsewhere, the Michigan medical society last April invited presidents of seventeen state groups in the Middle-West to a conference in Detroit. Its success led to the calling of a western regional conference in Colorado last June for ten states. And finally, in an effort to induce national action, the cooperating 27 states—led by Michigan—are sponsoring a national conference in Chicago Sunday (Dec. 2).

While Michigan leaders remain discreetly silent, doctors admit privately that Michigan's leadership has not received the blessing and support of the august and distinguished American Medical Association which remains officially aloof, now as in the past from the field of social insurance.

The number of days lost by illness is forty times greater than the time involved in involved in industrial strikes over a ten-year period.

Forty per cent of counties in the United States lack a hospital; this deficiency is particularly severe in rural areas.

You can't blame the Michigan doctors for being genuinely concerned. If voluntary medical insurance can meet the challenge, national insurance and control may be averted. Can the "forest fire" be stopped? Is there time?

It is another test of the free enterprise system, of voluntary cooperation vs. state collectivism. History insists that every great war is followed by drastic change. A sharp swing to the left, bringing socialization of our modern economic life, would inundate the institution of private medicine just as it would every thing else. The doctors' dilemma affects us all.

"Isn't it about time for us to be starting for the dance?" the young man asked.

THERE ISN'T ALWAYS ROOM FOR ONE MORE

THE odds are against Casper's breaking this manpower bloc. There's just one too many! And in a home that has inadequate wiring, your electric toaster may be one appliance too many for the circuit to carry. It isn't a happy home where Mother hasn't her brand-new frozen-food cabinet where she wants it, because there's no outlet—or where Sister can't have a light for her dressing table without moving it. It's great to have that favorite lamp by your easy chair—if that outlet isn't on a circuit that's "overloaded" because of improper distribution of outlets per circuit. Have your home as adequately wired as a new house—as well prepared for every new electrical appliance. It will pay you in comfort the few dollars it costs to modernize your wiring system. And if you plan on building your own home, be sure there are plenty of outlets, conveniently located and served by enough circuits properly distributed. Good lighting insures good housekeeping, more comfortable living and more convenience for the family.

This is one of a series of advertisements prepared in cooperation with the Electrical Contractors in your area in the interest of insuring adequate wiring for every home. When you build or remodel, be sure your home is properly wired. For wiring recommendations, call your local Detroit Edison office.

Want Fewer Parties on Your Rural Telephone Line?

There's good news for farmers and other rural residents in Michigan Bell's 5-year \$13,500,000 rural expansion and improvement program. Here are some of the ways this program will give better service to more people:

1 Construction of more lines will mean fewer parties per line for many customers. That will make service better, faster and more pleasing for all concerned.

2 Important new devices and new construction methods will make telephone service available to more rural families than ever before.

3 Michigan Bell also plans to install dial telephone systems in many more rural sections—another big step forward in increasing the speed and accuracy of rural telephone service!

4 In accordance with the plan worked out with the Michigan Rural Communications Committee, a group of agricultural leaders, we will continue to provide a liberal amount of free line-construction, with small monthly payments in cases where construction charges are involved. This will mean more farm families with telephones—more people you can reach from your telephone!

Tags should not be used unless necessary, in which case a copy of the address and return card should be placed inside the parcel for identification if tag is lost.

Packing and Wrapping - Pack articles carefully in strong durable containers. Wrap parcels securely, but do not seal them except when bearing a printed endorsement, reading: "Contents, merchandise." Postmaster: This parcel may be opened for postal inspection if necessary, together with the name and address of sender, as sealed parcels not so labeled or endorsed are subject to postage at the letter rate. The name and address of the sender may be handwritten or typewritten on the labels.

Perishable matter - Parcels containing perishable articles should be prominently endorsed with the word "perishable" by postmasters or other postal employees. Articles likely to spoil within the time reasonably required for transportation should not be accepted for mailing.

Limit of size - Parcels may not exceed 100 inches in length and girth combined. The limit of weight of fourth-class or parcel post matter is 70 pounds for all zones, including Manila, Lillo, Cebu, Zamboanga, Davao and Baguio, P. I., but parcels for other places in the Philippines may not exceed 20 pounds.

Permissible additions and enclosures - Parcels may be marked "Do not open until Christmas," this being permitted in order to encourage early mailing. Written greetings, such as "Merry Christmas," "Happy New Year," "With Best Wishes," and names, number, or symbols, for the purpose of description, may be enclosed with third or fourth class (parcel-post) mail. Books may bear simple dedicatory inscriptions not of a personal nature. Other written additions subject parcel to letter postage. Do not enclose letter in parcels, as doing so would subject entire parcel to letter postage. Communications prepaid at the first-class rate by securely attaching the envelopes containing the letters or other written matter to the outside of parcels.

Seals - Christmas seals or

stickers should not be placed on the address side of mail.

Stamps - Mailers may save time by buying postage stamps in advance.

Special Handling - Fourth class matter only. Parcels of fourth-class matter, endorsed "special handling" will be given the most expeditious handling and transportation practicable (but not special delivery) upon payment, in addition to the regular postage of the following charge: Up to 2 pounds, 10 cents; over 2 pounds up to 10 pounds, 15 cents; over 10 pounds, 20 cents.

Special delivery - The prepayment to the following fee on first, second, third, or fourth-class mail matter entitles it to the most expeditious handling and transportation practicable, and also entitles it to special delivery at the office of address. Up to 2 pounds, first class, 15 cents; second, third or fourth, 17 cents.

Over 2 pounds, up to 10 pounds, first class, 20 cents; second, third or fourth, 25 cents. Over 10 pounds, first class, 25 cents; second, third or fourth, 35 cents.

Insurance - Parcels should be insured. The fees are: For parcel valued not over \$5, 3 cents; over \$5 but not over \$25, 10 cents; over \$25 but not over \$50, 15 cents; over \$50 but not over \$100, 25 cents. Return receipt 4 cents extra. All in addition to extra postage.

Rate of postage for Christmas cards - Because of the many advantages that will result postmasters are urged to inform mailers to send their holiday greetings at the first-class postage rate, explaining that when so sent the greetings may be sealed and contain written messages not otherwise permitted, therefore having a personal appeal which is, of course, more highly appreciated by the recipients; that such greetings are dispatched and delivered first, given directory service, and, if necessary, forwarded without additional charge; also, if undeliverable, they are returned without charge provided the sender's return card is shown on the envelope.

On the other hand, printed Christmas greetings mailed in unsealed envelopes at the third-class rate which cannot be delivered at address, because of the removal of the address or for some other reason, must often be destroyed as waste, thereby causing disappointment. Greetings mailed at the third-class rate are not entitled to the free forwarding privilege accorded those mailed in sealed envelopes at the first-class rate and, consequently, the sender in many cases never knows that the greetings were not received by the addressee. This would not occur if the greetings were mailed sealed at the first-class rate.

To the People of this Community

Extra Victory Bonds are on sale. Bankers will say that they are the best investment ever offered you. The GIs in conquered Tokyo and Berlin will say that today is a new moment for you to show that you are keeping faith. The economist will say the Victory Loan is the opening of the home front's greatest anti-inflation offensive. Ted R. Gamble, National Director of the War Finance Division, declares that millions of volunteers are in action with inexhaustible supplies of an incomparable product to sell fellow Americans.

The Victory Loan is all of these things. It represents your will to help the government pay off war costs, care for the wounded, maintain our troops abroad, finance the return to civilian life of millions of fighting men.

From every angle, you will be serving your own best interest by seeking out the nearest Victory Bond salesman. You can't buy too many or too often for your own good.

Victory Bonds Help Him

IN SOUTHERN CALIFORNIA—Bo A. Budge, Bay a Victory Bond is the slogan of Southern California students' Victory Bond drive this semester. Demonstrating is Miss Beverly Jeanne Lake of City College of Los Angeles and the attentive (yes, he's ill) soldier is Sgt. Arnold Arvin, wounded infantryman, convalescing at Birmingham General Hospital.

These Are Veterans

RETRAINING FOR LIFE—The Veterans' Administration, backed by the dollars from the Victory Loan, will give retraining to thousands of disabled veterans similar to these two more boys shown at George Washington University, Washington, D. C. Veterans' Administration photo.

Victory Loan Trainee

IS THIS VETERAN—A beneficiary of Public Law 16 is shown engaged in learning the intricate aviation engine. From a foxhole, after he gave up his education, to resuming his education is some jump, but this man, like thousands of others, will make it because of Victory Loan dollars. Veterans' Administration photo.

Picture of a One-Man Bond Drive

IN ACTION—Harry B. Smith, sports editor, emblems of a San Francisco newspaper, shown in action in his one-man War Bond campaign in the 7th loan when he sold 35,933,792—one-sixth of all War Bonds purchased in that city in that period. He is positive he will do as well in the Victory Loan.

Working Toward Stability

ARE THESE VETERANS—Disabled veterans, more youth, who were wounded are shown being given shop training so that they may make their own way in life. Training is paid for by the Veterans' Administration through Federal funds such as Victory Loan Bond dollars. Every Victory Loan Bond helps some disabled vet. Veterans' Administration photo.

HANDLING PEONIES.

Peonies should be dug and divided or transplanted now. However, if peonies are doing well, they should be left alone. Only when propagation is desired or when it is necessary to move them to a new location should peonies be disturbed. When replanting, the divisions should be placed in the ground so that the eyes or buds are about two inches below the surface. Peonies can be planted in the spring with success, but fall planting is preferred.

COTTONTAIL REPELLENT

The Michigan State College departments of horticulture and zoology have devoted much research to testing coatings that might be applied to trees to repel cottontails. The material so far found to be the simplest to make, easiest to apply, and most positive in effort is a varnish made as follows:

Dissolve one pound of powdered wood resin in 34 pint of high grade radiator ethyl alcohol. Thoroughly seal the container to prevent evaporation, place in a moderately warm room, shake the mixture occasionally until resin is dissolved. It is then ready to be applied. One coating applied in a hand sprayer or with a brush is sufficient for the winter. This material is sold in quart and gallon containers by a number of supply houses.
