Cash or Paid Up Insurance Policy—Live Question at Vet Meeting

By GENE ALLMAN

A cash bonus of a fourteenth paid up insurance policy for life? That's the veteran issue, in a nutshell, which will be discussed at Lansing this evening (Jan. 10) by members of the Michigan Veterans' Advisory Committee, comprising representatives of the American Legion, Veterans of Foreign Wars and other recognized veteran organizations in Michigan, who will meet with Governor Harry F. Kelly and officials of the Michigan Office of Veterans' Affairs.

Michigan's state treasury has \$51,000,000 tucked away, tagged for use of Michigan veterans. The war is over, and although only one-third of the Michigan veterans are back home, the question is already a "hot" one, and legislators are beginning to wonder what the answer should be.

Since Michigan veterans are perhaps most concerned and more directly interested than anyone else in how the \$51,000,000 fund should be spent, Governor Kelly has concluded that the veterans' organizations should take the initiative in making a definite recommendation.

There is no official secret at the capitol that Governor Kelly does not look with favor upon the politicians' dream of dividing up \$51,000,000, giving a check to each veteran.

On several occasions the governor has inferred strongly that such action would not be in the best interests of Michigan veterans, stating that the state legislature, acting upon the recommendation of veteran organizations, should set up a trust fund from the \$51,000,000 now on hand.

The interest of the trust fund, so created, would be made available to accredited veteran organizations for use in meeting the needs of veterans and their families on almost an indefinite, life-time basis.

For example, the State of Nebraska utilized the interest of a veterans' trust fund, established in 1921, to cover such emergency needs as food, fuel, wearing apparel, medical or surgical aid, care of relief, funeral expenses, care of dependent children, or wives and widows who may be in need of assistance.

annual needs of Nebraska veterans and the 1921 fund, augmented substantially to meet 1945-46 conditions, will be available to do the same for veterans of World War II.

Prevention of fraud was provided in a penalty of a \$500 fine or six months' jail imprisonment for any veteran who "knowingly, by fraudulent representations," might obtain any payment or aid from the veterans' trust fund.

One of the unique benefits of the veterans' trust fund plan is the fact that no Michigan veteran would be forced to request public charity or relief for himself or members of his family.

It is akin to a savings account in the bank which is available for "rainy days." Except that the account, in this case, would be administered by veterans' organizations and not through public welfare agencies.

more, the taxpayers benefit by knowledge that they will not be called upon to pay additional taxes for the public relief of distressed veterans.

Dwight Griswold, governor of Nebraska, reports that the veterans' trust fund is very popular with the state's citizens, and, in fact, was suggested by the American Legion state department in 1921, and hence is non-political.

By giving the veterans' organizations power to handle the sums, according to agreed upon requirements, the state has avoided the burden of a "big question" under state supervision. All local work is performed by officers of the veterans' posts in local communities.

Here is an interesting quotation by Governor Griswold: "The State Fund Relief has proven highly satisfactory to the World War veterans themselves. It is their feeling that the man who is able to take his own care doesn't need a cash bonus from his state. They feel that the needy veteran is the one who deserves help, and they know that State Fund Relief will provide that help."

Whether Michigan veterans' organizations will fall into line with the thinking of Governor Kelly and recommend the establishment of a similar trust fund for Michigan veterans is the question before the Michigan Veterans' Advisory Committee tonight (Thursday) at Lansing.

There is every indication that the veterans themselves will favor such a program and will solve the dilemma of politicians, who for the sake of baloney, lean toward the idea of distributing \$51,000,000 in 1946 to all.

Amend Report of Paper Drive

Additional receipts of waste paper recently reported makes the Rotary paper drive take on new proportions. Correcting our report of last week when we said nearly six tons, we find that we confused 12,000 pounds with 12 tons, and therefore were considerably off the beam on the total paper pickup. Correcting our error the pick up really totaled about 12 tons.

Livonia Faces Building Problem

Architect's Estimate of Increased Costs Stagger Board, When State and Federal Aid Seems Unlikely

The Livonia Board of Education reports that the architect's estimate on the cost of the new high school have been upped \$129,000 over the original amount. Now the 5 unit tax levied will not provide enough money to even start work.

The State Department of Education offers no encouragement for immediate state or federal aid, and offers as the only solution an increased local tax levy.

The Livonia Board unanimously objects to additional local taxation as too much of a burden to finance the project over the five years period as required by law.

Sept. Harry Johnson calls attention to the crowded conditions in the adjoining high schools which will cut off pupils from Livonia Township.

George A. Bakewell, Secretary, states: "Records show that more than 1700 homes have been constructed in Livonia Township since 1945."

The Board is furnishing John P. Espie, Chairman, Ways and Means Committee of the State Legislature, with a complete analysis of the situation.

The Northville Blue Star Mothers will meet in Veterans' Hall next Monday evening, Jan. 14, at 7:30 o'clock. Installation of officers will take place and the regular monthly business meeting held.

She said that "unless we pay more attention to our children in the home, the casual titles of the home front during the war period will far exceed those of the battlefield. We must allow them active participation, rather than passive watching while others perform. Social personality must be developed, the facts of health made known, the molding of character attempted during the 30 hours in school supplemented by helpfulness from parents and the home where 160 hours accumulate weekly."

Miss Hutzler congratulated the community on its work and its fine young people.

Production Dept. of Red Cross Closes

The Production Department of the Northville Red Cross closed its war work on Tuesday, Jan. 8. The demand for work is now such that the larger units will be able to take care of sewing and knitting unless an emergency arises.

A pot luck luncheon at noon was enjoyed by twenty workers and board members in the Methodist Church house, which has housed the sewing rooms for the local Red Cross work.

During the five years of war about 45,000 hours of work has been done for the Northville Production Department by local volunteers and more than 4,000 knitted and sewed garments were sent into Red Cross Headquarters.

A few knitted garments are still out and when finished each may be returned to 404 W. Dunlap.

This fine record for Northville's war years was achieved by a large number of patriotic village women, many of whom had some one in service. Many of them have reported regularly at the sewing rooms each Tuesday for a full day of sewing and the majority have also put in many hours knitting at home.

Arson Charge in Connection with Maybury Fire

According to the Detroit News of last Friday, Detroit police are holding Frank Duckett, of that city, a discharged war veteran, on an arson charge, as the result of his confession that he set fire to one of the Maybury San buildings, located on Seven Mile Road, just west of this village, on Dec. 9 last.

Duckett was arrested Jan. 14 after Detroit firemen, answering false alarms from downtown boxes, had frequently seen him loitering nearby.

The News "In a short quiz by Inspector Roderick Goerz, head of the arson squad, Duckett confessed he set fire to the hay barn at the Northville Tuberculosis Sanatorium, on Dec. 9, sent in "three false alarms from the Marine Hospital, where he was employed for a short time and more than 20 from downtown boxes in the last three months."

It was all, he told Goerz, because "I like to see those engines run."

The Northville fire destroyed the hay barn, with damage of \$7,500, and Duckett, who had just been employed, was among the employees who helped the Northville fire department fight the flames.

Duckett denied setting any other fires.

"I don't like fires so well," he said. "But I like to watch those big trucks. I couldn't get to the fire to get the trucks out there."

I GRIND LENSES IN MY OWN OFFICES

A "Look at the Books" OR "A Finger in the Pie"?

Which is the UAW-CIO really after? Is it seeking facts—or new economic power? Does it want to know things—or run things?

These questions concern you as well as General Motors.

For years the facts about General Motors have been made public.

In spite of this, the UAW-CIO demands a chance to look at our books, with the hint that we could meet Union demands "if the truth were really known."

We have firmly declined to recognize this as a basis for bargaining:

- 1. The Full Facts are Published**
How much General Motors takes in each year—how much it pays employees—how much it pays to stockholders—how much it pays in taxes—how much net profit we make—and many other facts are plainly stated in annual reports and quarterly reports.
These are broadcast to 425,000 stockholders from coast to coast—sent to newspapers and libraries. Additional copies are free for the asking.
- 2. All Figures are Thoroughly Checked**
Every General Motors annual statement is audited by outside auditors. Similar figures are filed with the Securities & Exchange Commission.
Does the UAW-CIO honestly believe that General Motors would or could deceive these experts?
- 3. Basis of Collective Bargaining is Defined**
The Wagner Act lays down the rules for collective bargaining. These cover such areas as rates of pay, hours of work, working conditions.
No mention is made of earnings, prices, sales volume, taxes and the like. These are recognized as the problems of management.
- 4. Something New has been Added**
The obvious fact is that the UAW-CIO has gone beyond its rights under the law—and is reaching not for information but for new power—not for a look at past figures, but for the power to sit in on forecasting and planning the future.
A "look at the books" is a clever catch phrase intended as an opening wedge whereby Unions hope to pry their way into the whole field of management.
It leads surely to the day when Union bosses, under threat of strike, will demand the right to tell what we can make, when we can make it, where we can make it, and how much we must charge you—all with an eye on what labor can take out of the business, rather than on the value that goes into the product.
- 5. This Threatens All Business**
If the Union can do this in the case of General Motors, it can do it to every business in this land of ours.
Is this just imagination? Union spokesmen have said, "The Union has stated time after time that this issue is bigger than just an ordinary wage argument, that it is bigger than the Corporation and bigger than the Union."
For Labor Unions to use the monopolistic power of their vast membership to extend the scope of wage negotiations to include more than wages, hours and working conditions is the first step toward handing the management of business over to the Union bosses.
We therefore reject the idea of a "look at the books" not because we have anything to hide but because the idea itself hides a threat to GM, to all business, and to you, the public.

The Sunshine Sisters held their New Year's meeting in the Neighborhood Church on Wednesday afternoon. Illness among the ladies interested interfered greatly with the attendance, but it proved a happy occasion for those present. Thoughts on the New Year were prominent during the Sunbeam period and a decorated "Happy New Year" cake was a feature of the social hour. The next meeting of the Sunshine Sisters will be held in the Neighborhood Church on Wednesday, Jan. 16. At this meeting "Babies" will be the topic of discussion and a new little Sunshine Sister is expected to be on hand for presentation to the ladies. Sandwiches and cake are to be served.

THERE ISN'T ALWAYS
ROOM FOR ONE MORE

Abdul doesn't know that a straw too many can break the camel's back. And many people don't know that one appliance too many on a circuit is the cause of that troublesome blown fuse. Many people are accustomed to inadequate wiring. But overloaded circuits are not your only handicap to home happiness if you have inadequate wiring. It means, too, improper distribution of outlets—not having the electric rooster where you want it because there's no outlet convenient, or it means that Dad can't use that electric shaver where he wants it. Don't think "there's always room for one more." Don't be like Abdul. Adequate wiring means a home for you "as good as new"—good enough to use every new appliance you'll want in your home. And, of course, if your plans for tomorrow include a brand-new home, adequate wiring is an "A-1" item to check in plans and specifications.

This is one of a series of
advertisements prepared
in the interest of the elec-
trical contractors in your
area to insure adequate
wiring for every home.
When you build or re-
model, be sure your home
is properly wired.

Production Dept.

(Continued from front page)

Chas. Murphy have acted as chairman and assistant chairman of the Production department since July, 1943. Previous to that time Mrs. Lee Shipley had been in charge of the work for two years, resigning when she went into the employ of the local D. and C. store.

Mrs. J. L. Calkins has served as supervisor of sewing for more than four years. Mrs. Kate Crandall filling that post for the first period. Mrs. H. A. Boyden was assistant supervisor for more than two years.

Mrs. Eber Ward Lester resigned as local chairman of the Red Cross in July, 1943, after ten years of service in that capacity. Mrs. Ernest Wood was appointed to that position which carries responsibility for all local Red Cross projects.

Headquarters for the department were first in the Methodist church, then in the old Legion Hall on Main street. They were moved back to the church house in September of 1943, where they have since remained.

Sewing machines, both the old

time and the modern electric varieties, used in this department were loaned by Northville citizens who also thus did their bit in this particular war effort.

The records of the village production work go down to posterity, along with those of the can-teen, horse nursing, O. C. D. organization, medical unit, Red Cross classes, etc., as bright spots in the history of Northville.

Optimism is the ability to speak of "my car" in the face of a chattel mortgage, six payments still to be made, a bill at the garage, and State and city license-tag time just around the corner.

After all, 1946 is an election year. But, veterans' needs will continue in 1947 and the other years, one by one, for decades to come.

The decision is primarily one for the veterans to make.
