Mich. Bell Challenges Commission Order

The Michigan Bell Telephone Company is challenging the order of the Public Service Commission directing the company to refund \$7,000,000 to customers from 1944-1945 revenues and to reduce 1946 rates by an amount computed at \$3,500,000 by the Commission.

"We feel obligated to oppose any action that we believe will jeopardize the quality of future service to the public," said Thomas N. Lacy, president-elect, as the company filed a bill of complaint this week in the Ingham Circuit Court seeking to set aside the Commission's order.

Lacy refused, the company pointed out a similar order directing a refund of \$3,500,000 for 1944 was set aside by the former Public Service Commission on the grounds that the Commission is without authority to make a retroactive rate cut that issue is now before the Supreme Court on appeal.

Rate reductions under the order would greatly exceed the \$3,500,000 claimed by the Commission, according to the company. "Unless conditions not now foreseeable were to improve the situation, the order would reduce our earnings to the point of impairing our credit," Lacy said.

"If continued too long, insolvency would be the inevitable result."

When the financial structure of a public service institution is unpaired, rate increases are necessary or service slips. Michigan has had a recent example of that simple fact in the fare increase by Detroit's public transportation system.

Although the Commission cited tax reductions for Michigan Bell in 1946, it ignored inflationary trends of increased wages and prices that would more than wipe out any such advantage, the company said.

The order, according to the company, would reduce earnings to less than half the average rate of leading manufacturers with which the Bell System must compete for funds—money needed to finance the company's \$120,000,000 postwar construction program, including more than \$27,000,000 scheduled in 1946.

P. O. Receipts Show Increase

Northville Office Misses First Class Rating by Only Small Margin

The Northville Post Office missed the required receipts for a first class office by only a few hundred dollars in the calendar year of 1945. According to Postmaster Fred Van Atta the year showed 4% gains over 1944, and postal receipts came to \$38,315.82.

During 1944 money order business came to \$325,040.53 with the sales pretty well distributed throughout the year. The first quarter was the largest with sales totaling slightly over \$67,000.00.

Postal saving now total \$348,320.00 at the local office and bond sales through the year showed a face value of \$218,671.65.

With a little more push and increase in business mailing here it may readily be seen that the Northville office was in all probability made into a first class office in 1947.

Made Citizen of French City

Sgt. Earl E. Burchfield, Jr., Honoree of Nice, France, in Day-Long Ceremony

Sgt. Earl E. Burchfield, Jr., of Northville, was made an Honorary Citizen of Nice, France, in a day-long ceremony in Northville on Tuesday, January 15th. The ceremony was held at the home of the soldier's parents, Mr. and Mrs. Earl E. Burchfield, Sr., and Mrs. Burchfield.

Sgt. Burchfield was made a Nice citizen by the Mayor of Nice before a huge holiday crowd which jammed the Place Messena and nearby streets. Following the Mayor's address, the Northville soldier acknowledged the honor and expressed appreciation to the people of Nice for the way they had received him and his fellow American soldiers.

"I have grown to like the French people very much," he continued. "As a matter of fact, I liked one so much that I married her." His wife is the former Mademoiselle Lysette Desgouttes, whom he married recently in Nice.

After a parade and street dance, a party of 40 soldiers and 120 civilians were received at the Prefecture, in the first reception since before the war. Later, Sgt. and Mrs. Burchfield dined with the Prefect and his wife.

Sgt. Burchfield was selected Honorary Citizen in a drawing. He was one of the 100 who made the Southern France invasion and is now stationed there with the 62nd Military Police Battalion. Originally with the First Ranger Battalion, he served in Africa and Sicily and was wounded during the liberation of Menton, about 15 miles from Nice.

**Unemployment Increases**  
 The veterans' administration has paid out approximately \$102,750,000 as of December 15, for unemployment compensation to approximately 581,000 veterans of World War II. For the week ending December 1, the total of jobless veterans was 277,380 out of about 4,000,000 discharged from the armed services.

But according to records of the veterans' administration, each week sees an increase in the number of jobless in all states except three, where there are Michigan, where as of November 24 and the week ending December 1, unemployment had decreased from 18,414 to 13,770; Ohio, where the decrease was from 3,954 to 1,337; and in Oklahoma where jobless decreased from 2,433 to 1,457.  
 In New York unemployed veter-

ans were reported to have increased to 11,000 from 10,000. Michigan Bell has now asked the Ingham Circuit Court for relief from an order of the Michigan Public Service Commission directing us to refund \$3,500,000 from 1944 revenues. That court declared the order illegal on the grounds that the Commission has no authority to make a retroactive rate reduction. The issue has been taken to the Michigan Supreme Court on appeal.

**Questions and Answers**  
 Q. My boy entered the army in June, 1943, and went overseas early in December of the same year. I am his aged and crippled mother, all the dependent he has. Is he entitled to a discharge? — M. W., South Edinburg, N. Y.  
 A. Not necessarily. If you wish to apply for his discharge on a dependency or hardship basis, consult with your local Red Cross about inaugurating such a discharge.

Q. Would a discharged soldier with 40 months' service, 27 months overseas, be eligible for the \$20 per week income, where he has rented a farm and moved to same, is married and has no regular income? — A. L., Winfield, Kans.  
 A. No. The veterans' administration says you must register with the USES and apply for a job in order to be eligible for unemployment compensation. However, the law says that where a veteran enters business for himself and his earnings in the previous month were less than \$100, he may apply for an allowance equal to the difference between \$100 and his net earnings for that month. Suggest you apply to your nearest regional veterans' administration office to determine if farming is regarded as a business.

Q. My brother has served four years in the army, two in the states and two overseas. He is in the air corps and has 70 points. Why is he not already discharged? — Sister, Converse, La.  
 A. There is no reason why he is not already out of the army, if he wants to be out, unless he is in the Pacific theater where there is a shortage of transportation. Return of some high point men is being held up because of lack of transportation from this area.

Q. My husband was inducted into the army in July, 1942, at which time we had one child. For three months, August, September and October, 1942, I did not receive an allotment. Am I entitled to get that pay now?  
 A. Yes, if you have not already received it, you should apply for it immediately.

I wrote to them many times but never got an answer. My husband is now discharged.—Wife, Greenbush, Minn.  
 A. Write to the Office of Dependency Benefits, War Department, Newark, N. J.  
 Q. If boys who had signed up for one year in the regular army are sent overseas, will they be returned to the states when their year is up or will they have to remain until they get enough points? — F. L., Lancaster, Wis.  
 A. If you mean boys who have enlisted in the regular army for one year after at least six months' service, they will be discharged at the end of the year's service.  
 Q. Is there any chance of my husband getting a discharge from the army on the ground of owning a small farm? He is over 35 but has only three points to his credit.—A reader, Columbus, Ohio.  
 A. There is not much chance unless he can prove that the produce from his farm constitutes a public necessity in his community.  
 Q. Please tell me why there are men walking around with discharges and 41 points and no children, when my husband is in Europe with 83 points and four children.—Mrs. L. H., Charlottesville, Va.  
 A. Your husband is certainly eligible for a discharge and the war department says he should be home by January 1, 1946, unless he has requested continued overseas service. All men with three children are eligible for discharge under present discharge rulings of army.

**WHY Michigan Bell Goes to Court Again**

A year ago, Michigan Bell asked the Ingham Circuit Court for relief from an order of the Michigan Public Service Commission directing us to refund \$3,500,000 from 1944 revenues. That court declared the order illegal on the grounds that the Commission has no authority to make a retroactive rate reduction. The issue has been taken to the Michigan Supreme Court on appeal.

On December 13, 1945, the Commission issued another order directing us to refund \$7,000,000 from 1944 and 1945 revenues and to reduce rates for 1946 by an amount estimated by the Commission to be \$3,500,000. Michigan Bell has now asked the Ingham Circuit Court to restrain the Commission from enforcing this present order.

We went to court BEFORE because of our obligation to protect the service we render the public. For the same reason, we must go to court AGAIN.

We can afford no such reduction in our revenues, and the same conditions apply to the refund provisions of the new order as in the 1944 order, previously held illegal.

Each utility, the same as each different business, has its own individual problems. During the war, we gained a large number of telephones, although restrictions prevented expansion of facilities to meet ordinary civilian needs. We still are far behind the demand for service.

We are shy \$50,000,000 of investment in facilities needed to serve today's business the way it should be served. This plant already would have been built had it not been for the war. Now it must be built. But as we add these new investment dollars, with no additional revenues from the increased investment, our rate of earnings will go even lower than the inadequate level to which it already has fallen.

Michigan Bell's earnings today are a lot lower than those of most industries. Our wartime earnings were the lowest in history except during the depression. Now and in the future, savings from lower taxes will be more than offset by the increased costs of doing business. Our basic wage rates, for example, are up more than 10 per cent since a year ago and the national pattern of further wage increases is still a matter of debate. Other costs are climbing higher every day.

Unless conditions not now foreseeable improve the situation, the Commission's order would reduce our earnings to the point of impaired credit, which, if continued too long, would result in insolvency.

When the financial standing of a public service institution is impaired, rate increases are necessary or the service slips. Earnings must be fair over the years or good telephone service cannot be maintained.

If refunds and a rate reduction cut our earnings further, it will tend to discourage folks from investing their money in the telephone business. And we'll be needing more investment money from now on to expand and improve telephone service in keeping with the high standards you want.

Michigan Bell's objective is to furnish the best possible service at the lowest possible cost. Since 1936, the last time the Company challenged a reduction in exchange rates, there have been numerous rate cuts, representing a total savings of some \$7,700,000 a year on the basis of present usage.

Looking toward the widest possible use of the service, we expect and want our rates to come down as rapidly as technical improvements will permit. Such improvements in the past have kept telephone rates down in the face of rising costs. But today, increased costs are coming so rapidly that improvements in the telephone art cannot keep pace in offsetting them. We simply cannot afford another rate cut at this time.

What it all adds up to is this—Michigan Bell is not in court seeking increased rates or large profits. The Company is in court AGAIN to contest an order which is contrary to present economic conditions and which cannot be carried out at this time without jeopardizing the future quality of your telephone service.

An exhaustive study by Allen Shoefield of The Detroit News staff reveals an alarming situation in Michigan.

Teachers are leaving, buildings are deteriorating. From one-room schoolhouse to state university, education is being starved by neglect, lack of funds and political scheming. Education is at a crisis.

What are you going to do about it? First, read the Shoefield articles. Dr. Eugene B. Elliott, state superintendent of public instruction, says: "I think this is the best popular exposition of the school problem I have ever seen in print."

### Huffmans Write Letter from California

The following letter was written to the Record office staff by Fred and Mary Hoffman who recently moved from River street, Northville, to Eagle Rock, Calif. "A Happy New Year to you and to our beloved little Northville. This comes a little late, but we were so busy that we really did not have much time around the season. We finally found a home and of course we are happy because the housing situation is desperate out here.

I read in the December 28th issue of the Record that a group of Northville girls (all known and dear to us) had a gathering at the home of Marilyn Cavell Casady. If I had known I would have dropped in to wish them a most Merry Christmas, as we live in Eagle Rock, walking distance from Glendale, and we would have been happy to see them all.

The weather out here is just beautiful. We put carrots, beets, beans and peas in our garden and have the best ones doing these things.

Will you kindly send the Record to our address?

Triplets are an expensive addition to any family. There isn't always room for another in the buggy—or in the budget! And there isn't always room for the extra lamp or appliance you want to have—if your wiring is inadequate. An inadequate wiring system means frequent blown fuses, resetting of circuit breakers and a loss of electricity which you pay for in both money and benefit. Having that recreation room you've always wanted may be a grand idea—that is, until you discover that you can't have lights without a network of "drop cords." And your plan to get Junior's electric train from underfoot by putting it in the attic won't be thwarted if you've modernized your wiring system to meet such needs. Adequate wiring means even distribution of outlets on each circuit, that does away with "overloading" and frequent blown fuses. It means the "full light" of satisfaction in your home.
