To Build New Addition to Sessions Hosp.

\$20,000 Will Be Spent to Enlarge Present Facilities Along West Side of Present Structure

A new wing is to be added to the present building which houses the Sessions Hospital. About 81 by 41 feet, the addition will be built on the west side of the old structure in such a manner that a court will be formed between the two, thus making light and air available to both. Specifications call for one story concrete building with cement floors and walls. A glass entrance, a large lobby and office will run across the front; a new operating room and medical laboratory will also be included. This will add to the existing hospital a total capacity for the hospital of thirty-eight beds. Plans for the new wing were drawn up by V. L. Stone.

Northville's Victory Clothing drive will take place this Saturday afternoon, January 26th. Trucks manned by members of the Northville Exchange Club will circulate throughout the village picking up the used clothing. Crews of men of the Rotary club will be stationed at the Allen and Locke Motor Sales building to pack the clothing in boxes and prepare same for immediate shipment.

Those kindly people outside the village who wish to help are requested to bring their contribution on Friday or Saturday to the collecting and shipping station at Allen and Locke's.

REMEMBER
Please 1. Fasten a note on the clothing you donate giving your name and address—that you may hear from the worthy and thankful recipient of your gift.
Please 2. Fold and pack your clothing in boxes or parcels and place at the curb or on the porch where the parcel is visible from the passing truck.
Please 3. Search well through your belongings and give what you possibly can. The quota for the village is a garment per person. The need is great. Remember "What we can spare they can wear."

RAGGED overalls and a shirt that falls off his shoulders offer little protection to this barefoot urchin in Greece. He was not among the fortunate recipients of the million who received clothing from the American spring drive. Help others like him by giving clothing to the Victory Clothing Collection for overseas relief.

GREEK women in patched rags wait in line as clothing collected in America's nation-wide spring drive is distributed in their land. Seven million other bombed-out Greeks with no clothing, shoes or bedding face the bitter winter living in frail lean-tos. Give all your spare clothing to the Victory Clothing Collection for overseas relief, January 7-31.

10 Directors Elected to Driving Club

Reports of Officers Show Improvements Made and Excellent Financial Condition; Seek New Contract with Downs

Harmony reigned in the annual meeting of the Northville Driving Club last Friday evening. All differences and heated clashes of interests and views were apparently patched up prior to the sound of President Snow's gavel. The white and yellow candidate slips of earlier circulation were obsolete as ten nominations were made, nominations closed and the secretary instructed to cast a unanimous vote for ten directors as follows—L. C. Stewart, George Locke, Nelson Schrader, Ed Starkweather, Orio Owen, Harry Clark, Wm. Forney, Claude Ely, G. V. Taft and Fred Wendt.

Following the usual establishment of the status of the meeting and voters, Sec. Hill and Pres. Snow presented the report of the year's activity. Receipts of the year approximated \$57,600.00. Disbursements some \$40,000.00. Some \$20,000.00 had been spent for improvements. The Village has been the recipient of \$115,900.00 and stockholders have received a dividend of \$20.00 per share.

G. V. Taft presented a resolution which was adopted, requesting the appointment of a committee to investigate and recommend the present contract with the Northville Downs.

Extend Main Street to Beck

County Road Commission is Improving Road from Clement to Beck; Dedication Signed in 1936

Work is now in progress on the extension and improvement of Main street west from Clement Road to Beck, of the Wayne County Road Commission.

According to reliable sources, the work is being done under the provisions of a dedication signed by a certain property owner about 1936, at which time a 120 foot strip was provided for road purposes.

The extension as set up will be the usual gravel road, 20 to 25 foot wide with ditches, grading and filling as required.

Air Civic Problems and Projects at Panel Discussion of Woman's Club

Between fifty and sixty members turned out last Friday for the meeting of the Northville Woman's Club. A co-operative luncheon at 12:30 o'clock was supervised by the social committee of which Mrs. Chas. Ely is chairman.

The program of the afternoon dealt with civic problems and was led by a panel composed of several members, with Mrs. C. E. Woodruff as conductor. So heartily did the general membership enter into the discussion that several topics listed, which were to have been sponsored by Messrs. Shaw, Starkweather and Johnson, could not be considered due to lack of time.

Recognition apropos of juvenile delinquency or "youth casualties" as it was called, was brought up for discussion by Mrs. Horvay Whipple. Under this head, the need was stressed for the new community building as proposed by the village since it would provide a suitable place of recreation for young people, thus drawing them away from undesirable activities and meeting places.

The need for the services of a trained social worker in the trailer camps located near this village also came in for some talk.

Mrs. Chas. Murphy presented the matter of zoning for Northville and it was stated that this is the only town in Wayne county without such an ordinance.

Health was another topic led by Mrs. Harry Wagonschultz. The village has been given a clean bill of health by health officer.

Mrs. Carl Bryan Resigns As Village Librarian

Mrs. Carl Bryan has recently resigned as Librarian of the Northville Library. She has been in the position for more than ten years.

Mrs. Bryan belonged to the old committee of the Library Library which was organized in 1924. She was a member of the Board of Trustees of the Village of Northville. She has been a member of the Board of Trustees of the Village of Northville since 1934.

In September of 1935, Mrs. Bryan joined the staff as assistant to Mrs. B. E. Larson, and upon Mrs. Larson's resignation in September of 1939, she became the Librarian. During her leadership the building has been physically improved including the fitting up of the basement for small group meetings. She introduced the Local Artists' exhibit which has been held in the local library three times. She has met regularly with a group of children to interest them in good reading and has encouraged their summer reading, the circulation of books has also steadily increased during her period of office.

Walter H. Kpiser, Wayne County Librarian, speaking for the Library and staff expressed very sorry to lose the services of Mrs. Bryan, but we realize the compelling personal reasons for her resignation.

Mrs. Harry Wagonschultz who is a member of the Wayne County Public Library Board states that "Mrs. Bryan always went out of her way to make patrons feel welcome in the library. She also saw that every person who entered the library was offered a book or two, or more."

No successor has been appointed as yet, to the post of Northville Librarian. Miss Ruth Lyons purchased the property on the corner of Danlap and N. Center belonging to the Northville Methodist Church. The property has an approximate 80x10 foot frontage on the corner and is the present location of the Methodist parsonage.

According to the Board of Trustees, the church will seek to buy more suitable property for a parsonage, and under the terms of the sale occupancy is granted to the Methodist minister for one year from the date of closing the sale. The sale price for the property was not revealed by the purchaser.

Training School Boys Aiding Clothing Drive

During the past several days Northville merchants have placed 5000 large shopping bags in circulation bearing information relative to the Victory Clothing Collection, Saturday, Jan. 26th.

Printing on these bags was done by the Wayne County Training School Press. Dr. H. H. Ketchum of that institution, extended the facilities of their shop to promote this worthy cause. The actual printing was done by a group of fifteen year old boys under the guidance of their instructor, M. James Warren. The boys and their instructor are to be congratulated on their fine cooperation in handling this large job for the community.

Many of the boys of that school have now asked if they might aid by contributing some of the few items of clothing which they have received from their homes, but which are now outgrown.

Keep the bag open to your merchant. Rummage through old garb bins and send those you will no longer use. Fill the bag and place it on your doorstep, Saturday, Jan. 26th.

THAT TRIP You've Earned...

GO SOON—AND SAVE AS YOU GO GREYHOUND

Right now is the best time of the year to give yourself a well-earned, much-needed vacation — for many reasons. It's the least crowded time of the whole year for transportation, with more room on Greyhound buses bound for almost any part of the U. S. A. or Canada. A vacation is most welcome of all in midwinter — when you really need respite from cold weather monotony and the strains of four war years!

Your winter trip to the sunny South or West — to friends or family in nearby towns — to popular snow-sport resorts — will be warm and comfortable aboard a Greyhound highway coach. Fares, as always, are lowest for any type of transportation. Go soon and go Greyhound — for a pleasant, relaxing winter trip.

IT'S STILL WISE TO PLAN AHEAD:

Wanted in Michigan: A master plan of taxation.

At... DIXON'S GREENHOUSE EARLY CABBAGE PLANTS

emental units in Michigan for a share of the promised \$27,000,000 surplus in the state treasury.

When the state legislature convenes Monday, Feb. 4, the tug-of-war will begin.

Already legislative committees are at work hearing appeals for part of the state bill at Lansing.

Finding a solution of Michigan's tax problem is like looking for a needle in a haystack.

Cities which elected to operate on the 3 per cent basis would receive one-sixth of the tax revenues collected monthly.

The goose that lays the golden egg is the state sales tax.

Here is the most productive, painless and easy-to-collect tax yet conceived.

The little three cents of each dollar of retail sales brought approximately 51 millions into the state treasury during the 1938-39 fiscal year.

The first two years—1932 and 1933—reflected the tailspin of the stock market, bursting of the

BEST DRESSED... Fashion critics have voted Mrs. Stanley Mortimer of New York the world's best-dressed woman.

prosperity bubble, and the Michigan bank holiday. The last two years—1938 and 1939—marked the period of industrial unrest and unemployment.

From a 51 million revenue point in 1938-39, while the treasury was running a deficit, the golden state tax has mounted annually.

It is easy to see that the state sales tax has DOUBLED revenue in 15 years.

There is no magic, however, in the continuous rise of tax revenue, due to collection of many pennies on retail sales.

War inflation of prices (due partly to rise of labor costs, of course) is chiefly responsible for the boom.

It is the plight of Michigan's large cities, especially those having a 15 mill tax limitation (Grand Rapids, Flint, Saginaw, Pontiac, Jackson, Muskegon and Battle Creek).

Major Edward J. Jettie of Detroit has been a leading pleader, and it should be said with fervor that the cities have a food case.

Property values are declining in cities, while wealth moves to the lower-taxed suburbs.

Unfortunately there is no unanimity of opinion on just how taxes should be levied and by whom.

Michigan voters have rejected a state income tax over and over again.

Experts go into riddles, new commissions are appointed, and still the answer is far from being found.

The certainty that the federal deficit, already of staggering proportions, must continue at a high peak for many years to

come, with an inevitable price of interest annually, is none too reassuring to thrift-minded taxpayers.

Amid all the feverish rush to get a slice of the state melon at Lansing the following observations are in order:

A return of unemployment such as was experienced in 1932 and 1933 and again in 1938 and 1939, would probably bring a return of deficits in the state treasury.

Local governments—state, county, school and municipalities—might well re-examine their tax structures and put their house in order during the boom years.

Michigan is one of four states with a sales tax as high as 3 per cent out of a total of 23 sales tax states.

Regular meeting of Village Commission was held at Village Hall Monday Eve., January 14, 1945.

Present: Pres. Hahn; Comm. Frid, Schoultz, Bryan and Ely. Absent: Comm. Lapham.
A petition was read, signed by several business men requesting that the Village Council consider its action to have the Village Police department carrying keys to their several places of business, as they felt it was a safety matter to have this service continued. It was moved by Ely, supported by Schoultz, that if these merchants would sign a written waiver of responsibility for the Village for any loss of their keys, that the Village Police be authorized to carry keys to their places of business.
Year: Schoultz and Ely. Nays: Frid, Bryan and Hahn. Motion lost.

Walter Coush, Chairman of Village Planning Commission, was present to report that the Michigan Planning Commission had agreed to extend the time for completing plans for community building to March 7th, and urged that plans should be started for raising funds towards the construction of this building. Minutes of last regular meeting were read and approved.

Clerk presented the requests of Wm. Scharenburg and E. Irene Slater for building permits, and the Village Commission instructed Earl Montgomery to get in touch with these parties to find out if their plans were in compliance with the Village Building Code, and if so, that these permits be granted.

Reports of Village Treasurer and of the Police Department were received and it was moved by Ely, supported by Schoultz, that same be accepted and placed on file. Carried.

THERE ISN'T ALWAYS ROOM FOR ONE MORE

Dad found this out when he tried to flag a bus during yesterday evening's rush hour. Mother discovered the same thing when she plugged in her electric waffle iron, and blew a fuse. And Junior has noticed that his electric train won't pull as many cars when Sis is ironing. No, there isn't always room for one more, particularly when it comes to adding new and wonderful electrical appliances to an obsolete house-wiring system. Almost any of the older homes of today are likely to have too few electrical circuits to carry the many electrical appliances needed in today's living. Your home can be as adequately wired as a new house—the cost is small compared with the comfort and convenience you will enjoy. Then, too—if you are planning a new home, be sure it has plenty of outlets, conveniently located, and served by enough circuits properly distributed.

This is one of a series of advertisements prepared in the interest of the electrical contractors in your area to insure adequate wiring for every home. When you build or remodel, be sure your home is properly wired.

The double ring ceremony was read by Rev. W. Leslie Williams at the Methodist Church before an altar decorated with palms, white snapdragons and carnations.

of the bride, Earl Sessions, and the ushers were Edward Asher Jr., and George Asher, brothers of the bridegroom.

Both mothers wore blue costumes with corsages of pink carnations. A reception was held immediately following the wedding at the home of the bride for about seventy guests. But it is a different story on New York's Fifth avenue, where old man winter paid a visit. Right, shows Fifth avenue crowd fighting a 12-inch fall of snow which tied up traffic. Buffalo reported four feet of snow, while northern cities announced that they welcomed a white Christmas.

Library News

The Northville Library has received several photograph albums of world travel. These belonged to the late Hackly Butler of Ann Arbor and consist of photographs taken by Mr. Butler, with post cards and clippings. At his death they were given by his son to the Tourist Club which was formed some forty years ago and is still in existence.

This interesting club was made up of ten couples, congenial friends, who traveled together, and met at intervals to talk of travel. Through the interest of Mrs. Belle McColt of Meadowbrook Road and Mrs. Ralph Collamore of Detroit and other members of the club, the albums have been given to the Wayne County Library. Several have been placed in the Northville collection and others can be borrowed when desired.

Hormone Treatment of Potatoes Advised
Storage Application Retards Sprout Growth
 The plant hormone, methyl ester of alpha-naphthaleneacetic acid, was found by Thomas and Riker, University of Wisconsin, to be effective in keeping potatoes from sprouting in storage, even at ordinary room temperatures.
 The chemical can be employed successfully in Liquids, Aunts or succeeded paper distributed among the tubers. To dust and shredded methods gave the best results.
 Treatment should be made in the spring shortly before the advent of warm weather, before the tubers break dormancy and begin to sprout. This retarding of the sprouts will extend the local selling season of potatoes, even after the spring weather has warned the storage bins.
 Potatoes free from late blight, soft rot, fusaria and other types of rot organisms only should be selected for hormone treatment. The amount of the chemical to be used should be approximately 1.35 grams of the methyl ester of alpha-naphthaleneacetic acid per bushel of tubers.

TO DISCONTINUE PEOPLE'S HOSPITAL AT ELOISE

At the Executive Committee meeting of the Peoples Community Hospital, Inc., held on January 17, it was decided to comply with the request of the Board of County Auditors to discontinue the operation of the temporary hospital in B Building at Eloise. At the same time the lease covering this building was drawn, the County was not pressed for the use of the building, but at the present time it is in drastic need of it. The provisions made for the use of the building were due to the courtesy extended on behalf of the Board of County Institutions and the Wayne County Board of Auditors and were strictly on a war emergency basis. Therefore the Executive Committee felt that it should adhere to its request.

In the last meeting of the Board of Directors of the Peoples Community Hospital, Inc., a resolution was passed authorizing the proper officers to transfer the assets of the Peoples Community Hospital, Inc., to the new Peoples Community Hospital Authority, now a municipal corporation, and this new municipal body will devote its entire time toward furthering permanent hospital facilities for Western Wayne County.

The temporary hospital in B Building at Eloise has been operating on funds especially allocated for operating and maintenance expense, and all contributions made toward the new hospital building fund remain intact and will be turned over to the new Peoples Community Authority to be used by it in the erection of the new hospital now being planned.

It has already employed an architect and a survey of the area is now under way and is expected to be completed within 60 days. Upon completion of this survey, recommendation as to hospital needs in the Western Wayne County area will be made by a prominent well-trained hospital consultant, and each community of Western Wayne County will be advised of the recommendations.

The Peoples Community Hospital, Inc., has served well the purpose for which it was formed and is proud of the fact it has been able to serve more than 2500 patients in the little over 13 months that the hospital has been in operation; 439 babies have been born in the temporary structure and more than 700 operations have been performed. The hospital now boasts a staff of more than 50 doctors and your new hospital Board representing the municipal Authority is firmly determined to carry on its efforts to see that the record established in the temporary quarters is met and surpassed in its drive to furnish permanent hospital facilities to the peoples of Western Wayne County.

Beginning January 26, no new admissions will be taken at the hospital and immediate action will be taken to remove patients and close the hospital at the earliest possible date thereafter.

The Board of Directors of the Peoples Community Hospital, Inc., deserves a great deal of praise for its accomplishment under a tremendous handicap, and for the many hours its members have freely given to the hospital away from their business and homes. Charles B. Cuzzard, President, wishes to personally take this opportunity of publicly expressing his appreciation for the excellent cooperation the Board members have afforded him. The Board consists of Harley E. Smith and Edward Gorman of Wayne; Glenn Bonnell of Romulus; Harry Randall of Bellville; Milton Adams of New Weston; Ralph H. Smith of Garden City; Ruth Barton Whipple of Plymouth; and John Lawrence of Northville.

He holds a toy gun as if he would like to meet the polio enemy in mortal combat and beat it for all other kids.

Sheep Rid of Ticks By Improved New Dip

Rotenone Basis of Effective Treatment

Sheep ticks are widely distributed throughout the United States. Unlike the true tick, they do not stay attached to one place, but move about in the fleece, making a new puncture each time they feed.

An economical and effective dipping solution for ridding sheep of

Enlarged male sheep tick. They are easy to kill by the new rotenone dip.

these ticks has been developed at the University of California. It consists of six ounces of derris powder containing 3 per cent rotenone to 100 gallons of water.

Considerable labor is saved as the solution is easy to prepare and one treatment is sufficient. The rotenone kills not only the adult tick, but the eggs as well, and remains effective in the fleece for several weeks. The cost of the new dip should not exceed 20 cents per 100 gallons. Allow for replacement of dip, the solution should not cost more than 1 1/2 cents for each animal.

Improved Machinery Silent Tractor

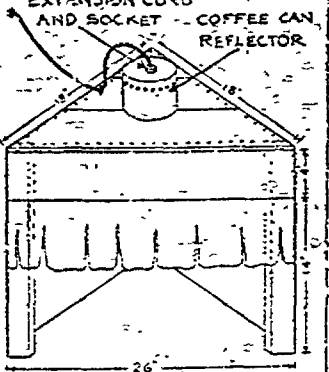

New silent type tractor which has recently been placed on the market. A silent tractor, particularly good

when the power takeoff is used around the poultry or dairy barns. There are 42 known uses for the power takeoff, such as churning, separating, feed grinding, pumping and spraying.

The Bear Cat tractor, made by Ellinwood Industries, Los Angeles, is 30 per cent quieter than standard models, due to new improved type of muffler.

New Lamb Brooder

Most of the materials needed for this electric lamb brooder can be found about the yard or farm. A one-pound coffee can is suggested for the reflector. If available, instead of wood, celotex or plywood is ideal material for this type of brooder.

A 100-watt light bulb will prove satisfactory, with hardware cloth to cover reflector hole. Burlap, canvas or similar material may be used for curtain.

Result of Terracing

Farmers have had the value of terracing, along with other improved farming methods, brought home to them forcefully by the war and its requirements.

Better yields result when sloping lands are terraced to control erosion and conserve moisture, particularly when supplemented by the best cropping practices. The type of soil, degree of slope and amount of water to be handled determine the type of terrace best suited.

Knapsack Feed Box

This type of knapsack feeder is not only easy to construct, but can also be used for land leveling.

This box is convenient for carrying feed where a cart is not practical. Should be made as light as possible; 4 inch plywood is now desirable. A satisfactory size would be a bottom measurement of 18 inches by 12 inches with a height of 12 inches.

Agriculture In the News

DDT in Paint By W. J. Dryden

A wall paint blended with DDT under a new process has proved an effective "insect control" as long as 18 months after a single application. This paint, "Superflor 385," contains 200 milligrams of DDT for each square foot of painted surface and has proven effective against 152 varieties of insects.

Tests have shown that seven seconds contact with DDT paint, for flies first paralyzes and then kills the insect in 20 minutes. The paint is harmless to humans, and is especially effective in milk houses as well as other farm buildings.

Superphosphate Needed

Five to six tons of animal manure reinforced with one-half bag of superphosphate per ton of manure produces as much increase in yield as does 10 to 12 tons per acre without the superphosphate.

The superphosphate can be scattered over the top of the load of manure before it goes to the field. Or it can be applied in the barn or sheds. When used in barns or sheds it helps to keep down odors as well as reduce nitrogen loss.

Danger of Drugs

The intrusion of certain wholesale commercial and retail drug interests in the field of animal health, in unrestricted selling of biological and pharmaceutical products which could be harmful to the livestock industry if improperly used, is attracting federal attention.

Farmers are urged to purchase only from a reliable firm, only such products that have been tested and proven suitable for their particular need by recognized authorities.

Rabbit Is Not Only Tularemia Carrier

While it is true that nearly 90 per cent of human infections with tularemia result from contact with rabbits, birds, rodents and even such animals as dogs, cats, coyotes, foxes, frogs and sheep have been reported as carriers by the American Medical Association.

No specific treatment has been found. Even the wonder drug, penicillin, appears to be of little value. Few, if any, cures have been traced to domestic rabbits. The disease is carried by bloodsucking insects, such as ticks and fleas, probably fleas. Care in handling carcasses, and using the wearing of rubber gloves when dressing rabbits and their carcasses of this type, is recommended.
