A Proclamation BY THE MAYOR OF NORTHVILLE

THE BOY SCOUTS OF AMERICA, incorporated February 8, 1910 and chartered by Congress June 15, 1916, is celebrating its thirty-sixth birthday anniversary during Boy Scout Week, from February 8 to 14. In the past 36 years the more than twelve million present or former members have rendered notable service to our community and our nation. Now that our country has successfully concluded the war, the Boy Scouts of America will again continue to render noteworthy service through many years of peace.

In times of distress from floods, hurricanes, tornadoes, and other disasters, our Scouts have demonstrated the effectiveness of organized leadership. During the period of economic stringency, contributed in many ways to the relief of suffering. Their service rendered during our four years of war cannot be estimated in dollars and cents.

The Boy Scouts have also contributed to the appreciation by the American people of the high conception of good citizenship. "BEFORE, I BELIEVE," said the Mayor of Northville, do hereby recommend that the citizens of the village do whatever they can to observe Boy Scout Week and give their support to the Sustaining Membership Campaign which follows at the close of Anniversary Week.

The Boy Scout Movement offers unusual opportunity for voluntary service. It is open to men to serve in various capacities as leaders of boys. I hope that all who can, will, through the organizations with which they are connected, enlist for such personal service. Anything that is done to increase the effectiveness of the Boy Scouts of America is a genuine contribution to the welfare of this Community, the State, and the Nation.

In witness whereof I have hereunto set my hand and caused the seal of the Community to be affixed. Done this First day of February, in the year of our Lord one thousand nine hundred and forty six.

Three Fires During Week

Old Adage of "Three in a Row" Holds Good for Week-End Calls of Local Fire Department

The old saying of "three fires in a row" rang true for Northville this week. On Saturday evening a precautionary call was put in for the local fire department by the E. V. Ellisons of west Dunlap street when an overheated furnace caused some concern. The damage was slight.

Around noon on Monday T. J. Ankner from his place of business on Main street noticed a fire in the rear part of the Hendin Shoe store and put in an alarm. Firemen found that waste paper in a basket in the portion of the store back of the salesroom had become ignited while Mr. Hendin was at the bank on business. Flames were quickly extinguished with chemicals. The loss is covered by insurance.

Only a little later the siren was again sounded. The location this time was the new Ward Masters' building on east Dunlap street which will house the Kaiser-Frazer display rooms. Tar on the roof ignited and a sizeable hole was burned in the roof before flames were brought under control. The damage was small in this case, also.

SHORT CALLS

HELP EVERYONE GET

BETTER RURAL LINE SERVICE

If YOU'LL remember to keep every call short these days, you'll enable your rural party line telephone neighbors to get their calls through, too.

When you have finished talking, please hang up the receiver carefully. One receiver off the hook can tie up a whole line. And please avoid listening in or interrupting when the line is in use.

This kind of friendly co-operation helps everybody to get better service, especially now when most rural lines are serving more telephones.

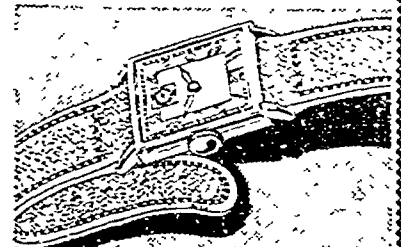

More lines and more switching equipment will be added as fast as conditions permit. This will enable us to care for those who are waiting for telephones, and reduce the number of telephones per line.

Bats for Hedgehog

If Candlemas day be fair and bright,
Winter will have another flight.
But if Candlemas day brings clouds and rain,
Winter is gone and won't come again.

The old tradition about Groundhog or Candlemas Day originated in the Old World and was associated with the hedgehog. Early settlers to America applied this superstition to the groundhog. The European hedgehog, "marmotte," found here. They have certain habits in common, both hibernate during the winter. The groundhog usually retires to his burrow for the winter in the latter part of October, or in early November. He often comes out of his long sleep in early spring before the winter weather is past. The official day, February 2, set for his arrival in the spring is usually too early for his appearance, especially in the northern part of the United States.

So He Won't See His Shadow

PROPHET! Mr. Groundhog with umbrella. . . The artist who drew this picture believes he has a sure-fire formula for good weather, no matter whether the sun shines or not: on Groundhog Day! Everyone is acquainted with the old tradition that "if the groundhog sees his shadow on Groundhog Day, February 2, there will be six weeks of bad weather or continued winter." There are several other superstitions associated with this day, among which are:

It is bad luck to start a journey on February 2.

It is unlucky to keep Christmas greens hanging after Groundhog Day.

If it is supposed to be ill-omened to sail to sea on February 2.

When a groundhog approaches a house, someone there will soon die.

I Speak for Two Million American Boy Scouts

I am a Boy Scout. And my troop is a great gang. We do lots of worthwhile things but we have loads of fun, too. Scouts are important. Each year our President addresses us personally from the White House and often we are called for emergency services.

We did an excellent job during the war and will work even harder for peace. Millions of former Scouts served in the armed forces. Those of us too young to serve in the army, navy or marine corps, did our part on the home front. We collected waste paper, clothing, scrap iron, rubber and other material needed in our war effort.

Boy Scout Law

A Scout is trustworthy. A Scout is loyal. He is loyal to all whom loyalty is due—his Scout leader, his home and parents and country.

A Scout is helpful. He must be prepared at any time to save life, help injured persons, and share the home duties. He must do at least one good turn to somebody every day.

A Scout is friendly. A Scout is courteous. A Scout is kind. A Scout is obedient. A Scout is cheerful. A Scout is thrifty. A Scout is brave. A Scout is clean.

A Scout is reverent. He is reverent to God. He is faithful to his religious duties and respects the convictions of others in matters of customs and religion.

Salute to Boy Scouts Upon Its Birthday

The Boy Scouts of America was organized February 8, 1910, with President Taft as honorary president and James F. West, executive officer. Since that time more than 12 million boys have joined the organization. Present active membership has nearly reached the two million mark.

Boy Scout Week will be observed throughout America February 8 to 14. Because of its accomplishments during the 36 years of its history, the movement has attained an almost reverential place in the heart of the country. Service to others—the "Good Turn" as scouts call it, strengthens and invigorates our democracy because service is democracy.

Boy Scout Oath

"On my honor, I will do my best To do my duty to God and my country, And to obey the Scout Law. To help other people at all times To keep myself physically strong, Mentally awake and morally straight."

Washington's Birthplace

Still Under Some Cloud Today, 214 years after the birth of George Washington, there is still some doubt as to his actual birthplace. The official birthplace, east of Fredericksburg, Va., is a rational monument, but reliable histories aren't positive about it, nor did early biographers agree.

John Marshall placed it at Bridge's Creek, while Parson Weeds named Pope's Creek. Today, a new building stands on the Wakefield estate on Pope's Creek, marking the spot, accepted as official, where February 22, 1732, George Washington was believed to have been born.

Your Piano . . .

Would you discard the diamond from a costly ring and keep just the setting? Absurd isn't it?

What of your piano? It is a musical gem. If properly pitched and tuned, but its real beauty soon vanishes from neglect.

Consult your tuner. Keep the diamond too!

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Freezing Army Points

This office has received many letters asking whether or not once men get overseas their accumulation of discharge points stops. The answer from the war department invariably has been that men continue to earn discharge points so long as they are in service.

This question was brought to a head recently when Secretary of War Robert P. Patterson was surprised when informed by the army newspaper, Stars and Stripes, that point scoring stopped September 2.

The war department now declares that both are right. Men in service do continue to earn discharge points for their record for use when and if a new freezing date is established. They point out that the first freeze date was May 12 when the total for discharge was 55 points. A new freeze date was established for September 2 when the discharge point total was 70. However, since September 2 the war department has reduced the point score to 55, or 20 points down, which is more than the veteran would accumulate in four months period in other words, while the veteran's total is figured at the number of points he had accumulated up to September 2, 1945, his point total had been lowered since that date from 70 to 50, making up all who had 50 points on September 2 eligible for discharge.

Further lowering of the total points necessary for discharge are promised.

Questions and Answers
Q. Here's a question I've never seen or heard of being directly answered. Are there answers, or just evasive replies? Can the boys in service in Japan take up correspondence work or study in the U.S.A.F.I. if they have the time or ability? Our son is stationed in Osaka with a medical company. He wants to get started in a veterinarian course. Will he be watching closely for an answer?—Mrs. A. W. Nelson, Northville.

A. Yes, men in Japan can take certain courses of study while in the U.S.A.F.I. However, it is doubtful if such a specialized course in veterinary could be taken by correspondence. Would suggest that your son take the matter up with his company commander.

Q. Is the widow of a World War I veteran, now receiving a pension, entitled to any additional benefits above her pension for doctor's care if she is an invalid?—Mrs. G. B., Eureka Springs, Ark.

A. No, the veterans administration says that only in some instances of advanced age are widows of World War I veterans entitled to increase in pension.

Q. My husband enlisted in the air corps in August, 1944, for the duration and six months. He is now overseas. Will he be discharged when his enlistment period is up or must he wait until he has enough points?—Mrs. E. S., Smyth, Pa.

A. The war is not yet over and will not be until so proclaimed by the President or Congress. He will remain in the service until he earns sufficient points.

Q. My husband has been in service since August 2, 1945. I am in very bad health. We have two small children and expecting another soon. Do you think I stand a chance of getting him out?—Mrs. J. B. B., Flat Rock, Ky.

A. I am afraid you stand little chance at the moment. When the third child is born, he will be eligible to make application for discharge.

Q. I was inducted into the army August 20, 1942. I received my honorable discharge May 10, 1943. Am I entitled to the \$200 mustering-out pay? All my service has been in the U. S. A. How do I go about getting it?—A. W., Scotland, S. D.

A. Yes, the war department advises that you write to the Chief of Finance, Enlisted Personnel, War Department, Washington, D. C.

Q. I have a friend in the navy. He has been in service since July, 1944, and overseas since last October, 1944. He is single and 28 years old. How many points does he have?—Miss B. C., Section, Ala.

A. As of January 1 he has 27 points. Thirty-six are necessary for discharge. 35 on February 1.

Visitor—I should think, by the look of things, that nothing ever happens here.

Native—Oh it's a pretty lively place for its size—it's not two weeks since we had an eclipse of the moon!

Do you know what intuition is? Intuition tells a woman she's right when she's right or not.
