Bill Rose has Pictures Accepted for Publication in Life and Popular Mechanics.

A Northville resident who is going places in the field of photography is Billy Rose, Jr., son of Mr. and Mrs. Wm. Rose of Newcom Street.

The picture appearing in this week's Record was snapped by Mr. Rose at the Catholic fathers' day breakfast last Sunday morning.

Some years ago while attending Northville High, Billy worked on the "Orange and Black" in order to further develop his hobby of photography.

While Billy was stationed at T-5 with the army at Fort Sill, Oklahoma, he was given charge of all art work and was chief photographer for the Post's "Army News." He also did freelance and public relations work, covered all military conferences and took movies for public relations service.

In June, 1945 he was sent to Chicago for two weeks to cover the truck strike in that city. His pictures have appeared in the April 22 issue of Life magazine, pages 34 and 35 and also in the June issue of the Popular Mechanics, page 96.

Billy received a discharge from the army on May 6 after 26 months of service.

Scholarships are Awarded Annual Commencement

Irene Tesch, Elizabeth Housman, Elizabeth Mayer, and Florence McCluskie receive Scholastic Honors Thursday Evening.

The Northville High School observed its first peace-time commencement in several years on Thursday evening of last week. This event also saw the return of seven veterans who completed their requirements while in service or after their return home, so that they were able to graduate with their fellow classmates. The boys were James and Richard Ritchie, Gene Nitzel, Robert Parmenter, Robert Streng, Fred La Pante and Charles Nelson. Special mention was also made during the exercises of Donald Bonner and David Willis who are now in service and whose diplomas were given, on their behalf, to Milan George, class president, Donald and David left N. H. S. at the end of the first semester, having already earned sufficient credits for graduation.

Both the salutatorian and valedictorian of the Class of '46 stressed the sadness of commencement time.

Florence McCluskie, in her salutatory, paid tribute to the veterans among the class members. Expressing the class's appreciation for the help of teachers and parents in reaching graduation time, Florence said: "We are the future we will go forward."

A valedictorian, Elizabeth Mayer emphasized: "We were born in a land of opportunity... for us the future holds whatever we determine to make of it." She too, thanked all who had assisted the class in the achievement of graduation.

The Northville Woman's Club scholarships were presented by Mrs. Harvey Whipple, president of the club. Mrs. Whipple decided to give two, rather than the customary single scholarship. Irene Tesch and Elizabeth Housman were the recipients. Irene plans to attend Wheaton College, located west of Chicago. She will study chemical research and is the daughter of Mr. and Mrs. Wm. Tesch of Rayson Ave. Elizabeth, who makes her home with Dr. and Mrs. V. G. Chabot, will study at Wayne U. and Grace Hospital, taking up nursing.

The one hundred dollars in the class treasury was given toward the cost of adding to the present public address system in the school. This memorial from the Class of 1946 was presented by the president, Milan George, and accepted for the school by Prin. Harrison.

Introduced by Supt. Amerman, Dr. Samuel Harrison, president of Adrian College, gave the address of the evening. Dr. Harrison took his theme from the words of Eugene P. Elliott, superintendent of education in this state: "The needs of education are to conserve the past, interpret the present and build for the future."

"MICHIGAN AND THE OLD NORTHWEST" . . . CHARLEVOIX IN MICHIGAN

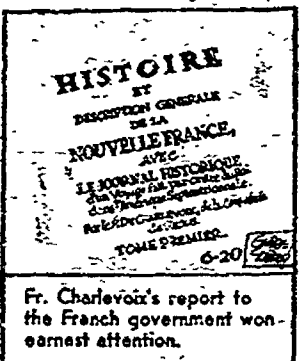

Charlevoix, at Mackinac in 1721, shows St. Ignace as the church name there.

Fr. Pierre Francois Xavier de Charlevoix had come up from Detroit.

During a tour of New France he deplored Detroit's lack of a Huron mission.

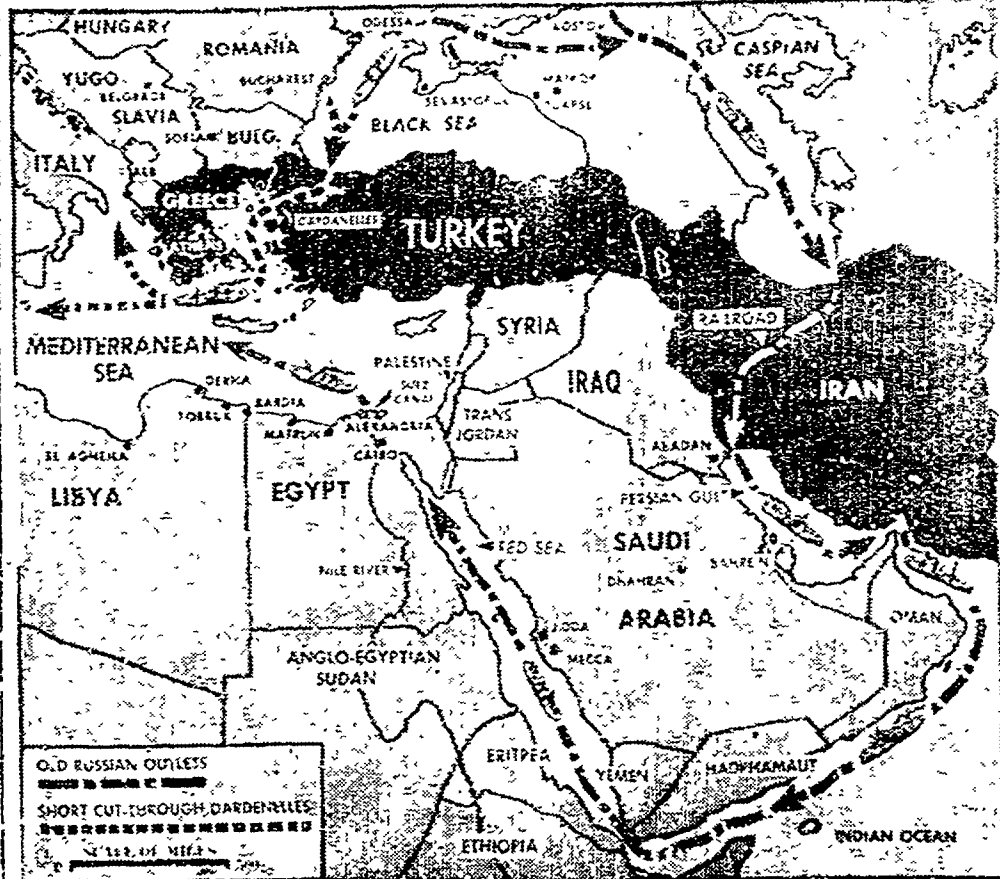

Fr. Charlevoix's report to the French government won earnest attention.

FAST FEEDING . . . Jimmy Shter, 13, receives food through tube from thermos bottle during his Los Angeles-Catalina island swim try. The navy veteran was forced to abandon his attempt after two hours and 12 minutes of paddling, approximately five miles short of the 22 mile route. He was pulled aboard exhausted. Judges believe that he struck his head on boat which caused collapse.

COMPLICATIONS FOR BIG FOUR . . . While the Big Four conference in Paris faces many difficult problems involving treaties and claims and boundaries, the Turkish situation presents future complications. In the dark areas shown are the three buffer states of the Near East and Middle East. Here the strategic and economic interests of Russia and the western powers meet. Control of the Dardanelles is a vital issue and Russia has sought to press claims on Turkey's eastern frontiers. Arrows on the map show how use of the straits cuts 3,000 miles from the supply line to Russia. At the opening sessions the Big Four sidestepped the troublesome Trieste and Italian colonial questions and began the consideration of the Italian-French frontier, the site of Italy's future armed strength and disposal of her surplus shipping. France's proposal to add internationalization of the Ruhr and detachment of the Rhineland from Germany to the agenda, added further complications. British Foreign Secretary Ernest Bevin called another upset by insisting that Belgian, Dutch and Luxembourg representatives be permitted to sit in on such negotiations as spokesmen for nations which suffered heavily through German aggression.

TAKING THE CLIMB OUT OF SKIING . . . The fly in the ointment when it comes to the real enjoyment of skiing is the long, weary trudge up the ski slope, before one can make that exhilarating dash down. On Crammore mountain, near North Conway, N. H., this trudge is eliminated by the ski-mobile, a gadget that gives you a ride up. The pretty skier is one of the first contingent of enthusiasts to visit North Conway with the resumption of the "snow train" from Boston.

Michigan's "Republican civil war" is now over—to quote words voiced last week by former Governor Murray D. Van Wageningen, a Democrat.

It was a hard fought political campaign, and some party scars are in evidence.

The democratic nominee for governor has a choice of effective ammunition, all supplied by

rivals of the winning Republican candidate. Looking over some of the pre-primary campaign speeches, in which several G.O.P. candidates paraded plenty of political hokum, we suspect that John Wagner, chairman of the Republican state central committee, is secretly thankful that the primary was held so early in June.

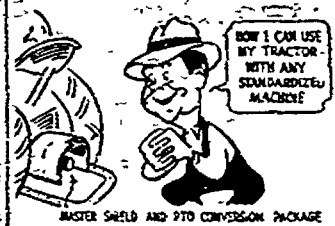

The disappointed party candidates and their followers will have a long "cooling off" period before they go to the ballot box again in November.

The Michigan Children's Institute, Ann Arbor, seeks understanding foster parents for Billy, age 12, a difficult child. Here's the story: His family lived in trailers, shacks; they hitch-hiked about the country. At 21 Billy's mother had four children. Billy's father rarely worked. When he did, he drank, beat his wife and children—Billy

has never known love and care. The Institute is interested in Billy because he is attractive, intelligent, likeable, eager to learn. Upon receipt of a letter, the institute will send a representative within 200 miles of Ann Arbor. Good luck, Billy!

Post-war developments in the Upper Peninsula. Ely and Walker company of St. Louis, one of the largest manufacturers of women's dress and sportswear in the world, has selected Houghton—Hancock's Copper Country for location of a branch factory. It will employ 200 persons. Demand for farm fence posts and a revived popularity of rustic fences have combined to create a bonanza in the north country. Harold Arnim, former Chicago resident, has established a rustic fence and furniture factory at Escanaba and is now employing more than 100 men. Post-cutters in the woods can earn \$15 to \$20 a day.

Improved Safer Hitch For Power Machines

If a farmer purchases a new tractor or standardizes the power take-off of his old tractor with conventional packages, furnished by all manufacturers of farm implements, greater convenience, economy and safety will result. These A.S.A.E. hook-ups are available at all dealers for any make of tractor.

Rabbits Prove Big Forage Consumers

Young jack rabbits consume some dry feed as early as five days after birth, according to Arizona station studies. Following weaning, at three weeks of age a rabbit consumes an average daily ration equal to 2 to 4 per cent of its body weight. From 5 to 14 weeks of age, the food consumption averages 6 per cent of the light weight of the animal. They reach their maximum food consumption between 14 and 25 weeks of age. On this basis, it would not take many rabbits to clean up an acre of growing crops.

Gold sells in Canada for \$21 an ounce, and in the United States for \$20 an ounce. Presbyterian Church Scene of Bogart-McCluskie Nuptials

One of the prettiest of June weddings was that solemnized last Friday evening which united Dorothy Jane Bogart, daughter of Mr. and Mrs. H. Ray Bogart of Strathmore Ave., Detroit, and Dr. J. Douglas McCluskie, son of Mr. and Mrs. Jos. McCluskie of Grace Ave.

The ceremony was performed at eight o'clock in the Calvin Presbyterian Church on Hubbell Ave. Rev. Thomas P. Lindsay officiated before the altar which was decorated with white peonies and tall candelabra.

A cousin of the bride, Everett Burrall, of Detroit, presided at the organ and "Ich Lieber Dich," "O Perfect Love" and "Song of Paradise" were sung by Mrs. Geraldine Delmar, also of Detroit.

The bride, who was given in marriage by her father, wore a gown of white satin. Her bouquet of white flowers was carried by the four honor attendants who wore gowns of tulle and edged with blue pearl banding and centered with a pearl medallion, from the graduation dress of her mother. Pearl trim was also used on the long satin gloves and veil. The bride's bouquet of mixed white flowers was centered with an orchid.

Mixed pastel flowers were carried by the four honor attendants who wore gowns of tulle and edged with blue pearl banding and centered with a pearl medallion, from the graduation dress of her mother. Pearl trim was also used on the long satin gloves and veil. The bride's bouquet of mixed white flowers was centered with an orchid.

Three-year-old Roy Daley, Jr. of Detroit, carried the rings on a satin pillow.

Serving his brother as best man was Robert McCluskie of this place. Ushers included Dr. Raymond Howard, Harold Bogart and Roy Daley, all of Detroit.

For her daughter's wedding Mrs. Bogart chose a gown of pastel printed crepe. Pale blue crepe was worn by Mrs. McCluskie and each wore a corsage of roses.

A reception for 200 guests in the church parlors followed the service. The Diversity Club of the church assisted in serving. Margaret Ely of this place in an apron gown and Linda Hooper of Detroit, in white crepe, presided at the punch bowl.

Dr. and Mrs. McCluskie left by motor for a two weeks' trip to Northern Michigan, the latter wearing a suit of grey and coral with a flower hat. The bride's train, her bouquet served as a corsage.

They will make their home in Plymouth, Ill.

Dorothy is a graduate of Michigan State College and taught home economics in the St. Clair State schools this past year. She plans to teach in the L'Anson school next year. The Bogart family were formerly Northville residents.

Dorothy graduated from Northville High with the class of 1941 and received a degree from M. S. C. this month. It is associated with Dr. Kirschner in the latter's veterinary hospital on Wayne Road.

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper through special arrangement with the Veterans' Bureau of Western News publishes at 1616 E. Street, N.W., Washington, D.C., is able to bring readers this week's column on problems of the veteran and his family.

The column may be addressed to the above Bureau and there will be no charge in a subsequent column. We request, however, that the column be sent direct to me, but only in the column which will appear in this newspaper regularly.

Decentralization of Hospitals Promised

The veterans' administration in seeking to further decentralize hospital facilities for veterans is contracting with hospitals throughout the nation for "home town care" for veterans with service-connected disabilities, principally for those needing only "out-patient care."

In this connection, Dr. Paul R. Hawley, chief medical director, announced that such service may be obtained in hospitals in Kansas, Illinois, California, New Jersey, Michigan, Oregon, and North Carolina, and the service is being extended as rapidly as contracts may be secured.

A schedule of fees has been approved by VA. The program is in complete operation, veterans with service-connected disabilities will contact the VA regional office, as formerly, and then select a doctor from a list of hospital physicians. They can be cared for in a VA hospital or in a civilian hospital.

The plan will eliminate the need for veterans to obtain medical care in distant hospitals, and the VA will pay the doctor's fee. The plan will also eliminate the need for veterans to travel to distant hospitals for treatment.

Questions and Answers
Q. Am I, as an officer, entitled to travel pay for my wife from point of my discharge to home while she is on terminal leave? She lived with me two months immediately prior to my discharge.—D. L. P., Pipestone, Minn.

A. Your letter indicates your wife was also an officer. I suggest you write to Dependent Travel Branch, General Accounting Office, Washington, D. C.

Q. When will World War I veterans receive a pension, and at what age? I have been sick ever since I got out of the army, but couldn't get a pension.—J. D. K., East Dubuque, Ill.

A. World War I veterans do not automatically get a pension at any age. They were awarded a bonus. If your illness was service-connected or aggravated by your service, your only hope is to apply for disability at your nearest veterans' administration office.

Q. My husband was a veteran of World War I, serving six weeks at Little Rock, Ark. He was given a medical discharge on account of his heart. He died last year of heart trouble. Would I be entitled to a widow's pension?—Mrs. O. E. P., Pocahontas, Iowa.

A. I am inclined to believe you might be, but you should make your application to the nearest veterans' administration office for their decision.

Q. My husband went to the army on July 2, 1912, and got an honorable discharge on October 7, 1912. I did not receive an allotment for myself and baby while he was gone. Is there any way I can get it now and is my husband eligible for the \$20 a week for 52 weeks?—Mrs. L. D. C., Tullahoma, Tenn.

A. Although your husband was in the army less than 90 days, you might try getting back allotment by writing to the Army Central Adjusting office, 400 Goodfellow Blvd., St. Louis 20, Mo. If your husband received a medical discharge prior to 90 days of service and is unemployed, he is entitled to make application for a job at your nearest U. S. Unemployment Service and receive up to \$20 per week until he obtains employment, but not more than 52 weeks.

Q. My son was employed by a firm in St. Paul as personnel manager before he entered service three years ago. He served in the European theater.

peas and Pacific theaters. He returned in January and went to see about his job again. His employer offered him another job at a much lower rate of pay. What can he do and can his company be made to give him his former job back?—Mother, Cloquet, Minn.

A. Under the Selective Service law your son is entitled to his old job or one of similar pay and seniority if he is physically able to fill the job. Suggest he contact his selective service board and they will see that he has legal representation.

Q. My son enlisted in the service the summer of 1942. I did not receive a family allowance until December 1, 1944. I was and still am his dependent mother. I would like to know if I am entitled to and can get family allowance beginning November 1, 1943, or for the year 1944.—A mother, Mathews Co., Va.

A. Family allowances to parents is not compulsory. The question is, was the allowance deducted from your son's pay during that year. If so, you are entitled to it. Write to Army Central Adjusting office, 400 Goodfellow Blvd., St. Louis 20, Mo.

Aerosol Bomb Suited For Farm Buildings

DDI aerosol bomb used to kill flies and other insects as well as germs in dairy barn.

Get rid of the flies and your cows will give more milk. Get rid of the flies and your hens will lay more eggs. Two wartime developments will make this possible. DDI, the new insecticide, and the aerosol bomb, the new insecticide dispenser, are the answers.

A small cylindrical metal container, with a valve on top, the bomb contains concentrated insecticide dissolved in Freon. Freon is a liquid under pressure, when the valve is opened to release the insecticide, the Freon expands, changes to a gas and escapes from the bomb, carrying the insecticide with it.

1947 Studebaker Now On Display

The first of the automobile industry's long-awaited 1947 models will go on display here Friday, June 21st.

The cars are Studebakers. They can be seen at Petz Bros. opposite Ford factory.

Lower, wider and more fully streamlined than any previous automobile design, the cars bear the unmistakable stamp of "true postwar products" both in beauty and performance.

"This car would not have been built before the war," Progress in manufacturing and engineering has given us greater safety, greater comfort and greater operating efficiency than our pre-war knowledge could have made possible. It is not only the first genuine postwar automobile, but an automobile that sets the style for the entire industry.

"You seem to be greatly pleased at something."

I am, I just began a little while ago. He began by calling me captain, then he bestowed the title of colonel on me and finally promoted me to be a general. Then I succeeded in escaping from him before he had a chance to ask me for money.

When little Percival arrived at school on the opening day, he carried the following note to the teacher:

Dear Teacher: Our sweet little Percival is a delicate, nervous child, and if he is naughty at times—just punish the boy next to him, and that will frighten him and he'll be good.

"Oh, good," said Eve, after she had secured all the best fig leaves there were to be had. I'm so unhappy.

"Come, dear, cheer up," replied Adam. "Things might be worse than they are. We still have each other."

Yes, but now that I've got to examine clothes, there's no other way out, Adam. I can talk about them.

"The cold front is the best," said the sailor, said Pat.

"Thank you," replied Darius. "Where will we find a new front line? Has anyone by yet as long as on a bull one?"

"Oh," he mumbled, replied, "I think you better wear that long one, which comes almost to your knees."

Soil Plans Should Cover Several Years

Fertilize to Replace Lost Organic Matter

Stressing that there are no "short cuts" to producing high yields on poor, run-down, overcropped land, Prof. A. L. Lane of the agronomy department, University of Illinois, advised farmers to let soil tests guide their soil improvement and fertilizer program.

"When soil tests show strong acidity and a need for limestone, they also indicate a low state of organic matter," he pointed out. "When soils are low in organic matter, they are usually in a state of poor tilth, lack nitrogen and have insufficient water holding capacity. Any amount of mineral fertilizers cannot be expected to economically raise corn and other grain crops yields until the lime, organic matter and nitrogen requirements of the soil are met."

Lane urged farmers to apply limestone, phosphorus and potash fertilizers for the legume sod crop in accordance with the needs of the land as indicated by chemical tests.

Phosphate being mined for inclusion in mixed fertilizer.

"Then, he added, grow maximum legume hay crops, either plowing them back into the soil green or as animal manure.

The best method is to plan a balanced, systematic program of rotation on the farm that will over a period of years return the land to its state of high and permanent productivity."

Lane stated that on highly productive soil, mixed fertilizers of the proper grade and properly applied may supply economically a portion of the manure and organic matter in addition give that extra "umph" so often needed during the early stages of growth, he said. "Carefully available plant food supplied over the seed of crops of plowmen may help overcome many external factors such as and not a stable weather condition to be excluded."

Postwar Studebaker on Display Here

The much-discussed 1947 Studebaker, described as "the first genuine postwar automobile," has been placed on display at dealer showrooms here. Lower and wider bodies, re-engineered weight distribution that adds immeasurably to riding safety and comfort, mechanical advances that include self-adjusting brakes and stronger, box-section frames are among the many highspots. Pictured above is the four-door Champion sedan.
