Milford Falls to Mustang Five

By Barbara Smith

The Northville High school basketball team gained another last-minute victory last Friday night when they journeyed to Milford to defeat that team by a score of 34-31.

The first jump and quickly dumped in the first points. Northville had little trouble in building up a lead in the first quarter which ended with the Mustangs 10, the Presidents 5. During the second quarter, however, the Milford team came back strong and managed to come within one point of tying up the game. The half ended with the score 12-11 with Northville having the slight edge.

During the half two Milford Junior High teams played for a short time, much to the delight of the spectators.

Following the half, both varsity teams were determined to outscore the other and play was fast and rough. Scores remained close for the remainder of the game.

At the end of the third quarter it was anybody's game with the score twenty-four all. With only a little playing time to go each team had thirty points. With the time running out, Milford scored a free throw but their joy was short-lived as the Mustangs dropped in two baskets to snatch the victory. Final score, 34-31.

The second team played its usual good but heart-breaking game and lost to the Milford Reserves with the score of 40-23.

This Friday night the Walled Lake Vikings will come over to take on the Mustangs on the latter's floor. This is the second game between the two teams, Northville coming out on top in the last game, when they defeated the Vikings 31-14 on the Walled Lake floor. Games are called at 7:15 and 8:15.

Following are the Inter Lakes Conference Basketball results and standings for the week ending January 24, 1947.

Two Couples to Celebrate Their Anniversaries Past the Half Century

Present were their daughter, Mrs. Henry Ballard, and Dr. Ballard of Grace Pointe, two granddaughters, Mrs. Becker of Lansing and Mrs. Deane of Detroit, and their husbands, and four great-grandchildren.

Births Exceed Deaths in Village

Two hundred and sixty-three birth certificates were registered in the Village Hall for the year 1946. Sixty-four of these babies were born to Northville residents, the others being born to citizens of surrounding towns. There were thirty-four boys born to local parents and thirty girls. This number does not include babies born outside Northville to persons living in town.

One hundred death certificates were also registered for the year 1946. Of this number twenty-nine had Northville addresses. This number includes only those registered with the village.

In comparing last year's figures with those of the preceding year (1945) both births and deaths show an increase. The total number of births registered in 1945 were two hundred and seventeen, as compared to two hundred and sixty-three last year, and 82 deaths were listed.

Report Made of Athletic Field Financial Status

The Northville Athletic Field Project Committee respectfully submit the following report of finances and work completed and to be completed.

By Contributions and Dedication Game.....\$15,620.18

Disbursements:

Seeds.....1,462.62

Lights.....6,611.33

Preparing field.....935.51

Letters and postage.....99.29

Dedication game expense.....249.88

Fence deposit and Freight.....1,633.95

\$13,443.21

Balance on hand.....2,176.97

Owing on fence when completed.....\$2,687.84

Work yet to be done in completion of the fence, installation of the cement seats on time basis and the installation of the soft ball diamond.

The thoroughness of the project we believe has amply been demonstrated by the football crowds and the safe skating provided.

The committee definitely wishes to thank the community and individuals for their financial support in making this project possible. We feel that a great deal of credit should be given to the Northville Downs and the Northville Driving Club because it was their combined contribution of \$7000.00 that enabled us to complete the project.

Sam Weirick of the Northville Downs stated, "It is the desire of the Downs to help the young folks in Northville to and assist the community in their youth recreational activities to make for better athletes in the village. We were very happy to purchase a unique form for the High school band last year and again we are more than happy this year to assist in the Athletic Field Project. Northville has the finest field that I have ever seen for the young folks."

There are several people in the community who desire to contribute this spring, which should make up the deficit on the fence and the soft ball diamond.

Novi AMVETS Clarify Local Political Activities

On Friday evening, January 17, speaking before a citizens' forum meeting in the Novi school building, Wm. H. MacDermid, commander, AMVET Post No. 76, Novi, gave the following address: "A situation has arisen when I consider my duty as Post Commander to clarify. It has come to my attention that various citizens of the community have expressed the belief that AMVETS are backing certain candidates for township offices. This belief is entirely in error. We are 100% non-partisan.

Never has the coming election, or any other election, been included in the agenda of any of our meetings. Our policy, as laid down by the AMVET state department, is purely of a non-partisan nature as far as politics are concerned. This policy is, and has been, adhered to 100% by our post. Collectively, as an organization, we are non-partisan.

Individually it is the right of every citizen, as guaranteed by the constitution of the United States, to support the candidate of his own choice. We who are AMVETS, hold this sovereign right, for which we readily served our country.

If a member of our post has used the word "we" when speaking of the election he meant "we" to mean "my friends and I." He did not mean "we" as AMVETS.

Although it is not a customary procedure I wish to go on record as saying the minutes of any and all of our past meetings are open for inspection by any individual or group of individuals who still feel that AMVETS as an organization has shown interest in any candidate for any office.

I also extend an invitation to any candidate who wishes to attend one of our meetings and address us, as individuals, on behalf of his qualifications for a township office.

People have said we Novi AMVETS are too demanding --- because we want to have our own private bar. Some consider this idea to have an AMVET origin. Yet most veteran organizations which are able have their own bar. We would rather rub elbows with our buddies than with strangers.

To accomplish this desire we have plans for our own building. However, this will not prevent us from doing all we can toward the proposed community building. Our children will benefit most from such a project.

I hope I have cleared up some of the misunderstanding that has reared its head, much to the detriment of a continued good community spirit.

Again I emphasize, The Novi AMVET post is and will remain 100% non-political. Thank You."

Cooking Wild Meat
 Wild meat that is young and tender may be broiled, fried or roasted; older meat is braised or fricasseed (smothered). If the hunter brings in game of different ages to be cooked together, the cook will be wise to use long, slow, moist cooking which makes tender meat tender. Allowing older meat to age for several days and then parboiling before cooking also helps.

four debates of a series. The "unsung heroes" who have upheld the honor of their school are Catherine Statter, Wilma Rattenbury and Robert Cousins.

The grocery store owned by Homer Coolman in West Point Park and the house adjoining were destroyed by fire Wednesday afternoon.

THIRTY FIVE YEARS AGO:

The senior class enjoyed a sleigh ride out to August Holcomb's home at Novi, Tuesday. Will Thayer and Mr. A. Porter attended the Shriners' convention in Detroit last Friday, where they witnessed the initiation of Ty Cobb.

One of the most enjoyable events in the history of the Northville Epworth League, was the sleigh ride social out to James Clark's Tuesday night of last week. Mr. Clark, Mr. Thompson and Mrs. Semmers kindly furnished conveyances for the 50 or more people who attended.

Louis Spinks and Edna West were married in Windsor last Tuesday.

D. P. Yerkes is now able to be out after being confined to the house the past two weeks with injuries received in Millford. While assisting in raising a smoke stack, Mr. Yerkes fell, tearing the ligaments of his back.

Consumers Power Plans 1947 Budget for Construction

Consumers Power Company's board of directors has approved a construction budget for 1947 providing for estimated expenditures in excess of \$33,000,000. Dan E. Karn, vice president and general manager, announced today.

The construction budget lists scores of projects for the expansion and improvement of the company's electric and gas service facilities in many parts of Michigan. It is the largest 12-month program ever undertaken by Consumers.

"Since the beginning of the war, the use of electricity and gas in the area served by the company has been growing rapidly," Mr. Karn said. "Meanwhile we have been prevented by wartime restrictions and postwar shortages of materials from expanding our power plants, electric lines and gas distribution system as we normally would have done. So a backlog of construction needs has developed. To clear up this backlog while meeting the anticipated growth in our customers' electric and gas requirements will necessitate an unusual amount of construction during each of the next few years."

Expansion and improvement of the gas distribution system will require an expenditure of \$1,800,000.

000 during the year. Because of scarcity of pipe, fittings and other construction materials, there is a backlog of 3,000 applicants for gas service, not including the thousands who would like to obtain gas house-heating service. No applications for gas house-heating have been accepted by the company since last spring. The company has more than 260,000 gas customers.

While the gas storage project will be advanced as rapidly as possible, it is doubtful, Mr. Karn said, that the ban on connecting additional gas house-heating customers can be lifted until after next winter. Eventually the storage project will permit the company to supply a peak day's requirement two or three times as great as at present.

Consumers supplies electric service in 1,256 Michigan communities and townships, gas service in 244, and steam heating service in five cities.

Former Lieutenant Governor Vernon J. Brown now enjoying retirement at a modest country home near Mason, advances a simple solution for the state's staggering financial problem: "Put all educational eggs in one basket." Preempt three mills of the property tax to finance the veteran bonus.

"Financial chaos and eventual bankruptcy" would be averted by state government.

"Adequate support for all proper functions of government, state and local" would be assured. Furthermore, "no added tax or new taxes" would be required and "no necessity for again amending the state constitution."

In company with George A. Osborn, publisher of the Sault Ste. Marie Evening News, he visited Mr. Brown at his ancestral farm four miles east of Mason on Diamond road. The former state official appeared to be in excellent health and hearty spirits; he lit up a cigar with relish and talked freely about state affairs. "I believe I have a simple solution for the state problem," he said. "You'll have to hurry," he added, "if you want to get this

SAVES SISTER . . . Running out of her home in Orange, N. J., when she heard her mother scream, "Fire," Margaret Bocelle, 7, realized that her sister, Angelina, 14 months, was still inside. Margaret rushed back to the first floor, where the flames were spreading, saved the baby. She is demonstrating here how she saved her sister—who apparently does not appreciate either the demonstration or the photographer.

Interview into your column. It's going to appear Thursday (Jan. 23) in the Ingham County News.

And so we quote from Mr. Brown's own signed article:

"I propose that the legislature by statute adopt a plan similar to that in vogue in the state of New York," specifically putting all our educational eggs in one basket by placing all education under one general administrative control -- all the way from kindergarten to post-graduate courses in the university. This would be accomplished by the mere process of declaring all a part of the public school system and by enumerating each and all as a part thereof."

During the past fiscal year, Mr. Brown points out, the state paid out more than \$50,000,000 for education. I needs in addition to the actual amount of state aid to schools direct. These needs included day schools for the deaf, blind, epileptic, crippled, state schools for the blind and deaf, behavior clinics for delinquents,

could qualify for high school education.

"It is my considered opinion that all this can be done well within the limits of current revenues plus the primary school interest money and such federal aid as is now available and is now being received."

As for the soldiers' bonus I would preempt three mills of the property tax to provide for the payment of interest and the liquidation of the debt. Not many veterans have large real estate holdings but all would share, directly, in the taxes required to pay them. Bonds resting on real estate taxes are most desirable from the investor angle and can be sold at the lowest interest rate, much lower than when supported by the so-called nuisance taxes of doubtful stability. This would permit retirement of the debt within a 15-year period.

The state should then recover itself some or all of the intangible tax and the liquor revenues presently being collected and presently being handed over to municipalities. Retail liquor license revenues now going to townships and cities should be retained in part by the counties with consideration given to cities maintaining adequate police departments and promising full police supervision of all licensees.

"Simple, isn't it? Adequate support for all proper functions of government, state and local, no added tax or new taxes, no necessity for again amending the state constitution."

"Probably too simple to hope for adoption."

SOCIETY

NEWS AND NOTES OF COMMUNITY INTEREST

WARD - GREEN

A wedding of interest to Northville residents was that which occurred last Friday evening, Jan. 24th, in the Presbyterian Church at Plymouth. Rev. Henry J. Walsh performed the ceremony uniting Richard Green, son of Mrs. Judd Green of Orchard Drive and the late Mr. Green, to Anna Mae Ward, daughter of Mr. and Mrs. Fred Seaser of Plymouth. The church was decorated with bouquets of white carnations,

palms, and lighted tapers. Organ music was played by the church organist and "Because" and "The Lord's Prayer" were sung by a soloist.

For her wedding the bride chose a wine-colored suit with which she wore white accessories and a white orchid.

Attending the couple were Jean Mack of Plymouth and Don Green of Orchard Drive. The bridesmaid wore a grey suit with fuchsia accessories and a corsage of rosebuds.

Seating the guests were Wm. School and Thomas Houghton of Plymouth.

Mrs. Seaser and Mrs. Green, Sr., wore carnations with their black suits for the ceremony.

A reception was held immediately after the service, in the parlors of the church. After a short stay at the Hotel Scutler in Detroit the young couple returned to the Mayflower Hotel, Plymouth where they will remain for a time.

Anna Mae graduated from Plymouth High school with the class of 1945.

Lick also graduated that year, from Northville High. He served in the Navy for eighteen months, part of the time in the South Pacific, and was discharged with the rating of Quartermaster.

TWO ENGAGEMENTS ANNOUNCED

Mr. and Mrs. J. W. Wagner, of South Rogers street, announce the engagement of their daughter, Wanda, to Clarence Schwab, son of Mr. and Mrs. Herbert Crumm of Walled Lake. A March wedding is planned.

Mr. and Mrs. Geo. Talmage of Bradner Road announce the engagement of their daughter, Joyce E., to John W. Stark, son of Mr. and Mrs. D. J. Stark of Easton Drive.

MICHIGAN'S MOST FAMOUS STUDENT...

OF THE hundreds of thousands of boys and girls who have studied in Michigan, Thomas Alva Edison is the most famous. Yet the man who did so much for humanity never had more than a few years of formal education.

You may have read that Edison, the boy, was banished from the Port Huron schools for dreaminess in class—that his teacher called him "addled"—and that he learned the three R's from his mother. Later, when in his teens, he worked on the Grand Trunk railroad. Fortunately for every one of us, his train had a daily lay-over of nearly five hours in Detroit.

For Thomas A. Edison, high school and college were an ancient building, the Young Men's Society Library, on Jefferson Avenue, just a few doors east of Woodward. Between runs, he buried himself in its

books, devouring them, not by subject or author, but by shelf and section.

Throughout his life, this thoroughness was characteristic with him. It was the quality that carried him through three thousand unsuccessful theories before he invented the incandescent lamp—fifty thousand abortive experiments before he created the storage battery. "Genius," he was fond of saying, "is one per cent inspiration, ninety-nine per cent perspiration."

Few of us have Mr. Edison's thoroughness, his patience, his capacity for concentration. But we at Detroit Edison realize that our heritage from him is both an inspiration and an obligation—an obligation to continue his efforts to make life more comfortable. That is why we are constantly trying to develop new and better ways for electricity to serve you.

THE DETROIT EDISON CO.

IN HONOR OF MR. EDISON...

You are cordially invited to these exhibits Feb. 16 through Feb. 21 at the Edison Museum at Greenfield Village, 9 a.m. to 4 p.m. daily, admission 25¢, and the

J. L. Hudson Co.'s special display. Bring your friends to see electricity in the making at any Detroit Edison power plant, 12 noon to 9 p.m.—Saturday, 10 a.m. to 4 p.m.

Marines Offer College Courses

By Act of Congress, benefits of the G. I. Bill of Rights, including a college education are open to every qualified young man who has served 90 days in the Marine Corps, one day of which was served between 16 September, 1940 and the official declaration of the termination of the war.

In the past, hundreds of thousands of intelligent young men finishing high school each year have been unable to afford a higher education. Today, enlistment in the Regular Marine Corps makes that opportunity available to every high school senior who has the necessary mental and physical qualifications.

Enlistments are open to men aged 17 to 29, and may be for 3 or 4 years. At the end of his enlistment the honorably discharged Marine is entitled, under the G. I. Bill of Rights, to a period of education or training at Government expense. This is based on the length of his service, up to a maximum of 48 months. He is entitled to the 12 months education available to all men who have served 90 days one day of which was served between 16 September, 1940 and the official declaration of the termination of the war. In addition, he is eligible for one month of education for every month he has served prior to such official declaration. This training may be taken at any college or university, trade or business school for which he can qualify.

The Government will pay his tuition, up to \$500 per ordinary school year plus \$85 monthly allowance for living expenses—\$6 dollars if he is married.

A Marine Corps Recruiting Station is open at the Pontiac Post Office, Room 4 9 a. m. to 4 p. m. Monday through Saturday.

OAKLAND COUNTY ARTIFICIAL BREEDERS ASSOCIATION No. 1.

Artificial breeding of dairy cows in Southwestern Oakland County is making very good progress. Oakland County's Artificial Breeders Association is under the management of Mr. Glenn Robinson. Through the months of October and November a total of 89 cows were bred for members in the association. Mr. Robinson reports that about 75 of the cows are sitting on the first service. The association started receiving service on October 21, 1946, at which time there were 39 herds with a total of about 380 cows of the Holstein and Guernsey breeds. At present the membership has increased up to 48 herds with a total number of cows contracted for about 550. Arthur H. Ship is president of the association.

"You seem to have plenty of intelligence for a man in your position," sneered a lawyer, cross examining a witness.

"If I wasn't on oath I'd return the compliment," replied the witness.

LOCAL NEWS

Shirley Ely of Plymouth Ave., attended a formal dance at Michigan State College and spent last weekend on campus as the guest of her cousin, Peggy Ely of Gardner Ave.

The regular meeting of the Patriotic Club will be held at the home of Mrs. Lee Shipley on West Dunlap St., Thursday, Feb. 6. A potluck dinner will be enjoyed at 12:30 o'clock.

Friends of Mrs. Beatrice Boldt of Belleville will be sorry to learn that she is confined to her bed for the next several months by illness. As Beatrice Thompson, Mrs. Boldt resided in Northville a few years ago.

A slight misunderstanding seems to be current regarding the meetings to be held in the Northville Library for Home Extension work. These sessions have been planned for the benefit of leaders of Home Extension classes in this area, some thirty in number, and will be open only to such. Wayne was formerly the location for these meetings.

Subtlety is the art of saying what you want to say and getting out of range before it is understood. 2

"How do you like your new boss, Helen?"

"Oh, he ain't so bad, Marge, only he's kind of bigoted."

"How'd you mean?"

"Well, he thinks words can only be spelt one way."

"Do you act toward your wife as you did before you married her?"

"Exactly. I remember how I used to act when I first fell in love. I used to stand in front and look at her house, almost afraid to go in. Now I do the same thing some nights."

SOUR ANSWER

Junk Man: "Any old beer bottles you'd like to sell, lad?"
Old Maid: "Do I look as though I drink beer?"
Junk Man: "Any vinegar bottles you'd like to sell?"

THE MAN SAID "NO"

She: "How about giving me a diamond bracelet?"
He: "My dear, extenuating circumstances perform me to preclude you from such a bauble of extravagance."
She: "I don't get it."
He: "That's what I just said."
