Smart Lines Characterize New Chevrolet

Re-styled for the new year, with emphasis on a more grille and complementing bright work, as well as eliminating front end and a smoother sweep to body contours, tuck of the body belt molding, have done much to give the new Chevrolet will soon make its debut. New front-end | the new model an air of greater luxuriousness.

In Celebration

A Abraham Lincoln the sixteenth president of the United States is one of the most exalted characters in American history. He was a statesman who set in high ideals and planned mighty deeds. He was a man whose life seems a part of the national existence.
 Five days after the ending of the Civil War, on Good Friday, April 15, President Lincoln was shot in the head while attending a performance at Ford's Theatre. He died next morning.
 The immediate result of Lincoln's tragic death was a sudden disappearance of the better optimism which he had borne for four years. During those sad days, all business mourned. This simple man, sprung from the soil, descendant of the poor stock had risen to the highest place in the nation and had wielded dictatorial power. Phillips Brooks, said of him: "There are men as good as he, but they do bad things. There are men as intelligent as he, but they do foolish things. In him goodness and intelligence combined and made their best result of wisdom." R. H.

Carry It With You

Saint Valentine's Day, sometimes just called Valentines Day falls on February the 14th. The origin of this day and how it got its name are uncertain.
 In the United States it is a day for sending cards and giving gifts to our loved ones. It is one

of the days which makes us realize and appreciate the grand things we have. Why not try to carry your Valentine Day spirit with you through out the year.

At the Student Council meeting February 3rd. Al Bidwell was elected as Junior Rotarian for February. Northville's Yesterdays

ONE YEAR AGO:

Rev. M. J. Remoin and his wife and three children moved into the Baptist parsonage at Novi this week, Rev. Remoin having been called to the duties as pastor of the First Baptist Church in that village on February 10.

A splendid crowd was present last week to hear and appreciate the annual Northville High school and Community Band Concert given in the gymnasium.

Monday evening a new athletic alliance for neighboring High schools was effected. The new athletic organization, which it is hoped will include music and forensics, will be known as the Inter-Lake Conference. The new group includes the following High schools: Farmington, Keego Harbor, Milford, Northville and Walled Lake.

Our Lady of Victory Church was the scene of a quiet wedding Saturday afternoon at one o'clock when Bernice Speckowski became the bride of Raymond Newhouse of Redford.

Tuesday evening the Northville High basketball team won from Clarendonville, there, 36-26.

According to the report by co-chairmen Nelson C. Schrader and

Fred Van Attá, the total receipts for the recent March of Dimes drive were \$328.40.

FIVE YEARS AGO:

With the selection of two casts, rehearsals started this week on the senior play written by Charles Yahné, Jr., of the high school faculty, which will be given March 19 and 20 in the school auditorium.

All enemy aliens of Germany, Italy or Japan are required by law to register at the post office by Feb. 28.

From the University of Michigan committee on Relations comes notification that the Northville high school has been given accreditation on a continuous arrangement.

The Eastern Stars are busy this week getting ready for their annual ball, Feb. 20, which they give with the Masons; but of more importance are the preparations which are being made for the organization of a Northville Rainbow Assembly.

Continuing their unbroken court wins of the season, the girls' high school basketball team defeated the Redford Union team last Thursday on the Redford court, 25-22. And by the same token, the boys won their game from Van Dyke—the following night by a 28-18 score.

TEN YEARS AGO:

Substantial completion of the new Northville grade school building has been announced.

The community was shocked to learn of the death of Mrs. Thomas W. McCordie, who died Wednesday.

Villagers looked out their windows here Monday morning upon a sheet of ice which created traffic danger until noon, when a high jump in temperature created a thaw.

The President's Ball netted \$103.75 here last week. A second truck load of supplies for the Ohio and Mississippi flood region left the village Thursday morning.

Only one office, that of the clerk, is contested, within the republican party in Northville town's first primary election, March 1. John Litsenberger, former treasurer for the village, is competing against Sherill W. Ambler, an incumbent, for the clerkship.

Seven former high school students, with non-basketball interests, have formed an independent team and have downed the Mulford squad which was undefeated until Wednesday, when the local players invaded the court and took the game, 42-1.

FIFTEEN YEARS AGO:

Boys and men of the number of 150 came to the Methodist Church Wednesday evening for the annual father and son banquet.

This is the "snow" winter. Mr. and Mrs. Joe Hubman are now occupying their new home on Beck Road.

Nineteen boys of the high school basketball squad were given a treat sponsored by Dr. Johnstone, Orlow Owen and Corah Ruggles Monday when they witnessed the U of M and Iowa game at Ann Arbor.

Before a large and appreciative audience in the First Methodist Church, Pontiac, the Northville

LEADING ROOKIE . . . Del Ennis, Philadelphia outfielder, who was chosen the leading rookie of 1946. He has made a New Year's resolution to obtain a batting average of .350 for 1947—and to play the season without an error.

Senior Girls' Glee Club gave a concert Sunday evening. Mrs. Maurice J. Lapham will manage the Ponsford store, to be run by her father, the late C. A. Ponsford.

THIRTY-FIVE YEARS AGO: The total number of foreign pupils enrolled in the Northville schools is 48. This brings in nearly \$1,000 each year. Mrs. Elizabeth Barkley died Monday night.

Tom Carrington resumed his duties in the post office Thursday after a 10-day trip to Florida. The high school sophomores enjoyed a very pleasant sleigh ride party to the home of Mrs. Mae Holcomb at Novi Monday evening.

Eugene DesAutels, who recently passed an examination for fish culturist, has been given a position at Manchester, Ia., where he is going to take up his work.

The "Quality 500" club enjoyed a combination "Sleigh-ride-Valentine party" with a six o'clock dinner thrown in, at the home of Mr. and Mrs. Floyd Northrop, Wednesday. Mrs. Northrop and Mrs. Charles Blackburn were hostesses.

Spills Decrease
Counterfeiters cheated the American public out of only \$48,000 in 1942, compared with spoils of \$771,000 per year between 1933 and 1936, according to the Encyclopaedia Britannica. A counterfeit bill often can be detected by comparing it with a genuine "bit" of the same denomination, paying special attention to the quality of the portrait, which is usually fine in a genuine bill. Counterfeit coins usually feel greasy or slippery.

Widows Get a 'Break'
According to Encyclopaedia Britannica, the Ojibwa Indians of South America marry off their widows to young men and their widowers to young girls. U. S. widows might not enjoy all the features of being an Ojibwa. These people are noted for being great eaters. They even mix their bread with the good earth.

What made Greyhound Grow?

...giving the people good transportation...at low cost...and lots of it!

From puppyhood, Greyhound grew on one good idea: to build a new, "American-style" travel system for THE PEOPLE.
Not mail...not freight...but PEOPLE.

The thing Greyhound knows best is how to get people to the places they want to go...at the times they want to go...at prices they can afford.

And Greyhound does this for more cities, towns, villages and corners than any other transportation system.

What's more, Greyhound makes this "American-style" travel friendly, easy, convenient...stopping in the heart of big cities...at the drug store across from the city hall...or at Pete Jones' farm, if that's where Pete wants to get off.

Why do the people like Greyhound? There's your answer: good transportation...at low cost...and lots of it.

Take Census in Oakland County

The special Federal Census, to be taken in Oakland County, is already under way in some sections of the county.

The work of taking the census has been somewhat delayed inasmuch as there is considerable confusion regarding the return of sales tax monies by the state to local governmental units. This special census was approved by the County Board of Auditors as a means of determining the present population of Oakland County as a basis for the return of tax monies. The matter is at present being considered by the State Supreme Court, and it is probable that the State Legislature will take some action following the Court's ruling.

Fire Inspection Made in Business Area of Farmington

A general fire inspection tour of the Farmington business district was made last week by Mr. O'Farrell of the office of the Michigan State Fire Marshal. The inspection was prompted by the fire of January 21st which destroyed the Twins Beauty Shop, Irene's Apparel Shoppe, the four apartments above the two stores, and the Post Office Building. Such an inspection is routine in instances where a particularly disastrous fire occurs in the community.

A careful check was made of all buildings in the business section with particular attention being given to safety precautions and preventive measures.

Mr. O'Farrell will compile his report which will be filed with the State Fire Marshal, and submit a list of recommendations and safety measures to be taken. Owners of buildings will be notified, by letter, what recommendations have been made concerning their property, and they will be asked to comply with the suggestions just as soon as possible.

The purpose of the fire inspection by the state is to insure the future safety of Farmington's business section. The recommendations will be made to property owners in an effort to assist them in protecting their property and other property in the business district from loss by fire.—Farmington Enterprise.

Resembles Butter

The mild flavor of chicken fat more nearly resembles butter than any other fat except margarine, according to May E. Foley, extension nutritionist at Massachusetts State college. This is good news to housewives during these fat short days, particularly now that plenty of "fat red hens" are on their way to market. It can be used in many foods, says Miss Foley, and is excellent in white sauce, both quick and yeast breads, and pie crusts. The proportions for pie crust are 1/2 cup chicken fat to 1 cup of flour.

Cubs and Scouts Attend Church

A large delegation of Boy Scouts, Cubs and their leaders attended the services at the Presbyterian Church last Sunday.

Lead by the Presbyterian Choir, the group marched into the church to the strains of "Onward Christian Soldiers," and were seated in the front pews. Rev. Fredsell prepared a sermon of special interest to the boys, entitled, "The Glory of Youth," stressing the importance of a clear mind as well as a strong body.

Thirty Cubs and fourteen Scouts were present. Commander Murray and Arthur Carlson represented the V. E. W., sponsors of the Cubs and Mr. Parmenter and Mr. Miller represented the Legion, sponsors of the Scouts. Den Mothers, Mrs. Kenneth Rathburn, Mrs. Emory Mapes, Mrs. Fred Russell, Mrs. Gladys Clark, Mrs. George Donoghue and Mrs.

Leslie Maltby sat with their respective dens. Cub Master, Emory Mapes and Assistant Cub Master Earl Collins were also present.

The following boys are den chiefs: Charles Lapham, Sidne Mense, Jim Clark, Ted Lemmo, Bud Porter, Dennis Curl and Charles Dickerson.

To Speed Reconversion It's an old story now, but still so important. Save all your kitchen fats, put them in tin containers and deliver to your butcher who will give you four cents a pound for fat. Every pound of fat saves speeds reconversion.

Huge Fire Loss
 Losses from forest fires in the U. S. are estimated at from \$50,000,000 to \$75,000,000 yearly. About 98 per cent of the more than 150,000 forest fires occurring each year are man made. Smokers lead the list of offenders, followed by campers, brush burners, railroads and lumber companies.

Michigan Mirror
Non-Partisan News Letter

Between now and the April elections the voters of Michigan are going to hear a lot about alleged racial and religious discrimination in employment. It's not a pleasant subject to talk about.

The issue is going to the voters because of petitions, sponsored by approximately 200,000 citizens, which initiated a bill now before the state legislature. This bill proposes a penalty for discriminations in employment due to racial or religious reasons. A commission would be created to administer the law.

lief that the bill should be voted upon by the people. Hence the certainty at the moment, that the voters will decide in April.

New York, New Jersey, and Massachusetts have adopted a similar law. California voters rejected it in a referendum last November by a margin three to one.

What would the law do? The New York commission has ruled the following practices to be illegal: Requirement of a photograph from a job applicant, requirement of information regarding the applicant's religious affiliations, place of birth, naturalization papers, racial ancestry or nationality.

The Michigan bill would impose a fine—not more than \$1,000 or imprisonment for not more than six months, or both, for any violations.

Should each member of the Michigan legislature get a \$7.50 per diem expense account while at Lansing on state business? That's the question now before the House of Representatives. The senate thinks so. Governor Siger has advocated higher pay as a way to lessen temptation for graft to cover living costs at the capital.

Here are some facts. The \$3 per diem, as set by the constitution, is paid for every day in the calendar year. Sundays included. A legislator's compensation is \$1,095. The average legislative session runs five months. A legislator is subject to duty throughout the year.

The constitution specifically states that legislators "shall receive no further compensation than as specified in this section for service when the legislature is convened in special session." All attorney generals prior to 1947 have ruled that it would be illegal to pay an expense account. Attorney General Black has ruled it would be legal.

Attorney General Black (also announced he is going to turn in his own expense account for \$2,500 a year, as provided by a 50-year-old statute enacted back in 1857. Mr. Black's home is in Port Huron.

State Treasurer Samuel Odell, who served from 1917 to 1920 (two terms), collected \$2,500 a year in addition to his salary. The present treasurer, D. Hale Brake has not done so.

The governor's constitutional salary is \$5,000, although he receives an additional \$2,500 as a member of the administrative board. Combining constitutional salaries and legislatively-enacted fees or compensation, all state officials except the lieutenant governor now get \$7,500 a year. The lieutenant governor receives \$3,500 plus \$3 per diem as a legislator, or \$4,505 in all.

Until 1945 the governor's expense account was \$5,000 a year. In 1945 the legislature doubled it to \$10,000. Even the \$5,000 expenditure is a fairly recent innovation, so we were told.

The constitution says that "it shall not be competent for the legislature to increase the salaries herein provided"—said salaries being those of state officials.

If Attorney General Black insists on collecting his \$2,500 ex-

pense account or if the legislature approves the \$7.50 per diem expense allowance, it is conceivable that the state supreme court may be asked by someone, at some time, to decide the entire matter.

The writer's personal comment: Constitutional salaries of state officials and legislators are wholly inadequate in 1947 on the basis of present-day living costs. The present system of paying the governor a \$5,000 salary and then giving him an additional fee of \$2,500 and an expense account of \$10,000 is a simple circumvention of the constitution, although we concede its practical need.

Attempts to increase legislators' salaries by constitutional amendment have been unsuccessful. As late as November 7, 1944, the voters of Michigan rejected a proposal.

A happy solution to this problem—and other problems including the strangling sales tax amendment which earmarks 70 per cent of revenue for non-state public services—is a constitutional convention for revision of the constitution.

The answer of big-town mayors to Governor Siger's request for a solution to the state financial dilemma was as follows: Grab the veterans' \$50,000,000 trust, dip into the present surplus, and count on an increase in sales tax returns. Thus the prospective \$23,000,000 deficit could be averted. The mayors' solution was a one-year answer at the best. It pointed the way anew to the need for revision of the state constitution rather than imposition of new and higher taxes.

Rabies
 Bureau of animal industry of the department of agriculture has studied the rabies problem thoroughly. It favors a control program that includes vaccination of dogs, along with the other standard control measures, such as prompt segregation of any dog suspected of being rabid, prompt examination of the brain of any suspect dog, quarantine and impounding of all strays.

Cooking Wild Meat
 Wild meat that is young and tender may be broiled, fried or roasted; older meat is braised or fricasseed (smothered). If the hunter brings in game of different ages to be cooked together, the cook will be wise to use long, slow, moist cooking which makes tougher meat tender. Allowing older meat to age for several days and then parboiling before cooking also helps.

HE ADDED YEARS TO YOUR LIVING

This man who was born one hundred years ago this week spent most of those years working to make our lives easier. Today, we are apt to take his achievements for granted—to forget the wondrous changes he made in our daily lives. The stenographer little realizes the fragility of office routine without typewriter or duplicating machine; the saleswoman can hardly imagine a busy day without gummed wrapping tape.

The list of his achievements is long and varied, but most of us have some special obligation to Thomas A. Edison. Every worker who finds his lunch-time sandwich fresh in its waxed-paper wrapping—every G.I. who crossed an ocean safely with the aid of radar and submarine detection devices—can thank Mr. Edison.

But these specific contributions of the man become small and insignificant alongside his other gifts to all mankind. For every one of us who sends a telegram or rides a street car—every one who enjoys a radio, a phonograph or a movie—can thank Mr. Edison.

Some of these gifts have made our lives safer. Some have given us more pleasure. Most have made our tasks easier. But all are eclipsed by his gift of electric light. For with that one invention he, in a very real sense, added years to our living. Those years are made up of thousands of evenings . . . and since Mr. Edison's invention of electric light, evenings—with their hours of relaxation, of reading or games or good companionship—have become the best part of our lives.

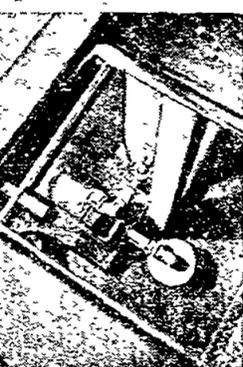

Evenings have also become a time for study. Men and women today, fired by the example of Thomas A. Edison, are using them to continue his research for even better ways of living.

IN HONOR OF MR. EDISON . . .
 The Detroit Symphony Orchestra this week inaugurates a new series of popular concerts each Tuesday night at 7:30 over WWJ.
 And don't forget the Edison Institute Museum's special exhibit this week at Greenfield Village, 9 a.m.-4 p.m. daily. Admission 25c. All Edison power plants will also be open this week from 1-3 and 5-8 p.m. daily, 10 a.m.-4 p.m. Saturday. Call Randolph 2100 for details.

Good Farm Wiring Is Held Essential
Expensive to Pay for Preventive Power Loss
 "Anything less than good wiring on the farmstead is not only a serious bottleneck to successful use of electricity, but usually causes disaster," declared the average farm must be considered as an industrial plant, a production and processing plant for products. The greater the degree of processing performed on any farm, the greater is the return in terms of farm income, he explained.
 No matter what efficient equipment the farmer may employ to arrive at more complete and profitable production, its successful operation depends upon a good wiring installation.
 Larger capacity service entrances, heavier conductors to farmstead buildings and also for serving the higher horsepower motors now being used, an increased number of circuits and more attention to balancing loads among the various circuits are among the outstanding needs of farm wiring systems today, Kutt said.

MISS SLICK CHICK OF 1947?
 WE ARE RESENTFUL... Here, resentful and envious of the "Slick Chick" designation, which with utter abandon has been bestowed upon human females, at long last have come to the fore and demanded their equal rights. The Poultry and Egg National board, realizing the justice of their claims, is conducting a nationwide search for the most beautiful hen in all America, who will be crowned "Miss Slick Chick of 1947," and will be guest of honor at world premiere of "The Egg and I."

...station and needless expense in the use of electricity for anything beyond lighting and minimum power uses." William A. Ritt, Minneapolis, Minn., declared at the national farm electrification conference. In planning the wiring for a farm,

On Target for '47

STAND back — take it all in — and make sure you don't miss a thing
 For what we've pictured for you here is the whole Highway Hit Parade of 1947 — wrapped up in one glamorous bundle.
 Those long, flowing, follow-through fenders — there's a style note you'll see echoed in automotive fashions for a long time to come.
 That generous beam amidships — there's the driving room you've been seeking, with legroom, headroom, elbowroom all around.
 That broad deep bonnet spells power aplenty — eager, lively Fireball power from an engine that seems to stay forever young.
 That hug-the-road look means steadiness; coil springs on all four wheels spell matchless, floating ride; wide-swinging doors open on interiors both handy and handsome in arrangement.
 In a word — Here's a car squarely on target,

whether you go for style or size, performance or value. Here's America's most wanted car — and easily America's most sought-after buy.
 So why let the crowd get ahead of you? Why wait — when waiting can only postpone delivery, not hasten it.
 Just remember that faint heart ne'er won a fair car like this — and get your order in!

Northville Loses to Farmington in Overtime Period

The Northville High School basketball team lost their second game of the season in Farmington, Friday night, before a gym packed with enthusiastic fans, after leading for three quarters. This was the second time this season that Farmington has defeated the Mustangs in an overtime game.

At the beginning jump the ball went to Northville but it was passed back and forth between both teams for some time before Nitzel rang up the first points in Northville's favor. Neither team kept the ball very long at a time and scoring was low, many being converted from free throws. The first quarter ended 8-6 with the Mustangs one basket in front. Northville out-scored the Farmington five by three points in the second quarter which made the score 16-11 when the half was reached.

The Farmington team came back strong and held the Mustangs to two points during the third quarter while they dropped in five.

The crowd went wild at every shot during the last quarter as scores remained very close. The score at the final gun stood at 25-21. This made it necessary for a three minute overtime. As soon as play was resumed the first point was scored by Northville on a foul shot. This point was soon followed up however by two free throws by the opponents which gave Farmington the game. Final score: F. H. S. 27, N. H. S. 26.

The second team lost their game by a score of 43-13.

Northville now has the record of eight wins and two losses. This Friday night they will journey to Keego Harbor to meet that team for the second time this season. Northville won the first game with Campbell's free throw during the last few minutes of play. The score, 23-22. This game will be the deciding factor as to who will top the league as Keego holds a close second.

St. Valentine Day

February 15 was the date of the annual Roman festival, the Lupercal. Associated with the fest was a lottery in which young men drew from a box the names of young women partners.

This romantic custom survived in France and England for many centuries and early Christian missionaries instead of attempting to root up the established customs adapted them to the new concepts. This evidently was the case with St. Valentine's Day, although no exact record on the alterations exists.

Eagles Explain Liquor Application

The statement which appeared in the Detroit papers, in regard to the Detroit Order of Eagles, at Northville applying for a liquor license, is false. Worthy President Mark C. Larkins, explained at the last regular meeting of Eagles, in Northville.

Larkins explained, he sent a letter to the Michigan Liquor Control Commission, asking for a 24-hour permit to sell beer from area to time, until the Eagles get a permanent license. A permanent license was never applied for. An application for a permanent license must be filled in and signed by the President, Vice President, Secretary and Treasurer of any club, and each must sign a \$1000.00 bond.
