Racing Period Set Services Start at July 21-Sept. 13 1:30 p. m. Friday

Harness racing dates for the Northville Downs track were agreed upon Monday by Gov. Siger and William J. Dowling, deputy racing commissioner.

The announcement ends the conflict between the State Fair Association, opposing dates which overlap harness events at the various county fairs, and the operators of the Northville permanent track.

The Governor instructed Dowling that he would expect the Racing Commission to see to it that the Northville operators carry out their promise to supply horses for county fair meets which can't fill their entries.

Dowling, who favors restricting the "take" of pari-mutuel racing to 10 per cent, with the track receiving 3 per cent, said that he would not oppose the pending racing bill.

The new bill specifies an 11 per cent "take" for harness racing and allows the track to retain 8 per cent in lieu of other taxes and would about double the return received in 1946 from harness racing.

The cantata numbers were interspersed with a piano solo by Carol Kourt of Brighton and a cornet solo "The Holy City" by Bernon Young of Brighton. Also a reading, "The Broken Vessel," by Mrs. J. M. McLucas.

The altar of the church was decorated with palms and beautiful flowers. Rev. J. M. McLucas, the pastor presided, and Rev. M. J. Reimann, pastor of the Baptist Church offered the prayer. The church was well filled for the occasion and everyone appreciated the fine inspiring service of Easter in song and story. The cantata will be rendered Easter Sunday evening in the First Methodist Church at Brighton.

Shoots Wife with 22 Cal. Revolver

Thursday evening, Mr. Elzeta Wittrick, of 516 Randolph St., was shot in the head with a 22 caliber revolver alleged to have been in hands of her estranged husband, Walter A. Wittrick. Mrs. Wittrick was rushed to St. Joseph's hospital for plasma and taken to Grace Hospital. Latest reports state she is recovering. Walter Wittrick was released Tuesday on \$1000.00 bond, pending further developments in the case.

It is claimed that Wittrick called at 516 Randolph and asked to see his year old baby. Mrs. Wittrick admitted him. He then went to get his gun which he kept near a register, an argument followed, his wife wrestled for the gun and the gun was discharged, the bullet striking Mrs. Wittrick near the temple and lodging back of the eye. A neighbor Mrs. Wilma Cooper, a sister of Mrs. Wittrick, summoned Police Chief Denton from his home across the street. When police arrived Wittrick was sitting in a chair holding the baby on his knee. Upstairs police found Mrs. Wittrick lying in a pool of blood. Later testimony pointed to the possibility that Wittrick brought the gun with him, and he went upstairs Mrs. Wittrick told him to leave or she would call the police, he is said to have replied "You'd better call an ambulance." Shots followed.

Among the favorite indoor sports of American citizens is the privilege of criticizing our public officials.

The Michigan State Legislature, now in its fourth month of sessions, is not immune. The Legislature has been under periodic fire from critics because of the relative small record of bills to date.

Activity of the finance committees of the House and Senate has been almost at a standstill, as legislators await the outcome of the supreme court's consideration of the sales tax amendment, now on appeal. It has been impossible to proceed in the normal way because of the uncertainty of whether this controversial amendment would be sustained or held invalid by the court. This situation has been entirely out of the Legislature's control, thus there would appear to be no justification for criticism directed at the Legislature accordingly.

What seems to be more important, as we see it, is the gradual encroachment of Legislative power by pressure groups through the constitutional diversion or earmarking of public funds.

This fact came home forcibly to us recently when we spent an evening conversing with Michigan's new budget director, John Perkins.

HEAVYWEIGHT CHAMPION... Baby Tony Marie, daughter of Mr. and Mrs. Antonio Christian, Oakland, Calif., who weighs 42 pounds at the age of 11½ months and boasts that she may be America's biggest baby for that ripe old age.

Mr. Perkins started us by declaring that the Office of the Budget devoted its entire attention to only 30% of the state-collected revenue. There was little to be done he pointed out, about the remainder of state funds - 70% - because this money had been earmarked by law through the state statute or the state constitution and hence automatically was reserved by the state treasurer for specified expenditures.

The idea that the state budget director and the Legislature must confine their consideration and energies to only 30% of funds collected by the State of Michigan does not make much sense to a business man. It would seem irrefutable that further spread of such constitutional earmarking of public funds will reduce the State Legislature to the absurd position of expending but a small fraction of public taxes. Surely the founders of the state's constitution never envisioned this situation when they created the basic charter which now governs our activity.

State Treasurer D. Hale Brake has declared repeatedly that Michigan's financial situation due to constitutional earmarking of public funds is unique in the United States to the

extent that no other state was so plagued.

As has been pointed out repeatedly, the public has been confused by the collection of large sums of money by the State of Michigan with its resultant deposit in the State Treasury at Lansing. Governor Kim Sigler pointed out in February, in a message to the Legislature, that while state expenditures had increased 151% since adoption of the sales tax the large bulk of this had been returned to local governments in the proportion of \$132,000,000 to the \$30,000,000 retained by the State.

It is the thesis of Governor Kim Sigler that the present-day problem is due in part to the crazy quilt pattern, built up through the years, whereby government attempts to finance additional public services in a makeshift fashion.

To quote Governor Sigler, "From the time Michigan ceased to be exclusively an agricultural state until its full boom industrially, there has been an ever-increasing spiral of demands for money."

"We have completely overloaded our antiquated tax structure, and the props we have put under it from time to time are threatening to give way and let the financial house fall down upon our heads. Now you and I did not create this problem. We only inherited it."

Declaring that "Michigan cannot long continue to grow and prosper under the handicap of an antiquated tax and financial structure," Governor Sigler recommended to the Legislature that steps be taken to revise the State constitution in the light of modern industrial conditions.

In so doing the governor declared that we should give "full understanding to the problems of the schools" as well as "the present financial plight of the cities of Michigan."

In this reasoning the Governor urged the Legislature to create a Constitutional Revision with full power and authority to study the problem of revising our basic charter to the end that a revised and improved constitution containing a reorganized system of taxation shall be submitted to the people of Michigan in the general election of 1950.

It is also a curious fact that the Legislature's earmarking of public funds is such a move to the State constitution.

As the State Supreme Court, the Legislature will be crippled in its ability to handle, in or with the State Budget Office, the terms of Article 10, § 10, of our State constitution public funds shall be expended.

Child Care Tip
Here's a solution to the old problem of keeping a youngster covered at night: Sew two of his largest crib blankets together on both sides and at one end, forming a sleeping bag. Tuck baby in the bag first, then put on the other covers. If he kicks off the covers, he still has the protection of his sleeping bag.

FORD
Offers the
Lowest Priced Cars
In Its Field!

The Ford three-window, six-cylinder business coupe is now back in production. The price has been reduced twenty dollars below the price which prevailed last fall when production on this model was temporarily suspended.

This reduction, together with those of January 15 ranging up to fifty dollars, makes the Ford business coupe and the two-door sedan the lowest priced cars in their field.

This is in keeping with Ford's policy of offering the greatest value at the lowest possible cost.

AN EXPLANATION
 APPARENTLY THERE HAS BEEN A MIS-UNDERSTANDING on the part of some of the residents of the Township of Northville as to the true import of the question to be presented to the voters at the next coming election on the sale of intoxicating beverages by the glass.

At the present time beer or wine can be sold in the Township without permission of the voters, yet because of the diligence and integrity of our past and present township Boards, the whole Township, outside of the Village limits, is free of the menace of vice dens, directly because it is solely within the discretion of the Township Board to authorize the granting of licenses.

It is the desire of the undersigned to build and operate a fine and respectable dining room adjacent to the Village of Northville, competing only with similar Detroit and Plymouth dining rooms. It is further the desire of the undersigned to have the privilege of serving appropriate beverages to complete full course dinners.

Let it be pointed out that upon the sale of intoxicating beverages being permitted within the Township of Northville, it would still be within the discretion of our Township Board as to whether or not licenses would be granted, which would be exercised yearly. High type dining rooms serving expensive foods will not draw low type customers nor are they hangouts for adolescents.

DO YOU THINK OUR TOWNSHIP BOARD WOULD RELAX NOW?

"HEAVENS TO BETSY . . ."

"HOW CAN INVISIBLE LIGHT MAKE MEAT TASTE BETTER?"

WHY, IT'S EASY, MA'AM, chuckled the butcher. "These new germ-killing lamps in our refrigerator stop bacteria cold—thanks to invisible ultraviolet rays . . . and that means less waste and more taste for your money!"

For years, you see, butchers have had a difficult problem in keeping meat both pure and fresh. Refrigeration, of course, is partially the answer. Refrigeration will slow up the growth of mold and bacteria to almost nothing—will keep meat practically 100% pure. But refrigeration alone cannot always keep meat from drying out. And when meat does dry out, it loses its natural flavor, juiciness and color.

Now, however, the germ-killing lamp, properly installed, makes it possible to increase the temperature and humidity in butcher shop refrigerators. That's because its invisible ultraviolet rays destroy airborne bacteria before the meat is contaminated.

The result? Sanitary, sweet-smelling meat storage, for one thing. Less chance of meat spoilage in your own refrigerator, too, because your purchases are healthfully pure and—at the same time—juicier, tastier, more flavorful . . . not shrunken, discolored or dehydrated.

The germ-killing lamp is not brand-new. For some years it has been used—in many ways and with varying results—to fight airborne bacteria.

During these years, scientists and engineers made a thorough study of the lamp to determine exactly how best it could be used. As a result of this research, it is now possible for every meat market in southeastern Michigan to get the maximum benefit from these lamps—*early*. A butcher need not know how to compute the required number of lamps—need not be an expert on bacteria counts or ultraviolet radiation. For Edison specialists can study his problem and give him specific recommendations.

There's no charge for this accurate, impartial advice. It's another example of how Edison service can help Edison customers get the most from all the electricity they buy.

BUTCHERS ARE BEAMING!
 Edison's germ-killing lamps are the best meat preservers. Less spoilage. No more time and money spent on damaged or spoiled meat.
 P.S. The customers like them, too! There's less waste, more taste and more value for their money.
