## Wild Life Editor Here on May 15th

Jack Van Coevering, Wildlife Editor of The Detroit Free Press, is scheduled to appear at the Presbyterian Church House on Thursday evening, May 15th. He will speak and show colored movies of hunting and fishing spots in Michigan. His well-known lecture "Look Around You" was recently given at Cranbrook Institute with considerable acclaim. The local date will coincide with the opening of the pike fishing season, and the colorful movies and lecture will be of interest to all.

This Sport Night Show is being presented by The Presbyterian Men's Club and all proceeds will go to the restoration fund. Jack Van Coevering is chairman of the restoration fund in the local district and an elder of the Rosedale Gardens Presbyterian church.

President Robert Taggart of the Men's Club will have tickets available at the next meeting of the club on Monday evening, April 28th.

## School Has New P. A. System

The Public Address System, consisting of a turntable, program timer, microphone, room return, and radio with F.M. making it possible to hear programs from Ann Arbor and Michigan State College, is being installed in all rooms in the high school and in the shop in the grade school. Connections will be made with the grade school, so that in the future they may tie in with our system.

The system will be used for entertainment purposes as well as educational classroom teaching. The purchase of this P.A. system will promote future speech and dramatics classes.

Our new school-wide Public Address System cost \$1,671.87. Of this amount about \$1,000 was contributed last year; recently the Mother's Club of Northville donated \$50 toward the installation and a musical will be sponsored May 8th by the P.T.A. for its benefit.

The date of the dedication will be announced later, but as decided last year, it will be given in memory of the boys from N.H.S. who lost their lives in the 2nd World War.—N.H.S. Mustang.

## Societies Aid Belgian Child

Through the Save The Children Federation, Orient, Chapter No. 77, O.E.S., and F. & A.M. Lodge No. 186 have subscribed a sum of money sufficient to care for a Belgian child for a period of one year. Announcement was made at a meeting of the latter organization, last Friday evening, that a fourteen year old boy named Leon Dom of Maissin, Luxembourg, Belgium, has been receiving this aid.

Leon lives with his mother and several sisters and brothers. His father is not living. Leon was apprenticed in the shoe repairing business, but due to lack of funds was unable to continue the work. This boy is one of many children who have suffered hardships through wartime experiences and is now receiving aid through the Save The Children Federation.

The Exchange Club is planting some more trout in the Rouge this Friday.

## Presbyterians Elect New Elders

History was written when the local congregation of the Northville Presbyterian Church met on Wednesday evening and elected three new Elders for the first time in ten years. Elected and ordained (on Sunday) were Dr. C. E. Woodruff, John Blackburn and Clarence Davis. The election of Mrs. Blackburn completes four generations of the same family who have served as Elders, starting with James Daburn in 1851 and continuing through the Lapham, Chase and Wheeler families. The senior Elder at the present time is Donald P. Yerkes, Sr. who has acted in that capacity since 1909.

Elders re-elected were Joseph W. Hoehl, one year term; C. Ray Van Valkenburg, two years, and Edmund Beard, three years. The clerk of the session, Lee Esten, reported that the membership of the church had almost doubled during the past six years and the church is now at the high point in its 112 years' history.

During the corporate meeting which followed the congregation, at meeting, Gerald V. Harrison presented the annual report of the church treasurer, Robert E. Taggart, who was elected treasurer, replacing Mrs. Harry Wagner, who has carried on that work for the past nine years.

The newly elected trustees are: Mrs. A. M. Lawrence, Charles Carrington and Alfred Parnan. The new president of the board of trustees is George Weiss and Mrs. Roger Sackett was re-elected secretary.

Two special committees were recommended by the congregation, one to serve on special gifts and another on church plantings.

## Commission Seeks State Inspection

The Village Commission, in regular session Monday evening, purchased a new car for the police department, accepted the budget, planned for state inspection of plumbing in Northville, set the caretaker's salary and set up a sick leave policy for municipal employees.

By resolution the Commission set forth their wish for state plumbing inspection and planned to place same in operation within a reasonable time. Plumbers were to be so notified and expected to take the state examination.

The budget was accepted after adjustments, and the amount authorized to be spread on the payroll was set at \$56,750.00, about \$6000.00 less than last year, which means that the village tax will be about 19% less than last year.

The Commission will inspect village roads this week prior to setting up a policy for improvement this summer. The well in Orchard Heights was to be inspected also. The sick leave policy of the village was set to allow one day a month accumulative for a total of 18 days, effective as of January 1st, 1947.

## This Is National Boys & Girls Week

National Boys and Girls Week, April 22 to May 3, is a suitable time for children and parents to give serious thought to the future and to consider the influence that books have had in the lives of important men.

Thomas Alva Edison borrowed books from the Detroit Public Library. While in high school, Dwight Eisenhower read about the military leader, Hannibal. William L. Lawrence, chosen by the War Department to release the story of the atomic bomb, became interested in science from reading a book about the possibilities of civilization on Mars. Encyclopedia articles first started Charles Spencer's interest in optics; he made the first American microscopes. The inventor of the telephone transmitter in use today, Emile Berliner, was inspired from reading a physics book.

Through the 21 branches of the Wayne County Public Library, books are easily available. In Wayne County boys and girls need not walk 20 miles for a book as Abraham Lincoln did.

The Northville branch of the Wayne County Public Library is located at 117 South Wing street and is open from noon until 9 p. m. Monday through Thursday. On Saturday the hours are from 9 a. m. until 6 p. m. and the library is closed on Fridays.

## Local Girls in Spelling Bee

Beatrice Janchuk was the fourteenth and Arlene Jerome the fifteenth speller to go down at the school spelling bee held in Plymouth last Friday afternoon. A total of twenty-four students took part. Beatrice missed on the word "terribly" and Arlene on "ecstasy". The former won in the Junior High contest in Northville and Arlene was grade school winner.

The bee winner was a eighth grade pupil from Walker school and the runner-up a fifth grader from Fisher school.

## 87 Next Tuesday

Mrs. Mary Fredmore

## Will Observe 87th Birthday

One of the oldest residents of Northville, Mrs. Mary Fredmore, will attain her eighty-seventh birthday next Tuesday, April 29th. According to custom, the family will gather Sunday afternoon at 2 p. m. at the Fredmore home on East Cady street, corner of Church, to help the matron celebrate this anniversary.

Mrs. Fredmore's immediate family consists of a daughter, Mrs. Marjorie Harmon, who resides with her, two grand daughters, five great grand children and one great, great grand child, all of Detroit.

Mrs. Fredmore has lived in this village for the past sixty years.

## Fine Crowd Hears Val Claire

A large and interested audience expressed appreciation of the Northville Teachers' Club's presentation of Val Claire, CKLW News Editor, at the High school Thursday night, April 17th. Miss Fritz, president of the club presided and Miss Lane, program chairman, presented Mr. Claire.

Mr. Claire told of his experiences in leaving Canada for overseas and his contacts in England, Italy and Greece. His topic "A Challenge to Peace", stressed the sacrifices of American and Canadian troops in a strong plea for peace and a democratic government unhampered by one man control regardless of the length of his eyebrows. He demands more attention in knowing about things and events, community forums to thrust out situations and keep subjects alive and correctly understood.

## Residents Aid Elderly Couple

During the recent floods in this vicinity, the basement of the Robert Thomas home, corner of Fairbrook and Sheldon Roads, was filled with four feet of muddy water from the nearby stream which runs through the Parkway. Village firemen, using the department's apparatus, pumped out the water, the great depth making useless the Thomas force pump.

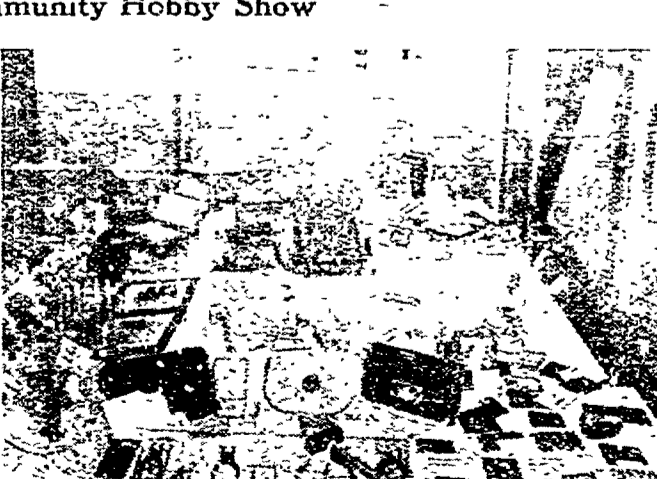

Residents of the town came to the aid of Mr. and Mrs. Thomas (who are well along in years, Mr. Thomas being in poor health) by sending in food. Also, willing workers set to and cleaned the place of the mud which the waters had deposited. The couple were marooned in their home, as on an island, and until the water was pumped away, entrance to the house could only be gained by those wearing hip boots.

Mr. and Mrs. Thomas have lived on this spot for the past twenty-two years and state this is the first time such high water has been in evidence.

## Trout Season Opens April 26 This Year

Mud and snow may characterize the opening day of trout season this year, but conservation officials believe the faithful will be out on April 26 in spite of bad roads, cold weather and high water. In contrast to the ideal conditions provided by the early warm dry spring of a year ago, fishing prospects will not be bright.

Conditions may be fair for worm fishermen, but dry fly artists may see more scenery than fish, unless the weather improves sharply, and soon. Fishermen intent on bringing home a big rainbow trout are hoping more than the usual number of them will still be available in the streams, and not yet returned to the Great Lakes after spawning.

Fishermen who do brave the weather on opening day have no new rules or regulations to learn. The minimum legal length for brook, brown and rainbow trout still is seven inches; the creel limit still is 15 trout a day on streams, 10 a day on lakes, and anglers lucky enough to get a few big ones will also have to watch the 10-pound and one fish limit. The license fee for residents still

is \$1 for all kinds of fishing for all year; any increases voted at the current session of the Legislature would not be expected to take effect before January 1, 1948.

### Mountain Mystery

The mystery of the roars emanating from old Rumbling Bald (mountain) at Lake Lure, N. C., has been explained by scientists who say they are caused by boulders falling from the top of caves deep in the mountain.

Christian Science Churches

"Probation After Death" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, April 27.

The Golden Text (1 Cor. 15:19, 26) is: "If in this life only we have hope in Christ, we are of all men most miserable. But now is Christ risen from the dead, and become the first fruits of them that slept."

Among the Bible citations is this passage, (Psalms 139:23, 24): "Search me, O God, and know my heart: try me, and know my thoughts: And see if there be any wicked way in me, and lead me up the way everlasting."

After growing to record numbers in 1946, Michigan sportsmen are still on the increase. Fishing license sales for the first quarter of 1947 indicate. With the major fishing seasons yet to begin, fishing license sales already are 13 per cent greater than at the same time a year ago. Last year the conservation department issued 2,023,309 hunting and fishing licenses. Anglers got 987,163 of them, deer and small game hunters 1,036,121. The most spectacular increase was in the number of deer hunters, which grew from 268,587 in 1945 to 350,656 in 1946.

NEWS AND NOTES OF COMMUNITY INTEREST

### HUMPHREY - GAGNON

The Evangelical Reformed Church at Salem was the scene of the wedding of June Humphrey, daughter of Mr. and Mrs. Nye Humphrey of Farmington, and Harold Gagnon, son of Mr. and Mrs. Lawrence Gagnon of West Pointe.

Rev. Carl Schultz performed the ceremony at 8 o'clock last Friday evening, before an altar decorated with pink and white flowers. Gene Nelson of Lansing sang "I Love You Truly" and Lois Meyer of Dearborn, "Because."

The bride wore a gown of white satin, entrain. Her fingertip veil was held by a Juliet cap trimmed with orange blossoms. She carried a bouquet of white lilies and yellow roses.

As matron of honor, Joyce Gagnon, of Farmington, wore a Colonial gown of pastel green, and a wreath of roses in her hair. Yellow roses and white lilies also made up her bouquet. Adeline Gagnon and Marian Vandenburg, both of Farmington, wore pink and blue dresses similar in style to the matron of honor, with floral bouquets in various colors. Tana Lee Cassey was flower girl in a floor-length blue gown and carried a basket of flowers.

Floyd Neve, of Dearborn served as best man and the ushers were Melvin Inglebradt of Pontiac, Edsel Rutenbar and Walter Gagnon of West Pointe.

Both the bride's and bridegroom's mother chose costumes of grey for the occasion, with corsages of white carnations.

A reception was held in the Maccabee Hall at Clarencville, following the service, for about 200 guests.

Later the young couple left by train for a week's visit in Indiana, the new Mrs. Gagnon wearing a green suit with black accessories and the yellow roses from her bride's bouquet. Upon their return they will make their home in Farmington.

Mrs. Gagnon was employed in the telephone office at Farmington following her graduation from Farmington high school. Mr. Gagnon attended the Northville schools and served with the Navy for two years in the South Pacific as a Yeoman first class. He is employed at the local Ford plant.

Members and guests were seated at tables decorated in white with pansy florettes scattered around lighted tapers of all colors which centered the tables. Delicious sandwiches were enjoyed, made by girls of the cooking classes of Northville High School.

Later Mrs. McKinney extended a welcome and introduced Mrs. Amy Simons, past junior Mother Advisor. **VETERANNEWS**  
 From the  
**OFFICE OF**  
**VETERANS' AFFAIRS**  
 LANSING

The laws and regulations govern-  
 ing the Veterans' Adminis-  
 tration regarding hospitals and  
 erection thereof, give priority  
 and entitlement for treatment  
 only to veterans on their service  
 connected conditions. Veterans  
 desiring hospitalization on other  
 than service connected conditions  
 may be allowed hospitalization  
 if they are medically emergent  
 and a bed is available in a Veter-  
 ans' Administration Hospital.  
 Veterans who have a service  
 connected disability may be  
 granted hospitalization and treat-  
 ment at his home locality on an  
 out-patient basis with the Veter-  
 ans' Administration paying the  
 bill. Prior authorization of such  
 treatment of course must be  
 granted by the Veterans' Adminis-  
 tration.

The Office of Veterans' Affairs  
 provides hospitalization for non-  
 service connected emergency  
 cases which cannot be served by  
 the Veterans' Administration be-  
 cause of a shortage of beds in the  
 Veterans' Administration Hospi-  
 tal.

**World War I Widows**  
**Should Check Claims**

Widows of World War I veter-  
 ans who did not die of a service  
 connected disability should check  
 claims for pensions with the  
 Veterans Administration. Many  
 such widows have been denied a  
 widow's pension due to the fact  
 that individual annual incomes  
 were in excess of \$1,000. How-  
 ever, the claims are processed for  
 only one year at a time, and  
 women who were declared in-  
 eligible during past years may be  
 eligible for pension during a sub-  
 sequent year. If such a widow  
 is sure that her income for the  
 year 1947 will not exceed the  
 amount stipulated, she should re-  
 open her claim with the VA by  
 submitting an affidavit setting  
 forth the exact amount of income  
 she expects to receive during  
 1947.

**Uncle Sam Says**

March comes in like a lion and  
 goes out like a lamb. At least that's  
 the old saying. Your weatherman  
 and your own experience may give  
 you cause either to believe or dis-  
 believe its truth. When it comes to  
 United States Savings Bonds, there  
 is no dispute as to their non-strength  
 quality from start to finish. In fact,  
 savings bonds grow stronger with  
 the passage of time. For every \$15.53  
 you invest in a savings bond you  
 get back \$25—a neat profit at the  
 rate of \$4 for every \$3. You invest  
 \$75 and in ten years you get back  
 \$100. Own more U. S. Savings Bonds

In the grandeur that was Rome, the wives of emperors and of  
 a few senators kept their food fresh and wholesome with snow  
 rushed down from the mountaintops by fast chariot.  
 There probably was a lot of oh-ing and ah-ing among the  
 Roman gourmets when Caesar's wife, Calpurnia, served  
 chilled Carthaginian canapes on a sultry summer evening...  
 But how Calpurnia would have envied you your electric  
 refrigerator.  
 "By Jupiter," she'd have exclaimed, "you have dependable,  
 inexpensive electricity to keep your food fresh and appetizing.  
 Electricity so inexpensive, in fact, that your refrigerator runs  
 five full days for less than a quinquarius\*."  
 Today in your home, refrigeration is just one of the dozens of  
 ways in which electricity does jobs for you... better... and  
 for less money than any other way.

### Michigan to Observe Child Health Day

Dedicated to the right of every little child to health and happiness, Child Health Day will be observed in Michigan this year, for the twenty-third consecutive year on May Day. Dr. William DeKleine, State Health Commissioner, announced today.

The modern adaptation of May Day has no formal program, but lends itself to the needs and resources of every community. It is a day for sunning up and evaluating what each community has done and is doing for its children. — a day for making plans for what those children really need.

On outgrowth of the Garland Day or May Day Festival, it has become like the Maypole, a rallying point for all the diverse groups and activities concerned with the welfare of children. It provides an opportunity to challenge the weak spots in protective, educational, recreational, social and health machinery for children in the community.

Because of the various elements of child health and welfare, such diverse groups as Parent Teachers associations, veterans organizations, service clubs, Girl and Boy Scouts, Camp Fire Girls, women's clubs, schools, church groups, temperance unions, 4-H clubs, legal mental and dental societies and nurses groups each observe the Child Health Day after its own fashion.

These organized groups and the ordinary individual can observe child health week through acquainting themselves with what has been done and what remains to be done to provide complete hospital care for the mother and infant, to provide well-child supervision, immunization and correction of physical defects. Are adequate medical and dental care and public health services available to all children? Do all children have proper homes, food and clothing? Are there supervised playgrounds and parks, good school conditions, school lunches, wholesome reading, safety and labor regulations and social activities such as clubs for all children, as well as special services for children who are handicapped?

The celebration of May Day as a festival welcoming the return of spring began hundreds of years ago. The ancient barbarians in Europe ushered in the day by the kindling of beacon fires on the hillsides. Romans devoted the day to ceremonies honoring Flora goddess of flowers and all growing things. In old England it was the custom for men, women, and children to go out to the woods at sunrise to gather flowers and hawthorne branches with which to decorate every door and window in the village. The most beautiful girl in the village was chosen queen of the May. Members of the nobility, even the King and Queen, as well as the peasants danced and feasted.

In America, May Day has always been Children's Day, with gathering of Hepaticus, Violets, Adonis Tongue and other wild

**AUTO INDUSTRIALIST'S LAST RIDE**... Mr. and Mrs. Henry Ford are shown during the Auto Golden Jubilee held at Detroit last year. It was about the last ride that Henry Ford took behind the wheel of one of his old models. The 82-year-old auto industrialist was born July 28, 1865, and died April 7. He had spent the previous day inspecting flood damage to his estate at Dearborn and died later in the night with his wife at his side.

flowers to fill baskets to hang on the doors of friends in the early morning, and with dancing about or winding of the Maypole in colorful costume later in the day. It was a natural choice for Child Health Day which each year is designated by presidential and gubernatorial proclamation.

The American Health Association sponsored the first national Child Health Day in 1924. In 1924, revolution of congress authorized the President to proclaim the day. By the turn of this decade, so much progress toward the aims of Child Health Day had been made that the American Child Health Association dissolved itself. The aims are now to be carried out by local groups in local communities. In every community where it is celebrated, May Day tells the story of what is happening thru the 364 other days of the year.

Junior Exchangees this week were George McCollum and Albert Gow.

**"Three-Mile Limit"**

The extent of jurisdiction over the sea is an age-old question. Maritime nations by common consent have in general accepted the offshore limit of their authority as about three miles, measured from the low-water line. This three-mile limit was recognized in the belief that it marked the extreme range of coast defense guns. As the range of cannon increased, some efforts were made to widen the coastal belt of protected water.

## What's the telephone strike all about?

The unions representing telephone employees have made a number of demands on Michigan Bell and are on strike to enforce their demands.

The key issue is wages.

The unions' demands on wages and other matters would cost Michigan Bell an additional \$26,000,000 a year. That's equivalent to an average of \$25.33 more a week for each of our employees. It's equivalent to adding more than \$1.50 a month per telephone to Michigan Bell's cost of serving the 1,406,000 telephones in its territory. In the long run, of course, telephone users pay in rates for service what the company has to pay out in wages.

### TELEPHONE WAGES ARE COOD

Starting wages for operators without previous experience now range from \$25 in the smallest towns all the way up to \$31 in Detroit; and the corresponding top rates are from \$33 to \$45.

The men who install and repair telephones in these same communities start in right out of school, with no previous experience, at \$26 to \$31. Regular raises bring those wages to tops of \$55 to \$72.

The basic rates for a five-day 40-hour work week are increased by extra payments for overtime, Sunday, holiday, evening and night duty.

It is to the advantage of everyone, including telephone subscribers, to pay good wages to telephone employees. But Michigan Bell's wages already compare favorably with others in the community for work requiring similar skill. That's the way telephone wages should be — because that's the fair thing for both customers and employees.

### OTHER ADVANTAGES

In addition to good wages, telephone employees have good working conditions... holidays with pay... vacations with pay of one, two or three weeks, depending on length of service. And they have sickness and death benefits and pensions, all paid in full by the company.

### WE REGRET THIS STRIKE

We tried to avoid the strike by offering to extend or renew present liberal labor contracts. The unions did not accept. Instead, they insisted on substantial wage increases.

Under the circumstances, the company has said, therefore, "Let's decide the wage dispute by putting it before an impartial panel of representative Michigan citizens for arbitration, and have both sides abide by their decision."

Certainly, those Michigan citizens would be in a position to determine whether Michigan Bell's wages are fair to employees and fair to the public — and to what extent recent wage settlements in other industries have a bearing, if any, on telephone wages in Michigan communities.

### WHY HAVEN'T THE UNIONS ACCEPTED OUR ARBITRATION OFFER?

Apparently a big reason is that the unions representing Michigan Bell employees cannot move without the approval of the National Federation of Telephone Workers with which they are affiliated.

It looks as if the N. F. T. W. wants nation-wide power for itself through nation-wide bargaining. This would mean nation-wide power over an essential public service — and without regulation in Michigan.

Settling Michigan wage matters in Michigan is the fair way to handle the wage question. After all, 99 per cent of all our telephone calls are local or within the State of Michigan. And the rates for all of this service are regulated right here in Michigan by the Michigan Public Service Commission.

### ARBITRATION COULD END STRIKE

Agreement on our wage arbitration offer could be the means of ending the telephone strike right now.

Telephone employees could get back to work and the public could get normal telephone service again.

Michigan Bell is still hopeful a speedy solution can be worked out.
