## July 4th—Bell, Symbol of Liberty

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain inalienable rights, that among these are Life, Liberty, and the pursuit of Happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed. That whenever any Form of Government becomes destructive of these ends, it is the right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their safety and Happiness.

The program was planned and carried out by the members of the school, opening with a brief service of worship with members of the Junior and Intermediate group participating.

The primary department, under the direction of Mrs. William Anderson, presented their share in the program by singing two numbers which they learned at the school. They were led by Mrs. William Miller in a little prayer and a response that they had learned earlier in the week.

The Junior girls, led by Mrs. Harold Hunter and Corine Clark, presented their hand made lantern slides, each girl telling why she had drawn it and the symbolism it represented.

The Junior boys, under the leadership of Chas. Carrington, displayed a typical class session in discussion of their theme, "Followers of Jesus," each boy presenting a picture and what he had learned.

Intermediate girls presented various great and famous characters, both modern and older persons. James Lazar presided over this group.

The program was brought to a close with the singing of a hymn by the boys and girls. Rev. H. F. Fredall dismissed the group and parents and friends were invited to visit the craftwork completed by the group for hospitals and individuals.

## West Bros. Open Plymouth Store

The grand opening of a huge new implement store in Plymouth has been announced by West Bros. Inc., the International Harvester Dealers for that territory. Opening festivities will take place next week-end, Friday and Saturday, July 11, and 12.

Their new "base of operations" with approximately 10,000 square feet of service and display area is located at 534 Forest avenue, one block southwest of the Mayflower Hotel. The building is of steel and cinder-block construction and is said to be one of the most modern farm implement and truck service buildings in this part of the state. It is heated entirely by radiant heat, there being over a mile of pipe imbedded in the cement floor. Many service facilities have also been built into the building and the West Brothers, Dutch, Joe, and Earl invite everyone to drop in next week Friday and Saturday to inspect the building.

The evening plans announced for the opening are elaborate—Friday evening a concert by the Plymouth High school band, entertainment by the "Progressive Four" one of Michigan's leading barber-shop quartets, followed by movies. Saturday evening, a two hour variety show with Mel Snyder as master of ceremonies, Ray and Madeline, comedy dance team, Rosalee, a rhumba dancer, a magician and a ventriloquist.

The 4-H Club Fair Association will present the winner of the Farmall "A" tractor and door prizes will be given. Modern and square dancing will also be held. Both programs will begin at eight o'clock and both will be held inside the new building.

A large display of International Harvester products has been planned for these two days—including the showing of the new Farmall Cub tractor, recently announced for the small farms of from 5 to 40 acres.

## Urge Physical Exams for Pupils

During the past two weeks 200 homes in the village have been visited by members of the Parent-Teachers Association to urge that children entering kindergarten or fifth, sixth and seventh grades have a physical examination during the summer months. An additional 75 homes outside the village have been reached by letter.

This drive is known as the Summer Round Up and has been conducted by a committee headed by Mrs. Kenneth MacKay.

The importance of a complete physical examination for the entering pupil cannot be stressed too highly. Sometimes defects can be detected and corrected before the child begins school in September. In other instances a muscular condition can be brought to the attention of the school nurse and teacher and taken into consideration.

Those children entering fifth, sixth and seventh grades will be taking physical education in the school for the first time. It is necessary to know of any physical condition that might limit the activities of any child. It is interesting to point out here that the fifth and sixth grades did not have physical education heretofore but that this is to be an additional part of the fall program.

The members of the PTA who visited the homes took this opportunity to urge all parents to join their organization so that they can become better acquainted with the school and see where in the community can better serve the school.

## Union Services Start Sunday

As has been the custom for the past several years, Union Services will be conducted during the months of July and August at the Presbyterian and Methodist churches.

During the month of July, the Presbyterian church will be the host and will furnish the music while Rev. William Hughes of the Methodist church will have charge of the service.

In August the Methodist church will play host and furnish the music while Rev. Harold F. Fredsell of the Presbyterian church will preach the sermons.

Mr. and Mrs. Jack Reynolds were hosts Wednesday evening at a steak fry at their home on Napier Road. Couples attending the fry were Mr. and Mrs. Robert Lyke, Mr. and Mrs. Paul Terry and Mr. and Mrs. Jack Moffat.

The Royal Neighbors Society will hold a social meeting on Monday, July 7, at the home of Mrs. Amelia Ford, 216 West St.

Times are going to be better on Michigan farms.

That is—despite the 1947 wet spring.

Cupid is getting along pretty well, for one thing. Only one divorce has been recorded out of 600 marriages among members of the Michigan Junior Farm Bureau, according to Ruth Parsons, president. That's better by far than the one-out-of-six record for the nation today.

Farmers' checks are bigger and fatter. Mortgages are being paid off. New equipment and buildings are being added in a program of mechanized agriculture. Farmer income, on a per capita basis, has finally exceeded the normal relationship to wage and salary income.

This prosperity has been long overdue. For the past decade or so, farmers and small-town dwellers have comprised a fifth of the nation's population. Yet they have received only about one-tenth of the national income.

Our 1947 boom is riding into the second half of the year at a high level. Income payments are now at a record rate of \$177 billions a year. This rate is just about \$100 billions more than the previous level. Giddap we're going to town!

More hospitals for Michigan rural areas are on the way, too. Governor Kim Sigler announces that Michigan is going to put its house to order. The state seeks to be eligible for \$10 millions of federal funds available during the next five years for construction of rural hospitals in Michigan.

Under Sars to pay one-third or more of such cost, local communities to co-fund. The federal law permits a higher priority to rural hospital construction.

The Michigan State Medical Society is sponsoring a Michigan rural health conference at Michigan State College early in September. Cooperating agencies include the State Grand and Farm Bureau.

For encouragement of character and religious education, the University of Michigan is currently sponsoring a "workshop" June 21 to July 7 under the able leadership of Dr. Edward W. Blakeman, university research consultant in religious education.

Along with other states, Michigan is now experiencing a post-war moral slump. Crime is rising rapidly. Apparently unaware of the moral law, "Thou Shall Not Kill", 16-year-old Oliver Terpening, Jr., Lapeer county farm boy, slew four children "because I always wanted to know what it would feel like to kill somebody."

We could write a column on this subject—our lagging morals and our need for more religious education. Maybe we'll do it some week.

Better rural life in Michigan is the aim of a course in rural leadership at Michigan State College July 7 to 18.

A Michigan rural safety council has been formed to do something about the causes of 169 fatal accidents on Michigan farms last year. Burns and explosions accounted for one-out of every three mishaps; machinery, one out of four; the bull, one out of four.

And so it goes. One important thing is this, Michigan farm folk are trying to help themselves. And from the current signs they're doing pretty well thank you.

### O. L. of V. Church Scene of Laney-Teatro Wedding

Our Lady of Victory Catholic Church was the scene of a final June wedding last Saturday morning when Myrtle Delphine, daughter of Mr. and Mrs. Roy Laney of Grace Ave. became the bride of Clifford Wayne Teatro of Detroit, son of Mr. Josephine Teatro of Chubbogyan and the late Mr. Teatro. Fr. Lorenzo E. Woods performed the single ring service at 10 o'clock. The church was decorated with bouquets of peonies, roses, and carnations. Mrs. Vincent Bielajski presided at the organ and furnished the music throughout the ceremony.

The bride, who was given in marriage by her father, wore a gown of white jersey with a sweetheart neckline. Her fingertip veil was caught to her head with a crown of mock flowers. She carried a bouquet of gardenias, snapdragons, and carnations.

Attending the bride were Frances Wooten of Grace Ave. and Ida Rose Laney, sister of the bride. Miss Wooten wore a pink net gown and Ida Rose was dressed in blue satin. Each attendant carried a bouquet of deep red roses and pink carnations.

Attending the bridegroom were Herbert Carrington and Carl Elya of Detroit. Stanley Laney, brother of the bride, seated the guests.

Following the ceremony a reception was held at the home of the bride's parents.

The young couple left on a week's trip to the northern part of the state. For a few days the new Mrs. Teatro wore a pink dress. Upon their return they will make their home in Detroit where the bridegroom is employed in a factory.

### Tree Stump

A six-inch tree stump 26 inches in diameter contains 15 board feet.

### Easy Nailing

Dry native lumber is rather difficult to nail, but the following suggestions may help: 1. Lubricate nails with beeswax or transmission grease. Beeswax can be inserted into the hammer handle by drilling a hole in the grip. A small amount on the tip of the nail is sufficient. 2. Splitting can be reduced by blunting the tip of the nail. 3. Ease the nail in with light blows.

### Jelly Mold

To turn cranberry sauce—or any jelly—from a tin can without spoiling the shape of the mold, punch a small hole in the bottom of the can. Then remove the top with an opener that slices the tin evenly around the can. The hole in the bottom allows air to get in so the jelly will slide out easily.

### Slow in Reforesting

The forest service says that at the average rate of tree planting in this country, 600 years will be required to complete the planting job now needed.

On the basis of tests conducted recently on 101 electrified New York State farms, the cost of cooling milk electrically averages from 12 to 13.5 cents per hundred pounds. The power rate in the test area was 3 cents per kilowatt hour of power, which is about 14 cent lower than the national farm electricity rate.

Water above and a satisfactory cooling agent, because only in rare instances is its temperature lower than 60 degrees. The addition of ice to water will help, but storage of ice and the work involved in getting the tank adequately supplied present certain obstacles to its use. In addition, its cost, if purchased, often is so high as to offset the price received for satisfactorily cooled milk.

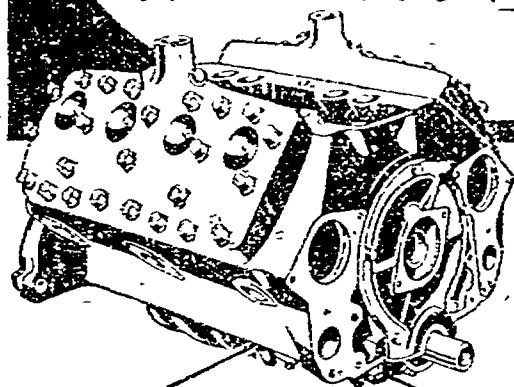

Because of this situation many electric milk coolers of the 10 or 15 gallon type are being installed on electrified farms. Such coolers, according to the Pennsylvania State college school of agriculture, meet the farmer's requirements for they are "designed to cool fresh milk quickly, uniformly and economically."

## "Advance-Design" Chevrolet Trucks Make Bow

The trucks that will bring true power design to the highways of America, Chevrolet's new "advance-design" trucks, will be introduced to the country by Chevrolet dealers across the country. Incorporating a variety of new features that assure greater operating efficiency, load-carrying ability and highway safety, the new trucks are said to be more rugged and durable than ever before. First units were built in Chevrolet's (Wia) assembly plant, Janesville, Wis., christened the new vehicle as Gov. Oscar Rennebohm, Wisconsin's chief executive (right), and R. W. Podlaski, Janesville plant manager, look on.

## County Agent's News Notes

The Board of Directors of the Wayne County 4-H Fair Association announced this week the days of August 20, 21, and 22, 1947, as the days for the first Wayne County 4-H Fair. The exhibits will be set up on August 20 and judging will be done August 21.

The pest chaser is out in full force but a 10 per cent D.D.T. dust will be effective in its control. Do not use D.D.T. on food plants such as lettuce, broccoli where the leaves or heads are eaten. The black fly beetles are working over time on tomatoes. Bordeaux mixture will drive them away. To get a kill of the flea beetle, use 1 per cent Rotone dust or spray.

Michigan's harvest machines will soon be in full operation bringing greatly increased hazards to life and limb of farmers. Now is the time for each farmer to make definite plans for safety in his harvest operation. declares E. I. Bessmer, county agricultural agent. Records of the National Safety Council show that farm accidents become more frequent during the harvesting season than during any other period of the year. Harvesting machinery with its high speed shafting, belting and gears together with its cutting mechanism, increases the chance for serious accidents. The fundamental step in the safe operation of harvest machines is to put them in good condition before the harvest begins. The following suggestions point out the important precautions that should be taken to insure safety during the harvest:

1. Stop completely all machinery before oiling, adjusting or unloading it.
2. Safety guards and shields should be kept in place at all times while the machinery is in operation.
3. Floppy or ragged clothing which catches easily in moving machine parts should not be worn.
4. Operate machines at a reasonable speed. Start smoothly, turn corners slowly.
5. Rough or hilly ground calls for reduced speed.
6. Avoid driving too closely to the edge of ditches or embankments.
7. Avoid jumping off a machine before it has come to a full stop.
8. Small children are definitely out of place around harvesting machinery.

## ON CAPITOL HILL

(Continued from Front Page) son, Ambassador to Turkey, has been named and confirmed to be Administrator of the \$100 million American Aid to Turkey.

**AGRICULTURAL Yearbook.** Congressman George A. Bendoric announces that the 1947 Agricultural Yearbook, entitled "Science in Farming," is available for distribution. It gives practical information on crops, plants, insects, trees, soils, etc., and is prepared primarily for farmers. Congressman Bendoric will be glad to supply a book as long as his supply lasts. Just send him a card asking request for same at his Washington office.

**GASOLINE CONSUMPTION IN THE UNITED STATES.** During 1946, motor vehicles consumed 25,682,609.6 gallons of gasoline, an increase over 1945 of 44 per cent and an all-time high record. The largest increase was Nevada's 49 per cent. California led in volume with 2,436,420,000 gallons. New York was second, Pennsylvania third, and Texas fourth.

The average gas tax for all the states was 4.16 cents in 1946, compared with 4.1 cent in 1945. The state taxes ranged from two to seven cents and as high as 7.5 cents in Oklahoma.

The registration of motor vehicles this year will no doubt break all records. Registration in 1946 exceeded that of the previous year's total by about 3,300,000 (10.8%) according to PRA. A total of 33,948,817 vehicles were licensed last year.

**AMERICAN OIL GOING TO RUSSIA:** George E. Sokolsky, in his column, sets forth the fact that the United States Navy has ordered stringent curbs because of oil shortage, which has brought forth talk of renewed oil rationing. Yet at the same time oil tankers on the Pacific Coasts are loading to ship 700,000 barrels of oil for Russia. During the first half of this year we shall have shipped 25 million barrels of oil, 772,000 of which will have gone to Soviet Russia - a country which is now in possession of tremendously great oil reserve. The excuse is that it is cheaper to ship to Vladivostok from the United States than from any Russian oil field.

During 1946 we shipped 2,500,000 barrels of oil to Russia; 130,000,000 to all countries.

Herbert Hoover and Bernard Baruch have emphasized the point that what we are giving away is not money but irreplaceable natural resources upon which the future of this country depends. We must not make the same mistake as we have with our iron and copper. These two men do not believe that we can continue to give away \$5 billion of our natural wealth a year for any prolonged period and that our high prices are due to buying for the accounts of foreign governments who have borrowed money from us never to be repaid. They have asked for an inventory.

Mr. Sokolsky makes the suggestion that Congress should appoint a commission properly staffed with an adequate appropriation to make this inventory of our possessions; our economic prospects; and suggests that this commission be composed of Herbert Hoover, Bernard Baruch, and Karl Compton, believing that from such a commission we can get the truth, no matter what the politics of it may be.

**Small Concerns Fed.** The war forced 500,000 small concerns out of business, says a Twentieth Century Fund report.

## Organize Chess Club

Lazar hopes that all those who attended the Chess lectures and those who are interested in joining the Chess Club will be present at the organizational meeting.

Planned by the Wayne County Public Library Board as an experiment in library sponsored recreational activity, the lectures have attracted the interest of the United States Chess Federation. Present at the last library sponsored meeting held in Plymouth, Saturday, June 28, were national officers of the Federation.

With the final lecture, library sponsorship of the project ended and the club will temporarily hold meetings and conduct games in the recreation room at the City Hall at Plymouth. In Northville, the club will meet in the Kitty Harnan Room at the Library.

However both libraries are encouraging their collections of books on chess and will subscribe to the Chess Review, a chess periodical. In addition, chess chessmen and boards will be available for loan.

## Walled Lake Plans Celebration for the Holidays

Walled Lake Amusement Park announces a spectacular program of events over the coming holiday week-end. The gala celebration will start Thursday, July 3rd, and continue through Friday, July 4th, Saturday, July 5th, and Sunday, July 6th. Topping the list of entertaining features will be a mammoth fireworks display on the nights of July 3rd and 4th.

This inspiring, brilliant display will comprise a program of startling effects in pyrotechnics. Gorgeous set pieces of intriguing design, comedy numbers, flaming comets and stately rockets. In keeping with our Independence Day Celebration a score of fireworks effects of patriotic intent are also included in the Big Free Display. Bursting rockets will illuminate the sky while dynamic bombs burst into flame, leaving with the spectators a vivid picture of aerial beauty. A large crew of workmen have been at the park during the present week arranging set pieces and ground work for the displays and bombardments.

All rides and amusements will be ready for the holiday crowds while the entire park will be in gay decorations of flags, bunting and streamers fitting in with the holiday occasion. Bathing, Speed Boats, and Pow Boats will appeal to hundreds of aquatic-minded to frolic and play in the picturesque waters of Walled Lake and Roller Skating and Dancing will be among the diversified amusement features.

In the tree-shaded picnic groves, hundreds of tables and benches are free for family and picnic parties for that joyous spread in the out-of-doors. Free parking space for five thousand automobiles has been provided to take care of throngs, as many patrons will forego long trips into the country in order to celebrate the holiday close to home. Walled Lake is only twelve miles from the Detroit City Limits - just far enough to enable you to enjoy the clean country air and a complete change of scenery. Jan Garber will remain through the night of July 3rd in the Casino Ballroom and Henry King and his famous New York band will open July 4th for a week-end engagement.

## Girl Scouts Attending Camp

Over forty-five Girl Scouts and Brownies are attending the sessions of the Girl Scout Day Camp being held July 1st, 2nd and 3rd and again next week on the 8th, 9th and 10th at Cass Park.

Mrs. Walter Cause has charge of transporting the girls each day from the grade school building at 915 to the park and home again at 3:30.

Upon the arrival of these girls each day at the camp site, a flag raising ceremony takes place and each session is closed with the lowering of the flag.

A cook-out was planned by the Girl Scouts for Wednesday and these girls have already started working on many different crafts. The Brownies have started on their diaries which they will keep throughout the camping days.
