## Projectors Given Maybury San

Three projectors for ceiling books were placed in Maybury Sanatorium last week by the Wayne County Library. Two machines were contributed by the Downtown Lions Club of Detroit through the Detroit News Projected Books Fund; the other was the gift of the Farmington chapter of the Blue Star Mothers of America.

By means of slide films, this newest form of book makes reading possible for persons required to lie flat in bed and unable to use regular printed books because of the conditions of their illness. With a simple mechanism, the patient presses a button which "turns the pages" as they are displayed on the ceiling.

Use in veterans' hospitals has demonstrated the fact that patients confined in casts or otherwise limited in ability, may operate the machine with one toe or with a movement of the chin, as well as by hand.

According to Miss Alice Forward, librarian in charge of the Wayne County Library service at Maybury Sanatorium, there is need for more of these machines both in hospitals and for patients who are cared for at home. The projected books are made available to those who cannot or should not hold a book to read normally. A wide variety of cases fall within this category; those with injured arms, back, or neck, tuberculosis cases, coronary and arthritis cases, polio victims, and post-operative cases are among the types of patient eligible to use ceiling books.

## Milford Fair Comes Aug. 6-9

The sixty-third Milford Fair will open at 12 noon Wednesday, August 6th and continue through Saturday, August 9. This year promises to be a banner event with more livestock and exhibits entered than during the recent war years.

Thursday afternoon will be Kid-day! Afternoon, with reduced prices on the midway and grandstand, and contests and prizes for contestants.

The Horse Pulling Contest will no doubt attract the largest and best field of pullers ever to attend the Milford Fair.

The Grandstand attraction will be the Baum Cherokee Rodeo and Thrill Show, with the Majestic Greater Shows on the midway.

## Golf Play-Offs Start Today

A match for the Northville Golf Championship trophy will be played off at the Brae Burn Golf Club, on the Five Mile and Napier Roads, starting July 25, 26th, 27th and 28th. 18 hole qualifying rounds will be run off on the above dates. The 16 low scores will be entered in the finals.

Monroe Weston, chairman of the tournament committee, states that 10 or more prizes have been donated by Northville businessmen and the Brae Burn Club. A program has been arranged that will give players in both the high and low classes a chance to win prizes.

Tom McLoughlin, club manager, has the course in championship condition, which was proven when several sub par scores were recorded over the week end. C. K. Hopkins, T. McLoughlin, of Detroit and L. Lauer, of Toledo scored 69. Bill Robertson, of Detroit, 71, Earl Faunce, Toledo, 72, Monroe Weston, Northville, 78, Al Boelens, Northville, 88, H. B. Hall, Northville, 43 on nine. Dick Bartholomew, Northville, 44 on nine.

The Northville Championship, is open to any amateur golfer, resident of Northville township. Mr. Weston has 40 to 50 lined up for the event.

Mrs. Grace Hittenger of Telegraph Road will be hostess to the Winona Club on August 1st for a pot luck luncheon at one o'clock. Members and friends wishing transportation are asked to meet by the post office at twelve o'clock.

## New Starting Gate for Northville Downs

A field of harness race horses lines up behind the barrier of the E. M. Smith-Patented Starting Gate; the sulky sport's newest mechanical starting device which was introduced to Michigan racing on Monday evening, July 21, at Northville Downs. The specially built car, on which the barrier is mounted, runs on concrete strips inside the inner rail, moving the barrier ahead of the horses. When the field is in proper alignment, the barrier swings forward and clear of the track at tremendous speed.

## Free 'Flickers' Here Tonight

Northville teen-agers have been invited to the Wayne County Library at 7:30 P. M. tonight to see the first of the Friday evening "Flickers," one of the free movies sponsored by the Northville Recreation Department and the Wayne County Library.

Tonight's program includes the Cavalcade of Music. Moving pictures will be shown at the library for the next three Fridays. If community support and popularity of the program warrant, the movies will be continued throughout the fall and winter months.

## Walled Lake Church Holds Fiesta Sunday

The date for the annual fiesta presented by Saint William's Catholic Church of Walled Lake has been set for next Sunday, July 27. The committee in charge has promised plenty of entertainment for everyone. There will be ponies to ride, potato races and three-legged races for the children. The oldest and youngest married couple present and the largest family present will receive prizes. Other attractions will include fortune telling, displays of fancy work, fish pond and the country store.

A bountiful dinner will be served in the church dining room which will be decorated in a true fiesta style.

One of the biggest attractions promises to be the awarding of a Chevrolet Town Sedan, a combination radio-phonograph with 12 of the latest records, a deer rifle and cash. The affair will take place on the church grounds.

## W.C.T.S. Selected for Study of Ink Biot Tests

The Wayne County Training School at Northville has been selected as the meeting place for a Seminar on the Rorschach Technique conducted by Samuel J. Beck, Ph.D. of the Division of Neuropsychiatry of the Michael Reese Hospital, Chicago. This Seminar is sponsored by the Association of Michigan Psychologists in Civil Service and the Michigan State Department of Mental Health.

For five days, beginning Monday, July 21st, psychiatrists, psychologists, and social workers were engaged in intensive training in the use of ink-blot tests for determination of personality traits. This test has had wide use in the military circles of a number of countries and, in this country, is being adopted rapidly by industry, clinics and hospitals. In industry the Ink-blot test, in the hands of a skilled examiner, can keep many of the square pegs from attempting to fit the round holes and in clinics and hospitals it is used for diagnosis and to determine the patient's prospects under various types of treatment.

The Northville Lodge No. 188, F. & A. M., will hold their family picnic on Monday, August 4, beginning at 6:30 p. m. Members and families are asked to meet by the Willows, in Cass Benton Park and bring their own sandwiches and a passing dish.

## Legion Nine Meets Milford Sunday

Next Sunday afternoon at two o'clock the Northville Junior American Legion Hardball team will meet the Milford nine on the Highland diamond which is located just outside of Milford.

Officer Ed Love of the local force and Mr. Kovacs were previously associated on the Wayne County Sheriff's force.

## Village Schools Receive Renovation for Fall

The Northville Public school buildings are being renovated this summer preparatory to the opening of school in the fall. The smell of fresh paint and soap and water is evident in the halls of both the Grade and High school rooms.

The caretakers, Frank Cochran, Alfred Sorg, Ernest Barton, Floyd Ellison, William Lemmon and Barton Connors, are doing most of the repair work.

The combination study hall and auditorium of the High school, on the second floor, has just had a new ceiling laid of white tiled celotex. The lights in the same room have been lowered and new shades installed thus bettering the lighting system in that room.

The library in the High school has been painted, as have the boys' shower lockers. About half

## New Hours for Business Places

Northville shoppers are reminded of the new schedule of business hours which goes into effect next Friday, August 1st. Several local establishments will be open Friday evenings instead of Saturday nights, as has long been the custom here. The change will give both owners and employees a longer weekend during the summer months and is also in line with the practice of most of the surrounding towns.

Page three of this issue of the Northville Record contains a list of Northville stores, which will observe the new schedule starting next Friday, August 1st.

## Veteran Killed In Auto Accident

Robert John MacDonald of Shady Side Ave. near Farmington Road, was instantly killed early Sunday morning when the car in which he was said to have been driving alone hit a tree on Seven Mile near Farmington Road.

Robert, who was twenty-one years of age, was well known to the young people of this community having attended and graduated from Pierson Grade school on Seven Mile Road and from Northville High school in 1944. He was active in student affairs at Northville High and served as president of the senior class in 1944. He was awarded his diploma "in absentia" having entered the Navy a few months before graduation and taking correspondence work so that he might receive his full completion of credits. Robert served twenty-seven months in the Navy, nine of which were spent overseas in the Pacific.

After discharge from the Navy, he attended Alma College at Alma and this summer was employed at the Kaiser-Frazer plant at Ypsilanti.

Funeral services were conducted Wednesday afternoon from the Catholic Funeral Home with Rev. William Hughes of the Methodist church officiating. An American Legion military service was conducted by the local post. Interment was made at Grand Lawn Cemetery, Detroit.

Surviving are the parents, Alfred J. and Florence P. MacDonald, a sister, Barbara, and two brothers, Merrill and Bruce, of the local Mrs. MacDonald is a grandmother. Mrs. Mary MacDonald of Chicago.

The Inaugural Pace launched a great series of stake races which will be staged at Northville this meeting. The Plymouth Trot on Thursday, July 24, was the second in the series, while next week the Windsor Pace on Tuesday, July 29, and the Pontiac Trot on Thursday, July 31, will highlight the racing.

## Maybury Fair This Sunday

Fun and entertainment for both young and old have been promised for those who attend the Maybury Fair Sunday, July 27th, on the Sanatorium grounds. The fair will be in progress from 3:00 to 5:00 o'clock in the afternoon.

Visitors are invited to inspect the various articles which are being made by the patients and will be on display. Many of the arts and handicrafts taught by the occupational therapy department will be sold and the proceeds will be turned over to the Goodfellows Club, a patients' organization. They in turn will use the funds for the care of indigent patients and to furnish entertainment for the patients at the Sanatorium.

The Northville Downs night harness race meeting, which is to continue through Sept. 13, was launched on a record-breaking scale last Monday evening when a crowd of 9,247 spectators, biggest opening night crowd in the track's four-year history, saw the inaugural eight-race program.

Opening night records were shattered in almost every department of operations. The biggest margin to fall was the pari-mutuel betting total. On Monday the fans wagered \$137,395, an increase of more than 69 per cent over the 1945 opening night figure of \$93,600.

The new E. M. Smith Patented Starting Gate make a great hit with the tremendous throng that crowded the half-mile plant almost to capacity. The mechanical starting device, with Paul Wright of Canada, Ohio, in charge as Chief Starter, sent the race fields on their way in the best order Northville has ever known.

The big feature of the opening night's card was the Inaugural Pace, an \$1800 stake race which drew 19 entrants and was contested in two divisions of a mile and one-sixteenth each. The first division was won by Miss Bert Abbe, an old favorite at the Northville track, in 2:21 2-5, while the second half of the race went to Gratton Forbes in 2:19. Gratton Forbes paid the longest price of the night, a return of \$70.60 to win \$21.20 to place, and \$13 to show.

Archie Nile, veteran Northville trainer-driver, got away to a fast start in his bid for top honors among the gentlemen at this 48-night meeting. Archie had four mounts on the opening night card and won with two of them—Don Patch Scott and Lee Morgan—while finishing third with Lee Morgan in a third-place race.

The Inaugural Pace launched a great series of stake races which will be staged at Northville this meeting. The Plymouth Trot on Thursday, July 24, was the second in the series, while next week the Windsor Pace on Tuesday, July 29, and the Pontiac Trot on Thursday, July 31, will highlight the racing.

The Hon. Elton R. Eaton of Plymouth, state representative from this district, officiated in presenting the Inaugural Pace Trophy to Miss Bert Abbe's driver, Carl Fackler on Opening Night. Prominent officials of other cities, after which the Northville stakes have been named, will be similarly honored at future events.

Many of the biggest name horses and drivers of the country are scheduled to arrive at Northville next weekend, following the closing of the Maywood Park meeting in Chicago on July 26, with the result that the flood-lighted track here will be the harness race capital of the mid-West for the next seven weeks. More than 400 applications for stable space had to be rejected for this meeting, but the capacity supply of 366 horses on the grounds represents the highest quality of racing stock in Northville history.

The Northville Downs races start at 8:30 p. m. each night, except Saturday when the post-time is 8:15.

## Service Clubs Picnic Tuesday, July 29, at Cass Benton Park

As has been the custom for the past several years, the annual combined Rotary-Exchange picnic will take place next Tuesday, July 29 at 5:30 p. m. near the wading pool at Cass Benton Park.

Families are asked to bring their own basket lunches but coffee will be furnished by the organizations.

Brian Bessert of Detroit is visiting his cousin, David Lee, at the Lee home on Fairbuck Road.

## Waterford Plant Producers of Precise Gage Blocks

From the Hydro Plant News, a paper published by the Ford Motor Company for its employees who serve the industry in the vicinity of Northville and Ypsilanti, comes some interesting information pertaining to production at the Waterford plant.

The article, in full reads as follows:

Five employees at the Waterford plant do all machines and bench work up to final finishing on famed Johansson Gage blocks, most precise products made by the Ford Motor Company. They are Carl Westerberg, foreman; Fred Glasser, Fred Menech, John Johnson, and Verne Goodwin.

With the completion of facilities in the enlarged Waterford plant within the next few weeks, they will be joined by men now working at Dearborn Engineering where machine and hand finishing operations are completed under the direction of Frank Bondie.

Westerberg has been connected with the "Jo Block" job in America and Sweden for 43 years. Bondie has been foreman since 1935 and has been with the Company 32 years.

Work of these Jo Block experts was featured in a full page story in the Rouge News of June 9.

The blocks have made mass production of precision items possible by making machined parts interchangeable. The No. 1 set, consisting of 81 blocks makes possible 120,000 different measurements in steps of one ten-thousandth of an inch. They are accurate in the top A.A. quality to within two-millionths of an inch, in the case of A quality blocks to four-millionths of an inch and in B quality blocks to eight-millionths of an inch.

Just as Ford first introduced mass production into the auto industry so did the Company bring to America these fine standards of measurements for use in precision engineering.

The first set of the blocks was produced in 1895 in Sweden by Carl Edvard Johansson, a 32-year-old inventor who was attempting to solve the problem of speeding up fitting and assembly of manufactured parts.

Production inaccuracies had made a great deal of hand work a necessity. But it was 1911 before Johansson could produce the gages in commercial quantities and of guaranteed quality. He came to America in 1923, sold Henry Ford his company in America, and the Johansson Division of Ford Motor Company was formed.

Attaining standard dimensions for each manufactured item permits interchangeability of parts, eliminates hand fitting, reduces cost and assures a perfect working fit of all replacement parts. Ford Motor Company, the first to produce genuine Jo Blocks in the western hemisphere, has produced more than 13,000 sets to date, with the increased production planned for the future.

With consolidation of the Newburg, Plymouth, and Nankin Mills tool units at Waterford, cost of all tools including Johansson Gages should come down. This reduction can be passed along to the customer which in turn should increase sales volume. This program will be in full swing at Waterford by fall.

Dan Lafferty of Lake street suffered a heart attack last week Sunday, but is reported to be recuperating nicely.

If YOU HAVE a checking account in a bank, we have a suggestion.

Get out your bank book tonight. Run your eye over the deposits you've made in the last year or two.

Very likely you'll be surprised at how much you've put in, yet how little you've saved out of it.

Perhaps, too, you'll realize how much you need a plan for systematic saving out of your income—regular and automatic saving, month after month after month.

Here is that plan : : :  
 for people not on payrolls.

Have you heard about the Bond-a-Month Plan for buying U. S. Savings Bonds?

It's designed exclusively for those who cannot take advantage of America's most successful system of saving money—Bond buying through automatic payroll deductions.

The Bond-a-Month Plan works like this: You authorize the bank where you have a checking account to buy U. S. Savings Bonds for you. Each month the bank buys a Bond in the amount you specify. The Bond is registered in your name and sent to you; the purchase price deducted from your bank balance.

It's simple . . . easy . . . automatic . . . and there's no charge for the service.

So, sign up on the Bond-a-Month Plan today. In ten years, it will pay you back \$100 for every \$75 you put in today.

The August meeting place will be announced later in the Northville Record and at both West's and Williams' stores.

The Vacation Bible School will open at the Federated Church Monday, July 28th, and close August 8th.

## BROWNIE NOTES

During the last month the Brownies of Salem have done several interesting things. One week the "voted the Gables" beautiful flower garden, then went back to school and did some designing with colored chalk. At the close of this meeting the girls enjoyed a picnic at Williams' Ice Cream Parlor. The following week the girls hunted up old clothes, dolls, carriages, dishes, etc., and played house at school. Part of the fun of the day was a parade to the Benjamin home where Mrs. Benjamin took pictures. Look for these unusual snap shots on the bulletin board at school this fall. The next week the Brownies met with Joyce Wilson. The Wilson home had much to interest them, a baby, play ground equipment, flower garden rabbits and a fire place. A picnic of roasted hot dogs followed, with cold lemonade and ice cream as a treat. Mary Patricia Barnhenn attended her first Brownie meeting at this party. Last Thursday Mrs. Anderson, Mrs. Wilson and Mrs. Benjamin furnished transportation to the Cranston Dairy. Mr. Anderson explained each step to the girls and they saw the milk weighed in the can as it was brought from the farms, pasteurization, etc. They watched the loading of the truck for the trip to Detroit. This was a worthwhile meeting at Nancy's home and the Brownies enjoyed a treat of milk and ice cream at noon. Brownies will not meet during the two week Bible School is in session at the Federated Church.

## Beautiful Midsummer Wedding Takes Place in Local Church

An impressive ceremony performed at the Presbyterian Church Saturday evening united in marriage two of Northville's older families. In a candlelight service, Pearl Eileen Denton and Carl W. Stephens were married before an altar flanked with standards of gladness and Shasta daisies. The groom's paternal grandfather, Rev. A. A. Stephens of Charlevoix, read the double ring service.

Presiding at the organ and playing the traditional wedding music was Mrs. Gerald V. Harrison. For his bride, Carl sang the "Lord's Prayer."

Given in marriage by her father, Joseph E. Denton, Pearl wore ivory satin. Her gown was fashioned with a sweetheart neckline, fitted bodice adorned with sprays of flowers in seed pearls, and long sleeves ending in points over the wrists. The full skirt was made of tulle. She wore a finger-tip veil caught to her head by a tiara of seed pearls.

which matched the adornment on her gown, and she carried a Colonial bouquet of white roses and stephanotis.

The matron of honor was the bride's close friend, Mrs. Howard Eberole (Mary Gotts) of Franklin Road, Waterford. Acting as maid of honor was Gladys Ritchie of Plymouth. In pink and the bridesmaids were two sister-in-laws of the bride, Mrs. Carl Denton and Mrs. Raymond Denton of Detroit, together with Joan Hein of Ann Arbor, all in blue.

Their gowns were identically fashioned of shadow organza with sweetheart necklines, cap sleeves, fitted bodices, and bouffant skirts. The five attendants wore muffs to match their gowns and coronets of roses in their hair. All carried Colonial bouquets of Shasta daisies and blue buds.

Three and a half year-old Suzanne Denton of Detroit, a niece of the bride, acted as flower girl. She wore a pink organza gown and carried a Colonial bouquet of pink roses and Shasta daisies; pink rosebuds were in her hair.

Serving as best man for the groom was Fred Castorline of this village. Seating the guests were the bride's brothers, Raymond and Carl Denton of Detroit, Kenneth Porter of Northville, and Alphonse Turpinski of Detroit.

For her daughter's wedding, Mrs. Denton chose an aqua crepe gown. Mrs. Stephens was attired in printed floral jersey and both brides wore pink gladiti corsets.

Following the ceremony a reception was held in the Presbyterian Church parlors for 300 guests. A drawn thread Italian cloth covered the buffet table which held lighted tapers in silver candelabra and was centered with a three-tiered wedding cake. Mrs. O. S. Allen and Evelyn Gardner of Plymouth presided at the silver service.

The young couple left on a week wedding trip to Cumberland Falls, Kentucky. For going away the new Mrs. Stephens wore a white gabardine dress and carried a white accessories. Her carriage was the center of roses from the bridal bouquets. Upon their return the Stephenses will make their home on Norton avenue in their newly built home.

The young people have lived all their lives in this vicinity. Pearl graduated from Plymouth High school and is employed at the Packard Ford plant. Carl is a graduate of Northville High and is employed at the local Ford plant. He is an Army veteran having served four years in Italy.

Out of town guests at the wedding came from Detroit, Tecumseh, Ohio, Plymouth, Walled Lake, South Lyon, Cheboygan, Ann Arbor, Flint, Grand Rapids, Lansing and Charlevoix.

The bride and groom received several congratulatory cables from England from the former's grandmother and other relatives.

**When is a rate increase  
a good thing for  
telephone users?**

The right price is "the lowest possible price that will assure you of good quality." That's true of everything you buy, including telephone service. So—answering the question above—a rate increase is a good thing for telephone users when it is needed to protect their interests from a service standpoint.

The last time there was an increase in telephone rates was 21 years ago. From 1926 until 1937, rates went down substantially. Since 1937, there have been still further local reductions in a number of exchanges and decreases in toll rates. Except for those further reductions, 1937 rates haven't changed, although the cost of most things—wages, taxes, supplies—has gone up.

Just since the war, wage adjustments alone have upped our costs \$11,000,000 a year. This includes settlements reached during the recent strike. Lump all our costs together and you'll find they've gone up much faster than our income. Since 1937, our income has gone up 141%. But costs have gone up 193%. And our return on investment has dropped more than a third.

NOTE: Where the term "Income" is used above its meaning is the same as "Revenue" or "Gross Income." Where the term "Investment" is used it means the net (fixed) cost of the telephone property less the depreciation reserve accrued against the ultimate retirement of the property.

Now we face the fact that 1937 rates won't work in 1947.

We don't like a rate increase any more than you do. We've waited until the last possible moment to ask for one. But that moment has now arrived.

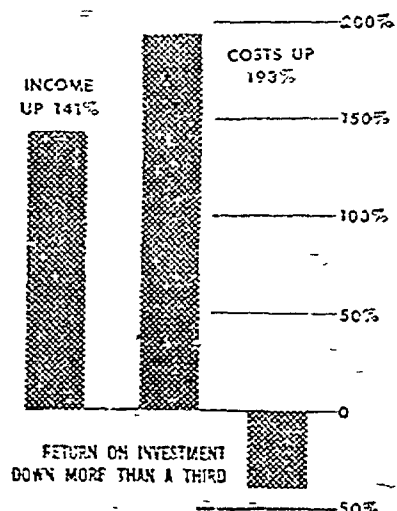

There's a lot of work to be done and a lot of money to be spent to give more and better service to everybody who wants it. The money will have to come from investors. They will furnish it only if they can be sure of a fair return, which our present rates are simply too low to provide. A growing business, especially, has to earn a good return in order to attract the capital needed for growth.

Telephone rates are regulated by the Michigan Public Service Commission, a body established by State law and appointed by the Governor. We're going to ask the Commission for a public hearing to review our proposed new schedule of rates. During the week of August 3, we'll publish details of the proposed rates throughout Michigan Bell territory. After that, we'll file a petition with the Public Service Commission.

The whole future of Michigan's telephone service depends on raising rates enough to assure the financial stability of your telephone company. We're sure you want us to take this step to assure you the kind of service you want.

**GREAT LAKES—ST. LAWRENCE SEAWAY:** Congressman George A. Dondero's bill (H.R. 92) to authorize the completion of the Great Lakes-St. Lawrence Seaway is now the subject of hearing before the Public Works Committee of the House of Representatives. He speaks of it as "the unfinished masterpiece project of the North American Continent." The Foreign Relations subcommittee of the Senate approved authorization of the companion bill introduced by Senator Vandenberg and estimated its cost at \$720 million, of which the United States share would be \$490 million. The bill provides for self-liquidation of the project through toll charges. It reported that evidence indicates the project would contribute materially to North American defense and also to the economic health of the Middle West. J. H. Barnes, President of the National St. Lawrence Association, testified before the House Committee that the proposed Waterway would enable this country to ship goods to Western Europe more cheaply than Russia.

**RETIREMENT BENEFITS FOR FEDERAL EMPLOYEES:** The House of Representatives will consider legislation liberalizing the Federal Retirement System. The bill would increase Federal pensions on a scale ranging from five per cent in the higher brackets to twenty-five per cent in the lower brackets. Existing pensions would be increased twenty-five per cent or \$300, whichever is less. Increases would be financed by raising employee payroll deductions from five per cent to six per cent.

**SOME FACTS ABOUT ADVANCE PLANNING:** Congressman George A. Dondero, through the Committee on Public Works, of which he is chairman, made an investigation of "Advance Planning Program Projects," being urged by many cities and state government units of the 17th Congressional District. It was found that projects already approved and forming a backlog of work not yet undertaken total

\$15,309,049,000. These projects cover such work as public roads, veterans' hospitals, Post Office Department projects, reclamation projects, public buildings, Federal Works Agency projects (8,327 in number), flood control, rivers and harbors and Navy Department projects. All of these approved projects were verified through government sources. With a backlog of more than fifteen billion three hundred million dollars, there seems to be little use of adding to the authorizations by the passage of further legislation of this character in this Congress.

**REDUCTION OF GOVERNMENT EMPLOYEES:** The April-May report of the Joint Congressional Committee on Reduction of Nonessential Federal Expenditures reveals the following facts in connection with the decrease in personnel connected with the government.

The over-all decrease, after deducting War and Navy totals, stands at 7,712. While the War and Navy Departments discharged 19,206 persons, other Departments increased their personnel 15,424. The decrease in personnel in continental United States for the month of May, over April, was 7,411.

Outside the continental United States the decrease was 7,565, a majority of which was industrial workers. Excluding Army and Navy Departments from these figures, there was a decrease of only 302. The industrial employees, during the month of May, decreased 6,695 from the April totals.

**AGRICULTURE:** The House Committee on Agriculture is now studying the over-all farm picture with a view of rewriting the ten-year-old Agricultural Adjustment Act in the next session of Congress.

**Close Knitting**  
When sharp winds blow, fabric construction can offer wind protection. A closely woven fabric slows up the flow of air whereas a loosely constructed material lets air pass through freely. A person may feel warmer in a closely woven cotton coat or jacket than in a heavy knitted wool sweater on a cold windy day.

Mrs. Forrest Burright (left), 64-year-old grandmother from Oregon, Ill., and her 22-year-old daughter, Joyce, are among the colony of famous harness race drivers now competing in the Night Harness Racing at Northville Downs in Northville. Here "Grandma," the first woman ever to win a race in Grand Circuit competition, gives Joyce some tips on driving.

association of University Women, started the ball rolling. The movement reached bandwagon popularity and was supported by the Michigan Milk Dealers Association and the Michigan Milk Producers association, just to mention a few.

Despite determined and organized opposition, the consumer groups fought the bill through to a successful vote of 27 to 0 in the Senate and 53 to 22 in the House.

The bill, as amended in the House, provides for referendum vote to remove a city from the provisions on petition of 10 per cent of the qualified voters. The law does not forbid the sale of raw milk at farms.

Ottawa Indians are going to have their own pin-up girl—a princess.

The ceremony will take place next Sunday evening (July 27) at Harbor Springs, capital of the Ottawa tribe. Wearing full tribal regalia, the Ottawans will conduct native dances. The evening's climax will be selection of a princess from the Indian girls from surrounding towns and villages.

Harbor Springs has hopes of making this event a nation-wide affair such as the Pow Wow at Flagstaff, Arizona, and the Intertribal Ceremony at Gallup, New Mexico.
