Sept. 21-27 Named National Dog Week

During National Dog Week, Sept. 21-27, Miss Rhea Lyon, branch librarian, calls attention to the books available in the Northville Library which give information on the care and training of dogs. Unique among them is "How to Raise Your Puppy," by Margaret F. Atkinson. Written for children, Miss Lyon says of this small book, "It gives simple directions which make it possible for the child to feed, care for and train his own pet."

Urging people to ask for material on dog training, Miss Lyon said: "We have W. L. Judy's 'The Care of the Dog' here at Northville, but if other books are wanted we can obtain them through the Wayne County Library loan system."

Mrs. Donald Ware, chairman of the summer group, reports the termination of a very successful six week period. Twenty eight children were enrolled and there was a daily average attendance of sixteen. The group used the kindergarten facilities in the public school until August 14th. The mothers rotated in conducting the group, three mothers being there daily.

At the meeting next Tuesday, movies of the summer group will be shown and plans for continuing through the winter will be discussed. Anyone wishing further information should contact Mrs. Donald Ware, Mrs. George Weiss or Mrs. Kenneth MacKay.

In 1934, when Willard Ely, of Linden street, was supervisor of the Library Association, the building was turned over to the County. Mrs. H. F. Wagenschutz, of Beal street, is the present Northville member of the Wayne County Library Board.

The present staff includes Miss Rhea Lyon, librarian, Miss Margaret Burton, assistant librarian, and June Richardson, part-time helper.

The interior of the building was remodeled last year, and at that time the new fireplace was put in to replace the original mantel.

Not only does the Library building house the institution's more than 6000 volumes, it is also used as a meeting place for the Woman's Club, the Coordinating Council, the Michigan Alumni Club, and the Michigan State College Home Extension classes. Last year, The University of Michigan offered an extension course which was held in the library.

A public building is meant to serve the people of a community, and the Northville library achieves this purpose in the best possible way - by combining utility and beauty.

Auto Accident Kills Soldier in Japan

Word was received here this week of the death, from injuries received in an automobile accident, of Sgt. Walter C. Richter, in Tokyo, Japan. No details of the accident are yet available. The twenty year old lad had been in service only a short time, having sailed for Japan last December.

Walter had often visited in Northville, being the nephew of Erwin F. Richter of Seven Mile Road, and cousin of Chas. Murphy of High street. He is survived by his mother who resides in Ypsilanti, his father having met death by drowning several years ago.

P.T.A. To Meet Next Thursday

The first meeting of the Northville Parent-Teacher Association for the 1947-48 season will be held on Thursday evening of next week, Sept. 25th, at 8 o'clock in the Grade school gym.

Members of the faculty of the Northville schools will be introduced, and Supt. R. H. Amerman will give a review of the annual school report. Mr. Amerman will discuss some of the problems facing the school and will also answer questions regarding this subject.

Refreshments will be served at the close of the meeting by members of the executive board which includes officers and committee chairmen of the association.

Parents of new Kindergartners

and those with boys and girls

in senior High school will be welcome to attend this opening session, together with all former P.T.A. members.

The local Parent-Teacher Association is sponsoring a poster contest in the Art department of the Junior High school. This will run throughout the year and a prize will be awarded the winner at the close of school next June.

Starkweather says that electricity was not in general use in Plymouth when the picture was taken. Street corners were lighted with kerosene lamps. There were no paved country roads, and people in Plymouth and Northville were just beginning to tear up their wooden sidewalks and build cement ones.

The library's early collection of books consisted mostly of fiction, with some biography, poetry, essays, and histories. Very few technical books were included until the community grew to the point where there was a demand for them.

In 1934, when Willard Ely, of Linden street, was supervisor of the Library Association, the building was turned over to the County. Mrs. H. F. Wagenschutz, of Beal street, is the present Northville member of the Wayne County Library Board.

Tonight the 1947 football season for Northville High School will get underway when the Mustangs journey over to Brighton to meet that team under the lights at 8 o'clock.

The boys have been holding practice sessions daily under the direction of head coach Hal Helm and assistant coach Clinton Russell. Coach Helm reports that although the scrimmage held under the lights, Friday night showed several weaknesses, it also displayed many improvements over previous sessions. The result of the scrimmage was an overwhelming victory for the first team over the second team.

The probable lineup for tonight's game has been reported as follows: Left end, Campbell; left tackle, Ross; left guard, Tiffey or Stephens; center, Herman; man or Seckin; right guard, Bjarneseth; right tackle, Fred or Seckin; right end, Kazarian; quarterback, Pierce; full back, Rutenbar; half backs, Kremek and Stovali.

Monday night, after \$157,000 passed through the gate-mills windows, and seven out of nine races called for photo, finishes to determine the winners.

On Friday and Saturday nights the Michigan Normal Pace is set to be run with a \$500 purse. It will be run in two dashes, a nine-sixteenth of a mile and a mile and one-sixteenth. Among the favorites in the event will be Half God, driven by Archie Niles and Worthy Baldwin, driven by Leo Smith.

The last race Saturday evening will be the free-for-all pace favorites such as Givitan McKinley, owned and driven by Neil Houle, Miss Ruby, owned and driven by Phil Conrad, Prince Yukon, Charming Scott, Merry England, Grace Hall, and Donie will all be out to try to capture the \$1000 purse.

The horses for the free-for-all pace are very well classified and racing at the Downs is promised an excellent evening of racing.

The date of the next dancing party to be sponsored by the village Recreation committee will appear in a later issue of the Northville Record.

185 Attend Opening Recreation Dance

To the Editor**THE VILLAGE COUNCIL
TAXATION
GRATUITIES**

It will be noted by the title that I have a three-fold heading. It is put that way because it is necessary to discuss each one of these topics to make a partial answer to D. J. Stark's question of a few issues ago. I do not make any pretense of completely answering the subject, but the following are my views and coincide with the views of some of the other citizens of the Village of Northville.

Our Village Council, which consists of five members and is headed by a presiding officer known as the President, is a body of individuals elected by vote of the people and citizens of Northville. This group of individuals is put into office to do as they think best in the affairs of our Village. They are given these positions of trust BECAUSE THE PEOPLE THINK THEY ARE QUALIFIED to run the affairs of the Village.

The Village Council is directed by a rule book as to what are their duties and obligations. They are told by this rule book what they can and cannot do. This rule book is known as the Charter for the Village of Northville.

It cannot be expected that in the exercise of their many duties in each instance the Council can be expected to ask the citizens by a ballot, what to do and how to do it. That is ridiculous, and each of us will willingly admit that. That is why five men and a presiding officer have been placed in their position of trust. To do the many things required to run the Village of Northville.

So—I think the duties of a Village Council are: To run the affairs of a Village in the most efficient manner possible, to assimilate their ideas and the ideas of their fellow citizens, draw on their own knowledge and the knowledge of their fellow citizens and run a highly complex undertaking.

Now, the above paragraphs briefly outline sketchily what I think the duties of a Village Council are but they really do not answer D. J.'s question. He really meant: "We, the citizens of the Village of Northville, have accumulated a substantial sum of money in our treasury and are increasing yearly, that sum should we spend it as is available to our present Village Council. Yet, taken as a whole, is a small group of men who are doing something substantial with it?"

D. J. speaks of a "stream of money coming into the Village prior to this gratuity we get it, or should we give it and do something substantial with it?"

Regarding Your
Terminal Leave Bonds**

The Law has been passed which makes it possible for you to cash your Terminal Leave Bonds any time after September 1st. However, it is not necessary that you cash your bonds at this time in order to receive the full amount due you. They may be cashed at any time after September 1st on demand and without delay by any Paying Agent. (Bank)

Unless you are in absolute need of the money now, this institution and the United States Treasury Department strongly recommend that you permit your bond to earn interest at 2½% (up to maturity) or until you actually need the cash.

For those of you who must have the cash and who cannot afford to hold their bonds, we shall be pleased to offer our facilities in cashing them.

Contest Winner "Brands" His Prize

A pioneer of the auto industry, hunted throughout the nation in a contest to discover the oldest Chevrolet truck in America, turned up, appropriately, in the possession of a Montana homesteader. The venerable vehicle, vintage of 1918, was still serving Rancher Lester A. Storey, of Jordan, Mont., whose ranch lies 18 miles from a typical "last frontier" town. The award for owning the oldest truck was entered in the contest won by this vehicle, which was one of 381 built by the division in 1918. The license and operating truck was a new Chevrolet first year of truck production.

If the Upper Peninsula is the problem, Sheld on Michigan's water, have changed it is not due to the failure of local people to try to work out their own solution.

It is rather the people in the interior of the region which is split from the remainder of the state. The story of the north peninsula, 326 miles long from Point St. Marie to Marquette, is one of exploitation of natural resources, an abject owner help. Not only have a lot of the profit from the sale of timber and iron gone into the hands of people living elsewhere, but the timber and ore have been depleted and the region is forced to process mainly into labor wages and steel products for the rest of the U.P.

The Upper Peninsula, treated like a colony, deserves a helping hand.

One of the significant trends in the U.P. is a program of economic development, originally conceived by the old Michigan Planning Commission. It has been termed by an official of the U.S. Department of Commerce as "unparalleled anywhere in the country."

The quest for new industry, whereby some of the profits of raw materials, especially timber, may be kept at home and put to work. In the past the U.P. has been a frontier region, logging and mining. Communities are asked to take on an inventory of their resources and then to invite industrial concerns to open branches in the Upper Peninsula.

In the opinion of newspaper publishers who attended a two-day conference at Oscoda last July, this economic program is one of the best bets for the future growth of the region. It is now being headed by Ben Clark, formerly of South Haven and it is sure to be continued by the

LANSING
NEXT-OF-KIN ELIGIBLE FOR
TERMINAL LEAVE PAY

Next-of-kin of those individuals whose deaths occurred after discharge or release from active service under honorable conditions and who had accrued leave or furlough to their credit are entitled to claim terminal leave pay due the deceased veteran. Documentary evidence of the relationship must accompany the application certificate and the discharge certificate. The same applies to those military or naval personnel who have been judged insane or incompetent. Payment in such cases will be made by full check to the next-of-kin of the deceased or the incompetent veteran.

Survivors to whom payments will be made include: (1) surviving spouse, child, or children; in equal amounts; (2) surviving parents in equal shares, but not more than two parents may receive the benefits and preference is given to the parent or parents (not exceeding two) who actually exercised parental relationship at the time of, or most nearly prior to the date of death of the discharged serviceman. "Parents" are defined as father, mother, grandmother and grandfather, stepparent, or a person who stood in loco parentis to the serviceman for one year prior to his death. Brothers and sisters are not eligible. If none of the above-mentioned survivors is living, the amount due the veteran is retained in the Treasury Department fund.

Don't believe any reports that the U.P. will soon be a ghost town. Marvelous climate. You sleep up in the mountains, eat dinner in the pines, bathe in the Great Lakes. When we are in the U.P. you are in the North.

Recent explorations in the U.P. indicate areas of low grade copper ore at least six miles long and one and one half miles wide. It holds enough copper ore to be mined annually at the rate of 7,500 tons daily to 50 years. The ore is extremely the best known copper reserve in the United States. It is hard to utilize this low-grade ore, a technical problem yet to be solved.

We have been told by good authority that there is no serious difficulty in getting men to sell

in the U.P. east of the Gogebic Range is good for at least 25 years at the present rate of production. This region also possesses millions of tons of low grade iron ore and eventually a way will be found whereby this can be developed profitably.

Any mention of the U.P. improvement efforts must include George Bishop's Upper Peninsula Development Plan which proposes to link the four Great Lakes with railroads in the St. Lawrence Seaway, connecting Lake Superior, Lake Huron, Lake Michigan, and Lake Erie. The Keweenaw county rock, which filled Lake Superior, is being used to fill Lake Michigan.

The silo should first be cleaned by scraping off any old silage that may be adhering to the walls and litter at the bottom of the silo taken out.

An leak in walls may cause silage to spoil. Walls should be painted with a paint brush, applied with a paint brush, and if necessary, a coat of paint should be applied to the inside of the silo.

It should be brushed into cracks of joints while it is still warm.

Easier Climbing with Good Stairs

Did you ever notice how some stairs are hard to climb and others are very easy? A. J. Bell, agricultural engineer at Michigan State College, advises that the dimensions of the stairs make a big difference in the case of climbing.

Good stairs have at least a ten-inch tread (exclusive of the nose or projection) and a seven-and-one-half inch rise. A steep stair is one having an eight and one-half inch riser and a nine-inch tread.

In remodeling or moving stairs, the exact dimension to use will depend somewhat on the space available and the height of the ceiling, Bell points out.

The first talk meeting of Susan Ann Cochran Chapter, Daughters of the American Revolution, was held at Greenfield, home of Mrs. Sherwin A. Hill on Monday afternoon of this week. Thirty-eight members and guests were present.

Mrs. John C. Burkman Regent, presided over the business meetings. A Past-Repeat's bar was presented to Mrs. Earl S. Mastick of Plymouth and announcement was made of the regional meeting to be held in Royal Oak on September 25th, with a one o'clock luncheon at the Methodist Church preceding the meeting.

The guest speaker of the afternoon was Mrs. Hartman Litchhardt of Detroit, who spoke on the political situation in Iran. Dr. and Mrs. Litchhardt were stationed in Persia for twenty-two years during which time the former served as a medical missionary. The couple returned to this country six years ago. Mrs. Litchhardt gave a vivid and interesting account of life in that country.

Following the program tea was served with Mrs. Burkman presiding at the tea table.

Members and guests attending from Northville in addition to the hostess and Regent were: Mrs. Allen J. Buckley, Mrs. Carl Bryan, Mrs. John Litsenberger, Mrs. William Fector, Mrs. Claud Riley, Mrs. Nelson Schrader, Sr., Mrs. Ernest Shave, and Mrs. S. K. Stephens.

ADULT CLASS RECONVENES

The Adult Bible Class of the First Presbyterian Church will again meet each Sunday morning at 10:00 o'clock in the Church Parlor. Mrs. C. M. Chase of Clement Road will be the leader. For some years previously Mrs. Chase had taught this class, but during the war was forced to give it up.

The initial study text is a book written by Ernest True Thompson, entitled "One Lord, One World." It is a study based on the Gospel of St. Matthew. Both men and women will be welcome to attend these meetings. The group will have its opening worship with the Church School in the Auditorium and then go to class in the parlors. This coming Sunday will be the first meeting for the fall season.

Dr. and Mrs. Louis Eaton (ida Marie Walker) of Quincy announce the birth of a daughter, Mary Kathryn, September 2 at Coldwater Hospital.

County Agent's News Column

E. I. Besemer

The fly free date for sowing wheat in Wayne County is September 21.

Seed wheat should be treated 1 oz; trees 3 yrs old 1/2 oz.

Farmers having wheat stored in bins should inspect their wheat for weevil injury. With wheat at the highest price in history a little weevil injury will be very costly.

If weevil is present bin fumigation with one of the fumigants on the market is advisable.

Alfalfa cut or pastured during September will not be able to store up enough food to withstand possible winter injury.

Folks having peach trees for home or commercial fruit production should examine them for peach borer injury.

When there are only a few borers dig out the borers with a sharp knife. When there are many trees use para-dichlorobenzene.

of the mill on Griswold Road. Roy Richardson of West Main street managed the business for his father and the ex-governor of Michigan.

In 1922, the business was sold to the Gordon Page Baking Co. of Detroit who occupied it for several years. After its purchase by the late Phil Grennan the building lay idle for several years. Later brickette siding and electric flat irons were manufactured there for a short time previous to its sale to the Warren Products Co.

These two industries help to make Northville a progressive community by adding to the prosperity of the village itself.

WANTED - AN OCCUPATION

Being thoroughly "fed-up" with a daily trip to Detroit, I have decided to locate a business in or near Northville. Would like to hear from anyone interested in the following:

- 1-Capital for expanding an established business on partnership basis - including position with organization.
- 2-Selling all or part of an established business.
- 3-Starting a new business.
- 4-Hiring a man with a broad general experience in many types of businesses, with ability to meet and influence anybody, anywhere.

Would also be interested in establishing a high type dining room, antique and gift shop, small manufacturing or manufacturer's agency. Could cover territory for manufacturer.

Freedom isn't Free!

**A Railroad Salutes the Freedom Train Which Starts
Its National Tour in Philadelphia This Week**

This week the whistles will blow and the church bells will ring in Philadelphia. For there, where our Constitution was born, the most remarkable railroad train in history is beginning a national tour—a train transformed into a rolling shrine to display the great documents on which our American freedoms are based.

As the school children of Philadelphia (and 300 other cities to come) gaze on Jefferson's draft of the Declaration of Independence, or the official manuscript of the Bill of Rights, or Lincoln's pen notes for the Gettysburg address, sober thoughts will run through the minds of their elders.

FREEDOM, as world events have taught us, isn't free like the air we breathe. It isn't from everlasting to everlasting. It was won by bitter struggle, and it can be lost with tragic ease, if we and other Americans take it for granted.

The lesson of our time is that freedom must be earned, in each generation. Either we continue to earn it, or we shall wake up some morning to find that it has slipped through our fingers, as it slipped through the hands of other people in the world. A dictatorship will have taken it from us.

In our business hours many Americans speak of "Free Enterprise" as though it were a God-bestowed blessing. Some are surprised to find that it isn't listed in the Declaration of Independence under Mr. Jefferson's "unalienable rights."

But freedom of enterprise, like our political liberties, doesn't blow like the wind from Heaven. It must be earned. Either business, in serving itself, serves the public, or it invites strangling regulation.

It can almost be said that the measure of our success as a republic is the amount of regulation we can get along without. Judged by this standard, we have a long way to go. Does anyone believe that either the Securities Exchange Act or the Taft-Hartley Labor Bill is a tribute to our success in self-discipline?

What would have happened in the twenties, for example, if a few determined men in Wall Street had publicly denounced the iniquities then practised in the name of the Bull Market? Such an action would have broken all the rules of the Club, but the crash and the depression would have been easier, and business would have escaped a whole morass of legislation.

And what restrictions could the labor movement have avoided if some audacious leader had insisted that his union be accountable to the laws and customs of contracts?

It is taking us a long time to learn that, when we invite the devil to take the hindmost, the devil may take us all.

In the words of Tom Paine: "Those who expect to reap the blessings of freedom must bear the fatigues of supporting it."

There can be no liberty that isn't earned.

That, to us, is the import of the Freedom Train. And the Chesapeake & Ohio, which is one of many railroads over whose tracks this national shrine will pass, salutes it on the start of its historic mission. We will guard it well when it comes our way. May it have a fruitful journey!
