

Downs Closes With Spectacular Climax of 47 Night Meeting Here

The 47-night harness racing season, which closed with a spectacular climax at Northville Downs here Saturday night, carried the sport to the highest point of its four-year operation here. New records were set in attendance, in pari-mutuel wagering, in distribution of purses to the horsemen, in racing speed, and in revenue collected by the State of Michigan.

Last Saturday's crowd of 9,953 spectators was the largest in the history of the plant, surpassing the previous night's total of 10,412.

Saturday's pari-mutuel "handle" of \$264,556, was the highest in Northville history. Friday night a new record of \$233,330 had been set, compared with the old mark of \$208,307, set Nov. 15, 1946.

The average crowd throughout the 47-night meeting was 5,856 and the average handle was \$19,223, both new records for Northville, and for all-night harness tracks outside of New York City.

The total of purses distributed in the 417 races was \$244,700—an average of \$5,206 per night which is another track record. The State of Michigan, collecting two per cent of the mutuel handle, plus one-half of the "breakage," took \$212,304.03 into the state treasury as a result of the rare meeting here.

Only the limitation of the season, by rain and regulations, to 47 days kept the 1947 meeting from completely overshadowing 1946 operations when the track had 57 nights of racing. As a result, while the averages this year were far ahead of last season, the total amount of wagering—\$7,512,255—was \$65,000 short of the 1946 aggregate.

Archie Niles, of Northville, drove Charming Scot to a thrilling victory over Miss Ruby in Saturday night's featured, \$1,000 pace to clinch first place among the drivers at the meeting. When Charming Scot raced home a neck in front of Miss Ruby in 2:05, second fastest mile in track history, it marked Niles' 23rd first place of the season. Eddie Barnes, Jr., of Shelbyville, Ind., also had 23 wins, but Niles had 27 second places to 20 for Barnes.

The Michigan Harness Horsemen's Association presented a watch emblematic of the driving championship, to Niles.

Across the 47 days of racing Dr. Stanton, owned by Lindy Fraser of Forest, Ont., was the top horse, winning nine pacing races and collecting \$4,675 in purses. Among trotters, Porter Day, owned by Joseph Rick of New Castle, Pa., was tops, winning seven events and collecting \$1,137 in prizes.

AN ELECTRIC HAMMER MILL saves you time and money

Grind your own feed with a flip of the switch! It's quicker, more convenient and far more economical than other methods! Inexpensive electric feed grinders are available right now—and your dealer can arrange for immediate delivery.

Talk to your Edison farm man about an electric grinder—ask him to show you one at work on a nearby farm. Discover how electricity does this particular job at a fraction of your present cost. There's no obligation, of course—your Edison farm man has no equipment to sell. His only job is to help you get the most out of all the electricity you buy.

LOOK AT THESE ADVANTAGES!

1. Free one man for other work.
2. Save hours of your own time.
3. Eliminate mill trips and mill tolls.
4. Make your own hopper and bin at home.
5. Spare your tractor from this "daily grind."
6. Have fresher, better feed—when you want it.
7. Save time—no waiting for the grinder truck.

Doctor Advises Children With Colds to Stay Home

Children with colds should be kept at home and not allowed to attend school. This was the advice of Dr. David Littlejohn, Director of the Wayne County Health Department. Dr. Chabut, local Health Officer, asked Dr. Littlejohn for a statement covering this subject. Dr. Littlejohn was very emphatic in pointing out that a number of communicable diseases begin with the exact symptoms of a cold. Furthermore, said Dr. Littlejohn, the so called common cold is itself communicable, especially during the first two or three days. Children and adults who note the symptoms of a cold should remain at home and advise others for at least two or three days. In this way the spread of colds would be checked among those with such disease as laryngitis, cough, measles, scarlet fever, strep throat, diphtheria, etc. who would be kept at home until the dangerous period of the disease is past.

CHOICE is the
keynote of today's career

Would you go to Europe, Japan or Korea? Or would you stay near home? Any man who has had prior service in the Armed Forces may elect to do any of these things if he enlists in the Army now for 3 years or more. He can choose to be assigned directly to duty in Europe or with one of five famous Infantry divisions in the Far East. Or he may choose to be stationed near home for the first full year of his enlistment (wherever there are vacancies). Men with or without prior service may also see one of the famous combat divisions in Japan or Korea.

Would you select a career in aviation? This you can, and be guaranteed the training you choose before you enlist! Only requirements beyond regular physical and mental examinations are that you be a high school graduate, or that you are in the Air Force and can fly. It's today's great opportunity to write your own ticket in the Air Force.

Would you want to learn to fly? If you are single, 20 to 26½, and have had two or more years of college education or the equivalent, you can become an Aviation Cadet with the U. S. Air Force. Nowhere else can you get better training, for nowhere else is aviation advancing as fast or as far as in our own Air Force.

Would you go to a leadership school? If you have qualities of leadership, would you want to develop them to their fullest? U. S. Army Leadership Schools are now selecting likely candidates from servicemen to take these valuable courses.

The Army and Air Force are doing everything possible today to help each individual develop along the lines that he picks for himself. Army and Air Force training is thorough and take-home pay is better than most civilian jobs. Opportunities for advancement are wide open to every man in uniform. Make your choice today at your U. S. Army and Air Force Recruiting Station.

Among the Bible citations is this passage, (John 1:1, 3): "In the beginning was the Word, and the Word was with God, and the Word was God." All things were made by him; and without him was not anything made that was made.

OBITUARY

MRS. ELIZABETH COLDREN

One of Northville's oldest residents, Mrs. Elizabeth Coldren, passed away at the family home on Tuesday of this week and with her death there passes from the community a family name that has stood on the records for more than one hundred years. She had been in failing health for some time.

Mrs. Coldren was born on a farm near Peoria, Illinois, on July 13, 1884. She was the seventh and youngest child of James and Nancy Beale Jackson. At the age of eight years, she moved with her family to the Western frontier—the two weeks trip was made in covered wagons drawn by mules and oxen. The family settled on a homestead forty miles from Nebraska City. In this environment she grew to young womanhood. At the age of twenty years, she was married to Osmund Coldren and two years later came to Michigan to make her home. Hers was a life of devotion to home and family.

The body lay in state at the Schrader Funeral Home until time of the funeral services, which were held at the home on Thursday afternoon at 2 o'clock. Burial took place at Rural Hill Cemetery.

She is survived by a daughter, Mrs. Howard Hall, of the home, Wilson Clarke the sponsor.

Governor Kim Sigler is a very suspicious individual. His attitude comes naturally as the result of his grand jury experience.

The case at hand is his personal investigation into gambling clubs at Northern Michigan resorts.

At the beginning of the 1947 tourist season, Governor Sigler warned all law enforcement agencies that gambling was not to be tolerated in resort areas or elsewhere. No slot machines, no roulette wheels, no dice games, and no gambling other than legalized betting on horse racing at Detroit and Northville. With a tough ex-prosecuting attorney in the state executive offices, Michigan was to remain a no-man's land for organized gambling.

In other years a certain amount of under-cover gambling was tolerated at North Michigan resort towns. The idea was usually this: The "suckers" are well-to-do visitors from other states. If they want to gamble, it was their money to throw away. Local citizens were not admitted; hence local merchants never had a chance to complain about non-payment of bills. Some times the local prosecutor was induced to serve as attorney for the resort business in handling legal affairs. The tourist season was short, and the hotels had to meet expenses, etc. Why not let some Chicago tourists contribute needed revenue, etc.?

The Michigan season opened this year, as usual, about the Fourth of July. State police and state liquor control commission investigators promptly made their check-ups on places which had opened in other years, off and on. No signs of activities could be detected.

Late in July, however, word spread that gamblers were opening up, quietly of course, in a few selected locations. Attempts of police and investigating officers to gain entrance were not successful. One hotel required gamblers that the person was from out of state, that he had \$100 in bills on his person as evidence that he could afford to lose.

Reservations were received by the hotel from a Wisconsin businessman for a week in August. When he arrived, he proved his credentials, his displayed money. And finally he succeeded in getting into the casino where he

played games and obtained first-hand evidence. The place was then "knocked over" by State Police.

However, the raid (and there were several others) all occurred in August. Critics implied to the school that the raids were a "token raid" in fact, Donald Neely, vice-president of the school, said: Cynthia Gates, secretary, was about over and big profits had been harvested. The governor smarted. He was furious. He ordered two former ace gamblers to leave. The librarian is Robert

jury investigators to investigate. And whom are they to investigate? Well, State Police and State Liquor Control Commission investigators!

Gambling had been winked at, under certain circumstances, by some governors of Michigan. We recall when we spent a week-end at a Michigan resort hotel, at which the governor was a guest. A friend invited us to see the hotel casino. We had never seen a gambling-joint, and being a newspaperman, we accepted more out of curiosity than a desire to gamble. In the casino was the secretary of the governor and several members of his office staff. The next day, the governor requested the prosecuting attorney to investigate "reports" of gambling.

No, we don't blame Governor Sigler for being a suspicious man. He evidently doesn't know whom to trust. But we do hope that his report on the State Police and Liquor Control investigators will be widely publicized. At present he has put these agencies under public suspicion.

Installation of officers was held Wednesday, September 24. The mothers were invited to be present.

There will be a health examination on October 7 in the morning. Dr. Handorf will be the examiner.

Visnyak, Phyllis Becker and Robert Visnyak are the police officers.

Pupils have decorated the windows of the school with baskets of fruits and vegetables. The boards are decorated with cats, pumpkins and ears. The students have also started a collection of seeds and insects and are displaying them on their bulletin boards.

Three new pupils are now enrolled in the school; they are Donald, Lillian and Rannie Neely.

Joyce Belco, Carol Lamp, Mary Modus and Rannie Neely are the beginners.

Miss Ashley, the librarian supplies the students with library books. Miss Fisher, who has just returned from Germany, paid the school a visit and spoke to the students about conditions in that country.

In the absence of Pres. Doren, Com. Ely was appointed to fill the chair.

Representative from R. H. McManus & Co., of Detroit, Mich., presented bid on the sewer job from Fairbrook Ave., to Wayne County interceptor across the Leo Lawrence property. Bid was not accepted by Village Commission, as it was decided to re-advertise for bids specifying 18" crock, as well as for work to be done during winter months while ground is frozen, because of swampy condition of soil through which sewer must pass.

Mr. Hilbert, Engineer, representing the State and Wayne Co. Health Dept. informed the Village Commission that he had been instructed to take action in regard to trailer coaches being parked in the vicinity of the Fair Grounds during race meet, as this was in direct violation of the Allen & Locke Motors.

That they did not wish to change their trailer ordinance, J. Dutton, Chair, and that steps taken by the Fire Department would meet with their approval.

Mixed by Lewis, supplied by Stevens, that Clerk contact the Wayne County Health Commission, also the State Health Dept., to find out just what their requirements are regarding the installation sanitary fixtures and upon getting the necessary information, that an advertisement be prepared to appear in the Michigan Contractor & Builder for bids on installation of the proposed sewer to be opened Dec. 15, 1947 at 8:00 p.m. in Custer.

Communication was received from Mrs. Dan N. Laddity and family, thanking the Village Commission for flowers received at the time of their bereavement.

Following was the report of the Village Treasurer for the month of August, 1947.

Church, Detroit, will be the speaker at a Reunion Service of all confirmed at St. Paul's and former members. Rev. Schnute is a son of the congregation.

The cornerstone-laying service of the Church took place on July 17, 1897. Under struggling and pioneering conditions the growth of St. Paul's Church in early years was not rapid. In recent years the structure has not been large enough to meet the needs of the rapidly expanding community. Plans for a new building unit have been under consideration for some time. An additional acre of property was recently purchased by the congregation affording ample space for parking, recreation and future building expansion.

The pastors of St. Paul's Church have for many years also served Maybury and Eastlawn Sanatoriums and the present pastor recently received permission from his congregation to accept the appointment to the Protestant Chaplaincy of the Detroit House of Correction. Rev. Otto Turk, for many years the faithful and efficient Protestant Chaplain at the latter institution will also continue to serve there. Movies are being made of the entire Anniversary celebration. Henry Schnute has served as General Chairman.
