Service Clubs Banquet Tuesday

Tuesday evening, October 22nd, Dr. Frank D. Slutz, of Dayton, Ohio, will address the joint banquet of the Northville Exchange and Rotary Clubs at a ladies' night function. The event will be held in the Presbyterian Church House and will be in the nature of a reception and complimentary dinner for members of the teaching staff of the Northville Public Schools. The guests will gather at the church house at 6:45 for a brief reception and assignment of place cards. Dinner will be served at 7:15. Following the dinner, a short program will be climaxed by the address of Dr. Slutz, who will speak on the subject "Credits and Debts in Education."

Dr. Slutz holds degrees from Mt. Union College, Harvard, and the University of Denver. He was engaged for many years in the educational field as principal and superintendent of schools and was advisor to the Chicago Teachers College. Since 1932 he has been devoting his time almost exclusively to counseling and guidance work in many of the high schools of the nation. He is recognized as an educational leader of national repute.

Do You Remember This Milk Condensery?

The Clover Condensery building was located in Northville on a site on West Seven Mile Road, on a site near Orchard Drive, known in those days as the Fishery Road. This is the spot where the Village now proposes to make a test well for the purpose of supplementing the local water supply.

Appearing in this photograph are, front row: Letha Coldren, Bessie Gailbraith, middle row: Jessie Roe, Fannie Coldren, Maggie Blackburn, Mrs. Jackson, Lou Evans Boyer, Ernie Lyke, Gordon Lyke, Frank Harmon, Jr., Bert Hill; back row: Ernie Willis, Carl Murdock, Tod Lockwood, Mr. Brockell.

This interesting picture of oldtime Northville was loaned to the Northville Record by Miss Jessie Roe of West Cady Street. Referring to the historical booklet loaned by Harry Clark, the Condensery Co. was organized in 1836.

Driver Training Class Underway

Clinton Russell and Robert Menese, instructors in the Northville High School, left Monday for a five day course in driver instruction at Bay City, Michigan. The course is set up for instructors in driver training in the public schools by the Michigan Dept. of Education and the AAA.

With the completion of the course, driver training will begin in our High school with a class of some 17 pupils already enrolled and doing class room work. Very soon the pupils will have actual training with the new four door Ford, donated for the course by Aftan and Locke of our village, and equipped with dual controls. The new car is properly labeled on the rear and on both front doors "Northville High School Driver Training Car." After the classroom work, the student drivers will use the car on a specially prepared area at the Fairgrounds where proper obstacles and marking will simulate traffic conditions. After the restricted area work is completed, the car will be driven in actual traffic under proper supervision.

The new course is a credit course and open to pupils of the high school. It has been suggested that if enough adults in the village are interested in such a course, arrangements might be made for an adult class.

Northville Women Meet for Making of Cancer Pads

Northville people have an opportunity to aid in a needy cause already furthered by the labors of a group of local ladies who donate their time and services to this great public service—that of making cancer pads. The aid which the general public may extend is the donation of used white cotton such as sheets, cases, etc., for the making of the pads. Filler, or cellulose, is furnished by the American Cancer Society.

A group of ten ladies meet once each month at the home of Mrs. Wm. H. Aston, 20176 Haggerty Highway (just east of the village) for the purpose of making these needed supplies for cancer patients. An average of one hundred are made at each session, totaling over 1200 a year. These are available free of charge to any persons in the community in need of such, except private patients or physicians' offices. All not used hereabouts go to the American Cancer Society in Detroit.

This valuable community service began about five years ago when a group of ten ladies gathered at the Aston home for the purpose of making their contribution to the cause by manufacturing the small articles which furnish some comfort and are so vitally needed by the suffering. Membership in the group still remains at ten, for as one moves away or finds it necessary to discontinue the work, a friend or acquaintance steps into the vacancy. Known as "the Northville group" ladies from Northville and Plymouth comprise its membership and are from all religious denominations. The monthly meetings are prefaced by a luncheon and Mrs. Aston acts as chairman of the afternoon sessions which are spent in putting the pads together.

All readers of his story are urged to contribute whatever they can spare of white used cotton. A phone call to Mrs. Aston will bring a car to your door to transport donations to the workrooms.

Fine Program at Methodist Event

A large group attended the Convocation at the Methodist Church Sunday afternoon and evening. The excellent program of the three services was well received and appreciated by those who attended. The solo of Merritt Meaker, "The Holy City," with Mrs. Summers at the organ, and addresses of Dr. Marshall Reed, Drs. Runkel and Holmes brought real messages and inspiration.

Pep Club Sponsors Dance Tonight

One hundred and ninety-seven tickets were sold for the "hard times" dance held in the High school gym following the football game Friday night. As there is no night game this week the Pep Club will sponsor the dance this evening (Friday) beginning at 8:30 o'clock.

A new ruling has been established which denies admittance to these dances to persons in slacks or overalls, except at the hard times dances.

Monday, October 27th, is Navy Day.

Tickets on Sale for 21ers Banquet

A citizenship banquet honoring the 21ers and sponsored by the Northville Coordinating Council, will be presented Thursday evening, November 6th, at the Methodist Church House. Guests of honor will include Northville young people who will reach voting age soon. The dinner will begin promptly at 6:30 p. m.

Tickets will be limited to 200, and all those persons wishing to attend will do well to secure their tickets at an early date.

Dr. Wilbur H. Johnston is the program chairman. Other committees include reception, decoration and publicity.

A prominent speaker will be secured and a toastmaster will preside. Patrons and patronesses for the program will be announced in the next issue of the Northville Record, together with other details of the program.

Injured While Bird Hunting

Don Waterman of Franklin Rd., is resting comfortably in Mt. Carmel Hospital, Detroit, following injuries received Sunday in a hunting accident.

Hunting on the Gibson farm south of town, Don was struck about the face by shot from a gun fired by an unidentified man stationed in a cornfield just across the road. Rushed to a local physician, Don was taken to the Detroit hospital where services of an eye specialist were available. Findings showed that the bullet had glanced off Don's nose and injured the iris of one eye but X-Rays showed no shot in the eyeball. Further findings cannot be made until the eyes clear of blood.

Mr. Waterman is the husband of the former Juanita Miller.

Pupils to Compete in National Contest

Four seniors of the Northville High School have been elected by their classmates to compete with students from other high schools throughout the United States and territories for the 119 Pepsi-Cola four-year college scholarships and more than 550 fifty-dollar college entrance awards offered again this year by the Pepsi-Cola Scholarship Board.

The contestants chosen were: Dorothy Grieger, Patricia Johnston, Edward Lanning and Gene Rutenbar.

If one of the Northville pupils wins such a scholarship, he or she will have full tuition and certain incidental fees paid for four years at any college, accredited academic college in the United States, its territories or Canada. In addition the winner will receive \$25 a month allowance, plus traveling expenses at the rate of three cents a mile.

Five runners-up will be named by the Board for every scholarship to be given and each will receive a college entrance award which carries a grant of \$50 per year.

Mustangs Play Farmington Today

With one third of his first string players out of the game with injuries, Coach Helmer's Mustangs won a moral if not a technical victory over Clarenceville on Ford Field Friday night. The game ended 12 to 12 in favor of Clarenceville, Northville failing to kick either goal.

While one of the opponents' touchdowns came by virtue of a fumble and an official blunder that ruled the ball out of bounds when it never touched the line, losing about 14 yards for the Northville cause.

The Northville High School band came in for most glowing comment on its excellent music and marching. The bleacher fans enjoyed the music before and during the game, and applauded loudly the demonstration on the field between halves.

This week Northville plays Farmington at Farmington at 3:30 p. m.

Vaccination Is Offered Nov. 7th

As an introduction to the school vaccination program against small pox in the Junior and Senior High school, a movie entitled "Working Together For Health" was shown at an assembly program Tuesday afternoon.

Time to Mail Overseas Gifts

Christmas is coming along with its usual speed and those servicemen overseas will miss out on their gifts if residents don't take heed of the advice from the Northville Post Office.

Packages for overseas should be mailed not later than November 15. Those mailed later than November 15 stand the chance of not arriving in time.

Packages destined for delivery in Japan, Korea, and the islands in the Pacific should be mailed as early as possible during the period stated, preferably not later than November 1st in view of distances involved.

It is also suggested that parcels for Navy and Marine Corps personnel, serving in the most remote areas, be mailed at once.

About Christmas Cards

Christmas cards may be sent at any time but if one wants to be sure of a pre-Christmas arrival, he should mail it by the 15th of November.

Parcels should not weigh over 70 lbs. nor be more than 100 inches in length and girth combined. The services provide food and clothing so it is suggested that the public eliminate such articles as gifts. Limiting them to things that are difficult to obtain by the recipient.

Each box should be very strong and tied with heavy string or cord, preferably by four separate pieces, two lengthwise and two crosswise, knotted at crossings. Wrap articles with sufficient cushioning so that contents will be tightly packed to prevent their rattling or loosening.

Northville's Yesterdays

ONE YEAR AGO:

A Halloween party for the youngsters of the community was planned by the Fellowship Class of the Methodist Church for Thursday, October 31.

Hobby classes began in the grade school basement. Classes in plastic, woodwork and leathercraft were offered.

Villagers were notified of the forthcoming bazaar, presented each year by the ladies of the Methodist church.

Farmington christened the new Northville Athletic Field by edging out Northville by the score of 12 to 6.

Dean F. Griswold passed away at the age of 94 years after almost a lifetime residence in this village.

The Presbyterian ladies reported an estimate of well over \$1,000 net profit from their annual harvest festival.

FIVE YEARS AGO:

Mrs. A. M. Lawrence of Meadowbrook Rd. was chosen by the Wayne County headquarters staff of the American Red Cross to edit the monthly publication for Wayne County named "County Chats."

One hundred and sixty registered as voluntary blood donors at the blood bank receiving station established at the Red Cross headquarters at the Legion Hall.

An honor roll of all Northville men and women of the Methodist church who were in service was dedicated at the regular Sunday morning service. The plaque was a gift of Mr. and Mrs. S. Bray.

The S.P.C.A., Society for the Prevention of Cruelty to Animals, a ninth grade English club, elected the following officers: president, Florence McCluskie; vice president, Ann Davis; secretary, Keith Simons; treasurer, Joe Felber; and Paul Hillman, sergeant-at-arms.

TEN YEARS AGO:

Mr. and Mrs. K. H. Babbitt, Mrs. O. F. Reng and Mrs. Frank Hawkins spent Sunday in Detroit.

Mrs. Henry Wick entertained in honor of the eleventh birthday anniversary of her daughter, Maxine.

Mr. and Mrs. Julius Tait of Ridge Road celebrated their golden wedding anniversary.

Mr. and Mrs. Russell Steininger and their daughters, Dorothy and Lois, moved here from Wayne.

FIFTEEN YEARS AGO:

The Rotary Club had the honor of having in its membership the 230th man in all Rotary Clubs in the world to make a hole in one. He was Arthur R. Marz, local Ford dealer.

Mr. and Mrs. Orlo G. Owen had as their guests, Mr. and Mrs. Carl Andrews of Detroit and Mr. and Mrs. Kenneth Matheson of Plymouth.

Mr. and Mrs. Harry Wagenschutz and Mr. and Mrs. Harry Blum spent two weeks at the Blum cottage at Walled Lake.

Mrs. Ruby W. of Ypsilanti and Mr. Lucy Brooks of Manhattan, Kansas, a former Northville resident, spent Sunday in the H. A. Boyden home.

Mr. and Mrs. E. L. Miller spent the week end in Rosedale Park at the home of their son, W. L. Miller.

THIRTY YEARS AGO:

HE'S JUST ANOTHER GUY

By H. Hartley

To go on with this comparison of village and city:

If a stranger is pointed out to you as being president of such and such a club, a city official, etc. you may ask what sort of person he is and often you receive the answer: "He's just another guy." This answer is meant as highest praise. And it is.

I think this expression applies particularly well to active leaders in Northville and I will tell you why I think so. But first, take a look at Detroit: How many there have ever SEEN their mayor? How many know even ONE city official or public leader? Very few, for there is an unfortunate and vast gulf between the city's officials and the every day run of people whom they were elected to serve.

In Detroit, city officials and leaders are probably living in some exclusive, expensive and almost inaccessible quarter of town. Were you to dare to visit there a gardener or servant would probably tell you the official you intended to visit was not in. But in Northville... There is the minister painting his porch or mowing his lawn. That FARMER plowing that corner field? Why that's the principal of the grade school doing some extra work. And be careful, stranger, when you inquire of the mechanic who puts gas in your car: "Say, where's the town hall and where can I find the mayor of this burg?" He's liable to turn his rugged features toward you and reply "That's me."

Not is this pleasant closeness of voter and official, this open evidence of the dignity of labor, this democratic spirit confined to one phase only. Even more significant is the participation of factory workers and counter clerks in village leadership as promoters of the Village Board, of the School Board and of the numerous cultural and educational societies of the town. While in large cities the selection of such leadership is commonly made from the ranks of professional and business elements, in Northville you are asked, not "Who are you?" and "How much have you got?" but: "Are you willing to help?" and "What can you do best?" And then you too fortunately, become "just another guy."

Another "First" In Northville Registered Deposit Receipts for Checking Deposits

Beginning October 21st, our Checking Account Customers will receive machine-registered receipts for their deposits. Deposit slips will be made out by the customer as heretofore, but

Checking Account Passbooks Will Not Be Needed

Instead of a pen and ink entry in your passbook the teller will issue a printed receipt which is clearly legible, and which is an exact transcript of the bank's record. Duplicate receipts will be furnished automatically, upon request.

In addition to faster service and increased protection, this new system assures greater privacy. The old-fashioned pass-book told all the customer's business to anyone who happened to see it. The machine registered receipt records only the amount of a single deposit. If a messenger is sent to the bank with a deposit, the new arrangement is most advantageous.

Tellers' Machines reflect our desire to show our depositors that we appreciate their patronage by giving them the advantage of every new improvement in banking service.

TWO THINGS TO REMEMBER

FIRST: Fire never asks if property is insured or not. SECOND: Neither does fire ask if the insurance is adequate to cover the loss. In these days of greatly increased property values your fire insurance policy demands immediate attention, to be sure the amount will cover the replacement cost. *Increases since 1939, from Department of Labor Index for moderate income families in large cities, and from National Housing Agency.

...our costs have gone up, too!

SOME PEOPLE get along under higher prices by using less or doing without. Some have more income to help meet higher costs. All can adjust outgo to income, to a large extent.

But a railroad cannot skip or do without and still provide good, efficient and safe service - adequate to the needs and desires of the public.

The chart at left shows why the Eastern Railroads have had to ask for an increase in freight rates. The simple reason is that the increases allowed since 1939 are nowhere near enough to meet today's costs. The re-

venue the railroads get for hauling the average ton of freight is only 15% more, whereas the cost of operating the railroads has increased more than 65% in that period.

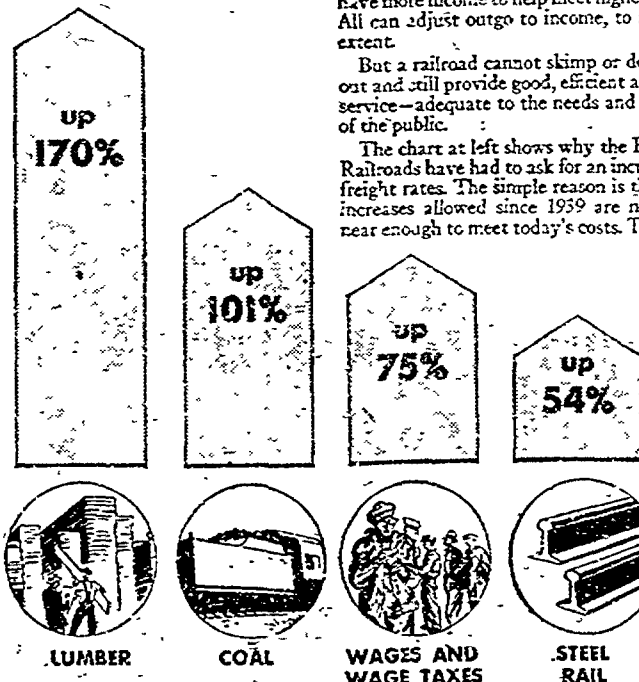

Only recently, for instance, an arbitration board added another \$468,000,000 to our annual bill for wages and wage taxes, of which \$187,000,000 is borne by the Eastern Railroads. This brings the increase in these items alone to more than 75% since 1939.

All the railroads ask is what the law says they should be allowed to have. That means just and reasonable rates. The law says there is need in the public interest for adequate and efficient railway transportation service at the lowest cost consistent with furnishing such service.

In other words, all the railroads ask is sufficient revenue to enable them, under honest, economical and efficient management, to provide the kind of service people want.

Some examples of increased costs since 1939, affecting railroad operation

Increased freight rates since 1939 have increased the revenue from hauling the average ton of freight one mile only 15%

Funeral services took place at the Schrader Funeral Home in Plymouth Monday afternoon with Rev. Henry Walsh officiating. Burial was made in Clarendonville.
His wife survives, together with a son, Arnold and a daughter, Dorothy, both of Detroit and a sister, Mrs. Mary Zinck of Mt. Vernon, Ohio.

Kaiser-Frazer Corp. Produces 16,535 Cars for Monthly High

Steadily climbing toward its goal of 1500 to 2000 cars a day, Kaiser-Frazer Corp. produced 16,535 automobiles in September and highlighted the month by shipping its 100,000th automobile.
The 16,535 September record, according to Edgar F. Kaiser, vice president and general manager, is a 28 per cent increase over August's total of 12,874. The October schedule is set at 18,000 units.
K-F's production for the year now totals 91,825. This places the Willow Run firm ahead of all other independents and several divisions of the "Big Three" in passenger car production for the first three quarters of 1947.
In a recent talk with employees, Henry J. Kaiser, board chairman, said that 1947 is just a stepping stone to manufacturing laurels for 1948. "Willow Run within the coming year will be producing from 1500 to 2000 cars a day, and following that, assembly plants will spring up here and there throughout the United States," he said.
"The opportunity is unlimited. We are still in our infancy. Our goal is to build a business that will never know completion, and in the building of that business, to understand that it is only as strong as the faith and confidence of its people."
"As the years roll by and the cars roll out, the bond between us will grow stronger, and because of that bond, no organization will top us."
An additional forward step was taken by K-F during September when the company introduced the Kaiser Custom, bringing its present line to four automobiles—the Kaiser, Frazer, Kaiser Custom and Frazer Manhattan.

It pays to share the line

There still aren't enough telephone facilities to go around. Until there are, party lines will help give service to more people. That service can be satisfactory to all if everyone shares the line considerably.
Good party-line neighbors keep calls short... stay off the line when others are using it... always carefully replace the receiver when they're through talking.

Egg prices reach their yearly peak in late fall and early winter. You'll profit from this upswing of prices when you use hen-house lighting to lengthen the working day of early-hatched pullets.

to get the birds off the roosts and keep them off—at least 15 minutes of dim light at night so that the birds can roost before "lights out." Whether you prefer manual switches or automatic clock controls doesn't matter ... the important thing is to look to your lighting—to make sure your poultry is giving top production.

It's easy to have efficient hen-house lighting. Provide about 14 hours of light daily—enough in the morning

40-watt lamps, fitted with shades and hung six feet from the floor, are usually best. Use one watt per five square feet of floor space. A hen-house 20 x 40 feet, for instance, should have four 40-watt bulbs. For further assistance, see your Edison Farm Service Advisor.

National Apple Week Oct. 25 to Nov. 1

Michigan's share in National Apple Week, October 25 to November 1, will be to help supply the nation with a large quantity of high quality apples.

Michigan State college horticulturists say that through improved practices the quality and size of Michigan apples is improving each year. While weather conditions often make the crop vary from year to year, the general trend is toward a higher quality product.

Michigan producers, through the Michigan Apple Commission, are endeavoring to make large quantities of this Michigan product available during the traditional apple week and for many weeks to follow.

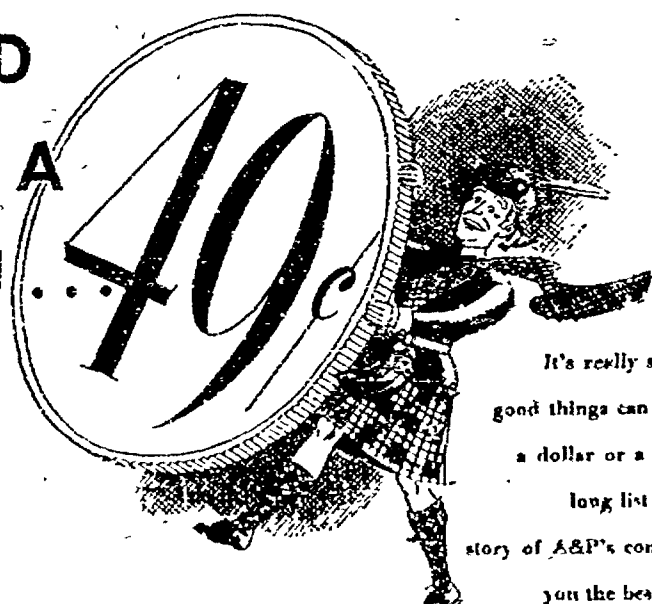

Mr. and Mrs. Otis Tewksbury of Grandview, expect to start Sunday for the west, going first to Idaho to visit their son and his family.
