

1200 Visit Two Day Hobby Show Held In Local High School Gym

A conservative estimate of 1200 people was placed upon the numbers that visited the second annual Northville Community Hobby Show Thursday night and Friday morning.

Wednesday night over sixty newcomers registered and were assigned host and hostess couples for the evening under the supervision of Messrs. Ward Masters and John Boyce. The crowd was treated to an excellent show of mystery and magic by Roy Rew in the assembly room of the school. Ed Wood, Ted Krause and Tom Krause presented an outstanding display of father and son casting team work. They showed proper fly and bait casting and a sample of tournament work. Ed Wood demonstrated trick casting, bow shots, etc. firing a cigarette from the mouth of his partner and showing ways of overcoming obstacles in the stream.

Upstairs Mr. Tinker showed several Conservation sound color films to a large audience that lingered until after eleven o'clock to see Wild Wings, Michigan Red Fox, Michigan Porcupine, Mountaintop State Park, Michigan Canoe Trails, and Timber Harvest.

Thursday evening in spite of cold weather, a crowd of people flocked to see the school program and the old time pictures. Young and old found plenty to talk about before the large display stands where pictures of Northville's yesterday were exhibited. Fred Fry, Ed Yerkes and Tom Carrington found a lot of pictures of interest to every one.

Mr. and Mrs. Bert Stark received the box of roses and wedding cake, being married 33 years, the longest time of anyone present. Mr. Stark has lived in the village or township 63 years and took the men's prize for having lived here the longest period. Northville Safety Patrol Boys

Fete Northville Safety Patrol

An overflow crowd heard Ernest P. Davis, Safety and Traffic Director for the State of Michigan, compliment the work of the Northville Safety Patrol, Thursday, January 22nd at the Safety Patrol Banquet. Mr. Davis came to Northville eleven years ago to help Mr. Amerman organize the town's first patrol. The record established by the Safety Patrol boys since then has been excellent as is apparent by the smaller number of accidents. The Drivers' Training Course, latest safety wrinkle in driver education, will be a big factor in promoting safety on the highways. Immediate results are expected to be evident from the work of the 102 sponsored schools for children and adults now in operation in Michigan, of which Northville is one.

Another important safety aspect which must not be overlooked in the education of children's accidents is adequate playground facilities. This cannot be stressed too highly because it is an essential part of good safety program.

Mr. Davis, in safety work for over 20 years and who was present at the Detroit organization of the first safety patrol in the United States, said the dance recognizing the boys patrol activities was an excellent means of expressing appreciation for the work and hoped it would become an annual affair so that it might serve as an example for other towns and to keep the public aware of the community safety services rendered.

The annual Past Commanders Dinner of the Lloyd H. Green Post, No. 147 American Legion will be held at the Veterans' Memorial Hall Tuesday evening, February 3rd.

Mustangs Beat Walled Lake Five

The Northville Mustangs gained a last minute victory over the Walled Lake Vikings last Friday night in a thrilling game at Walled Lake. The final score was 35-34.

The Walled Lake team recovered the ball at the tip-off and dropped in the first two points. Then lead, however, was soon topped by the Mustangs who took the lead as soon as they found the range of the basket. Play was fast and exciting with lots of interception. The Mustangs outscored the Vikings during both quarters of the first half. The scoreboard read 10 to 4 at the first quarter and 19 to 8 at the half.

As play was resumed after the half Walled Lake began picking up and steadily gained on the lead five. As the third quarter ended the score was N.H.S. 27- W.L.H.S. 21. With three minutes to go it was anybody's game with the score all tied up.

With time running out a Northville player committed a foul and the Vikings went into the lead, converting the free throw. With less than a minute to go a jump ball took place near the Walled Lake end of the gym which Dave Pottinger who was hurt earlier in the game, recovered, and sank a long shot which won the game for Northville.

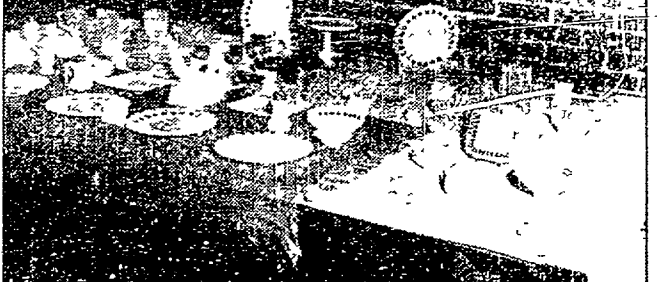

Pottinger led the scoring with fourteen points, and Pierce was a close second with twelve other players on the lineup included German, Gray, Stalker and Campbell.

The reserve team could not seem to find the basket as they were defeated 45-20 in the preliminary game.

Tonight the Mustangs will seek revenge for a defeat earlier in the season when the Farmington Falcons came to the local gym for a return match. Farmington has won three out of four league games this season, losing to Walled Lake by one point. The preliminary game will get underway at 7 o'clock.

Farmington holds first place in the Inter-Lakes Conference League standings with Northville, Walled Lake and Keego Harbor all tied for second place and Milford at the bottom of the list.

\$10,000 Blaze Razes Milk House

A defective chimney caused the fire at the Detroit House of Correction last Friday morning, completely destroying the institution's creamery, a farm building containing refrigeration and pasteurizing equipment. Only the wall remained. Damages are estimated at between \$5,000 and \$10,000. An inmate on night duty at the milk house turned in the alarm and over thirty inmates, with the aid of their own fire department, cooperated in keeping down the fire until the Northville, Plymouth and Detroit fire departments arrived. A Blake Gillies, superintendent, said, "Except for the excellent cooperation of the inmates in fighting the fire and the prompt response of the fire departments, the barns including a herd of thoroughbred Holstein cattle, might well have been destroyed and damages could have exceeded \$150,000. We are indeed fortunate in our neighbors, Northville and Plymouth. Every time it has been necessary for us to call them their response has been fast and their help efficient."

There were several cases of frost bite among the inmates, who worked in temperatures 8 below zero. They were treated at the institution's hospital.

Plant Visited By Exchangites

Seventy-five Northville Exchangites and their friends were guests of the Kaiser-Frazer Corp. for luncheon and a tour of the Willow Run Plant Wednesday. The trip was arranged through the courtesy of Ward Masters, president of the club and local dealer. The company picked up the local men at noon, took them to the plant, treated them to luncheon, and took them through the plant and returned the group to Northville.

At the luncheon Air M. G. Vanderwende told of the early struggles of the new company, its history and the production and facts about the plant today. Guests were Chas. Schultze, R. H. Amerman, Stanley Pictor, Roy Stone, Cy Fied, Preston Fuller, Chas. Carrington, Al Healey, Dick Allan, M. Best, M. J. Willgen, Wm. and Roy Elliott, Wm. Pez, Walter Stobbe, Ted Masters, Bud Cansfield, Art Ross, Mac Pierce, Ronald Getts, Don Bryant, Bruce Wendland, Wayne Westerfield, and Jack Stovall.

Next week the club will hold its regular monthly business meeting. On Monday night the Board of Control will meet.

The Plymouth V. F. W. Auxiliary, Mayflower Post 6695, are sponsoring an afternoon tea and card party at Veterans' Memorial Center in Plymouth on February 23th. All proceeds will go to the Cancer Relief Fund. Tickets may be obtained from any Plymouth Auxiliary member.

Fires Damage Two Local Homes

An estimate of damages between \$1,500 and \$2,000 was placed on the fire at the old Lush home at 44211 Six Mile Road between Sheldon and Northville Roads early Tuesday morning. There were 3 or 4 families occupying the dwelling at the time of the fire. The blaze started in the kitchen where an oil stove apparently caught on fire, completely ruining the kitchen and going up through an upstairs bedroom and through the attic-roof. The fire, which was well under way, was quickly extinguished upon the arrival of the Northville Fire Department.

An overheated stove caused the fire that completely destroyed the Norbert Runk home on Meadowbrook Road near Nine Mile Road, Friday morning, January 23. The family of six, the parents, two boys, a daughter and her baby, are now living in three rooms of the Rattenbury Farm. Friends and neighbors have been more than kind in supplying clothes and bedding for the family. If anyone having used furniture to donate will call 301 arrangements will be made for collection. No damage estimates are available at this time.

Fine Response to March of Dimes

In cooperation with Harry Lush and Sam Stremich, collections were held Sunday and Monday, January 25th and 26th at the local theatre. Mothers' Club had complete charge of the Sunday night collections and volunteer assistants, Mrs. George Zerbel, Mrs. Harper Bestien, Mrs. Sam Geraci and Mrs. Harry Wagenschutz handled the Monday night collections.

Nelson C. Schrader, Jr., March of Dimes chairman, reports that community support of the campaign has been excellent. The campaign lasts through tomorrow January 31, and any last minute contributions should be sent to Nelson C. Schrader, Jr., Northville, Michigan.

I have been a subscriber to the Record for more than 20 years. In the fall of 1897, I began to write the Novi News for the paper under the ownership of F. S. Neal.

There have been many changes in the community and its personnel, but I wish to keep in touch with the locality in which I spent my girlhood.

Dear Bill:

We have had a few callers from Northville Dick Bartholmew was our guest for Christmas dinner and last week Mr. and Mrs. Ray Casterline stopped to see us and we had a grand visit. Hoping this finds our family in good health.

Sincerely,
Sally and Dick Hammermeister.

We have enjoyed the pictures of the landmarks so much and hope you continue printing them. It is a really nice change, made in the years. I am now reading about the children and grandchildren of the boys and girls I had in my classes. It makes me all the first day I was in the 7th grade to teach music. I could not believe it and was suddenly surprised to receive a "hitball" on the end of my nose. It couldn't do anything but laugh and it brought an apology "I didn't mean it for you, Miss Cole, really I didn't." Attention was very good for the rest of the period.

VETERAN NEWS

From the OFFICE OF VETERANS' AFFAIRS LANSING

The time in which partially disabled combat wounded veterans of the Army of Air Force may enlist has been extended indefinitely by each Department.

The Army and Air Force also have opened enlistments to partially disabled combat wounded World War I veterans of the Navy, Marine Corps, or Coast Guard, such enlistments previously having been reserved for Army and Air Force personnel.

Eligibles must possess, or be trainable, in certain critically needed skills, and meet certain physical requirements to be enlisted in grade held at time of discharge if service was in the Army, Marines, or Coast Guard. Partially disabled combat wounded whose last period of active service in any branch of the Armed Forces was in status of a commissioned officer, warrant officer, or flight officer, may be enlisted in Grade One, provided enlistment is accomplished on or before June 30, 1946.

Disability compensation or Purple Heart awards are not necessarily a prerequisite for enlistment in the Regular Army or Air Force under the new order (WD Pamphlet 12-16). The individual must be a "battle casualty," defined as a person who suffered wound (s) or injury during combat as result of enemy action.

We're catching up with telephone orders in NORTHVILLE

Although the demand for telephone service has never let up, the number of people on our waiting list is getting smaller. This is because we have received—and built into the telephone system—enough new facilities to take care of some of the folks who have been waiting.

Still more wire and cable are needed before we can take care of everyone. However, as fast as Bell System factories can manufacture and deliver them, and as fast as we can install them, we'll put the additional facilities to good use.

We'll keep at this job until everyone has the telephone and the kind of service he wants.

Presenting the new 1948

PONTIAC

A FINE CAR MADE EVEN FINER!

GM Hydra-Matic Drive optional on all models!

Today, Pontiac announces a series of notable advancements in the car that has already won the wholehearted endorsement of more than a million owners and friends. Foremost among these advancements is the great General Motors Hydra-Matic Drive—now offered as optional equipment on all Pontiac cars. Pontiac is the lowest priced

car in the world to provide this great mechanical masterpiece—which shifts gears automatically, and completely eliminates the clutch pedal.

Coupled with this great engineering triumph is a striking improvement in beauty and luxury. New exterior smartness extends from the new radiator grille to the streamlined rear bumper.

Interiors, too, are remarkably improved. Upholsteries are more beautiful and are expertly blended to achieve new attractiveness and charm. Instrument panels are finished in a smart design adapted from quarter-sawn mahogany—and an adroit use of chrome moulding adds a deft touch of modernity.

Engine and chassis have been refined wherever possible—but they remain, basically, the same engineering master-

pieces which have become synonymous in the automotive industry with goodness and dependability.

There are many more things we could tell you about the new Pontiac, for there are countless improvements which add to its traditional quality and value. But we feel that, for those who know Pontiac, we need only say—

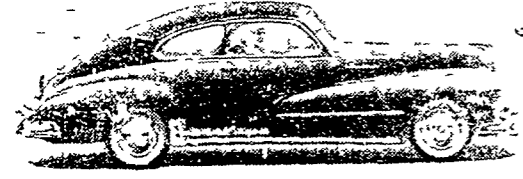

—here is, by far, the most beautiful Pontiac ever built

—here is the most luxurious Pontiac ever built

—here is the most dependable Pontiac ever built

—and it is now available with General Motors Hydra-Matic Drive—optional at additional cost.

We wish only to say that it is here—on display in our show room—and that you are most cordially invited to see and inspect it.

Dondero to Aid Co-operatives

Congressman Dondero of the 17th district, assured Harold Albertson of Oxford and James N. Erwin of Novi, when they visited him in Washington January 19th, of his support of Farm Co-operatives, and against any discrimination against them that would destroy them. The two representatives of the farm co-operatives of the district in meeting, Congressman Dondero pointed out that there are 2300 farmers who are members of farm co-operatives in the Seventeenth Congressional District. Mr. Albertson said that because of economic conditions troubling the farmers of the district they organized associations to solve these difficulties. Mr. Erwin used the Wixom Cooperative as an example of the reasons why co-operatives have become such an important 'tool' of the modern farmers of the area. The Wixom Cooperative was organized in 1916 to take care of an unstable marketing condition and the indifference of the existing suppliers to the farmers' needs. It has benefited farmers of the community in assuring quality supplies at fair prices and giving them the opportunity of making savings on their purchases which cuts their costs of production. The farm delegation was pleased that the Michigan members of the House and Senate assured them that they would not support any legislation not to the best interests of the nation's farmers. The farmers expressed considerable concern over the introduction of any discriminatory tax legislation aimed at farm organizations.

The Methodist Church Service Guild will have their regular meeting Tuesday, Feb. 3rd at the home of Mrs. Russell Clarke at 729 Fairbrook. There will be a special speaker and all members and friends are invited to attend.

The troop committee of seven year old Brownies met at the home of the Brownie leader, Mrs. Stewart Robinson on Grace Ave. Future plans for the troop were discussed. Attending members of the committee were Mrs. Russell Clarke, Mrs. R. D. Merriam, Mrs. Robert Coolman and Mrs. Harold Seely of Farmington.

FETED ON BIRTHDAY Betty Monger of Eleven Mile Road, Novi, was feted with several events to celebrate her 18th birthday.

Wednesday evening of last week Dorothy Hunt and cousin, Ralph Hunt took Betty to the Fox theatre in Detroit on a theatre party Thursday noon, the girls in the office of Henry Bashian & Sons on Grand River, where Betty is employed, gave her a luncheon and gifts. Thursday night her aunt, Mrs. Cora McDonald of Northville, took Betty and her grandmother, Mrs. James Lambert of Eleven Mile Road out to dinner at Black's White House on Grand River.

An excited little girl burst into the Record Office Wednesday saying, "the man sent me here to get a pop-corn ticket." "A what" we asked? "A pop-corn ticket." My brother got one and he's going to win something. I think and I want the thing too. After due consideration we were rewarded with the solution. Our miss wanted a copy of the Legion Auxiliary - Cornzappopin, program which gave tickets to children reporting all errors correctly. Hope you win blonde!

Uncle Sam Says

What would you do if you learned that the worker next to you at the office or in the plant was taking home extra pay every payday and you could do the same? Your Uncle Sam needs only one guess. Well, the Payroll Savings Plan for Savings Bonds actually provides extra pay because it accumulates Savings Bonds for you which pay off at the rate of \$4 for every \$3 in 10 years. All you have to do is to authorize your employer to hold back a stipulated amount which he will hand back to you in a better form of money—money which earns interest—U. S. Savings Bonds. Savings Bonds are extra pay. For example, if you take part of your pay in Savings Bonds at the rate of \$3.75 per week, the Bonds become \$2,163.45 in 10 years.

On Capitol Hill

Flood Control - Clinton River and Red Run: Congressman George A. Dondero on January 20th introduced a bill authorizing the modification and expansion of the Flood Control project for the Clinton River, Michigan, to include improvements for flood control protection on Red Run, a tributary of the Clinton River. This should be of particular interest to residents of Oakland and Macomb counties. Introduction of the bill followed close on a favorable report by the District and Division Engineers of the Corps of Army Engineers.
The report estimates that the cost of this item for the United States will be \$1,109,500. Recommendations provide that (1) local interests furnish without cost all lands, easements, and right-of-way necessary for construction of the project; estimated cost, \$183,000; (2) bear the expense of all necessary new highway bridges and changes in highway bridges, other than underpinning of footings; estimated cost, \$295,000; (3) bear expense of all new storm and sanitary sewers and changes in existing sewer facilities; estimated cost of sewers now under construction included, \$2,920,000.

WWJ Radio Broadcasts: Congressman Dondero, Coffin, and Youngblood (R-Mich.) will appear every other Monday evening on radio station WWJ on the Michigan Congressmen Report broadcast at 7:30. On alternate Monday evenings Congressmen Durigell, Lesinski, and Sadowski (D-Mich.) will be heard. These broadcasts will cover legislative items of greatest interest to the radio listeners throughout the present session of Congress. The first broadcast was on the Marshall Plan, and this week the President's message on the Budget was discussed.

Progress in Housing: During 1947, 435,000 houses were finished, according to the National Association of Real Estate Boards. During December something like 62,000 more houses were started. This record in building is unheard of and is the largest number ever started in December in our history. December, January, and February are usually a low season for starting homes because of weather conditions.

Conventions: Washington has often been called the "City of Conventions," which was borne out the week of January 19th by a number of groups, well represented by Michigan organizations. Farm Co-operatives, On January 17 and 20 the Michigan farm people were represented in Washington by two of our farmers from local co-operatives and the County Farm Bureaus of each Congressional District of Michigan. McHarold Altington, Manager of the Oxford Co-operative Elevator, and Mr. John Levin of Farmington, representing the Highland Producers Association.

Polio Victims Need March of Dimes

The past 10 years were the most critical period in the history of infantile paralysis in America, with 112,000 cases of the disease recorded in that time.

But with the help of the American people, contributing their money through the annual March of Dimes, the most crucial phase of the battle against polio is coming to an end. This year the March of Dimes, being conducted from January 15 to 30, marks the 10th anniversary of the National Foundation for Infantile Paralysis and may be a turning point, also, in the long, bitter struggle to make the nation's children safe from the disease.

During the past decade the National Foundation for Infantile Paralysis, supported entirely by voluntary contributions, to the March of Dimes, has worked doggedly at its job. Despite the tremendous load of 112,000 cases and despite wartime restrictions, the foundation and its chapters assumed the burden of providing care and treatment for an estimated 88,000 polio victims. At the same time it was expanding facilities and developing new methods that guarantee immediate help when polio strikes.

Since 1938, when the late Franklin D. Roosevelt founded the organization, funds raised through the March of Dimes have financed research and education projects in 23 institutions in 22 states. Its basic aim is to find a preventive cure for polio to eliminate it as a threat to America's children. To that purpose more than 13 million dollars have been allocated for research and education in the 10-year history of the foundation. This year a total of 30 million dollars is needed to meet obligations resulting from the increase of polio cases in the last five years.

THE MAN WHO DIDN'T NEED ELECTRICITY

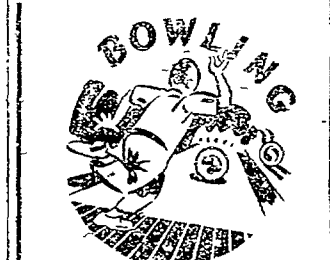

Life with Father was smooth, tranquil and unruffled . . . so long as Mother kept the hired help on their toes; saw that no slip-up disturbed his ease!

Today, electricity's the hired help—electricity which does the work faster . . . easier . . . and more reliably, too.

But just picture doing all the tedious household tasks the old-fashioned way, and electricity will seem even a bigger bargain!

The other day we received an urgent invitation from the United States Treasury department. A conference was to be held in Chicago. Newspapers were being called upon for a resumption of war-time patriotic service. The stakes were high: Survival of the American system of free enterprise itself.

What was it all about? Well, here's the story.

The cost of modern war is tremendous - It skyrocketed our national debt to 279 billions at the close of World War II. Today, it is 287 billions. The interest load alone is 3 billions each year, \$9,600 every minute of the day and night, every day in the year.

"American security is YOUR security!"

That's the theme of a sure way to beat-inflation. It's also the best protection known against a severe shock of deflation.

There's More Profit in Selling Milk than in feeding it to calves

Now you can cash in on big milk savings and boost your milk profits by selling more milk. Market many more pounds of whole milk and still have healthy, sturdy calves by feeding them SECURITY CALF FOOD.

SECURITY substitutes as nourishment for precious pounds of money-making whole milk, and at the same time provides a vitamin and mineral rich balanced diet. Extra vitamins in SECURITY CALF FOOD gives your calves a head start in the early critical weeks and develops them into good producers.

How the Groundhog Feels About It

Rising price of foodstuffs, clothing - has prompted many bond-holders - those families in the low income earning group - to turn in their bonds for cash.

During the war these families couldn't buy radios, washing machines and other things for their homes. Credit was restricted by government. You couldn't buy diamond rings on credit. You had to pay cash.

And so Americans bought war bonds and, after the war, saving bonds. We waited until the post-war day when the bright new merchandise would be available. And if you have been in department stores recently you will agree that we Americans have been spending our money pretty freely. Christmas sales were the highest yet and retail inventories are fairly low.

And yet, despite our rush to buy goods, we - the American people - hold a nestegg of 46 billion dollars in Uncle Sam's bonds. That's a lot of money. It is the best bulwark available to cushion us against the shock of depression.

And so the Treasury Department, in cooperation with retailers and industrial leaders and farmers, is going to ask us to return to war-time saving as a way to check the inflation. Instead of buying things we could get along without, we are asked to invest in Security Bonds of the United States government! Yes, that's the new name for them.

The Security bond campaign is to open February 15 in Michigan. It will close June 15.

A recent public opinion survey disclosed that 19 per cent of industrial workers were dissatisfied with the American free enterprise system, and another 22 percent were "on the fence", neither favoring nor unfavorable.

This minority could become a majority if the nation were to be plunged into a long depression. Dictators thrive when people are willing to trade freedom for food.

How can the effects of the business cycle be cushioned? First by saving money for the post-war day. That's why the new Security bond is your security!

GOING TO THE SHRINE CIRCUS

By Carolyn Burkman, 4th grader

Tuesday Mr. and Mrs. Charles Ely invited Mrs. Knazovich's 4th Grade to the Shrine Circus. We rode on the bus. Mr. Biddle was the driver. Mr. Elson, Mrs. Knazovich, Mrs. Ely and Mrs. Matzen kept charge of the children. We were so excited, it's a wonder that the bus didn't get in a ditch.

We finally reached the circus. We had to wait an hour before it started. We almost ran the candy man out of things to sell before it even started.

Then finally the elephants marched around the ring. A clown came around the ring, we yelled at him and he came up. He came up to Mrs. Matzen and said "Why Woman" the part I liked best was when the lady played jump rope with a little dog. In one of the acts a pony got out of the ring. We all bought souvenirs. Then we rode home on the bus again.

3 Unions Block Labor Peace—Refuse Wage Boost Already Accepted by 19 Other Railroad Unions!

Who's jamming a wrench in the gears?

What Now?

The Unions having refused to arbitrate, the Railway Labor Act provides for the appointment of a fact-finding board by the President.

The railroads feel it is due shippers, passengers, employees, stockholders, and the general public to know that throughout these negotiations and in mediation, they have not only exerted every effort to reach a fair and reasonable settlement, but they have also met every requirement of the Railway Labor Act respecting the negotiation, mediation, and arbitration of labor disputes.

It seems unthinkable that these three unions, representing less than 10 per cent of railroad employees, and those among the highest paid, can successfully maintain the threat of a paralyzing strike against the interest of the entire country—and against 90 per cent of their fellow employees.

The threat of a strike cannot justify granting more favorable conditions to 125,000 employees than have already been put in effect for 1,175,000, nor will it alter the opposition of the railroads to unwarranted wage increases or to changes in working rules which are not justified.

A glance at the box shows what employees represented by the Engineers and Firemen make. They are among the highest paid in the ranks of labor in the United States, if not the highest.

Compare these wages with what you make!

Here is a comparison of average annual earnings of engineers and firemen for 1939 (pre-war) and 1947. Also shown is what 1947 earnings would have been if the 15% per hour increase, offered by the railroads and rejected by the union leaders, had been in effect throughout the entire year 1947.	1939 Average Annual Earnings	1947 Average Annual Earnings	1947 Average Annual Earnings if 15% Increase in Effect
