Farmington Takes Thriller Here

The Northville Mustangs suffered defeat at the hands of the Farmington Falcons last Friday night on their home court. The final score was 42-39.

The gym was packed and fans were brought to their feet many times during the game as scores were close and play fast and exciting. The Mustangs' home team in the first half almost as good as played and built up quite a lead during the first few minutes while Farmington just adjusted to the up and down. By the end of the first quarter, however, the Farmington team managed to take the lead.

11-13. During the second quarter Farmington was heavy at the Farmington basket and their lead was extended to 31-20 as the half ended.

Both teams came back after the half and defense was tight as Northville was allowed only five points and Farmington four during the third quarter which ended 35-25. Although the Mustangs got underway the total five did not give up but scored a total of fourteen points compared to eight by the Falcons. However, as the final whistle blew the Farmington team was out in front by three points 42-39.

Pottinger and Stalke lead the scoring for Northville with eleven points each, with Pottinger a close second with ten and Campbell scored seven. German and Gray completed the line-up. The Northville reserve team were defeated by the visiting team 59-27.

Tonight's basketball game between Keego Harbor and Northville on the latter's floor promises to be a thriller. Although defeated by the Presidents when they went to Keego, the Mustangs have shown considerable improvement in recent games and hopes are high for victory tonight. The preliminary game between the reserve teams will get underway at 7 o'clock.

On Tuesday night the local five will journey to Plymouth seeking revenge from the Rocks for the defeat received earlier in the season. As this game always draws a large crowd local fans are advised to leave early enough to be assured a seat.

Mrs. Alice Durfee observed her 85th birthday, Thursday, February 5th at her home on Nine Mile Road.

Editor

Yes, your insertions in the Record of old time Northville faces and buildings, does bring back many happy remembrances. Mrs. Frances Cole Joslin surely can be remembered as one of Northville's best loved school teachers.

We wonder about that Spitball, we can only think of them as big, juicy paper wads. The incident of which Mrs. Joslin reminds us, surely can be remembered by all as being very funny. It did strike her on the nose and "HOW"

We have been unable in our time to discover a school teacher, who would or could smile, if placed in that same position.

Many are the people today, who will remember the incident of which Frances Amy Cole Joslin speaks. Now all of us, think hard.

"Did she smile?"

We are also reminded by Mrs. Frances Cole Joslin's letter, about the cute little "DUST PAN". This incident as well as the above, was very funny. Mrs. Frances Cole Joslin laughed heartily also about this incident, only the culprit did not confess.

May we have more incidents of this nature, to the Editor?

Signed: A former devoted pupil of Mrs. Frances Cole Joslin.

BRIEFLY—THE STORY OF THE BLUE CROSS PLAN

NATIONALLY—In 1929 a group of teachers in Dallas, Texas provided Baylor University Hospital for a small sum each school semester to provide 21 days of hospital care for anyone of them who needed such care. The experiment proved successful. Other hospitals learned about the plan and took similar action. Thus Blue Cross was born.

Meanwhile, the medical profession was investigating methods of providing medical care. Studies were made at home and abroad by the Michigan State Medical Society and from this and other research conducted by the medical profession the present voluntary pre payment medical care plans were developed.

IN MICHIGAN—The start of Blue Cross in Michigan can be traced to a group of doctors, hospitals, and business leaders who formed what is now known as Michigan Hospital Service—Michigan Medical Service. Special legislation was adopted to enable Blue Cross to function as non-profit corporations and in early 1939 the first hospital care certificate was issued. The medical-surgical plan—Michigan Medical Service began active operation several months later. Michigan Medical Service was one of the first professionally sponsored medical pre-payment plans in the United States and is credited with developing many of the practices in this field which today are standards for non-profit pre-payment plans across the nation.

ORGANIZED AND OPERATED BY THE DOCTORS

Blue Cross Medical-Surgical Care Plan (Michigan Medical Service) like the hospital care plan, is operated by those who render the service—the doctors themselves. It was organized and developed by the Michigan State Medical Society to enable the people of this state to budget against the unexpected costs of medical-surgical care.

AND THE HOSPITALS

Blue Cross (Michigan Hospital Service) is operated in the public interest by the voluntary non-profit hospitals of Michigan. It is the only program in Michigan for the pre-payment of hospital care that is approved by the Michigan Hospital Association and the American Hospital Association.

FOR WHOLLY NON-PROFIT OPERATION AND PUBLIC SERVICE

Blue Cross is operated as a public service without profit to anyone. Blue Cross payments to hospitals and doctors for the care of its subscribers have averaged \$36 of each dollar of income, about ten cents is used for operating expenses, the balance is reserved for contingencies. No bonus, dividend, or commission is paid anyone—Blue Cross is truly non-profit.

HOW YOU MAY ENROLL IN BLUE CROSS

If you work where five or more persons are employed your group is eligible for Blue Cross protection. Write today to Michigan Hospital Service, 234 State Street, Detroit 26. Our representative will be happy to call and outline in detail how easy it is for your group to enjoy the benefits of Blue Cross—America's fastest growing pre-payment plan for Hospital, Medical-Surgical Care. If you are self-employed, retired or unable to meet group requirements you may enroll through the Community Enrollment Plan during special enrollment campaigns—watch your local newspapers for campaign dates in your community.

A Report to the People of Michigan from their Doctors' and Hospitals' Own Non-Profit, Voluntary Program for the Pre-payment of Hospital, Medical-Surgical Care.

IN 1939 BLUE CROSS enrolled its first member in Michigan. Since that time the growth of this voluntary, non-profit program for the pre-payment of hospital, medical-surgical care has been spectacular. Today 1,200,000 persons share in this community plan—a cooperative effort between hospitals, doctors of medicine and the public to provide hospital, medical surgical care to everyone without financial strain upon anyone.

Blue Cross is truly a PUBLIC TRUST, which by strict adherence to principles of non-profit operation, has returned to its members more than \$70,000,000 in services for needed hospital, medical-surgical care. From the modest average of \$57,000 per month paid to hospitals and doctors in early 1940, the Blue Cross Plans today are paying one-and-one-half million dollars a month for care rendered to Michigan

subscribers. This record of public service is not approached by any other program of its kind in this State.

In spite of rising hospital costs—Blue Cross has not deviated from its original policy of providing "Service" not cash. Thus, today Blue Cross protection is more valuable than ever before. The financial strength and actuarial soundness of the Blue Cross program is reflected in the Statement of Condition summarized below.

The more than 4200 doctors of medicine who share in the operation of Michigan Medical Service, as developed by the Michigan State Medical Society, and the 144 non-profit hospitals in Michigan, which operate Michigan Hospital Service are proud of this record of accomplishment and submit to the people of this State a report on their Blue Cross stewardship.

Janet Schult is recovering from a case of flu.

Phyllis and Helen Ruth Ault were on the sick list part of last week.

Mrs. John Atkinson has suffered a stroke.

Mrs. Russell Kline of Parkton, Maine, has been spending a week with her mother in Detroit.

Mrs. Cecil Willett, Mayfield avenue, was hostess to a demonstration party last Tuesday. Several ladies of the neighborhood dropped in for the occasion.

There has been much comment regarding the unusually beautiful snowfall observed in the western part of the county.

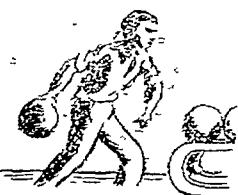

Mrs. Walter Dixon, who was ill for so long, was able to step out this week from her home on Bickton Road.

Dennis Edgel of Detroit, was the guest Thursday evening of his cousin, Wallace Buckingham.

Work is once more under way on the Simpson house on Mayfield avenue and Mr. and Mrs. Simpson now have hopes of occupying it by the time spring arrives. Construction had been greatly retarded by a shortage of materials.

The Livonia Goodfellows and their wives are still talking of the delightful supper and social evening they enjoyed together Saturday evening, the 24th.

About fifty persons were in attendance. During the program many interesting facts were brought out regarding the work of the Goodfellows during the last Christmas season.

OBITUARY

MRS. MICHAEL J. MURPHY

Northville lost one of its older residents Monday with the passing of Mrs. Michael J. Murphy at Wayne County General Hospital.

Funeral services were conducted Thursday afternoon from the Casterline Funeral Home, with Rev. William Hughes officiating. Burial took place at the Rural Hill Mausoleum.

Emma Jane Fikins was born eighty-five years ago to the late Thomas and Elizabeth Fikins, who were among the early settlers of Northville. She was united in marriage on January 12, 1893, to Michael J. Murphy at the Monsignor Catholic Cathedral in Cleveland. The Murphys made their home in that city for a short time but lived most of their married life here on Linden Street. Mr. Murphy came here as a representative of the Globe Manufacturing Company and for fifty-five years was vice president of the Brotherhood of Railroad Trainmen. Mrs. Murphy was a life long member of the Northville Methodist Church and was active in the various organizations of the church.

Surviving the deceased are the husband, a nephew, Guy Fikins and a niece, Mrs. Eberle Smith of Grosse Ile.

CARD OF THANKS

I wish to thank my kind neighbors for the lovely gift also Mr. and Mrs. George Kahri and son, Jack, and Mr. and Mrs. John Oliver for kindnesses shown me during my illness.

Fuel. The Commerce Committee of the House of Representatives, investigating the shortage of fuel, recommended that all petroleum exports be banned until the current shortage can be reviewed. Secretary of the Interior Krug sent a report to Congress recommending the development of a \$9 billion synthetic fuel industry capable of producing two million barrels of oil a day. That project would take five to ten years to complete.

Organization Of The Executive Branch of the Government: President Truman recently appointed Mr. Herbert Hoover as Chairman of a Commission to study the or-

ganization of the Executive Branch of our Government. This Commission has made progress by designating men familiar with various branches of the government and business methods to study their activities with a view to eliminating overlapping and to provide a more efficient management of government agencies. Such men as Harvey Bundy and James Grafton Rogers, both former Assistant Secretaries of State, John A. Stevenson, President of the Penn Mutual Life Insurance Company, Dr. William Anderson of the University of Michigan, and others, have been named to the Commission to study foreign affairs, agricultural activities, field offices of the government, federal personnel, fiscal, budgetary, and accounting

methods and control, administrative methods, lending activities of the government, etc.

Mr. Hoover himself will undertake, with the aid of Mr. Don K. Price, Associate Director of the Public Administration Clearing House, and with the cooperation of the Bureau of the Budget, a study of the Presidency and its relations to the departments and agencies of the Executive Branch. He is well qualified to do this as he was once Secretary of Commerce, before he served as President of the United States. He also has an enviable record as an engineer.

President's Budget: Congressman George A. Dondero, in speaking of the President's Budget for 1948-9, indicated how far left his Administration is leaning. "The President is asking millions to lay the ground work of a National Health Program. This is aimed at eventually socializing medicine and placing out surgeons, doctors, and dentists under Federal control." Mr. Dondero does not believe that Americans are "so corrupt nor weak as to require government supervision over every phase of their daily lives. The rise of the United States to a degree of achievement unequalled in history resulted from freedom, independence, and protection against undue Government meddling and interference which our Constitution guarantees to each individual. The result has been a higher standard of living, better housing, more food, and a larger portion of the material and good things of life than any people in history have ever had. All of this was made possible by our free enterprise system—the system which would be undermined by many of the socialistic proposals made by the President. When the flames of war threatened to consume the entire earth it was to America—the land of free enterprise—that the world turned for the necessary tools to extinguish the blaze. Eternal vigilance is the price of freedom.

Tax Reduction and Tax Equalization Bill. Congressman George A. Dondero in discussing the Revenue Bill which passed the House of Representatives early this week, stated: "The reduction provided in this bill amounts to a 10% increase of 1 cent an hour to the working people of the nation. It will bring benefits to 55 million taxpayers. 74 million of our people will be taxed at 48¢ on every dollar by the bill. 77% of the benefits will go to low income people of \$4000 or less, and 90% of the benefit go to those earning \$3000 or less. The tax on people with incomes of \$200,000 or over, C. M. D., has already paid the income tax on net profit or on a average of 29% and a further reduction is proposed."

ELECTRIC LIGHTS work overtime when the nights are long and the days are dark. They don't do their best work, either, unless the lamp bulbs are kept free from dust and dirt . . . unless they're the proper size—neither too large nor too small . . . and unless they have shades that provide maximum glareless light.

Be sure you have plenty of spare light bulbs on hand, too. Your dealer has them or you'll find them at any Edison office—in all sizes—all modestly priced. You can exchange your burned-out bulbs at any Detroit Edison office. There's no charge for this service. Just bring an Edison service bill for quick identification.

Continued Cold Weather Brings Fuel Crisis

King Wright retains his home in the community with continued cold. Thursday morning the mercury again dipped to a 4 below. Tuesday night another two inches of snow fell. Local fuel supplies were at a breaking point as continued cold demanded more fuel. Fuel men predict a real crisis within a two week period as major suppliers have exhausted their quotas for the period.

Hog Self-Feeder

This New Jersey self-feeder for market pigs also may be used for brood sows that are suckling litters. Several different feeds may be supplied in separate compartments, and the pigs choose the proportions and amounts of each. One of the chief advantages of the self-feeder is the saving in labor effected, providing the feeder is large enough to hold several days' supply of feed.

MARGARET ELY-PICTURED IN "PARADE"

A picture easily recognized was that of Margaret Ely that appeared in a picture-story of the Detroit Free Press section "Parade" last Sunday. The story was of twelve girls of whom Margaret was one, from Michigan State College who spent 12 weeks in Marshall, Mich., last fall as part of their college course in elementary education. Peggy is the daughter of Mr. and Mrs. Claude Ely of Gardner Street.
