Fine Yesterday - Finer Today!

For years, Pontiac has led its field in many of the basic aspects of motor car character.

It has been outstanding in appearance—with its distinctive Silver Streak styling and brautiful bodies by Fisher. It has been consistently praised for its performance—based on smooth, powerful six and eight cylinder engines. It has a record for long life and dependability unsurpassed in the automotive rodustry.

And now, in the 1948 Pontiac, comes revealing proof of Pontiac's continuing leadership. Not only is the new Pontiac far more beautiful and luxurious—but it offers, as optional equipment on all models, the famous GM Hydra-Matic Drivel This mechanical masterpiece, which eliminates the dutch pedal and makes shifting entirely automatic, is one of the greatest contributions to driving ease and safety in the history of the motor car. And Pontiac is the world's lowest-pried car to make it available to the motor results. priced car to make it available to the motoring public.

There are fifteen Pontiac models—each more beautiful and more luxurious than ever—and each an outstanding value. You are cordially invited to see and inspect them today.
