Novi Will Hold Election April 5

Voters of Oakland County will be asked to vote on two proposals at the April 5th election bearing upon the question of raising millage to care for the aged and infirm of that county.

No. 1. Increasing the 15 mill limitation by 2 mills for 2 years.

No. 2. Authorizing the spread of the two mills for 2 years in Dollars and Cents this boils down to the following: On each \$1000 of your assessed valuation as equalized you will pay \$2.00. If the equalized value of your home is \$10,000 you would pay \$20.00 in 1948 and \$20.00 in 1949.

It takes a 2/3 vote on the first question and any citizen of the United States, 21 years of age or upwards, a resident of the State for 6 months and in the precinct for 30 days is eligible to vote on the first question.

The present Infirmary Building was erected in 1925 at a cost of \$327,087.31, designed to accommodate 125 patients and 3 staff members.

In 1920 a Convalescent Ward was set aside to receive, as much as possible, the cost incident to adult convalescence. This so-called Convalescent Ward, which has since grown to all practical purposes into a hospital, did not attract much attention for the ensuing ten years, and in 1930 the sum of \$6,751.50 for 4,500 patient-days was all that was charged to hospitalization. Ten years later, in 1940, hospitalization cost Oakland County an

The recent change provides that upon the liquidation of the company the assets would be transferred to another charitable organization or would revert to the State of Michigan. All donations are deductible from the taxable net income of the donors. The By-law is given below in full.

Article 28, Liquidation

In case of the liquidation or dissolution of the Company, the last Board of Directors of the Corporation shall cause all of the property and assets of the Corporation of every kind and nature and wheresoever situated, to be assigned, transferred and conveyed to such tax exempt non-profit Corporation as they shall deem to be most likely to use the same for the purpose of carrying out the general purpose for which the Sessions Hospital was organized and in case they shall fail, neglect or refuse to do so, all of said property and assets of this Corporation shall pass to and become the property of the State of Michigan.

The purpose of this Article 28, are to provide assurance to members and prospective members, and to contributors and prospective contributors to the Corporation, that no individual member, director or officer of the Corporation will participate or share in any "division" or distribution of the assets of the Corporation upon the liquidation or dissolution thereof.

Dondero Gives Views on Russia

RUSSIAN AGGRESSION: Congressman George A. Dondero, in discussing the Russian situation, stated, "Because of the rising rumors of war, I was impressed by Admiral Zacharias' statement that he looked for the political and economic bankruptcy of Russia within the near future and that from information coming from behind the 'iron curtain,' conditions inside Russia are anything but favorable for embarking upon another world war."

"Czechoslovakia's fall was not due to Russian military might but, rather, of a combination of past events. Because of the decision which prevented American and British troops from advancing into Czechoslovakia and Eastern Germany at the end of World War II, they fell into the hands of the Red Army. After that it was an easy matter for the local Communists, backed by the Red Army, to gain control of the central government. The people of Czechoslovakia were not starving. That nation was exceptionally prosperous. The United States has poured nearly a quarter of a billion dollars into her coffers since VE Day. The result is that we turned Czechoslovakia

Dr. George Gallup, director of Public Opinion polls, addressed the Detroit Economic Club. Of particular interest were his findings of American opinion toward Russian aggression.

Russia is currently misinterpreting the American point of view, he states. Their rulers believe that only the "Wall Street Monopolists" and moneyed interests in the U. S. are hostile to Russian aims and ideals. "All our workingmen, they think, would welcome Communist rule."

Gallup surveys of U. S. public opinion indicate just the opposite. Strongest objections to current Russian policy are voiced by the laborer, the farmer, and the lower-salaried white collar workers, who express five major grievances.

1. Russia is out to dominate the world
2. Communism would destroy all religion. Surveys of civilized countries today indicate that 80% to 96% believe in God. Exceptions are France with a lower percentage, and Russia where the communists give on overwhelming "no."
3. Dr. Gallup points out that a conflict with Russia would have the aspect of a Holy War.
4. Russian secrecy and censorship are objectionable
5. Communistic policy of seeking working control of other nations by "fifth column" methods is wrong
6. Finally, Russia's uncooperative attitude as a member of the United Nations seems to be deliberate effort to wreck world peace.

States Dr. Gallup, "The public

often displays greater insight than its legislative leaders."

Kaiser-Frazer Introduces Four New 1948 Models

• The 1948 KAISER • The 1948 KAISER CUSTOM
• The 1948 FRAZER • The 1948 FRAZER MANHATTAN

AT NO INCREASE IN PRICE!

While Other New Car Prices Are Advancing

HERE'S WHY Kaiser-Frazer can make this announcement while other new car prices spiral upward: Kaiser-Frazer controls its own supply of many basic raw materials... has its own engine plant, foundry and steel mill. Materials from these sources funnel into new and modern Willow Run—the largest automobile manufacturing plant in the world under one roof.

Unfinished steel goes in one end of this great plant and comes out a quality automobile, ready to be driven away. All this is accomplished in a matter of hours, and with the economy of Kaiser-Frazer straight-line production. This is an achievement of men who are injecting new methods and ideas into an old industry.

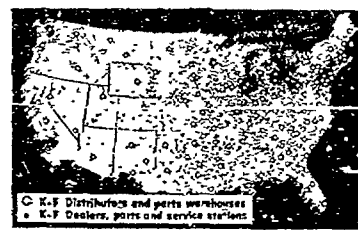

In the new 1948 Kaiser, Frazer, Kaiser Custom, and Frazer Manhattan you get all the features

that others have attempted to copy since Kaiser-Frazer design was introduced in 1947.

So far no one has been able to more than approximate the graceful exterior body lines. No one has come near matching the roadability... the ride resulting from seats cradled between the front and rear wheels, such wide seats with both elbow and shoulder room. And none have the style features, the wide choice of colors and fabrics.

You get all this plus the many refinements made possible by years-ahead engineering and design. And, of course, all 1948 Kaiser or Frazer cars have the new Goodyear 24-pound pressure Super-Cushion tires that make bumps something you see but never feel.

Enjoy a ride today in America's newest new cars—the 1948 cars that have not gone up in price!

Wherever you drive, wherever you go, round the corner, down the street, there is a Kaiser-Frazer dealer ready to serve you with genuine factory parts and prompt service.

We Invite You to SEE, DRIVE and COMPARE Them, Today!

Presbyterians to Rebuild Destroyed Hospitals

Presbyterians throughout the United States are now in the midst of a campaign to raise \$27,000,000 for a Restoration Fund to aid the ministry in the war-devastated areas. The above photograph shows destruction to Presbyterian Church property during fighting between Japanese forces and the Americans. At Ermita, in the Philippines, the wrath of war resulted in the almost complete destruction of the Presbyterian Mission and Union High School. Only its walls are standing, after the battle to free the city. In many of the church buildings, the Japanese forces made their last stand.

Plymouth Feeds Hungry England

Aid from Plymouth, Michigan to Plymouth, England is still flowing over the stormy Atlantic—the fortunate people of this progressive American city send food to the unfortunate people of the English city after which it was named.

Bombed more terribly than any other English city during the world war, Plymouth, England has required far more aid than most other English cities and that is why the Rotary club of Plymouth, Michigan has decided to carry on its humane work for the unfortunate people of that unfortunate country.

At the last meeting of the Rotary club, Dave Galin announced that \$1,050.00 in cash had been contributed by members of the Plymouth club to purchase baskets for families of members of the Plymouth, England Rotary club.

These shipments have been made during the entire winter and now letters are being received from various English families telling of their gratitude for the thoughtfulness of Plymouth, Michigan Rotarians.

It will be recalled that a year or so ago a clothing drive conducted by the Rotary Club resulted in nearly 4,000 separate garments being sent from this city to suffering people of war blighted England. — Plymouth Mail

Farm Bureau News

Mrs. Earl Clarke and Mrs. A. A. Doebler, both of Pine Knobb Road, Clarkston, were hostesses to seventeen women of the Oakland County Farm Bureau at Mrs. A. A. Doebler's home. The members decided, at this meeting, to wait until next fall before approaching the schools with the idea of a poster contest to publicize the dumping amendment.

Mrs. A. A. Doebler prepared some booklets on the parliamentary procedure. A motion was passed to spend twenty minutes of every meeting studying this.

The next meeting will be held April 20 at the Waterford Community Center. The Oakland County Farm Bureau women will act as hostesses to Livingston, Washtenaw, Wayne, Monroe, and Macomb Farm Bureau women. A pot luck dinner will be served, and the ladies plan to have some interesting speakers and entertainment.

VALVE-IN-HEAD is far ahead!

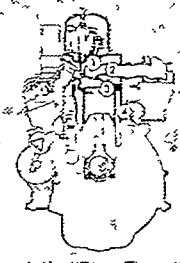

in performance and economy...
in ruggedness and reliability!

1 In the world's champion Chevrolet engine, the valves are located in the head of the cylinder, directly over the pistons—hence the name, Valve-in-Head.

2 Valve-in-Head design provides faster intake of fuel mixture—and quicker and more complete exhaust of burned gases—all of which contributes to better performance and economy.

3 Valve-in-Head design also permits a more compact combustion chamber; and this, together with Chevrolet's "Blue Flame" combustion, means more driving power for the pistons—less heat loss—and maximum economy.

Valve-in-Head engines are inherently easier to cool; and Chevrolet's individual cooling of cylinders prevents waste of power—promotes efficient operation—prolongs engine life.

Automotive experts and millions of motorists agree: Valve-in-Head is far ahead because it gives an outstanding combination of performance, endurance, dependability and economy.... Chevrolet—master builder of this master motor—has proved this by producing more than 20 million Valve-in-Head engines during the past thirty-seven years—engines which hold the distinction of having delivered more billions of miles of satisfaction, to more owners, over a longer period, than any other power-plant built today! Chevrolet's World's Champion Valve-in-Head engine is another powerful reason why CHEVROLET and ONLY CHEVROLET IS FIRST... another convincing proof that only Chevrolet gives BIG-CAR QUALITY AT LOWEST COST!

recently charged, merely a "glorified clerk"?

Vernon J. Brown, of Mason, former lieutenant governor, and former general and state legislator, does not think so. During his 40 years of public service, half of which was as either a legislator or a state official, Mr. Brown served along with eight different governors in succession.

"There are two distinct theories of government," observes Mr. Brown. "They are in direct opposition, one to the other, and one must choose between them. First, and the one on which the American way is founded is government based on the theory that the closer it is kept to the people the better. This implies strong local units and a division of authority and responsibilities so that the manifold duties of administration may be divided among as many capable administrators as may be required. In a state so diversified as Michigan, no individual can hope to attend to everything and no person should be expected to undertake to do so. Neither should he be entrusted with so great responsibilities."

"The opposite theory in government is found at its highest development where Hitler and Mussolini and Stalin are produced. Under such a government all authority is centered at the top where every decision is made. Everything below must bend either the knee or the neck. There are those in this country who evidently yearn for the power and the obedience that go along with this last described type of government."

"It is noted that there are certain public officials in Michigan who do not like the Michigan way. They like neither the laws nor the restrictions imposed upon them."

"Most of the restrictions complained of have been imposed and put into effect since the days of Alex Groesbeck. There are some left who will recall the primary campaign of 1928 when the Groesbeck autocracy was the prime issue. Evidently the people of that day had become tired of Groesbeck's bossing. In any event they chose Fred W. Green in preference and beginning then and continuing until this day there has been a trend in Michigan resulting in sorting out first one function and then another for independent administration, free of interference by the governor and free from partisan politics."

"The first notable example was the establishment of the department of conservation which long had been a political football. The

Novi Election

(Continued from Front Page)
that a substantial portion of them
will reach the Infirmary soon,
and if past experience is an in-
dex, 42% of those reaching the
Infirmary will be hospital pa-
tients.

Frank, Clark, supervisor of
Novi Township says: "I do not
think there is any question in the
mind of anyone acquainted with
conditions of the immediate need
for room and added facilities.

The present plan was prepared
by the Welfare and Buildings and
Grounds committees and pre-
sented to the Ways and Means
committee for plans to finance.

Two plans were proposed. One
to issue bonds payable over a
period of five years, the other to
spread 2 mills (\$200 per thou-
sand) for two years and build on
a cash basis.

The Ways and Means Commit-
tee were unanimous for the two
mill or pay as you go plan and
presented that plan to the Board
round figures, \$285,000.00; and
last year it had jumped to \$375,-
000.00.

At present there are in the In-
firmary 273 beds for all purposes,
and in view of the fact that part
of the building which was origi-
nally planned to accommodate 25
beds, has been taken over for ad-
ministrative purposes the present
building is overcrowded by 173
beds. Many occasions have arisen
when there was no bed available
for a person brought to the In-
firmary, either for home care or
hospitalization.

65% of the Infirmary patients
are over the age of 65; and of
these over 65, 42% previously
drew Old Age Assistance.

The total Old Age Assistance
paid in Oakland County at pre-
sent is approximately 3,200 per-
sons and it is reasonably certain
off-Superior where it was ap-
proved by a vote of 50 to 4.

Every voter in Oakland County
should be interested in this ques-
tion.

Give it some thought, then if
you approve the building and the
plan of financing vote yes on
both questions, if not vote no,
but be sure to come out April 5
and vote.

In our country it is your duty
as well as your privilege to cast
your ballot.

If you guard that privilege and
exercise it no issues will creep
in."

F. W. Neal

(Continued from Front Page)
In his announcement, Com-
missioner Spaulding, stated:

"Mr. Neal's appointment rep-
resents a major step in the de-
partment's plans to develop a
constructive and comprehensive
program of acquainting the pub-
lic with the work of the schools
—their weaknesses as well as
their strength—and their plans
for the future as well as their
past accomplishments. In Mr.
Neal I feel we have secured a
person who has both an active
appreciation of what can be done
and the energy, enthusiasm and
capacity for working with people
which will enable him to do it."

Mr. Neal is a native of North-
ville, Mich. He received the de-
grees of bachelor of master of
arts in economics at the Uni-
versity of Michigan, the latter in
1937, and was Nieman Fellow at
Harvard University in 1942. He
was editor of the Northville
Michigan Record and the Michi-
gan Daily and prior to World
War II was Washington corres-
pondent for the United Press and
the Wall Street Journal. During
the war he served with the Office
of Strategic Services and the
Naval Air Corps in Russia and
Siberia, with the rank of lieuten-
ant—Albany Times Union.

School Report

(Continued from Front Page)
The general program, instruction
and administration are satisfac-
tory. The elementary grades are
suitably housed and the program
represents good planning by staff
members and administration.

The Northville schools and
recreational programs merit the
continued support and interest of
the citizens of the community.
The faculty should be encouraged
to continue the development of
the program which seeks to meet
the needs of the students and the
community.

Sincerely yours,
Lawrence E. Vredevoe,
Assistant Director.

Mrs. Elizabeth Beat, sister of
Bill Boyd, who has been seriously
ill in the Wyandotte Hospital, is
now somewhat improved.

PRINCIPLE No. 5

To inculcate a sense
of individual obligation to the
Community, State, and Nation

—From the Preamble to the Constitution of The American Legion

Every program of The American Legion is in support
of the idea that we shall depend upon the rule of the
ballot rather than that of the bullet. The individual
obligation is met year after year by the members of
the Legion Post.

If we are to build a better
Nation we must do it by develop-
ing better individuals. This obli-
gation to us of the Legion is an
individual matter. We cannot
afford to sit back and let George
do it. The influence of one life
well lived in service to humanity
will do more to help others of the
community live a better life and
will do more to help bring the
Kingdom of Heaven here upon
earth than the speeches, laws,
and regimentation of all time. If
we are to bring about a harmo-
nious balance in our community,
state, and national life we must
all develop a harmonious bal-
ance in our own lives.

Along with our vital World
War II activities, the numerous
educational, civic, social, and hu-
manitarian phases of Legion ac-
tivity offer opportunity to all for
individual service. Let us all ac-
cept this challenge as an indi-
vidual obligation and volunteer
our services whenever needed.
The individual contribution is
all-important.

into an asset for the Soviet
Union. This reveals that no
amount of economic aid can pre-
vail when a government or a
people is corrupted by Commu-
nist ideals.

"From all indications Soviet
Russia is having too much in-
ternal trouble today to permit
her to embark upon another war.
We should not, however, over-
look the underground movement
within the nations incorporated
behind the 'Iron Curtain' by the
secret decisions of Teheran and
Potsdam.

"In view of all these facts, I
think you will agree with me,
Congressman Dondero stated,
"that instead of becoming pan-
icky over the crisis of imminent
war it behooves us to get all the
available information and calmly
evaluate it. War is far too dis-
astrous a course to embark upon
without knowing all the facts."

Mr. Dondero has been advocat-
ing the building up of an air
force second to none in the world,
as a matter of national security.
