It's no trick to hit high C when your bath is warm. . when you know there's an automatic electric water heater in the house to bring you all the hot water you need whenever you turn the tap!

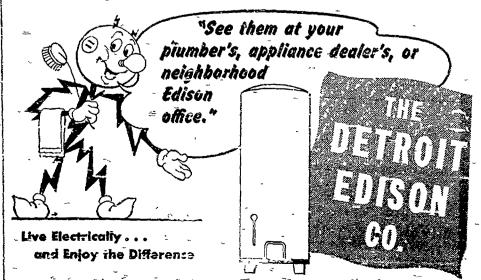

For good health and good spirits, physicians say, try a daily hot bath. For dependable, low-cost hot water -thousands of your neighbors say -electricity rings the bell.

It's safe, for there are no flames, no fumes, and no soot.

It's clean and quiet and trouble-free. It's economical, too, because the current comes to you at a special

low-water hearing rate.

And it's reliable—once installed, you can forget all about it. For laundry, baths and dishes, and a dozen other uses, try water heated electricallythe modern, carefree way.

PEACE FUND AIDED BY JANE ADDAMS TEA

Friday, April-30th will be the date of the annual Jane Addams Tea to be held at the Preshyterian Church House. The tea which is part of the W. I. L. program, attracts a large attendance each year. In answer to many queries we are printing a brief account of the origin of the tea.' .

Jane Addams, founder of Hull House in Chicago and one time winner of the Nobel Peace Prize, is one of the W. I. L. founders. A few years ago, Mrs Mabel Wing Castle, a member of the Open to the Chicago Branch of the W. I. L. children 50c.

Addams became sponsor of a fund, called the Jane Addams Peace Fund to honor Miss Addams, memory and to carry on the spirit of her Peace work. This is a special revolving fund of the W I. L, separate from the regular budget, which is administered by a national committee of W. I. L. with Mrs. Castle as chairman It is used for special projects in world understanding which would not otherwise be

Grants of aid have frequently been made to the work of Inter-American Friendship of the W. I. Rural Rele-news

LONG FURROWS: An improved type of telephone wire is used for rural service in certain areas where soil and weather conditions are favorable. It is plowed underground instead of strung on poles. Covering of synthetic rubber and steel mesh makes it stronger than underground wire previously used.

LESS PER LINE: We're building more rural lines and making good progress reducing the number of subscribers per line. Two years ago nearly half of our rural-line subscribers were on lines with more than eight parties. Today four out of five are on lines with eight or less!
