## Thanksgiving and Faith - - -

Thanksgiving is more than mere feasting and reunion. Thanksgiving is a time for renewing our faith in God and the spiritual values of life which are essential to these times.

The Pilgrims who founded our nation worshipped in the wilderness on that first Thanksgiving, giving thanks to God for His blessings. Meager blessings they were, but still plenty for which to be thankful. Today we must live up to the faith of our forefathers. We give thanks for material things, for freedom, but above all for the privilege of worship.

GO TO CHURCH, THANKSGIVING! LIVE UP TO YOUR FAITH!

### "LET US GIVE THANKS"

This week as we once more pause to observe Thanksgiving let us for a moment forget that this is the year 1948 and imagine that it is centuries ago—the year 1621 perhaps.

A little group of Pilgrims who survived privation and starvation saw for the first time the rewards of their first harvest—corn, grapes, wheat, and other foodstuffs. Together this band of Pilgrims sat down to thank God for the blessings which he had bestowed upon them—for their hearts were full of gratitude for the food He had provided. But they were more thankful for the seeds of liberty which they had found waiting for them upon their arrival to their new found home in America.

From its very birth, America has lived as a burning symbol for liberty. America stands for love of country, love of liberty, and hope for recognition of human dignity. The Declaration of Independence, the Constitution, the Bill of Rights, the Emancipation Proclamation are all records of some of the greatest moments in our history carrying the import of but a single thought—the privileges of tolerance and freedom that we all want to possess.

Times of danger often have put our principles of freedom to the critical test—the second World War was such a test, but our freedom did survive. Because Nazi rule was depriving so many people of independence, liberty became significant. When liberty is safe, we don't get excited about it, but let someone put it in jeopardy, and Americans get fighting mad!

And so today, America stands before the rest of the world, envious of none, wanting only their cooperation and international good-will—standing as a symbol for tolerance and freedom for the oppressed masses in Europe.

But if this country as we have known it is to endure, we must all work together—the laborer, the homemaker, the businessman and the politician alike must pull together to solve our own problems of racial and religious prejudices, economic injustices, greed and intemperance.

Intolerance continues to gnaw into our grain of life. American democracy was built on the right of every citizen to work and to worship the way his conscience taught. Tolerance admits of no compromise with truth; and on this day commemorating our first Thanksgiving, we should give thanks to God for our blessings of health, home, family and material wealth. And we should give thanks to Him for the blessings of freedom and liberty. We should pause and thank the Almighty for the heritage that is ours.

# America's Thanksgiving . . . . . A

## Story to be told an American child...

A LONG, LONG time ago, in a land way across the Atlantic Ocean, there were some people called the Pilgrims.

These people lived under a wicked king who wouldn't let them do what they wanted to do. They wanted to worship God in their own way, and he wouldn't let them.

So they got together in each other's houses, and they locked the doors, and they talked—so that no one outside would hear them—about what they ought to do. And they decided to sail in a ship to the other side of the world.

They decided to sail to America.

After many weeks on the ocean, they arrived on strange shores. The woods were all about them and not even the promise of food. Yet they got down on their knees and thanked God that they were safe.

The men went into the woods and cut down trees and built homes. Some of them were killed by the Indians. So they set up guards to protect them from the Indians while they planted seeds for food for their wives and their children and themselves to eat.

Then the winter came, and it got cold, and many of them got sick and died. But the others carried on. And in the spring they planted again. All the time they had to fight off the Indians to protect themselves.

That year, when the harvest was in, they all got together and knelt on their knees and thanked God for being so good to them. They had their troubles, but at least they had their freedom—and that was why they thanked God. For they felt that nothing was better than freedom—and nothing is.

It's been a long time since the Pilgrims first came here. But every fall we still have Thanksgiving. For

no matter what happens—whether we have war, or sickness, or trouble of any kind—just like the Pilgrims, we can still do what we want to do here in America. We still have freedom.

And that's why we have Thanksgiving here in America. Nobody anywhere else in the world has Thanksgiving. For nobody anywhere else in the world has quite what we have here in America.

Some day maybe everywhere in the world they'll have Thanksgiving. Because maybe some day, somewhere else in the world, they'll have what we have here in America.

So let's all of us, right now, not only thank God for what we have, but pray to Him that everybody, everywhere else in the world, can some day be just as lucky as we are.

Don't you think we ought to?

### Traffic Deaths Show Rise for Winter Months

Though careful driving should be a habit every month of the year, caution takes on emergency status during the winter months when snow and ice multiply motoring hazards.

This warning is given by experts of the accident prevention department of the Association of Casualty and Surety Companies, a public service organization devoted to reduction of life and property losses in preventable accidents. Their records show that more Americans die in automobile accidents in November and December than in any other months of the year.

Last November just over 3,000 persons were needlessly slain on our streets and highways and about 3,300 were killed in December.

Pedestrians Perilled, Too. Danger months are the same for pedestrians as drivers, this safety men point out. Of the 10,300 pedestrians struck down and killed last year, the largest death scores were chalked up in the winter months. The December toll was almost double that of July.

Several factors contribute to this winter slaughter, according to Julius H. Harvey, manager of the department. Longer nights

C. Harold Bloom, local representative for the secretary of state, has announced that 1949 plates will be issued only to buyers of new cars between now and the first of the year. Cars from out-of-state can also get 1949 licenses after December 1, but no other 1949 plates will be given to car owners before January 1.

In past years automobile owners have always been able to get their license plates on and after December 1.

The first complete line of Christmas cards in the United States was printed in 1875 by Louis Prang, an immigrant lithographer exiled from Germany following the unsuccessful revolution there in 1848.

**50,000 GRAINS OF COAL** — Did you know there was coal in your telephone? Actually, there are about 50,000 grains of it — behind the diaphragm of the mouthpiece. This is enough to cover a surface about the size of a dime. Coal is used in telephones because it can translate the vibrations of your voice into electric waves on wires. These waves can be sent to another telephone, where they are converted back into your "voice."

**HANDY HUNTING GROUND** — It's easy to locate a doctor, veterinarian, farm equipment dealer, feed and grain supplier or any of the countless other people you need to call at one time or another. ## CHRISTMAS SEALS

## TB Is Everyone's Fight

There are three things that every individual can do to help in the unrelenting war against tuberculosis: Arrange to have his chest X-rayed regularly. See to it that every adult member of his family does the same. Buy Christmas Seals.

This year the nationwide 42nd annual Christmas Seal sale opens November 22 and continues until December 25.

Since 1904, when the National Tuberculosis association was founded, TB has been forced down from the leading cause of death in this country to seventh place.

It is estimated that this represents a saving of four million lives. For if TB had continued at the 1904 rate more than four

million more persons would have died of TB between then and now than actually did.

The greater the sale of Christmas Seals, the greater will be the activities of the 3,000 tuberculosis associations—and the nearer will the nation, and the world, be to complete eradication of the disease.

Disease, like ignorance, thrives in the dark. Careful estimates place the number of active TB cases in this country at 500,000. About half of them are known to health authorities and are receiving treatment. That means that approximately 250,000 people with TB, perhaps ignorant of the fact they have it, are not only endangering their own lives but may be spreading it to others.

They don't know they have tuberculosis, but that is no excuse. They should know.

In a continuing nationwide campaign the National Tuberculosis association, cooperating with the medical and nursing professions, the U. S. public health service and state and local health departments, is working ceaselessly to induce every person 15 years of age and over to have a chest X-ray taken regularly.

An enlightened, generous American people is still the most effective weapon devised for beating tuberculosis in the United States.

## Huebner-Jerore Wedding Performed at Farmington

Our Lady of Sorrows Church at Farmington was the scene of the wedding Saturday which united in marriage Donna Mae Jerore, daughter of Mr. and Mrs. Louis Jerore of Melvin Road, Farmington, and Robert F. Huebner of Detroit. The double ring service was performed at 10:00 o'clock by Rev. Thomas Beahm. The bridegroom is the son of Mr. and Mrs. Herman Huebner.

Bouquets of white mums and red roses were used to decorate the church. Mrs. Schaffer of Farmington, presided at the organ and accompanied Shirley Gibbs, also of Farmington, as she sang "On This Day Oh Beautiful Mother" and "Ave Maria".

Gowned in ivory satin, the bride was given in marriage by her father. The gown was styled with an off the shoulder necking of illusion, long sleeves, princess lines and a long train. Her full length veil of illusion was caught to her head by an orange blossom tara. She carried a shower bouquet of white roses and baby mums.

Mrs. Gerald Kasper of Detroit was the maid of honor and she wore a gown of frosted violet satin and a roll of matching satin adorned her head. She carried a bouquet of tea roses and white mums.

Beverly Hay and Jane O'Riley were bridesmaids and they wore identical gowns of frosted green satin with matching satin rolls in their hair and carried bouquets of yellow roses and baby mums. Shirley Jerore, sister of the bride, was a junior bridesmaid. She wore a yellow gown and her bouquet consisted of deep tea roses.

Gerald Kasper of Detroit was the best man and Charles Kingston and John Ruey of Detroit acted as the ring bearers.

For her daughter's wedding, Mrs. Jerore chose a hunter green crepe dress with brown accessories and a corsage of pink roses. Mrs. William Kisch of Cleveland, Ohio, grandmother of the bride, wore a navy blue dress. The bridegroom's mother wore a steel gray dress with black accessories and each lady wore a corsage of pink roses.

A breakfast followed the ceremony at the Northville Inn. In the afternoon the bride and groom and their bridesmaids and groomsmen were held at the day at the Jerore home. In the evening a reception was held at the home of the bride's parents, Mr. and Mrs. Louis Jerore, 124 East Main Street, Northville.

Donna graduated from Northville High School with the class of 1948 and is employed in the office at the Northville Inn. Her husband is employed in the office at the Northville Inn. They will be married three years with the Army.

An uncle of the bride, R. T. Jerore of Detroit, born in Cleveland and Fitch, Ohio, Arizona, Detroit, Berkey, Bay City, Plymouth, Farmington, Northville, St. Clair Shores and Grand Rapids.

Mr. and Mrs. Larry Eckles (Sally Eckles) are the proud parents of two boys born November 16 at Mt. Carmel Hospital. The boys have been named James Patrick and Walter Michael. James weighed five pounds, one ounce and Walter weighed five pounds 13 and one half ounces.

At a special meeting held last Monday evening at the high school building in South Lyon, the board of education adopted a resolution to award the general contract for the construction of a gymnasium building at New Hudson, to Clair Canine, of Milan, Michigan, who is at present constructing the elementary building on the South Lyon site.

The 1948 harvest festival of the Methodist church of South Lyon eclipsed all preceding festivals both financially and socially. The total amount realized from the event was \$1476.27. Mrs. E. C. Bourns, the general chairman, her assisting chairman and various helpers are to be congratulated on the huge success they made of the undertaking.

Members of St. Mary's Altar Society, together with their guests, members of other church and patriotic organizations of Chelsea, numbering almost one hundred, attended the Altar Society-sponsored meeting at which an American Cancer Society program was given. The meeting was held Wednesday evening, Nov. 10, at St. Mary's Hall.

The body of Pfc. Earl Koch arrived at the New York Central station in Chelsea at 6:30 o'clock Friday, Nov. 19, according to a telegram received by the Staffan Funeral Home here where funeral services are scheduled to be held Sunday afternoon, at 2:00 o'clock. He was one of the 1229 war dead repatriated last week from Italy aboard the U. S. Army Transport Lawrence Victory.

With a realization that the serious parking situation of Plymouth has become the No. 1 city problem, members of the city planning commission at a special meeting last week made it evident that they are anxious to bring forth some solution as quickly as possible.

A suggestion as to what course of action should be taken in connection with the World War II memorial was made by Melvin Algure to Plymouth city commissioners last Monday evening. Representing the Ex-Servicemen's club, Mr. Algure submitted a drawing of a monument similar to the structure in Rockledge park, for which the specifications called for a monument to one fourth of the present size. It would measure approximately three feet high.

A citizens committee of 12 residents of the town of Dearborn district are being asked by the Dearborn Valley School Board to meet with Trustees George Hubbell next Monday night to formulate a survey of conditions in the local schools, and to make recommendations.

Even with pledges and contributions not actually received, counted in Ann Arbor's Community Fund Drive is still more than \$12,000 short of the minimum goal needed to support the 15 Red-Feather Agencies supported by the Fund, officials in charge of the campaign revealed Wednesday.

Kenneth Basha, 22, and Willard Swarthout, 19, stood mute when arraigned on charges of first degree murder in the shooting of Francis R. Andrews, Dearborn taxicab driver and war veteran who was killed near Willow Village on Sept. 20.

Inspector Howard Forman, chief of Dearborn detectives today expected to go to Canton, Ohio in his search for the slayer of Thomas F. White, 25, Detroit taxi driver, whose bullet-torn body was found in his cab in Dearborn early Sunday.

**Spraying in Summer Will Not Halt Grubs****Destroying Eggs Fails To Stop Winter Attack**

Spraying cattle in summer with benzene hexachloride, rotenone, or other insecticides, new or old, does not prevent grub infestation in winter.

Although there is nothing new in that statement, the need for repeating it is plainly indicated by an account of spraying dairy cattle in one of the corn belt states. The work was given considerable publicity, with erroneous conclusions.

In this case, older animals of the herd were sprayed with DDT. Heifers and calves were not sprayed because they were running in pastures.

Dipping method is favored by some cattlemen to control grubs and other infestations.

The following winter, it was noticeable that the cows which had been sprayed were not infected with grubs. The young stuff was peppered with them. The natural conclusion was that a summer spray of DDT was effective.

That conclusion is unwarranted because, as entomologists know, older cattle seldom if ever have grubs of the heel fly. The young animals are the ones that suffer.

The department of agriculture says many substances have been applied to cattle to keep away heel flies and to kill the eggs deposited on the legs of the animals. All have been found to be either ineffective or impractical. The best time for attacking the pest is when the grubs are in the backs of cattle.

**Private Life of Bossy**

In the current craze for dissecting private lives even Bossy is not immune. The inevitable probe comes up with these statistics: Bossy grazes only seven and a half hours daily, regardless of how much feed she gets. She does 60 per cent of her grazing during daylight hours, 40 per cent at night. She spends five hours a day eating at a rate of 50 to 70 bites per minute. She chews her food seven hours a day and spends 12 hours lying down, at nine different times. While grazing, she travels two and a half miles in the daytime and one and a half at night. She drinks 10 times a day.

**Erosion Takes Alarming Toll of Good Crop Land**

Erosion is taking an increasingly alarming toll of good crop land in the United States. Estimates by the department of agriculture indicate that about 100 million acres of once good crop land have been ruined or nearly ruined for profitable cropping by erosion; another 100 million acres have been badly damaged and still another 100 million acres are eroding too fast.

There are now approximately 400 million acres of good crop land in the U. S., including acreage now in crops as well as about 100 million acres that need clearing, drainage, irrigation or other improvement. All but about 7 1/2 million acres of this 400 million acres are subject to erosion unless protective measures are adopted.

### The Great Emancipator on Thanksgiving

"THE YEAR that is drawing toward its close has been filled with the blessings of fruitful fields and healthful skies. To these bounties, which are so constantly enjoyed that we are prone to forget the source from which they come, others have been added, which are of so extraordinary a nature that they cannot fail to penetrate and soften the heart which is habitually insensible to the ever-watchful providence of Almighty God.

"Needful diversions of wealth and of strength from the fields of peaceful industry to the national defense have not arrested the plow, the shuttle or the ship. Population has steadily increased, notwithstanding the waste that has been made in the camp, the siege, and the battle-field; and the country, rejoicing in the consciousness of augmented strength and vigor, is permitted to expect continuance of years with large increase of freedom.

"No human counsel hath devised, nor hath any mortal hand worked out these great things. They are the gracious gift of the Most High God, and while dealing with us in anger for our sins, hath nevertheless remembered mercy.

One of the earliest holiday greetings is a crude wood cut of the Christ Child in a treasure ship overflowing with good wishes. It was produced by a German printer in 1450 as a New Year's card.

The jolly, jovial Santa Claus of the Christmas cards was first sketched in his present-day form by Thomas Nast, the cartoonist who created the G. O. P. Elephant and Democratic Donkey.
