NHS Assembly Hears Program on Nursing

At an assembly meeting last Thursday given to celebrate the Diamond Jubilee of nursing, a movie, "This Way to Nursing," was shown. Miss Malcolm Campbell, R. N., gave a short talk on requirements of entering the profession.

She said that a person must decide three things before entering training:

1. How much time do I want to spend in my training?
2. What do I hope to accomplish in my training?
3. How much money shall I spend?

The talk was followed by a skit giving the details of nurses' training by Mrs. Alvin Sherman, R. N., and Betty McIntyre, senior student nurse at Providence Hospital, Detroit.

In the past seven years four NRS graduates were graduated from nursing schools. They are: Joan Hein, Esther Rossow, Mary Hollis and Shirley Maclean. Betty Houseman will soon finish her training at Old Grace Hospital.

Seating Limited for Basketball

Due to the limited seating capacity of the Northville High School Gymnasium for basketball games the Athletic Board has set up a new policy for the coming season. Basketball fans are asked to note the following rules in order to prevent disappointment at not being able to see the games.

No reserved seat tickets will be sold this year. The number of paid admission tickets sold will be limited to 600. Sale of adult tickets will be made on the day of the game at a booth set up in the lower hall of the high school and will be open from 12:00 to 12:40 and from 3:30 to 4:00. Adult tickets may also be purchased through students and will assure the holder of admittance even though ticket sales may have been stopped at the door. The ticket window will open for business at 6:30 on the night of the game. The starting time of all home games is 7:15 p.m.

Christmas Seals Aid Drive Against TB.

The 1948 Double Barred Cross Christmas Seals are being received daily through the mail in the homes of Northville citizens. Some confusion has arisen as the receivers are in doubt if they are supplying the Northville Drive when their seals come from Detroit but Mrs. W. Leonard Howard, chairman of the drive, has stated that all seals are being mailed from the TB and Health Society in Detroit. There will be no door to door solicitation this year, therefore the cooperation of Northville residents is needed to make the campaign a success in the Village.

For the convenience of those who don't receive the seals through the mail, several booths will be set at various places of business on December 12.

Christmas seals have become a symbol of the holiday season. It is also a symbol of an important piece of work that has been carried on in this country for forty odd years. This nationwide campaign against tuberculosis was inaugurated in 1904 by the National Tuberculosis Association and continued without interruption by the Association and its increasing number of affiliates in every state. These affiliates are the TB and Health Society of Wayne County, which, in close cooperation with the health department is waging an effective battle to eradicate tuberculosis in this community.

Window Decorations Receive Recognition

Mrs. H. M. Wick of Yerkes Avenue wrote a letter to Women's Day magazine which was published in the December issue. Under the Neighbor column, Mrs. Wick's letter was printed along with a picture of the way she decorates her window for Christmas.

The letter reads as follows: "Every year I paint my sun-parlor windows, each group with a different picture, using the chalk paint such as the kindergarten uses. Sometimes I paint Santa and his reindeer and above this I print Christmas greetings. Merry Christmas and Happy New Year. Sometimes I use the manger scene and the three wise men—they are so pretty in colors. I tape the pictures on the outside of the windows and then come inside and paint, following the picture through the glass."

Signed,
Mrs. H. M. Wick

Mail Christmas Packages Early

The public is asked to cooperate in mailing Christmas packages and letters early in order to avoid delay in having any mailings arrive at their destinations too late for pre-Christmas delivery. While the regular flow of mail keeps the post office staff busy, Christmas mailings this year are expected to reach an unprecedented volume, therefore developing congestion as the holiday gets closer.

The handling of Christmas mail will be greatly facilitated by careful preparation by the senders. The following information may help in preparing Christmas mailings.

Prepay postage fully on all mail matter. Address all matter plainly and completely in ink, giving street address or rural route number whenever possible. The delivery zone number should be shown when applicable. The sender's return card should be in the upper left corner of address side. Tags should not be used unless necessary, in which case a copy of the address and return card should be placed inside the parcel for identification if the tag is lost. Articles should be packed carefully in strong, durable containers. Wrap parcels securely, but do not seal them except when bearing a printed endorsement, reading: "Contents, merchandise—Postmaster: This parcel may be opened for postal inspection if necessary," together with name and address of the sender, as parcels so labeled or endorsed are subject to postage at the letter rate. Parcels containing perishable articles should be prominently endorsed with the word "Perishable."

Parcels may not exceed 100 inches in length and girth combined. The limit of weight of fourth-class or parcel-post matter is 70 pounds for all zones. The same limit applies to first-class matter and air parcel post.

Parcels may be marked "Do not open until Christmas," "Merry Christmas," "Happy New Year," "With Best Wishes," and name. Symbols, numbers, and names of decoration may be marked with thin and fourth-class (parcel-post) matter. Do not use simple decorative inscriptions of a poet or nature. Other written additions, subject parcels to letter postage. Do not enclose letters in parcels, as doing so would subject entire parcel to letter postage. Communications prepaid at the first class rate may be sent with parcels prepaid at the third or fourth-class rate.

Christmas seals or stickers should not be placed on the address side of mail.

Northville's Yesterdays

ONE YEAR AGO

The first memorial service for Northville's war dead, brought from afar, occurred yesterday afternoon at two o'clock in Veterans' Memorial Hall. Private First Class Edwin C. King was laid to rest at Oakland Memorial Cemetery.

Monday evening at the regular meeting of the Village Commission, a bid was accepted and authorized to drill a 6-inch test well at the site at the corner of Seven Mile and Eaton Drive.

Early Sunday morning thieves entered the Achison Gulf Station and relieved the safe and cash registers of approximately \$130.00.

As a birthday gift honoring the memory of his father, Ed C. Langfield, Conrad E. Langfield presented a check of \$250.00 to the Northville Rotary Club Tuesday, November 25. The Rotarians have voted to use it to purchase instruments for the High School band.

Students, alumni and their friends of Northville High School gathered at the gymnasium last Friday night to attend the annual senior prom.

THIRTY YEARS AGO

An honest to goodness surprise was perpetrated on Mr. and Mrs. Frank Thompson when 18 of their fellow members of their "500 Club" took possession of their partly dismantled home for a farewell good time. The fact that the floor coverings were missing and everything in a moving condition only added to the enjoyment of the evening. Mr. and Mrs. Thompson left the next day to make their home in Lansing.

Ruth Anne Vanderburg, daughter of Mr. and Mrs. Albert Vanderburg was married Thanksgiving afternoon to Milton Fish of Detroit at a home wedding.

The ceremony was performed by the bride's uncle, Rev. Judson Vanderburg, of Detroit.

Is the "power of the press" waning in Michigan? Republicans are inclined to crow that the 1948 election majority in Michigan fully vindicated the press. Did not a majority of the voters favor a Republican nominee for President; a Republican nominee for the United States Senate; a substantial majority of Republican nominees for Congress, a 23 to 9 Republican majority in the State Senate and a 61 to 39 majority in the State House of Representatives?

Democrats point gleefully to the Truman upset in the face of pollsters' prediction of a Dewey triumph. And the surprise defeat of Republican Governor Kim Sigler by Democratic Nominee G. Mennen Williams is held up as proof of a declining press.

In both assumptions the power of the newspaper is predicted on a belief that the press influences through the editorial page. Actually such assumption is far off base.

Under the American plan the public wields power at the ballot box by strength of majority action. The people arrive at their decision, wisely or unwisely, as the result of information, right or wrong, as made available through various media of mass communication.

Such information appears in the news column; in pamphlets, magazines, on lecture platforms and motion picture newsreels; on the radio and waves, even over the back fence among neighbors.

If there has been any power, it has been the power of the PEOPLE.

This power is derived directly from NEWS.

A free press will continue to report honestly the news as it happens, and the American people will continue to arrive at majority decisions—right or wrong—through their own appraisals of the facts at hand.

agree or to disagree. He may even write a letter for newspaper publication.

If there is any mandate in the 1948 election, in Michigan or otherwise, it is a mandate for the press to report truthfully, to interpret honestly and to let the people choose their own path in the fulfillment of this mission lies the real power of the press.

You may not own a share of American Telephone and Telegraph Company stock or a telephone company bond, and yet you may be an investor in the Bell System and Michigan Bell.

Many banks and insurance companies are holders of Bell System securities. So, if you have a savings account or an insurance policy, indirectly some of your money may be invested in the telephone business.

But who are the other investors in the Bell System? Altogether there are more than 700,000 of them in addition to insurance companies and other financial institutions. They are school teachers, widows, housewives, farmers, mechanics, business men, telephone workers—people in all walks of life who have put their savings directly into Bell securities.

Few businesses in America are so widely owned by the people they serve. No one person or institution owns as much as one third of one per cent of A. T. & T. stock. There are about 75,000 more owners of the business than there are employees of the business.

These dollars from investors are important to good service. They are used to build and expand the telephone system. As a customer, you expect good telephone service. As an investor, you expect security and a fair return on your investment.

To the Editor

Hallendale, Fla.
This is to notify you that we are now settled in a very pretty court here. Close to Miami and Lauderdale. Weather is very warm but nice breeze in the shade.

We have received our Reford and will appreciate it if you will now send it to our new address, Hallendale, Fla. P. O. Box 1568.

Sincerely,

Mr. and Mrs. Earl Montgomery

One would think after several trips to the west coast all the way from fishing in Mexican waters to Seattle including visits to Pikes Peak, Mount Hood, Columbia Highway Drive, Yellowstone Park, Grand Canyon, etc. everything else would be commonplace. However we (wife and I) did not find it so.

We spent two weeks in Hollywood, Calif. which bears the same relation to Los Angeles as Dearborn does to Detroit.

The temperature averaged 70 in day time and 45 at night. Partly cloudy in AM then sunshine the rest of the day. No rain there since last April. The rainfall all last year was but seven inches, or about half average for one month. All trees, fruit, flowers and lawns have to be irrigated. There was a fierce mountain fire raging just north of Hollywood when we left Nov. 4th. It had covered some 1,000 acres and burned at least twenty five expensive homes of Hollywood Stars.

We made our second trip to exposition Park with its five acres of beautiful roses in full bloom called "Sunken Gardens". Also in the building were hundreds of pre-historic skeletons which had been removed from The LaBrey (lar) Pits not far distant.

Our visits to Long Beach and Santa Ana, each around 50,000 were interesting. At Santa Ana we went thru a juice factory. Did you know that orange peelings were as valuable as the juice? It is used for extracts, etc.

It is almost uncanny to watch the large cans come down the conveyor lying down, turn upright, stop and be filled with juice, go on and stop for pressed down cover, turn down and conveyed to be labeled and on to a shipping carton—all without being touched. All automatic.

We regretted not having time to visit the Planetarium, but we found it was open only Saturday and Sunday.

We left Los Angeles Nov. 4th on the Santa Fe Scout for stop off at Amarillo, Texas. This city of 32,000 population has doubled in size in ten or twelve years. We stopped at Hotel Irving, claimed to be the largest in N.W. Texas, and our Cousin came down from Guymon, Okla. 120 miles north by Buick to meet us.

The land around there is mostly flat semi-desert. Some years they have enough rain for a bumper crop (60 bu. to the acre) but some 3 years they are liable to have heavy blow, which will migrate the crops plus top soil to some place in Kansas.

"What is drilled eighteen inches apart 20 pounds per acre. It stools out 5 or 10 heads per kernel. The main industry is cattle raising. The cattle are turned into the wheat fields as soon as the wheat gets a start.

There are no houses and barns along the roadside every few rods like in Michigan. Ranchers own one to ten sections of land and live in the large towns.

Guymon, Okla. is in the heart of the new gas fields. Part of the gas we burn here is from this field.

On Nov. 6th there was a bad sand storm on No. 66 east of Amarillo Texas. Forty autos were wrecked. The damage to them was estimated as \$16,000 and to the farms \$1,000,000. A patrolman who stopped to investigate a wreck said he was fifteen mins. trying to find his own car and it was but fifteen feet away. A sand storm is bad for the eyes, for lungs and for engines.

After our visit to Guymon our cousins took us by auto 145 miles east to Woodward, Okla. This little city of seven or eight thousand people was almost completely razed to the ground a year ago last spring by a cyclone. 123 were killed. The city has been almost entirely rebuilt. Very little evidence of the disaster remained.

If time and space permitted, I would like to tell you of a number of prosperous farmers near Mayville, Mich. who sold out and bought and built in this Texas panhandle, only to lose their wad. Only one house and a few windmills and broken apple trees remain to tell the story. None of them still there. Some were our relatives. Remember land agents tell all the good points but none of the bad. And "The grass is always greener over the fence."

Our visit to the Truman home near Kansas City also our visit at Siloam Springs Ark. and the Ozark Mountains will have to be omitted this time.

SOMEONE AT CHRISTMAS

By CARLE FREEMAN

THE little gift shop was crowded when Nancy entered it, but almost immediately she noticed Larry Bryant. She sensed the usual disturbance at sight of him, and recalling the trend of her thoughts for the past several minutes brought a flush of warmth to her cheeks. She'd been thinking, somewhat resentfully, as she went along the busy streets of the little town, how unfair it was that Christmas had come before she could get acquainted with someone in Davenport. Larry Bryant, for instance, department head at the electric plant where she worked. Christmas wasn't Christmas unless it could be shared with someone.

And now Larry was standing at the dish counter deciding about a pair of little green rabbit salt and pepper shakers. It didn't matter particularly that he'd buy the shakers—aside from the significance of such an act—but she'd had her own heart set on them more or less for a week. Larry had been in the shop every afternoon that she'd been there, but this was his first time at the dish counter. The little shakers were as good as gone.

The other day when she'd looked at them, the sales girl had said, "Better buy them. These are the last ones, and they are a bargain at eight dollars. They came all the way from Sweden."

"I know," Nancy had said, but she'd thought they'd be an extravagance and look out of place on the little table in her corner kitchenette, at Lil Ransom's old rooming house. There they'd be no one to admire them—only herself.

"They might be gone the next time you come," the girl had said when Nancy left the counter.

But they'd been there, the next time Nancy went back to the little gift shop. Every afternoon for a week they'd been there, as if awaiting for her to make up her mind to buy them.

Nancy held her breath as she watched Larry from a distance. For now she knew that if he didn't take the shakers, she'd buy them herself.

But even as Nancy watched, she saw him hand the shakers to a clerk.

She tried to push her disappointment aside and select an inexpensive little gift for one of her co-workers at the plant. Tomorrow was Christmas Eve, and the employees and officials of the plant had drawn names as part of a gift-giving program they'd planned to have about the huge, gayly decorated tree in the arched entrance.

Nancy dreaded the occasion, more so now than before. She regretted the day she'd left her home town to take a better job in Davenport. Why hadn't she waited until after Christmas to make the change?

When the time came the next day for the program, Nancy took the gift that was handed to her and slipped from the crowd. She wouldn't be missed, she thought bitterly, as she hurried from the building. Snow fell softly about her in a gentle burst from the dark sky, and the ring of voices from the plant followed her in a kind of haunting, sad beauty.

Inside her apartment she looked down at the gayly wrapped package in her hands through a blur of tears. It was the only Christmas gift she'd received, and it had been given only because someone had drawn her name.

She unwrapped the package, and suddenly the blur cleared to reveal the little green rabbit salt and pepper shakers with the long, saucy ears—one up and one limping down provocatively.

Her heart thumped in her throat. Larry had drawn her name. But the cost of the gifts they were to exchange was not to go over twenty-five cents!

Lil Ransom called up the stairs. "You're wanted on the phone, and it's a man."

Nancy placed the little shakers carefully on the table and turned to the door. The hum of "Silent Night" came from Lil Ransom's radio up the sweep of stairs, and Nancy found herself singing the words softly as she dashed down them, for she knew even before she heard his voice who was waiting for her on the telephone.

Parents Can Spoil Children's Play

Here's a Christmas resolution for parents. It's one that ought to be made before New Year's resolutions are even considered. It goes, "I will keep my hands off the children's toys all day on Christmas."

It'll be a hard one to keep because Mother likes to fuss with Ann's doll. She pretends she is showing Ann how to put on the bonnet, but she's actually having a grand time playing. And once Father gets his hands on the train, or the auto that winds up, the boys can't get near them.

It isn't fair. The children are crying for a little peace and freedom. After all, adults can play with toys for the next 364 days if they want to.

CHRISTMAS MOTHER'S DAY

In Yugoslavia, the second Sunday before Christmas is celebrated as Mother's day. While mother presents not to notice, one of the children slips in cautiously and ties her feet to the chair. The other children rush in shouting, "Mother's day! Mother's day! What will you pay to get away!" The mother then buys her release with Christmas gifts.

At the present-time Plymouth city commissioners are working on a plan which may culminate in what they term as a "long needed street improvement program."

City Manager Harold Cheek is now securing estimated costs from several engineering firms for the preparation of plans and specifications for such a program.

Although an official count of successful Plymouth hunters is impossible, a brief survey in the city last Monday revealed that at least 36 hunters had hit their mark and returned with a buck.

"Education is public business," not a job for a professional few, every citizen in this community can and should have a voice in its program.

Thus, George Hubbell, trustee on the Huron Valley School board, summarized the intent and purpose of a Citizens' committee called together last Monday night at the Highland school to review the needs and program of the local school district.

Richard Frank, who has just returned from Europe, states that of the thousands of miles he traveled, by boat and railroad, that the best ride of his entire journey was on the "Streamliner" between Detroit and Howell. Mr. Frank arrived in Howell the first of last week after spending six weeks abroad.

Howell's National Guard unit is included in the reorganization of the three Infantry Regiments in the State's 48th Division. The major change effective as of November 1, makes the 48th Division correspond with the new regular army structure.

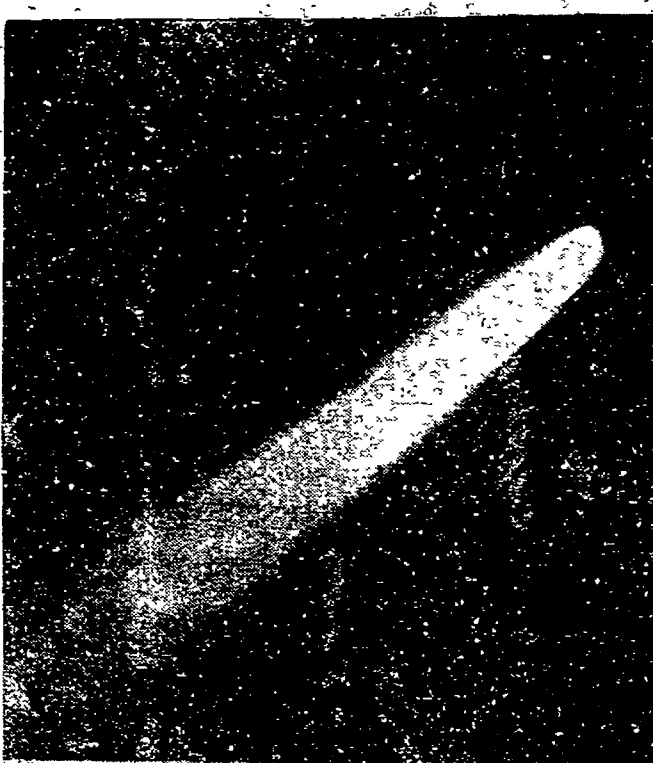

James A. Clapper, age 67, was found dead by Mr. and Mrs. Burt at their residence at Grand Ledge about 11 o'clock last Saturday night.

Clapper had been living at the Burt residence since coming here Sept. 1 to work as a cabinet maker for the Burt Lumber company. He came here from Charleston, West Virginia.

A meeting to formulate plans for conducting a blood donor program in Eaton county called by Elmer Kadel, chairman of the Eaton county Red Cross chapter, was held with the Red Cross committee Tuesday night in the community room at Charlotte. Out of town speakers were G. W. Jones, field representative, and Mr. Helen G. Anderson, general.

NEW COMET Here's a photograph of that new comet which appeared a few weeks ago and was described by astronomers as "the most beautiful of this generation." This picture was made at Mt. Palomar, Calif. An exposure time of five minutes was used, which accounts for the white marks throughout the picture. They're stars. The comet was visible in most parts of the United States.

field representative in southern Michigan for the Red Cross.

At a special meeting of the Clarenceville Board of Education, held last Tuesday evening, final plans for the new gymnasium-auditorium building were studied and approved.

A representative of Jensen and Keogh, school architects, appeared before the board to explain the details of the plans. Preliminary plans have already been submitted to the Board and several changes made. Approval of the final plans has to be made before further action can be taken.

Efforts are being made to secure several outstanding local entertainers to be featured on the Farmington Christmas party program to be held Sunday, December 19, at the Farmington High School auditorium. It was announced this week by the committee.

First in a series of public hearings in connection with a Master Plan which would rezone virtually all Dearborn upward, placing restrictions on construction in many areas, will be held Monday, December 6, at 8 p.m. by the City Plan Commission in City Hall.

At that time the commissioners will hear objections to their proposal to change the Last Dearborn area bounded by Michigan Avenue and Ford, Cass and Schaefer roads with the exception of the business frontage, from its present classification of mixed residential B and C to solid residential B.

The Wayne Board of Education at a regular meeting held Monday, November 22, unanimously agreed to submit its program for improvement of school facilities to the voters of the Wayne School District.

Approval of Wayne area voters will be sought at a special election which will be held on Monday, January 17, 1949. This is the first issue of its kind to go before the voters of Wayne.

Monguagon Township will start its annual tax collection Dec. 1 with \$632,920.61 the amount of the total levy.

Tax bills were received in Trenton last Friday, according to Francis S. Thomas, township supervisor. Billing is done by the county.

A sagacious Birmingham Board of Education and Superintendent of Schools, in the comparatively short period of the past six years, has done such a remarkable job in paying off the school district's indebtedness that it will be ready to embark upon a much-needed high school building program late in 1949 or early 1950.

The housing program that has been started for the city of South Lyon is progressing very satisfactorily, according to Dewey P. B. stop, who has been instrumental in getting the project started. Arrangements are being made whereby anyone interested in buying a home will be able to have these homes, erected and ready to live in, in a very short time. The homes are of prefabricated construction and are delivered from the factory to the building location in one complete package. At the present time there are nearly 50 interested buyers.

Complaints of Bears Near Jackson Area

Although bears are seldom found in southern Michigan numerous complaints that animals are lurking in the Jackson area have been investigated by the conservation department. In every case investigators have found nothing to lend credence to these claims.

Of 30 reports from persons in the area, 20 have been investigated by Derrell Kniss, trapper-instructor for the Jackson district. Kniss reports that none of the usual "tell-tale" signs of bear, such as large tracks, droppings, broken fruit tree limbs and pawed stumps and logs were found.

Some of the complaints investigated by Kniss and other conservation field men were that, in addition to menacing children, bear were damaging poultry and livestock. Substance of many of these reports, Kniss claimed, was that complainants thought they had seen big black animals at night. Tracks that were found usually turned out to be those of dogs or raccoons.

Since the tragedy at Brimley in the upper peninsula people

are becoming bear-conscious and are seeing animals that don't exist, according to D. F. Switzberg, investigator for the department's game division.

Notwithstanding the fact that bears are seldom found south of the Bay City-Ludington line the department investigates all complaints. Persons can help the department by being more careful in reporting that they have seen bear. Kniss also has seen some of the "tell-tale" signs.

IN MEMORIAM
In memory of our loving son and brother, Ronald, who passed away nine years ago, Dec. 1, 1939.

The month of December is here again; the saddest of the year. The sun and moon are shining on a lone and silent grave. Beneath lies one we dearly loved. But whom we could not save. Friends may think we have forgotten.

When at times they see us smile Little do they know the heart-ache That our smile hides all the while. The Beasley Family. 26x

OBITUARY

HARRY C. ROBINSON
Villagers will be saddened to learn of the death of Harry C. Robinson of Plymouth who succumbed at the age of 85 years after a short illness at St. Joseph Hospital, Ann Arbor, Sunday night.

The remains lay in state at the Schrader Funeral Home, Plymouth until the funeral Wednesday afternoon. Rev. Henry J. Welch of the Presbyterian church officiated and interment was made in Riverside Cemetery.

Mr. Robinson is survived by his wife, Mrs. Lillian Robinson, a daughter, Rose Hawthorne and a sister, Mrs. Joe Robinson and a host of other relatives and friends.

He was a lifelong resident of Wayne County and Plymouth and for more than half a century he conducted hundreds of farm auctions. He was born April 5, 1863 in Lansing and was married August 16, 1888. In the past he has operated a livery stable and the old "depot bus". An ardent sports fan, Mr. Robinson was active in the Northville Fairs. He and Mrs. Robinson recently celebrated their 51st wedding anniversary.

The world's first Christmas cards with religious designs were published in Belfast, Ireland, in 1875.

Americans will spend more than \$50,000,000 this year for stamps to mail their Christmas cards. This provides about one-twentieth of the Post Office Department's total annual stamp revenue.

New Year's greeting cards make unique place cards when setting your table for a New Year's Eve party.

Early American Christmas cards are rare and valuable collector's items.

Uncle Remus Author Centenary Observed

One hundred years ago, Dec. 9, was born the man who wrote the Uncle Remus stories, James O. Berry. He was born in the slave quarters, he listened in the evenings to African legends of animal lore. In later years he wrote them out and put them in print just as he heard them, preserving the quaint humor. Given in the dialect of the cotton plantation, we must use our ears.

As a small boy, Joel lived on a plantation. It was there that, from a chimney nook in the slave quarters, he listened in the evenings to African legends of animal lore. In later years he wrote them out and put them in print just as he heard them, preserving the quaint humor. Given in the dialect of the cotton plantation, we must use our ears.

not our eyes, to get the full flavor of the story and it is for that reason, Marie DeAgostino, children's librarian at Northville, says that the Uncle Remus tales are loved best by children when read aloud.

At his birthplace, Eatonton, Ga., the anniversary will be marked with the issuing of a special Joel Chandler Harris postage stamp.
