35 Year Ford Men To Receive Watches

An announcement from the Ford Motor Company recently stated that the policy of presenting suitably engraved watches to

men and women in recognition of 35 years of service with the company will be resumed as soon as necessary details can be completed.

The policy is retroactive to January 1st, 1947, which means

that those men and women who did not receive watches in recognition of 35 years of service in 1947 and 1948 will receive their watches sometime during the early part of 1949. This will include more than 950 employees.

Men and women whose 35th anniversary with the company occurs during 1949 will receive their watches at the recognition dinner late in 1949.

Those from this area who are scheduled to receive service watches and whose anniversaries fell during 1947 and 1948 are: James Norman, Benjamin Mireck and Jerry B. Hicken Waterford, and Anthony Bender, Northville. Edward Long, Northville Plant, marked his 30th year with the company on February 12 and Alfred Hawley completed 25 years work at the local plant on January 11.

The celebration of Labor day was inaugurated by the Knights of Labor in New York City in 1882

Latest racket by bell-pushing salesmen in Michigan: Salesman poses as interviewer "taking a poll". Housewife is led to believe that if she will "mail in her vote" on her favorite radio program (with a dollar each week), she will receive whatever the salesman is selling. Of course, she is asked to sign a contract which may trick her into buying something which in some cases runs over \$150.

Another "painless" tax solution for Michigan's financial mess is now suggested by former Lieutenant Governor Vernon J. Brown. Brown would abolish the retail sales tax and adopt, as its substitute, a one per cent levy on the gross value of all manufactured products to be paid by consumers. Opines Brown: "Michigan will have all the money it needs for itself and enough for cities and school districts. Most of it will be paid by consumers who live in some other state and in countries all over the world."

Inflation note. County supervisors are to get \$8 a day, instead of \$6, in a bill approved by the House of Representatives at Lansing and likely to be OK'd by the Senate.

Governor Williams plans to appoint eight study commissions to investigate such state problems as higher education, state services and expenditures, aid to local governments, state and local tax structures, youth guidance, legislative reorganization and judicial services.

Several veteran Lansing observers report growing opposition among legislators to Governor Williams' proposal of four per cent tax on corporation profits here as the reasoning. Michigan leads all other states in per capita income from manufacturing. It ranks fifth in number of wage earners. Why invite Michigan and its tax to decentralize or migrate to other states when such a tax would only reduce employment and curtail industrial wages at home?

The resolutions committee of the Republican state convention has opted by majority decision to move to stir up the membership of the C. I. O. prior to the primary election by attacking the C. I. O. "domination" of the Democratic state convention. Political strategy will be to get out the rural vote. Legislative enactment of the colored oleomargarine bill was in line with this thinking. Legislators feared an impending referendum would cause city voters to flock to the polls.

The Michigan dairy industry, which has opposed sale of oleo colored to resemble butter, puts a valuation of \$187,128,000 on Michigan's 889,000 milk cows which produced 2,650,000,000 quarts of milk in 1947. Production per cow was 2,679 quarts, a new record. Dairy farmers' income totaled \$208 millions.

The state legislature is asked to appropriate \$1,000,000 for the

proposed Detroit International airport below Windsor. Airports in Michigan would get \$1,889,350. Another illustration why cost of government is increasing. Congressman Dingell (D., Detroit), member of the House ways and means committee with Rep. Woodruff (R., Bay City), believes Congress will pare down the \$150 maximum monthly insurance pension to retired workers as proposed by President Truman. This amount would be paid to workers whose average monthly wage had been \$300 or more for 12 years. The \$100-per-month worker would get an insured pension of \$80 instead of \$49, \$200 monthly wage, \$126 instead of \$88. These pensions are financed by payroll deductions.

Records of campaign contributions and expenditures should be kept on file for a minimum of six years, so recommends Circuit Judge Herman H. Dehnke, Harrisville. Dehnke served as a one-man grand juror in Macomb county to investigate Macomb gambling alliances with law enforcement officials. He said testimony showed payment of money to public officials and that campaign records were missing.

Michigan municipalities received \$2,750,000 last year from liquor license fees for the sole use of liquor law enforcement. The enforcement staff of the state liquor control commission was cut recently in a move to force municipalities to assume responsibility for law enforcement, as intended by law.

It's hard to believe that electric rates of the Consumers Power Company have not been increased in 27 years. But such is the record. This utility has applied for permission to increase revenues \$6,600,000 annually through a monthly boost, 30 to 75 cents, for small to large householders.

MOW CURING CUTS DOWN MY FIRE WORRIES!

DUCT SYSTEMS ARE EASY TO INSTALL - ECONOMICAL TO OPERATE

FOUR OTHER ELECTRIC HAY DRYING ADVANTAGES

- Cuts down weather risk—permits cutting at right stage of maturity; eliminates loss from rain, dew and excessive bleaching; saves hay losses in bad weather.
- Improves hay quality—eliminates leaf shattering, sun burning; assures more leaves, more color, gives increased food value, increased market value.
- Saves money—makes money!—small investment, low operating costs; pays for itself in one season. Farmers claim \$5 to \$10 more per ton for mow-cured hay.
- Easy to Set Up—any size barn will do; no boilers or coils needed; ducts are easy and inexpensive to build. Mow-curing requires no change from your present system of making hay.

Can be used with long, clipped or baled hay.

ELECTRIC HAY DRYING REDUCES CHANCE OF SPONTANEOUS COMBUSTION

Electric hay drying eliminates losses from spontaneous combustion, by keeping hay at controlled temperature. Mow curing dispels your fire worries . . . assures greater safety for livestock, buildings and crops.

Mow-cured hay is safer to store, and is superior to field dried hay. The wooden duct work and electric blower are easy to install. They pay for themselves in a surprisingly short time.

For full information see your Edison Farm Service Advisor without delay! He can give you practical help in planning a low-cost curing system for your farm.

AMENDMENT TO ORDINANCE NO. 124

AN ORDINANCE TO LICENSE AND REGULATE TAXI CABS IN THE VILLAGE OF NORTHVILLE, MICHIGAN. THE VILLAGE OF NORTHVILLE ORDAINS:

secured from the Chief of Police a certificate certifying that public convenience and necessity require the operation of the taxi cab. In determining such public convenience and necessity, the Chief of Police shall consider the number of taxi cabs then operating in the Village of Northville and whether the demands of the public require additional taxi cab service, the financial responsibility of the applicant; the number, kind, type and equipment of those taxi cabs for which licenses are asked, the traffic conditions in the Village of Northville, whether the additional taxi cab service will result in a greater hazard to the public; and such other relevant facts as the Chief of Police may deem advisable or necessary.

It is hereby declared to be the sense of this Village Commission that there should not be more than one (1) taxi cab for each 1,000 to 1,500 population to be serviced.

As existing license shall not be refused renewal merely on the ground of lack of convenience or necessity. However, in issuing new certificates, preference shall be given to applicants then owning or operating taxi cabs. The recommendations of the Chief of Police on the question of public necessity and convenience shall be reviewed by the Village Commission upon the issuance of any license. Upon transfer of ownership of any taxi cab, transferee may make application to the Village Clerk for a new taxi cab license only after old license for said taxi cab shall have been surrendered. Upon the furnishing of evidence that a licensed taxi cab, by reason of destruction or otherwise, is no longer to be used as such, the license may be validated by appropriate endorsement thereon by the Village Clerk for use on another taxi cab if owned by the same licensee.

Upon the death of any person owning a vehicle licensed hereunder, upon receipt of satisfactory evidence of such death at the request of deceased's personal representative, the Village Clerk may validate by appropriate endorsement such license in the name of the person in whose title said vehicle vests, by reason of such death. In no event, however, shall any transfer be made as hereinbefore contemplated until said transferee complies in all respects with the terms and provisions of this ordinance. For every transfer of license, the Village Clerk shall collect from the applicant a fee of Three (\$3.00) Dollars each.

Made, passed and adopted by the Village Commission of the Village of Northville, this 7th day of March, A.D. 1949, and to become effective twenty-one (21) days thereafter.

CONRAD E. LANGFIELD, Village President; MARY ALEXANDER, Village Clerk
