

Nation Will Honor New Citizens On 'I Am An American Day'

BY presidential proclamation, May 15 has been designated as "I Am An American Day" to be observed nationally in recognition of those who have become of voting age and those among the foreign-born who have been naturalized during the past year.

In his proclamation, President Truman calls on federal, state and local officials, as well as all patriotic, civic and educational organizations, to conduct exercises on or about May 15 "in which all our people may join with those who have newly assumed the responsibilities of American citizenship in dedicating themselves to the pursuit of peace, security and happiness for Americans and for people everywhere."

The following "Creed of Americans" emphasizing the significance of American citizenship, was drawn up by a group of Americans of Japanese ancestry in Hawaii a few months after attack on Pearl Harbor.

Creed of Americans

I am an American.
Recognizing the hospitality accorded my parents, the freedom granted them to improve their economic status and to live the better life;
Recognizing the privilege of my birth on American soil;
Recognizing that this privilege has given me opportunities of free education, the freedom to choose my occupation, independence of religious belief, and the right to independence of thought and action; and
Recognizing that my country faces the peril of losing for me and all other Americans these precious liberties guaranteed by the Bill of Rights—
I pledge anew my loyalty to the United States, and my faith in its ideals and institutions.
I am ready to die for my country, if necessary, to perpetuate that for which it stands.
I am ready, likewise, to live for my country in any capacity of service I may be called upon to render.
I will cherish, always, the Stars and Stripes as symbols of all that I wish to believe, all that I wish to be.
I am an American!

Need for Additional Grade Building Classrooms Seen

(Believing the entire community is interested in the welfare of our public schools, the Record is pleased to present as a matter of public service a series of articles dealing with the problem of classrooms for the grade school and the solution being worked out by the Board of Education. Watch for these articles each week. The Editor)

When the present grade school building was erected in 1936-37, it was then as it is today, a model grade school building. Extra rooms were provided to accommodate the reasonably anticipated growth in school population. The increase in the number of pupils in the grade school has been far greater however, than could have originally been foreseen. The condition is one faced by many localities due to the war with the resulting shifts in population, increased marriages, etc.

Originally, the so-called extra rooms were put to good use as a music room, an art room and a library. As the pupil load increased these special uses of the rooms were discontinued until all but the kindergarten room, including the kindergarten room, were used for actual classes. Soon it was necessary to find class room space outside of the building and arrangements were made with the Village to rent the house commonly known as the "Brock House" just east of the high school. Continued expansion was necessary and the Board of Education is now renting all three houses on Main Street between the Village Hall and the high school and conducting classes on the ground floors of the houses. During the coming year 1949-50, it will be necessary to conduct five classes in these three houses which will use up all the available space in them.

This means that during the coming school year there will be five full time teachers handling approximately 150 students attending full time classes in these three houses. Automatic heat has been provided in each of them by the installation of stokers. Extra toilet facilities have been provided. Health lamps have been installed. Precautions have been taken for the health, safety and welfare of children who must attend school in these houses, but they are definitely substitute and temporary quarters. A casual inspection will disclose the difference between these temporary quarters and those occupied by the other grade school students in the grade building proper.

According to present estimates, twenty actual class rooms for use by regular grade teachers will be needed by 1951. This does not include any rooms for use as a music room, art room or a library. National statistics indicate that the largest grade school enrollment will occur about 1953 with a slight decline thereafter.

With the available space in the three houses being used to capacity during the coming school year it is obvious that some measures must be taken to obtain additional temporary space or provide permanent class room space. Construction of additional facilities during the last years of the war and immediately thereafter was out of the question. Building material is now more easily obtainable and construction costs are being stabilized. Under these conditions it is the opinion of the Board of Education that a program should be entered into for the erection of a permanent structure to take care of grade school children.

The Board of Education has plans for a proposed nine room addition to the present grade school building. An explanation of the plan and the facilities which it will provide will be covered in a subsequent article. Look for the article next week on the subject - "Will the Elimination of Tuition Students Avoid the Use of Temporary Space by the Grade School and Eliminate the Need for Additional Construction at this Time?"

EDWARD H. LAPHAM, who died Sunday, May 8 at Sessions Hospital

Death Comes to Edward Lapham

Funeral services were held Tuesday afternoon from the Castleline Funeral Home for Edward H. Lapham, aged 75, lifelong resident of Northville, who passed away at Sessions Hospital Sunday, May 8.

The son of Mr. and Mrs. J. G. Lapham, Mr. Lapham was born June 14, 1873 in the house on High Street where he resided all his life.

Upon graduation from Northville school, Mr. Lapham started his banking career in October, 1891 Northville's only bank for many years was the private one owned by Jared S. Lapham, and Edward Lapham became a clerk and teller continuing on in the employ of William G. Lapham, who succeeded as head of the bank upon his father's death.

Following health of the new president brought about the sale of the bank to the Northville State Savings bank and Edward Lapham moved to Detroit where he became connected with the Union Trust Co. for two years. Upon the urging of a group of Northville's prominent citizens he returned to Northville in 1907 and organized the Lapham State Savings Bank. The name was used in honor of Jared S. Lapham, and the bank was successful and prosperous for twenty-four years. Then along with many others, including the Northville State Savings, it was closed by order of the State Banking Department in 1931.

Mr. Lapham worked unceasingly for the next three years to help re-open the two banks; his efforts finally resulted in the organization of the present Depositor's State Savings Bank, of which he became vice-president, holding that position until his retirement in 1943, after 52 years in banking offices. He remained on the Board of Directors until two years ago, when his health prevented any further active participation.

Mr. Lapham was a life member of the Masonic Lodge and a charter member of the Northville Rotary Club. He was also an active member of the Presbyterian Church.

Surviving the deceased are: the wife, Mrs. Ethelwyn Duber Lapham; one daughter, Mrs. E. A. Chapman of High Street; one brother, Eldridge Greig Lapham of Elkhart, Indiana and one grandson, Greig Lapham Chapman.

Rev. Harold Fredsell officiated at the funeral services Tuesday and burial took place at Rural Hill Cemetery.

Repairing the White House Discussed by Congressman

Congressman George A. Dondero, discussing the contemplated repairs to the Executive Mansion, better known as the White House, said: "I was one of the committee which inspected the mansion at the request of the President, looking toward necessary repairs. We found it in extremely bad condition."

"Our White House is one of the shrines dear to the hearts of the American people. It has been the home of our Presidents and their families since 1800. It is a symbol of our American way of life. Each year a million Americans come to Washington to see the White House, and it is familiar to millions more who love its simple dignity. It is alive with human interest stories connected with those who have lived within its walls."

The Federal Works Agency has estimated that it will cost \$5 million to restore the White House. The building contains 70,000 square feet and covers nearly two acres of ground. It was begun and its cornerstone laid in 1792—157 years ago. Construction was slow because of money shortage of skilled labor, and transportation difficulties.

"Legislation has been enacted calling for a Commission of six (two to be appointed by the Speaker of the House, two by the President of the Senate and two by the President) to determine whether it is best to completely modernize the old building leaving the outside walls as they now stand or to tear down the old building and build a modern one. The inside walls with their beauty can be preserved and the old building can be modernized making it as good as new—a building that should last 500 years under present construction—at an estimated cost of \$5,000,000. It could be torn down and completely rebuilt for less than \$5,000,000—quite a saving. I believe the American people would rather have the grand old building with more of its beautiful inside wall paintings and designs. The House of Representatives has approved the appointment of such a Commission and it is now for the Senate to do the same."

"The building itself, however, has made safe for its occupancy. As I noted before, the mansion is in bad condition. The ancient timbers are split, some of the floors have settled as much as three inches, and the floor walls have pulled away from the structure. Evidence of smoke and charred wood still remain from the burning of the building by the British in 1814. The original gas pipes for lighting, installed in 1848, are still there. Three-inch steam pipes run through the President's room and others are some a foot from the walls—are bare and exposed. Many of the guest rooms, where representatives of foreign nations are lodged when here on missions of one kind or another, are a disgrace to this the most powerful nation on earth. Much of the plumbing would not be acceptable to the average American in a cottage or apartment."

"I have tried to give you a picture of conditions as they exist in the most important dwelling in America, as I saw them on my recent inspection tour."

Service men's Readjustment Allowances
Since the first payments under Title V of the Service men's Readjustment Act of 1944 was made in September, 1944, through 1948, a total of \$128,994,230 has been paid in allowances to over 396,000 veterans in Michigan. Fifty-six per cent of the veterans in Michigan drew benefits. These

payments represent 6,411,204 weeks of compensation payments. The average amount paid to claimants was \$325 for the four-year period.

A report from the Michigan Unemployment Compensation Commission states that Michigan World War II veterans have not abused their rights under this Act and that, for the most part, these payments have been used wisely.

Gail Peters, daughter of Mr. and Mrs. F. Alton Peters of Fairbrook Ave. has been selected by the group to attend as a representative of the Northville High school.

The Mother and Daughter banquets which were held at the Methodist and Presbyterian church houses were both very well attended, each house quoting an attendance of about two hundred persons.

announced his acceptance of a unanimous call to the pulpit for an unlimited period.

Monday - morning saw the start of the Northville School's Bond drive for the Fifth War Loan.

Members of the Northville Rotary Club entertained at "ladies night" Thursday. The usual fine Methodist dinner was served and the members and guests heard a talk by Austin Grant, radio announcer for WWJ.

Lawrence Bogart, SF3/c is now stationed at Orange, Texas. He is the younger son of Mr. and Mrs. E. M. Bogart of North Center Street.

TEN YEARS AGO

X-Rays Advance Medical Science

Of all the brilliant scientific achievements of the last half-century few have proved more significant to human well-being than the discovery of the x-rays. Since the passing of this scientific milestone, the department of radiology has become one of the most important of the diagnostic and therapeutic facilities of the modern hospital.

The radiology department of the new Oakwood Hospital, to be constructed in Oakwood Boulevard will serve practically every other unit in the hospital. In it will be concentrated all the complex equipment needed to harness radiant energy, including the penetrating x-rays for use in the detection and treatment of disease.

X-ray technicians in Detroit hospitals sometimes make surprising discoveries.

Recently an x-ray photograph taken at Mount Carmel Mercy Hospital in Northwest Detroit revealed that a small boy had swallowed a penny. A doctor removed the penny. A second picture was taken and to everyone's surprise, a second penny was visible. This was removed. Then a third picture showed a third penny which was removed. The three coins had been taken on top of the other.

A woman patient at Grace Northville complained of a bad sinus condition. An x-ray picture showed that three lead wires had been in the bones of her face. She explained that ten years before, a man had hit her in the neck and ran away, thinking he had killed her. The bullet however, which had entered through the neck had come out through her cheek and she was not badly injured. Only the x-ray picture revealed that her sinus condition was due to lead poisoning.

However the x-ray machine has many uses - besides finding bits of metal lodged in the body. For many years it has been used for detection of broken bones or to help in the diagnosis of internal disorders. Early in this century it was discovered that x-rays were frequently effective in the treatment of cancer.

In the 1920's deep therapy came into use following the development of the high-voltage x-ray tube. For a tumor deep in the body, the lower frequency x-rays are eliminated by an aluminum and copper filter and the remaining higher frequencies pass harmless through surfaces and intervening tissue until they reach the depth at which they are effective. At the present time x-rays are used for many disorders besides cancer, including arthritis, bursitis, shingles, hyperthyroidism, infection, scars and warts.

Toward the construction of the new Oakwood Hospital \$3,000,000 has been allocated by the Greater Detroit Hospital Fund. The Fund is beginning a program to raise \$19,720,000 to help build four new hospitals, including Oakwood and expand ten existing ones in metropolitan Detroit.

Club Skeet Shoot Is Scheduled May 15

The first trap and skeet merchandise shoot of the year to be held by the Wayne County Sportsman's Club at its trap and skeet field, off Inkster Road a mile and a half south of Eureka Road, has been announced for Sunday, May 15, by Wayne County Sportsman's Club-Trap and Skeet Committee Chairman William H. Hines.

A second skeet field and fourth trap layout are being added to those already in operation and a large shelter house is to be built at the field, which with the addition of rifle and archery ranges and a bait and fly casting pool, will be known as the Wayne County Sportsman's Park.

Skeet Merchandise shoots will be held on June 12, July 10 and 31, and on August 14 and 28. Trap merchandise shoots will be held June 5 and 19, July 10 and 31, and on August 14 and 28. There will be shooting for members and guests every Saturday and Sunday throughout the summer.

So necessary has become the need for additional parking facilities between the "civic center" and the downtown area of Plymouth, the Planning commission has called for a public meeting on the question at its next regular meeting to be held about the middle of May.

The area under consideration is that section of vacant ground lying between Main and Union streets and Penniman avenue on the south and Dodge street on the north.

William Andrus, 26, and brother, Donald, 23, were arraigned last Wednesday before Justice Fred K. Cronenwett and charged with the murder of Frank Cline, 86-year-old Brighton merchant April 26. Both men stood mute and a plea of not guilty was entered for them.

Straw's Cheaper

By The Old-Timer

May 15, besides being "I Am An American" Day by presidential proclamation (it's also known as Citizenship Day), is also observed nationally as Straw Hat Day (but not by presidential proclamation)—the traditional time for all good men to discard their drab felt fedoras and bring their bright straw headdress out of hibernation.

Like the Old Gray Mare, straw hats ain't what they used to be. And Straw Hat Day, it seems, is fast becoming a custom more honored in the breach than in the observance, for it's the fashion nowadays for men to sport their straw hats prematurely, flaunting long established tradition.

I, for one, remember when it was an occasion—a welcome opportunity and an excuse for men to wear their summer straws proudly, without shame or sham. They don't wear those rakish, hard straws anymore. They wear, instead, cheap, loosely-woven, floppy, sloppy "panamas." I also remember when panamas were really imported from Panama.

Even faithful Old Dobbin used to sport a new straw-hat on Straw Hat Day. And every "Candy Kid," as we called dudes in those days, wore a wide-brimmed sailor with a cord holding it to his coat as protection from loss while riding a breezy, open-air street car.

Check with your county agricultural agent to find the location and date of the nearest Grass Day demonstration in your area during late June.

Single Color Is Painting Trend

One of the bugaboos that continually worries the homeowner who is about to redecorate, is the proper selection of suitable colors, according to George Clark Hardware Co., local BPS Paint Dealer.

Usually the first step is for her (and we use her advisedly because in most cases it is the woman who decides) to go to her favorite paint store and get a handful of color cards. Armed with a 100 or more color possibilities she returns home and begins the long task of selecting the two or three colors that she believes will give her room the most charming appearance.

Modern decorators must have been thinking about these women when they created the new modern motifs in home decoration. They have that rooms look far more spacious and far more inviting when they are completely done from the ceiling to the floor in one color.

They also sight other advantages of this single color trend, especially for the older-type home. They find the single color technique eliminates most of the "eye-scrubbing" obstructions in the room, such as, radiators, woodwork, ceiling moldings, odd-size doors, window seats, and bookcases.

Until recently the decorators' recommendations were not too easy to carry out with good effect. It was simple to suggest using the same color throughout a room, but it wasn't practical to use the same interior finish. Some surfaces required a flat finish, such as walls, others a high-gloss, such as woodwork and radiators, and still others needed an in-between satin finish.

Matching colors had to be mixed, and then in many cases they did not perfectly match. Since the introduction of Identically Matched Colors by the Patterson-Sargent Company, makers of BPS paints, modern decorating is a snap.

The whole color problem is solved by simply selecting the one color you like best for your room. There's no need to spend hours trying to select the two

or three colors that fit your room best.

Once the color is selected, you are sure of the same color in a flat, or a satin, or a high gloss finish. There's no need for messy mixing and matching. You can use all three finishes wherever you choose and always be sure of a perfect color match.

Idtse, Secretary of The Brown Swiss Cattle Breeders' Association, Beloit, Wisconsin.

Rural Tele-news

WHO is your telephone company?—Ever stop to think who installs your telephone... who makes repairs to your line when they're needed... who at the switchboard handles calls to and from your home... who works in your local telephone business office? They're folks just like yourself. They may even be friends and neighbors of yours. And they're interested in providing you with friendly and courteous telephone service at all times.

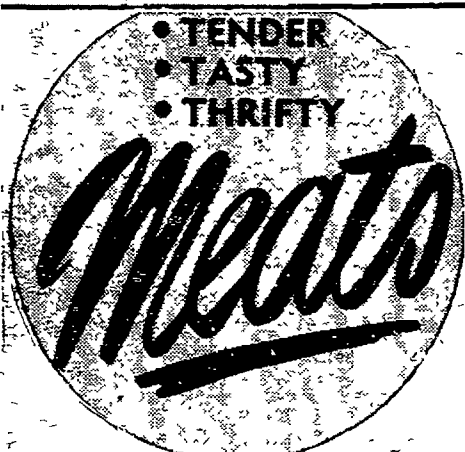

IT'S NEWS TO YOU!—A lot of the items you read in your newspaper come in by telephone, or the paper's staff obtains them by telephone. Teleprinter machines operating over telephone lines send news all over the country from the press associations. Even many of the pictures appearing in newspapers are transmitted over telephone lines by wirephoto.

NEIGHBORLY SHARING LETS YOU REACH THE VET IN A HURRY—When you have an emergency, such as a horse suddenly taken sick, you want to reach the veterinary in a hurry. It means a lot to be able to put a telephone call through right away. Courteous sharing of rural lines makes everyone's service good. Spacing out calls... giving up the line when others have emergency calls to make... always being careful to hang up the receiver after each call... are neighborly ways of sharing the line.

Plans For Girl Scout Camp Sessions

Girl Scout Day Camp will be held again this year at Cass Bend Park from July 5-7 and 12-14. The hours are from 9:15 to 3:30.

The Scouts and Brownies will meet in front of the Grade school to go out to camp. Permission blanks will be issued within the next two weeks.

Day Camp committee consists of Mrs. G. V. Harrison, chairman; Mrs. Tecla Owen, registrar; Mrs. Maxwell Ausun, purchaser; and Mrs. C. D. Yahn, day camp director.

Banquet Or Picnic?

With graduation time approaching it is again time to start thinking of a gathering for the alumni of Northville High School.

This year the alumni officers wish to know whether a picnic or banquet is preferred, therefore they are asking that all graduates of N. H. S. drop a card soon to Fred Casterline, 114 West Dunlap Street or Barbara Defina, 364 South Wing Street, stating a preference.

During the past few years only a small number of alumni have turned out for the annual get-togethers because of lack of interest. It is hoped this year that a large group will attend.

Poppy Day Flowers To Be Sold May 28

"The poppies are here!" This is the word which flashed through the ranks of Legion Post and Unit of the American Legion Auxiliary today, when a shipment of memorial poppies to be worn here on Poppy Day, May 28, arrived from Veterans Hospitals, where they were made by disabled war veterans.

Members of the Post and Auxiliary's Poppy Committee, Morris Cohen and Mrs. Claude Ely and Mrs. Morris Cohen quickly assembled at the Legion Home. The box of poppies was opened and the work of counting and arranging began, to make them ready for the volunteer workers who will distribute them throughout the city on Poppy Day.

The poppies, made of crepe paper with wire stems, are exact replicas of the wild poppies which grew "between the crosses row on row" in the battle cemeteries in France and Belgium during World War I.

They were nature's floral tribute to those who died, and as soon as The American Legion and Auxiliary were organized after the war, they made them the memorial flower. When more young Americans gave their lives in Europe's poppy-studded fields in World War II, the poppy became their memorial flower too, and it now signifies remembrance for America's war dead, no matter in what part of the world they gave their lives.

The poppies received here are the work of disabled veterans in the various Veterans' hospitals. The veterans not only earn badly needed money by making the little red flowers, but the employment is considered valuable as occupational therapy.

A&P BELIEVES YOU SHOULD KNOW THESE IMPORTANT FACTS WHEN BUYING MEAT

When You Buy A RIB ROAST At A&P

Short Ribs and Excess Chine Bone Are Removed Before Weighing

Short ribs of beef are delicious broiled, but they're not as tender as the rest of the ribs and should not be cooked along with them. Furthermore, they contain more bones so they should be cut off before weighing. That's why A&P removes the short ribs facing with the 2 heavy blades and the tip of the chine 1" before weighing your meat, and sells them separately. The only part of a rib of beef you buy at A&P is the tender juicy heart of the rib.

And that's the only part you pay steak prices for. The rest is removed before your purchase is weighed.

When You Buy CHOPS At A&P

Long Tails and Excess Bone Are Removed Before Weighing

Because the excess bone and long tail are removed from every Close-Trimmed chop before it's weighed and priced, such a chop costs you less than one with the excess bone and longer meat left on. Yet a Close-Trimmed chop gives you just as large a portion of the heart of the chop.

What can we do to give you better service in your A&P store?

We want A&P service to be every bit as good as the quality foods you get in our stores; and every bit as satisfying as the thrifty A&P prices.

Good service calls first of all for courteous treatment. But we must also strive to be prompt, helpful, efficient and accurate.

Your advice and suggestions can help us keep our service the way it should be.

We hope you will let us know if we should ever fail to give you good service; or if you have any suggestions as to how we can make your A&P a better place to shop.

Landscaping of Farm Homes by 4-H's Steadily Increases

Enrollment of Michigan boys and girls in the National 4-H Home Grounds Beautification program for 1949 is expected to increase, according to the National Committee on Boys and Girls Club Work. On a national scale, enrollment has more than doubled in the last five years.

4-H Club members start out by mapping the farmstead grounds and making plans for improvement. They learn to use flowers, plants, shrubs, trees and grasses in landscaping. Sometimes dad and mother lend a hand in the job, and share the satisfaction of turning their farm home into a beauty spot. "Before" and "after" photos are taken to show results.

For the 12th consecutive year, Mrs. Charles R. Walgreen of Chicago is providing merit awards for 4-H's having the most outstanding records of accomplishment in the project. County winners will receive a gold-filled medal of honor, and the state winner a 17-jewel gold watch. Judges on a national basis, eight state winners will be selected to attend the National 4-H Club Congress in Chicago next fall, all expenses paid.

Vera Pringle of Snover won the 1948 state and Sanilac county awards. There were 39 other county medal winners named in Michigan.

The entire program is supervised by the Cooperative Extension Service.

West Point Park News

By Miss L. A. Ault

Mr. and Mrs. Lee Galloway of Garden City called in West Point Park last week-end.

Mr. and Mrs. Robert Hunter and son, Ray Bloch, of Detroit, called last week-end on Mrs. M. E. Ault and other relatives.

Mr. and Mrs. Braw and son, of Shady Side Ave., have returned from a few days visit with relatives in Illinois.

A Goodwill Industries truck collected in the neighborhood

the first of the week. At each home visited was left a letter explaining that this organization could no longer accept donations of paper. Store rooms are packed with accumulated paper and there no longer seems to be a market for it.

Mrs. Charles Davis of Farmington Road is visiting friends in Virginia.

Don Tooley of the U. S. Navy is visiting his family in Bedford and called in the Folger sub Thursday evening.

Steve Cronin of Detroit has come out to spend the next few months at his summer cottage on Norfolk.

Leslie Grundy of Hubbard Ave. is convalescing from a siege of a trouble.

Mrs. Guenther of Penbrooke Ave. is convalescing from an appendicitis operation.

Mrs. Phyllis Harman returned home Thursday from Sessions Hospital, Northville and is doing very nicely. Her baby daughter, Suzette Marie, born April 30th, is also doing well, but will remain in the hospital until next week.

A group of women from the immediate neighborhood called upon Mrs. Walter Rehahn, of Mayfield Ave. last Monday evening and surprised her with a shower of birthday cards and remembrances. After a pleasant social hour all sat down to a hearty supper.

Mrs. Louis Jennings of Norfolk Ave. received word Wednesday morning of the death of her grandmother in southern Michigan. The Jennings family were expected to attend the funeral Saturday.

Victims of the strike situation are taking advantage of the opportunity to catch up on a lot of things for which there had seemed little time before. During the last few days the sound of the tractor and the hammer as well have been heard before seven o'clock in the morning.

Mr. and Mrs. E. W. Stange and son, Edward, spent Mother's Day with Mr. and Mrs. William Griffith in Royal Oak.

Ten school friends of Mervyn McPherson tendered him a party, honoring his tenth birthday at his home on Hubbard Ave. Saturday afternoon, April 30. There were the usual stunts and contests and Mrs. Sandau, Mervyn's mother, served birthday cake, with an abundance of accompani-

ments. A lively baseball game climaxed the affair.

Mrs. Robertson and her son, Wayne, left Pontiac General Hospital Wednesday and are now doing nicely at their home on Pembroke Ave.

Charlotte Brown of Breitmeyer Rd. has been suffering with a bad case of chicken-pox.

Mrs. Geo. W. Sandau of Hubbard Ave. had her two youngest daughters, Shirley and Linda Juanita, christened at the Brightmoor Tabernacle Sunday, May 1. Later a christening dinner was held at the home of Mrs. Sandau's mother, Mrs. Roy Dent in Detroit.

Mr. and Mrs. Ernest Tallman spent Thursday evening with friends in Brightmoor.

Mrs. James Simpson, who is now with her mother, who recently suffered a stroke at her home in Redford was out in West Point Park last Wednesday.

A bridal shower for Marjorie Toepel, sister of Rev. Douglas Toepel, was a very successful affair held in the Livonia Methodist Church Friday evening. The marriage ceremony is to be performed May 21 in the church and two hundred guests have been invited.

Richard Williamson, young son of Mrs. Viola Williamson, Mayfield Ave., was taken very ill Thursday.

George Welsh, who had a bad fall two weeks ago from a ladder, is now out and around again though still somewhat crippled.

Mr. and Mrs. Gamble are house guests of their daughter, Mrs. Immonen and her family on Hubbard Ave.

Mr. and Mrs. Cecil Willet and daughter, Joanne, and Mrs. Oran Ironson, visited in Canada over last week-end.

Little Eddie Baigman of Mayfield Ave. has recovered from a siege of a throat.

After many hours of car trouble three-year-old Balore, Vahol was discovered to have a button pushed in under the car. She was taken to a hospital the first of the week and had it removed.

Four-year-old Richard Jennings managed to get a knife in his possession and while playing with it one day last week cut such a gash in his hand that he became weak and ill from loss of blood.

Last week the sympathies of the community were turned toward the Wellmans, on Parker Ave. Robert, married son of Mr. and Mrs. Wellman was killed Saturday, April 30 in a traffic accident in Detroit. Funeral services were held Tuesday.

Mrs. Fredric Vinson of Mayfield Ave. was hostess to a demonstration party Thursday. At noon the guests enjoyed a hearty luncheon. In the afternoon teas were a diversion. A dozen ladies of the community were in attendance at the affair.

Practically all tickets have been sold for the Mother and Daughter Banquet to be held in the Livonia Methodist Church Friday night, May 13.

A regular meeting of the Sunshine Sisters was held in the Neighborhood Church Wednesday afternoon. "Mothers" was the topic and some excellent readings and quotations were contributed to the program. The discussion was also most interesting.

Certain plans were made for the future. It was decided to make 2 o'clock the time of getting together for meetings instead of 1 o'clock, which is the hour used of late.

The next meeting will be held at 2 p.m., Wednesday, May 18th. "Cigarettes" will be the topic. Mrs. Horton will provide cake for the occasion.

With the arrival of longer evenings, the boys and girls who usually meet in the Neighborhood Church are getting together at 7 instead of 4:30 as was the custom during the winter. Any boy or girl of school age in the community, regardless of church affiliation, is welcome. The meeting lasts one hour.
