Local Riders Carry Honors At Sunday's Jr. Horse Show

Out of the 17 classes and 172 entries in the Northville Junior Horse Show last Sunday at the Northville Downs, Northville riders carried the honors in 10 of the events.

Bonnie Hannah was first in two classes, the open western equitation and the western championship. Frances Malley also took two firsts, one in the English pleasure horse class with her horse, Midnight, and the high school class with Secret. Little Patty Haas won the 9 year and under equitation class, Janie Beekel took the 13 to 19 year equitation class, Arlene Gabb was out in front in the 9 to 13 year western event, the Northville Riding Academy team composed of three local riders placed first in the team class.

In the training and breaking class, Tulane German carried the honors with her Palomino Desert Dust, and in the exciting quarter mile western race, Billy St. Lawrence booted his horse, Irish, home ahead of a field of six others, in the fast time of 26 seconds.

The huge crowd in the stands saw one of the most unusual shows ever put on. Many of the classes were for novices only and others were for novice owners and trainers of horses. The show, sponsored by the Optimist Club of Northville, for the benefit of underprivileged children, attracted entries from all over the state and saw many top riders that will make their start in open competition from their experience in these novice classes.

Following is the official piping in all classes:

English

Class 1. 9 years and under equitation, 1st, Patty Haas; 2nd, Kathy Farmer; 3rd, Barbara Cooksey; 4th, Nancy Lawrence.

Simmons-Jernigan Vows Read At Methodist Church

July Bride

The First Methodist Church Tuesday night was the scene of the marriage of Barbara Simmons, daughter of Mr. and Mrs. George R. Simmons of Ten Mile Road, to Rex R. Jernigan, son of Mr. and Mrs. S. T. Jernigan of Santa Fe, N. M.

Reverend William Hughes read the double ring ceremony. The bride who was given in marriage by her father, George Simmons, wore an aquamarine suit and corsage of white roses.

Her only attendant was her sister, Mrs. Nestor Mihay of Farmington who wore a suit and corsage of yellow roses. Dick Simmons, the bride's brother, was the best man.

Immediately following the wedding ceremony, a reception for 120 guests was held in the church parlors. The young couple then left on a wedding trip to New Mexico.

Barbara was graduated from Northville High School and Michigan State College, East Lansing. Previous to her marriage, she was employed by the American Legion in Detroit. Rex attended the University of New Mexico and is employed as a radio technician. The young couple will make their home in New Mexico.

VFW Auxiliary Visits Home at Eaton Rapids

The following V. F. W. Auxiliary members visited the V. F. W. National Home at Eaton Rapids Friday, July 8: Mamie Nulty, Daisy Martin, Evelyn Dixon, Thressa Catton, Vernice Reed, Marie Weeks, Margaret Smith, Arlie Smith, Ethel Gagner, Damar Risner, Edith McKenna, Meta Myers, Ruth King, and Janice and Edith Ann McKenna.

A very enjoyable day was spent visiting the Michigan and Washington cottages, the nursery, the hospital and the new hospital wing now under construction; the recently completed chapel and guest lodge.

The Northville group was the first to be served in the guest lodge dining room.

Patricia Lemon Weds Detroyer

At an afternoon ceremony Saturday, July 9, Patricia Ann Lemon, daughter of Mr. and Mrs. William D. Lemon of West Seven Mile Road, Northville, became the bride of Raymond R. Schuchard, Jr., of Detroit. Dr. Wooly performed the single ring service at 3 o'clock at the local Presbyterian church. The bridegroom is the son of Mr. and Mrs. Raymond Schuchard, Sr., of Detroit.

Corine Clark was the organist and accompanied William G. Williams as he sang "The Lord's Prayer" and "Because." Bouquets of white gladioli were used to decorate the church.

The bride was given in marriage by her father. For her wedding she chose a gown of white marquisette over blue and a picture hat. She carried a bouquet of white gladioli and carnations.

MRS. REX JERNIGAN,
who was Barbara Simmons be-
fore her marriage, Tuesday even-
ing at the First Methodist Church

Bassinet Contains Gifts at Stork Shower

In a pink and blue bassinet, gifts were gathered for Mrs. Robert Stoianoff (Margery Hancock) at the stork shower given Monday, July 11, in her honor.

Mrs. Earl Croll (Greta Chappell) was hostess to the group of thirteen former classmates at her home on Main street.

Those attending in Mrs. Stoianoff's honor were: Wanda Croll, Daisy Martin, Evelyn Dixon, Thressa Catton, Vernice Reed, Marie Weeks, Margaret Smith, Arlie Smith, Ethel Gagner, Damar Risner, Edith McKenna, Meta Myers, Ruth King, and Janice and Edith Ann McKenna.

The newlyweds left on a wedding trip to Lake Michigan for two weeks. For traveling the new, Mrs. Schuchard chose a yellow jersey dress with white accessories.

The bride is a graduate of McKenzie High School, Detroit, and the bridegroom is a graduate of Central High School and business college. He is employed by General Motors. Upon their return from their trip they will make their home on Napier Road.

Among the out of town guests present for the ceremony were Mrs. Harry Herd, of Mexico, grandmother of the bride and Mr. and Mrs. Ray Schuchard of Windsor, Ontario, Canada, grandparents of the bridegroom.

Cedar Lake Camp Draws Many Scouts

Many of the girls from Northville are attending the Girl Scout Cedar Lake camp this summer.

Among those who attended the camp last week were Karen Ann Bayless, Nancy Ann Lawrence, Janice Howarth, Cynthia Mellen, Barbara Millington, Rosemarie Willis, Deanna Millington, Linda Smith, Marilyn Joyce McCarthy, Phyllis Ann Howard and Priscilla Blackburn.

Those girls who are spending two weeks at the camp are Barbara Margaret Bayless, Mary Virginia Stalter, Catherine S. Rambeau, Barbara Bruntz and Carol Ann Sparling. Suzanne Mairs, Nancy Brown and Phyllis Ann Howard attended the camp's third session from July 3-10.

The girls who attended the camp the first week report that they had exciting times swimming, participating in arts and crafts, and going on cook-outs, hikes and hayrides. Janice Howarth served as a council representative for the Juniper-Knoll unit.

On Wednesday evening of the first week of the camp, the Oakridge unit entertained the Juniper-Knoll girls with a talent show. The local girls who participated in the show were Barbara Millington and Cynthia Mellen of the Juniper-Knoll unit. Participated in lighting the farewell fire.

Parade, Television Aid in Birthday Celebration

Bobby Turnbull, son of the Bruce Turnbulls, celebrated his fourth birthday with a Fourth of July parade.

Hats, flags and noisemakers were displayed by each of his twelve little friends while marching. Refreshments were later served and all the children enjoyed a television session afterwards, watching "Hoody-Doody," "The Children's Hour," and "Small Fry."

Mrs. Bertha Kerr of Verke street spent Sunday with her brother, Walter Learned in Detroit.

Hompson-Blake Vows Read Friday

Absent Food Value Is Found in Cottage Cheese

In the presence of members of immediate families, the marriage of Edith May Blake, daughter of Mrs. Joseph Blake and the late Mr. Blake and Lee Thompson, son of Mr. and Mrs. Frank Thompson, took place Friday evening in the Methodist church rectory. Rev. William Hughes read the service.

Edith was given in marriage by her brother, Thomas Dudley. She wore a navy blue chiffon wool afternoon dress, fashioned with an eton jacket which was trimmed with seed pearls and crystal beads. Her matching straw cloche hat was trimmed with tulle veiling and her corsage was made up of white orchids and stephanotis.

Her only attendant was her sister-in-law, Mrs. Thomas Dudley. Mrs. Dudley wore a grey chiffon dress and a corsage of pink camellias. Wayne Thompson was his brother's best man.

Following the ceremony, a reception was held at the Thompson home on Base Line Road after which the couple left for a honeymoon in Northern Michigan. Upon their return they will make their home in Northville. Both are graduates of Northville High School and Lee is associated with Mergraf Oil Products Inc.

30,000 Cancer Pads Made in Two Years

Mrs. E. J. Willis, chairman of Patients Aid, gave the following report for the month of June:

Materials were furnished by Mrs. Adolph W. Moerke, Mrs. Emma Reid, Mrs. Roy Bassett, Mrs. Norman Hood, Mrs. J. Nelson, Mrs. Harriet Angell, Mrs. John Calkins, Mrs. M. Rogers and Mrs. Howard Lee.

Pads were completed by Mrs. William H. Aston and group, Mrs. William Henderson and group, Mrs. T. R. Carrington, Mrs. Harriett Angell, Mrs. John Allen, Mrs. George Williamson, Mrs. Emma Reid and Miss Kathleen Cooper.

This project, organized by Mrs. Willis about two years ago, has completed and furnished more than 30,000 cancer pads to patients.

These supplies are free to everyone and may be secured at supply headquarters, 119 Raymond Avenue.

It is the wish of the project that all patients be made comfortable at all times.

Will-O-Way Theatre To Stage Comedy

Tuesday, July 19 will be the last performance of the Will-O-Way Playhouse production of the comedy "The Milky Way." The George Oppenheimer comedy, "Here Today" will run from July 19 through the 31st in the theatre which is located just outside of Birmingham.

Minnie Jo Curtis, known for her work in "My Sister Eileen" and "Sailor Beware" last season, is coming from New York to play in this presentation about a Boston Back Bay society family. Miss Curtis, who has been working on television shows, will join hands with Treese Way Merrill for the show.

Mrs. E. J. Willis attended the Patients Aid Committee American Cancer Society in Detroit last Wednesday.

Use Geiger Counter To Detect Uranium

No uranium, so far, but a generous amount of rock and other non-uranium bearing minerals are being sent by prospectors to the Conservation Department's Geological Survey Division.

The division recently offered to examine ore specimens of prospectors who believe they may have located some radioactive pitchblende, the principal ore of uranium. The division has no means for making chemical analyses of samples and only can test them with a Geiger counter for possible presence of uranium.

The conservation department's lands division has received applications for prospecting leases from three different parties covering nine separate state-owned 40-acre descriptions. Some Michigan mineral specimens have been examined by the Atomic Energy Commission and found to contain thorium instead of uranium. Both thorium and uranium will register on a Geiger counter.

New regulations for uranium prospecting on state-owned lands call for a filing fee of \$25 with each application for an option to lease state land. A representative of the conservation department will examine the discovery at its source to determine if sufficient evidence warrants granting a prospecting lease.

MEET THE WINNER Chuck, a one-month old pet robin, perched here on the head of his owner, Mario Gordo, Jr., of New York. Chuck annexed the "best of birds" honors at the annual pet show.

Abundant Food Value Is Found

in Cottage Cheese

Cottage cheese is one of the foods which most homemakers should plan to use in many of their summer meals. Its slightly piquant flavor is refreshing and tempting to dull appetites. Then, too, it combines appetizingly with all kinds of fruits and vegetables which are so abundant and inexpensive during the local harvesting season.

Of course, the fact that it needs little or no preparation before it goes to the table increases its popularity with the gal who runs the kitchen. But she should remember that the most delicious food gets boring if it always appears in the same guise, and add a few seasonings now and then to keep it interesting.

White Mold - One tablespoon plain gelatin, 1/2 cup cold water, 2 cups cottage cheese, rubbed through a sieve, 1/4 teaspoon onion juice, 1/4 teaspoon paprika, 1/2 cup rich milk.

Softened gelatin in cold water for 5 minutes. Heat to 10 minutes. Strain and add soaked gelatin, vinegar and onion juice. Stir until gelatin is dissolved. Pour into mold which has been rinsed with cold water and chill until firm.

Cheese Mold - One tablespoon plain gelatin, 1/2 cup cold water, 2 cups cottage cheese, rubbed through a sieve, 1/4 teaspoon salt, 1/4 teaspoon paprika, 1/2 cup rich milk.

Soften gelatin in cold water for 5 minutes. Combine cheese, seasonings and milk and beat until smooth. Add gelatin which has been dissolved over hot water and blend well. Pour on top of firm tomato jelly in mold and chill until firm. Unmold on plate and garnish with salad greens. Serve with mayonnaise. Serves 8.

Cucumber Cottage Cheese Salad - Two cups cottage cheese, 1/2 cup sour cream, 1/4 cup chopped chives, or green onions, 1/2 cup cucumber, diced, 1/2 cup shredded carrots, all good flavor accents for cottage cheese. A little jam or jelly is an attractive garnish as far as color is concerned, and forms a taste combination that will appeal especially to the members of the family who have a yen for sweets.

Mix cottage cheese and sour cream, beating with fork until smooth. Add chopped vegetables and salt and pepper to taste. Serve in mound on plate garnished with salad greens, such as lettuce, watercress or romaine. If liked, garnish with tomatoes stuffed with chopped celery and minced onion mixed with mayonnaise. Serve very cold. Serves 4.

Cheese Cake - Two cups fine zwieback crumbs, 1 1/2 cups sugar, 1/2 teaspoon cinnamon, 1/2 cup melted butter, 4 eggs, 1/2 teaspoon salt, 1 1/2 tablespoons lemon juice, 1 1/2

Chapman of West Dunlap street, left by plane Wednesday from New York City for Damascus, Syria where she will work for the State Department's foreign service. Enroute, Lois' plane will stop at London, Brussels and Beirut. The plane is scheduled to arrive Friday. Lois recently spent ten days with her family before returning to Washington, D. C. for her assignment.

Annual Police Shoot Set for Sept. 28

The annual Michigan police shoot—an event eagerly looked forward to by law enforcement officers in pre-war years—will be resumed this fall.

As in the past, the tournament of pistol sharpshooters will be sponsored by the Michigan State Police in cooperation with the Michigan Association of Chiefs of Police and the Michigan Sheriff's Association.

The Jackson city police department will be host to the meet which will be held on the department's large 60-target range. The date has been tentatively set for September 28 and a record number of participants from all parts of the state is anticipated.

An outstanding feature will be the competition for the Governor's trophy.

The police chiefs association will offer a special four-man team trophy and the sheriffs' association is expected to provide the two-man team trophy. Other trophies and the medals will be provided by the Michigan State Police through Commissioner D. S. Leonard.

Because of the number of contestants, rules of the meet limit entries to not more than two teams per department.

This will be the twelfth tournament. The annual series was discontinued after 1941 because of the war and the shortage of ammunition. The meet has always been extremely popular, not only among law enforcement officers but with the public as well.

The Library and Literature Committee for St. John's Seminary met with Mrs. E. J. Willis Monday afternoon.

Mr. and Mrs. H. M. Strange and family of Butler Street visited friends and relatives last week in Brandenburg, Ky.

Watch for the announcement of the Donkey Baseball game sponsored by the men's softball league!

Christian Science Churches
"Life" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world of Sunday, July 17.

The Golden Text (John 17:3) is: "This is life eternal, that they might know thee the only true God, and Jesus Christ, whom thou hast sent."

Among the Bible citations is this passage, (I John 5:11): "And this is the record, that God hath given to us, eternal life, and this life is in His Son."

Salem Congregational Church
Lucia M. Stroh, Minister
Divine Worship 10:30 a.m. The Pastor will bring the message.

Sunday School 11:45 a.m. The lesson "Songs in the Temple", Psalms 34:1-4, 85:1-7. Golden Text: Psalms 24:3, 4. The Ladies Aid will meet under the "Willows" foot of Six Mile Road. All are invited. Bring own table service; sandwiches, drink and dish to pass.

Sunday, July 24 the congregation will have a Fellowship pot luck dinner on the church lawn after the services. Bring your picnic basket dinner, drink and table service.

Obituary

LOUISA H. SHOEMAKE

Funeral services for Mrs. Louisa H. Shoemake were conducted Saturday afternoon from the Casterline Funeral Home with Rev. M. J. Remein of the Novi Baptist Church officiating. Interment was made at Novi Memorial Gardens cemetery.

Mrs. Shoemake passed away at her home on 41581 Grand River Avenue, Novi, July 7 at the age of seventy-five. Surviving her are a son, Edward Shoemake, Jr., of the home, a sister, Mrs. John Quinn of Banning, California and three grandchildren, Edward Herman III, Ann Louise and Richard Lynn.

Mrs. Shoemake's husband predeceased her in death about two years ago. She had made her home in Novi for twenty-five years.

DR. MARTHA S. COTTRELL

Funeral services for Dr. Martha S. Cottrell of 43262 Eleven Mile Road, Novi, were conducted Monday afternoon from the Casterline Funeral Home, T. S. Hill of the Grand River Seventh Day Adventist church officiated at the funeral services. Burial was made in Oakland Hill Cemetery. Dr. Cottrell was born in California October 13, 1896. She was graduated from Medical Evangelist College, Loma Linda, California. About twelve years ago she came to Novi, buying the late Dr. A. Holcomb's practice. She carried on an active medical practice in Novi and Walled Lake for the past several years. She had been in ill health for the past two years and passed away at her home on 43262 Eleven Mile, July 8.

Surviving her are two sisters, Miss Alice Sanderson of Lancaster, Mass. and Dr. Marian Brown of Parkersburg, West Va. Dr. Cottrell's husband, Ralph preceded her in death about a year and a half ago.

MRS. DORA RICHTER

Funeral services were held Sunday afternoon, July 10 from Schrader's Funeral Home in Plymouth for Mrs. Dora Richter who passed away Thursday, July 7 at the age of eighty-two years.

Mrs. Richter was a former resident of Salem and the wife of the late Carl Richter who preceded her in death February 17, 1936. Surviving her are three sons, Carl of Wixom, Erwin of Northville and Ray of Ann Arbor, one daughter, Mrs. Honey Reddick of Plymouth and one granddaughter, Cheryl Richter.

Mrs. Richter was the mother of the late Walter Richter, Rev. Otto Kuhlow of the Plymouth Lutheran Church, officiated at the services and interment was made in Warden Cemetery.

IN MEMORY

In loving memory of Catherine Wilson, who passed away on July 13, 1945.

You are not forgotten loved one. Nor will you ever be. As long as life and memory lasts we will remember thee. We miss you now, our hearts are sore.

As time goes by we miss you more. Your loving smile, your gentle face.

No one can fill your vacant place. Your loving Mom and Dad, Mr. and Mrs. James Stevenson.

Charles H. LeFevre, 6x

The extinct volcano, Aconcagua, in the southern Andes, is 20,800 feet high, and is usually regarded as the loftiest mountain in America.

Patient: "Doctor, I don't smoke, drink, or chase around with women. Will I live a hundred years?"

Doctor: "No. But it will seem like it."

Anglers should keep an eye on the clouds and head for shore when they begin to look bad. The weather is more changeable at this time of year and sudden storms are more frequent.

Why Farm Accident Toll Is so Heavy

These four pictures illustrate some unsafe practices that take a tremendous toll in injuries and fatalities annually on the nation's farms. The upper left-hand photo illustrates the dangerous practice of adjusting the harness from tongue of vehicle or farm implement. Another bad practice—that of pitching pitchforks—is illustrated in the upper right-hand corner. Stepping across a moving belt, as shown in the left-hand picture, is another practice that should be avoided. The lower right-hand photo illustrates a common practice that is decidedly dangerous—cleaning a corn picker with the foot. These are but a few of the many unsafe work practices to be emphasized during National Farm Safety Week, July 24 to 30.

News Notes from Conservation Dept.

Free X-Rays Taken at Michigan Fairs

Michigan residents may have free chest x-rays made at any of 23 fairs and festivals in the state this summer.

Fair mobile chest x-ray units of the Michigan Department of Health's state-wide Tuberculosis Control Program will be visiting fairs between mid-July and October. All persons over 15 years of age may have x-rays of their chest taken without charge.

More than 1,075 x-ray frames of tubercular patients have been found by visiting fairs in the past three years. Last year, five units visited 29 fairs and found 781 cases of tuberculous.

Discussions mainly will center on differences in open seasons, size limits, bag limits and methods of catching fish on the three rivers and 15 lakes involved.

Lad Vieux Desert, largest of these lakes, is the source of the Wisconsin river which ends in the Mississippi.

Proposed changes agreed upon, which must be approved by the conservation commissions of both states, would be scheduled for an effective date of January 1, 1950. While the Wisconsin conservation commission has had the authority to work for uniform fishing regulations for some time, the Michigan conservation commission was authorized to enter into reciprocal agreements with adjoining states only last May.

Unknown to many, fishermen of the two states have an agreement in effect since 1938 whereby residents of either state may fish in boundary waters without securing nonresident licenses.

As an example, a resident of Michigan may fish in that part of Lac Vieux Desert Lake which lies in Wisconsin, on his Michigan resident fishing license, but while fishing in Wisconsin he must abide by the Wisconsin fishing regulations.

Ground water levels dropped again in June to set a record for the second month in succession, measurements by state conservation department geologists reveal.

Last month's average ground water stage of 2.18 feet is .32 foot lower than the May record low of 2.50 feet and sets a new June low for the 14 years of record. The June average is about 2.3 feet lower than the record 1943 June high of 4.51 feet which also is the record high for all months.

Houghton Lake is not open to taking fish with spears.

An error in a recent conservation department news release covering fish law changes voted by the 1949 legislature confused Houghton lake with Portage lake and ship canal in Houghton county, opened to spearing in season under regulations in force for inland waters.

The conservation department's field administration division has taken delivery of a new four-

will leave the school at 1:00 p.m. The tenth reunion for former members of the Novi School, district number 8, will take place Saturday, July 16, in the new school building. Bring your table service, sandwiches and a passing dish for a pot luck supper at 5:30. Committees in charge of the affair are: Agnes McCrum Perry and Alma Reader Johnston, kitchen; Mary Gleason Geer, dining room; Ilia Shurtliff and Caroline Gaffney, waitresses.

Employer to beautiful blonde who has filled in job application: "Miss Jones, under 'Experience' could you be a little more specific than just 'Oh Boy'?"

A dingle is one depression enjoyed by all businessmen.

Board Answers Questions On Coming School Election

Q. The Board of Education states that tuition students are helpful to the system and are not a burden on the school district. Do tuition students really pay their own way?

A. The average per capita cost of educating a pupil in the school system was approximately \$167. Based on this cost figure, grade school tuition last year was set at \$206 and high school tuition was set at \$257. It will be seen that the 121 tuition students in the grade school not only reimbursed the school for the cost of their education but paid \$471 extra. For comparative purposes the interest on a \$165,000 bond issue for one year at 2½% is only \$4,125.

Q. Will a nine room addition take care of grade school requirements for a reasonable period of time?

A. Experts prognosticate that the peak load in elementary schools will be reached in 1953 and taper off slightly thereafter. A nine room addition should take care of local requirements thru 1953 and for some time thereafter if the experts are right. The program is based on the best information available, but there is no guarantee as to the accuracy of the information.

Q. Plymouth's bond issue runs for 15 years. Why does ours run only 11 years?

A. There are two reasons for this. Longer bond terms render the issue less attractive to bond buyers and might result in a higher interest rate to the school district. The longer bonds are outstanding, the longer interest must be paid on them resulting in increased cost to the school district.

Q. What will be the average cost to a taxpayer of retiring the \$165,000 bond issue?

A. This will depend on the interest rate that the bonds bear. With a 2½% rate of interest, a tax of 4.5 mills for 11 years would produce more than enough to cover principal and interest. With a 4% rate of interest, a tax of slightly under 5 mills for 11 years.

TULIP TIME IN HOLLAND (MICHIGAN) . . . Wearing the traditional costumes of Holland, right down to the wooden shoes, Newman Williams, left, governor of Michigan, and Jan Vandervortel, Netherlands consul general of the Midwest section, are joined by unidentified members of the governor's family in the ceremony of scrubbing the streets, part of the festivities created around the 15th annual tulip time festival. The celebration, which lasted several days, attracted thousands of visitors to this little spot of Holland in the U.S.A.

Stop Potato Diseases By Using DDT Spray

Potato insects and diseases come along each year to trouble growers. Better methods of control, however, are continually being studied at the Michigan Agricultural Experiment Station.

Walter Morofsky, Michigan State College entomologist, advises the use of DDT at the rate of one and one-half pounds of 50 per cent wettable powder in 100 gallons of water, for good insect control. This mixture is for control of flea beetle, Colorado potato beetle, tarnished plant bug, and leaf hoppers. When aphids appear, use Parathion at manufacturer's recommended or nicotine sulfate at one pint in 100 gallons of water.

For fungus leaf diseases, J. H. Munice, MSC plant pathologist, advises the carbamates (organic sulfurs), and fixed copper, both at manufacturer's recommended dosages, or Bordeaux mixture 8-4-100. First application should be made when plants are four to six inches high adding the insecticide in the spray material.

Combination fungicide and insecticide dusts may be used in place of sprays. The dusts contain the same active principles as the sprays.

Both sprays and dusts should be applied at seven to 10 day intervals throughout the season or more often if late blight disease is present.

Venereal Disease Cases Declining

More than 12,000 cases of venereal disease have been treated in the Michigan Rapid Treatment Center in Ann Arbor since it opened its doors July 5, 1944.

All patients treated are referred to the Center from health departments, clinics or practicing physicians.

Of the cases treated 58 per cent have been males and 51 per cent have been under 25 years of age. Approximately 2,200 cases were treated in the past 12 months.

Financed by federal, state and local funds, the Center is an important part of the state's venereal disease control program. Its isolation of infectious cases and its short term treatment are thought to have contributed much to the recent decline in the incidence of infectious syphilis in the state.

The Center uses a ten-day to two-weeks intensive treatment schedule for syphilis patients and a one to three-day treatment schedule for gonorrhea patients.

The Center also provides diagnostic consultation service for private physicians, and also makes spinal fluid and other examinations for syphilis for physicians or health departments having facilities for making these examinations.

In the 150-bed, two story, red brick building in the hospital area of the University town, not only are patients treated, but they are also provided an educational program which includes authoritative information on symptoms, cause, spread and cure of venereal diseases.

Records of the Michigan Department of Health show that after a quarter century continual rise including a definite upswing during the war, the reported incidence of venereal disease in the state has been decreasing since 1947. From a peak of 18,051 cases of syphilis in 1946 the incidence has declined to 12,100 cases in 1948, and from a peak of 12,327 reported cases of gonorrhea in 1946, the incidence has declined to 9,448 cases in 1948.

Dr. Marvin C. Nelson, formerly associated with the Department of Dermatology and Syphilology of the University of Michigan, has been appointed Medical Officer in Charge of the Michigan Rapid Treatment Center. Dr. John A. Cowan, Director of the Division of Tuberculosis and Venereal Disease Control announced recently.

One wife: "How do you get money out of your husband?"

Another wife: "Oh, I say, I'm going back to mother and he immediately hands me the fare."

Boss: "Why are you going to quit, Bill? Are your wages too low?"

Bill: "The wages are OK but I'm keeping a horse out of a job."

Seems like Europe has always been a jigsaw puzzle with a "peace" missing.

Sheriff Reports Week's Happenings

Albert Carpenter, 6345 Cogswell, complained to Sheriff Andrew C. Baird's Road Patrol that some time Friday night thieves stole one of his pigs from his farm at the above address. Sheriff Baird wishes to inform farmers that there has been considerable increase in live stock being stolen, especially chickens, and warns them to be on the alert.

Norman Meyer, 30124 Beverly Road, Romulus, complained to Sheriff Baird's Road Patrol that while he was in swimming at

Edison Lake someone stole his pants containing his wallet, keys and miscellaneous items which were in his car. Sheriff Baird warns motorists to keep their car doors locked to avoid petty thievery.

Claude's Garage, 26139 Van Buren, Taylor Township, was broken into some time Saturday night and the thieves made off with tools valued at \$500. Detectives expect an early arrest.

Ronald Colmar, 10, 7573 Wilshire, Taylor Township, was shot by George Sixberg, 6815 Wilkie, Saturday afternoon, July 9, while picking berries. Mr. Sixberg told deputies that he was target practicing and did not see the bullet.

Rita Emerson, 9136 William

Street, Taylor Township, reported that Andrew Bowline, 21741 Wick, had shot and wounded her dog. Deputies seized Mr. Bowline's shotgun and referred the case to the Michigan Humane Society.

William Chilley, 18, 15707 Riverdale, Detroit, survived a 75-foot fall from the top of the Edison Dam at Belleville Lake on Sunday. He is in critical condition at the Wayne County General Hospital. A sister, Mrs. Mabel Habicht, told deputies that William had slipped while attempting to walk across the dam and fell into the rocks and shallow water.

For Friends—Roamers— Countrymen—

QUITE literally, it's one car in a thousand—999 other cars take the road for every Estate Wagon Buick turns east.

But it's far more than something exclusive, as you'll soon see when one takes its place in your garage.

For those times, for instance, when house guests arrive — what smarter equipage could you send to the station, what greater comfort, what handier way to manage the luggage problem?

And when the Lord and Master yearns for a few days away from it all — what's handier than this nimble gadabout, that lets him fold down a back seat at nightfall and enjoy full-length double-bed sleeping space?

And that place in the country, calling for a car that can go just about everywhere, do just about everything...

That's when you'll go for the ruggedness of this beauty with its steel framing, steel top and springs of durable, service-free coiled steel. That's when you'll go for Dynaflow Drive! — and the steady, even, fluid pull that takes furrowed fields, rough pastures and narrow back roads with equal, shift-free ease.

In all truth, this is a star of many roles. Smart, and sleek, finished like an express cruiser, it's a standout for style in any parking line-up; a family favorite for its quick readiness to take on any transportation job.

It's a buy, too, like all Buicks—and your dealer is offering pleasantly prompt delivery. Why not see him today about the car that both literally and figuratively is one in a thousand?

Standard on Roadmaster, optional at extra cost on Super models.

MORE CLEARLY THAN EVER

WITH OUR NEIGHBORS

Brighton-Derby Hill was lined with spectators last Friday evening as Soap Box Derby contestants whizzed down the hill in the annual derby classic.

Grand Ledge—The Ionia Free Fair is investing upwards of \$1,500 in a first-hand investigation of the old, saying that "everyone loves a parade." This is what it will pay in prizes and favors for a parade that will be a brand-new feature this year and will raise the curtain on

Monday, August 8, for its annual week.

Farmington—Ernest Blanchard, Farmington Township Supervisor, stated last Tuesday that a tentative Township Health Ordinance is now being drafted in accordance with the motion approved at the last regular meeting of the Board.

Ann Arbor—The Ann Arbor Retail Merchants Association, a new group, was formed last Thursday by the retail merchants' division of the Chamber of Commerce in a move for independence from the chamber.

Howell—The city of Howell purchased the equity of the Chamber of Commerce in the fairgrounds at the east end of town for \$2,600 at a special council meeting last Wednesday night. It has been proposed that this land is suitable and favorably located for a future city cemetery. The Chamber of Commerce in turn has secured the Youth Center building as an office and the latter group will move into the former Briggs house.

South Lyon—Word was received here last week that Rev. James Roberts, pastor of the First Methodist churches in South Lyon and New Hudson has been assigned to South Lyon for another year by the Methodist conference recently held in Flint.

Plymouth—Fire, which blazed through the Allen Industries on Wednesday, June 30, caused approximately \$8,500 damage, according to Fire Chief Robert McAllister. Heavy smoke hindered the progress of firemen who

fought the blaze for two and one half hours. Firemen were called out about 2:50 a.m. Wednesday.

Farmington—Work is expected to be completed shortly on the new City Public Parking Lot on Grand River just east of the Fire Hall, Mayor Delos Hamlin announced last week. The new lot has been bulldozed and leveled preparatory to putting down a gravel surface. Drain tile is to be installed along the side adjacent to the Precise Tool Company. The gravel is expected to be hauled and spread by city employees.

Ann Arbor—Sweating under near 90-degree temperatures in the second floor chambers of the City Hall, last Tuesday night, City Council members accepted six bids for the construction of Water Treatment Plant additions, equipment for the two projects at a total cost of \$667,838.00.

Howell—The county board of supervisors last week awarded contracts for a new jail and equipping it with cell blocks. The Henry De Koning Construction Company of Ann Arbor received the building contract at a base bid of \$104,829, but additional features now arranged will raise this cost about \$1,750. The Stewart Iron Works of Cincinnati, Ohio, was the successful cell contractor at \$14,500.

Plymouth—The city commission gave the official approval of their water deal with the Lineback-Roech Construction Company at their meeting last Tuesday night. The approval of the use of the city water in the building area which is south of Ann Arbor road and just east of Sheldon road will assure this community of some 130 new lots cost almost immediately.

Chaska—Fife Chief Thomas Young and Police Officer Waldegrave Grossman took Chaska's

Research at U-M Will Attempt to Turn Back Clock

Most talk about atomic energy deals either with the bright new future opened up by splitting the atom or the utter destruction made possible by the bomb.

But the University of Michigan, while not overlooking the peaceful applications of atomic energy, is pursuing a way of "turning back the clock" made possible by nuclear research.

The University's preliminary planning committee of the Phoenix Project has just made an initial grant of \$1,500 to get the wheels turning on a method of dating the remains of animal and plant life of the last 30,000 years with a degree of accuracy which was not possible until recently. This method for dating was developed by Dr. W. F. Libby and his associates at the University of Chicago's Institute for Nuclear Studies.

The initial grant will be spent under the direction of Dr. H. R. Crane, professor of physics, in the construction and testing of the necessary instruments.

Once Dr. Crane has constructed the necessary instruments, responsibility for collecting specimens for dating will fall to a committee headed by Dr. James B. Griffin, associate professor of anthropology and director of the Museum of Anthropology. Just

how far the project goes will be determined largely by the success of the Michigan Memorial Phoenix Project campaign to raise \$6,500,000 for the establishment of an atomic research center at the University.

Dr. Griffin offers an explanation of how atomic energy has come to be involved with civilizations and plant and animal life which existed on the earth thousands of years ago. Scientists have discovered that a radioactive material known as Carbon-Fourteen is included in the growing organism.

This form of carbon behaves chemically like ordinary carbon but it is distinguishable from it by a slightly greater weight and by a very weak radioactivity. Small amounts of C-14 are continually being formed from atoms of nitrogen in the atmosphere by the impacts of cosmic rays passing through the atmosphere. All living plants and animals take in small amounts of C-14 from the air and some of it becomes part of their tissues.

Physicians studying the radio-

activity of C-14 have determined quite accurately the rate of disintegration, Dr. Griffin says. If we wish to measure a piece of organic material, we now can measure the remaining radioactive strength of the C-14 it contains and arrive at its age within one per cent of accuracy.

He feels that this technique of dating organic remains will add materially to the knowledge of life on the American continent. Except in the Southwest there are no known dates about America prior to the introduction of European materials, he points out.

The range within which this new method of dating is effective should allow us to go back to the very late Ice Age," Dr. Griffin believes. "We should be able to date animals, such as the mastodon which formerly lived in Michigan, learn considerably about Indian history, determine when Indian agriculture first came into use and the length of various stages of cultural development."

Northville's Yesterdays

ONE YEAR AGO

Keen interest was shown by the exhibitors of show horses throughout Michigan in the revival of the once famous Northville horse shows by the Northville Rotary Club. Forty-nine events of the show were spread over the five performances beginning on July 30th.

Swimming at the East Shore beach at Walled Lake under the supervision of the Recreation director, Scotty Slessor, was announced.

A son was born to Mr. and Mrs. Lee Bowring (Marilyn Brummel) of Six Mile Road.

Dorothy Stremich and Patricia Johnston were hostesses at a kitchen shower for Elaine Vogtin who will become the bride of Ed Walker of Plymouth Saturday, July 17.

FIVE YEARS AGO

Only 334 voters registered their choices in the state and county primary in Northville township.

Voters of Northville township answered the question of permitting zoning in the township 49 yes to 16 no.

Dr. V. George Chabut has opened the practice of medicine here in the Dr. Seliady home on W. Dunlap after resigning from his position with Maybury Sanatorium and Herman Kiefer Hospital.

Barbara Wood, daughter of Mr. and Mrs. Harry Wood of Nine Mile Road, will be united in marriage tomorrow to John Litsenberger at the chapel of Maxwell Field, Ala., where the groom is stationed as an Aviation Cadet.

TEN YEARS AGO

R. W. Loomis will head the swimming instruction project.

Construction has begun for new buildings at the fair grounds. Northville and Novi citizens formed a tax league.

Kindergarten Rhythm Bands In Session

Health Dep't Gives Hints On Canning

Here's some advice on safe canning and safe canned foods issued recently by the Michigan Department of Health in pointing out that improperly canned food can be poison when it has neither bad taste, odor or appearance.

It is best to can everything except tomatoes and fruits by the pressure cooker method. Other methods are less safe and when non-acid foods such as vegetables, meat or poultry are canned by any other method they must be boiled for 15 minutes before tasting or serving. The boiling water bath method of canning is safe for tomatoes and acid fruits. Do not cold-pack. Never can in the oven.

When using the pressure cooker method of canning follow government timetables and directions exactly. Keep the opening of the pressure cooker's safety valve petcock and gauge clean. Have the gauge checked.

Can only fresh foods in the very best condition. Be sure that all food for canning, hands, towels and all canning equipment including cans and tops are immaculately clean.

Prepare only one "load" for the cooker at one time. Work quickly. While one load is processing, prepare another.

Cool jars quickly, but don't turn them upside down—this breaks the seal. Tip them gently to test for leaks. When vacuum seal lids are used, remove the screw cap the following day to be certain that no jars are stored which are not adequately sealed. Store in a cool, dark, dry place.

If young children must be in the kitchen, use a portable folding fence to keep them away from the stove, canning operations and cooling cans. Let other housework go during canning hours. Don't try to can the entire crop in one day. Keep a jar or bottle of burn preparation in the kitchen.

Use care in home canning giving special attention to every step in the process. For those who do not know how to can, the United States Department of Agriculture has prepared two pamphlets "Home Canning of Fruits and Vegetables" and "Home Canning of Meats and Poultry" which can be had from county agricultural agents or from Michigan State College.

Although thousands of Fourth of July weekend vacationists filtered into the upstate forest areas, nearly complete fire reports show that less than nine acres were burned in the last nine days, according to the conservation department.

The profession of acting was confined entirely to men in ancient Greece, according to the Encyclopaedia Britannica.

Excessive use of alcohol is fatal for anyone who attempts to live under conditions of excessive heat.

PRIDE CLEANERS

135 North Center Street

Mrs. Geo. Sandau visited friends in Wayne Wednesday evening.

Mr. and Mrs. William Griffith of Royal Oak were dinner guests last Sunday of Mr. and Mrs. E. W. Stange.

At the hospital in Brighton a baby girl was born July 8th to Mr. and Mrs. Gerald Roberts. Mrs. Roberts is the former Idale Coolman of Shadydale avenue.

Mr. and Mrs. Walter Rehner were in Detroit Tuesday evening attending a baseball game.

Mrs. Tom Roberts and daughter Beth, were guests several days last week of Mrs. Robert's mother, Mrs. M. E. Ault, returning to Monroe Friday evening.

Mrs. Clyde Buckingham and son, Wallace, visited in Detroit Friday.

The Cecil Willets spent last week-end at the lake near Brighton.

Ernest Talman has been on the sick list several days.

Mrs. George Welsh had a serious attack of illness during the week.

Mrs. George Sandau was on the East Side Thursday visiting with her aunt and uncle, Mr. and Mrs. R. J. Ward and her cousins, Mr. and Mrs. Hanson and Mr. and Mrs. J. Krauth.

Mrs. Louis Graham and children, Wanda and Dail, visited relatives at West Branch for a few days last week. Wanda remained for a longer stay.

Mrs. Ralph Voorheis and son, Donald, Mrs. Austin Ault, daughter and granddaughter, Mrs. Virginia Oman and Ruth Ann Oman left early Saturday morning for a trip to Pennsylvania. Mrs. Ault and the Omans will visit relatives for two weeks.

Walter Rehner spent Thursday at Clarkes Lake.

Coastguardsman Roger Graham arrived home unexpectedly Friday evening for a two-day visit with his parents, Mr. and Mrs. Louis Graham.

Mr. and Mrs. Merle Adams and son, Clarke of Washington, Pa., were Fourth of July weekend guests of Mr. and Mrs. Austin Ault on Broadwood.

Mr. and Mrs. Thomas Ault of Washington, Pa., were Fourth of July weekend guests of Mr. and Mrs. Russell Ault.

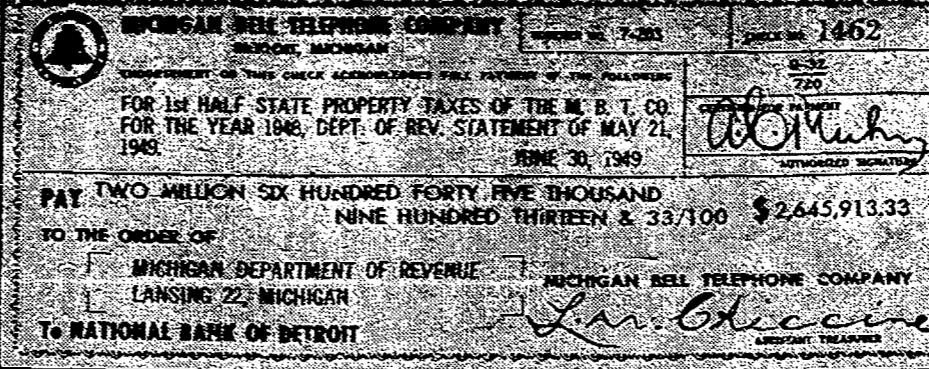

Rev. and Mrs. Lester Ault of Pittsburgh, Pa., were house guests over last weekend of Mrs. Emerson Ault.

Mrs. Harold Hazen of Sunnyside avenue is convalescing from a severe attack of illness.

Arthur Muir spent last weekend in northern Michigan.

Mrs. Frank Posner and her new little son, Robert, born June 29th, returned from Sessions' Hospital, Northville, to their home on Farmington Road the first of the week.

Mrs. George Welsh was notified Friday evening of the death of her only uncle, in Cheboygan, Michigan.

Largest check ever written for the state primary school fund has been turned over by the Michigan Bell Telephone Company to the Department of Education at Lansing.

Revenue at Lansing. The check for \$2,645,913.33 represents one-half of the company's 1948 state property taxes of \$5,291,826.68 which by law goes to the schools.

A check for the other half will be turned over later this year. The company's total operating taxes for the last year amounted to approximately \$13,000,000.

MSC Summer School Hits Full Stride

More than 4,500 Michigan State College students, conference participants and persons enrolled in various campus workshops have sweltered through the first half of the college's beginning six-week summer session and are eyeing a second round of classes to be held July 27 to September 3.

Approximately 300 participants are high school students from all over the state attending the annual High School Speech Institute, School Music Special Courses, and Special Course in High School Journalism.

High point of the July workshops is the Workshop in State and Local Government which brings nearly 100 students and Michigan citizens in contact with top authorities on the state, county and local government levels.

In the northern peninsula 163 Spartan foresters are taking part in the largest MSC forestry camp ever to be held. In its 30th year, the camp at Dunbar Forest located near Sault Ste. Marie is designed to give students practical work and techniques of modern forestry problems.

One of the few courses of its kind in the nation is the Special Course for School Lunch Cooks and Cook Managers, July 11-22, which offers to approximately 35 Michigan school lunch cooks opportunities and latest techniques in the art of cooking large menus for public school children.

Numerous workshops in economics, speech correction, the air age, general education, guidance, school building, home and family living, and the third annual Rural Leadership School are either underway or will begin in the near future.

The Beautiful Chrysler | Silver Anniversary Model

Beauty In Appearance! Every clean, lovely line of the Silver Anniversary Chrysler has purpose and meaning. Beauty is the Chrysler idea. A striking line of chrome along the fenders may please your eye, but it's there on a Chrysler to act as a rub rail. Behind each detail of Chrysler design, there's a story of common sense and imagination in engineering.

Beauty In Comfort! A chair in your home can be beautiful because fine design gives it the ideal combination of grace and comfort. Chrysler chair-height seats have this kind of beauty, too. Perfectly proportioned, they seat you at the proper height to see the road and to enjoy your ride. Even the instrument cluster in your line of vision on the steering wheel leaves the strain of driving and adds beauty to the relaxing pleasure of riding in a Chrysler.

41 Per Cent of Land In U.S. in Herbage

Grass Top Resource,

Cattlemen Assert

Grass is one of the greatest resources of this nation. In the United States there are approximately 779 million acres of land which will grow nothing but hay, grass and other herbage unfit for human consumption.

This great acreage represents 41 per cent of the total land of the nation. About 9 per cent of the lands in the United States are plowable but are used also to produce pasture, hay or forage crops. It can be concluded, therefore, that about 50 per cent of the United States would not be used if it were not for meat animals.

Caution your friends about riding near or across driveways, hanging on trucks, and riding double. Keep way over to the right whenever you ride and -

RIDE STRAIGHT.

YOUR SAFETY IS YOUR BUSINESS

If you're careful and smart enough to be careful, you'll get along. If not, you had better work.

BOY SCOUTS OF AMERICA

No Depression In Sight, States Cong. Dondero

Many people are worried low in relation to income. "Mortgage debts are not excessive and mostly are amortized over periods long enough to make payment comparatively easy. Farmers' debts are nearly at an all-time low. Consumer credit debt is lower in relation to income than before the war, in installment buying having failed to soar when curbs were taken off. Corporation debt is relatively small and carried at low interest rates.

This fear is unfounded unless and until certain policies now being urged by the Democratic administration are carried out by the Congress. That these policies will be carried out seems highly unlikely in view of the manifestly most administration bills have been given thus far in the present session. Either they have been defeated or have failed even to be reported out of committee, with the single exception of the Public Housing measure.

The factors now operating to prevent a serious recession in the nation's economic activity are many. They include the fact that farmers have price supports, crop loans, and soil conservation payments; industrial workers' wages are protected by contracts; veterans' payments and relief are adequate, and social security already covers virtually everyone whose economic status is such as to create actual need.

But these income protecting factors are only a part of the story, and perhaps the least important part. Savings of the American people are tremendous and growing every day. Liquid assets in the hands of the people are at least two and one-half times the total of their debts, while at the same time debt is

there is every reason to believe that the present readjustment will be no more than a healthy one, and that general employment and prosperity will continue at high levels. That is, they will do so if the pattern of legislation set by the Republican 80th Congress is continued.

Only if the wasteful needless, and generally ineffective proposals for such things as socialist medicine, excessive social security payments, the socialistic Brannan farm program and the like, as urged by the Democratic administration, are carried out will the readjustment turn into a depression. The administration tells the people these things will safeguard them from depression. In fact, these things are just what may bring a deep depression, if they are written into law.

For my own part, I have consistently opposed the Truman program, because it is manifestly the President's proposals would wreck rather than strengthen the American economic system, which has brought us the greatest general prosperity the world has ever seen."

To stop look and lessen grade crossing accidents, the National Safety Council advises: Slow up before the crossing, don't stop dead at it. If the train gives a hoot for your life, so should you.

Many Park Roads Receive Blacktop

Blacktopping of several state park roads has been completed, the conservation department's parks division announces.

Park visitors will find improved thoroughfares at Hayes, Sterling, Burt Lake, Bloomer and Bay City in the lower peninsula. At Tahquamenon Falls state park, a new entrance gravel road leading into the lower falls, a new parking area and some camp ground development is re-

ported at this upper peninsula location by the parks division.

Safety Week Goal Is Cut In Annual Farm Accident Toll

Observance of Farm Safety Week from July 24 to 30 has been proclaimed by Governor G. Mennen Williams. The annual week is held to reduce the yearly toll of farm accidents.

In his proclamation, the Governor pointed out: "Accidents resulting from carelessness take a heavy toll in human lives, animals, and property on American farms annually. On the basis of past records, one out of every 17 farm families will suffer a disabling injury as the result of accidents in 1949."

Citing the frequency of accidents, the proclamation pointed out that records show four farm buildings are destroyed by fire every hour. The nation's farm population suffers an accident every 18 seconds during the year.

Total cost of the accidents, the facts show, is approximately one billion dollars or about \$35 per farm resident.

Agricultural extension workers at Michigan State College and county extension personnel are cooperating to help reach the goal of fewer farm accidents. They are urging careful farm checks to get rid of hazards. The elimination of at least one unsafe practice by each member of every farm family is the major objective of the national farm safety week campaign.

Civic groups, service organizations, and community leaders are planning special observances for safety week in some areas. They believe the reduction in farm accidents will be of benefit to everyone, whether they live in the city or country.

A new spectrometer tells simultaneously how much of 16 different elements are in a metallic sample.

Michigan is the only state east of the Mississippi River which has a sub-tropical climate during the growing season in more than 50 percent of the years.

R. L. Carlos, Michigan State

College horticulturist, states that most vegetable crops require between 1500 to 3000 tons of water per acre for best growth.

One inch of rainfall equals 1/90 tons of water per acre. During June, July, and August, Michigan rainfall averages about 6.5 inches or only .65 tons per acre.

If crops are to produce maximum yields, the extra 650 to 2150 tons of water or 6.5 to 21.5 inches of rain equivalent must be added through the use of irrigation.

In an experiment conducted by Carlos near East Lansing in 1943, snap beans, tomatoes, and sweet corn all responded to irrigation. Beans gave the greatest percentage of yield increase when eight inches of water was applied during the season. Wax beans gave an increase of 55 percent, while green beans increased 31 percent.

To avoid mousing a carefully packed bag when you undress at night on the train, it's wise to put all your necessary toilet articles, gown and robe, in a flat soft fabric case which can be made yourself. Place this at the top of your suit case. They may also be carried in an overnight case.

If the bag must be opened frequently and you have one or two very special dresses that you wish to keep fresh and unwrinkled, follow this plan:

Fold them with care, packing tissue paper between the layers to keep them from wrinkling.

They may be pinned so they won't slip. Place them in a heavy sheet of paper and pin it so it makes a neat package. This package can be put on top of the other clothes and laid aside when some garment is to be taken from the case. Air it an hour or so before it is needed and it will stay fresh and unsmelled.

Is Michigan slipping as a tourist state?

James Welsh, the "Old Traveler" of the Automobile Club of Michigan, thinks so.

In fact, he provoked quite a controversy among Michigan newspaper editors by saying just this at a summer meeting of the Michigan Press Association at Hotel Top-in-a-bee on Mullet Lake, Cheboygan county.

"I know what I am talking about," he declared. "I travel about the country constantly. Each month I write a travel article on some Michigan city or region for the Motor News, monthly magazine of the Automobile Club. Michigan is not keeping up with the progress made by other states in attracting tourists. We are definitely slipping."

It is the Welsh contention that Michigan people lack pride in their home state. They fail to brag (or even talk) about Michigan's wealth of natural resources, its air-conditioned summer climate, its thousands of whites-and-lakes leadership in hunting and fishing, and such unique scenic attractions as Mackinac Island, Porcupine mountains amid forest wilderness, and the Taconawha Falls.

Why? Michigan people are too complacent. They neglect to greet outstate visitors with warm friendly hospitality and say, "Be sure to see this-and that before you leave!"

National Farm Safety Week will be observed July 21-30. Rural boys and girls taking part in the National 4-H Farm Safety program

want to make you, your family and neighbors safety minded so that accidents mentioned above won't happen.

For achievements in safety work, the 4-H boy or girl may receive a prizewinning silver medal or honor as county winner. General Motors also provides an educational trip to the National 4-H Club Congress, Chicago, next November for the state winner and \$300.00 college scholarship for each of the eight national champions. By practicing safety from this time on, you'll not only help your 4-H'er in his safety work, but help save a life—which may be your own.

The National 4-H Farm Safety program is conducted under the direction of the Cooperative Extension Service.

"Out bathing" beaches are nationally famous. White sand beaches are the rule rather than the exception. And then there is the prevailing westerly wind from Lake Superior and Lake Michigan which air-condition all sections of the state.

All available statistics about Michigan's role in the tourist field contradict and deny Welsh's contention that Michigan is falling behind.

Traffic at the Straits of Mackinac from July 4 to 5, inclusively was 20 per cent higher than one year ago.

Despite a state advertising budget approximately one-half that of the leading states, Michigan ranked third among the 48 states in 1948, according to an independent national survey, and this year should be tied with California for second place in dollar volume.

New York is surprisingly enough to some people, leads all states in tourist travel business. New York City is chiefly responsible for this. New York's state advertising budget for vacation promotion is \$500,000—just double that of Michigan. California's state budget is nearly as high.

Don't overlook these facts: Michigan has 3,000 miles of shore line on the Great Lakes. Michigan possesses 11,000 inland lakes, 36,000 miles of rivers and streams, game and fish for more license holders than any other state in the U.S.A.

The state legislature this year turned thumbs-down on a bill, sponsored by the conservation department, to grant blank-check authority to build and operate hotels and cabins on any state land. Strangely enough, most members of the conservation commission privately frowned on this latitude. So did the state legislature!

The bewhiskered "Old Traveler," now promoting Michigan attractions for ten years, started something when he prodded newspaper editors at Topinabee. An intelligent and prolific writer,

he may have done it deliberately.

The result has been a re-appraisal of Michigan's tourist resources and perhaps a reawakening to the need for every citizen to be a friendly host to this summer's millions of visitors.

Friels also said, "We are not forgetting that the real purpose of the Michigan State Fair is to show the progress of the Michigan agriculture and industry. There is no reason why we can't do a good job of this and have excellent entertainment too."

Friels previously announced the holding of a 100-mile big car AAA-sanctioned automobile race to be held Sunday afternoon, Sept. 11, the closing day of the State Fair. Bill Holland, winner of this year's Indianapolis 500-mile, Memorial Day classic and many other leading drivers are entered.

The National 4-H Farm Safety program is conducted under the direction of the Cooperative Extension Service.

**Bob Hope Billed
for State Fair**

Bob Hope will give two performances daily when he appears at the Centennial Michigan State Fair during the first three days. James D. Friel, general manager, announces the State Fair will be held Sept. 2 through 11.

"Getting Bob Hope as the opening entertainment attraction at our State Fair is a real scoop," he said. "You can't do better than Bob Hope. This is the first time he has ever played a fair of any kind. Everyone has been trying unsuccessfully for years to get Bob at our fairs."

The fact that this is our 100th anniversary State Fair had a lot to do with Bob's decision. Another factor is that he likes Detroit and Michigan. He thinks he owes a lot to Michiganders."

Hope will give matinee and evening performances in the 10,000 capacity Coliseum where the shows during the fair will be billed "Hollywood on Parade."

He will do his own act and then Emcee the remainder of the program which will include eight top vaudeville acts, and other entertainment.

Friels also said, "We are not forgetting that the real purpose of the Michigan State Fair is to show the progress of the Michigan agriculture and industry. There is no reason why we can't do a good job of this and have excellent entertainment too."

Friels previously announced the holding of a 100-mile big car AAA-sanctioned automobile race to be held Sunday afternoon, Sept. 11, the closing day of the State Fair. Bill Holland, winner of this year's Indianapolis 500-mile, Memorial Day classic and many other leading drivers are entered.
