NORTHVILLE, MICHIGAN

# Rural Zele-news

BIG BUSINESS - Farmers in Michigan produce over \$400,000,000 worth of crops a year. In producing this bumper crop, the farmer depends a lot on tools, such as plows. harrows, tractors. Another tool, and one of the most helpful, is the telephone. It runs errands, locates farm help, takes orders, helps meet emergencies. The number of farms with telephones in Michigan Bell territory has nearly doubled since before

TOP IN TAX - Michigan Bell is the biggest single contributor by taxes to the State Pcimary School Fund. This year Michigan Bell will pay \$5,291.326 in State property taxes. That's equal to \$3 65 for each school pupil in Michigan. So part of what you pay Michigan Bell for telephone service helps educate the children around you - making them finer, more useful citizens of tomorrow.

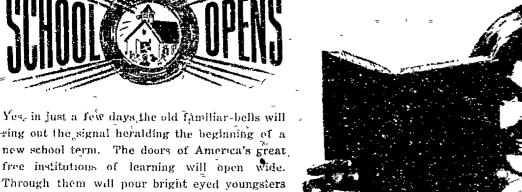

HOW NEAR ARE YOUR NEIGHBORS? - Yourfriends may live one, two or more miles away, and yet they're as close to you as next-door neighbors by telephone. Without leaving home you can visit with them regularly. exchange bits of news, ask for or offer help in case of illness, plan parties or church affairs. Considering how little it costs and how much it can do for you, one of today's greatest values is the telephone.

BELL TELEPHONE COMPANY

Our \$13,500,000 portwar rural construction program means more and better rural telephone service

ring out the signal heralding the beginning of a new school term. The doors of America's great free institutions of learning will open wide. Through them will pour bright eyed youngsters fresh from the excitement of vacations. Some will be reluctant to give up the freedom of vacation seasons in exchange for class work. Yet nothing is more important to the future of this nation than that our children complete their education for citizenship in the new world of freedom now in the making. The Northville schools are ready to serve you. Get set for tomorrow . . . Go to school now!

#### Mr. and Mrs. Donald Brock To Make Home In Chicago

scene Saturday evening of the teaching in Chicago. marriage of Geraldine Wolfe of Shadyside avenue, Farmington, and Dorald Brock of Detroit. Geraldine's parents are Mr. and Mrs. Harry S. Wolfe and Don's are the Roy Brock's of Detroit.

Dr. Samuel Weir read the double ring teremony before an altar flanked with candelabra. and baskets of white-gladioh and chrysantnemums Dwayne Shaufler presided at the organ and played the traditional wedding music and Marcelle Hall of Fermington sang, "I Love You Truly", and "Because".

Geraldine who was escorted down the aisle on the arm of her father, wore a colonial saun-gown fashioned with an illusion neckline, the rosepointe lace basque waistline extending into the full hoop skirt which was trimmed with matching lace inserts Her fingertip veil of illusion which was trummed with rosepointe lace was caught to ner nead with a seed pearl trara, and she carried a bouquet of stepnanôtis and delphinium centered with a white ordered.

Gerry's sister, Mrs Viola Manning of Detroit was matron of honor and she wore a whitegorgandy gown over blue taffeta. Bridesmaids, were Audrey Ford and Frances Bonar of Northville. Eeverly Neff of Detroit and the bride's mece, Sherry Wolle of Farmington who were white or-gandy gowns over orchid taffets. styled identical to the matron of honor. All wore shirred tulle headdresses and carried bouquets of gladich and-baby's breat's.

Marjorle Wolfe and Shurley Manning, n cces of the bride were the flower guls and they wore blue organds gowns and carried bouquets of white glad-an Harry Wolfe III, the bude's nephew, carried the rings on a

white satin pillow.

A pink orchid was worn on M.s. Babyus mauve crepe gown with its matening gloves.

Following the ceremony. Mr. and Mrs Reynolds received their guests at the Presbyterian Church House where the white four-nered wedding cake was cut by the newlywods. Mrs Louic A Bacbitt of Northville and Phyllis Reed of Chicago pres,ded at the reception table. At the punch table were Mrs. Robert Ely, and Mrs Stanley Smith Dr and Mrs A A Holcomb as-sisted as host and hostess while Miss Beatrice Hawkins had charge of the guest book ing the reception. Julie Ann Harris furnished piano music

The young couple are travel-ling to Sacramen'n, California and from there by train and steamship to Fairbanks Alaska. where Bob will attend the University of Alaska.

Mary Ellen is a graduate of Northville High School, Stephens College, Missouri, and received her B.S Degree at Michigan State Normal College She also attended the University Alaska for one year. She is affiliated with Delta Sigma, honorary science sorority.

Bob has attended the University of California, the University

Even Mary's lamb can learn that easy safety rule! Best rule of all-for school children and everyone else—is: Don't walk on the highway. But if you must, then walk to the left, facing oncoming cars. Your chances of avoiding accident are three times better when you observe this rule.

Use special care at night and when roads are slippery. Even at moderate driving speeds, motorists often can't see pedestrians in time to stop. At 40 miles an hour, a safe stopping distance may be as much as 164 feet-much more at higher speeds,

When you walk on the highway, your life is your lookout. So-look out!

Movie makers may soon have to raise their own cattle if the want to show them with horns for dairymen and ranchers are becoming convinced that horns can become costly liabilities. Horned cattle often gore each other and their attendants. The latest conipment developed for horning iron. It consists of a 300-watt soldering from with a special up having a hollow cone point. After pre-heating for about 15 minutes, the iron applied over the born button, with best results when the hern button is from 1/4 to 1/4, of an inch nigh. The instrument hills the bear cell and cauterizes the Askin around the horn but on. In about five weeks the scab, formed by the operation, dries up and falls off, taking the born with it. The effective dehorming from can be plugged into a 115-volt AC

#### Saxton Explains **Extended Service**

Northville was excluded from the telephone extended - area plan because of an official request by the community before the Michigan Public Service Commission, according to John R. Saxton, manager for the Michigan Bell Telephone Company.

Saxton's statement was answer to an editorial in the Plymouth Mail posing the question as to why Northville was not in-cluded in the extended-area plan with Plymouth. Under that plan, calls are made between commun ities in the extended area without the payment of toll charges.
When the Michigan Bell first proposed extended-area service two years ago, Northvule was included in the plan, Saxton point-ed-out Extended-area - calling

privaleges were proposed be-tween Northville, Plymouth, Walled Lake and Farmington. When hearings were held in Lansing on the company's application. however, a Northville village commissioner longed an official protest against the in-

clusion of that community," Saxton said. In view of the protest, Northville was deleted in the final order of the Commission authorizing exténded-aiea ser-Vice. : "

The main safety rules for opto gamble with an accident by operating without the power

#### Insecticides Urged In Hopper Control Declared Better Than

Fari ers have access to easier and better wars to protect their crops against grasshoppers than by the e e of pursue batts

Use Of Poison Baits

Any of three newly developed in-

Experimental work with the three insecticides has been carried on by federal and state agencies long enough to be sure of the results. Each has advantages and choice should depend on special needs The type of sprayer or duster used makes little difference so long as the insecticide goes on evenly and in the right amounts.

All three insect.cides are both stomach and contact poisons. Un der field conditions, chlordane and toxaphene are best as stomach

Chlordane is nest as a made from an emulsion. For halfgrown and most full-grown hoppers use one-half pound of actual chlor dane per acre. Double the dose for full-grown or big, yellow grasshoppers Chlordane is a slow killer and results are not apparent at once. But hoppers stop feeding as scon as they swallow a good dose The killing effect of chloroane lasts about 10 days

Benzene hexachloride is best as a dust, nithough it may be used as a spray made from wettable powder Use at the rate of three-tenths of a pound of actual gamma isomer penzene hexachloride per acre or 30 pounds of one per cent gamma isomer dust per acre. (Directions on the package will tell you how to get this concentration.) The effect of this insecticide lasts about two

Tovaphene or chlorinated cam phene can be used as a dust, as a gettable powder or as an emulsion Fre emulsion usually lasts longer Toxaphene is available in 10 or 20 per cent dusis. It gives good results at the rate of 30 pounds of 10 per cent dust per acre As an emulsion, it should be used at the rate of one and a half pounds of actual toxaphene against small hoppers or two and, a half or three pounds against large hoppers. Toxaphene is effec-tive for about 10 days

If the hoppers are confined to the held you want to treat, you can do a good job with benzene hexachloride. But if the pests are moving into your field from the cutside you'll be wise to use the longer lasting chlordane or toxaphene

#### Fair To Emphasize Mich. Agriculture

Agriculture in Michigan in many respects will be empha-sized more than ever cat-this year's- gigantic Centennial - State Fair to be held in Detroit Sep-tember 2 through 11. Other features such as a cooking school for home makers and a Veteran's Day have been planned for the benefit of the Fair visitors

Agricultule is the keynote of plans made by the Board of Man? agers and General Manager James D. Friel as they are putting the finishing touches to a program that will feature thousands of agricultural and junion \$120,060-in premiums.

Increased attention is to be given junior exhibitors this year. remiums have been raised from \$10,350 to \$15,442 and the Dan-mals have become extinct. ish system of judging-will be introduced to assure every junior exhibitor a prize

Added classes and prizes in according to the home economics and handicraft Book of the Year.

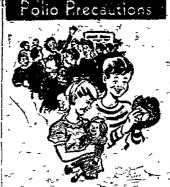

will be attractions of the Junior Show. Sleeping and eating ac-commodations for the 500 young people expected have been made These boys and girls will represent various counties as members of 4-H Clubs, Future Farmers of America and Future Homemakers of America.

The cooking school in the Club House at the Fair grounds will peopen until September 10th Scheduled for September 3 at 2 p. m. is a program on Turkey Cooking and Carving by Mary Bodwell, consumers aducation specialist and Mr. J : N. Moore, both of Michigan State College. Demonstrations will be given eveery day to aid the Michigan homemaker.

Veteran's Day has been slated for Saturday, September 10 when livestock exhibits with a record all veterals will be admitted to the grounds free of charge.

#### Methodists To Hold

Morning-seminars will be con-ducted to study "Purposeful Christian" Living Through the Bible," "Building a Christian Community" and "The World Mission of the Church."

Any young people desirious of attending are asked to contact Merritt Meaker or Reverend Wm. Hughes: Over Labor Day week end,

Lake Huron camp offers a program for Methodist Adulf groups Rev. Sheldon Rahn is presenting "Christian Family Life" at this camp-to be held September 2 to poem was published when he 5 also. Registration blanks can be obtained from Rev Hughes

#### Couse, Atchison Serve As Fund Trustees

Walter Couse and Dr. R. M. Atchison have been named as trustees to administer the funds collected for the Parkview Community Hospital which was dissolved at the last meeting of the Fund directors in Plymouth re-

cently. The \$1,900 which was raised to build a joint Northville-Plymouth hospital, was turned into a scholarship fund available~to girls from the two towns who wish to enter the nursing pro-·fession,

Along with Trustee Dr. Walter Hammond of Plymouth, Mr. Couse and Dr. Atchison, have authorized to make grants of \$100 yearly to applicants that were deserving of help.

 Application for the funds may be made by students to any of the trustees More details about the administration of the fund will be available when the two schools convene in September, states Dr. Atchison.

#### Avishire Breeders **Testing Production** Keep Average Chart, Record of Animals

The Ayrshire preeders' associa tion is the only cattle-breaders' or ganization in the field which main tains "average" rather than "se-lective" production records of its ows, according to officials.

At this time, it was reported,

hed records of all phases of pro-

shire breeders' association Happing, right, look over "Armeur Mona" the blueblooded Ayrshire cow sold at the Bucks county, Pa., sale.

duction and lactation are averaged into monthly records and these, in turn, are averaged into annual records. From these annual figures. "herd" avorages , are then computed, and these are computed into the only "breed" averages extant Owners of the Ayrshire cattle

are given duplicate copies of the production records compiled with the help of foolproof IBM 'ma-chines This system is of immeasurable help to Ayrshire farmers in operating their herds and dispos ing of surplus cattle.

But this painstaking "cows on est" project is only one of the many operations conducted by the Ayrshire calf is recorded and registered

The operations of the A.B A. are helping to make Ayrshire cattle one of the most popular breeds of dairy eatile in the country. The Ayrshire is reported the highest producer of 4,0 per cent milk of any breed Only Ayishires produce 'naturally homogenized' milk-the fat globules are so fine and tiny that they are integrated by nature with the rest of he distributed with first becase milk Ayishire milk is in great demand by hospitals, and by doctors with on diet patients = -

#### De-Humidifier

Now the home-owner can pro tect property in his basement from mold, rust and mildew damage by moist summer air with any one of several simple and inexpensive de-humidifiers and a low-cost chemical—calcium chloride.

Scarce in supply during the wat years, calcium chloride is now in plentiful supply. Low-cost de-hu midifiers are available nationally through hardware and lumber deal

De-humidifiers designed to use the chemical have a container such as that shown here, for the flake which is exposed to air Calcium chloride has the unique property of being able to absorb several times its own weight in moistire

#### Montana Farm Families Assist County Agents

More than 6,500 rural men and women in 43 Montana counties gave fieely of their time during 1948 to assist county extension agents in carrying forward pro grams aimed at bringing about improved farming and homemaking methods and better rural commu nity living, according to the year's end report of R. B. Tootell, director of the agricultural extension service at Montana state college...

Wine was produced in Egypt as early as 2400 B. C.
