

GLORIOUS CONSTITUTION DAY

Let us pause to reconsider our Constitution, which has wisely guided the actions of our great land, since its adoption September 17, 1787 — 162 years ago. This noble document, the product of earnest, self-sacrificing men, is the source of the justice that made America the leader among nations — that has made being an American an honor.

He further explained that at the present time petitions are being circulated in Michigan to have placed on the 1950 ballot a referendum which would determine whether the people of Michigan would favor such a form of world government and whether they would favor an amendment to the U. S. Constitution to allow the United States to enter into such an agreement.

Mrs. Colman, a graduate of Ohio State, has four children of her own and has had nursery school experience with them, as well as working in the nursery school at Ohio State. She has been a substitute teacher in the Dearborn schools and has been in the sociological department at Ford Hospital for five years. NAMED GRAND CHAMPION MARE

Abbingdon of Shady Lawn, owned by Mr. and Mrs. Vaughn R. Groom of Eight Mile Road, last week took top honors at the National Morgan Horse Show at Windsor, Vermont.

Mustangs To Play Opener at Brighton

The Northville High School Mustangs will open the 1949-50 season against a strong Brighton eleven tomorrow night under the lights at Brighton. The game is scheduled to begin 8 p. m.

Brighton edged out Northville in last year's game; also a season earlier, by a score of 13-6. The Mustangs, out to revenge the year ago defeat, are practicing this week at Cass, Benton Park and at Ford Field. Coach Al Jones' 77-plus varsity aspirants did not take a vacation last week, but practiced both Saturday and Sunday to prepare for the Brighton game.

Jones has been working chiefly with various backfield combinations while Coach Dick Kauffman has concentrated on line play and defense. Coach Merrick Mesker has been working with two squads of reserves and freshmen.

The reserves expect to play a six-game schedule of their own this year, although dates of the games have not been set. The coaches are faced with the problem of replacing the major letter winners lost through graduation last year, with emphasis on two key spots full back and center.

This year's Orange and Black squad with average about the same weight as last year's team says Athletic Director Harry Smith. However, Brighton will field a team which has an unbeaten winning streak for the past two years which the Mustangs will be out to end.

Fisherman's Club Organized Friday

At the organizational meeting of the Methodist Church Men's Club, now known as the Fisherman's Club, last Friday night, D. J. Stark was elected president. Clifton Hill was named vice-president by the 42 men attending. Dick Nash will serve as secretary and Ed Mollena was elected treasurer.

Stark, who was temporary chairman for the first meeting, yielded the floor to Roy Stone and his words of welcome. The Rev. William Hughes explained that membership in the Fisherman's Club is open to all men who desire fellowship and that the club is not intended as just a businessmen's organization.

A program committee consisting of Bob Frost, Wilson Funk and Clifton Hill was appointed by Stark. Funk said that Al Wistert, captain of the University of Michigan football team, had agreed to speak before the club at its next meeting.

The club named the third Thursday of each month at 8 p. m. as the date and time of regular meetings.

Belated Birthday Congratulations to Mrs. Leo La Roque of arrangements on the Citizens' Open House, September 30th.

Overworked Sheets

It is poor economy to have too few sheets and overwork them. Four sheets per bed will allow better rotation and increase the life span of the sheets.

Police Head Gets Reich Assignment

Arthur F. Brandstatter, chief of camps police and head of the department of police administration at Michigan State College, has been selected by the Department of the Army for a special 30-day assignment as "visiting expert" with the U. S. military government in Germany.

Brandstatter, one of eight police officers in the U. S. selected for this project will report to Washington, D. C. in November for orders. In Germany, he will serve as visiting expert on a police administration and techniques project with Civil Administration Division of the Office of Military Government.

Brandstatter said the program is designed primarily to indoctrinate German officials with the operation of police systems in a democracy; and also to provide American police administrators with an understanding of German police methods and problems.

County May Require Vaccination of Dogs

Any Michigan county will soon be able to require rabies vaccination of all dogs whether or not the county is under quarantine for rabies, according to the Michigan Department of Health.

The Department, which is interested in rabies from the standpoint of prevention of human hydrophobia, made this statement today in explaining provision of a new law which becomes effective September 22.

Any Board of Supervisors, in its October session, can pass a resolution requiring every dog in the county to be vaccinated before it can be licensed, the Department said. Previously it was necessary for a Board to ask the Department of Agriculture to establish a quarantine and wait until the county was quarantined before the Board could require that all dogs be vaccinated. The change was made by Public Act No. 35 of 1949.

The most important measures for control of rabies in animals and hydrophobia in humans are the compulsory vaccination of all dogs and the impounding and destruction of stray dogs, the Department advised. There would be little danger of deaths from hydrophobia, or little necessity for painful anti-rabic treatment of humans if all dogs in the state were vaccinated.

Foot Ventilation

Reason doctors urge removing rubbers and galoshes indoors is that leather soles on shoes cannot ventilate feet properly, if hampered by impermeable foot coverings.

We Deliver

Two developments have taken
place at Lansing which put Gov.
G. Mennen Williams in the fami-
liar role of a state executive who
seeks more power.

It was the theme of Governor
Kim Sigler that the people held
the governor responsible for re-
sults and that the governor
should hold power in proportion
to this responsibility. Sigler's
efforts to centralize responsibility
and power in the governor's of-
fice were rebuffed by the state
legislature. Legislators disagreed.
Since winning election as Sigler's
successor, Williams has sought to
strengthen his hand. He has done
this largely by partisan appoint-
ments. A number of these ap-
pointees were unsuccessful Demo-
cratic candidates for state
offices.

Reinstatement of Brig. Gen.
Louis A. Kunzig as executive
director of the liquor control
commission has been ordered by
the state service commission, of
which William Palmer, democrat,
is chairman.

Kunzig was fired by two Demo-
cratic members of the state
liquor control commission. The
reason given was the civil service
position of executive director
was no longer needed, and Kun-
zig's salary of \$10,000 a year
should be saved in the interest
of "economy". The third com-
mission member, a Republican,
charged that Kunzig was ousted
for "political reasons". Memories
of old liquor scandals were re-
vived and sifted.

While Governor Williams main-
tains he is not involved in the
Kunzig row, it is unlikely that
Kunzig would have been fired
if Williams had opposed such
action by his appointees, who
hold majority control. And to
the controversy automatically
puts the governor into the pic-
ture. Responsibility of the acts of
appointees goes with the gover-
nor's power to appoint.

The second development affects
the new state department of ad-
ministration, director of which is
appointed by the governor. When
John Perkins returned to the
University of Michigan after in-
ducing the legislature to go along
with Sigler's recommendation for
limited centralized controls over
state departments, Prof. William
Steadman of Wayne University
was chosen by Governor Wil-
liams.

The Williams-controlled de-
partment recently informed
Charles M. Ziegler, state highway
commissioner, that the highway
department must turn over its
purchasing Stephen J. Roth,

attorney general, said the depart-
ment of administration was with-
in its legal rights.
Ziegler, who was re-elected
last April, promptly charged
Williams as seeking to "grasp
new, additional power regardless
of the effect on costs, efficiency
or operations." He said the high-
way department's purchasing
system has had the support of
the legislature, state supreme
court and former attorneys gen-
erals for 25 years.

Behind the charges of politics
between the Republicans and the
Democrats is the prospect that
the real answers to these con-
troversies must come from the
State Supreme court itself. For
example, it was argued at the

civil service commission hearing
on the Kunzig case that the
liquor control commission had
full authority to abolish any post
even though the post had been
created by the civil service com-
mission.

"George J. Burke, member of
the civil service commission, re-
plied: "Do you mean that the
authority of civil service ends
with the creation of a new po-
sition? What would stop any
other department from following
the precedent you are attempting
to set here?"

In the highway department
case the attorney general's rul-
ing is challenged by a state-
elected official, the state highway
commissioner.

These are constitutional ques-
tions, made to order for the State
Supreme Court.

In the meanwhile, they serve
to focus attention again on the
role of the Michigan governor—
whether he be Republican Kim
Sigler or Democrat G. Mennen
Williams—with respect to re-
sponsibility and power.

Joan Cone, Merritt Meaker Are Married In Dearborn

At a candlelight ceremony Friday, September 2nd, in the First Methodist Church of Dearborn, Joan Susan Cone, daughter of Mr. and Mrs. O. C. Cone of Dearborn and Merritt Fuller Meaker, Jr., son of Mr. and Mrs. Merritt F. Meaker of Northville, were united in marriage. The Rev. William Hughes, of Northville and Rev. Neal Kelly read the double ring ceremony at seven thirty o'clock.

On the arm of her father, Joan came down the aisle to the flower-decked altar in a gown of antique ivory satin fashioned with a tightly fitted bodice and long sleeves. The low, round neckline, edged with seed pearls tapered into seed pearl medallions at the shoulder which accentuated a high collar. The full hooped skirt fell into a long circular train. An exquisite heirloom veil of handmade Brussels lace, which formed a Mary Stuart cap completed the ensemble. She carried an arm bouquet of white roses.

Mrs. Thomas Carr of Ypsilanti was matron-of-honor. Her gown was of a deep gold satin. The

bridesmaids, Helen Meaker of Northville, sister of the groom, and Madelyn Wallace of Dearborn wore gowns which differed only in color, a deep autumn green satin shade.

Beverly Brittain, four year old cousin of the groom attended as flower girl. She was dressed in a short, full-skirted dress of white dotted nylon. She carried a basket of white baby rums.

The bride's mother wore a simply tailored dress of mid-night blue crepe with beige accessories, and a corsage of ivory gladiolus. The groom's mother chose a tailored crepe dress in maroon. She wore black accessories and a corsage of ivory gladiolus.

David Amerman of West street acted as best man. The ushers were John Cone, brother of the bride, and John Stark of Walnut street.

The couple received their guests at the bride's home.

For her wedding trip East, Joan wore a two-piece suit dress of rust-colored silk, with brown accessories.

Upon their return, Mr. and Mrs. Meaker will make their home in Ypsilanti where they will continue their studies at the Michigan State Normal College where both are juniors. Joan is affiliated with the Alpha Sigma Tau Sorority.

Opera Group Names Division Chairmen

Five divisional chairmen, Mrs. Russell Atchison, Mrs. Louise E. Canfield, Eleanor Breitmeyer, Mrs. Frank C. Buks and Mrs. Robert Haas have been named to assist the out-state committee chairmen. Mrs. Alexander W. Lawrence and Mrs. John W. Clarke in promoting interest in the Grand Opera Festival held each fall at the Masonic Temple.

This group will serve as members of the General Advisory Board of the Detroit Grand Opera Association, a group of individuals and organizations having at heart the music interests of the community.

This year will see the seventh Annual Opera Festival held in Detroit and since each year brings added response from communities all over Michigan, an out-state committee has been formed under the direction of the Detroit Grand Opera Association to further accelerate interest in the festival in the hopes of bringing to Detroit more of the finest grand opera and top artists for the enjoyment of all opera enthusiasts.

Another function of the Board will be to advise the community of the latest dates for the advance sale of tickets thus facilitating easy access to the first choice of seats. Both the LaScala Company and the Detroit Grand Opera Association are non-profit organizations.

Many young people from all over the state gain musical experience in these operas by their work in the chorus. Several scholarships are given each year for outstanding talent and progress.

The Advisory Board will serve as a publicity medium to encourage local young people to audition for these chorus roles and stimulate interest in the scholarships.

A particularly fine festival season has been planned this year with eight of the world's greatest operas being presented. Among the stars—many from the Metropolitan Opera—who will supplement LaScala's notably fine cast are Bidu Sayao, Giuseppe Di Stefano, Regina Resnik, John Ross, George Chablski, Wilfred Engelman, John Lawler, Patricia Munsell, Jan Pearce, Cesare Bardelli, Salvatore Baccaglioni, Nino Rucci, Rose Derian, Virginia Housey and Herva Nelli.

Customers' Corner

Many of our stores now have express checkout stands reserved for the use of customers with only one or two small purchases.

Is there such a stand in your A&P? Do you ever use it? Does it speed up your shopping? If there is no express checkout in your store would you like to see one installed?

We want to make your shopping as quick and easy as possible and your advice will help us make your A&P store a better place to shop.

State Awaits Land for Hunters Use

For the downstate sportsman concerned about locating a place to hunt, the conservation department advises there are 176,985 acres to be open to public hunting in state parks and recreation areas, over a third of which are located within a short driving distance of metropolitan centers.

Even on Sunday, only day when many hunters can go afield, with special regulations in effect in some counties, the department's parks division will open 71,689 acres in 14 southern Michigan locations.

Easily accessible for a day's hunting, including Sundays, in Oakland county state recreation areas are Bald Mountain, Highland, Pontiac Lake, Holly, and Proud Lake; in Lapeer county, Metamora; Jackson and Washenaw counties, Waterloo; Barry county, Yankee Springs; Macomb and Oakland counties, that part of Rochester-Utica area in Oakland county, and in Oakland and Lapeer counties, Ortonville.

Sunday hunting is permitted, only with bow and arrow for deer in Brighton and Island Lake recreation areas, Livingston county. In the Pinckney area Livingston and Washtenaw counties, Washtenaw county section is open to Sunday hunting. Livingston county section open on Sunday only to bow and arrow deer hunting. At the Algonac state park, St. Clair county, Sunday hunting prohibited except for waterfowl on St. Clair river.

The total United States meat production per capita in 1948 was 145 pounds.

YOUR DOLLARS GO FARTHER

... and so will you in this big rugged Dodge!

Coronet 4-Door Sedan

You could pay a thousand dollars more and still not get all the extra roominess... ease of handling... famous dependability of Dodge.

Here's extra value... extra value you can see and feel!

You see the extra comfort in the wider, longer, higher interiors that give real stretch-out roominess for all.

You feel the extra thrill that comes from the new "Get-Away" engine... stepped up in power and squeezing extra miles from every tankful of gas. And with it all the proved smoothness of Dodge gyro fluid drive to take the jerks and jolts out of stop-and-go traffic.

Woodchuck Nuisance

Woodchucks are nuisances on any farm or pasture. Many a head of livestock has broken its leg by stepping into one of these holes. The mounds of dirt around the holes interfere with farm machinery. These animals destroy a certain amount of grain but their main damage is done to their burrowing.

Rural Tele-news

GOOD CUSTOMERS OF YOURS—The average Michigan family eats about \$500 worth of fruits, vegetables and dairy products a year. On this basis, Michigan Bell employees and their families consume about \$12,000,000 worth of farm products a year, much of which is produced by Michigan farmers.

HOUSEKEEPING NOTE—Can you imagine dusting the millions of tiny parts in telephone dial switching equipment? Michigan Bell does it by blowing out the dust with compressed air. In some telephone buildings a vacuum cleaner system is used to draw the dust into filters where it is collected for disposal. Good house-keeping helps to keep telephone service operating efficiently.

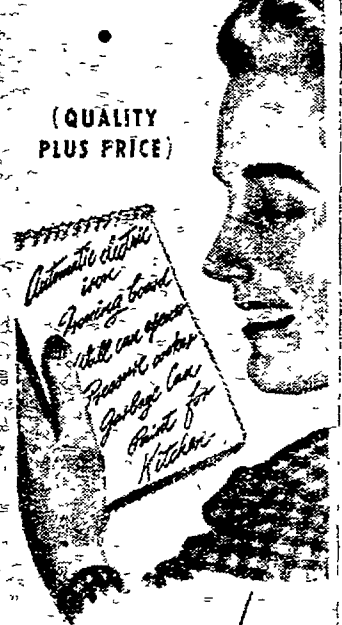

EVERY MINUTE COUNTS AT HARVEST TIME If your farm machinery breaks down, a quick Long Distance call will start spare parts on the way from your distributor or the factory. And when you're busy, telephoning is the easy way to keep in touch with friends and relatives who live at a distance. Service is friendly and courteous. And Long Distance calls cost surprisingly little.

Michigan Plants More Trees Than Neighbor States

Michigan farmers and private landowners reforested nearly 10,000 acres of land in 1948 to lead all lake states by a wide margin and rank fifth in the United States. Dr. Paul A. Herbert, head of the forestry department at Michigan State College, says only four southern states outplanted Michigan.

"This record explains in part why there has been a shortage of reforestation stock available in Michigan. The enthusiasm of our citizens to plant trees has outstripped the capacity of our nurseries," Herbert commented.

He reports that this fall and next spring, approximately 14 million trees are available to planters from nurseries of the Michigan Department of Conservation and of Michigan State College. He doubts, however, that even this big supply will fill the demand, and urges farmers to obtain price lists and place orders as soon as possible.

Michigan farmers and other individuals planted twice the acreage that was put out in Wisconsin, and ten times the acreage planted in Minnesota. U. S. Forestry figures show. Large plantings in southern states were the cause of those states exceeding Michigan's total, the MSC forestry head relates.

Commissioner Ely, Chairman of Public Works Commission, made arrangements with Street Superintendent Hartner and Commissioner George Locke to meet at 10:00 a.m. Wednesday, September 7, and go to the two locations above, referred to and look the situation over, for the purpose of considering what is best to do to remedy the condition now existing.

MSC Opens 95th Year September 19

Michigan State College will open its 95th year Monday, Sept. 19, when more than 4,000 freshmen and transfer students are expected to begin "orientation week" on the Spartan campus.

Registration for the fall quarter will be held Sept. 20-23, and classes will open Sept. 26.

Enrollment is expected to be at least equal that of last year, when MSC recorded an all-time high of 16,010 students, according to Registrar Robert S. Linton.

Facilities at Michigan State College have been improved with completion of a number of buildings this summer, but on-campus housing accommodations remain "critical" except for single men students, college officials disclosed.

The new Natural Science building, one of the largest of its type in the nation, and its neighbor the Physics and Mathematics building, have added nearly 25 per cent to the classroom, office and laboratory facilities of the campus. At capacity the Natural Science building will accommodate about 3,000 students and the Physics and Mathematics building 1,250.

Michigan State College students will also find a completely revised and modernized Student Union at their disposal. Construction on the Union during the past year included addition of a new South wing and renovation of the older sections, all done on a self-liquidating basis at no expense to the public.

Completion of the west wing of the Shaw Hall in time for fall classes will provide accommodations for an additional 575 men, greatly easing a shortage which has existed in men's housing since the war, Housing Director Stair H. Keebler said.

You ought to be driving a '49 PONTIAC

Distinguished by a Beauty All Its Own!

There's an unmistakable stamp of distinction about the new Pontiac. It's a beauty from the front, and it's a beauty from the rear!

Wherever you see its "Silver Streak" styling—in city traffic, on the highway, or silhouetted at the curb—you know immediately that it's a Pontiac and something very special among automobiles.

And Pontiac's performance is equally unmistakable—thanks to Pontiac's great power plants, the straight eight or the six, and to the amazing driving convenience of GM Hydra-Matic Drive.

Even though Pontiac is in a class by itself for beauty, for performance and for dependability, it is still the lowest priced straight eight in America!

Why not come in soon and get the whole Pontiac story?

Arkansas Farmers May Grow Drugs

New Plants to Produce Narcotics, Digitalis

A drug-farming program which may free the United States from reliance on foreign sources for many vital medicinal compounds has been launched in Arkansas by a transplanted Rumanian chemist, reports the magazine "Industrial and Engineering Chemistry."

Dr. O. K. Cosla, a biochemist who instituted the first successful cultivation of drug-bearing plants in Rumania, is in charge of the Arkansas program at the College of the Ozarks, Clarksville, where a 20-acre tract has been set aside for his experiments.

Dr. Cosla, who has an M. D. degree as well as a Ph. D. in biochemistry, used to export to the United States part of its drug supply, and during World War II he furnished southeastern Europe with medicinal materials.

If Dr. Cosla's plans mature, Arkansas farmers will soon begin supplying the nation with such drugs as belladonna, a narcotic, stramonium, a drug processed from dried Jimson weed which gives relief to asthma sufferers, and ergot, used to control blood hemorrhages and as an anesthetic.

Some of the drug-bearing plants which Dr. Cosla is planning to cultivate already grow wild in the Arkansas backwoods. To determine the best conditions for growing each plant as a domestic crop, the Rumanian chemist will test them in hydroponic installations, in which their roots will be immersed in a watery solution containing mineral nutrients, instead of in soil.

The active drugs will be extracted from the plants in a four-room laboratory which Dr. Cosla brought with him to this country to aid his research in biochemistry and experimental pharmacology.

Dr. Cosla believes, according to "Industrial and Engineering Chemistry," that the South can eventually become one of the nation's principal drug farming and manufacturing centers, thus diverting to the area millions of dollars now spent annually on imports.

Handy Cart

Elgar Schroeder, Morrisonville, Wisconsin, believes a handy farm gadget can have an attractive appearance while saving work for its owner. His pull-push cart carries a good-size load of tools, supplies or produce easily. The cart was made from a child's discarded coaster wagon, using the box and wheels. The original wagon axle was kept, and the cart was built of 3/4 inch pipe. Time required to build the cart was two and one-half hours at a cost of \$1 for materials. Arc welding played an important part in the cart's construction.

Corn in Silage Form Answer to Extra Crop

Corn in the form of silage is the solution for the extra crop—and a trench silo is the cheapest and easiest way to provide for making and storing of silage.

The trench silo is especially recommended for those who need to provide storage space hurriedly. However, areas having extremely high water tables or soil that is sandy or loose are not suitable, according to a dairy specialist.

HOLD THAT HUSBAND! . . . One of Hollywood's most prominent fashion designers, Orry Kelly, advises that American women should keep at least one fetching negligee in their wardrobes to hold the interest of their husbands. Here, Peggy Dow, who is making her film debut in the movie capital, demonstrates what is fetching and the kind of apparel the wardrobe designer has in mind.

ON CAPITOL HILL NEWS and COMMENT FROM CONGRESSMAN GEORGE A. DONDERO

In his Labor Day addresses President Truman had many words of praise for the present Democratic 81st Congress and almost as many words of censure for last year's Republican 80th Congress. He said in effect that the Republican Congress accomplished nothing and that the Democratic Congress has done much and will do still more to carry out his legislative program.

In view of these statements, which are taken by most people as the opening gun in the 1950 Democratic campaign, it is interesting and enlightening to analyze the record of the present Democratic Congress with respect to the President's legislative program. The analysis should reveal just how much the Democrats in Congress believe in the legislative program which would effectively socialize the American economy and bring about the greatest spending spree in the history of the American government.

A summary of Congressional action to date on the President's legislative program, prepared for me by the Legislative Reference Service of the Library of Congress, shows beyond any possibility of argument that the present Congress has accomplished virtually nothing toward carrying out the program. It shows, in fact, that the present Democratic Congress is even more opposed, even to the few constructive proposals made by the President, than was the Republican 80th Congress. Furthermore, it shows that the present Congress, under Democratic leadership, has gotten vitally necessary appropriation bills into the worst legislative mess in history.

Of the six proposals on foreign affairs made by the President, only three have been enacted. These include funds for ECA, export controls and Senate ratification of the North Atlantic Pact. The Reciprocal Trade Agreement, Foreign Military Assistance and Point IV bills still are pending. The latter comprises legislation whereby American technical know-how would be extended to all undeveloped areas throughout the world.

Of the 28 proposals on domestic affairs made by the President, only seven have been enacted, leaving 21 with little hope of action within the predictable future. Those enacted include two measures for rent control and public housing, one to provide

needed. The reorganization proposal disapproved by Congress was the one which would create a new cabinet job and lead directly to socialized medicine.

The list of domestic proposals by the President which Congress has failed to act upon is too long and complicated to outline here, but the most important can be mentioned. They include repeal of the Taft-Hartley Labor Relations Act, a bill to increase minimum wages, one to provide federal aid to education, one for national health insurance (socialized medicine), one for a \$4,000,000,000 income tax boost, on which the President has backed down, one for social security expansion, one for a revised farm program (Brannan plan), civil rights bills, anti-inflation legislation, public power bills, veterans legislation, anti-trust legislation, and nearly a dozen other measures of less importance.

From the foregoing it should be evident, after only a little thought, that the Democratic 81st Congress has done as the Republican 80th Congress did—turn an emphatic thumb down on the President's proposals which would put this nation far along the road to that socialism which has brought Great Britain to disaster. Anyone who does not believe that socialism has been utterly disastrous for the British people need only read in the newspapers and hear over the radio from day to day the desperate proposals of British officials now pleading with American officials in Washington to save Britain from national bankruptcy.
