

Armistice Day

Tomorrow, at exactly eleven o'clock, everyone will pause from daily activities, to pay homage to those who gave their lives in two great wars, that the rest of us might LIVE to enjoy the privileges of peace and democracy.

A moment's pause once a year, is not much. But if in that moment, we all resolve to strive unceasingly for adherence to the democratic principles for which our soldiers died... and if we practice these principles — without compromise — without relaxation — then perhaps, we shall have given purpose to their supreme sacrifice.

Mrs. G. Woodworth Heads Seal Drive

Christmas Seals with the double-barred cross in red will, for the 43rd year, be sent to you through the mail starting November 2, Mrs. Gerald C. Woodworth, Northville Seal Sale Chairman, announced today.

Mrs. Woodworth, representing the Northville Women's Club, also announced that the letters with the Seals will be post-marked in Detroit.

"Because of postal regulations it is necessary for the TB and Health Society to handle the mailing in this way," Mrs. Woodworth advised. "But your contributions help finance the X-Ray Survey, which has been sponsored here in Northville and also finance rehabilitation work at Maybury Sanatorium and Beaumont Ke for hospital."

The TB and Health Society of Wayne County will not benefit from the Seal Drive. The United Foundation in a statement to the Society wrote:

"The United Foundation, appreciates the good work done by the TB and Health Society to join the Seal Drive but because it is in the way of conflicts with United Foundation's program."

"Special campaigns not in conflict with United Foundation include Good Fellows, Poppy Day, the seal drives and building fund drives."

To provide even more X-Ray service, advised Mrs. Woodworth, the Society plans to use some of the double-barred cross Christmas Seal funds to purchase X-ray equipment.

"One dollar for each sheet of seals you receive will help bring more free X-Ray service into our community," explained Mrs. Woodworth. Wayne County needs this equipment if we are to find all of our TB and use these double-barred cross Christmas Seals."

The past is depicted by a one room schoolhouse, said to be Northville's first, which was located at the corner of Main and Hutton streets, where the Westerfield Farm Supply now stands. The present Northville Grade school was designed from the wood blocks used by the kindergarten class and the replica is complete with shrubs, grass and clock over the entryway.

Northville schools of the future is represented by the architect's drawing of the six room addition to the present Grade school which will be begun early in 1950.

The Junior High school art pupils under the direction of Mrs. William Rector prepared and distributed all the posters around the Village reminding citizens of National Education Week.

Dorset, President of Christmas Club, a corporation of New York.

The total distribution is eight and three-tenths per cent ahead of last year and represents an all time high for the thirty nine years of Christmas club operation. The average per member distribution is about \$92.75 in large metropolitan areas and \$84.40 for the entire country as against \$81.50 last year. NEWS and COMMENT

FROM CONGRESSMAN

GEORGE A. DONDERO

Now that the House Armed Services Committee has finished its hearings and there has been a little time to consider the matter, it is possible to form an opinion on the B-36 controversy and the correlated squabbles which are tied in with the Unification Law of 1947, as amended by Congress this year.

Army, Navy, and Air Force brass and civilian military and naval leaders, one after another, paraded before the committee in open hearings and had their say. Testimony ranged from objective and constructive statements to pointed accusations and name-calling. The smoldering differences of opinion within the three arms of the services, which are of longer standing than most people realize, were brought into the open.

Thus in order to get a good picture of the situation one has to go back to the days when Franklin D. Roosevelt was President of the United States. Boats in general and the Navy in particular were the lifelong love of Roosevelt. He had served in his youth as Assistant Secretary of the Navy. Naturally the Army and Air Force felt that Roosevelt gave the Navy all the best of it. Then Harry S. Truman, an ex-Army officer, entered the White House. Navy men since have thought the shoe was on the other foot.

It was pretty evident from published reports on the House Armed Services Committee hearings that Army and Air Force brass were out to put the Navy back in a place at least no better than those of the "land and air arms." One should discount, of course, the bitter Navy charges that the Army and Air Force sought to destroy the Navy utterance. The worst that might be said would be that a subordinate position was planned for the Navy, and that to bring this about Navy air power might have been crippled and the Marine Corps absorbed by the Army. It is safe to say these things will not happen now, unless the will of Congress is flouted.

Those who look at the matter objectively realize that the Armed Services Committee of the United States is a great war in spite of the differences of opinion which were just as great then as now. It should not be forgotten, either that Admiral Denfield and all the other brass hats did not ask to be heard by the Congressional committee but were ordered to appear and testify. The whole affair thus appears as nothing more or less than one of the growing pains of a newly unified and expanding system of national defense.

If it is true, as many say, that the washing of dirty linen in public has weakened the Armed Services and jeopardized the national security, then it would seem that this case about chiefly through the actions of the Department of National Defense, repeatedly under orders from the White House, in violating regulations upon the Chief of Naval Operations and his assistant, and upon the Navy itself. Admiral Denfield is expected to retire rather than accept demotion, and his assistant is to be replaced. The Secretary of Defense has ordered laid up an exceptionally large number of naval aircraft carriers.

It makes one wonder if Denfield was moved up several grades to make him eligible for the job as Chief of Naval Operations because it was thought he would be complaisant toward the moves to clip the Navy's wings, so to speak. For the same reason one wonders now at the earlier insistence of the Secretary of Defense on the appointment of the present Secretary of the Navy.

In conclusion, it should be pointed out that the Unification Law of 1947 expressly provides against reprisals upon Armed Services personnel for testimony before Congressional committees, and that the House Armed Services Committee specifically warned against any such action with regard to Admiral Denfield. If such men cannot speak their minds to the committees of Congress, then the power of Congress to control the actions of the military would disappear, just as it has in some countries where the liberties of the people have disappeared.

Dealers To View '50 Fords Nov. 18

The 1950 Ford line of passenger cars will be shown to the public by 6,400 Ford dealers throughout the nation beginning Friday, November 18, it was announced today by L. D. Cruse, vice-president and general manager, Ford Division, Ford Motor Company.

All Ford dealers are making extensive plans to handle large crowds in their showrooms to view the numerous changes in the 1950 models.

Dealers were given preview showings of the cars in meetings in the 33 Ford sales districts in the country between November 4 and November 10.

Dealers response to the 1950 cars was extremely enthusiastic, according to Walker A. Williams, sales manager, Ford Division.

The consensus of dealers is that every single sales factor has been taken into consideration in the many improvements and that Ford will continue to be acclaimed the car of the year in 1950.

Major factors which dealers praised were economy, greater comfort, improved appearance, smoother operation, and safety features, Mrs. Williams said.

Production of the 1949 Ford was stopped at the end of October. The former model, which marked a major departure from traditional Ford styling and engineering, was first introduced to the public in June 1948. Since that time approximately 1,120,000 1949 Ford passenger cars have been sold.

"Certainly saved me a lot of worry--

When I had that operation Blue Cross

plus \$170 to my doctor!"

CASE #24-74710-96

Mr. Blue Cross Hospital and Surgical Plan subscriber, was hospitalized 60 days as a surgery patient. The bill for drugs and dressings alone came to \$1,246.85. Total hospital bills alone came to \$1,800. Blue Cross covered it in full, and also paid \$170 in surgical fees.

CHANCES ARE 1 in 10 you will go to a hospital this year!

Crushing hospital and medical bills can wipe out hard won savings. Knowing this, the mother of the family will often delay needed surgical care, fearing to strain the family budget. But with BLUE CROSS Protection, necessary surgical care and hospitalization can be had when needed, without financial worry. That's a big reason why you and your family need BLUE CROSS—Michigan's non-profit, state-wide plan—approved and directed by Michigan doctors and hospitals themselves.

No other health-care plan offers so much for so little! Because BLUE CROSS pays out in benefits an average of \$5,000 of every dollar received from subscribers, BLUE CROSS can offer such unique advantages as the

same benefits for enrolled dependents as for the subscriber... no physical examination or health statement... no age limit. And the cost to you is only a few cents per day! Speak to your employer, ask him to find out how your company can make Blue Cross available to you!

More than 1,600,000 Michigan people are protected by BLUE CROSS against unexpected hospital and medical bills. If you would like to join BLUE CROSS, too, talk the matter over with your employer. Ask him to get all the facts about the BLUE CROSS Group Enrollment Plan. Write or call BLUE CROSS, 234 State Street, Detroit 26 (WG 2 9510).

MSC Enrollment Reaches 16,243

Michigan State College's fall enrollment rose to a new record high in October, when 164 students signed up for agricultural short courses.

This brought the final count at MSC to 16,243, which exceeds by 233 students the previous all-time high of 16,010 reached in 1948, according to Kermit Smith, assistant registrar.

The remainder of Michigan State's fall enrollment is made up of 16,079 full-time students, who had registered previously. The total enrollment of 16,243 are 12,051 men and veterans number 7,222; marking the first time that veterans have a minority at MSC since the war.

Stalacite and Stalagmite
Wondering how to remember the difference between a stalacite and a stalagmite? Stalacites hang from the cave ceiling, are spelled with the letter "c" for ceiling, and have to be "tite" to keep from falling. Stalagmites grow up from the cave floor, are spelled with a "g" for ground, and "mule" someday reach the ceiling.

Equine Encephalomyelitis
Severe outbreaks of equine encephalomyelitis, often occur during hot, rainy weather, probably because mosquitoes, which spread the disease, multiply rapidly during such weather.

Origin of "Bible"
From the ancient Phoenician port of Byblos on the Lebanon coast, which exported papyrus, the Greeks derived their word biblion, meaning papyrus scroll. And from biblion came the word Bible.

Girl Wed On Grandparents' 50th Anniversary

When Patricia Ann Hanert of South Lyon and Robert Frederick Kuhn of Ypsilanti cut their wedding cake Saturday evening at a reception in the South Lyon Methodist Church dining room, they had two very interested onlookers, the bride's grandparents, Mr. and Mrs. Myron Atchison of Salem, who were celebrating their 50th wedding anniversary that day. After the bride and groom cut their cake, they in turn watched the Atchisons as the couple cut the first piece of the yellow cake which centered their special anniversary table. The wedding and anniversary reception followed the Kuhn-Hanert nuptials in the South Lyon Methodist Church.

Florida Honeymoon Follows
Stremich-Zielasko Rites

Our Lady of Good Counsel

Church in Plymouth last Saturday morning was the scene of the marriage of Lucille Josephine Zielasko of Hix Road, Plymouth, and Robert Stremich of South Center Street.

Father William P. Mooney read the nuptials before an altar which was flanked with candles, palms and baskets of white mums. Mrs. Edna O'Connor presided at the organ and Fred Kendall sang, "Ave Maria," "Mother At Your Feet Is Kneeling" and "On This Day Oh Beautiful Mother." Mrs. Albert Fogey of Plymouth sang the nuptial mass.

The bride, who was given in marriage by her father, chose a white Alencon lace gown which was fashioned along princess lines. The imported French lace gown was worn over silver slipper satin and was trimmed with a lace applique, a queen neckline and long fitted lace sleeves. Her cathedral length veil of French illusion was edged with matching Alencon lace and fell from a tiara of matching lace. She carried a prayerbook adorned with an orchid which was encircled with stephanotis and trailing English Ivy.

The maid of honor was the bridegroom's sister, Dorothy Stremich and bridesmaids were Loraine Nichol of Rosedale Gardens and Jane Stremich of Plymouth, a cousin of the bridegroom. The young couple are honeymooning in Tampa, Fla. for two weeks. For going away, Mrs. Stremich chose a brown tweed suit, brown accessories and an erudite corsage. Upon their return, they will be at home to their friends in their new home on 7675 Hix Road.

Lucille is the daughter of Mr. and Mrs. Anthony Zielasko of Hix Road and is a graduate of Plymouth High school. Bob is the son of Mr. and Mrs. Samuel Stremich of South Center Street and was graduated from Northville High school. He is manager of Hillside Inn, Plymouth.

Isn't America A Wonderful Country!

All over the world today, there are people teaching bitterness and hate.

Here in America we have learned to live together in friendship.

For us here at A&P, it has been a wonderful and thrilling experience to get from those with whom we compete day after day such astounding evidence of friendship and respect.

The things that have happened since the anti-trust lawyers from Washington brought suit to destroy A&P have amazed us.

While we sincerely believed that we had earned the friendship of millions of consumers for whom we have provided better food at lower prices, and the friendship of millions of farm families for whom we have provided a better market for their produce, we were not prepared for the avalanche of offers of support.

But most of all, we have to confess that we had underestimated

the fine sportsmanship of many of our competitors all over the country.

Can anyone believe that these competitors would rush to our defense if, as the anti-trust lawyers allege, we had been trying to put them out of business?

We and they have fought hard for business.

There are nearly 350,000 individual grocers competing with us. They have a larger share of the nation's grocery business today than they had ten years ago or twenty years ago.

Many of them do as good a job as we do, and they make it plenty tough for us.

Now, day after day, these same competitors are letting us know that they are in our corner.

All we can say is, thank you from the bottom of our hearts.

Isn't America A Wonderful Country!

Who hollered for Uncle?

Who wants him to break up A&P?

COULD IT BE INDEPENDENT GROCERS? Doesn't seem likely. In ten years America's independent storekeepers almost tripled their business. In 1938 they did just under 5 1/2 billion dollars worth of food business. Last year the independent storekeepers handled over 15 billion dollars worth of food.

WHOLESALE GROCERS? Hardly. For many of them are directly or indirectly engaged in or supporting some form of voluntary or cooperative chain to match chain economies.

THE EMPLOYEES? That would be funny—except that some folks probably believe it. Actually, less than 25 years ago many food chain stores could have paid all expenses—rent, heat, light, wages, etc.—out of the money a store manager alone gets paid now. And the store manager of 25 years ago would have been happy to get what a clerk gets today.

PRODUCERS? Well, take farmers. Certainly part of their prosperity must be attributed to the markets that big chains create for them. The big chains buy the entire pack of many a canner. Those canners pack the farmers' crops. What would the farmer do with his highly perishable crop if the food chains were eliminated as big volume buyers?

COMPETING CHAINS, MAYBE? No. Practically every chain in the grocery business had more sales last year than the year before. One chain that we know a lot about increased its food business 21% last year and is up 19% in the first eight months of this year.

THEN IT CERTAINLY MUST BE THE PEOPLE! Like fun. If the people hated food chain stores, would they have spent 9 1/2 billion dollars in them last year? Folks like the low prices and high standards of chains—and the better the chains are run, the better folks like them.

Does This Sound as Though We Need Help? Thorofare Super Markets came into existence 10 years ago. The food chains Thorofare replaced were doing about three million dollars worth of business a year. Housewives liked our policies well enough to boost their purchases in our 90 stores to about 30 million dollars a year.

We call that a vote of confidence. And we're going to keep right on proving that as long as we stick to good brands and better-than-average selections at rock-bottom prices, we can compete with anybody in the business. And keep right on growing, too!

★ ★ ★

We don't believe any chain will be punished for being efficient, or for pleasing housewives so well that it is forced to grow.

We, too, believe that it is a storekeeper's duty to bring the public the best food at the lowest possible prices, and hope to see the chain store way of doing business vindicated.

And as long as the producers, the employees, the customers, the wholesale grocers, the independents and the competing chains thrive so well, we will continue to think it's a good way to do business.

We Don't Want the A&P Put Out of Business

The owner of the undersigned store is an independent merchant in this community. We run our own store; we set our own prices; maintain our own policy. We consider the Great Atlantic & Pacific Tea Co. as a chain store. Because they are a chain they give us stiff competition. The competition offered by the A&P keeps us on our toes.

The Department of Justice has brought a suit against the A&P claiming that the A&P is a monopoly.

Whether it is or not we are in no position to judge.

What we do know is that the A&P doesn't do all of the grocery business in this area. We are here and ready to serve local customers.

WE DON'T WANT TO SEE THE A&P PUT OUT OF BUSINESS.

The A&P is keeping food prices down. We in turn keep our prices down; and that helps us to sell more goods.

KUGLER'S SUPER-FOOD MARKET
PHILADELPHIA, PA.

We Agree With A&P

Yes, we want our A&P competitors to stay in business on their present scale because we know what it would mean to the American people without them.

We are only one store and are striving to serve our community with good food at low prices, but the A&P is a nationwide organization serving the American people everywhere with good food at low prices.

Destroying the A&P would mean eliminating competition nationally in the food field which every poor man knows consumes the major portion of his salary.

We congratulate the A&P for a job well done. Keep up the fight.

We welcome any fair competition which helps us bring lower food prices to the consumer.

A COMPETITOR'S OPINION of The Great Atlantic & Pacific Tea Co.

The self-styled "trust busters" of the government recently made head-destroy the A&P.

Frankly, we don't like it.

A&P is charged with having control of SOME of the production and processing ends of the food business. As a result, they can offer foods at low prices.

So What...

And if monopoly of the food business is charged, that sure hands us a luff. We at P.P.M. are growing like wildfire. Seems like we're able to sell better foods at better prices.

Your increasing patronage of our stores is positive proof that A&P has no monopoly on the food business. Let's get down to good old American horse sense. A&P is doing a good job of serving the people of this country. They're no huggy men. We are for them 100% in this controversy.

PROVIDENCE, RHODE ISLAND

I Welcome A&P Competition BECAUSE

- Like myself, many hundreds of independent grocers got their start with the TEA COMPANY.
- The great A&P is not detrimental to the progress of the grocery business. On the contrary, A&P has always been beneficial to any open-minded businessman who believes in FREE ENTERPRISE. Founded on the principle of FAIR PLAY and FAIR PRICES, A&P developed from a humble start to its present commanding position in the field of retail merchandising.
- My experience as a former employee of the TEA COMPANY has served me well. I attribute my success to the ideas and methods tried, tested and proven by the A&P stores—at a great cost.
- A&P upholds the rights and privileges of a good worker. I know this from personal experience. A&P is ever on the lookout to promote sincere and ambitious employees to trustworthy and important positions and has never crossed the efforts of any employee to enter into business for himself. A&P helped me to start in business. IS THAT AN ACT OF A COMPANY MONOPOLIZING THE GROCERY BUSINESS? NO!

A&P taught me to serve the public BETTER—MORE ECONOMICAL and MORE EFFICIENT, thanks to the start given me by B. F. VINSON.

The Anti-Trust Suit Against The Atlantic & Pacific Tea Co.

This suit is another threat against our great American system of free enterprise. The A&P Co. has always been clean, above board competition and any successful independent merchant, if he is honest, will admit that they have taught him a great many things regarding merchandising, reducing overhead, better buying, etc., thus lowering food costs for the great American Public.

To the Supervisor of the Township of Northville, Wayne County, Michigan:
 Sir: I have the honor to acknowledge the receipt of your letter of the 27th day of October, 1949, in relation to the proposed abandonment of the County Road No. 1, being a subdivision of part of the N. 1/2 of Sec. 31, T.18, R.10E, Redford Township, Wayne County, Michigan, as shown on the map of the County of Wayne, Michigan, filed in the office of the County Clerk, dated September 1, 1949, and to advise you that the Board of Commissioners of the County of Wayne, Michigan, has taken action on the matter and has resolved to abandon the said road.

Yield Of 1,000 Bushels An Acre Is Potato Record
 Don't claim the election until all the precincts are in. Politicians have found that to be good advice.
 Potato championships, too, shouldn't be claimed until all parts of the state are heard from in this state of Michigan. A Kent county yield of 853 bushels recently reported topped all previous Michigan records. But how reports from Marquette county in the upper peninsula show a yield of more than 1,000 bushels an acre.
 Paul Van Damme, in South Marquette county produced a yield of 1,033 bushels an acre on a six-acre plot. The yield was checked by R. H. Kaven, Marquette county agricultural agent, and William Cargo, crops specialist for the Michigan Extension Service.
 Van Damme got his early potato growing training from his father, Jules Van Damme, who once won the state premier potato grower honors. But here's how he got more than 1,000 bushels to the acre:
 He cleared some new land in the spring of 1948 and last fall planted rye using 600 pounds of 3-12-12 fertilizer at planting time. In May he plowed under the rye for green manure and planted 40 bushels of certified Russet Rural seed potatoes to the acre, using 1,000 pounds of 3-12-12 fertilizer for each acre. Rows were 32 inches apart and potatoes were planted 9 inches apart in rows.
 During the season he cultivated when necessary and sprayed against disease and insects a total of 17 times. No irrigation was done.

A long-range legislative study of state government, patterned after the successful "Hoover commission" at Washington, is envisioned by some Republican legislative leaders. Loren Miller, research director, Detroit Bureau of Governmental Research and former aide to Governor Sigler, is favored for chairman. Governor Williams is cool to the idea, feeling that a state commission should be established, free from either legislative or executive office influences.
 Frank Morris, Detroit Times Lansing correspondent, got an exclusive on this pipe-dream political conjecture. That Senator Arthur H. Vandenberg would like to make a deal with the Republican nominee for governor whereby Vandenberg would resign prior to expiration of his term in 1952 and his son, Arthur Vandenberg Jr., would be appointed to succeed him.
 The big "catch" in this Michigan voters' are notoriously critical of suspected political deals. Such a deal could hardly be a political asset to the Republican nominee in a race against Governor Williams. It certainly would not add any luster to the record of Vandenberg as a statesman.
 The resignation-appointment idea recalls the deal among Republican aspirants for governor and lieutenant governor prior to the Republican primary in 1948.

Running for governor were Sigler, Dr. Eugene C. Keyes and Judge Skillman. Candidates for lieutenant governor included Secretary of State Fred M. Alger and Keyes. On the promise that Keyes would run for governor, Judge Skillman withdrew. Then Alger pulled out, leaving Keyes without opposition.
 What happened in November, 1948, is now political history. Dewey carried the state by 40,000 votes, while Sigler lost by 160,000. Evidently about 200,000 Republicans switched the ticket in protest against something they elected - G. Mennen Williams, governor of Michigan, for one thing.
 Speaking of rumors, this one is very persistent. Dr. Keyes of Dearborn has a carefully mapped program to capture the Republican primary nomination for governor in 1950. He is definitely out to win this time, come what may. He has financial backing already pledged for a vigorous state-wide contest. We picked up this information from a reliable source in the Thumb recently, and it tallies fully with Lansing knowledge. No pun is intended, but - watch Keyes!

Farmington — The City Commission, at a special meeting held recently awarded the contract for the remodeling of the City Hall to Russell W. Elms. Work is expected to begin in about a week. The contract was awarded at a cost of not more than \$4,000. According to James Cavanaugh, Commissioner of Public Buildings, plans call for the moving of the police department to the east side of the building.

Next to a stack of golden grain in the fields or a tree laden with fruit, a farmer's proudest possession is his stack of U. S. Savings Bonds. These Bonds enable him to oil up his financial machinery and maintain a reserve which insures his home, land, livestock and equipment. His future is secure. The wise farmer builds his financial reserve in Savings Bonds from profits when his crops are good. That reserve is the windbreak against a stormy period. And it grows \$4 for every \$3 invested in ten years.

CAN ALL COOK BOOKS BE WRONG?

In all the best cook books, recipes calling for white granulated sugar specify just "sugar." Not cane sugar. Not beet sugar. Not sugar from any particular plant.

Why?

Because all sugar for household use is sucrose, and sugar is sugar no matter whether it comes from sugar beets or sugar cane.

Leading Home Economists everywhere freely state that any supposed difference in pure sugars is simply a figment of the mind.

So it's smart shopping to buy sugar for value. Buy—

Children's Woollens Can Be Washed

Crisp fall days will soon be chilly wintry ones and your children will be wearing their woolen skirts, dresses, suits and snow suits again. If you're going to keep them clean the only economical answer is washing, advises Mrs. Leona Macleod, home economist at Michigan State College.

When washing woollens she advises that you remember to use lukewarm water, mild soap, and careful handling. "Dyes in such garments are not likely to be entirely fast—be sure to test the colors, of plaids and two-tone materials. Washing quickly, rolling in a towel to remove excess moisture, and then drying flat on a towel with another towel between the back and front will prevent one color from running into another."

Fast color garments can be hung on clothes hangers and pickets, pleats and tucks smoothed out to make ironing easier. These special features should be considered for they frequently become complicated ironing problems.

Children's play suits, especially the lined ones, are a little more difficult to launder. Try to wash them before they become too soiled and mend all breaks before starting to wash. If knees or cuffs are excessively dirty, massage a little liquid soap into these spots with the fingers. Rinse immediately in clear, warm water until suds are removed. Then squeeze and roll in a towel to remove excess moisture.

Wool sweaters will keep their shape in washing if folded in a piece of cheesecloth or piece of an old sheet, then dipped in and out of the cleaning bath. Woollens can be washed in a mechanical washer if allowed to wash only 2 to 3 minutes.

Dry Cow Rations

Rations for dry cows should be easily digestible, well supplied with essential minerals and vitamins, and not too rich in protein.

Grasshopper Eaters

Turkeys, quail, frogs, snakes, skunks, and shrews, are voracious grasshopper eaters. Because Mrs. G. deposits her eggs in the ground in autumn, late fall plowing helps to reduce the spring hatch. Development of grasshopper parasites has become an effective method of control.

Packers Outscore Arena Flyers, 9-6

The Eastern Packers outscored the Arena Flyers to win last Monday night's roller hockey game at Riverside Arena, 9-6. The Packers' Richardson topped the scoring list with 5 goals. La-Franier rapped in two goals and Stevenson and Tome got one each. Perry was high for the Flyers with three. Chicotte, Wein-gartner and Caron accounted for the balance.

The game was rough from the beginning, with the big guns of the Packers flipping a continuous barrage of shots at Pinky Neh-bins plucky Flyers goalie. Much of the first period was played directly in front of his cage.

The Packers were odds-on favorites to stop the Flyers, who put up a much better scrap than was anticipated. The second and third periods were not nearly so one-sided as the first.

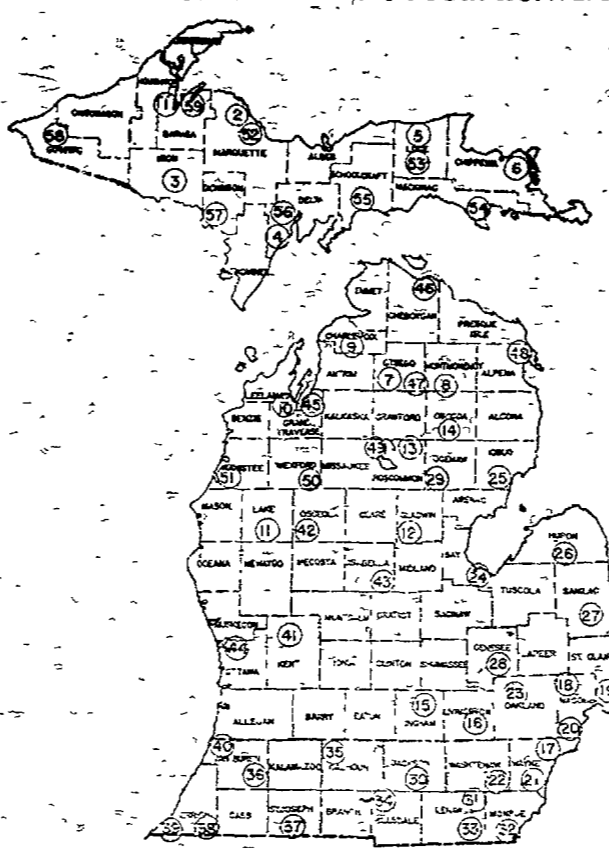

The Packers swamped the Arcadia Wildcats 7-1, in the November 2 game at the Arcadia Roller Rink. The Wildcats were last year's leaders.

Walter Casselman, league commissioner, was on hand to officiate at the game; the opener at Plymouth's Riverside Arena.

The five-team league will play at three rinks: at Riverside on Monday nights; at Arcadia on Wednesday nights; and at the Legion, Ontario, on Mondays.

Koller hockey is identical with ice hockey except that roller skates are used. The same equipment is necessary and the same rules are followed.

Deer Hunters Can Register For Messages

This year as in the past the Michigan State Police and the State Department of Conservation will cooperate in making available a free registration service for all deer hunters who desire to be reached in camp in the event of an emergency at home.

Hunters desiring to use the service should register at the State Police post or Conservation headquarters nearest their camp. They should also leave word at home of the station at which they will register.

If an emergency occurs there at home need only call the nearest State Police post or Conservation headquarters. The message will then be sent by radio to the proper registration station and will be delivered from there by an officer of either department.

The registration also makes it easier to inform persons at home if a hunter meets with an accident or is reported lost.

Only urgent messages will be handled and the service will not be offered where regular communication facilities can be used without delay.

Registration cards have been distributed to all State Police posts and Conservation headquarters. They will also be available on State ferries and may be handed to State Police officers stationed on the docks.

In the past thousands of hunters have used the service and many messages have been delivered.

An accompanying map shows the location of the registration stations.

Mustangs-Lions Game To End Grid Season

The Mustangs will close the grid season tomorrow night when they take on South Lyon at the Lions' field. There was no game scheduled with them last year.

South Lyon, a member of the league of lakes conference, lost to Brighton last Friday, 18-0. Brighton kicked the Mustangs in the season opener, 13-0. In league play, the Lions have a 500 percentage, winning two and losing two.

Tomorrow's game is the season wind-up for South Lyon.

Northville has won four, lost three and tied one this year. NHS lost to Brighton, 13-0; to Clarencville, 8-7, and to Plymouth, 6-0. The Mustangs beat Holly, 13-7; Bentley, 6-0; Centerline, 18-13, and Inkster, 31-0. The second game of the season, against Dexter, was a 6-6 tie.

The first free library in America was started in Charleston, S. C. in 1695.

Plymouth Tumbles Mustangs, 6-0

The Plymouth Rocks ended a 15-year losing streak last Friday night when they stopped Northville's Mustangs cold in their tracks, winning 6-0.

The lone TD was scored by Rocky's captain, Keith Ebersole, when he fumbled the ball across the goal line. The Mustangs spent most of the evening looking at the big "B" on the back of Ebersole's jersey. He was really going somewhere in a big hurry.

The Mustangs, who played the Rock last year, 20-7, for the first time in 15 years, in the tradition of Plymouth-Northville rivalry.

The score came 30 seconds before the first half ended. The Rocks had moved the ball to the one-foot line after a series of short punts through the line which originated on the Northville 23-yard line. The Rocks missed a similar scoring opportunity in the first period when a bad pass from center pushed the ball from the one-foot line back to the 10.

The game was decided at the line of scrimmage. Plymouth linemen repeatedly outcharged the Mustangs. The Rocks opened big holes for Ebersole and his mates and closed them when Northville had the ball.

The Mustangs tried the ends again and again, only to face a solid wall of line backers, tackles and ends.

The NHS eleven resorted to a passing attack several times, but cold hands, rushed passers and the Plymouth pass defense nullified nearly every attempt.

Northville's Chuck Dickinson broke away a few times for substantial gains but each time he was all alone. Blockers were wasted on determined Rock ends and stubborn linemen who refused to be carried out of the play.

From the sidelines it appeared that Plymouth was "keyed" for the game and that the Mustangs had passed their peak. At any rate, Friday's game was a case of too little against too much.

Evidence that glass-making was the first industry established by the English colonists in America has been brought to light in excavations on Jamestown Island, Va., the Department of Interior announced recently. The first permanent English settlement, Jamestown got its first industry 17 months after its establishment in 1607 when the Virginia Co. of London sent workmen to make glass. Records show.
