Don't miss these friendly wishes from the people who stand ready to serve you through the year.

Northville Grade School Is Decorated for Holidays

Northville Grade school took on a festive appearance this week as members of the senior High school art class under the direction of Mrs. William Rector began painting Christmas scenes on the windows in the second story of the building.

The scenes flanked on either side by white candles, tied with red ribbons depict a shepherd and his sheep, angels, the Star of Bethlehem, Madonna and Child, the angelic choir, the manger, three Kings and the church choir.

The Junior High school art classes recently completed decorating the showcase in the foyer of the Grade school building. The youngsters used their ingenuity in designing original Christmas trees. Gilbert Black made one out of frosted Christmas cookies and gum drop candies. Bruce Folker designed his out of baking tin foil as did Ann O'Leary. Other children made theirs out of plywood and Christmas seals, white tissue paper, wired pine boughs, cellophane, holiday ornaments, and paper. The class is now busily engaged in making creches complete with all the furnishings.

The Board of Education has furnished each classroom with a Christmas tree and the youngsters are busy making decorations out of paper and by stringing pop cans and cranberries. The room parties will be held next Thursday, December 22. Teachers will be aided by the room mothers at this event. Santa will visit each of the rooms.

School will be recessed for the holidays December 22 and will convene again for regular sessions January 4.

Judges Named For Decorating Contest

Mrs. V. George Chabot, Dick Allan and Leo Sheehan have been named by the Rotary Club to judge the town and home decorating contest.

The committee will judge the homes and store windows between Christmas and New Year's Day, and the winners will be listed in the Record. Prizes to be awarded are: first, \$25.00; second, \$15.00; third, \$10.00; fourth and fifth, \$5.00.

Persons who wish to have their homes or stores judged are asked to send their name and address and classify if it is a store or residence to Dick Allan, care of Allan & Locke, Inc.

Safety Patrol Party Comes December 15

This Thursday afternoon at 3:30 p. m., the Scout Building will be the scene of a safety patrol party for the 56 boys and girls who are members of the Northville Grade school squads.

The children will be entertained with square dancing, billiards, ping pong, games and refreshments.

The Northville Grade school safety patrol gives boys and girls an opportunity to share in responsibility. David Waterloo is captain of the boys patrol which works one long and two short shifts daily. Kathleen Heatley is captain of the girls patrol and they work one long and one short shift daily. In addition to the regular workers, there are relief and stand in workers who fill in when the regular members are ill and unable to report for sidewalk duty.

Police Clamp Down On Drunk Drivers

Chief Joe Denton announced today that final arrangements have been completed for the intensive public educational program during the last two weeks of December to reduce the terrible toll of accidents due to drunk driving.

A meeting has been held with all of the owners of bars and taverns within the area and they have agreed to support the program by placing a safety message on each table in their establishment. These will be in the form of a place card carrying the message "IF YOU'RE DRIVING, TAKE IT EASY".

At the request of the "Traffic Toppers", arrangements are being made to have an officer in uniform visit each establishment selling liquor by the glass. These calls will be made at least once during the last two hours before closing time each evening for the last two weeks of December.

The Michigan State Liquor Control Commission is placing 16,000 posters in all bars, taverns and retail liquor stores. 17,000 of the smaller posters will be placed in each bar (2 to 4 bars) and 1,000 large posters in retail stores. They carry the message "DRUNK DRIVERS LOSE THEIR LICENSES".

Commenting on the urgent need for this program, Chief Joe Denton pointed out that last December in Michigan 13,857 accidents injured 3,981 persons and killed 195, of which 117 were killed during the last two weeks. He called upon all motorists to cooperate with the law enforcement agencies and the bar and tavern owners so that we can get through December with much less trouble than last year.

Large Crowd Attends Winter Band Concert

The Northville School and Community Band last Thursday evening presented their winter concert in the High school gymnasium. A large crowd gathered to hear the band which is under the direction of Leslie G. Lee and Keith L. Burton.

A Christmas musical program will be presented and Santa Claus will make his annual visit to the club.

Christmas Rush On At Post Office

The Christmas rush is on at the Post Office now. Postmaster Leland V. Smith, stated that about 18 persons have been added to the staff to aid in getting the mail to its destination.

The extra help, he stated, has come from those with previous experience and from veterans. The Post Office will be open from 8:00 a. m. to 8:00 p. m. Saturdays, December 17 and 24, with the money order window being open from 9:00 a. m. to 5:00 p. m.

The Post Office has asked that all mail boxes be plainly marked with the names of all the people residing in that particular home so as to give aid to the mail carriers in speedily handling the mail. Mail as early as possible and put letters in the letter boxes situated on the corners throughout town. Smith explained, as the carriers will have an over flow of mail to carry as is. The Postmaster stated that it may be necessary to make a special delivery on Christmas Day.

Memo: don't try to mail your unsealed Christmas cards with a one and one-half cent stamp, thereby contributing to the dead letter box. It takes a two cent stamp now on unsealed mail. Christmas cards carrying two cents stamps are third class mail and as such, they must be sealed or contain personal messages. Make sure that the address is correct as incomplete or incorrect addressed greetings will land in the dead letter box. The postman will appreciate clean walks and steps as snow-laden walks and front porches are hazardous, and delay service.

Concrete Pipe

Although shrinkage cracks may develop in exposed concrete pipe, these small cracks will heal themselves in the presence of moisture and in fact become stronger than before the break. The reason: concrete in the presence of moisture exudes calcium hydroxide, which upon exposure to the atmosphere is converted to calcium carbonate which seals the cracks and prevents rusting of the metal reinforcement.

Don't Let Death Take Your Holiday

Don't Let Death Take Your Holiday!

That is the slogan of a nationwide campaign by the National Safety Council to hold down the Christmas-New Year holiday accident toll this year.

Council figures show the year-end holiday season is the most dangerous period of the year, and that accidents annually mar the holiday celebration in thousands of homes throughout the nation.

In a united effort to focus public attention on the extra holiday hazards and the extra caution needed to meet them, City and State officials, civic groups, local safety councils, and 160 national organizations are joining with the Council in the Christmas safety campaign.

The Council pointed out that traffic accident deaths on both Christmas Eve and Christmas Day run about twice as many as the annual daily average. Heavy travel and the festive part of the holiday season add to the normal winter hazards of

CAN DO
Be Your Own
Linoleum Laying
Expert!

MAYBE you've had a yen for a long time to put new linoleum on those kitchen counters whose tops have become cracked and warped with time.

Or maybe you're building brand new kitchen counters, work space or shelves and are thinking about covering them with linoleum.

Well, you can do it, and make a good job of it, too.

First and foremost, you must have the proper tools. Here's what you need:

A carpenter's dividers for outside scribbing of contours, an underscriber for marking inside contours, a linoleum knife and a paste spreader. And the paste, naturally. In addition, you should have on hand a hammer, screw driver, nail set, pocket knife, pliers, combination square, hack saw, marking pencil, file, steel measuring tape, tin snips, carpenter's square and putty knife.

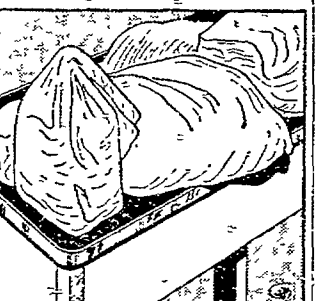

Sound formidable? You probably have most of those tools in the basement right now, with the exception of the specialized ones used only in linoleum work. At any rate, you can get everything you need for this job in one fell swoop by visiting your hardware store.

FIRST THING you do is to fit and install the stripping, which is also available at any good retail hardware store. Here, you will need the combination square and tin snips to bend the trim strips to right angles to go around outside corners. Basically, the procedure is to cut out a perfect 90-degree triangle from the nailing portion and the top trim in order to allow a right-angle bend without overlapping. On an inside corner, only a single strip is needed. Make it in the nailing portion only, leaving the rounded trim unit for bending.

When the trim is in place, scribe the linoleum with the dividers or underscriber, whichever is needed for a particular contour, and cut it for an exact fit with the linoleum knife. This knife is a specialized tool, designed with a curved blade, sharpened only at the point, and a thick handle. Using it, you combine a maximum of pressure with a minimum of accuracy.

With trim strips installed and the linoleum cut, lay the linoleum aside and spread paste over the surface to be covered. Although professionals use waterproof cement on a two-inch strip around the sink and ordinary paste elsewhere, you will find it little more expensive to use waterproof paste exclusively.

When you finally lay the linoleum on the surface, paste it down, make absolutely sure that you get all the air bubbles out.

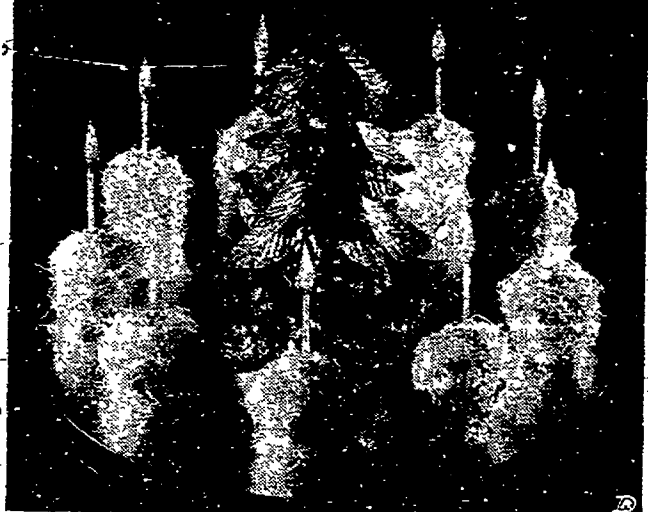

Many experts say that sandbagging is essential in order to hold the linoleum until the adhesive has set, usually overnight. But to be good and certain, you'd better use sandbags.

Leftover Chicken
A good way to use bits of leftover chicken or turkey is to combine them with mushroom soup and fold in cooked noodles. Pour the mixture into a casserole and sprinkle with margarine bread crumbs and nippy cheese. Bake about 20 minutes and you have an excellent main course.

"Deck The Halls..."

...with boughs of holly!" Light the candles—plump, jolly red ones; tall, dignified white ones; cute, tiny green ones like the ones that be-deck these little coconut-chocolate cupcakes. Surrounding a shimmering, silver Christmas tree, set on a mirror, they make as charming a centerpiece as ever graced a party table!

Christmas Candle Cupcakes

1 1/2 cups sifted cake flour
1/4 teaspoon double acting baking powder
1/2 teaspoon salt
1/2 cup butter or other shortening
1 cup sugar
2 eggs, well beaten
2 squares unsweetened chocolate, melted
1/2 cup milk
1 teaspoon vanilla

Sift flour once, measure, add baking powder and salt, and sift together three times. Cream shortening, add sugar, gradually, and cream together until light and fluffy. Add eggs and beat blend. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Turn into greased cupcake pans, filling them about 3/4 full. Bake in moderate oven (350° F.) 20 to 25 minutes, or until done. Dip cupcakes in seven minute frosting. Then roll in shredded coconut. Insert tiny candle in top of each cake and light candles just before serving.

Seven-Minute Frosting

2 egg whites, unbeaten
1 1/2 cups sugar
Dash of salt
1/2 cup water
2 teaspoon light corn syrup
1 teaspoon vanilla

Combine egg whites, sugar, salt, water and corn syrup in top of double boiler. Beat with rotary egg beater or electric beater about 1 minute, or until thoroughly mixed. Cook over rapidly boiling water, beating constantly with rotary egg beater, (or at high speed of electric mixer) 7 minutes, or until frosting will stand up in stiff peaks. (Stiff frosting up from bottom and sides of pan occasionally with rubber scraper, spatula, or spoon.) Remove from boiling water. Add vanilla and beat 1 minute, or until thick enough to spread.

Note: For a smoother frosting, wipe down sides of pan with a fork wrapped in a damp cloth before and during cooking and beating, to prevent crystallization.

this declaration before the Economic Club of Detroit during the first year of his 1947-48 term. Echoes of the Sigler reform program for centralizing authority in the governor's office were heard this week as a legislative study committee, fresh from an inspection trip to three eastern states, announced adoption of the Hoover Commission "task force" idea in conducting research for reorganization of state government.

Chairman of the committee was Senator James T. Milliken, republican, Traverse City. The committee of state senators and representatives was received by former President Herbert Hoover. Mr. Hoover recommended use of specialists in each field from outside government to study functions of state government. Hoover assured the group that a legislative committee, acting as a reorganization group, could formulate an effective program for reform.

Legislators reported they were strongly impressed with streamlining program put into effect in New York, New Jersey and Connecticut. In each case the responsibility of the governor was increased and many boards and commissions were eliminated as administrative agencies.

Governor Thomas E. Dewey of New York told legislators he would not serve as governor under a decentralized authority such as now exists in Michigan and still be held responsible for results of state government.

Strangely enough, the results of the legislative junket to the eastern state in search of ideas for economy in state government, are largely those originally advanced by former Governor Sigler in 1947. In the past the state legislature has been cool to recommendations of increased power and responsibility for the governor, feeling that the present legislative and executive functions serve as a check and balance against each other. The legislature was sold by Governor Sigler on the need of creating a State Department of Administration, headed by Dr. John Perkins of Ann Arbor, to consolidate purchasing of government supplies and general administration. When this department was taken over by Governor G. Mennen Williams, following policy first established by Governor Sigler, a political duel immediately followed between the state administrative board controlled by Republicans, and the newly created State Department of Administration. The

DRUNK DRIVERS LOSE THEIR LICENSES

row is still going on, and it illustrates some of the perils in the road for streamlining state government by increasing authority of the governor.

Physicians of Michigan are planning an aggressive campaign in 1950 against the issue of "socialized medicine". The Michigan State Medical Society was a pioneer among state groups in publicizing the benefits of private medicine. Now through the American Medical Association, Michigan physicians and surgeons will oppose compulsory health insurance as proposed at Washington by the national administration.

Commercial advertisements on street parking meters has been proposed in Detroit. James H. Garlick, member of the Detroit City Council, said he thought motorists were confused enough by instructions on the meters.

How law abiding are Michigan citizens? The State Corrections Department reports that an average of one out of every one thousand Michigan residents was convicted of a major criminal offense during 1948.

Lower taxes in suburbs of Detroit have attracted industries away from Detroit, states a report of the Detroit Metropolitan Area Regional Planning Commission.

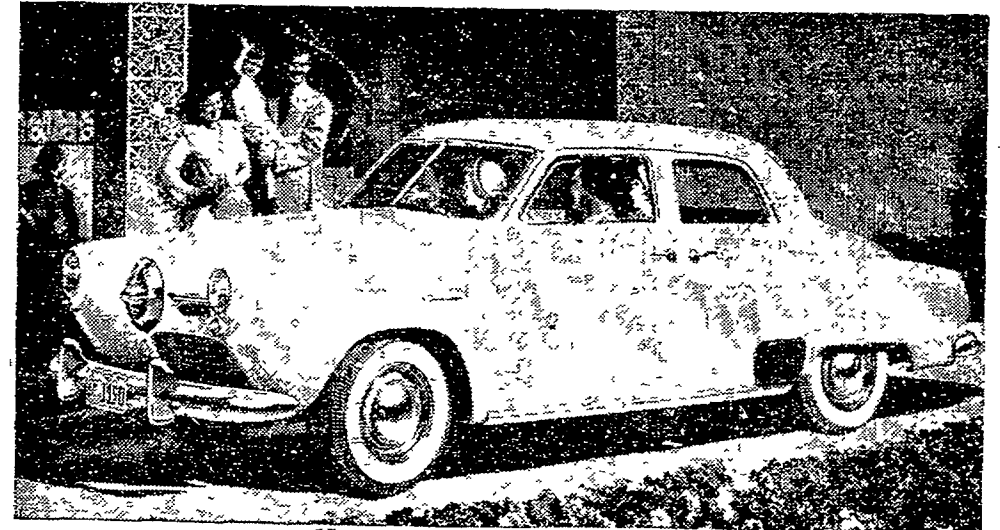

An illustration of how social problems inevitably result in requests for more state spending is afforded by the current efforts of Governor Williams to reduce the number of sex crimes in Michigan. It is now proposed that \$187,617.00 be made available immediately from a special \$500,000 legislative fund for emergency needs. This money would be used to establish a sex deviate clinic in Detroit.

Attorney General Stephen J. Roth has ruled that the State Highway Department cannot accept bids on the \$4,314,000 ice-breaker ferry for the Straits of Mackinac. He declared the contract had to be let by the Department of Administration, an agency controlled by the governor.

HILLSIDE'S Fifteenth Anniversary Friday and Saturday December 16th-17th

We invite you to participate in this great event with us on the occasion of our fifteenth birthday. Decorators have left no stone unturned to make Hillside's interior a much finer place in which to dine. Your comfort was our first consideration when we started our thorough renovation.

Our chefs will have special anniversary menus ready to make dining even more of an event that it is with every regular meal served at Hillside.

Favors will be given to all who attend our birthday celebration and we have a surprise that can't be told until the night our party starts. Better plan now to be on hand.

We are not unmindful of the fact that the success Hillside has enjoyed during its 15 years is due largely to the continued patronage that our many friends have given us. To these friends and all of the rest of the people who have helped us become one of the finest institutions of this kind in Michigan we extend our most sincere thanks and hope that we may warrant your continued patronage in the years ahead.

Margaret Stremich and all the folks at Hillside.

Friday and Saturday, December 16 and 17, the dining room will be open until 11 p.m., the bar until midnight.

Polio Drive Set For Jan. 16-31

The annual March of Dimes, January 6 through 31, 1950, conducted by The National Foundation for Infantile Paralysis, will be headed in Northville by Nelson Schrader, who will be its Chairman in this community for the fifth time. Schrader's appointment, along with the appointments of chairmen to serve 19 other communities in the area, was made public by Nate S. Shapero, Chairman of the March of Dimes for Wayne County, at a dinner Monday night at the Dearborn Inn. Plans were made for the forthcoming drive, which will include The Roosevelt Memorial Ball to be held at Olympia on January 27, 1950, and such other familiar activities as March of Dimes mailing cards, canisters, school activities, and table locations in downtown business places.

"In the wake of the country's most serious polio epidemic," said Shapero, "our own Wayne County finds its treasury exhausted. Care and treatment for this summer's 800 victims in our community cost more than was provided by last year's March of Dimes. \$2,000 is being spent for patient needs every single day. Actually, our polio patients are being cared for with funds contributed by the people of other states which were not so severely hit by the epidemic. The March of Dimes in 1950 must collect more money than it has ever done, for a great many persons crippled by infantile paralysis this summer will require our help for months to come."

Northville, which has had no polio victims this year, contributed \$785.08 in the 1949 March of Dimes.

Babson's Forecast To Appear Dec. 29

Mr. W. Babson, BUSINESS AND FINANCIAL OUTLOOK FOR 1950 will appear in the Northville Record on December 29.

Mr. Babson - a pioneer in the field of business and financial statistics - enjoys a truly remarkable record for accuracy in his Annual Forecasts. His score for 1949 was 80% correct.

On December 29, 1948 Mr. Babson predicted:

(1) That the total volume of business for 1949 will be less than that of 1948.

(2) That the peak in wholesale commodity prices has been reached for this cycle.

(3) That Federal taxes will not be decreased during 1949.

(4) That some labor leaders will, during 1949, work for pension systems and sick benefits.

Watch for the Babson Business and Financial Outlook For 1950, in our issue of December 29.

Wind Pressure

A 40-mile wind exerts a pressure of approximately seven pounds per square foot on the side of an automobile. An automobile might have an area on the side of about 30 square feet, so the total pressure of such a wind would be about 210 pounds.

Woodchuck Nuisance

Woodchucks are nuisances on any farm or pasture. Many a head of livestock has broken its leg by stepping into one of these holes. The mounds of dirt around the holes interfere with farm machinery. These animals destroy a certain amount of grain but their main damage is done in their burrowing.

Argument To Cause Achin' Back Dec. 27

Either Roy Stone or Marv Maltop is going to have a sore back come December 27. One will get a free ride around the block, three times, and the other will have to do the heaving and ho-ing.

Here's the way it started. Two or three months ago Marv and Roy got to fussing about the future of the toy market. Stone, of Stone's Gamble Store on Main street, bought a lot of toys for the Christmas trade, but said that he'd get stuck with many of them. Marv, who works at the store, claimed they would just about sell out the entire toy stock by Christmas time.

The argument progressed and Marv, in a reckless moment, said he'd wheel Roy around the block three times if the toy stock didn't disappear.

So that's the way it is. Christmas eve has been set as the deadline. The showdown will come December 27 after the store closes. "But," says Stone, "we'll have to borrow a wheelbarrow. We sold our last one more than a week ago."

Eaton Named Pres. Of Realty Ass'n.

At their annual meeting on Dec. 12, the Western Wayne County Board of Realtors elected as officers for 1950 L. M. Eaton of the Northville Realty, President; Arnold F. Folker, Garden City, Vice President; Lawrence F. Steinhauer, Wayne, Secretary; and Carl A. Hoyer of Fellrath Land Co., Inkster, Treasurer.

To the Board of Directors were elected George C. Robinson of Wayne, Donald McFarlane and Alford B. Cronus of Garden City. The Western Wayne County Board of Realtors organized in 1946 as a member board of the Assn. and the National Assn. of Real Estate Boards now has

members in Northville, Plymouth, Garden City, Wayne, Inkster, Romulus and Belleville. The Northville realtors are L. M. Eaton, C. H. Bryan and E. M. Bogart.

VARSITY WINS, RESERVES LOSE IN BRIGHTON BASKETBALL GAMES

VARSITY

The Mustangs played good, tight basketball last Friday night at the Hartland gym and steadily increased a lead to stop Brighton high school 27-15.

End Porter and Gerry Heaton scored all but four of Northville's points between them. Porter dropped in five field goals and two free throws for 12 points and Heaton got five baskets and one foul shot for 11 points. Ron Jennings and Dick Stanley accounted for the other two baskets. Anderson was high for Brighton with six points.

The game was no pushover, despite the appearance of the score. Both teams were good defensively and offensively, but Northville wasted fewer shots. The Mustangs pressed the game and took advantage of every Brighton defensive lapse while keeping their own fast-moving zone defense well organized on the small Hartland floor.

Northville's defense was especially noteworthy in the last quarter, which opened with the Mustangs sporting only a 16-12 lead. The Mustangs buttoned up their defense and held Brighton to three points while Heaton popped a foul shot and dropped in three field goals on fast breaks. Porter's basket and a tip-in by Jennings in the last two minutes sewed the game up.

Lyke, Waterman Bowl Series of 761 To Win Tournament

Faye Lyke and Gale Ann Waterman teamed in the Ten Age Bowl Doubles tournament Tuesday, December 14, and won with a six game total of 761.

The tournament, held at Royal Recreation on West Main street, was sponsored by Betty Brock, Stadelaker Sales and Service, on Plymouth road. P1210 supplied two trophies for the winning team.

In second place at the finish were the teams of Carol Lyke-Robert Mapes and Evelyn Clark-James Newhouse with 666. The winning team was ahead in all three games but led the C Lyke-Mapes team by only 19 pins at the end of the second game. The tourney was clinched in the final line when Faye Lyke posted her best game of 119 and Gale Ann Waterman surpassed her other scores with a 145.

Teams were selected blind, by pulling numbers out of a hat. This prevented the teaming up of bowlers with high averages and put teams on a basis of chance.

The teams were given 100% handicaps subtracted from 250. The averages were taken from the last game in the Royal Recreation Teen-Agers league, which bowls Saturdays.

The tournament was tight throughout, and all teams had a chance of winning, up to the final game. Miss Waterman's 145 was high for single game. She also took high series honors with 390.

The 10 teams finished this way:

1. Faye Lyke and Gale Ann Waterman 761
2. Carol Lyke and Robert Mapes 666
3. Evelyn Clark and James Newhouse 666
4. Jerry Schnute and Carol Ann Gaffield 664
5. Betty Stevens and Harold Wilson 640
6. Robert Gillick and David Kirkey 633
7. Ben Thomas and Betty Newhouse 618
8. William Dietz and Marjory Lee 615
9. Janice Owens and June King 602
10. Nancy Lee and Frank Newhouse 601

Commercial Fertilizer
During the 10 years from 1937 to 1947, U.S. farmers just doubled their use of commercial fertilizer, increasing from 8,400,000 tons to 16,800,000 says the U.S. department of agriculture.

RESERVES

The Mustang reserve team, playing their second game this season, lost to the Brighton reserves at the Hartland gym last Friday night 37-17. Brighton's Buffington topped all scorers with 14 points and Pete Spagnuolo and Don Maclean got five each for Northville.

The Mustangs led 9-7 in the first quarter but dropped behind 16-13 at half time. Brighton, with a superior height advantage, switched from zone defense to man-to-man and in the second half rolled up 21 points while Northville was getting only four.

The game was rough from the outset, with a total of 18 fouls called by the officials, and the slippery floor added nothing to the game. Coach Dick Kay substituted freely throughout the contest.

Basketball NEWS

The Mustangs will finish out this year's basketball games on the home floor, playing Dexter tomorrow night and Plymouth Tuesday, December 20. The first game in 1950 will be at South Lyon on January 6.

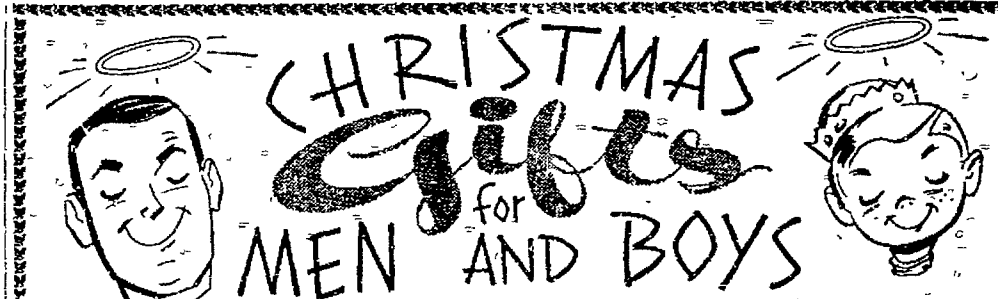

With two victories under their belts, the Mustangs will be pitching hard to whip Dexter at the High school gym tomorrow night. If the percentage of shots in previous games holds up and the defense is as good as it has been, the Mustangs will probably win. If Dick Gray, one of last year's regulars, is able to play against Dexter, the NMS lineup will have added strength. Gray missed the Clarenceville and Brighton tilts because of a strep throat infection, but may see some action tomorrow. If so, he will go into the game with only a week's practice.

One fortunate aspect of the team this year is the depth. Coach Harry Smith can substitute several players without fear of losing strength, and a team is only as good as the reserves.

Holiday Time For Pie

Photo by Jello Puddings

Serving pie for dessert is one of America's favorite habits—so much so that we say "As typically American as apple pie." Pies are especially traditional for holidays—Cherry Pie for Washington's Birthday and Pumpkin Pie for Thanksgiving.

Of course we must always have a Mince Pie for Christmas. The one pictured here—Mince Pie Cream Pie—is a new version of mince, with a layer of packaged vanilla pudding added to the top. There are other pies that playfully exploit the color-scheme of a special holiday, like the Christmas Delight Pies described below. Here the cherries are molded in red cherry-flavored gelatin, then a layer of lime-flavored gelatin is added, for a bright and colorful Christmas dessert. Bring on the pies—it's holiday time!

Mince Pie Cream Pie

1 recipe prepared vanilla pudding
1 tablespoon rum or 1/4 teaspoon rum extract
Three-fourths cup mince meat
1 baked 9-inch pie shell

Prepare pudding as directed on package. Cool slightly (about five minutes), stirring occasionally. Add rum and mix well. Spread mince meat in bottom of pie shell. Cover with pudding. Chill.

Christmas Delight Pies

1 No. 2 can red sour pitted cherries
1 cup cherry juice and water
1 package cherry flavored gelatin
1 cup hot water

2 baked 9-inch pie shells
1 package lime flavored gelatin
2 cups hot water
2 cups cream, whipped and sweetened
1 cup shredded coconut

Drain cherries well; reserve juice. Add enough water to juice to make 1 cup. Dissolve cherry gelatin in 1 cup hot water. Add cherry juice and water. Chill until slightly thickened. Then fold mixture in each pie shell. Chill until firm.

Dissolve lime gelatin in 2 cups hot water. Chill until slightly thickened. Spread a thin layer of whipped cream over firm gelatin layers. Cover with slightly thickened lime gelatin. Chill until firm. Top pies with remaining whipped cream and sprinkle with coconut.

W. E. REYNOLDS, Commissioner of Public Buildings.

Ed Whitney patented the cotton gin before he was thirty.

All of the foregoing, however,

is merely prologue. Far more deeply disturbing as the forthcoming drama of fiscal lunacy, the synopsis of which was written by the first session of the present Democratic Congress.

In its first session, the 81st Congress actually spent the gigantic sum of \$51,000,000,000 by far the largest sum ever spent by any government in a peacetime year. This was 29 per cent more than last year. Yet this session of Congress gave the President almost nothing of his socialistic, welfare state program.

If economic activity continues at about present levels, as it now seems likely to do, then the deficit could end up at \$11,000,000,000 or even \$13,000,000,000. Probably the \$7,000,000,000 figure is most nearly correct, though, because not all of the \$51,000,000,000 appropriated will be spent within the current fiscal year.

But if the second session of the present Congress, which convenes January 3, should enact a substantial portion of the President's program, there is no telling what the deficit would be in subsequent years. It has been conservatively estimated that the program in its entirety would cost American taxpayers - and that means everybody - at least \$3 trillion dollars, at the rate of \$150,000,000,000 each year. This exceeds the total of all individual incomes in the United States.

Nothing left for anybody to spend but of his own pocket.

Having committed himself and his political future to these things, it is small wonder the President talks feverishly of tax increases and of increasing several times over the average of American incomes. The incomes he is talking about are the incomes of the American people, not the incomes of the American government.

But the American productive plant now is operating at near capacity with a labor force almost totally employed. The effort it is manifest that real income - in terms of purchasing power - cannot be greatly increased except over a long period of mounting production, savings and investment coupled with technological improvement of the means of production. This only by deliberate inflation would increase be multiplied immediately and the multiplication would be in terms of dollars and not of purchasing power.

Mean all of this it would appear that further inflation and confiscatory taxation have become a definite danger, if Congress tries to put the President's program and then raise taxes large enough to make a dent in the disastrous deficits, which would ensue. That is the road to dictatorship now being traveled by England.

ON CAPITOL HILL

NEWS and COMMENT

FROM CONGRESSMAN

GEORGE A. DONDERO

The way to get rid of government deficits, said President Truman recently, is to increase government income. The government has only one source of income, and that is taxation. Therefore the President has let it be known that he will demand from the next session of Congress a federal tax increase of at least \$5,000,000,000 annually.

In its November summary of federal fiscal operations, the United States Treasury estimates the deficit in the current government fiscal year, which ends next June 30, at approximately \$5,500,000,000. But Democratic Senator Harry F. Byrd, of Virginia, reputed the financially estimating it at about \$7,000,000,000.

The Treasury summary estimates federal income for the present fiscal year in round numbers at \$38,000,000,000. This estimate may be low, because of prospective peaceful labor relations and a resultant production increase over many months to come. Nevertheless, even should tax income reach \$40,000,000,000 by the end of the fiscal year, still there would be a deficit of about \$3,500,000,000 on the basis of the Treasury's own estimate of expenditures totaling about \$43,500,000,000. The deficit would be \$5,000,000,000 on the basis of Senator Byrd's estimate.

Keep Yule Trees Safe From Fire

Be careful, home Santa Clauses, how you handle that Christmas tree. It takes just a spark to turn a beautiful spruce into a blazing torch in your living room. Christmas trees are full of flammable pitch and resins, and burn furiously even when fresh cut.

To help you keep Christmas merry, the National Board of Fire Underwriters offers these safety rules for installing and decorating your Christmas tree:

1. Choose a small tree, instead of a big one. It will be just as pretty and much less hazardous.
2. Keep your tree outdoors until just before Christmas. Install it in the coolest part of the room, away from fireplaces, heaters or radiators.
3. Do not, under any circumstances, use cotton or paper for decorations on the tree or around the tree.
4. Do not place electric trains around the tree.
5. Use electric lights for illumination. Never use candles. See that all wires are in good condition. Use Christmas tree lighting outfits which have been tested by Underwriters Laboratories, Inc. These can be identified by a tag bearing the name of Underwriters Laboratories Inc. attached to the wires.
6. Do not plug or unplug the electric cords beneath the tree. Provide a switch some distance from the tree to turn the lights off or on.
7. Do not leave lights burning when no one is in the house. From time to time inspect the tree to see whether any needles near the lights have started to turn brown. If so, change the position of the lights.
8. When needles start falling, take the tree down and discard it.

Earthworm Helpers

Earthworms thrive and prosper under good soil management. They will do a better soil conditioning job when fertilizer is added to the soil. And fertilizer is always more efficient when worms are present.

U. S. Department of agriculture research has demonstrated that in tests made at the Beltsville Md., experiment station. These research men found that adding fertilizer boosted hay yields the equivalent of 52 tons per acre on soil containing worms. Without earthworms, the yield increase due to fertilizer averaged 28 tons.

The research men found other evidence that earthworms prosper under good soil management. They made an earthworm census in rotation plot experiments. They counted five times as many earthworms per acre in a soil cropped to a three-year rotation of row crops, small grains and hay, as they found in soil under constant row cropping.

Heel Flies Ofttimes Cause Much Discomfort to Cattle

If your cattle high-tail across the pasture as if they were running for their lives, there's a good chance that heel flies, are causing the trouble. The same is often true when cattle spend their time standing in a pond or creek.

Dr. N. D. Bevington, parasite specialist with the University of Illinois, says the heel fly doesn't bite. But it does scare the cows, causing them to lose weight.

AROUND THE CLOCK—The telephone is one farm helper that never sleeps. All day it's ready to carry your voice wherever you want it to go—to your customers, suppliers, and all you deal with in the business of farming. Evenings, it takes you to friends and neighbors for personal voice visits. All night, it's there in case of sickness or other emergencies. Your telephone does so much for so little money that it's one of today's greatest values.

INVISIBLE BRIDGE—Once in a great while a severe storm, flood or other catastrophe may damage telephone plant and threaten a community with isolation. Time was when no calls could go through pending repairs. Today, thanks to an "invisible bridge" formed by mobile emergency radiotelephone units, there's less chance of this happening. These units, which Michigan Bell can have operating in short order, enable emergency telephone calls to bridge the gap by radio until regular facilities can be restored.

SEASON'S GREETINGS—More and more, Long Distance service has come into use for holiday greetings. But so many people like to make their Long Distance calls on Christmas Eve or Christmas Day that there are bound to be delays, particularly on calls to more distant points. To avoid possible disappointment, why not plan now to call a few days before or after Christmas instead?

South Lyon—The South Lyon city council, meeting in its regular December session, passed a resolution to prohibit parking on Lafayette street from Liberty to Detroit streets and on Lake street from Wells to Washington streets, between the hours of 2:00 and 7:00 a. m. Street workers have been handicapped in the past by the presence of cars parked all night on these streets when they cleaned the streets.

Chelsea—Rev. Fred D. Mumby of Marine City, a former pastor of the Chelsea Methodist church, died suddenly at his home early Saturday, Dec. 3. Rev. Mumby had been in failing health since a fall about a year ago. He was pastor here for eight and one-half years before going to a pastorate in Milford in 1942. He retired in June, 1948, after 40 years in the ministry. He has since been living in his own home at Marine City.

LADY MATADOR... Edith Lauri-Entin, America's only lady bullfighter, performs a "Veronica" with a red cape on the deck of the S.S. Marine Shark, as she returns from Europe. During her visit to Spain she studied bullfighting under well-known matadors of Pamplona. She also met a few bulls head-on at private bull fights and was spilled twice without suffering serious injury. She has completed an elementary course in the art and plans to make bullfighting her profession.

Episcopal church here, was attended by many state dignitaries, including Governor G. Mennen Williams and the members of the ways and means committee, of which Espie was chairman for the past 10 years.

Grasshopper Eaters
Turkeys, quail, frogs, snakes, skunks and shrews, are voracious grasshopper eaters. Because Mrs. G. deposits her eggs in the ground in autumn, late fall plowing helps to reduce the spring hatch. Development of grasshopper parasites has become an effective method of control.

Season Ends With Light Deer Kill

Fewer hunters, good hunting conditions and a light to normal kill is the way the conservation department sums up the 1949 general deer season.

Preseason expectations were that at least as many hunters would be out as last year and that they would bag more deer than before. About 100,000 deer were taken by 396,000 hunters in 1948.

When hunters turn in their report cards and license figures are available, we should have a better picture of the season. I. H. Bartlett, department deer specialist, noted. A number of would-be hunters may have decided they could not afford the trip this year, he added.

Best reports were from the upper peninsula where it is estimated that the kill was better than last year, although hunting pressure was termed normal to slightly below normal. Local hunters success is believed to be the same, while downstate hunters operating in the upper peninsula appear to have bettered their mark. One deer was taken for every two and one-half hunters out during the 1948 season in the upper peninsula.

In the northern lower peninsula, the season's harvest is estimated to be light to normal and hunting pressure down from last year. The hunting army was smaller by 20 to 30 per cent in the Baldwin, Gladwin and Traverse City areas, and off 10 to 20 per cent in the Mio and Atlanta districts. Ideal hunting conditions prevailed for the most part. While deer were in heavy cover and not moving around in many upper peninsula locations, the animals in the northern lower peninsula were scattered because of a poor acorn supply.

Diamond Island provided 1,370 hunters with 375 bucks this year. In the 1948 season, 1,602 hunters got 416 bucks. On Bois Blanc Island, 98 hunters bagged 51 deer as against 44 hunters who shot 22 deer in 1948. On Beaver Island, 160 hunters shot 27 bucks, compared to 200 hunters who brought home 33 deer in 1948.

Motor Fuels
Present trends in the direction of increased sulfur content of motor fuels have two important effects on the use of leaded gasoline in engines. Increased sulfur in leaded fuels reduces the antiknock efficiency of tetraethyl lead and causes lead-sulfur compounds to be major products of combustion.

THE men and women of America know value when they see it!

Naturally, we and all Chevrolet dealers are deeply appreciative of this overwhelming tribute of preference; and we join with Chevrolet in pledging to do everything possible to give you greater and greater value in the months and years to come.
