Consider Expansion for Mental Hospital

Exceptionally good progress is being made on the construction of the new Northville State hospital located just west of Hagerty highway between Six and Seven Mile roads.

The power plant is entirely completed, the water system has been installed and work on the main building is underway. As members of the legislature predicted at the time the effort was first being made to secure the original appropriation for this new hospital for the metropolitan area of Michigan, there soon would be need for a considerable expansion in the size of the institution.

That need has come even before the first units of the new institution have been completed.

Already reports from Lansing indicate that this expansion program is under consideration in order to take care of the mentally ill of Detroit who should have been committed months and years ago. It is pointed out that this expansion would be by far the most economical method to follow.

A. N. Langius, building division director, said he would confer with architects on the feasibility of erecting large, one-story, custodial-type ward buildings on the hospital grounds.

"We need beds in a hurry, particularly if the Sault Ste. Marie hospital is to be turned back to the Army in October," he said.

"The clinical hospital being built at Northville, at a cost of \$6,500,000 to \$7,500,000, will provide 640 beds. We could get 400 more beds for \$1,500,000, by building the low-cost, single-story structures, and it wouldn't (Continued on Back Page)

DUO-PIANISTS

Concert Assn. To Present Pianists

The Northville Community Concert Association will present their second in a series of concerts this season Tuesday night, January 24 at Wayne County Training School Auditorium. The concert will begin at 8:15. Immediately following the program a reception honoring the concert artists will be held to which all concert members are invited.

The internationally famous duo-pianists, Ethel Bartlett and Rae Robertson, will be presented at the concert. This team has popularized two-piano music throughout the country through concerts, radio and Columbia Masterwork recordings.

Ethel Bartlett was born in England and studied chiefly at the Royal Academy of Music with Frederick Moore and Tobias Matthay, but later did some work in Berlin under Arthur Schnabel. Returning to England, she made a highly successful debut in London and toured considerably.

Rae Robertson was born in Scotland. He began picking out tunes on the piano by ear at the age of three and his first concert appearance was in a duet with his eldest sister at the age of four. At five he was allowed to play the organ in his father's church. He studied for a time at Leipzig Conservatory and later he went to Edinburgh University to prepare for his M. A. degree, specializing in modern languages. While there he continued his piano work with Philip Halstead. He began studying at the Royal Academy, but World War I interrupted his studies. After the war he completed his scholarship at the Academy.

When he first went to the Academy he had met Ethel Bartlett and soon after their Academy days were over they married. Steadily both built up reputations as solo pianists. Finally they gave their first joint recital, an unequalled success. They were the first two English artists to play works for two pianos. They have since toured many countries and have also been soloists with the great conductors of the world, including Toscanini.

Telephone Almanac Is Now Available

The Michigan Bell Telephone Company announced today that the 1950 edition of the perennially popular "Telephone Almanac" is now available to the public, without charge, at all of its business offices.

Theme of this year's almanac is the romantic and interesting account of man's efforts to communicate with his fellow-men. Words and pictures trace his progress in this endeavor from the day when he used drums, horns and cannon, up to his present-day use of radio, relay, telephone and a telephone in his automobile.

In addition to the traditional astronomical observations and other useful information, the new edition contains the usual Rebus, or brain-teasing word picture puzzle.

The Mary Circle of the Presbyterian Church will meet with Mrs. John Blackburn Wednesday, January 25 for a sandwich luncheon at 12:30.

Dog Training Class Begins January 25

An enthusiastic crowd of villagers greeted the exhibition of trained dogs given by the Southern Michigan Obedience Training Club last Friday night at the High school gymnasium. This exhibition was held for the purpose of introducing their course of "Owner Dog Obedience Training", the first class of which will start on Wednesday, January 25.

Several breeds of dogs were put through various exercises in order to demonstrate why trained dogs make better citizens and more enjoyable companions to the owners. Heeling, staying, scent discrimination, retrieving, hurrying, broad jumping and dogs working in groups were some of the many things performed by the dogs.

The Southern Michigan Obedience Training Club, who is conducting this class in obedience training, is made up of members who not only are good trainers themselves but have developed the knack of imparting their knowledge to others. Hence, they like to refer to their course as "training you to train your dog."

Dogs with good manners make their masters proud owners. Here is an opportunity for you to make your dog a much more enjoyable pet. "Anyone can train a dog" says Frank Brant, a director of the Southern Michigan Obedience Training Club, "if he will take the time to understand his dog and follow a few simple instructions."

Don't forget this first class in "Owner Dog Obedience Training" starts next Wednesday night at the High school gymnasium. The time is 8:30. This opening class is most important since it deals with psychology of training, attitudes of the trainer, types of commands, tone of voice and other fundamentals so necessary to training your dog.

Any further information which you may desire can be obtained through Carl Johnson of the Johnson Gift Shop.

Polio Canisters Placed in Stores

Villagers received through the mail this week March of Dimes cards which they are asked to fill with dimes, to aid the polo victims in this area and throughout the nation.

Nelson C. Schrader, Jr., March of Dimes chairman for Northville, stated that these cards may be turned in to him or mailed to the Wayne County headquarters in Detroit where they will be credited to Northville. This week canisters will be placed in all the village stores and in the theater and school children will be asked to contribute to the March of Dimes.

The drive this year is being conducted from January 16 through January 31 and the theme is "I'm winning because of you." The 1950 March of Dimes poster girl is Wanda Wiley of Austin, Texas who was stricken with polio last summer. The old-fashioned cracker barrel, once standard equipment for every grocery store, is as dead as the dodo bird in today's modern food market. But the old-fashioned standards of friendliness and the standards of value established by Kroger 68 years ago are first in importance for every Kroger store today.

Jan. 29-Feb. 5 Is Nat'l Youth Week

Thousands of young people will lead and participate in Protestant church services next Sunday (Jan. 29) and through the following week in celebration of National Youth Week, according to Dr. Isaac K. Beckes, executive secretary of the United Christian Youth Movement.

Some will preach. Others will read the Scripture or lead in prayer. Many will sing and otherwise take the places usually occupied by the minister and lay adults.

In many churches the young people will occupy the major offices of the church during the week, serving as chairmen and members of committees and taking the places of deacons, trustees, stewards, and other officials.

These activities are part of the nationwide observance of National Youth Week, which is being celebrated on a wide, unified basis for the seventh year.

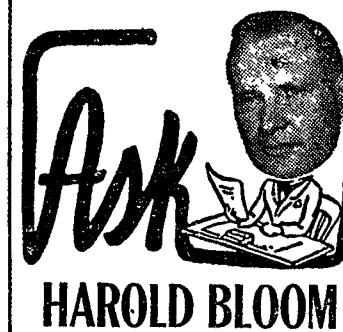

Becoming increasingly popular, the celebration is sponsored by the United Christian Youth Movement and its 40 member denominations, 38 church and youth state councils, and 18 national youth-serving agencies.

"God Designs—Youth Build!" is the topic for the 1950 celebration.

The youth observance begins with Denominational Day on Sunday, January 29 and closes with Interdenominational Day on February 5. Appropriate worship services for each occasion are provided.

Encouraging the widespread practice of having youth members lead church services and events, Dr. Beckes points out this year special emphasis will also be given to Bible study, leadership education, visitation, a community-wide social event, family night, church night, and youth fellowship night. Special resource material is provided by the U.C.Y.M. and cooperating denominations.

Husband Turns Chef

When the man of the house takes a hand in the kitchen, chances are something pretty special will be turned out. For there are moments when every man sees himself as a chef without a peer, one whose culinary creations unquestionably match the best.

When he enters the kitchen he plays the host with enthusiasm. "Aren't all the great chefs men?" he asks, with a twinkle that says what he's done with the masterpiece of the moment!

So, when next there's to be a dinner for intimate friends, or you're needing a dessert for a crowd, merely introduce your "chef" to a new packaged rice pudding—a recent addition to a famous family of desserts. Armed with the complete directions on the package, he'll take over, and the rice pudding he'll turn out—using this outstanding convenience product—really will be the kind his mother used to make, creamy and soft and grain-textured. Juicy with fat, plump raisins, this pudding will take only about 15 minutes of his time, and he'll return to his reading with an imperishable smile.

Here are the simple directions for making a delicious, old-fashioned raisin rice pudding the quick modern way.

Creamy Raisin Rice Pudding
1 package prepared rice pudding
2½ cups milk ¼ cup raisins

Combine pudding mixture with milk in saucepan. Add raisins. Bring to a full boil, stirring constantly. Then reduce heat and boil gently 10 minutes, stirring occasionally. Cool. Stir once after 15 minutes. Serve warm or cold. Makes 4 or 5 servings.

to Ann Arbor Hospital, where she receives treatments. At Thanksgiving time Mrs. Stauch underwent a major operation.

Prayer and Bible-study, under the supervision of neighborhood church folks was held at the home of Mrs. Walter Rehahn Thursday evening.

Four members of one family received recognition awards for faithful attendance in the Neighborhood Bible School Sunday morning, January 8. They were Nancy, Pauline, Beverly, and Dolores Varhol. Sharon and Jerry Butler were another two from one family and their cousin, Robert Melvin, was lined up with them.

Under the auspices of the Sunshine Sisters, forty ladies of the Neighborhood Church section met in the church last Wednesday afternoon and conducted their first annual Secret Pal disclosure. Suitable devotional exercises, with Mrs. Kenneth Allen presiding at the piano, preceded the afternoon's business. During the year just completed fifty-four women of the territory had been working as secret pals. A table was piled with final gifts and cards addressed to ones whose names had been drawn and signed by those who had drawn those names. These were distributed and in that way identities were divulged. Many surprises were in order, since most of those present had formed incorrect ideas of their Sunshine Pals' personality. After the secrets were all opened, drawing of names for another year was conducted. Fifty-eight are now engaged in this activity. In closing, cake and tea were served.

The next Sunshine meeting will be held at the home of Mrs. E. W. Stange, corner Mayfield and Norfolk, Wednesday afternoon, January 25 at 2 o'clock. It is customary to hold Sunshine meetings in private homes during mid-winter.

Rural Tele-news

LET'S TAKE IN A FREE MOVIE

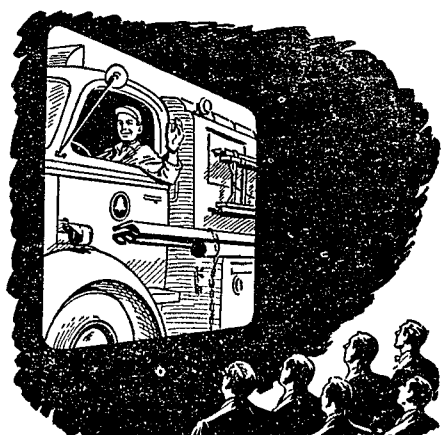

Michigan Bell maintains a library of interesting and entertaining films, which are provided without cost to clubs, Granges, Farm Bureau groups, schools, church gatherings, and meetings of all kinds. These films show many phases of the telephone business. To obtain a free catalog listing many interesting telephone movies, or to arrange for the films, simply call your Telephone Business Office.

MICHIGAN BELL TELEPHONE COMPANY

BEARING FRUIT

Michigan Bell's rural construction program continues to produce more telephone service for Michigan farmers and their families. There are now 73,000 more telephones in the rural areas we serve than before the war. This required setting 76,000 poles and stringing 37,000 miles of wire. Since V-J Day we've spent \$15,000,000 on rural telephone construction.

THE FARMER AND THE TELEPHONE

If you made a list of the equipment that helps the Michigan farmer work his farm efficiently, more profitably, you'd undoubtedly include the telephone. For the telephone is one of the world's greatest time-savers... and time is money on the farm. The telephone is important for ordering supplies from town, getting the latest market prices, selling, or simply talking over mutual problems with friends and neighbors. It's easy to see how a telephone on the farm is worth a lot more than it costs.

Inkster Cagers Outscore Northville

Both Northville High school basketball teams fell before fast, rangy Inkster High squads last Tuesday night in games played on the Carver Elementary school floor at Inkster.

The varsity squad lost 34-24 in a tight game in which the smoothly functioning Inkster machine controlled the ball most of the time. The Mustangs were once more hampered by their inability to get the ball into the basket, despite many shots, plus Inkster's height.

The Colts were outscored 43-22 by the Inkster quintet, which alternated a fast man-to-man defense and zone defense which made it difficult for Northville to get the ball under the basket for short shots. The Colts' lack of tall players added to the difficulty of moving plays past the Inkster outer defense.

Here Is Another Time The Anti-Trust Lawyers Were Wrong!

Ever since the anti-trust lawyers filed their suit to put A&P out of business, they have been making, in the newspapers and over the radio, various "allegations" about how they think this company does business.

Please remember that "allegations" are charges that have not been proved.

In this case they will be disproved.

There have been times in the past when the anti-trust lawyers made very damaging "allegations" about this company that the courts eventually decided were utterly without foundation.

In our last advertisement we told you about the time the anti-trust lawyers charged that A&P, two other food chains and two labor unions conspired to fix the price of bread in Washington, D. C.

And yet, when this case came to trial, it was revealed that the defendants were actually selling bread cheaper than most other stores in Washington, and there was absolutely no evidence that they had ever engaged in any such "alleged" conspiracy.

That was the time Federal Judge T. Alan Goldsborough instructed the jury to bring in a verdict of "not guilty."

It was the time he said to the anti-trust lawyers:

"If you were to show this record to any experienced trial lawyer in the world, he would tell you that there was not any evidence at all."

"Honestly, I have never in my over forty years' experience seen tried a case that was as absolutely devoid of evidence as this. That is the honest truth. I have never seen one like it."

But this was not the only time that the anti-trust lawyers made such serious "allegations" against A&P which were false. Again, and still again, they brought cases against A&P and suffered defeat.

As we have said, we think you are entitled to know about these other cases. And now, we are going to tell you about the second time the anti-trust lawyers were wrong.

The North Carolina Potato Case

In December, 1941, the anti-trust lawyers brought a criminal suit in Wilson, North Carolina.

They charged that A&P's fresh fruit and vegetable buying subsidiary, and other good American citizens, had conspired to fix and depress prices paid farmers for potatoes in North Carolina, Virginia and Maryland.

Can anyone imagine any charge calculated to be more damaging to a retail grocery business that must rely on farmers, day after day, for the food we distribute to our customers?

In this case the anti-trust lawyers gave a story to the newspapers, telling millions of farmers that we were the kind of people who would force their prices down, deprive them of a decent income, and lower their families' living standard.

These charges were false.

They made these charges despite the fact that it has always been A&P's policy to pay our farm suppliers fair market prices for all produce; to aid agriculture through better distribution of its products; to narrow the spread between farm and retail prices; and to help farmers build better markets for their products.

That is why many thousands of farmers all over the country are now coming to our support.

When the case finally came to trial, the anti-trust lawyers put on as their first witness a potato expert of the U. S. Department of Agriculture.

This expert, who was the anti-trust lawyers' own witness, testified that contrary to the anti-trust lawyers' "allegations," the defendants made every effort to help the Department of Agriculture in its efforts to aid the potato farmer in better marketing of his products and in getting a better price for his products.

When the anti-trust lawyers had put in their evidence and had argued their case Federal Judge C. C. Wyche directed the jury to bring in a verdict of "not guilty."

Judge Wyche said to the anti-trust lawyers:

"I have studied this case from the very outset. In my opinion there is no testimony produced from which it can reasonably be inferred that the defendants entered into a combination to depress or lower the price of potatoes."

"I might say that I never tried a case in my life where a greater effort, more work, more investigation had been done, combing almost with a fine-tooth comb to gather evidence, as was done in this case."

"But, as was said a long time ago, you can't make brick without straw, and you can't make a case without facts."

So, here was a case in which the anti-trust lawyers made seriously damaging charges against A&P in which the Judge decided that there were no facts to support those charges.

That is why we say the anti-trust lawyers can be wrong and have been wrong.

That is why we say that they are wrong again, just as they were wrong in the Washington bread case and the North Carolina potato case.

We are going to show the American people that the suit to destroy A&P is really a suit against efficiency and against real competition.

The real question involved in this suit is whether businessmen are going to be encouraged to do a better and more efficient job; or whether we are going to let the anti-trust lawyers in Washington blow the whistle on anybody who gets big by giving the people more for their money.

No one can make us believe that it is a crime to try to sell the best quality food at the lowest possible price.

Ithaca—Five business places in Gratiot county were looted recently of a large quantity of merchandise and some cash. The thieves were apparently frightened away from the Johnson Hudson Sales east of Ithaca while they were attempting to get into the safe and dropped their tools and escaped unnoticed.

South Lyon—A good start has been made during the last three weeks on the construction of the fieldhouse on the athletic field. The building, which is located just west of the present hardball diamond, on the athletic field, is in the shape of a reversed L.

Farmington—After 25 years, attorney John J. Schulte, Jr., is vacating his offices on the second floor of the Farmington Municipal building. He retired January 1 from private law practice. From then until the expiration of his term as justice of the peace, Schulte will hold court in the council room of the City Hall.

Howell—Everett Copeman, Everett G. Cameron and the latter's son, Ronald Cameron, all of Deerfield, might have had nine pairs of new shoes between them except that as they left the back entrance of the Lud-Mor Shoe Store at 113 E. Grand River about 2 a. m. Sunday they met Officer Louis Richardson of the city police force.

Farmington—The Farmington School Board at a recent meeting heard the first and incomplete report from the committee it appointed last month to investigate the feasibility of constructing a night football field.

County lists of some lake maps available can be obtained from the conservation department's fish division. Persons interested should send for the individual county list of their choice first—in order to find out what maps are stocked. An individual county listing is supplied free, the maps are furnished at cost.

Chelsea—Washtenaw county's Board of Supervisors voted in favor of the present location for the proposed new county building. Twenty-one votes were cast for the present location, while only 14 favored the proposed Washtenaw road location near the County infirmary, Sylvan township Supervisor Fred Broesamle reported.

Dearborn—Dearborn's city council in special session, voted to rescind earlier action of the council, and voted to rescind the cooperative occupational training program for high school seniors.

Blue Egg Shells May Be Answer for Egg Dealers
Blue shell eggs may be the answer for some daring poultrymen who are tired of collecting the same old brown and white ones every day, and who would like to experiment with another color.

The trick is turned regularly by some chickens at Cornell university. Dr. J. H. Bruckner, head of the poultry husbandry department, says the color actually varies in light shades of both green and blue depending on how much brown pigment is present.

"Town Line 16" is the boundary which southern Michigan hunters must cross to get into the area where rabbit hunting continues through January 31. This line is the north boundary of Oceana, Newaygo, Mecosta, Isabella and Midland counties, projecting across Bay county to Saginaw Bay. This zone does not include any part of the Thumb. Rabbit hunting in the upper peninsula continues through March 1.

Farmers Ask Data On Crop Varieties
Proper Choice of Seed Held First Requisite

Farmers, with this year's harvest out of the way, are looking toward 1950 and seedling time, county extension agents report.

Many farmers are asking county extension agents about new varieties of crops.

As a rule, the county agent's answer to farmers is this: "Before buying seed of any new variety it is good business to be sure it is recommended and suited to the locality in which you live. The new variety should be at least as good, or better, than varieties you have been growing."

Reliable seed dealers and their agents can usually be depended upon to offer you only proved new varieties of grain, he says. But

Ithaca—A crowd of 275 in attendance at the annual meeting of the Gratiot County Farm Bureau at Ithaca elected four directors, heard a review of the past year's activities which topped all previous records, enjoyed a pot luck dinner and a short program.

Rochester—A record number of March of Dimes coin collection canisters will be distributed around Rochester for use on store counters and coin cards to the school children in preparation for the annual fund raising drive for the National Foundation for Infantile Paralysis, according to Mrs. Henry W. McNalley, Avon Township campaign director.

NEWS and COMMENT

FROM CONGRESSMAN
GEORGE A. DONDERO

Everybody now knows that the major issue before the American people is that of individual freedom versus the socialist state. But judging by many letters reaching my office a considerable proportion of Americans are not fully aware of the specific issues now before the Congress of the United States. These issues are the parts of the major issue. As they are decided, so will the major issue be decided.

I present in the following paragraphs a brief analysis of the minor issues on which Congressional action is sought this year.

1. **TAXES.** In spite of the heaviest tax load in the nation's history, President Truman has asked for income tax increase to defray the cost of his socialist welfare state program. Small increase possible.
2. **CONTROLS.** The President continues to ask for standby wage and price control legislation. Bills along these lines were offered in the earlier session of this Congress but not acted upon.
3. **POINT FOUR.** Bills are pending on both House and Senate calendars guaranteeing American private investments abroad. House bill for sending technical missions overseas due to be pushed this session.
4. **SOCIAL SECURITY.** House bill, passed in previous session, due for hearings before Senate committee. Likely to pass.
5. **SOCIALIZED MEDICINE.** Although disclaimed by administration spokesmen, administration bill may come up for consideration. This system is patterned after the admittedly unsatisfactory British system. Passage unlikely.
6. **FEDERAL AID TO EDUCATION.** Senate has passed bill, and attempts will be made to

get a bill out of the House Labor Committee, where it is held up by committee disagreements.

7. **DISPLACED PERSONS.** House passed bill admitting additional refugees. Bottled up in Senate committee for this year at least.
 8. **SELECTIVE SERVICE.** No action was taken in previous session. No action likely in this session. Law expires this year.
 9. **VETERANS' PENSIONS.** Bill to increase pensions passed by House. Senate likely to pass bill with lesser increase. Veterans may benefit to some extent.
 10. **OLEOMARGARINE.** House passed bill eliminating the tax on oleo. Now being considered in the Senate.
 11. **VALLEY AUTHORITIES.** Establishment of authorities for the Missouri and Columbia river valleys, patterned after TVA, unlikely to pass in this session.
 12. **CIVIL RIGHTS.** Anti-lynching bill on Senate calendar since last June and way opened for consideration, but Democratic leaders evidently do not want to call it up. They may call up Fair Employment Practices Commission Bill, on theory it will be defeated and thereafter become good Democratic campaign material.
- In addition, the size of ECA appropriations for European relief, the size of appropriations for national defense and for arming Europe, and the question of this country's Far Eastern foreign policy, will be important issues.
- European relief expenditures, in my opinion, should be reduced drastically, and caution should be used in arming Europe, lest such arms fall to the Communists. Formosa should be defended, if it is not too late, in order to maintain the defense line in Japan and the Philippines.

MSC Alumni To Fete Oldest Living Grad

Henry V. Clark, 90, retired minister of Clearwater, Kan., will be honored as the oldest living graduate of Michigan State College at Alumni Day ceremonies June 3.

Clark, who served Methodist and Presbyterian pastorates in Michigan for more than a half-century, will receive the traditional Kedzie cane at the Patriarch's dinner of Alumni Day on the East Lansing campus. Clark succeeds Dr. Henry Wilcox, Sault Ste. Marie, who died in June, 1949, after holding the cane for two years.

Mich. State Makes Budget Request

Legislative appropriation requests covering Michigan State College operating costs, and agricultural research and extension for the 1950-51 year have been filed with the state budget office, according to Karl H. McDowell, secretary of the State Board of Agriculture.

The college requested \$9,505,830 toward the cost of operating the college, McDowell said. Estimated income from other sources will bring the total operating budget to \$13,761,447, he said.

The appropriation bid is \$1,005,338 over the \$8,500,492 requested last year and \$1,992,576 over the \$7,513,254 actually granted by the Legislature, McDowell said.

Increases in the total budget request do not represent parallel increases in operating costs, he said. The college will need approximately \$500,000 to offset an anticipated decrease in student fees as the number of veterans enrolled under the G.I. Bill declines, thus the net increase is \$1,532,236.

Commenting on a proposed allocation of \$480,951 for salary adjustments, McDowell said, "The comparatively low salary schedule for teachers continues to be the greatest obstacle to the growth and development of Michigan State College."

Non-teaching functions of the college in the field of agriculture were estimated to cost \$2,345,000 in a separate budget request McDowell said.

For the Cooperative Extension Service, \$1,075,000 in state funds was requested to supplement \$841,077 in federal funds. Plans call for expansion of the resident specialist extension staff in fields of vital interest to Michigan farmers, he said.

For the Michigan Agricultural Experiment Station, a state appropriation of \$1,939,000 to supplement \$175,828 in federal funds has been asked. It is proposed to five research specialists for study of soil conservation, fruit and vegetables, forestry, and X-disease of cattle. Proposed new projects of the Experiment Station will include bean growing and marketing, care and breeding of fur-bearing animals, irrigation,

and dairy breeding and sterility problems.

College officials have also requested \$240,000 to match funds under the Hope-Flannagan program of research in agricultural marketing.

Basketball NEWS

The Mustangs will have their hands full in the next eight days, playing three basketball games. The NHS squad will tackle an always dangerous Keego Harbor five tomorrow night on the home court, travel to Clarenceville Monday and return to the home floor against Brighton next Friday, January 27.

Keego Harbor swamped Holly last Friday, 62-27. The Clarenceville game, originally scheduled at Northville, will be played at the new Clarenceville gym, which seats at least 800 persons, including the regular bleachers and seats on the stage. The Mustangs trounced the Trojans 48-25 in the season's opener, and stop-

ped Brighton 27-15 in Northville's second game.

It may be noted that we've taken to calling the Northville reserve basketball team the "Colts" rather than the Reserves. We're trying to make the change gradual and will continue to refer to them as the Colts unless someone offers convincing arguments to the contrary.

Our sentiments on the subject run something like this: The word "reserves" is confusing. It may mean the Reserve team, or may refer to varsity substitutes. "Colts," as soon as we get used to the name, will mean a distinct team.

Second argument: The Colts are a unit, completely separate from the varsity squad. They play a game of their own. They have their own coach, Dick Kay. Most of them eventually graduate to Harry Smith's varsity five when they have accumulated sufficient experience.

Third reason: The primary object of sports is to furnish an opportunity for physical development, to round out academic training and to provide a means for developing sportsmanship and leadership. The idea is to allow as many as possible to participate in the sports program.

The Colts are not hangers-on to the varsity team. They have fish of their own to fry.

The intramural program is just another link in the chain. Al Jones works with Junior High boys every Saturday morning at the High school gym, offering criticism and instruction to the lads who want to learn the mysteries of the cage sport.

Seven pounds of cheese were consumed per person in 1948.

FORD TRADE TEAMS OVERPOWER MUSTANG TEAMS, 47-24, 39-29

MUSTANGS

Northville's Mustangs lost their second game of the season last Friday night, at the hands of a powerful Ford Trade School quintet, 47-24. Control of the backboards and a crew of sharpshooters, plus the Mustangs' inability to connect with the basket despite many shots, gave the Craftsmen the deciding edge.

The game on Ford Trade's big court was fast and smooth on both sides, with minor frays for possession of the ball after rebounds.

There was one moment of complete confusion when it seemed that neither team knew what was happening. Northville took the ball out of bounds midway in the third quarter under the Ford Trade basket, and most of the Craftsmen started down the floor instead of guarding closely under their goal. In the one confused instant when both teams seemed unsure of which goal to guard, Bob From passed to Bud Porter, who split the hoop from directly under the basket, totally unopposed.

Gerry Heaton was high scorer for Northville with seven points. Dick Gray and Bud Porter got six each. Pete Cuca led the Craftsmen with nine markers.

COLTS

Northville's reserve basketball squad lost to a well-balanced Ford Trade School reserve team last Friday night on Ford Trade's floor, 39-29. The steadily improving Colts never let the Craftsmen get very far ahead, but the Ford team maintained a seven or eight point lead throughout the tussle.

Pete Spagnuolo tallied 16 points, eight of which were free throws, to lead the scoring for both teams, and Delmar Metcalf got nine for the Craftsmen.

Coach Dick Kay's quintet pressed the game from the outset and Kay substituted freely. Spagnuolo, probably the most aggressive player of the night was fouled frequently, which helped him fatten up his free throw total.

The Colts are showing rapid improvement, especially in the team-play and ball handling departments. Passing is more accurate and faster than at any time this season.

Packers Trounce All Star Team 13-0 In Roller Hockey

The Easton Packers went on a scoring spree to trounce an All Star team in a wild game at Riverside Arena last Monday night, 13-0. The All Stars, a team quickly recruited from the ranks of the Arena Flyers, Detroit Barons and Arcadia Wildcats to cover a schedule open date, had not practiced together. The open date was caused by the withdrawal of the London Tecumsehs last week from the league after a protested game at London, Ontario.

The game began mildly, with the Packers picking up two goals, and no penalties called in the first period, but began to hum in the second frame. The Packers got three more goals and Har-nish, Crouchman, Carr and Rounds were delegated to the penalty box. The All Stars were missing a man on the floor the entire second period. Goalie Rowe was hurt in a pile-up at the net.

In the last period the game got rough enough for even the most blood-thirsty hockey fan. Carr and Tome drew major penalties of five minutes each for fighting and Cox and Jamieson finished the game in the penalty box for the same reason. Winegardner drew the fifth major penalty of the period, 10 minutes for match misconduct and two minutes for roughing.

The Packers rapped in four goals in the last 31 seconds of the game when the All Stars pulled the goalie out into the line, leaving the net untended, in a power play to spoil Goalie Ferschneider's shutout, but the All Stars hardly got past the blue line.

Rusty Richardson knocked in five goals, two of them unassisted, and had one assist to lead the scorers. Sam Tome was the big gun in the assist department with 5, besides scoring three goals himself. Art Chartier had two tallies and an assist, LeFrancier had two and two and Dean got the other score.

London Team Out of Roller Hockey

Officials of the Michigan-Ontario Amateur Roller Hockey league called a meeting last Friday night to revise schedules for the remainder of the season. The revision became necessary when the London Tecumsehs, of London, Ontario, withdrew from the league after a disputed game January 9. The Tecumsehs had played nine of their scheduled 16 games.

Ernie Slater, of the London Arena management, telegraphed the managers of the Arcadia Wildcats, the Easton Packers, the Detroit Barons and the Arena Flyers, the remaining four teams in the league, "Owing to the poor sportsmanship of the London team here, there will be no more roller hockey at London Arena."

Referee Bernie Hartford had forfeited the game between London and Arcadia January 9 to Arcadia, 3-2, with 10 minutes left to play after London had disputed a goal and walked off the floor in protest.

The other four teams, with schedule revisions, will complete

the season. All four will automatically go into the playoffs.

An All Star team consisting of players from Arcadia, the Flyers and the Detroit Barons played the Easton Packers at Riverside Arena in Plymouth last Monday night, to cover a

gap in the schedule, with the Packers winning, 13-0.

The Packers took on the Wild-cats at Arcadia Wednesday night and will tackle the Barons at Riverside Monday. The Flyers will not play again until Wednesday, February 1.

take long. The clinical hospital building would provide the various services."

First units of the hospital are scheduled to be completed April 1, 1951, and the additional buildings could be ready by that time if the Legislature made the mon-

ey available at the special session early next year.

"That seems to me to be the best place to get 400 beds in the cheapest and quickest way," Langius said. "In addition, we would get the facilities in the metropolitan area, where they are most needed."

The Southeastern Michigan area, including Detroit, has only 172 mental beds for every 100,000 population. By contrast, Southwestern Michigan has 290, the northern part of the Lower Peninsula 314 and the Upper Peninsula 497.

"Expanding Northville would certainly help relieve the burden," Langius declared. "We have the power plant, water and the ground. I think it would be cheaper for the State to do that than to buy some place else and remodel buildings for mental patients."—Plymouth Mail.
