Dismantling Begins On Old Opera House

Wreckers, armed with crowbars, hammers and saws began tearing down the old Northville Opera House Monday. The building for the past several years has housed the Farmers Market.

The Arch Wrecking and Salvaging Co. of Detroit has charge of that operation and estimates that the crew of wreckers will complete the job in about three weeks.

The old opera house building is one of the Village's oldest landmarks and was built by the late Samuel Little, founder of the Northville Record. For many years around the turn of the century it was the focal point of many a gala Northville function. The auditorium also held many graduation exercises and once an Indian medicine show invaded its portals.

Cottage Inn Robbed Friday Morning

Thieves broke into the Cottage Inn on West Main street early last Friday morning, pocketed 70 cents in pennies and missed approximately fifty dollars under the counter in the purse of Mrs. George B. Harrell, wife of the proprietor. They also left five pennies in the till and one on the floor.

The thieves gained entry by removing a small pane of glass in the storm door in the rear of the building. Nothing was stolen except the pennies, probably because the robbery had to be hurried since there was a clear view of the cash register through the front windows, says Harrell.

Much interest and enthusiastic activity was displayed at the meeting last Thursday of the newly organized Northville Optimist Club.

The Rotary Club has named Dr. Thorleif Hegge chairman of the local Easter Seal drive.

According to Roy Terrill, treasurer of Northville Township, 95 per cent of the township taxes have been paid.

The Northville High school basketball team lost their chance at the Class B regional title last Thursday night when they were defeated by Farmington High school at the Pontiac gym.

Five Years Ago
 George Clark of Pontiac has purchased the Hammer Hardware and took possession last Thursday.

A cheery letter from Pfc. Orville Gene Nitzel received March 12 broke the silence of five weeks

in which his parents, Mr. and Mrs. Harry Nitzel of Center street had not heard from him. Gene wrote that he was in a hospital in the Mariannas.

The Red Cross mobile blood bank will visit Northville next Monday for the ninth time since the U. S. entered the war.

A new dress shop was opened at St. Louis last Saturday by Freydl's of Northville.

S 1/c Homer Hodge arrived home Saturday morning to visit his parents, Mr. and Mrs. Harvey Hodge on High street.

Ten Years Ago
 Two hundred and fifty fathers and sons attended the annual banquet at the Presbyterian church house.

"Squaring the Circle"
 Squaring the circle was a famous problem of the ancient Greeks. It was to draw a square having the same areas as a given circle, using nothing beside the pencil but a compass and an unmarked straightedge. Though never solved, it was not until 1882 that it was proved impossible.

"Poor Albert! After building and furnishing a house with the help of the telephone directory Yellow Pages, he found there was no listing under 'Matrimonial Agencies'."

Gov'r Recommends Increased Aid for Wayne Co. Roads

Wayne County will receive about \$16,113,000 in state aid for highway construction under the road program which Governor Williams will recommend to the Legislature.

This is an increase of about \$3,201,000 over the amounts of state aid now received by the county under present highway revenues and allocations.

The Wayne county road commission, under the Governor's program would get \$8,198,000 as compared with \$6,784,000 at present.

Cities and villages within the county would receive about \$7,915,000 under the new plan as compared with \$6,128,000 at the present time.

The state can afford to put up the \$18½ million the Governor said, if the Legislature passes the proposed corporation profits tax. The sum is about equal to the revenues which would be derived from an extra 1 percent on such a tax.

Governor Williams recommended that the tax be levied at the rate of 4 percent last year, but the Legislature buried the bill.

With the \$18½ million of state funds, plus local and federal matching funds, the state can undertake at least \$40 million and possibly as much as \$48 million worth of road construction during the coming fiscal year, the Governor said.

Between \$10 and \$12 million would be contributed, under the Good Roads plan, by cities, villages and townships. They would match state funds for improvements on their own roads.

"In addition, the state's \$18½ million will make it possible to get at least \$12 million and possibly closer to \$18 million in federal matching funds," the Governor said.

The Governor said he would not recommend additional gas or weight (license) taxes to finance the road program.

Paints Can Create Moods In Homes

"Homemakers" - the correct term for women who manage a house - know the important role color plays in creating moods. George Clark of the George Clark Hardware, local Patterson-Sargent dealer says it's no secret that women have a vivid appreciation of gay and charming colors.

There's no place where color is more appreciated by the homemaker than in her own home. And this is quite natural. She has to live in the rooms of her home most of the hours of every day. More and more modern decorators are centering their attention on the creation of more pleasing and inviting color plans for the interiors of every room.

The wonderful thing about this new interest in color planning, as it is sometimes called, is that it costs so little with modern paints to completely redecorate any room. Most of these paints do an excellent job in a single coat.

With all paints plentiful again, many homemakers are using flat base oil paints for their interior decorating needs. Paint of this type has the advantage of covering most surfaces, such as wall-paper, wallboard, plaster and all other painted surfaces and still keeping the oil base which gives it great washability and durability.

Another great advantage of decorating with paint today is the almost unlimited selection of color. Through inter-mixing of basic colors it is possible to get almost any shade of any color desired. This is especially important when the new wall color must match the old furnishings which remain unchanged.

Because the job can be done so economically, and because almost anyone can do a good job relatively easily, many homemakers are doing their own redecorating today. The joy of seeing a dark and dingy room take on new life and beauty more than compensates for any effort involved.

Usually it is hard for the owners to believe just what wonders a little paint can do. Everything in the room takes on new life even though nothing has been changed, but the colors of the wall and possibly the woodwork. Most of the credit for this modern trend in decorating should go to the woman of the house—

Ruth Ann Campeau of Hubbard avenue is ill with pneumonia.

Mary Campeau of Hubbard avenue has a badly sprained ankle.

Mrs. Harvey Taylor, her daughter, Mrs. Genivieve Smithing and a grandson of Detroit were Friday afternoon callers at the home of Mrs. Walter Rehahn.

A meeting of the Livonia Township Health Guild was held at the Rosedale Gardens Presbyterian Church Thursday afternoon. A considerable number of local women, with Mrs. Homer Coolman as leader, are members of this organization and quite a few were in attendance. The Presbyterian ladies served a very fine luncheon preceding the program. The afternoon's talk and discussion was about dieting and weight control.

Some of the Kuhn family of Saline called on Mr. and Mrs. Walter Dixon, of Bretton Road last Saturday afternoon.

One day during last week, Mrs. Leslie Grundy of Hubbard Ave. visited with her sister, who is very ill at her home on the Ten Mile Road.

Fifteen ladies and half as many children of the Neighborhood Church section met at the home of Mrs. I. J. Magner on Shady-side avenue last Wednesday afternoon and conducted their regular Sunshine meeting. Flowers was the topic and the devotional service and entire program were in accord. A number of fine readings and quotations were contributed to the Sunshine session. The most important business on hand was the choosing of a shrub or plant, the use of which could be encouraged all over the community. After a discussion the Flowering Quince was selected.

Mrs. Magner, the hostess served a lunch. Dainty rolls, green salad, cake and tea or coffee appeared on trays decorated with Pussy Willows.

The next Sunshine meeting will be held at the home of Mrs. Russell Ault, Shady-side avenue Wednesday afternoon, March 22, at 2 o'clock. Spring will be the topic.

Mrs. Marvin Addis reports that her grandchildren, sons of Mr. and Mrs. Gerald Teschka, Redford, are convalescing nicely from measles.

The Livonia Methodist W.S.C. S. held a very important meeting Thursday afternoon.

Linda Muir, who was recently quite ill, has had a relapse and is again confined to her home on Shady-side avenue. The new illness developed Wednesday.

The Golden Text (Isaiah 40:8) is: "The grass withereth, the flower fadeth: but the word of our God shall stand for ever."
Among the Bible citations is this passage, (I John 2: 15, 16): "Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him. For all that is in the world, the lust of the flesh, and the lust of the eyes, and the pride of life, is not of the Father, but is of the world."

Novi Church Is Scene of Sutton-Kenner Wedding

Betty Jane Kenner, daughter of Mr. and Mrs. Ross Kenner of Novi Road, was united in marriage with William James Sutton of Northville Friday night, March 10. The double ring ceremony was performed in the Novi Methodist Church by Rev. J. M. McLucas before the immediate families. Bill is the son of Mr. and Mrs. Jess Sutton of West Seven Mile Road.

Palms, candelabra, baskets of white snapdragons and fern formed the background for the ceremony. Donna Schnute played "I Love You Truly", on the organ.

For her wedding Betty wore a baby blue silk and lace street length dress with three-quarter length sleeves, lace mitts and hat. She also wore two strands of pearls, a gift from the bride-

groom. Her bouquet consisted of calla lilies and forget-me-nots.

Her only attendant, Doris Wendland, wore a toast colored lace dress with mitts and a hat to match. She carried Talisman roses.

Jack Sutton attended his brother as best man.

For her daughter's wedding Mrs. Kenner wore a blue crepe dress with white accessories. Her corsage consisted of red rose buds. Mrs. Sutton wore a blue flowered crepe dress with pink accessories and corsage of pink roses.

A reception followed the ceremony at the V.F.W. Hall in Northville. Ice cream, wedding cake and coffee were served to the 150 guests attending. Joanne Tuck, Barbara Earl, Rose Bundoff and Dorothy Robinson served, assisted by Mrs. George Waite of Novi.

For going away the bride wore a Flamingo Red Suit, white wool topper and navy blue accessories. The newlyweds will reside in an apartment at 515 West Main street.

Betty is a graduate of Northville High School and has been employed as an operator by the local Michigan Bell Telephone Company for three years.

Bill also attended Northville High and was in the Marines for three years, serving in the Pacific Theatre. He is now employed at Wayne County Training School.

Out of town guests attended the reception from Oxford, Detroit, Pontiac, Plymouth, Farmington, Novi, Sylvan Lake and Wayne.

Geraldine Ida Densmore of South Lyon, formerly of Northville and Robert Van Dam of New Hudson were recently united in marriage at the South Lyon home of Rev. Cora M. Pennell, pastor of the Federated Church at Salem. The double ring ceremony was witnessed by immediate relatives of the couple.

For her wedding, Geraldine chose a pale green suit with black accessories. Her corsage consisted of red and white roses. The bride asked her sister, Mrs. Homer Hodge (Madeline Densmore) of North Center Street to be matron of honor. Mrs. Hodge wore a black dress which was designed with a white bodice and embellished with rhinestones. A corsage of yellow and white roses completed her ensemble. Best man was Homer Hodge.

The bridal table was covered with a coral pink cloth, which was centered with a three-tier wedding cake and the traditional bride and groom. Lighted tapers in crystal holders completed the table.

For her daughter's wedding, Mrs. Densmore wore a Chinese red dress and Mrs. Van Dam wore a dark red frock. Both mothers wore gardenia corsages.

The young couple left for a short honeymoon to Detroit and will make their home on Adams street, Plymouth.

OVER THE FIELDS AND FARTHER AWAY

For years, farm families have wanted to be able to call nearby towns where they deal and have friends—without paying toll charges. Michigan Bell's "extended area service" is designed to eliminate toll charges between certain towns which have developed a natural community of interest. Nearly 500,000 Michigan Bell customers in some 160 exchanges now enjoy this new service, and it's being extended to more areas every month.

THIS LITTLE PIGGY WENT TO MARKET

And the chances are, he was assisted in his journey by the telephone. For farmers find the telephone invaluable in checking the market, selling and ordering supplies. Every day the telephone saves valuable time that can be profitably devoted to the farm. Yet with all the help it gives... with all the comfort and convenience it brings... a telephone costs less than a half gallon of gasoline a day.

THE WORLD'S FAR CORNERS... IN YOUR HOME

If you were to visit the countries that provide all the materials that go into the various parts of your telephone, you'd be a world traveler. India for mica. Mexico for lead antimony. Brazil for caruba wax from palm leaves. Western Electric, the manufacturing and supply unit of the Bell System, searches the far corners of the world for materials to give you the best possible telephone equipment and service.

GIRL SCOUT TROOP 7
Thursday, March 16 at 3:30 Mrs. V. G. Chabut of Sheldon Road will entertain Girl Scout Troop No. 7 at a tea.

Mrs. W. L. Howard gave us pointers on what to do and what not to do at a tea at our meeting Monday. We are working on hostess badges which is part of our training.

We were each given a picture of a Girl Guide from another country, from which we will make a poster to display on special occasions.

BROWNIE SCOUT TROOP 3

We held our Brownie meeting March 7, 1950. We made noodle-plans. First we took wooden spoons and took off the handles. We then took the noodles that were shaped like letters and spelled out our names. Then we painted the spoon handles different colors. After that we glued our names on them and left them to dry. The last thing we did was to glue the pin on the back.

COMMENT
FROM
CONGRESSMAN
GEORGE A. DONDERO

Government spenders in and out of Congress have been using a highly effective game to counter the demands from the folks back home for reduced federal spending and a balanced budget. The spenders have been pointing out that 71 per cent of the federal budget is for wars past and prospective. They cite the \$135 billion national defense item, the \$6.1 billion for services and benefits to veterans, \$4.7 billion for foreign aid, and \$5.6 billion for interest on the national debt — \$29.0 billion all told, or 71 per cent of the \$42.5 billion asked by the President.

This 71 per cent, they assert, is "untouchable." Do you want to cripple national defense, they ask, or abolish services to our veterans, or default on the national debt? And the remaining 29 per cent, they point out, is largely budgeted for public health, social welfare, agriculture, labor, natural resources, etc. Are you prepared, they ask, to say where and by how much these items should be reduced? Most people are taken aback by such an assault. They have no answer ready. But there is an answer. As a matter of fact, only \$9.4 billion, or 22 per cent of the budget, represents fixed charges that are not subject to reduction by Congress.

Here is how the federal tax dollar is spent: National defense, 32 cents; interest on public debt, 13 cents; veterans services, 15 cents; international aid programs, 11 cents; social welfare, health, security programs, 6 cents; and direct government costs, such as salaries of federal employees, 23 cents.

Thus in actuality \$33.1 billion, 78 cents of each tax dollar, or 78 per cent, of the \$42.5 billion budget is directly subject to reduction by Congress, through cuts in appropriations and revision of existing laws which call for needless and duplicating outlays of government funds. It is to be hoped, and I believe it will happen, that some substantial reduction will be made by the present Congress, especially if the plan for a single, over-all appropriation bill is carried out. This,

too, with no reductions in national defense or essential government services.

Here is the way Social Security works: Workers covered by the Social Security Act pay Social Security taxes; so do the corporations and individuals who employ them. But the employers include their Social Security taxes in the prices of the goods or services they sell. So everybody who consumes anything joins in paying one-half of Social Security taxes. Only workers who are covered by the Act benefit, partly at the expense of workers who are not covered, and of employers who are also consumers. Employers are a small minority.

Workers who continue working after age 65, under the present law, have to go on contributing their Social Security taxes so long as they continue to work and earn. Republicans in the House have introduced legislation to relieve workers after 65 from further payment of Social Security taxes.

It would seem natural to suggest that employers should not be permitted to pass their Social Security taxes along in the form of higher prices. But taxes are a part of the cost of production, and if the employers were unable to pass taxes along, in the end they would be forced out of business. Then there would be a vast reduction in the number of available jobs. Everybody would suffer.

Always Looking To The Future

Sound planning which aims to provide increased benefits for all whom it serves—members and the public alike—is the life blood of a virile farm cooperative.

By strict adherence to a policy of always serving the greatest number to the best purpose, the Michigan Milk Producers Association has thrived and grown steadily throughout its entire 33 years.

Since the close of World War II, members of the M.M.P.A. supplying the Detroit market have ploughed back over \$685,000 in expansion and improvement of their plant and transportation facilities.

At this time, about a half million dollars are being invested in the modernization of the association-owned receiving station and manufacturing plant at Inlay City. This will provide added "stand-by" facilities to insure members against loss of revenue during seasons of highest milk production.

To constantly provide the great Detroit market with high quality milk from day to day and plan for the future to maintain an ample supply at all times, under all conditions, are primary objectives of this farmer owned and controlled cooperative.

MICHIGAN MIRROR

NON-PARTISAN NEWS LETTER

Inducing new industries to locate in Michigan small towns is not a push-button affair.

Decentralization of industry whereby workers may work part-time in a small factory and then part-time on a small plot of ground is more of an illusion than a reality.

These points were among a number of interesting facts brought out at a panel program sponsored by the Michigan Press Association as a service for member newspapers which serve small rural communities.

The program was stimulated by interest shown in the series of the "Michigan Mirror" newsletters last August and September on the subject of community development and new industries for Michigan small towns.

To bring the matter to a sharp focus for consideration of newspaper editors, the state press association invited three experts to participate on a panel program.

C. Dwight Wood, Michigan Department of Economic Development, emphasized the need for self-help in the inventory whereby the town took inventory of its resources and potentials. Mr. Wood declared that "one of the best ways in which a community can get in touch with industrial prospects" was for the community to make a survey of the services which were available in the community for various industries. If suitable sites are available and other factors are favorable, the community can then list these available resources with the Michigan Department of Economic Development. The state department compiles a monthly bulletin which is distributed to officials of industries which have indicated a desire to migrate to smaller towns or to open branches elsewhere.

Professor H. O. Whittemore, head of the Department of Landscape Architecture, University of

Michigan, emphasized the need for available land, preferably adjacent to railroad facilities, which could be readily utilized for industrial use and also for future expansion.

Because of the need for parking of workers automobiles as well as truck shipping, storage, and the trend to a one-story factory building, the average number of square feet of space per industrial worker has jumped from about 150 feet in building floor space to around 1500 or 1600 square feet per worker.

Professor Whittemore believes firmly that the ideal factory area should be within the city limits and hence that availability of such land for industry becomes an essential function of the community in planning for future industrial development.

He pointed out that a recent decision of the Supreme Court held it was unconstitutional for a municipality to condemn land which was to be turned over to a private industrial concern for private use.

In that connection Mr. Wood, Michigan Department of Economic Development, pointed out that a number of Michigan rural communities have formed corporations to purchase industrial land which is re-sold to industry at a fair price.

"We have put out a guide for helping communities to form such corporations, and many Michigan communities are in the process of doing that now," said Mr. Wood.

Dean Ernest L. Anthony, School of Agriculture, Michigan State College, referred to a college survey of approximately 25,000 industrial workers who lived on small farm plots and who presumably worked in city industries.

In the past the idea of decentralization of industry whereby workers could perform part-time farming on home plots while working part-time in city industries had a popular vogue. The MSC survey, however, revealed that a majority of those workers were making "very poor use of the fact that they lived in the country."

"Today we must realize that agriculture is a business," said Dean Anthony. "It is a scientific and mechanical business. The man who pays much attention to farming has to farm as if he really meant to farm. It is not something, just a little on the side, that he can putter around with."

It is the observation of Dean Anthony that the present industrial pattern of labor used on swing-shifts does not encourage part-time farmers in rural communities. Dean Anthony favored the encouragement of agricultural processing plants, such as cooperative creameries, milk plants, and other food concerns, which might develop in smaller communities.

"Too many of our communities have forgotten their farmers and the farm possibilities that are right around that community in which they live," observed Dean Anthony. "I would like to see town and country get a lot closer together than they are now."

The writer of this column has traveled considerably about Michigan. An inevitable observation is the growth of some small communities, while neighboring towns languish and steadily decline. Community development is not a matter of overnight success. It calls for an awakened civic spirit and a consistent co-operation of citizens in movements to better the community, making the town a better place in which to live and work.

It is significant to note that Michigan already has services available in the Michigan Department of Economic Development, the University of Michigan and Michigan State College whereby communities can obtain assistance in helping themselves to progressive development. The towns which are making an effort to improve themselves are thus the communities which are more apt to attract new industries.

7th, 8th Graders Score Cage Wins

The Optimist club Recreation committee sponsored Seventh and Eighth grade teams both registered wins over teams from South Lyon last Monday night. The Eighth won 29-11 to ring up their ninth triumph of the season. The Seventh scored an identical number of points to clip South Lyon 29-24.

The Seventh and Eighth were scheduled to play Southfield Township school last Tuesday. The Eighth has Inkster on the docket today.

The Seventh and Eighth games scheduled against Inkster and Ferndale Carver last week were both postponed. The Inkster team had a schedule conflict and Ferndale Carver cancelled activities because of the coal shortage.

Football Players at U-M Show Fine Scholastic Record

Michigan's 1949 Western Conference co-championship football team—like its champion predecessors of 1947 and 1948—again has proved that athletes can be as talented in the classroom as on the gridiron.

A fall semester grade survey released by H. O. Crisler, director of athletics, revealed that the 38 lettermen on last fall's grid squad earned a 2.75 scholastic average, well above the student level.

The group carried a total of 551 classroom hours, earning 94 hours of "A," 253 hours of "B," and 182 hours of "C" work. Only 21 hours were below the required "C" average. The athletes earned 1,518 honor points during the pressure of a nine-game championship campaign.

That the boys carried no "soft courses" is shown by the fact that of the 38-man squad, 16 were in the Literature, Science and Arts College; 10 were in the education; six in engineering, three carried medical courses, two were in business administration and one in architecture.

Basketball NEWS

Coaches are forever racking their brains to find winning combinations for their sports squads. They make alterations and additions. They make frequent changes in style, personnel, in offense and defense. But one thing they can't change is June graduation.

Coach Harry Smith now has the privilege of standing by and watching his Mustang cage squad melt away. Of the 13 members of this year's group, nine will be graduated in June. Dick Gray is the only surviving member of the regularly starting group. The Mustangs lose Howard Atwood, Dick Coolman, Gerry Heaton, Ron Jennings, Bud Porter, John Poulos, Dick Robinson and Norm Rody this year. That leaves Bob Cole, Dick Gray, Bob Prom and Tom Shrake as potentials for next season.

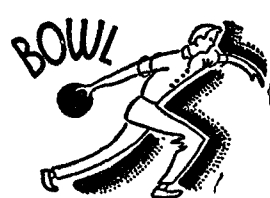

Chief source of replacements will be Coach Dick Kay's Colt squad. There are several members who show signs of shaping up into varsity material. Another possible source of varsity players, but one not to be counted on, is the school itself. Every so often a player is discovered who had never before made a bid for a varsity berth.

Girl Scouts Observe Thirty-Eighth Anniversary

Girl Scouts the world over reserve the week of March 15 as a time of tribute to the founder of Girl Scouting in the United States by designating it as Juliette Low Week. It also marks the 38th birthday of Girl Scouting in America.

The early history of Girl Scouting in our country is a thrilling story of how one woman's tireless efforts, energy and enthusiasm conquered discouragements so that the girls of this country might have the joys and benefits of Girl Scouting. The program has now assumed international proportions and the prestige of the organization is world wide. A Juliette Low Memorial Fund was established a few months after her death in 1927. Money from this fund has been used to promote one of Mrs. Low's dearest hopes, the establishment of an international camp, where girls from all countries can live together in the interest of international friendship.

Seven years ago in the fall of 1943 the first Northville Girl Scout troop (Brownies) was organized under the leadership of Mrs. V. George Chabut. Earlier in the year Reverend and Mrs. Fredsell were hosts at a meeting which was composed of many villagers for the purpose of creating an association for the promotion of Girl Scouting in Northville. Mrs. A. M. Lawrence was elected the association's first president.

Today the active registration numbers 183 girls and 11 troops are represented. The program needs more adult volunteers to continue the work started and to expand the program to include all the girls who wish to enroll. Most of the troops still have waiting lists.

The Girl Scout program is dependent upon the town for its support. General operating expenses are obtained at an annual benefit and the individual troops maintain themselves in that weekly dues and special money making projects are the means of supporting individual troop programs.

Equipment, such as camping and handcraft equipment, is purchased by the Northville Council for the use of the girls and is held in a pool subject to the needs of the troops.

Highlights of what Girl Scouting means is seen in the activities represented in the ten program fields including arts and crafts, community life, health and safety, homemaking, international friendship, literature and dramatics, music and dancing, nature, out-of-doors (trips, hikes and cook-outs) and sports and games.

Married in Ann Arbor

Mrs. Jan Kier Bosch who was Kathleen Rinck before her marriage to Dr. Jan Kier Bosch at the Congregational Church in Ann Arbor Saturday.

Florida Honeymoon Follows Rinck-Bosch Ceremony

The Congregational Church in Ann Arbor last Saturday afternoon was the scene of the marriage of Kathleen Beverly Rinck of Base Line Road to Dr. Jan Kier Bosch of The Hague, Netherlands, and Ann Arbor.

Woodwordia fern, candelabra, bouquets of gladioli, tulips and stock filled the chancel. Organist Mary McCall Stubbs accompanied Fred Kendall of Plymouth who sang, "Oh Perfect Love" and "The Lord's Prayer." Rev. Christian Hussen of the Grand Rapids Christian Reformed Church, an uncle of the bride, read the double ring ceremony.

Given in marriage by her father, Kathleen wore an ivory skinner satin gown. The bodice of the gown was trimmed with silk marquette and seed pearls and the long sleeves ended in points over her wrists. A three-quarter length veil was caught to her head with a beaded cap and she carried a white Bible, a gift of the bridegroom, which was adorned with an orchid and stephanotis.

Mrs. William Gallup (Bonnie Rinck) of Ann Arbor, the bride's sister was matron of honor and Dorothy Brink of Evanston, Ill., a cousin of the bride was the bridesmaid. They wore identical gowns of turquoise satin under net. Mrs. Gallup's flowers were Briarcliff roses and white stock and Miss Brink carried a bouquet of American beauty roses and white stock.

Dr. Joseph Plekker of Grand Rapids was the best man and seating the guests were William Gallup, Dr. Peter DeVries and Dr. Burford Davis of Ann Arbor. For her daughter's wedding, Mrs. Rinck chose a toast color lace dinner dress, with toast accessories and green hat. She wore a corsage of carnations and iris.

A reception followed in the Henderson Room of the Michigan League. In the evening, a dinner for the wedding party and relatives was held.

The young couple then left for Florida where they will remain until April 1. Upon their return they will make their home in Ann Arbor where the bridegroom is a surgeon.

Kathleen is a graduate of Northville High school and received her Bachelor of Arts and Masters degrees in piano from the University of Michigan. She is affiliated with Sigma Alpha Iota, Phi Kappa Lambda and Phi Kappa Phi sororities and is the daughter of Mr. and Mrs. A. C. Rinck of Base Line Road.

Dr. Bosch is the son of Mrs. Jan Bosch and the late Mr. Bosch of Winsum, Netherlands. He is a graduate of Gronigen Medical School and received his Ph. D. in surgery from the University of Leyden Medical school. He served as clinic chief in the department of general surgery at City Hospital in the Hague in 1946 and 1947. At present he is studying thoracic surgery at the University of Michigan where he received his Masters degree in surgery.

Guests were present at the wedding from Northville, Plymouth, Royal Oak, Hudson, Flint, Ann Arbor, Grand Rapids, Evanston, Ill. and the bridegroom's uncle flew from the Hague, Netherlands to be present at the ceremony.

Remember the Boy Scout paper pick-up on Saturday, April 1.

BROWNIE TROOP NO. 4

Brownie Troop No. 4 met Tuesday afternoon, March 7th for their weekly meeting. A short business meeting was held, with the president, Judy Robinson in charge, Margaret Witt gave the secretary's report. Mrs. Sutherland announced that the Mother's Club, who are sponsoring Troop No. 4, had invited the girls to be their guests in the near future. We are going to do the Brownie Play for them.

The remainder of the time was spent working on the scrap books which were started last week. While working we nibbled on some cookies.

Jackie Ely, Ruth Ann Clarke and Sally Lemke were absent. We hope they can join with us again soon.

Ardyce Atwood, Scribe.
