## Many Scholarships Available To Northville High Seniors

Graduating seniors from the Northville High school have a number of very fine chances to continue their education at various colleges and universities throughout the United States through the aid of scholarships. Several local clubs and organizations as well as many educational institutions have made available sums of money to pupils who are in need of extra help to continue their education.

In principle, most scholarships insist on the following qualifications for those pupils who are making application: intellectual ability, scholarship, integrity, leadership ability, social attitudes, emotional control, popularity, and financial need. Pupils interested in applying for them are urged to contact Principal Elroy V. Ellison immediately who can supply additional information and also assist the pupil in filling out the necessary blanks. Parents are encouraged to speak to Mr. Ellison if they have any question concerning the scholarships.

In addition to the scholarships, the Rotary Club, Blue Lodge of the Masonic Order, Methodist and Presbyterian churches also maintain student loan funds, to which a boy or girl may apply for financial aid. These groups will welcome any inquiries from parents or seniors as to the procedure required for filing for them.

Local groups this year that are awarding scholarships are as follows:

The Woman's Club scholarship, in the amount of \$100 to be given to a senior who has at least a B average for his junior and senior years. Application must be made in writing to the scholarship committee of which Mrs. Waldor Johnson is chairman, by May 1.

The Parent Teachers Association scholarship of \$75.00 is awarded annually to some person who is in need of financial assistance. The Exchange Club scholarship in the amount of \$75.00 goes yearly to a worthy pupil who possesses qualities of leadership and ability. The local University of Michigan Alumni group also helps pupils apply for the Alumni Regents scholarship which amounts to tuition to the University for a year. If at the end of the year, the pupil has maintained a satisfactory average, the scholarship is renewable for all four years of undergraduate work.

Tuition and matriculation scholarships are being offered by the following colleges and universities: Wayne University, Detroit; engineering scholarships for Lawrence Institute of Technology, Detroit; College of Mines at Houghton, Mich.; Milwaukee School of Engineering, Milwaukee, Wisconsin; Downer College, Milwaukee, Wisconsin; Colorado School of Mines; Stanford University, California; Frances Shimer College, Mt. Carroll, Ill.; Carleton College, Northfield, Minn.; DePaul University, Greenacres, Ind.; Northwestern University, Chicago and Evanston, Ill.; Seton College, Greensburg, Pa.

The list continues with University of Chicago, Chicago, Ill.; Grinnell College, Grinnell, Iowa; Hillsdale College, Hillsdale, Mich.; MacMurray College for Women, Jacksonville, Ill.; Kenyon College, Gambier, Ohio; Rollins College, Winter Park, Fla. (Continued on Back Page)

## Easter Seal Drive Now in Progress

This year's Easter Seal symbolizes the conquest of a handicap by a child and shows a small boy tossing away his crutches and starting to walk by himself, his face upturned and smiling. The boy is wearing shorts and turtle neck sweater against a foreground of medium magenta and a background of pastel green. It bears the slogan "Help Crippled Children" and the year "1950". The stamp is nearly an inch in height and a little more than 3/4 of an inch in width.

The Seal was designed by a Michigan high school boy, Ardy Kazarosian 17, of Detroit, and was selected in a nation wide competition sponsored by the National Society for Crippled Children and its 2,000 affiliated societies.

Most of the Easter Seal letters were delivered last week, carrying the message of the society asking support of its services to our 1300 handicapped children in the Wayne Out County area.

The campaign for funds will continue through until Easter Sunday, with a goal of \$12,000.00 to be reached in that time, according to Lynn Sullivan Easter Seal Drive Chairman of Northville.

"Let's not deny a single crippled child the full benefits of professional care so that he may have the happy life that is the birthright of every child", was the appeal of Lynn Sullivan, Campaign Chairman. "Let's give and give generously so that we may not only maintain our present services but expand them to care for all of the crippled who have need of them and add other services just as badly needed."

"To serve so many crippled adequately is a very costly undertaking for only the most expert and carefully trained professional personnel can attempt to do remedial or rehabilitation work for the handicapped. We must see that we raise funds for that work during the Easter Seal Drive."

Fred is the son of Mr. and Mrs. Frederick Bernhardt of Nine Mile Road. He attended Chapman School on Nine Mile Road during his grade school years. He took part in the Junior Play, worked on the Senior Prom, is helping prepare the yearbook, Palladium, was a member of the Latin Club, served as health officer of the Student Council and is a member of the track team.

## MICHIGAN MIRROR

### NON-PARTISAN NEWS LETTER

The Michigan State Legislature now in Special Session at Lansing has a hot political potato in its collective lap.

With present revenues in sight totaling \$230 million Governor Williams has proposed that the Legislature authorize expenditures of \$340 million for the coming fiscal year, 1950-51.

Simple arithmetic indicates that a deficit of \$110 millions would be inevitable unless the state Legislature was to turn to new taxation.

Here Governor Williams produces the figurative rabbit out of the hat by suggesting that the legislature re-consider the state corporations profits tax to be paid largely by industry.

From the Republican point of view, the Governor's message to the Legislature consisted 99 percent of "politics". Williams is running for re-election, and he seeks to put the Republican Legislature in a tactical position of producing a "do-nothing" record for the 1950 Special Session.

As the Republican leaders bottled up the Corporation Profit Tax in committee during the 1949 General Session, there is little likelihood that the Legislature will reverse its position in 1950 which is a political campaign year.

While Governor Williams may try to put the Republicans on the defensive by attacking the "reactionary" attitude with regard to expanding social needs, the legislative fireworks following the message fully indicated that the Governor himself would be under heavy fire for having proposed a 47.8 percent increase in state spending.

It is interesting to note that the Governor advocates an increase

of only \$4.6 millions for operating state departments, of which \$2.5 would go to colleges, while he advocates new state aid to home governments in the sum of \$25 millions.

Of the \$340 million total in legislative appropriations, as recommended by the Governor, \$135 million would go to state agencies including colleges, \$158.3 million to local governments, \$27.9 million for capital outlay, and \$18.7 million for construction for new roads.

Like the bag of Santa Claus on Christmas eve, the spending program of Governor Williams has something on tap for nearly everyone. Improvement of local airports is proposed whereby the state could qualify for federal aid and engage in a \$7 million airport improvement program. 36 airports in 34 communities would be benefitted.

In the Governor's budget for \$25 additional millions for state aid to local governments, \$5 millions would go to public schools under the sales tax diversion amendment. Under the ruling of the Supreme Court, the state would contribute \$9 millions additionally to the public school employee's retirement system. Old age assistance and aid to dependent children would account for an additional \$8.7 millions.

Out of the net increase of \$4.6 millions for state agencies, \$2.5 millions would go to colleges to supplant declining revenue from GI students; \$929 thousand for mental health.

Declaring that Michigan had not kept pace with social needs as indicated by our expanding population, the Governor proposed \$27.9 millions to construct new buildings at institutions such as mental hospitals. Wayne University, University of Michigan, Michigan State College and Western Michigan College of Education. A 50-bed addition would be constructed to the Michigan Tuberculosis Sanatorium at Gaylord, and other construction undertaken for a total of \$650 thousand.

Declaring that "our whole

economy is being hampered by the lack of adequate trunk highways", Gov. Williams advocated that the Legislature spend \$18.6 additional millions for road repair and construction. These improvements would be financed from the general fund to be covered by the corporations profits tax along with other needs.

Governor Williams took the position that a corporations profits tax would not be paid indirectly by the consumers, despite assertions of Michigan automobile manufacturers that approximately 50 percent of the cost of a 1950-made automobile consists of direct, and indirect taxes.

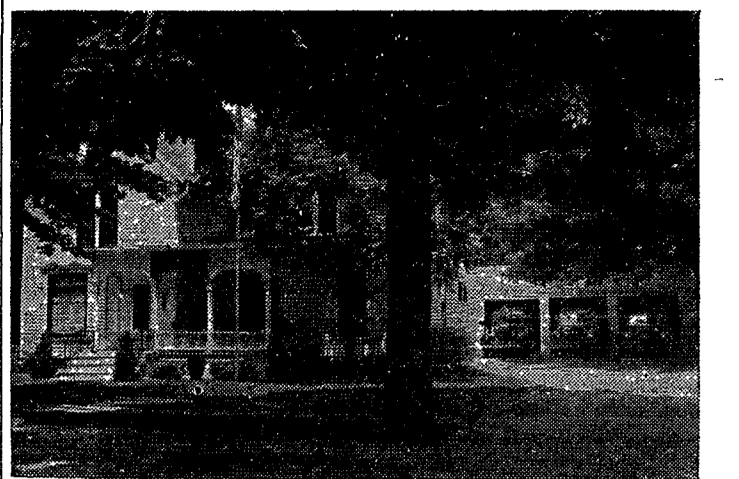

Within 60 days the issues of the 1950 campaign should be well crystallized.

Dismantled sawmills have left a small sawdust mountain, 1000 feet long, 600 feet wide, and 100 feet deep in Cheboygan, Michigan.

Cottagers near Klinger Lake in St. Joseph County, Michigan, can "strike water" anytime by just thrusting a pipe into the ground.

Just as soon as we get rid of one tiresome situation, we get lonely and set the stage for another.

## Wall Paper — The Magic Touch

Chicago Tribune Prize Homes Photo

Wall paper provides a striking background in this dual purpose room. By day it is an attractive living room. After dark it provides ample sleeping quarters for unexpected guests. This same arrangement can be applied to a bedroom, den, or a one-room apartment.

In contrast to the monotone tailored couches, a bold patterned paper with one of the new dark ground colors, adds spark and variety. Whatever the setting, there are many exciting wall papers that will show it off to advantage. April is Wall Paper Style Month, so get on the bandwagon and select the paper of your choice.

## Child's Recreation Need Not Be Costly

Community recreation centers or nursery schools could use to advantage an idea from Shirley Newsum of the Michigan State College nursery school staff. She observed it in action at the Museum of Modern Art in New York City as a Christmas vacation enterprise.

Art activities appeal to children of all ages and are as easy to provide in your town as in New York. Simple easels may be merely sizeable squares of plywood or wallboard tilted against the wall on a shelf of convenient height with a box or trough to hold paints and brushes. Even this simple equipment would not be necessary, as most children over five can manage quite well on large pieces of paper spread on a low table or on the floor. At one table the New York children combined bits of fabric, paper, cardboard and feathers

dozen ladies participated and practically all came wearing the green. Green decorations made the table most attractive. Music with Mrs. Gordon Vance at the piano, added to the pleasure of the occasion.

The Sandaus of Hubbard Ave. have all recovered from a round of flu. Mrs. Sandau was quite ill for a few days.

Livonia Methodists held their annual Father and Son Banquet Friday evening. Weather conditions did not greatly interfere with the success of the affair.

During the recent coal crisis, not yet entirely over, Gov. Williams placed Livonia on the emergency list and a large quantity of coal was secured for distribution to those in need. It was sold by the bushel at the town hall. However, demand was not so great as had been anticipated. Some were able to secure left over coal from persons who had turned over to oil or gas. Many found it possible to obtain fire-wood.

For the convenience of West Point Park residents, Northville Record newspapers are now on sale at Mason's Market, Farmington near Seven Mile Road.

## St. John's To Give Cantata April 2

The choir of St. John's Episcopal Church, Harvey and Maple Streets, Plymouth, is going to present John Stainer's "The Crucifixion" on Palm Sunday evening, April 2, at 8:00 p. m. in the church.

"The Crucifixion" is described as "a meditation on the sacred passion of the Redeemer." It is written for two solo voices, and in this performance Ross Whitehead of Northville will be the bass soloist and Ernest Williams of Plymouth will sing the tenor. The choir, somewhat augmented for the occasion will be under the direction of George Alexander Miller, and the organist is Miss Harriett Wilson.

The "Crucifixion" is one of the best-known of the cantatas for the passion season, and certainly one of the best loved. St. John's Choir, while small, is a capable organization, and the performance will without question be most worthwhile. The public is cordially invited to attend this performance at 8:00 p. m., Sunday, April 2, at St. John's Episcopal Church, Plymouth.

## Miscellaneous Shower Honors June Bride-Elect

Grace Bird, a June bride-elect of William J. Light of West Main Street, was honored at a miscellaneous bridal shower last Tuesday evening. The party was given by Grace's aunt, Mrs. Frank Wisniewski at her home in Detroit.

## BROWNIE TROOP NO. 1

We had our regular weekly meeting Monday, March 13. Because the bird house exhibit was in the Grade school lunch room, we had our meeting in Miss Pollock's kindergarten room.

We had roll call and then the dues were taken. Two of the girls received their one year pins. Then we had a ceremony in which we all got our world pins. The girls pinned them on one another and gave the Brownie salute and hand clasp.

After that we sang songs and played games that Girl Scouts all over the world sing and play. Some of countries' songs were Norway, Sweden, Denmark, Germany, France and Turkey.

Then we played a game called "scrambled anatomy." Then we sang taps and the meeting was over.

Lou Ann Comer, Scribe.

## BROWNIE TROOP NO. 2

At our meeting on March 14, we had Girl Scout cookies. We colored pictures of Brownie uniforms in other countries.

We put our birthday pennies in a Girl Scout bank for the Juliette Low fund.

Barbara Ann Rollings, Scribe.

## BROWNIE SCOUT TROOP No. 3

We had our Brownie meeting at the home of Mrs. Vogtlin. Mrs. Ethel Pohl, a registered nurse, told us how to fix sick trays and how to fix the sheets on the bed as they do in the hospital. Then she showed us how to change the sheets of a bed without taking the patient out. Then she showed us how to fix an orange like a sunflower.

We wish to thank Mrs. Pohl very much for her trouble.

Rebecca Coolman, Scribe.

## GIRL SCOUT TROOP 6

Girl Scout Troop 6 met Friday, March 17. The meeting was called to order by the president, Gail Blackburn. We talked about a badge to work on as a troop.

We had a discussion and brought up the subject of how to run the next meeting. After deciding on all the ideas we are going to have everyone do a skit by themselves or in small groups. Barbara Jean Campbell, Scribe.

## Prize Winning Play Coming to Cass

"Death of a Salesman," the most highly acclaimed drama of our generation, opens a one-week return engagement on Monday evening, April 3, at the Cass Theatre with Thomas Mitchell, veteran stage and screen star, continuing in the role of Willy Loman, the star-crossed traveling salesman. It will play Wednesday and Saturday matinees at the Cass.

The Arthur Miller play has created theatrical history since its New York opening in February, 1949. It won not only the Pulitzer Prize and the New York Drama Critics Award, but more than a dozen other citations, prizes and honors. It has been glowingly received in such foreign capitals as London (with Paul Muni starred), Stockholm, Prague, Paris and Rome. The first play ever to be distributed by the Book of the Month Club, it is a best-seller in book stores throughout the country.

Prior to his return to the legitimate theatres as Willy Loman in "Death of a Salesman," Mr. Mitchell had devoted the greater part of the past twenty years to acting before the Hollywood cameras. Film enthusiasts will recall him as Gerald O'Hara in "Gone with the Wind," as the renegade doctor in "Stage Coach," for which he won an Academy Award, and in such other distinguished pictures as "Lost Horizons," "The Long Voyage Home," "The Keys of the Kingdom," "Wilson" and "The Romance of Rosy Ridge."

June Walker, one of the theatre's most distinguished actresses, plays his wife, and other members of the company which Detroit cheered last fall are Paul Langton, Paul Ford, Royal Beal, Darren McGavin, John Buckwalter, Michael Stanley, Carmen Costi, Joan Stanley, Nancy Cushman and Duncan Baldwin. Jean McBride and Linda King are recent additions to the cast.

Harold Curman directed the national company. Settings are by Jo Mielziner, costumes by Julia Sze and incidental music by Alex North.

## Program Planned for Expectant Parents

A third series of programs for expectant parents will be held this year, the Wayne County Chapter of the Michigan Society for Mental Hygiene announced recently.

Leading physicians from Detroit act as instructors and discussion leaders. Several films and a style show will be featured at some of the meetings. Some of the topics to be discussed are: "What Happens to the Baby During Pregnancy," "How Couples Feel About Pregnancy" and "Emotional Needs of Infants." We take great pains to plan these departments so that all dairy products are assembled at one convenient spot.

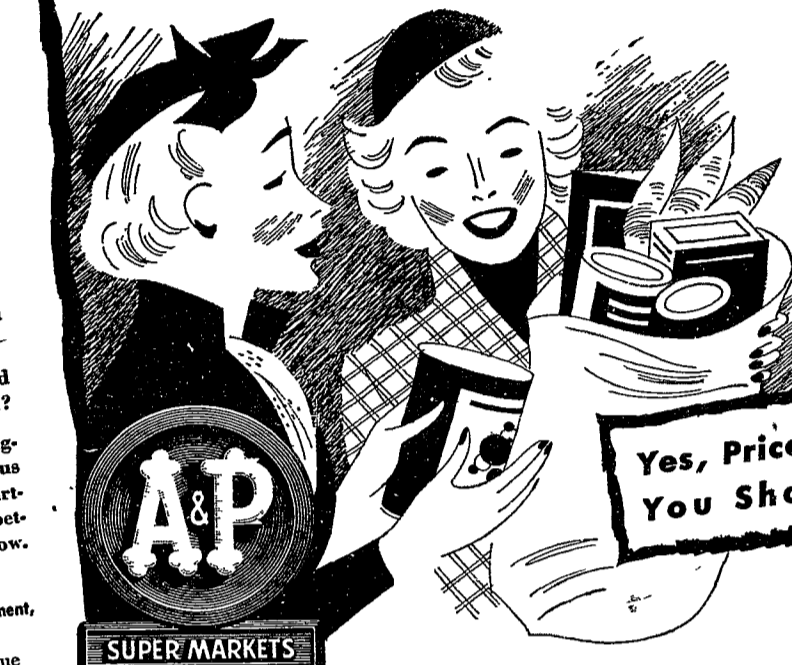

Do we carry the varieties you prefer?

Are these products cut in the sizes you most frequently use?

Are they packaged the way you like them?

If you have any suggestions that will help us improve our dairy departments and serve you better, please let us know.

## Northville Board of Education Minutes

March 10, 1950

The regular meeting of the Northville Board of Education was held in the board room on March 10, 1950.

Present: G. H. Stalker, E. F. Clark, H. I. Atwood, R. F. Coolman and R. H. Amerman. Absent: Dr. R. M. Atchison. Guests: E. V. Ellison and E. M. Smith.

The minutes of the last regular and the special meetings of February 15 and March 7 were read and approved.

Communications were read as follows: F. C. Fischer reporting the release of the third payment of sales tax receipts in the amount of \$4623.00; Oakland County Board of Education reporting the collection of delinquent taxes in December, \$42.50 and in January \$56.09; Treasury Department, Washington, D. C., requesting the filing of an affidavit of Tax Exemption for the Northville School Bond.

Principal Ellison and Supt. Amerman presented the details of a proposed new activity league to sponsor such events as athletics, band, chorus, forensics, student council, assembly programs, etc. The league charter members would be Holly, Milford, Clarenceville, Clarkston, Northville and possible Oxford. The board approved this plan.

Mr. Ellison also gave a report on his recent conferences with the freshmen at the various colleges and then discussed some of the problems and activities of the high school English department.

Treasurer Coolman reported balances as follows: Received since last meeting \$30,233.45

Balance in General Fund \$28,783.70

Balance in Debt Retirement Fund \$14.48

Balance in 1949 Debt Retirement Fund \$19,750.00

It was moved by Atwood and seconded by Clark that the report of the treasurer be accepted. Carried.

Moved by Clark and seconded by Coolman that bills in the amount of \$2,233.56 and payrolls totaling \$14,788.52 be paid. Carried.

Mr. Eberle M. Smith presented several possible changes in the plans for the building addition which are to be considered at a special meeting with the architect and bidders on March 15 at 8:00 p. m.

Howard I. Atwood Secretary.

## "Cheap Chicks" May Prove To Be Costly

You can't buy "cheap" chicks and be assured of any breeding back of them, says Howard C. Zindel, Michigan State College extension poultryman.

Price is not important, Zindel thinks, if you pay only for what you get. Chicks with good breeding quality behind them need scarcely cost more than "average, run-of-the-mill" chicks.

The farmer's guarantee of getting quality is buying from reliable hatcheries that back up their guarantees.

Last year Michigan hatcherymen, operating under the National Poultry Improvement plan, sold more than a million chicks and the livability returns at two-weeks of age showed nearly 98 percent.

## UNCLE SNOOPY

## This Is the Year That Uncle Sam Conducts His Great Quiz Program

**THE LONG, SNOOPING NOSE** of Uncle Sam will overshadow the nation, beginning April 1. That's the date the government's host of census takers begins its round with portfolios bulging with questions designed to ferret out data pertaining to your family and each individual in it.

The bureau of census is the main interrogatory and fact-finding agency of the federal government, and if you think you've answered questions on income tax blanks and other forms, just wait until Mr. Census Taker grills you. Uncle Sam has saved up all the best ones for this survey.

The bureau likes to erect tall columns of statistics by converting your racial, sexual, economic and

social characteristics into round figures therein. Most of the questions you are required to answer. And you can't throw Uncle Sam's querist out the front door as you might a Kinsey investigator. But don't worry—Uncle Sam's examiners aren't as thorough as Dr. Kinsey's.

## Sets Population Basis

Census taking was established by the Constitution. Its purpose was to determine the population basis for apportioning representatives and direct taxes among the states. Population shifts cannot change the total number of representatives, but they can change the number of representatives allotted each state based

## Safety Shield May End Power Line Accidents

It is beginning to appear that the end of power line accidents may be approaching faster than anyone believed, for manufacturers of farm equipment are now producing power line safety shields that cannot be removed when the shaft is in operation.

These shields may be opened for servicing and inspection of the power shaft, but they cannot be removed unless the operator goes to work on them with a blowtorch or a chisel—and nobody expects that to happen.

For many years the manufacturers of farm machinery have been providing shields for power lines, but many farmers have failed to keep the standard shield in place despite the fact that rapidly-revolving power take-off shafts are a never-present hazard.

## Top Hereford

**Herschel's Pride**, 1,190-pound Hereford which was named grand champion steer of the American Royal Livestock Show in Kansas City, with the lad who bred him, 19-year old Bob McKinley, of Dale, Oklahoma, and McKinley's 17-year old fiancée, Mournie Johnston.

## Fertilizer Shortage Seen As Imminent This Spring

Farmers cannot buy all the fertilizer they want when they want it during the coming spring, according to H. J. L'Hote, supervisor of the Missouri fertilizer inspection service.

He explained that the fertilizer industry is geared to furnish farmers as much fertilizer as they want for the 1950 crops if they fill their needs early. Industry has run out of storage space early.

## Superphosphate Will Help Add to Manure Properties

Adding superphosphate to manure not only increases its plant food balance, but helps it hold valuable nitrogen that otherwise might be lost, according to Prof. C. J. Chapman, University of Wisconsin agronomist. He says it should be added before the manure is spread on the field.

The superphosphate can be put in the spreader at the rate of 20 to 25 pounds per load.

Common grass and brush fires too often turn into forest fires.

To the Supervisor of the Township of Redford, Wayne County, Michigan.

You are hereby notified that the Board of County Road Commissioners of the County of Wayne, Michigan, did, at a meeting of said Board held on the 2nd day of March, 1950, decide and determine that the certain alley described in the minutes of said Board, heretofore taken over as a County road, should be absolutely abandoned and discontinued as a public highway, reserving therein the easement set forth in said determination.

The portion of the minutes of said meeting fully describing said alley is attached hereto and made a part of the notice, which is given under and by virtue of Act 283 of the Public Acts of 1909 as amended.

In testimony whereof we have hereunto set our hands at Detroit, Michigan, this 9th day of March, A.D. 1950. **BOARD OF COUNTY ROAD COMMISSIONERS OF THE COUNTY OF WAYNE, MICHIGAN.** Michael J. O'Brien, Chairman John P. O'Hara, Vice-Chairman Charles L. Wilson, Commissioner Edgar M. Brannigan, Clerk By Carl W. Bischoff, Deputy Clerk.

**Road Jurisdiction Determination** Commissioner O'Hara moved the adoption of the following resolution, as amended: WHEREAS, this Board has received a petition from twenty-two freeholders of the Township of Redford to abandon and discontinue the 18-foot public way in the rear of Lots 269 to 271 and 318 to 330 both inclusive of Sheet No. 1 of Frickhorn's Grand-Dale Gardens, being a subdivision of part of Secs. 29, 31 and 32, T 1 S., R 10 E., Redford Township, Wayne County, Michigan, as recorded in Liber 59 of Plats, on Page 31, Wayne County Records, said alley being a County road under the jurisdiction of this Board; and

WHEREAS, pursuant to said petition and in accordance with the provisions of Section 18 of Chapter 28 of Act No. 283 of the Public Acts of the State of Michigan for the year 1909, and amendments thereto, this Board did, by resolution dated January 26, 1950, determine that a hearing be held on February 23, 1950, at 11:30 a.m., E.S.T., at 2800 Cadillac Tower, Detroit 26, Michigan, to determine the necessity or advisability of abandoning and discontinuing said alley; and

WHEREAS, pursuant to the above mentioned statute, this Board has served a notice of said hearing upon all of the owners and occupants of land intersected by or adjoining said alley and published a copy of said notice in The Michigan Courier, a newspaper published within the County of Wayne, on February 3, 1950; and

WHEREAS, a hearing was held at the time and place appointed by said resolution and this Board did then proceed to view the premises in accordance with the statute; and

WHEREAS, it appearing from said hearing and view of the premises that the public will have no further use for the alleys in said subdivision so petitioned to be abandoned and discontinued, but it is desirable to maintain therein a public utility easement for the use and benefit of the public; and

BE IT FURTHER RESOLVED, that this Board believes it to be to the best interests of the public that said alleys so abandoned and discontinued should be absolutely abandoned and discontinued as a public highway, reserving therein the easement as herein set forth. The motion was supported by Commissioner O'Brien, and carried by the following vote: Ayes, O'Brien, O'Hara, Nays, None. 41-43

Farmington—The City Commission approved the purchase of new pumps to be installed in the city wells in order that the new water de-rusting program can be continued.

Ithaca—With only one ticket appearing on the ballot in the four Gratiot villages, voting was extremely light. A few names were written in to replace the regular nominees but no concerted opposition developed in any community.

Garden City—A car driven by a Garden City housewife killed a county road worker instantly and she was also critically injured herself when her car crashed into the rear of a county highway truck.

Birmingham—Alarmed by assessed valuation increases on their property, ranging from ten to two and three hundred per cent, for the coming year, a number of local business men have formed an executive group to investigate the subject. Edwin Gage, 345 Berwyn, who is engaged in property management, is chairman.

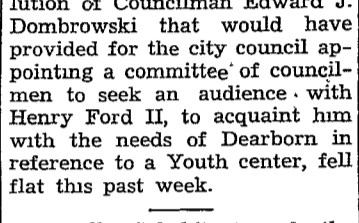

Dearborn—A proposed resolution of Councilman Edward J. Dombrowski that would have provided for the city council appointing a committee of councilmen to seek an audience with Henry Ford II, to acquaint him with the needs of Dearborn in reference to a Youth center, fell flat this past week.

Howell—Inhabitants of the Lansing Census District, composed of the city of Lansing and the counties of Ingham and Livingston, will have the opportunity to enumerate themselves during the 17th Decennial Census. Murray J. Kennedy of Pinckney, district assistant supervisor for the United States Bureau of the Census, has announced the names of those who will do the enumerating in Livingston county.

Wayne—Gar Wood's Wayne plant got underway again this past week after a long, 115-day strike. Acceptance by the union of the strike settlement when the company agreed to reinstate two discharged employees.

Chelsea—Approximately one-tenth of the qualified electors of Chelsea turned out to cast their ballots in the uncontested election for village offices and for the advisory vote on raising money for the improvement of the Pierce Memorial park site on South Main street. Only 118 votes were recorded. Of these, 67 were against the park site proposition, 49 were affirmative, and two ballots were blank.

Plymouth—Plymouth debaters have scored again, this time winning the state semi-finals held at Plymouth High school March 19.

Plymouth—The Plymouth Chamber of Commerce has launched its membership drive for 1950. Members of the membership committee have organized into teams and will solicit those who have not subscribed thus far this year.

Ithaca—All sales of alcoholic beverages in Gratiot county will stop from Saturday at midnight until 8 o'clock Monday morning if terms of a resolution adopted by the Gratiot County Board of Supervisors at their recent session are complied with. Action came at the request of Sheriff Clark Marr who stated that he would not recommend the renewal of any license in the county unless proprietors agreed to these terms.

Wayne—Plans for community-wide observance of Good Friday for the traditional three hours of 12 to 3 p. m. are being laid by members of the Wayne Ministerial Association this week.

**BROWN JUG CAMPAIGN OPENS**

Opening a statewide drive to raise funds for the first hospital for alcoholics in Michigan are Harry Henderson, left, president of the Michigan Alcoholic Rehabilitation Foundation and a member of the Liquor Control Commission, and Federal Judge Frank Picard, the Foundation's Vice-President. The LITTLE BROWN JUG collection canisters have been placed in retail liquor outlets throughout the state.

The Little Brown Jug Campaign, launched this week by The Michigan Alcoholic Rehabilitation Foundation, will give the people of Michigan an opportunity to "give the price of a drink for the victim of drink" and thereby establish a pilot hospital, where alcoholics can be helped on the road back to sobriety. Hope that the campaign will raise at least \$100,000, was expressed by the man who thought up the idea, Harry Henderson, foundation president and member of the State Liquor Control Commission.

Alcoholism ranks fourth as a problem illness, Henderson declared, and is no respecter of age, economic status or sex. There is a tremendous need for a hospital of the type contemplated by the foundation, he continued, as there are some 4,000,000 problem drinkers in the country, and of these about 750,000 are classified by medical scientists as "chronic alcoholics".

"The medical profession agrees," Mr. Henderson states, "that alcoholism is a disease that should have specialized treatment, and the Foundation plans to establish rehabilitation facilities for chronic excessive drinkers. We hope the pilot plant will point the way for a program the State of Michigan will eventually follow in dealing with this problem."

In the words of Mr. Henderson there is no reason why chronic alcoholics should be "forever untouchable". Experience of Alcoholics Anonymous and other organizations proves that a large percentage of these individuals can be rehabilitated. Addicts who have deteriorated to a skeleton of their former selves and who have descended to the lowest strata of society have been restored to complete usefulness under proper treatment and care.

The entire liquor and beverage industry is cooperating in the fund raising drive by placing "Little Brown Jug" canisters in all of the bars, taverns, and licensed outlets in the state. The movement has the support of industry trade associations and unions. An added feature of the campaign is a special recording of "The Little Brown Jug" that will be the hit tune of the month on juke boxes throughout the state.

Members of Alcoholics Anonymous hail this campaign the greatest single step to be taken in Michigan to combat this cursed affliction. They know from experience that the cure is made possible by breaking the cycle of compulsive drinking and reestablishing the individual - physically, mentally, and socially. Only a specialized hospital can hope to give this type of treatment.

Officers and trustees of the Foundation include, with Mr. Henderson, the Hon. Frank A. Picard, Judge, U. S. District Court; T. Allan Smith, Commonwealth Bank; Philip Neudeck, attorney; Charles Kendrick, realtor; Dr. Charles Kennedy, regent, University of Michigan; Judge Miles Culehan; and others.

Special contributions from individuals are being accepted at the Foundation headquarters, 936 Dime Bank Building, Detroit 26, Michigan. Checks or money orders should be made payable to Michigan Alcoholic Rehabilitation Foundation.

**Michigras Will Be Presented at U-M on Apr. 21 and 22**

Michigras, a combination of carnival and country fair, will be staged at the University of Michigan on Friday and Saturday, April 21 and 22.

Evening performances are scheduled from 7:00 p. m. to midnight both days with a "kiddies' matinee" included on Saturday afternoon. Michigras is sponsored every two years by the Michigan Union and the Women's Athletic Association.

Fifty-eight campus organizations, a new high in Michigras history, are cooperating with the sponsoring groups. Yost Field House will be converted into a huge booth-lined midway with at least ten mechanical rides in operation on adjacent Ferry Field.

Attendance at the 1948 Michigras reached 18,000, an indication of its popularity with both children and adults. The central committee in charge of the 1950 Michigras, with Janice Olivier, of Grosse Pointe, and William Peterson, of St. Louis, Mo., as co-chairman, has arranged a new feature for the big parade that will be staged Friday afternoon, April 21.

Leading the parade will be two children to be named Lil' Abner and Daisy Mae. They are to be chosen in a "kiddie, glamour" contest among the children of University students, personnel and the Ann Arbor area.

### 3 Day Hunting Clinic Set for Mar. 30-Apr. 1

State conservation department has completed plans for a three-day "hunting accident clinic" to be held at Haven Hill in the Highland recreation area near Pontiac, March 30-April 1.

Probing for a means of curbing game seasons' gunshot deaths and wounds, the clinic will draw top conservation men from major hunting states in the nation including New York, Pennsylvania, Illinois, Indiana, Wisconsin, Minnesota and the province of Ontario. Ohio has been invited but has yet to advise on her participation.

J. Donald Phillips, assistant

director of adult education for Michigan State College, has been named clinic chairman by Michigan conservation director P. J. Hoffmaster. Donald S. Leonard, state police commissioner and Dr. Gunnar Dybwad, psychologist for the state department of social welfare, will air other aspects of hunting accident prevention.

According to Farley F. Tubbs, Michigan conservation education chief, "the clinic committee is working on the theory most good will come to each participating state through the pooling of facts and sharing experiences. All states have carried on hunting safety programs and have investigated accidents in one way or another to determine and classify causes.

"However, it is not likely all states have conducted the same type of program or collected accident data in a comparable manner. From this sharing of experiences and facts we should get better ideas on what to do... and maybe equally important... what not to do or what to avoid."

Common names for adult burrowing mayflies are fish fly, Canadian soldier, June fly, cadis and Michigan caddies.

### Calkins, Huff Win Head Pin Tourney With Pair of 67's

Bob Calkins rolled a three-off-perfect 67 midway in the two week Head Pin tournament at Royal Recreation but had to settle for half of first prize money when Francis Huff matched his score last Saturday. Both keglers rolled five strikes, an eight and a nine on seven balls. The jackpot amounted to \$7.50 each. Al Feigel almost caught Calkins and Huff last Sunday, the last day of the tourney but his 66 was just a pine short. Calkins won the first tournament with a 57 on six balls.

Royal Rec sponsors a new tourney every two weeks, and will until the end of the bowling season. Present competition began Monday and will end Sunday, April 2. It is open to anyone at any time.

Twelve cents of each line goes into a jackpot, with winner taking all. Three cents of each line goes into a grand jackpot which will go to the first bowler to roll a perfect 70. If there is no winner at the end of the season, high score for the Head Pin season will take it.

The Seventh and Eighth grade teams were scheduled, against McKinley yesterday on the home floor. The Eighth will take on Ferndale Carver this afternoon at the NHS gym and make a return engagement at Carver Monday, March 27.

### Sportsmen's Show Will Feature Newest "Gadgets"

Hunters, anglers, campers and assorted outdoor enthusiasts are in for some surprises when the ninth annual Detroit Congress Sportsmen's Show and Detroit News Travel Show opens at 1:00 p. m. Saturday, March 25, for a nine day run at the Michigan State Fairgrounds Coliseum.

The exposition will have plenty to offer in the form of new equipment for all sorts of outdoor activity. The combined shows are under management and direction of Campbell-Fairbanks Expositions, Inc.

Anglers will have a wealth of new rods, reels, and assorted gadgets to attract them. Some of the manufacturers will have expert casters on hand to perform in the big tank in the center of the coliseum. Rods will be shown that have been fabricated from almost every possible element. Lures that have an angler as well as fish appeal will be on display in many of the booths.

New models in firearms, for both rifle and shotgun shooter, will provide an attraction for the hunter. So will the new designs in warm, light hunting and fishing clothing.

Highlighting the exposition will be the big stage and tank show. Three performances will be offered Saturdays and Sundays, while matinee and evening shows will be presented on weekdays. Headline acts include the spectacular Lottie Meyer's Disappearing Water Ballet; Sharkey, the seal; "Rodney", the wrestling alligator, and others. Chief Needahbeeh, a Passamaquoddy Indian, will be master of ceremonies.

### Suggestions Made for a Better Lawn

Seed inspectors of the Michigan Department of Agriculture report that most seed firms have continued to offer for sale lawn seed mixtures conforming to the grades and standards established by the department's regulations, which were recently suspended by the Legislative Rules Committee, according to Charles A. Stahl, State Seed Analyst. The suspended regulations required that all grass seed mixtures intended for lawn seed purposes be sold by grades and the grade so designated on the package. It also set minimum standards as to the quality of the grasses in the mixture, and minimum germination of the seed. The regulation was suspended because it was claimed that insufficient notice had been given of a public hearing required by law to be held by the Director of Agriculture prior to the promulgation of the regulation. However, in the absence of a regulation some low grade grass seed mixtures are being found on the market.

These low grade mixtures when planted usually make a fairly quick green cover encouraging the planter, but prove a disappointment when the green disappears rapidly as the season advances and the next year comes. The Michigan grading system has proved to be most satisfactory answer in protecting and guiding the public in distinguishing between good lawn seed and these temporary and inferior mixtures.

Anyone desiring a permanent lawn should look for Kentucky Blue Grass, Creeping Red Fescue, Cheeping Fescue, Rough Blue Grass and the Bent grasses, either straight or in mixtures. Rye Grass and Timothy should be avoided as they tend to crowd out the better grasses. Kentucky Blue Grass is the natural grass for Michigan climatic conditions.

## Thrifty!

Here Are the Many Ways TORIDHEET Saves Expense and Work—

● SAVES FUEL—Toridheet Rotary flame placement concentrated directly on the furnace or boiler wall at the grate line produces more heat energy from less fuel.

● SAVES WORK—No coal to shovel, no ashes to tote, no grate shaking, no daily basement sweeping, no basement stair climbing. All eliminated — permanently.

● SAVES HEALTH—Constant comfortable room warmth does away with the danger of chills resulting in colds and sinus trouble which often open the way for more serious illness.

● SAVES CLEANING—Not to mention the mess in the basement, you get rid of coal and ash dust which floats up into living quarters and soils walls, drapes, furniture and clothing.

● SAVES SPACE—No ash receptacles to clutter the basement. Use your coal bin as a storage locker—or tear it out completely to make livable useful room with the added space.

## Discovery of Oil

Oil was discovered in America hundreds of years ago, but it was not until 1859 that it became sufficiently useful and valuable for men to bore into the earth for it, according to National Patent Council. Earlier, pioneers drilling for salt were furious when they found the black, sticky fluid in their wells instead.

## New MSC Division To Group Studies in Conservation

Michigan State College will install a new Division of Conservation July 1 in the School of Agriculture, according to an announcement by Pres. John A. Hannah.

Research, teaching and extension activities in conservation, which have been scattered through several other departments, will be drawn together in the new division.

Prof. Paul A. Herbert, present forestry department head, will direct the division, which will include departments of conservation, fisheries and wildlife, forestry, and food utilization.

Pres. Hannah, in announcing the new division, said, "The State Board of Agriculture, in authorizing the new division, was motivated by the growing interest and importance of the conservation of our natural resources for the well-being of Michigan and the nation."

"Michigan State College has been giving instruction in forestry for more than 50 years and in wildlife management and soil conservation since their inception in this country," Pres. Hannah said. "The College also has been active in rural land planning, zoning, recreational and municipal forestry."

"Michigan State College has always recognized its responsibility to the people of Michigan as a land grant institution, not only to advance the agricultural use of land, but also to provide training and research in all uses of and services from our land and waters," Pres. Hannah said.

## Five Plays Planned for Drama Season

The Ann Arbor Drama Season will again present a series of five plays this spring, May 15 to June 17, at the Lydia Mendelssohn Theatre on the University of Michigan campus.

Revived last year to great acclaim, the Ann Arbor Drama Season has a long history of distinguished achievement. Founded in the 20's by Robert Henderson, New York actor and producer now in London, it was held each year until the war year of 1942. It has gained steadily in prominence and prestige throughout the country and has brought to Ann Arbor some of the finest actors from New York and the west coast. Its long series of presentations have ranged from classic by Shakespeare and other plays authors to those by the most modern in the contemporary theatre.

The aim of the season is to contribute to the entertainment and culture of the state. It is sponsored by a committee of public spirited members of the University of Michigan faculty and Ann Arbor business men. The University contingent includes Provost James P. Adams, Professor Clarence Baird, Dean Hayward Keniston, Professors Albert Markwardt and Herbert Kenyon, Dean Earl V. Moore, Mrs. James Prendergast, Eugene Power, Neil Staebler, and Roger L. Stevens representing the Ann Arbor community.

Following Mr. Henderson, the late Helen Arthur and Miss Agnes Morgan, New York producers, had charge of the 1938 and 1939 seasons. Since 1940, Valentine Windt, associate professor of Speech and director of dramatics at the University of Michigan, has been in charge. Mr. Windt will again direct the coming season.

The committee announces that it is planning to present a bill along the same lines as that of last year. The season opened with Ernest Truax in *AH WILDERNESS*. Other offerings were *AS YOU DESIRE ME* with the famous Italian actress, Marta Abba, *THE HEIRESS* with Basil Rathbone and Margaret Phillips, *NIGHT MUST FALL* with Lucille Watson and Donald Buka, and *TWELFTH NIGHT* with Arnold Moss, Frances Reid, and Carl Benton Reid.

*TWELFTH NIGHT* with Ann Arbor cast was taken to New York this fall where it enjoyed a six week's run at the Empire Theatre. It was given enthusiastic endorsement by such critics as Brooks Atkinson of the New York Times and John Mason Brown of the Saturday Review of Literature.

Among stars who have appeared with the Ann Arbor Drama Season in previous years were Ruth Chatterton, Diana Barrymore, Madge Evans, Cornel Wilde, Conrad Nagel, Florence Reed, Estelle Winwood, Jane Cowl, Whitford Kane, Ruth Gordon, Jose Ferrer, Mady Christians, Louis Calhern, Francis Lederer, and numerous others.

## CAN DO Solution for Two Household Problems

IF ALL THE housewives who have ever complained about rust on the shelf grates of their ovens were laid end to end, there would be few indeed left standing over a hot stove.

The truth is that rust in and on a cook stove is a common complaint, rendered doubly desperate by the fact that standard cleaning measures—soap and water, scouring powder and so on—do not help a whole lot.

But take heart, ladies. Here is a way to get your rusty stove cleaned with a minimum of effort. Some of you may already be familiar with it:

Wet a cloth with plain water and wring it out thoroughly. Then saturate the cloth with common

household ammonia. Place it in the oven, close the door tightly and leave the cloth in overnight. Repeat this process for the broiler.

For the burners, extinguish the pilot flame and cover the burners and adjacent areas with damp cloths saturated with ammonia. If the range has a table top, close it.

Do not wring out the ammonia from the cloths.

Next morning—and this may astonish you—you will find that there is no odor whatever in the stove. More than that, the rust and soil will literally wipe off, although you might want to go to a little more trouble and finish up with scouring powder and steel wool.

WHILE we're in the house giving bright hints to the distaff side, here is a little formula that you can whip up fairly easily sometime when you feel in the mood for putting some stiffening into those cantankerous scatter rugs of yours.

You know how most scatter rugs are. You place one neatly on the floor, walk over it twice, and when you look again it's so wrinkled you'd think someone had just tried using it for an accordion bellows.

At any rate, this is a stiffening solution that will make those scatter rugs straighten up and lie right.

Dissolve powdered glue in soft water heated to 140 degrees (about as hot as you can stand when you put your finger in it).

Use the glue in the proportion of three-fourths of a pound to a gallon of water. You'll be able to get the glue at your favorite hardware store. For easy softening, stir the glue into the water slowly.

After dissolving, let the mixture stand for about two hours and then bring it slowly to a boil. Stir two ounces of castor oil into a gallon of the mixture. Now you're ready to go to work on the rug.

Put papers on the floor, preferably the attic floor, if you have one, and lay the cleaned rug face down upon them. (Be sure the rug has been cleaned on both sides.) You can hold the rug flat by driving a few tacks lightly through it into the floor.

Now apply your sizing solution with a bristle brush, and that's all there is to it. Let the rug remain in place until it is thoroughly dry. You'll find this just about the fastest and most efficient method of sizing a small rug that you can do at home without professional assistance.

## Protect Peach Crop From Brown Rot

It won't be long until peaches are in bloom in Michigan, and Ed Andrews, extension plant pathologist at Michigan State College, is advising growers to use time between now and then to knock peach brown rot mummies from the trees.

Most healthy fruit left on trees drops soon after harvest time, Andrews says. All fruit hanging in the tree at this time is infected with the brown rot fungus.

Leaves come out when peaches are in bloom and mummies cannot be seen readily, making it harder to knock them out of the trees. An hour or two spent in each acre of peach orchard with a broom stick will help to insure the success of future brown rot control sprays.

Mummies left in the trees produce brown rot spores throughout the growing season. If they are knocked to the ground now, they will not produce mushrooms and spores during the bloom period this year.

Disking old mummies that remain on the ground from last season will disturb them and help cut down the amount of spores from this source.

## Farm Topics

### Safety Precautions Urged in Cleaning

Danger of Fire, Vapor Inhalations Are Cited. Housewives in rural areas sometimes find it inconvenient to send clothes out to be dry cleaned and therefore do the work themselves. For this purpose, they may go to a nearby automobile service station and buy gasoline or to a hardware store or general store and buy "cleaning fluid."

Gasoline is intended to make motors operate and should never be employed as a solvent because of its great flammability. There are some specially refined petroleum products available with cleaning and degreasing properties somewhat like those of gasoline but

Stand so vapors will be carried away from you, not towards you; do the work outdoors.

With considerably less fire hazard, although any petroleum product can burn if it is brought in contact with a source of ignition.

When a small amount of solvent is to be used the work can be done indoors safely enough. If the fluid can burn, just be careful to use it where there are no nearby sources of ignition and don't smoke or light matches while you are handling the fluid.

However, when a large job is to be done, such as cleaning an entire dress or a pair of overalls or removing grease from a number of tools which may require two or three quarts of solvent used over a period of perhaps half an hour. Do the work outdoors, stand so that vapors will be carried away from you, not towards you, and allow the cleaned articles to dry thoroughly before you bring them indoors. When you are finished, if your hands feel dry, wash with lukewarm water and rub a cream containing lanolin into the skin.

### Brahman Cattle May Vie With Many Domestic Kine

Cattle imported from India may some day compete with established beef cattle breeds in the markets of the Midwest, according to many livestock experts. One Nebraska farmer, a hybrid corn pioneer, believes Brahman will be as popular as domestic breeds in the next few years.

Corn belt farmers scattered thinly from Nebraska to Ohio, are experimenting with Brahman and crosses of Brahman on regular beef herds.

Do Brahman beef calves weigh 80 to 100 pounds more by weaning age and dress out two to four per cent higher than the usual run of cattle? Do they make economical feedlot and pasture gains and endure heat and insects better than other cattle? These are some of the questions to which it is hoped answers will be found through the studies and experiments being conducted.

### 4-H Club Champ

Gilbert Blakeship, 20, of Yorkville, Ill., was named national 4-H Club achievement champion at the recent International Livestock Show in Chicago.

### Farmer Hikes Spud Yield By Using Clover Manure

Using red clover as a green manure crop enabled a Duluth, Minn., farmer to beat his county's potato yield by as much as 300 bushels per acre. Leon Massey harvests between 390 and 400 bushels of potatoes per acre as compared to a county average of 120 bushels. He does it by turning over one year's growth of clover every fourth year in his crop rotation.

Farmers can fatten their pocketbook and improve their soil with a good grass and pasture program.

## April Features Spring Clean-Up

With the coming of spring, we should give nature a hand by planning clean-up time around the farm, David G. Steinicke, Michigan State College farm safety specialist, said this week.

The whole of April has been set aside as "Clean-Up Month."

Steinicke believes that a few hours spent now to clean out the hazards may result in the saving of many days during the busy season later on.

Chores like gathering up tin cans, picking up loose wire, disposing of broken glass, and repairing fences help to make the place a safer and more pleasant place to live.

### Small Seeds Need Shallow Planting

In any seeding with spring sown grains, one of the biggest mistakes is to cover the small seed too deep, cautions C. M. Harrison, farm crops authority at Michigan State College.

Small seeds have only a minimum of stored food to last them from the time germination starts until new green leaves have pushed above ground for further food manufacture. Thus, Harrison says, any method which will insure shallow planting, will result in quicker establishment of the legume plant. Be sure the small seed drops behind instead of in front of the disks. Put a small piece of garden hose or conduit wire on the small seed sprout to help shoot the small seed behind the drill.

Don't be too afraid of putting on enough phosphate and potash in the fertilizer, Harrison reminds. Legumes are heavy users of these two plant foods and a good supply drilled into the ground before or at seeding time will help to get the plants started right. Waiting until the field is established before fertilizing is usually a mistake. You must first have something to topdress and, unless it is added at seeding time, you may not have any legume plants started at all.

Where new seedlings are made on light soil with a grain crop, plan to pasture or cut the grain early to protect the seeding against a moisture shortage.

If you are seeding bromegrass, mix the brome with the oats in the main drill box, take off the large hoses and let the brome fall behind the drill. If seeded shallow, three to five pounds of brome will probably prove adequate.

Get hardy or northern-grown alfalfa if possible and central-grown seed as second choice.

Lake Huron freighters anchored two miles offshore from Alabaster, Michigan take on gypsum cargoes by a continuous over-water bucket conveyor system extending all the way from shore.

Unlike average native softwoods which reach 12 inches in diameter in about 20 years, hardwood trees usually require about 60 years to acquire this size.

One out of every 16 persons in the United States suffered a disabling injury due to an accident in 1949, the National Safety Council reports.

## Northville Joins New Five-School Activities League

The birth of a new athletic and activities league is in the formative stage for Northville, Milford, Holly, Clarenceville and Clarkston High schools. A meeting of school representatives at Milford Tuesday, March 21, discussed plans for the inclusive league which will probably begin operations in the spring of 1951. Two other schools may come in at a later date.

The new league, as yet unnamed, is planned to include not only varsity athletic schedules but competition in forensics and debate, some junior high athletics, inter-student council cooperation, an interchange of assembly programs, music department competition and girls' athletics on a Play Day basis.

Harry Smith, High School athletic director, said that the league's emphasis will be on school activities of all kinds. There is hope for what might be called an "All School" trophy which would be awarded to the top school each year for over-all supremacy in activities. Athletic and other trophies will probably exist as in other leagues, but there are no plans for them as yet.

Another meeting is scheduled tentatively for May 24 to iron out more details. Representatives of all departments concerned will meet in Northville to discuss organization, a name for the league and a constitution.

Athletics to be included in league play are football, basketball and track, with golf as a prospect. Reserve teams will compete in football, basketball and baseball. Athletic competition in the new loop may begin in the spring of next year, but will probably be in full swing during the 1951-52 season. Most of the schools still have schedules and other commitments which must be fulfilled this and next year.

The original pressure group was the family group, and father was its objective.

It has been reported that a man kept a single pipeful of tobacco alive for 88 minutes by taking frugal whiffs. Is this the record?

## Teen Agers Bowl In AJBC Tourney

The four teams composing the Teen Agers' bowling league at Royal Recreation rolled for high score in the American Junior Bowling Congress nation wide tournament last Saturday afternoon.

Robert Gillick posted a 404 to pace the RMC Yarn Shop to a high team series of 2560, including a team handicap of 287. Gillick's 153 on his third line was high for the afternoon, as was RMC's 903 total on the last line.

Northville Men's Shop rolled 2130 and the Allan & Locke team totaled 2066. The Royal Recreation five, with two members missing, compiled a 1951 aggregate.

## Senior Cage Squad Loses To Faculty

A Northville High school faculty basketball team outscored the intramural champion Senior team at the high school gym last Friday afternoon, 37-29.

The faculty led most of the way, but a Senior rally pulled them to within two points of the lead in the last quarter. A pair of baskets by Al Jones and Dick Kay killed the challenge.

The faculty squad then squarred off against the faculty women's team in an exhibition game. The women, using women's basketball rules, topped the men 14-11. Spectators enjoyed the high-humored antics of the game almost as much as the players did.

Proceeds of both games went into the school score board fund.

## MICHIGAN MIRROR

NON-PARTISAN NEWS LETTER

"No increase in taxes!"  
"No increase in government spending for public services!"  
Such will be the answer of the Michigan state legislature to Governor G. Mennen Williams in the current special session at Lansing, if the recommendations of the Senate and House finance committees are upheld by Republican legislators.

Governor Williams has proposed a record-breaking budget for state spending for \$340 millions for the next fiscal year starting July 1, 1950.  
This would be an increase of \$110 millions, most of which would be covered by new taxes.  
The source of new tax revenues has been limited by Governor Williams to a state corporations profits tax. The state constitution permits the Governor to limit subject matter to be considered during a special session. In the past special sessions have been called to deal with emergency situations. Since the close of World War II post-war inflation with rising prices and a steady decline in purchasing power.

In deciding that the Republican policy in the special session would be to balance the state budget without calling for new taxes, legislative leaders have given a firm "no" to the proposals of the Governor for more spending and new taxes.

Unless legislators give in to pressure group demands from their own areas, legislative leaders believe that they can hold the lines firmly to accomplish the desired results of a balanced budget.

Members of the two finance committees are agreed that compulsory appropriations, such as the \$87 millions required for public schools by the sales tax diversion amendment, could not be reduced by the legislature. This fact indicates that a budget cutting squeeze will be forthcoming whereby many state agencies, and perhaps some non-mandatory state aid to local governments, will have less funds to spend during the coming year than heretofore.

Whether this economy in certain fields of government spending will meet with approval of the taxpayers is another matter. Governor Williams no doubt will take advantage of the situation, pressing for further benefits in public services, local as well as state, and deploring the "reactionary" and "do-nothing" attitude of the Republican party in 1950.

There is a strong feeling among Republican legislators, as repeatedly reported in the press, to treat the spending program of the Governor as largely political issues for his campaign of re-election. The large list of proposals, of which there are 15, appear to be very ambitious to many legislators in view of the tradition that a special session should be limited to financial appropriations and matters held to be of an emergency nature.

William Palmer, chairman of the State Civil Commission, has proposed that the legislature apply a flat 10 percent cut in state payrolls as one way to effect a balanced budget. Records show that the payrolls of state agencies during the past year were approximately double of those in 1943-44. Senator Elmer R. Porter, chairman of the Senate Finance Committee, points out that if the legislature could reduce state employment to the level of 1945-46, a savings of \$24 millions could be effected. In 1943-44 the state had 16,038 employees for a total of \$33,181,567. For the past fiscal year (1948-49) a 23,791 employees received a payroll totaling \$66,283,311.

Yet the budget cannot be balanced alone by cutting salaries of state employees, a relatively small item in the light of all appropriations. Public services must be trimmed, and this means that the taxpayer will not pay more for present services, but due to diversion of state revenue to public schools and local governments, he will receive fewer state services than heretofore.  
Such is the prospect if recommendations of the legislative finance committees are accepted by the House and Senate in the final showdown of roll calls. Already the pressure is coming from pressure groups to make an "exception" to local interests.

# Dairy Association Votes Award to A&P

The American Dairy Association, representing five million dairy farmers, presented its annual Distinguished Service Award to the Great Atlantic & Pacific Tea Company at Chicago.

The award, voted at the eleventh annual ADA banquet, for "advancing the nation toward an even better standard of living," George W. Diehl, director of A & P's national butter and cheese department, received the plaque on behalf of the company.

The citation was presented by Owen M. Richards, manager of the dairy association, who said the award was a means of recognizing the friends of the dairy industry who are joined with the dairy farmers in providing an ever-improving diet and nutrition for the American people.

The award read as follows: "A & P Food Stores long since has proved its worthiness to the American people in making available good food and good service at low prices, with its operating efficiency a hallmark of the American way of initiative and enterprise."

"A & P Food Stores, in advancing the nation toward an even better standard of living, has always stressed the wider use of the good things of life, including the foods produced on the nation's millions of dairy farms—the milk, butter, cheese, evaporated and dry milk—all the dairy products that are such good foods for a better life for all mankind."

"For these contributions to the welfare of the nation and its dairy farmers, the American Dairy Association, with its membership in 41 states producing more than 90 per cent of the nation's milk supply, is happy and proud to present this Distinguished Service Award for 1950 to A & P Food Stores," the citation concluded.

# April Designated As Cancer Control Month

"Cancer is a personal affair. You are the only person who can protect you against cancer."

"Some cancer is preventable and most cancer is curable if you get to your physician in time."

"Go to your physician for periodic physical examinations, and go to him immediately in between times if any of the seven signs of cancer appear."

That is what State Health Commissioner Albert E. Heustis says in the March issue of "Michigan Public Health" which heralds April as Cancer Control Month in Michigan.

The seven signs which may mean cancer and which call for an immediate examination by a doctor are:

1. Any sore that does not heal—particularly about the tongue, mouth or lips.
2. A painless lump or thickening, especially in the breast, lip or tongue.
3. Irregular bleeding or discharge from the nipple or any natural body opening.
4. Progressive change in color or size of a wart, mole or birthmark.
5. Persistent indigestion.
6. Persistent hoarseness, unexplained cough, or difficulty in swallowing.
7. Any persistent change in normal bowel habits.

"It is better to have 20 examinations for cancer and find none than to miss one examination when early cancer or pre-cancerous condition is present," Dr. Heustis states.  
These facts and others about cancer, about Michigan's plan for cancer control and how to organize for cancer control in the local community are contained in the March issue of "Michigan Public Health," official bulletin of the Michigan Department of Health. Single copies of the issue or a subscription can be obtained free of charge by sending a postcard to the Michigan Department of Health, Lansing 4, Michigan.
