FIRST FLYING SAUCER? . . . This low-powered flying model of the XF5U-1 "flying wing" may be the forerunner of the flying saucers which have stirred up much controversy. The subject took on new interest when a national magazine and a prominent radio commentator announced that saucers are actually American top-secret military machines. Both navy and air force quickly denied that either is building revolutionary craft that could be mistaken for the flying saucer.

Our trip to Lansing by Marie Holman and Florence Klock. Last Friday the eighth graders of the Salem Union School, with their teacher, Mrs. Helen Drew, went to Lansing on the Streamliner from Plymouth. We bought a round trip ticket. It took us one hour and ten minutes to reach Lansing. When we arrived we went to the Capitol. There we saw the famous glass floor in the reception room.

Going on up to the 2nd and 3rd floors we saw the House of Representatives and Senate Chambers, the Governor's office and the Treasurer's office. In the basement we saw the Museum. It was full of things from the Civil War. It also had old money and old coins as well. It also had a stamp collection.

After having lunch we boarded a bus and went out to the State College. There we saw the campus grounds where some girls were practicing archery. Then we crossed Red Cedar River where we saw some Mallard ducks and some peacocks that were beautiful. We went from there down town in Lansing and went to a show that we all enjoyed very much.

It was nearing our train time after that, so we started for the depot. On our way we stopped on a bridge to watch an ex-soldier making molds in wet sand. He had a large canvass with a horse shoe and a four leaf clover in the center of it for folks to throw money into for his pay. Having had a wonderful time, we arrived in Plymouth at 8:00 p. m.

The eighth graders graduating this year are Marie Holman, Florence Klock, John Hauser, Donald Nagel and Donald Raymond.

Our Trip to Ann Arbor — by Joyce Wilson and Darlene Nagel. Mrs. Burnham invited us to go to Ann Arbor last Friday. We arrived in Ann Arbor to early for the debate so we visited the Museum. Everything there was interesting. We saw the skeletons of the animals which ruled the country a long, long time ago. On the 2nd floor we saw the birds and insects. We went on up to the 3rd floor and saw Indian things which were very pretty. We saw snakes and many other little animals.

We went from there to the Rackham Building where we heard the debates of Roger Kidston and Ronald Witt from Plymouth High and Sue Carter and John Gilbert representing Albion. They all received wrist watches. After a lovely afternoon we all returned home.

Ruby Holt left last week for Hollywood, California, to visit her brother, Sheldon Brooks. Some of the outstanding benefits obtained for themselves by these members are:

1. A GUARANTEED market for all of the milk they produce.
2. Guaranteed prompt payment in full. No credit risk.
3. Substantial payment for milk rejected from the market in event the member's family is quarantined.
4. Check testing of the members milk for butterfat content by Association testers to insure proper payments.
5. Improving quality of product and cutting production costs through Association Quality Control Program.
6. Safeguarding the market against seasonal fluctuations in production by means of the Base and Excess Plan.
7. Efficient representation in legislative and regulatory measures at the local, state and national levels.
8. Constant and reliable source of information regarding important subjects relative to dairy farming, milk production and market situations.
9. A unified, intelligent program of advertising and sales promotion to increase the consumption of milk and dairy products.

Governor Proclaims Armed Forces Day

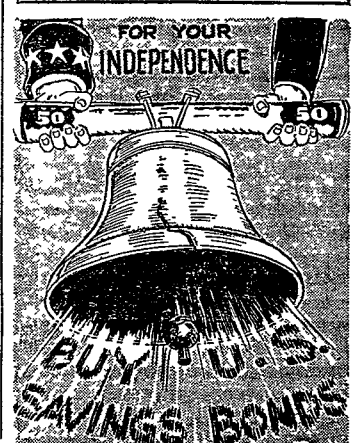

Governor Williams has proclaimed Saturday, May 20, as Armed Forces Day in Michigan for the purpose of "honoring all branches of our Armed Forces, now teamed for defense, and the men and women who have demonstrated the highest responsibility of citizenship by serving in them."

"The Michigan National Guard on the ground and in the air, strong in numbers, equipment and the character of its personnel, is an integral part of the Nation's security forces," the Governor declared in his proclamation.

Major General Ralph A. Loveland, commanding general, has been asked by Governor Williams to coordinate National Guard participation and "to cooperate with civil authorities and civic, patriotic and veterans' groups in demonstrating, with appropriate ceremonies, our faith in our national heritage of freedom and our determination to guard that heritage as carefully in peace as in time of war."

A total of 145 National Guard units in 51 Michigan communities will assist civic committees in the sponsoring of Armed Forces Day parades, open house demonstrations at community armories, and air base reviews.

Uncle Sam Says

The Liberty Bell, America's symbol of political freedom, will again be heard, all over the nation, ringing out a message of independence on May 15 to signal the opening of the U. S. Savings Bonds Drive for financial independence. The Drive will close July 4. BRIGHT NEW TOUCH TO A BIG BOLD BEAUTY
See something new here? That's right—the gleaming sweepers now adorn the fenders of this ROADMASTER Riviera Sedan. An extra touch of distinction that's yours as a standard item.

What's the secret of the "UNRUFFLED" RIDE?

SOME car makers say springs make the ride—and so we give every Buick four of the soft, gentle coil springs practically all cars use on front wheels only.

Some say the drive is important—how power is transmitted to the rear wheels.

We agree—and use a torque-tube drive, that takes up all the thrust, freeing rear springs of driving pulsation.

Some stress tires—so you'll find low-pressure casings on every Buick, mounted on our own kind of Safety-Ride rims. Some play up shock absorbers—we make ours fast, soft and sure in action, to wash out all "after-bounce."

Then there are frames—and car weight—and engine mountings, which on Buick are a very special kind used nowhere else.

They're all important—yet the plain truth is no one of these things—or two or three—gives a ride you can truly call "unruffled."

We feel it takes all of them—springs, tires, shock absorbers, drive, engine mountings—carefully and precisely brought into balance with each other.

You can see why we think so in any Buick—SPECIAL, SUPER or ROADMASTER.

You can feel it on cobblestones

and car tracks, washboard gravel and weather-pocked macadam, country lane and city street. You even feel it on boulevards, which grow still smoother when you travel them in a Buick—especially when it has Dynaflo Drive.*

So we would like you to try a ride that is truly "unruffled." Free of harshness—undisturbed by bounce and jitter—level—steady-going—smooth.

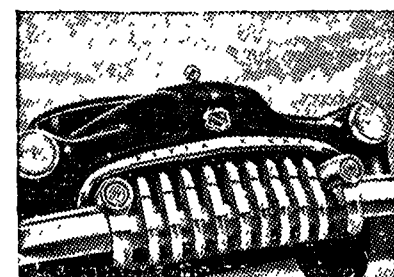

Just ask any Buick dealer for a chance to try out any Buick. You'll find it "the ride of a lifetime"—and the buy of a lifetime too!

*Dynaflo Drive is standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

Only Buick has Dynaflo—and with it goes!

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.)

Julia Politz' Wedding Gown Fashioned By Her Mother

Our Lady of Victory Church was the scene of the wedding Saturday morning, April 29, which united Julia Rosemary Politz and William C. Stackhouse in marriage. Rev. Lorenzo Woods officiated at the double ring

service which was performed at 10 o'clock.

Julia is the daughter of Mr. and Mrs. Frank Politz of Spring Drive. Her husband is the son of Mr. and Mrs. Frank Stackhouse of Detroit.

The High Mass was played on the organ by Sister Cecilia. The bride, who was given in marriage by her father, wore an ivory slipper satin gown which was fashioned by her mother. The gown was styled with a fitted bodice, sweetheart neckline and Italian Trapunto, fitted sleeves which ended in points over the wrists and flounces adorned the skirt at the hips. Self-covered buttons also ran down the entire back length of the skirt.

Her fingertip veil of French silk illusion fell from an ivory satin cap adorned with orange blossoms. She carried a prayer book with an orchid and stephanotis attached.

Shirley Stackhouse of Detroit was her only attendant and she wore a ballerina length dress of

aqua nylon, net and lace. A head-dress of daisies adorned her hair and she carried a bouquet of matching flowers.

Lyle Tullock of Detroit attended as best man and the ushers were Dino Politz of Northville and William J. Stackhouse of Trenton.

For her daughter's wedding Mrs. Politz wore an orchid lace dress. Mrs. Stackhouse chose a beige crepe dress and each mother had an orchid corsage.

Breakfast for sixty guests followed the ceremony at Huck's Redford Inn.

The newlyweds left on a three weeks' motor tour to the Smoky mountains. For her going away costume the bride chose a grey gabardine suit with black and white accessories. Upon their return from their trip they will make their home in Northville.

The new Mrs. Stackhouse is a graduate of Northville High School and Detroit Business Institute. She is employed by the personnel office at Maybury Sanatorium. Her husband is a graduate of DeLaSalle Collegiate, Detroit and attended the University of Detroit. He is employed as an X-ray technician at Maybury Sanatorium.

SAVINGS START THE DAY YOUR TORIDHEET BURNER IS INSTALLED

1. SAVES FUEL—The Toridheet burners because of flame placement concentrated on the furnace or boiler wall at the grate line, produce more heat energy from less fuel.

2. SAVES WORK—No coal to shovel, no ashes to tote, no grate shaking, no clinker groping, no daily sweeping of the basement.

3. SAVES SPACE—No ash receptacles to clutter up the basement. Turn your coal bin into a storage

locker or take it out completely and make a livable useful room with the space.

4. SAVES FURNISHING—Not to mention the mess in the basement, you get rid of coal and ash dust which penetrates upstairs into living quarters and soils walls, drapes, furniture and floors.

5. SAVES CLOTHING—Dry Cleaning bills shrink when Toridheet comes into the home. Light colored clothing and dainty fabrics can hang unprotected in air free from coal and ash dust.

6. SAVES HEALTH—Constant comfortable room warmth does away with the danger of chills often resulting in colds and sinus trouble which open the way for more serious illness.

Village of Northville - Audit Report

February 28, 1950

April 12, 1950

The Honorable Commission
Village of Northville, Michigan
Gentlemen:

We have examined the balance sheet of the Village of Northville as of February 28, 1950 and the statements of receipts and disbursements and income for the fiscal year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. We did not consider it practicable to verify taxes and accounts receivable by direct communication with debtors.

The accounts of the Water Department Fund are kept on the accrued basis. The accounts for all other funds are kept on a modified cash receipts and disbursements basis, all assets and liabilities are reflected in the accounts, but revenues are recognized only when cash is received.

In our opinion, the accompanying balance sheet and related statements of income or receipts and disbursements present fairly the position of the Village of Northville at February 28, 1950 and the results of operations for the fiscal year then ended, in conformity with generally accepted governmental accounting principles applied on a basis consistent with that of the preceding year.

Very truly yours,
ICERMAN, JOHNSON & HOFFMAN
By C. A. Hoffman.

Soupy Weather Stalls NHS Sports

Once upon a time people up and down the street made use of a wise-crack that went something like "think the rain will hurt the rhubarb?" Try it now and you'll be lucky if you get off with only a frosty stare.

The Northville High school baseball and track squads are particularly unhappy about the lack of sunshine. When and if the thinclads run, they're up to their ankles in mud—and practice is just a word in the dictionary.

The baseball boys, up until last Tuesday, have managed to play one game out of four. Again, practice consists of trying to throw the baseball between rain-drops.

By the end of the school year the coaches may be able to take a look at their teams in action and say, "Hey, we might have had a good team!"

The baseball team was scheduled to take the diamond against Clarkson last Tuesday, at Clarkson, and will play Inkster in Cass Benton park tomorrow, weather permitting.

Coach Charles Yahne's thinclads were slated to run against Walled Lake, there, last Tuesday, and against Romulus yesterday.

Felton, Portuguese Matched As Ike Backs Out Again

Tuzo (Kid) Portuguese, sensational Costa Rican slugger, has been signed to fight Lester Felton, Detroit's ranking welterweight threat, in the ten-round feature attraction of the International Boxing Club's fight program at Olympia Friday night.

Lightweight champion Ike Williams, originally scheduled to meet Felton, withdrew from the card for the third time last Friday afternoon pleading a chipped bone in his right hand.

IBC matchmaker obtained the match in a long-distance telephone conversation with Portuguese at his Greenwood Lake (N.J.) training camp.

The colorful Portuguese, who was born on November 12, 1927, in San Jose, Costa Rica, only a short distance from Camaguey, the hometown of Kid Gavilan, began boxing professionally in 1946. He succeeded Gavilan as the welterweight champion of his country when Gavilan relinquished the title in August, 1947, to invade the United States. Inspired by Gavilan's success here, Portuguese followed his countryman to New York last Fall and debuted in Madison Square Garden on November 16, 1949, by stopping Bobby Mann in 10 rounds. A month later, he won easily from the veteran Beau Jack.

But it remained for two scorching Pier Six brawls with Paddy Young to establish Portuguese as a topnotch title contender and a great favorite with New York and television fight fans. The chunky Costa Rican returned from a two-count knockdown in the second round of his first meeting with Young to win by an eighth-round kayo. However, Young won the rematch a month later in another gruelling encounter, this one a ten-round affair.

Tuzo made the headlines again early in April when an impersonator borrowed his name to fight in Omaha, Nebraska. The phony Portuguese was halted in two rounds, angering the Costa Rican no end. The Felton bout will mark Portuguese' first start in this country outside of New York City.

Felton, fresh from his decisive victory over Bobby Dykes in their rematch March 8 at Olympia, continues to train at Sportsman's Gym. The crack Motor City star is now rated the third best welterweight in the world, with only Gene Burton standing between him and Champion Sugar Ray Robinson.

DOES YOUR WATER DO A FULL DAY'S WORK?
To save precious time and labor, to step up farm profits, let Reddy Kilowatt pump and lug more water. Your "wired" hand does this chore for as little as 1½¢ an hour.
Here are a few typical reports from Michigan farmers who have enlarged their electric water systems. "Milk production up 20%." "Butter fat increased 6 to 12%." "Feed costs way down." "Have real fire protection now." "My family is healthier and happier than ever before."
Yes, it pays to switch from man power to electric power ... to make water do a full day's work.

MICHIGAN**MIRROR****NON-PARTISAN NEWS LETTER**

The ideas of May are almost here, and the Michigan State Legislature is still in special session.

Since March 1 when legislators assembled at the Capitol a virtual tug-of-war has prevailed between the Republican dominated legislature and Governor G. Mennen Williams.

Using his constitutional right to limit legislation in a special session, Governor Williams has ruled that approximately \$112 million in additional government spending must be financed, if at all, by a state income tax on corporation profits. The Governor declined to permit the legislature to increase the gasoline and weight tax in 1951, as advocated by the good road boosters, saying that this need, too, should be paid by business from its profits.

By and large the legislative program of the Governor seems to be an echo of the "fair deal" of President Truman, as applied to Michigan. The Governor is building a platform for reelection around the theme of "liberalism." The list of public benefits which would be financed by business out of its profits is long and imposing. Practically every form of economic activity in the state would be effected.

As we have pointed out before, there is not a chinaman's chance or even a cough in a carload that the legislature will not acquiesce to Williams' radical proposal for sharing the wealth. The legislators, especially those from rural areas, have been hostile to any idea for a new tax. They profess to hold to the belief that the average Michigan taxpayer is weary from taxes and would welcome a genuine movement to restore economy in government.

While Democrat leaders point to the Truman reelection as proof that economy is not popular, and by the contrast that government spending is here to stay, the Republican finance leaders in the legislature have put the party on pledge not to levy a new tax and not to increase government spending in 1950.

When the needs of an expanding population and the cries of special pressure groups are considered, it is more than apparent that the Republicans have undertaken to deliver a miracle. Already, demands are pouring into the legislative halls to make an exception for this worthy cause and that public need. As there is obvious merit to all needs, according to your individual viewpoint, it is more than obvious that the Republicans will have to hold the line rigorously, economizing on everyone, if they are to achieve the difficult objective.

Republican committee chairmen point out that considerable time has been consumed since March 1, when the legislature began its special session, in preparing a budget to fit anticipated revenues during the coming fiscal year (July 1, 1950-51). The original budget prepared for Governor Williams was approximately \$110 million in the red as based on anticipated state income from existing taxes. This has been swollen to more than \$112 million by addition of new requests for further spending.

The general record of legislative bodies, whether congress or the state legislature, has been to talk economy but to vote spending. At Washington congress has failed to prune expenditures. While the liberals are urging more and more appropriations to take care of rising unemployment and to finance new welfare benefits, the country is being told, by Senator George Democrat, that the joint committee on internal revenue of which he is chairman estimates the total deficit for the next two fiscal years at \$14 billions.

Pinched by the sales tax diversion amendment which is turning back 78 percent of sales tax revenue to home governments, the legislature has the disagreeable chore of balancing the budget or incurring a deficit. The Williams strategy is in reality putting a squeeze on his opposition—pressure for more spending and no solution for additional income other than a tax on business profits.

The year 1950 marks the 29th consecutive year in which the Veterans of Foreign Wars and its Ladies Auxiliary will conduct a Buddy Poppy sale to help provide for the well-being of America's needy ex-servicemen and their dependents.

Artist's Painting Wins "Top of the Show"

Mrs. Richard Brunner of Portsmouth, Ohio, recently won a "top of the show" for her water color of a scene, "Past Winter" in a Portsmouth art show.

Mrs. Brunner who is the daughter of Mr. and Mrs. Garrett Barry of East Main Street, received as her prize a Clarence, Carter water color, "Wild Mustard and Crows". She is a graduate of the Ohio State University College of Fine Arts. Mrs. Brunner was also awarded a water color brush and sketch pad, for having the best water color shown by an adult in the exhibit.

BROWNIE TROOP 4.

We met in the Grade school lunchroom Tuesday, April 25th. We elected Judy Robinson scribe to replace Ardye Atwood. The girls told Ardye what a good job she had done as scribe for the past several months. Mary Welch furnished the treat and Ruth Ann Clarke and Sally Lemke were welcomed back to troop. Later, Miss Libolt, chief operator at the telephone company showed us through the office in groups of seven. She explained how the switch board worked and how they placed and received calls. Judy Robinson, Scribe.

BROWNIE TROOP NO. 10.

Our meeting was called to order by the president and treasurer collecting our dues. We then had election of officers. We have two new girls in our troop, they are twins Susan and Betty Husen. Mrs. Hinman, our leader gave us each a pack of 15 cards, each a picture of a bird, then we played a game with them, that way we learned about different birds.

Last week our meeting was held in Miss Lucht's room in school where Miss Lucht showed movies of birds and told us all about them.

Carolyn Van Atta, Scribe.

Congratulations to Lauramae Wick of Yerkes Street who celebrated her eighteenth birthday Monday, May 1 at a family dinner party.
