

Concert Membership Sales To End Saturday Night

More than fifty leaders and workers in the Northville Community Concert association membership campaign discussed plans for the remainder of this week at a banquet held at the Methodist church in Northville Monday night.

Mrs. Edith Nicholson, Community Concert field representative, spoke to the group about organization and response to Community Concerts in communities across the country. The meeting later became informal and turned into an open forum and discussion group.

The concert membership campaign ends May 13, after which it will not be possible to join for the 1950-'51 season. Attendance at the coming concerts will be by membership only. No box office admissions will be available. Mrs. Lee Eaton, president of the Northville association, stated that some memberships will be available later for new members of the community who did not have a chance to join while the campaign was being conducted.

High on the list of topics discussed at Monday's meeting was the value of membership for concerts in communities other than Northville. Membership in the association entitles the ticket holders to attend Community Concerts wherever they occur, so long as the other community's concerts are not sold out completely to that community's members. It was reported that members in some towns had attended as many as fifteen concerts in this manner during the season. In many communities, said Mrs. Nicholson, it is virtually impossible to join the association until present members drop out.

Allan & Locke Motors, Inc., has been headquarters for the campaign and will continue to be until Saturday, the final day for memberships. Mrs. Frank Russell is sale secretary.

Serving as sale secretaries in other nearby communities are Mrs. Lee Coolman, Plymouth; Miss Lucille Scheffer, Farmington; Mrs. Franklin Heath, South Lyon; Mrs. Raymond Lewis, Salem; and Mrs. Fran Jennings, Novi.

F. Bernhardt Wins U of M Scholarship

Frederick Paul Bernhardt, valedictorian of this year's Northville High school graduating class this week was named winner of the University of Michigan Regents-Alumni scholarship.

The scholarship was announced by Erich A. Walter, dean of students and chairman of the Committee on University Scholarships. A total of 596 scholarships were awarded graduating seniors in Michigan high schools. The scholarship carries a stipend equivalent to semester fees for the freshman year and is renewable for three additional years if the student's performance at the University warrants a continuation of the privilege. Fred plans on enrolling in the College of Literature, Science and the Arts.

The award winners were selected from 1023 applicants representing 300 high schools. At least one scholarship is available for every accredited high school in the state, provided a qualified candidate applies.

Eligibility for an award is based upon the following factors: the record made in high school; information provided by University alumni and other citizens of the community; recommendations of the principal and teachers; financial need and results of the special aptitude test taken by the candidate. The first of these factors is the most important, Dean Walter said.

Work of high school officials and University of Michigan alumni clubs throughout the state in helping select scholarship candidates was of invaluable assistance to the committee, Dean Walter declared.

Church To Sponsor Concert Sunday

The A Cappella Choir of the Fort Wayne Bible Institute will present a sacred concert in the Northville Baptist Church on Sunday afternoon, May 14, at 2:30 p. m.

Through a varied program of sacred classics, negro spirituals, hymns, and arrangements of gospel songs the choir aims to express the realities of Christian faith and experience. A feature of the program is the continuity of thought and feeling produced by combining choral selections with appropriate instrumental numbers and choral readings.

Members of the chorus come from Pennsylvania, New York, Ohio, Indiana, Michigan, Illinois, Nebraska, Kansas, and the Hawaiian Islands. They are studying in the Fort Wayne Bible Institute, an accredited Bible College, for Christian work at home or abroad.

Reservations Heavy for Downs Opening

Michigan's 1950 harness horse racing season gets under way on Monday night, May 15 when Northville Downs, the "pioneer" night mutual track of the Wolverine State, inaugurates 54 nights of racing that promises to wipe off all existing records from the books.

Northville Downs this year is setting up all kinds of records for Michigan harness racing. This year's inaugural on May 15 is the earliest that harness racing in the State has ever started.

Northville Downs is giving the longest harness meeting of the 1950 Michigan season. To date racing secretary Ed Keller has received over 1,300 requests for stall reservations. So great has been the demand for stall space that every bit available at the track was exhausted long ago. More than four hundred head have been given stall space at the Detroit Fairgrounds in Detroit.

Still another record, and a most important one to the race fans, goes to Northville for their 1950 meeting. This year the track has scheduled a series of 47 stake races, as the big features, and these stakes have attracted a record-breaking list of 1,915 entries.

Tops in this list of stake features are the \$10,000 Governor's Cup Trot with 35 entries, slated for Friday, June 9, and the \$10,000 Michigan Pacing Derby to be decided on Friday, July 7, with a record entry of 45 having been named.

Stables checked in at the two tracks at Northville and Detroit the past week from every section of the country. The top driving aces include Tommy Winn, Harold Wellwood, Harold Snodgrass, Homer Walton, Vern Devlin, Henry LaRoche, Ernie Sworthwood, Bob Plaxico, Denny Moore, Ernie Hess, Del Yapp, Ora Dunkin, Lou James and Bill Herbert.

There will be a new starter and a new starting gate at the Downs. The starter is to be Dave Hoyer of Beaver Dam, Wisconsin, and he will use the McDowell gate. Hoyer came from the Santa Anita meeting in California last week, and has been schooling horses at both Northville and Detroit tracks for the past six days.

Operational manager Orlov Owen has everything primed and ready at Northville to take care of the largest opening night crowd in Northville history. Owen expects all past Downs records to go off the boards on Monday night. The demand for box seat reservations this year far exceeds anything Northville has ever had.

Post time throughout the 54 nights is to be at 8:15 p. m. standard time. Programs throughout the meet will again feature the nine races nightly.

Proclamation

WHEREAS, tuberculosis takes 53,000 lives in our country each year and kills more people between 15 and 45 years of age than any other disease, and

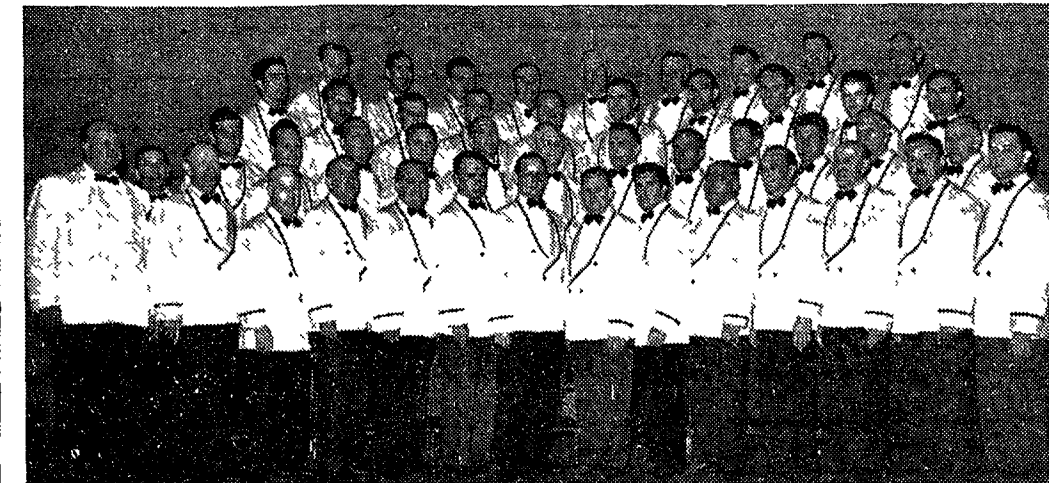

WHEREAS, tuberculosis is a communicable disease, spread from person to person, and

WHEREAS, the Northville Health Department, Michigan State Health Department, Wayne County Medical Society, Wayne County Health Department, and the TB and Health Department, are waging an effective campaign to help control tuberculosis here in Northville by a case-finding survey and advocate that every adult have a free chest X-ray during the survey to be sure of healthy lungs,

THEREFORE, I the Mayor of Northville, do recommend that the adults of Northville cooperate 100 per cent with these organizations by taking advantage of this opportunity during May 18, 19 and 22 to have a free chest X-ray when the State Mobile Unit visits each neighborhood.

Food For Thought -

and a thought for food -- double talk? Yes, but that is what we mean!

Through this weekly column, we hope to share experiences and ideas -- some may be new and others just old ideas in new dress -- but all gathered from work in our kitchens.

In case that about now, you're asking our identity -- we're the family unit operating Black's Catering Service, in the Northville Realty Building, at 138 East Main Street. Bill and Ruth (Pa and Ma) are seldom off the job -- and the younger family members are occasional helpers for banquets and other busy hours -- that is, when they can be caught off guard. You parents of teenagers will know what we mean. Such teasing is hardly fair, though, for they're really ambitious boys. No doubt you've had difficulty passing down Main St. these past few days without the tempting aroma of freshly popped corn leading you to Hubert's and Gilbert's business headquarters. In fact, everyone around this bee-hive is making the most of each spare minute. You've surely noticed the new spring attire for both buildings and grounds.

And while we're talking of spring -- how's your garden coming? If we may judge by the rush of boxed dinners delivered to weary gardeners during this past week, many a Northvillite will soon be enjoying the fruits of his toil.

Incidentally, we're reversing this process. We're enjoying a daily harvest, and haven't yet planted our garden. You've guessed right -- fresh strawberry rhubarb! And then all baked in a pie for a tasty spring tonic.

By the way, have you ever tried this one? Generously covered diced rhubarb with sugar, and let set overnight. Strain. Place the rhubarb pieces in an unbaked pie shell, thicken the juice, and pour over rhubarb. Top with lattice crust, and bake till golden brown. It's delicious!

Still talking about spring -- our special cakes for Mother's Day are taking on a spring look with their floral decorations -- either of real spring flowers or bouquets of butter icing. Stop in and see them and at the same time let us tell you about arrangements whereby you may keep Mother out of the kitchen on Her day.

On May 17, members of the Exchange Club will see a movie, "The Human Bridge", filmed by the Ford Motor Car Company. It will be shown through the courtesy of Allan & Locke Motors, Inc.

NORTHVILLE REALTY

• More IMPORTANT than "BUSINESS AS USUAL" for our clients, tax payers, property owners, contractors, yes, tenants who want to preserve the AMERICAN system of "Free Enterprise" is the fight to remove Federal Rent Control, spearheaded by the National Association of Real Estate Boards.

DO YOU KNOW?

1. That 225 communities and 6 states have obtained freedom from rent control for themselves.
2. That of the 3 million rental units decontrolled, rental increases have averaged only about 10%.
3. That the effect of rent decontrol on the purchasing power of tenants would be more than offset by the increased amount of repair work property owners would do with the increased income when freed from the bungling administration of rent control authorities.
4. Operating costs average double 1941 costs; taxes are much greater; and the property owner not only receives a 60 cent dollar for his reduced income but pays a much greater percentage of it out in income taxes.
5. Rent control has not helped to reduce the housing shortage.
6. RENTAL PROPERTIES ARE THE ONLY COMMODITY NOT RELIEVED FROM CONTROLS. The whole administration of rent control authorities has been such that rights of 8 million property owners owning 50 billion dollars worth of real estate have been ignored.

If rent control is not removed NOW, "perhaps we should advocate changing the schoolbooks so that in the future the Bill of Rights is dropped when the Constitution is printed." If you would help to remove this socialistic law let the Michigan members of Congress know how you feel and also the members of the Senate and House Committees on Banking and Currency. We can furnish their names.

LEGAL NOTICES

To the Supervisor of the Township of
Redford, Wayne County, Michigan.

You are hereby notified that the Board
of County Road Commissioners of the
County of Wayne, Michigan, did, at a
meeting of said Board held on Thurs-
day, April 20, 1950, decide and deter-
mine that the certain alleys described in the
minutes of said Board, heretofore taken
over as County roads, should be abso-
lutely abandoned and discontinued as
public highways, reserving therein
statement set forth in said determina-
tion.

The portion of the minutes of said
meeting fully describing said alleys are
attached hereto and made a part of the
notice, which is given under and by
virtue of Act 283 of the Public Acts
of 1909 as amended.

In testimony whereof we have here-
unto set our hand at Detroit, Michigan,
this 27th day of April, A.D. 1950.
BOARD OF COUNTY ROAD COM-
MISSIONERS OF THE COUNTY OF
WAYNE, MICHIGAN
Michael J. O'Brien, Chairman
John P. O'Hara, Vice-Chairman
Charles L. Wilson, Commissioner
EDGAR M. BRANIGAN, Clerk
By Carl W. Bischoff, Deputy Clerk.

Road Jurisdiction Determination
Commissioner O'Hara moved the adop-
tion of the following resolution:

WHEREAS, this Board has received a
petition from thirty-nine freeholders of
the Township of Redford to abandon
and discontinue the alleys 18 feet wide
in the rear of Lots 1739 to 1775 both
inclusive, and Lots 1789 to 1825 both
inclusive, of B. E. Taylor's Golf and
Country Club Subdivision No. 4, lying
south of Grand River Avenue, being
part of the SE 1/4 of Sec. 7, T. 1 S., R.
10 E. Redford Township, Wayne County,
Michigan, as recorded in Liber 61 of Plats
on Page 97, Wayne County Records, said
alleys being county roads under the
jurisdiction of this Board; and
WHEREAS, pursuant to said petition
and in accordance with the provisions of
Section 18 of Chapter 4 of Act No. 283
of the Public Acts of the State of
Michigan for the year 1909, and amend-
ments thereto, this Board did, by resolu-
tion dated March 9, 1950, resolve that
a hearing be held on April 13, 1950 at
11:00 a.m. E.S.T. at 3606 Cadillac Tower,
Detroit 26, Michigan, to determine
the necessity or advisability of aban-
doning and discontinuing said alleys; and
WHEREAS, pursuant to the above
mentioned statute, this Board has served
a notice of said hearing upon all of the
owners and occupants of lands inter-
sected by or adjoining said alleys and
published a copy of said notice in The
Legal Courier, a newspaper published
within the County of Wayne, on March
17, 1950; and
WHEREAS, said hearing was held at
the time and place specified by said
resolution and this Board did then
proceed to view the premises in accord-
ance with the statute; and
WHEREAS, it appearing from said
hearing and view of the premises that
the public will have no further use for
the alleys in said subdivision so peti-
tioned to be abandoned and discontinu-
ed, but it is desirable to maintain there-
in a public utility easement for the use
and benefit of the public.

NOW, THEREFORE, BE IT RESOLV-
ED that the public alleys 18 feet wide
in the rear of Lots 1739 to 1775 both
inclusive, and Lots 1789 to 1825 both
inclusive, of B. E. Taylor's Golf and
Country Club Subdivision No. 4, lying
south of Grand River Avenue, being
part of the SE 1/4 of Sec. 7, T. 1 S.,
R. 10 E. Redford Township, Wayne
County, Michigan, as recorded in Liber
61 of Plats on Page 97, Wayne County
Records, being in all 0.284 mile of al-
leys, be and the same are hereby aban-
doned and discontinued as public high-
ways upon the express condition that
there be and hereby is reserved an easement
in the lands now occupied by said
alleys for the installation and main-
tenance of electric water gas, electric,
telephone and all other public utilities
for the use and benefit of the public,
and all persons, firms or corporations
owning or operating said public utilities
shall have the right to enter upon said
easement for the purpose of installing,
maintaining or operating any of said
public utilities.

BE IT FURTHER RESOLVED, that
this Board believes it to be to the best
interests of the public that said alleys
so abandoned and discontinued should be
absolutely and discontinued as public
highways, reserving therein
the easement as herein set forth.

The motion was supported by Com-

This Time The Anti-Trust Lawyers Won A Case Against A&P

As almost everyone now knows, the anti-trust lawyers in Washington have brought a civil suit to destroy A&P. They ask the courts to order the dissolution of this company.

They say that this suit is based on the fact that they won a suit against us at Danville, Illinois, in 1946.

They did. In that case, Federal Judge Walter C. Lindley made a decision against A&P.

Immediately thereafter, in a letter explaining his decision, Judge Lindley wrote:

***"I have not condemned the A&P system.
I have not made a finding which could
be the basis for a suit of dissolution."***

So, now we have the anti-trust lawyers saying that their suit to dissolve A&P is based on Judge Lindley's decision; while Judge Lindley himself says his decision could not be the basis for a suit of dissolution.

In previous ads we told you about the cases against A&P which the anti-trust lawyers lost. We promised to tell you about this case they won. Here is the story of the Danville case.

What Judge Lindley Objected To

At Danville, the anti-trust lawyers made all of the charges which they are again making against A&P today. They were substantially the same charges they had made and dropped at Dallas, Texas, after four federal judges had objected to some of them as "inflammatory." In his decision, Judge Lindley was critical of some of our activities. He threw some of the charges out of court. He did not make any decision on others.

He even took occasion to praise A&P for the efficient job of food distribution it had done.

Judge Lindley said:

"To buy, sell and distribute to a substantial portion of 130,000,000 people, one and three-quarter billion dollars worth of food annually at a profit of 1½ cents on each dollar, is an achievement one may well be proud of."

"No place in the world I take it are people so well fed as in the United States. Nowhere else, I suppose, do food distributors accomplish efficient distribution at so low a margin of profit. In contrast, we are told in other nations the problem is not one of an adequate diet but one of no diet at all."

But Judge Lindley did find us in violation of the Sherman Act. He based his ruling on the dual role played by our fresh fruit and vegetable buying subsidiary, the Atlantic Commission Company, whereby that organization acted both as buying agent for A&P and as selling agent for growers.

Judge Lindley said:

"If I assume for the purpose of disposition of this case that in general the policy of A&P was to operate within the law and attribute to defendants a desire to comply with the law, there still remains the conscious, knowing adoption by all defendants of a plan of action by the Atlantic Commission Company affecting every department of A&P and every retail store which cannot be squared with the intent and purpose of the act."

In his letter explaining the decision, Judge Lindley wrote: "I have condemned their practices through the Atlantic Commission Company."

Judge Lindley imposed fines totaling \$175,000. When his decision was upheld by the Circuit Court of Appeals in Chicago, we paid the fines. This ended the case—but we did not stop there.

Why, Then, Do They Want To Put A&P Out Of Business?

Ever since this suit was filed, the anti-trust lawyers have been making damaging statements that could seriously hurt our business if they were believed by the public.

They say that we were found guilty at Danville of all the charges they are making today.

This is not true. Judge Lindley did not sustain all of the charges of the anti-trust lawyers.

They say this suit is designed to enforce the law.

But A&P has clearly demonstrated its sincere desire to abide by the spirit, as well as the letter of the law.

What We Did To Correct This

In the light of the decision, we immediately set about reviewing our activities to be sure that there could never again be any criticism of our operations.

First, the Atlantic Commission Company abandoned the dual role to which Judge Lindley objected and which he said was the basis of his decision against us.

We did this even though the Atlantic Commission Company had been licensed for many years by the United States Department of Agriculture to act as both a buyer and seller of fresh fruits and vegetables.

The Atlantic Commission Company now only buys for A&P. In other words, *we stopped doing the thing which Judge Lindley said put us in violation of the Sherman Act.*

We made additional changes in other methods of operation which Judge Lindley had questioned at Danville, even though he did not base his decision on them.

We did even more than this!

We went down to Washington and asked the anti-trust lawyers what else they thought we should do to conform to their new interpretation of the vague anti-trust laws.

The only answer we ever got was that we should break up this company!

Despite their claim that they were not opposed to A&P's size, *they insisted that we destroy this size.*

Despite their claim that they were not opposed to our manufacturing operations, *they insisted that we get rid of our factories which produce many of the fine foods you buy at A&P.*

Despite their claim that they were not opposed to our low prices, *they insisted that we destroy many of the efficiencies that make these low prices possible.*

In other words, they insisted upon the dissolution of A&P

We were still trying to find out from the anti-trust lawyers what else they thought we should do to conform to the law when they filed the current suit to destroy A&P.

They say they are seeking to "enjoin" A&P from engaging in certain "alleged" practices. *Actually, the whole purpose of this suit is not to "enjoin" us, but to put us out of business.*

They say that this suit for dissolution is based on the decision handed down by Judge Lindley in Danville.

But Judge Lindley has said of his decision: "I have not made a finding which could be the basis for a suit of dissolution."

What, then, is the real reason why the anti-trust lawyers want to destroy this company, which for 90 years has pioneered the methods of distribution which have given the American people more good food for their money?

Even though alfalfa is a soil building crop, it needs fertilization to supply some of its wants, say Michigan State College agricultural specialists. So long as a stand of alfalfa remains good and you wish to continue it for hay, it should be top-dressed at least every second year.

Switches for power machines should be placed out of reach of children or should be the type that can be locked, say Michigan State College agricultural engineers.

Pasture Helps Make Money for Dairy Farmers

Pasture-produced milk is the most profitable, dairy farmers tell Michigan State College extension dairymen. "Many have no figures to back their claims... they just know that they feed less grain, little hay, and are freed from heavy barn chores during pasture season."

But one Livingston County dairy farmer does have some proof that milk costs are cheaper in the pasture months. His herd has been on test for 20 years. Figures obtained by MSC dairymen from his records show how alfalfa-brome pasture has lowered production costs since he started using it as the summer feed.

Feed costs to produce one hundred pounds of milk in pasture months averaged just one dollar less than they did during the barn season over the past three years. This herd of 12 cows put about \$100 more a month in the family pocket book because of cheaper feed costs with pasture.

Pasture for this herd was not figured "free" either. Each cow was charged 15 cents a day while she dined on the alfalfa-brome to cover taxes, costs of seed, fertilizer, lime, seed bed preparation and maintenance. The big saving was in grain cost, for when the pasture was at its peak, practically no grain was needed.

Dairy specialists report that Michigan dairymen can find out more about the use of pasture and forage in profitable dairy enterprises at the Grass Day programs to be held throughout Michigan during the month of June.

Urge Control To Stop Corn Borer

A few tips to farmers in the control of corn borer, which causes an untold amount of damage in southern Michigan every year, are offered by Ray L. Janes, Michigan State College entomology extension specialist.

Janes said all fields heavily infested last year should be clean plowed, and that fields where the corn borer thrived the preceding year should be cleaned of all surface rubbish if possible.

The depth of plowing should be six to eight inches. Coulters, chains, and other devices may be employed to get the rubbish down under the soil as far as possible.

Last year's corn stalks sticking out of the earth may be a haven for the corn borer from where he frequently makes an escape to thrive on a new corn crop. All infested fields should be plowed under sometime between May 15 and 20.

Though the clean plowing method is a big boost in stopping the corn borer, it nevertheless, is not a sure cure and as a result total control will not result. Early corn crops in Michigan are usually more affected by the corn borer than the later crops. Though some delay is warranted in planting where the borer is bad, farmers should not wait so long as to deter the crop from maturing satisfactorily in the fall, Janes warned.

Michigan State College poultrymen say that eggs should be held in a cool, moist, well-ventilated room. Never put warm eggs in a case—it will hold the heat in the eggs. Market at least twice a week.
