Lanning Receives Honors at U. of M.

Edward Putnam Lanning, a sophomore at the University of Michigan, Ann Arbor, captured two honors this week as it was announced that he had received one of the Hopwood Awards and a scholarship.

Edward's scholarship was awarded on the basis of need and scholarship. Outside employment, extracurricular activities and general difficulty of curriculum were other factors considered by the scholarship committee, according to Richard C. Boys, assistant professor of English and Academic Counselor in the College.

For his poem, "Miscellany," Edward received a check for \$200 in the 20th annual Avery Hopwood and Jule Hopwood Awards in creative writing. Seventeen awards were made, nine major and nine minor awards totaling \$6,600.

The winners were announced by Professor Roy W. Cowden, director of Hopwood Awards at a presentation ceremony held recently at the Rackham Lecture Hall, Ann Arbor. Governor's Cup Trot Takes Place Friday

This week of racing at Northville Downs will be climaxed Friday night (June 9) by the Governor's Cup Trot for \$10,000, one of the two big Northville events of the season. The other is the Michigan Pacing Derby on July 9.

Friday night's Governor's Cup Trot is bringing leading trotters of the country including the famous Onolee Hanover who holds the world's record as the fastest four year old trotting mare on a half mile track. She made her all-time record of 2:01 3/5 in 1947.

Onolee Hanover, owned by Saunders Mills of Toledo, Ohio, also is co-holder with Proximity of the world's record for trotting mares of all ages.

She probably will enter the Governor's Trot as the favorite. Also probably favored, however, will be the Canadian-owned Grattan Volo, winner of the last year's Governor's Cup Trot. This great gelding, owned by L. O. Charlesworth of Sarnia, Ontario, was the winner in his only start this year, racing the fastest trotting mile at Northville so far this season. Driven by Harold Wellwood he made it in 2:07 2/5.

But the Governor's Cup Trot could be anybody's race. Among the other nationally known trotters entered are: Moses, Jeffery Hanover, Porter Day, Sidney Guy, Lingo Direct, Buckie B. Worthy Eblis, Oh Johnny and Billy Carleton.

All these entries and many more will make the Governor's Cup Trot at Northville Friday night one of the nation's outstanding trotting races.

Mr. and Mrs. Ed Angove and son, Larry of Linden Street were in Toledo, Ohio for a few days last week on business.

Tiny people and elderly people resent help in moving about.

Michigan State College extension specialists say you should plant varieties that are adapted to freezing, harvest at the right time, and freeze according to directions.

If you don't know whether it's safe to launder a dress, test the material and trimmings carefully before washing. The material may be colorfast but trimmings, reinforcements, or the shoulder pads may not be.

When trying on a dress for fit, be sure to sit down in it to check the fit in that position. Also reach your arms upward to test fullness across the upper back. Check seams for width and strength of stitching. See whether collars or reverses have neat edges and are cut alike on both sides.

Children Warned Not to Play Near Railroad Property

With the approach of summer vacation the state's railroad police, aided by the Michigan Railroads Association, are sending out pleas to parents, guardians, service groups, directors of various youth organizations, juvenile authorities, city, county and state police, newspapers and radio stations for aid in keeping children off railroad property.

Juvenile trespassing and depredations on railroad property in Michigan during 1949 were alarming, according to H. D. Whitlock, Detroit, Special Agent, Railway Express Agency and President of the Michigan Railroad Police Association. "With the approach of vacation we are much concerned in preventing injuries and fatalities to unlawful trespassers, especially boys and girls of school age. Many of them do not realize it is never safe to play on or near the railroad tracks or that their mischievous pranks too often result in death or going through life with only one arm or one leg or otherwise badly crippled; or that their actions often mean fatalities or injuries to passengers and railroad employees and cause tremendous damage to property.

"According to Interstate Commerce Commission's preliminary figures, trespassing casualties in 1949 killed 1,230, injured 1,069, which accounted for 36.5% of all fatalities from all causes. Notwithstanding that it is unlawful in most states to trespass on railroad property, 595,570 persons, the majority of them school-age children, were ejected but not prosecuted by the country's railroad police in 1949, an increase of 6.4% over 1948. It is encouraging to report that there were 22 fewer persons killed and 57 fewer persons injured than in 1948. Now we hope for even better results in 1950.

"I want to say to the boys and girls: Your first duty to your country, to your family and to yourself is - think and play safely. Don't play or trespass on or near the railroad. Stay away - stay alive."

To help protect the edges of crystal pieces while they are in the dishpan, place a towel in the bottom of the pan. Also place one in the drainboard to help prevent sliding and chipping when they are set down. If you do not use a dishpan, but wash your dishes in the sink, it is even more important that you line the bottom of the sink with a towel advises Gene Mann, Michigan State College home economist.

Governor Proclaims June as Dairy Month

Governor G. Mennen Williams is shown signing the Proclamation designating June as Dairy Month in Michigan in recognition of the state's second largest and most vital industry. Last year Michigan's million cows produced more than 2 1/2 billion quarts of milk. Lewis W. Morley, state chairman of the June Dairy Month Committee, presented the governor with a tub of butter as a memento of the occasion. Those witnessing the proclamation signing are, left to right: Charles E. Stone, treasurer of Dairy Month Committee; Donald L. Murray, Dairy Extension Dept., Michigan State College; F. M. Skiver, chief of the state's Bureau of Dairying; L. N. Francke, secretary of the Committee; Mr. Morley; Edwin J. Smith, Michigan Milk Dealers Assn., and Stanley Powell, Michigan Farm Bureau.

South Lyon — The new flag pole in front of Lyon Township Elementary School, which was donated and installed by courtesy of the Michigan Seamless Tube Company, was dedicated by members of Tri-County Post No. 560, American Legion, thereby fulfilling the local Post's desire to have "Old Glory" flying over the young students as they study in the new school.

Howell — A special city election will be held in Howell Monday, August 7, on a proposal to borrow and bond for \$300,000 to finance city storm sewer construction and extension and acquiring certain property for right of way. MSC Grads Activate 1950 Alumni Group

Graduates of Michigan State College in 1950 left the campus with an alumni organization ready-made from a nucleus of class leaders.

Creation of the "50 Club", composed of 50 outstanding seniors, was announced by Edward Pino, Lansing, class president. The members of the club were picked by two class committees on a basis of scholarship, number of extra-curricular activities, quality of non-academic work, tentative location after graduation, and their major field.

Pino said members would compose a cross-section of Michigan and out-of-state students. They will sustain contact with outstanding high school students, lead local alumni groups, organize class activities, help trace alumni whose whereabouts are unknown to the MSC alumni office, and help form new alumni groups.

Advice to young men: Improve yourselves; don't wait for the world to improve. What's wanted is something that tastes good, satisfies the appetite, and isn't fattening.

LAMB TAKES TO SEASONING

Herbs that bring out the flavor of lamb make satisfaction guaranteed. Among these are peppercorns, capers, onion, bay leaves, garlic, mint and parsley.

All cuts of lamb are tender so any method of cooking may be used—roasting, broiling, braising and cooking in liquid. The shoulder is a good cut to buy for stuffing. Remove the blade bone with a sharp knife to make the pocket for a well-seasoned stuffing. Removal also makes the roast easy to carve.

The thin paper like covering called the "fell" should not be removed. The meat is juicier and cooks in less time if it is left on. The fell does not affect the flavor. Sprinkle the lamb generously with salt and pepper and a little onion salt.

English Style Onion and Mushroom Stuffing

1/2 cup diced onion
1/2 cup cooked mushrooms
1/2 cup bacon drippings
2 cups bread crumbs
2 tablespoons chopped parsley
1 teaspoon each sage and salt
1/4 teaspoon each thyme, cloves and mace

Cook onion and mushrooms in fat until onion is transparent. Mix bread crumbs with seasonings. Combine with onion and mushrooms. If stuffing seems dry add a tablespoon or two of mushroom liquid.

Stuff the lamb shoulder and tie with a cord. Insert the meat thermometer if you have one. Place the roast fat side up on a rack in an open pan. Roast in a moderately slow oven (325°F.) Allow 35 to 40 minutes per pound or 180°F. on the meat thermometer.

The flavor of lamb is best when served well done and piping hot.

Lamb Hash

Dice cold roast lamb and cooked potatoes. Use twice as much potato as meat. Season. Moisten with a little milk. Spread in a pan and cook slowly until browned on bottom. Fold like an omelet and serve on a hot platter.

Food for thought

"And what is so rare as a day in June?" On such days, we can do naught but dream of the poets words, as our thoughts drift aimlessly higher and on.

June - the month of perfect days - for the bright-eyed graduates as they embark upon their new tasks of helping to shape a better tomorrow; - for the starry-eyed couples exchanging their vows to love and cherish. Happy June days bringing vacation-time for boys and girls and their teachers.

But to you housewives and mothers, June may not seem so perfect. Does it mean many a headache as you assume added responsibilities? - for a party honoring your graduate, a reception for the starry-eyed ones. Or are these minor compared to the daily chore of trying to satisfy the appetites of the young fisherman, the would-be big league batter, or the swimmin' and divin' champs as they return from the ole swimmin' hole?

When these clouds seem about to dim the brightness of your June day, just call Black's Catering Service, phone 383.

Best of all, you save money on fuel costs. Timken Water Heaters burn low-cost No. 2 oil, the cheapest fuel for heating water. They are built around the famous Timken Wall-Flame Oil Burner. Your savings go on month after month—the original cost of the unit is returned completely.

That means you actually can pay for a Timken Water Heater out of savings!

And think of the joy of plenty of hot water on washday—abundant hot water for dishes—for showers and cleaning. Your work will be lighter—life brighter.

Investigate this amazing work saver—NOW!

High School Grads To Study Futures in New MSC Clinic

Michigan high school graduates will take a sounding on their future in Michigan State College counseling clinics this summer. Young citizens who have reached the crossroads to college or the work day life of business and industry will find, through tests and guidance, the direction for which they are most fitted. More than 500 are expected to pass through the two and three-day clinics this summer, according to Thomas A. Goodrich, MSC counseling staff member and clinic director.

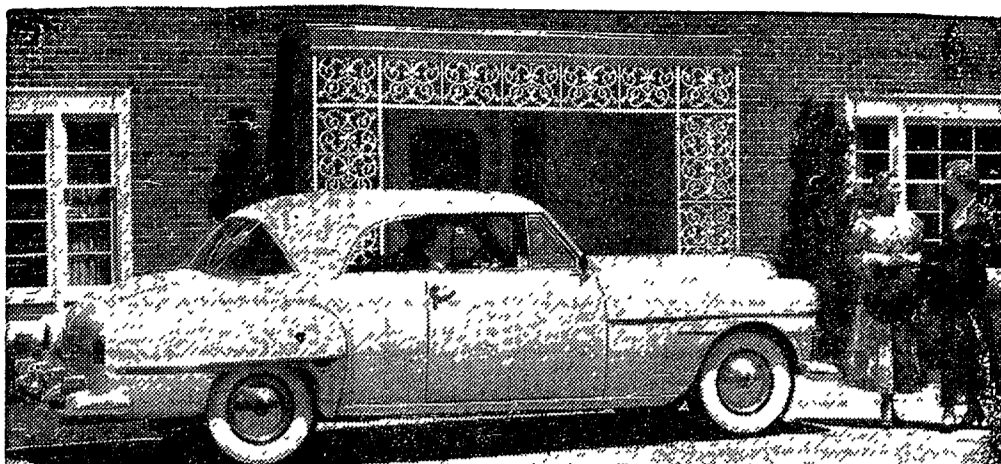

Major interests of each student will be found through tests and interviews, Goodrich said. Faculty from other departments of the college will describe specific college courses to students.

When the clinic sessions end, Goodrich said, each student will have a better idea whether to attend college, apply immediately for work, or attend a technical school.

Dates of future clinics or the originally-planned eight are: June 15 - 16, June 26 - 28; July 10-12, July 19-21; August 7-9, August 23-25, September 6-8.

You don't appreciate what compound interest can accomplish until you get on the paying end of a five year note.

NEW CHRYSLER "HARDTOP"

Popular "hardtop" styling has now been made available in Chrysler's New Yorker and Windsor lines. The sleek body style, shown here in the New Yorker Newport, combines the safety and comfort of the sedan with the smartness of the convertible. Open-

car effect is accentuated by side windows and window frames which lower completely out of sight. Maximum rearward vision is provided by the "Clearbac" rear window which curves well into the permanent steel top.

Christian Rural Overseas Program Sets Goal for Carloads of Farm Products

A goal of 1,350 railroad carloads of American farm products to fill Friendship Food trains for the needy overseas has been set for this year's nationwide appeal of the Christian Rural Overseas Program (CROP), it was announced by Albert W. Farmer, National Field Director of the cooperative church relief program.

Plans for the 1950 appeal were announced in Chicago by Mr. Farmer at the close of CROP's annual meeting of state directors, when blueprints for the organizational phase of this coordinated Christian endeavor were drawn up.

The CROP appeal will reach into every state in 1950. Although national in scope, it is concentrated in the nation's top agricultural states.

Already 16 top agricultural states have organized for the 1950 CROP appeal. They are Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, New York, North Dakota, Ohio, Oklahoma, South Dakota, Texas and Wisconsin. In some states, volunteer committees will direct the CROP appeal in close consultation with CROP's national headquarters in Chicago, the National Field Director explained.

A CROP volunteer program which has already started and

which supplements the carload campaign, is the "Friendship Acres" plan. This seeks to embrace rural youth, farm groups and farm community organizations and individuals who will "work at giving" by setting aside an acre of grain, a berry patch, a calf, pig or a setting of eggs and give the yield to CROP at the time of maturity, Mr. Farmer revealed.

"Anyone, wherever he or she may be, even in the most remote farm region, may participate in the 'Friendship Acres' plan, which is handled nationwide from CROP's national headquarters in Chicago," he said.

CROP is sponsored by Catholic Rural Life—War Relief Services; Church World Service, serving 22 Protestant denominations; and Lutheran World Relief, serving the eight churches of the National Lutheran Council of America.

Mr. Farmer stated that organization of CROP committees at the county level, which is now under way in some states, will be more intense than last year with the three Parent Agencies represented on the county level along the pattern of the state CROP committees.

Completion of county organization will signal the start of farm-to-farm solicitation of bulk gifts in kind. While the CROP appeal in some states will vary from early June until late December, the individual county appeal will be of one week's duration. The timing of the local campaign will be decided by the county CROP committee and will depend upon the maturity of the major crop in each respective area. There will be no more than one campaign in any county during the calendar year.

Commodities sought in the CROP appeal include wheat, corn, milk, eggs, beans, soybeans,

oats, cotton, dried fruits, sugar, lard, flour, rice, livestock, peas, wool and peanuts.

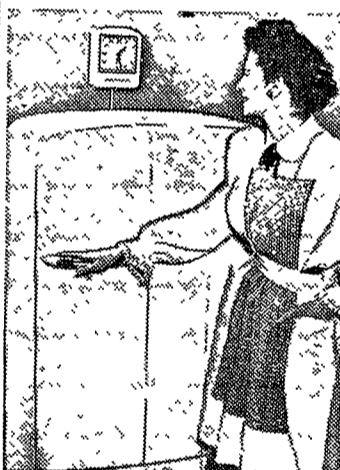

Since CROP's inception in the fall of 1947, the relief organization collected 3,555 railway carloads of donated farm products for shipment overseas.

Washington street, Wayne, Michigan, or call Wayne 3725 for full information.

Mr. Vloch also reports that farm workers are needed for year-round farm work. Automatic Defroster

A household device which automatically defrosts the refrigerator and is a fine electric clock has been put on the market.

The defroster, the company stated, eliminates the housewife's periodic, usually messy defrosting chores which are so often put off until she finds time and a thick, insulating coat of frost has accumulated on the freezing unit.

Automatically, the defroster turns the refrigerator off at 1 a.m. each day, and then, again automatically, switches it back on after the thin skin of frost is removed from the unit.

During the shut-off periods, moisture created by the melting film is circulated through the box.

With the defroster, which is a precision timing instrument, any electric refrigerator, old or new, easily can be made self-defrosting.

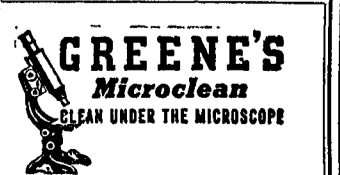

Chlordane Is Effective Ant, Cockroach Killer

The newest and most effective insecticide against cockroaches and certain kinds of ants is "chlordane."

Two-per cent chlordane sprays, with oil or water base, now are for sale in many department, drug and hardware stores.

These sprays leave an invisible, odorless film on surfaces to kill pests which come in contact with it.

Grass Day Program Planned for June 14

C. V. Ballard, director of the Michigan Cooperative Extension Service at Michigan State College, will be the guest speaker at the Grass Day program for farmers in this area on June 14.

The Grass Day for Wayne county farmers will be held at the William Bakhaus farm, corner of Warren and Sheldon roads, 2 1/2 miles south of Plymouth in Wayne county.

In his more than a third of a century working with Michigan farmers in county agent work, Director Ballard has wide knowledge of agriculture of the state. He will speak briefly at 1 p. m. on the importance of grasses and legumes in a profitable farming program.

The Grass Day event will begin with tours starting at 9:30 a. m. Following the short speaking program at 1 p. m. there will be demonstrations of legume seeding and haymaking.

P. R. Buchsheimer, county agricultural agent, suggests that farmers will find the demonstrations profitable and those interested in making use of grass sil-

age will find many things of interest.

Danger in the Sun

Can you tell sunstroke from heat exhaustion? Both are dangerous, the National Safety council says. Heat exhaustion leaves the victim's skin cold and clammy, while sunstroke results in a hot, dry skin. A general rule for the treatment: Keep the cold patient warm, and the hot patient cool.

HAROLD BLOOM This Question:

Fifteen years ago when we bought our house we paid \$5,750 for it. At that time we bought Fire Insurance with that sum stated in the policy as the value of the house. Today we could get \$12,500 for our house yet we have never changed our policy to match the increased value. Can you advise us on this matter?

U-M Dean Reports

Business institutions are demanding more training of the college graduates they are hiring today, reports Russell A. Stevenson, dean of the University of Michigan School of Business Administration.

A similar interest has been shown by students in getting intensive instruction before going into business fields, he said. This is indicated by the more than 100 per cent increase in graduate enrollment in the school since the war.

There are over 400 candidates for the degree of Master of Business Administration at the University, the dean stated, and 30 students working for the doctor's degree. He looks for an even greater enrollment in the years to come. The University's graduate program in business is the third largest in the country.

Before the war there were less than 200 candidates at Michigan for graduate degrees in business, he pointed out.

Companies want men with well-rounded education in business fields, Dean Stevenson said. They are looking for men with intensive graduate training in accounting, finance personnel administration and more recently there has been a demand for men skilled in market analysis.

Instruction at the graduate level in the School of Business Administration is carried on largely by the case method. Two bureaus provide classroom materials.

The Bureau of Business Research has built up over the past twenty five years a store of business cases which are being used in other schools beside Michigan, the dean said.

A pioneer in the field of management-labor relations is the School's Bureau of Industrial Relations. Union contracts, reports and other pertinent documents are available for student use.

The most extensive business library in the Middle West is also maintained at the School, Dean Stevenson said.

Students are admitted to the School in the junior year and the present full-time resident enrollment is 1270, the dean reported.

ON CAPITOL HILL

NEWS
and
COMMENT
FROM
CONGRESSMAN
GEORGE A. DONDERO

It is a heart-warming thing to know one has been vindicated at long last, that one has overcome obstacles to do his full share in winning a battle involving the security of his country and the welfare of his fellow Americans. Indeed, in some small degree it makes one understand the feelings of those who fought by land and sea of recent years so successfully against foreign foes of the United States. For all Americans now understand that in the past, as it is even now, we have been beset by enemies within the country as well as by those without.

I refer, of course, to the notorious Amerasia espionage case, concerning which I fear there has been some misunderstanding among many in the 17th Congressional District since 1945, when the case first came to light.

It will be recalled that almost immediately after the spy case was hushed up in the autumn of that year, I arose in the House of Representatives and demanded that it be reopened. I told my Congressional colleagues, and through them the people of the United States, that this case involved the theft in wartime, by Communist agents and their stooges in our government, of top-secret documents involving the lives and safety of hundreds of thousands of American soldiers and sailors, involving even the prospects of American victory in the Pacific war.

For my pains I was called a "red baiter". The lowest of dirty political motives were ascribed to me by some of the very persons who now stand convicted in the court of public opinion of motives so selfish that they may have constituted, morally if not legally, treason in time of war.

The story of my supposed will- ingness, out of political motives,

to destroy the confidence of the American people in their government; to destroy the prestige of the American government throughout the world, by attacking the Fair Deal-Democrat administration for whitewashing the traitors, was circulated in the 17th Congressional District, as it was everywhere else throughout the country.

With all the tropicardian natural to one placed as I was then placed, I continued nevertheless to campaign for a reopening of the Amerasia case. I did so all through the years from 1945 until the present day. Of course, I could not guess how the public would take the matter. But through many a sleepless night of wrestling with my own conscience, in view of the things I was shown and told by men whose duty it was to know the truth about wartime spying, I was forced to the conclusion that, come what might, my duty to all who fought and died was clear.

Now the Amerasia case stands forth as the real key to wartime spying by Communists and their stooges in the American government. It has been revealed to everyone that the stolen documents did get into the hands of those who could and presumably did use the knowledge contained in them to the detriment of the American war effort; quite possibly at the cost of thousands of American lives.

It is only to be expected that those who were in any way connected with the whitewash, even indirectly, will continue their frantic efforts to cover up the truth. The largest part of their cover-up campaign consists, and will continue to consist, of mud slinging at their accusers. For this reason only have I devoted this space to a discussion of the Amerasia case.

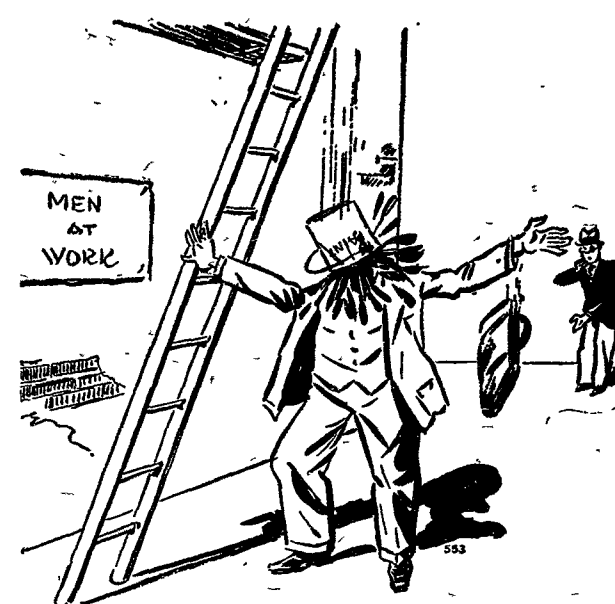

Many Alumni Events
On U-M Schedule

Alumni activities hold a prominent place in the schedule of events at the University of Michigan during the week of June 11.

Alumni University is scheduled from Monday through Thursday of that week. Fifty-three classes will hold reunions starting Thursday night with an all-class dinner. The traditional Alumni Sing is scheduled for Friday night.

An Alumni Luncheon, at which Distinguished Alumni Service awards will be announced is on the schedule for Saturday noon. The 106th Commencement, starting at 5:00 p. m. in the Michigan Stadium, will conclude the week's activities.

Check with your county agricultural agent to find the location and date of the nearest Grass Day demonstration in your area during June.

Then, of course, another way to locate a painter is through the telephone directory Yellow Pages.
