Village Community Building Fund Reaches \$117,000

Northville in the near future will be able to boast of a new Community Building. The Village Commission years ago started a fund for the building which was designed for the use and enjoyment of all Northville citizens.

At present, the fund totals \$117,000 which is invested in government bonds. The history of the fund dates back to the early 1940's when harness racing made its debut in the Village.

The Northville Driving Club has a lease-contract with the Northville Downs Association for the track. The Village of Northville is a third party beneficiary of this contract.

At the time the lease-contract was drawn it was stipulated by the executive committee of the Northville Driving Club, who was acting in behalf of the stockholders, that all net funds received from this contract by the Village of Northville was to be invested in a separate fund for the purpose of building a Community Building.

This village is paid \$500 a night by the Northville Downs in exchange for police, fire, water protection and maintenance of the streets through the Fairgrounds.

At this time the fund has \$117,000 in it. The money has been invested in Government bonds. This fact denotes a small interest rate because the Village wishes to keep the money liquid so that if any time they wish to build the money can easily be obtained.

Following is a table showing where the money is invested, how much invested, the interest, when it is due and how much is due.

Bonds	How much invested
Treasury Bonds	\$20,000
Certificate of Deposit	24,000
Series 'C' Bonds	31,000
U. S. Treasury Bonds	20,000
U. S. Treasury Bonds	22,000

Total \$117,000

Interest	When Due
1 1/8%	Oct. 1, 1950
1 1/2%	November 9, 1950
2 1/2%	dated Dec. 1, 1946
2 1/2%	Sept. 15, 1952 or 1950
2 1/2%	1956

Plans of the proposed building have been drawn so that if at any time the Village Commission wishes to add or detract from the original structure they may do so with a minimum of expense.

The State of Michigan paid for one-half of the architect's fees for the plans.

The block next to the Village Hall was purchased for the site of the proposed community building several years ago for \$27,000 by the Village. When the actual building is erected the three houses on the lot will be sold and the money added to the fund. This money was saved during the war through management efficiency in the Village.

It is the desire of the Village Commission not to start building until the money has been raised so that the Village is not plunged into debt. At the present time the actual construction will not start for some time due to the high cost of building. Cost of building has risen to such an extent that the fund, which increases yearly, has not been able to keep pace with the building costs. The Village usually earns from 22 to 23 thousand a year from duties performed at the track.

The Commission proposes to feature modern facilities in the actual building. The Home Economics department from the High School will occupy the cafeteria. Another feature is a huge auditorium and gymnasium. The High

School Music Department will have quarters in the new building. The Community Building will have large rooms where meetings can be held and these rooms can be made smaller folding doors.

When the Community Building is erected as another proud possession for the Villagers of Northville to enjoy.

July 10 Is Novi School Election

Novi School District No. 8 of Oakland County will hold their annual election and meeting July 10. Voting will take place for the purpose of electing one member to the Board of Education.

The poll will be open at the school house from 7:00 a. m. to 8:00 p. m. Candidates for the position on the school board are William H. MacDermid and Jack Crawford, incumbent. The school board term is for three years ending June 30, 1953.

A great deal of interest has been aroused in the election because of Novi's recent special election in which the citizens favored an expansion to the present school building.

Before you buy eye glasses, shop around; get comparative prices. Such is the recommendation of the Better Business Bureau of Detroit. Behind the advice is an interesting story of how ethical practitioners in the field of medicine are trying to clean up price padding by unethical oculists, ophthalmologists and optometrists. Among some practitioners it has been customary to accept a hidden profit in the consumer price of eye glasses. In other words, the difference between the wholesale cost and retail cost was pocketed by the doctor as part of his professional revenue. The Wayne County Medical Association denounces this practice as "just as unethical as the splitting of fees" since the consumer was not aware of the kickback payment from the optical house to the eye doctor. The Better Business Bureau's advice is this: "In an apparent effort to retain merchandising profits previously realized through 'kickback', some doctors have recently changed their methods of operation. EFFECTIVE JUNE 20

New telephone rates for Michigan Bell customers

THE Michigan Public Service Commission has authorized increased local rates for Michigan Bell telephone service, beginning June 20, 1950. The increase was granted after a thorough 18 months' study of Michigan Bell's application, which was filed in December, 1948. It does not change the long distance rates now being charged.

The revised rates represent increases of from 25c to 75c a month for residence service. Increases for business customers range from 50c per month upward.

Each Michigan Bell subscriber will receive specific information about the new rates with the first telephone bill dated on or after June 20.

The reason for the new rates is a very simple one. The costs of providing telephone service have climbed much faster than revenues. And the rate increases granted have lagged far behind the increases in costs.

In the last ten years, for example, general increases in basic wage levels alone have added \$35,000,000 a year to operating costs. But during the same period, telephone rate increases, including the present one, will have added only \$21,000,000 a year to revenues. Only recently we received demands from the telephone union for changes in its contracts which, if granted, will add still more to our expense. This, of course, is not provided for in the rate increase just granted.

Even with the present increase, the average telephone bill has risen less than half as much as the prices of things that make up the cost of living. In terms of value—in terms of the working hours needed to pay for it—telephone service is cheaper now than before the war. A telephone in the average home costs less per day than a package of cigarettes, a quart of milk or a gallon of gasoline.

Michigan Bell must keep on adding to its telephone plant in order to expand and improve its service to meet the needs of Michigan people. That requires that more money be invested. And to attract that money from investors, your telephone company must have adequate earnings.

This rate increase, although much less than the amount needed, will help to strengthen Michigan Bell's financial condition—and thus help us to provide you with the kind of telephone service you want, when and where you want it.

A financially healthy telephone company is good for everybody

To Stress Hunting Plan For This Fall

The extension service of Michigan State College is again cooperating with the Michigan Department of Conservation in sponsoring the "Williamston Plan" for controlled hunting on southern Michigan farms.

Charles Shick, MSC game management specialist, says the plan allows for systematic harvesting of the annual farm game crop by limiting the number of hunters through a permit system.

Under the plan, farmers organize a club, post boundary signs, and issue guest tickets.

Additional information on the "Williamston Plan" may be obtained from the Cooperative Extension Service, Michigan State College, East Lansing, or the Game Division, Michigan Department of Conservation Lansing 13. Speakers can be scheduled to give details to interested groups.

New Ford Team Enters Softball As Race Gets Hot

The softball picture took a different turn this last week, with four teams contesting for top berth, although the Mayors are still in the lead by a one game margin.

With a new team in the league for Bev Smith Ford—they won their opener last Monday night—there could be a many-cornered fight for the lead.

Here are the standings as of Monday night:

	W	L
Mayors	3	1
Blooms	2	1
Schraders	2	2
Stones	2	2
Optimists	1	2
Fords*	1	3

*The game in the win column is by the new Ford team which won Monday night. Of the three losses, two are forfeits by the old team, one is a loss in a regular game by the old team.

Stone's 5 Mayors 4

Clayt Graham's home run with two men on base in the last of the sixth inning enabled Stone's to clip the league-leading Mayors 5-4 at Ford Field last Thursday night. Stone's killed a Mayors rally in the last of the seventh and handed Perry Graham credit for the win. Dave Schilling was the losing pitcher.

Ford 11 Stone's 10

The new Ford team got up off the floor, shook off a six run lead by Stone's in the fourth inning and won an eight-inning game last Monday night, 11-10. Lewis' home run for Fords with two men on knotted the score at 10-10 in the sixth and Ford pitcher DeForest held Stone's hitless in the sixth and seventh.

With two out in the top of the eighth, Norton got a double, took third on a passed ball and scored on John Chedwick's single.

Perry Graham put Stone's back into the game in the last of the eighth with a long triple to center with two men out, but died on base.

DeForest was the winning pitcher.

cher, with Parks and Simmons as his battery mates. Stone's battery was Dave Pottinger and Ken Farrell. Bob Gates, who will soon report to the army for duty, played his last game for Stone's

Schrader's 14 Optimists 5

Schrader's backed up pitcher Lloyd Dion with 14 runs in the second game Monday and helped him ring up a win over the Optimists team, 14-5.

Trailing 9-0 going into the fifth inning, the Optimists picked up five unearned runs on a hit, three walks, a hit batter and three errors, but Schrader's added five runs to their nine in the seventh inning to sew up the game.

Dion had pitched one-hit ball until the bottom fell out in the fifth, but gave up four hits while issuing five bases-on-balls. Dion's battery mate was Dick Vaughan. Bob Coe pitched for the Optimists with McClellan behind the plate.

Health Dept. Cites Swimming Rules

Michigan's mounting toll of drownings brought serious warning today from the Michigan Department of Health.

Keep your children out of quarries, water holes, creeks and rivers, the Department advised.

Teach your children to swim, but teach them swimming and boating precautions as well. If you cannot swim yourself, now is a good time to learn. National studies show that the majority of drownings are avoidable and that eight out of ten who drown do so within fifty feet of shallow water or safety.

Be wary of boating accidents in the fishing and boating season just ahead. Boating accidents in Michigan waters took 82 lives last year, more than any other form of drowning.

Be sure that any boat you use is in good repair. Don't overload it or stand up in it or lean way out of it. If you can't swim well, take along a life preserver or an old inner tube. Stay out of the swell of large boats and out of any swift current. Put for shore when a storm threatens. If your boat should capsize, wait for it to come up, take hold of it and stay with it until help arrives or you drift ashore.

Swim always with at least one companion and, if possible only at a guarded beach during daylight hours.

Wait two hours after a meal before you swim. Most drownings result from stomach cramps. Don't go in swimming when you are overheated, tired or intoxicated. Go in slowly. Quick plunges into cold water can be fatal.

Know the water in which you swim, its depth, currents, tides, drop-offs, undertow, holes and temperature. Obey warnings signs and instructions of the lifeguard. Never swim in swift water or dive into water of unknown depth. Drowning toll in Michigan rivers last year was 73, in Michigan lakes, 60.

Remember that showing off, playing horse, or dunking other swimmers is an invitation to tragedy. Don't over estimate your swimming ability. If you must race, race toward shore. If you swim distance, be sure that a boat accompanies you. Never swim so long that you become chilled or exhausted.

If you get in trouble, keeping calm may save your life. If you have a cramp in your leg or arm, grab the muscle firmly and knead it. Water will almost support your weight. Alternate floating and treading water will help you to stay afloat until help reaches you. Where there are waves, breathe through your mouth and out through your nose.

Unless you are a skilled and

Powerful swimmer do not attempt a rescue. Toss buoyant articles to the swimmer in trouble -- inflated tubes, boards, or rope. Many of the 310 drownings in Michigan last year and many of the recent drownings could have been prevented by these simple precautions, the Department said.

Novi Lodge News

Twenty-four Rebekahs, including the honored guest Adda Gibson, president of the Rebekah Assembly of Michigan, enjoyed a dinner party at Saratoga Farms last Thursday evening.

The Independent Rebekah Club will meet at the home of Sister Sue Watson Wednesday, July 5 for a moon lawn party, if the weather is favorable.

The Odd-fellows and Rebekahs are planning for a Field Day on Saturday, July 29. There will be an auction sale, refreshment stands, and a ball game between the old timers of Novi and Farmington.

The members of the degree team and others interested will have the opportunity of going on a Mystery Bus Trip Thursday, July 20. Please contact Dorothy Snow for reservations and information.

Basha Hines, Dorothy McRoberts and Alice Waite visited Milford Rebekah Lodge Wednesday, June 21. They witnessed initiation ceremonies for 7 candidates, put on by Clyde Lodge.

A worm met another worm coming up from the ground and declared, "You're very beautiful and I'd like to marry you."

"Don't be a dope," was the reply. "I'm your other end."

Until a husband can get alimony by crossing his legs and showing his garters to the judge, equal rights are only a snare and delusion.

If you look at it from their point of view you can't blame women for wanting to be married.

"I AM AN AMERICAN DAY" HONOR GUEST... Blonde, pig-tailed Dace Epermanis (right), beside her mother, Walda, has the dual distinction of being the 150,000th displaced person to enter the United States and of being a guest of honor at Washington's sesqui-centennial observance of "I Am An American Day." The 12-year-old Latvian girl, who has lived five of her 12 years in displaced persons camps, will live on the farm of Irus Patridge, Perry, N.Y., with her father, Bernhard, her mother, and a brother, Juris, 15. To observe Washington's sesqui-centennial, Truman has invited all Americans to visit Washington this year.

5. (b) Three Army planes flew around the world in 1924 with elapsed time of almost six months. Actual flying time was 15 days, 11 hours. It is now possible to go around the world by scheduled airline in four days, 23 hours, and 47 minutes.

Michigan Mirror

(Continued from Front Page) made such a change, by all means 'shop for your glasses just as you would for any other merchandise which sells at widely varying prices. "Don't accept a lump sum quotation, but ask for a breakdown giving you the separate cost of your examination, any fitting or service fee, and the price of the glasses themselves. Having paid for your examination, the prescription is yours and you are free to take it where you choose and where you find you can buy the glasses you want to the best advantage."

Eye doctors who accept hidden rebates or kickbacks from optical houses are called "parasites" by the American Medical Association. The AMA through state medical societies is waging a vigorous fight against socialized medicine whereby the cost of medical service would be paid ostensibly by the government - but actually by the consumer in the form of withholding taxes. The so-called "high cost" of eye glasses, due to the secret kickback, thus has become a matter of national concern to practicing physicians and surgeons.

The Michigan State Medical Society has organized a "good citizenship campaign" among its members. This program is aimed at "getting out the vote" at the 1950 November election - and specifically getting out votes to defeat any candidate, regardless of party, who favors socialized medicine.

To bring the message of voluntary medicine to the American people, the AMA recently engaged Clem Whitaker to serve as its director for a nation-wide program. Whitaker appeared before newspaper editors in Chicago last November at a conference sponsored by the National Editorial Association.

"The American press, in its vigilant crusade to prevent Government seizure of un-

warranted power over the people, has been the Nation's strongest defense against State Socialism," Whitaker declared.

"The citizens of our country will be a captive people, held captive by their own Government, within another five years, if the trend toward concentration of power in Washington is not halted. The American press, standing alone, cannot long prevent that disaster.

"The American people must be aroused to come to their own defense; they must be told the blunt truth - that a Welfare State is a slave state - and that the cancerous growth of Government dependency is the most dangerous sickness in our world today.

"American doctors have become the second greatest force in the Nation, second only to the American press, in alerting the people to the danger of a Socialized State.

"The doctors are mobilizing all over this country not only to protect their profession and the public health from scourge of socialized medicine, but to fight for the right of every American to practice his own trade or profession as a free man in a free country."

When old friends get married, it is best to express congratulations and good wishes in the usual familiar way. Anything unconventional said at this time is remembered unfavorably.
