## Warden Gillies Marks Thirtieth Anniversary

Last Thursday was a day of celebration for Detroit House of Correction's warden, A. Blake Gillies for the day marked his 30th year at the House of Correction.

Among the messages which he received were congratulations from J. Edgar Hoover, head of the FBI and a cablegram telephone call from a former lifer now reformed. Gillies began work at the institution as guard and through the years has held nearly every executive post, hallmaster, head of the social service department, superintendent of maintenance and assistant and deputy superintendent.

Federal authorities have credited Gillies with making the Detroit House of Correction the best operated in the United States and he is credited with being the first to introduce psychiatric treatment for prisoners and has won national recognition for his work in rehabilitating criminals.

Gillies anniversary was marked by a party given by his wife to which more than 200 guests, including prison officials from all parts of the state attended. He passed cigarettes out to all 1,300 inmates of the prison on his 30th anniversary.

## Addition Begun On Depositors Bank

Depositors State Bank is adding to their present structure to house the bookkeeping department and the safe deposit vault.

The one story cinder block addition when completed will be 32.9' by 54.0', and in addition to making room for the bookkeepers and safe deposit vaults, it will also contain room for use of box renters with adjoining booths. Under this system the renters will go into the vault with the attendant and get their own boxes.

When the new unit has been completed about September 1, work will begin in the old part of the bank to re-vamp the lighting and tellers' cages. Plans call for the installation of eight modern, low cages, new lighting fixtures, new consultation room and the lobby space will be increased. A new heating and cooling system will also be installed.

When completed, the officers and employees of the bank will hold an "open house" so that patrons may view the changes which are being added for the convenience of the customers.

Robert F. Calder of Detroit is the architect, E. J. Harris of Wixom, contractor; E. E. DeKay, electrical contractor; A. H. Lyke, plumbing and the Winchester Company of Ann Arbor, heating and cooling system.

## Election Validity Protested in Novi

A suit challenging the validity of the referendum election of June 27 at which it was voted to incorporate Walled Lake as a city has been filed in Oakland County court by the Novi Shores Association through Robert Norton, president.

The association contends that the election results were obtained by voters from sections of Novi and Commerce townships when they should have been counted as separate units.

Since Novi township residents voted 146 to 74 against incorporation, Mr. Norton, as president of the association, insists that this area would have rejected the proposal.

He further contends that the boundaries set forth by the incorporation proposal include many rural properties which will receive no benefits from the city services for which they will be taxed. He insists that inclusion of these rural areas is unreasonable and confiscatory.

In the June 27 election, at which a majority of residents of the combined Commerce and Novi township areas voted for incorporation, a charter commission was also elected. This commission has the task of securing a charter from the state for the proposed city. Members are named as defendants in the suit filed by the Novi Shores Association.

The defendants are asked to file an answer within fifteen days after receiving copies of the protest petition. — Milford Times.

Mr. and Mrs. George Locke and family of South Rogers street are vacationing at Larson's Resort at Au Train, Michigan.

## Four New Teachers Named to Faculty

When the Northville schools open their doors September 8, Grade and High school children will find four new teachers waiting to greet them. Superintendent Russell H. Amerman this week announced that Margaret Soufs, Mrs. Elizabeth A. Gibson, Madeline Mitchell and Barton Rogers had signed contracts to teach in the local school system.

Miss Soufs isn't new to the school system as she taught first grade here for three years, from 1946-49. Last year she was on leave of absence and taught the children of servicemen in occupied Germany. Miss Soufs will be replacing Mrs. Rita Wolf on the faculty.

Mrs. Elizabeth A. Gibson comes to Northville from Toledo, Ohio where she taught the first-grade last year. She will teach a fourth grade section which was created this year because of the large number of children. Mrs. Gibson majored in elementary education and social studies at the University of Toledo and she was graduated in June 1949 with a Bachelor of Education degree. She expects to move to Northville in the very near future and her husband, Earl Gibson will be on the faculty at Plymouth Grade school.

Madeline Mitchell of Detroit has been engaged to teach home economics on the High school faculty. She takes the position left vacant when Mrs. Sidney Menge moved to Florida. Miss Mitchell was graduated from Michigan State College in 1949 and she has taught for one year in Belding. This summer she is working on her Master's degree, specializing in guidance at Michigan State College, East Lansing.

Barton Rogers will teach Junior High School social science and English. He takes the job which was held last year by Ralph Barron. Mr. Rogers' home is in Plymouth and for the last five years he has been principal of George Bentley High school in Lavonia. He has also taught at Crystal Falls and Oconomowoc, Wisconsin. Mr. Rogers is married and has two children. He was graduated from the University of Wisconsin where he received the Ph.D. and Ph.M. degrees where he majored in social science, administration and supervision. He also attended Harvard University.

Keith Burton, who taught instrumental music and Junior High school English expects to be drafted by the Army and may not be able to return to the faculty. Latest word is that he has passed his physical examination and that he is awaiting call. Burton is spending the summer with his grandmother at Kalamazoo.

## Snyder Awarded for Safety Suggestion

Each month the Ford Motor Company gives out checks to workmen for suggestions they have made which will increase safety at the plants. Melvin Snyder of the Northville plant won top suggestion honors for the month of June when he was awarded a check for \$227.28 for his suggestion.

Mr. Snyder, a machine repairman at the local plant, received his check for submitting the following idea: Noting the large amount of maintenance work, which was required on the ejection kickers, on the Cincinnati Grinders, he decided, that the system could be improved upon.

First of all he made a detailed study of the method which was at that time in operation. He found that the kicker, which ejected the motor valves from the machine after they were ground to size, consisted of a solenoid which was operated by an electric switch. He also found that the switches wore out quickly under such constant use which caused difficulty on the job plus excessive downtime on the machine.

The new method which he evolved and for which he received his award consisted of replacing the electrical hookup with an air valve to operate the kicker. It developed that the air valve operated much longer without breakdown and worked more efficiently. His idea is to be used on seven different machines.

Another suggestor at the Northville plant to receive honorable mention for his ideas during June was Calvin Earehart, who received a \$50 check for suggesting a better method of setting the height of the steady rest for Cincinnati grinders.

Employees at the Northville Plant who received 30 year pins during July were George Martz and C. W. Johnston.

Mr. and Mrs. A. Russell Clarke and family of Fairbrook Road are vacationing for two weeks at Torch Lake. Mr. Clarke is on vacation from his duties at the Depositors State Bank.

## To Give Exhibition at Meadowbrook

Golf's newest sensations, the Bauer Sisters, Marlene and Alice.

## Bauer Sisters, Harbert, Smith To Play Exhibition Match

A golf exhibition and clinic will be held Sunday, August 20 at Meadowbrook Country Club featuring Marlene and Alice Bauer, Horton Smith and the Club's pro, Melvin "Chick" Harbert. The affair will get underway at 2:00 p. m.

The Bauer girls have created a great deal of interest in women's golf in the last few years. Marlene, aged 16, was named by the Associated Press last year as being the woman athlete of the year. Alice, aged 22, holds five California golf titles. Their father, Dave Bauer taught them to play golf when they were hardly as tall as their drivers. It is said by golfing experts that they never lose control of the club-head and that they can belt the ball two hundred and ten to two hundred and twenty-five yards.

Marlene has won the national and western juniors and went to the semi-finals of the national championship. Only fifteen years old at the time, she was the youngest semi-finalist in the history of the championship. The girls turned professional last April and they made their debut in the coast to coast Weatherlane Tournament.

The Bauer girls will be playing against Horton Smith, professional at the Detroit Golf Club and former U. S. Ryder Cup star, and Chick Harbert, world's longest driver and present U. S. Ryder Cup star.

## Service Clubs To Sponsor Lisle Team

Lisle Fellowship students Walter Ligon, Jerry Ailes, Adolph Rothschild, Pat Neeley and Hazel Phillips arrived in Northville Tuesday for a three week stay.

Sponsored jointly by the Rotary, Optimist and Exchange Clubs, the Lisle Fellowship unit for the next three weeks on Tuesdays, Wednesdays and Thursdays will work with the small community in the rear of the Pere Marquette depot. This team of five students will undertake to work with the boys and girls and will seek to find out what the community at large can do to improve conditions in that area.

Lisle Fellowship was organized in 1936 and it is an educational venture providing summer units in which college and graduate men and women live and work for periods of several weeks in a community which provides them with a wide range of experiences and situations.

Lisle offers students the chance to experiment with practical methods of solving some of the problems of the world community. Through a cooperative living arrangement, students assume the major responsibility of directing community life and they have a chance to test themselves in real life situations.

Walter Ligon is chairman of the group. His home is in Llano, Texas and he is a student at the University of Texas. Jerry Ailes' hometown is in Ann Arbor and he is studying at the University of Michigan. Adolph Rothschild's home is in San Paulo, Brazil and he is studying at Michigan State College, East Lansing. Pat Neeley is a third year medical student at the University of Nebraska, Omaha, Neb. She lives in Lincoln, Neb. Hazel Phillips studies at Denver University, Denver, Colorado and her home is in nearby Canyon City.

This week the girls are the house guest of Rev. and Mrs. H. F. Fredsell and Mr. and Mrs. Mike Gursel are hosts for the boys. They are taking their meals at Black's Catering.

At the conclusion of their three weeks survey, the team will give reports and make recommendations to the three service clubs.

## Three Accidents Keep Police Busy Sunday

Three accidents in the Village Sunday kept the local police department busy.

The most serious accident happened Sunday evening when Richard A. Hill of Detroit who was driving east on Base Line Road failed to take the curve at Randolph street and ran into the embankment. Injured were Peggy Hall of Detroit who received lacerations of the face and Richard Keyes also of Detroit who has bruises on his head. Both were taken to Sessions Hospital.

Sunday afternoon Anthony M. Rossi of Detroit was driving west on East Main when he was struck in the rear by a car driven by John Krauskopf of Ferndale. No one was injured. An accident occurred twenty minutes later when Irving Danforth of Detroit who was travelling east on East Main was struck in the rear by a car driven by Donnie Stout of Plymouth who police say failed to stop when he was turning off Griswold Road. No one was injured.

Schedule of the exhibits include arrangements, miniatures, house plants, fruit and vegetable arrangement, and table setting for summer entertaining. The show will be open for flower lovers from 1:00 to 9:00 p. m. and there is no charge for admittance.

## Atchison Discusses Civilian Defense

At the regular Village Commission meeting Monday, Dr. Russell M. Atchison was present to discuss with the Council problems connected with civilian defense.

Atchison attended the recent national American Medical Association convention at San Francisco, California at which the atomic bomb and its effects on the civilian population were discussed. He urged that the Village should prepare for such an emergency.

Police Chief Joseph Denton reported that so far only four persons have signed up to assist as auxiliary policemen and air raid wardens. He is anxious to compile a list of names of persons who would volunteer for duty, should the need arise. Anyone, man or woman, who is willing to help in this project, should call the police department, 51, and leave his name, address and telephone number.

Harold Hartley, Gerald Taft and John Jones were present at the meeting to ask the Council to mark the curve which leads from Base Line into Randolph street more clearly as there are so many accidents which occur on this stretch of the road. The Council assured the gentlemen that they will see that adequate signs are placed on the curve.

The following Village employees were voted pay increases: clerk, superintendent of public works, police chief, patrolmen, caretaker and village laborers.

Because of world conditions, the Commission voted to drop the idea to pave the rest of the village streets for the present time. They felt that this was not the proper time to go ahead with the paving program. They also voted that Village laborers should receive \$1.75 per hour when doing labor for private individuals. No further business appearing, the meeting was adjourned.

## Detroit Accident Injures Pat Read

A Detroit accident Wednesday hospitalized sixteen year old Pat Read of 228 West street. Pat was taken to Detroit Receiving Hospital and later removed to Sessions Hospital where her injuries were diagnosed as a broken pelvis.

Pat was accompanying her sister, Nancy and Lawrence who were on their way to the Wayne County Building to pick up their marriage license. Nancy received a cracked rib and bruised head and Lawrence also received bruises on the head.

Pat is in the eleventh grade at Northville High school and she is the daughter of Mrs. Peter L. Perkins of West street.

# STAY ALIVE! OBEY STOP SIGNS!

## IT IS AN OBVIOUS FACT THAT

Stop signs are placed at intersections to keep motorists on one highway from running into motorists on the other highway.

Every motorist understands this simple truth, but, unfortunately, many thousands ignore it. This is proved by records which show that many thousands of accidents took place because drivers did not come to a full stop at stop signs and look to the right and left before entering the intersection with caution.

Almost stopping at a stop sign is not enough. It develops a sloppy driving habit which sooner or later will cause an accident. Some day that "car that isn't there" will run into you - because its driver expected you to stop - as the law requires.

After coming to a full stop the safest way to enter a through highway is to wait for a gap in cross traffic that is big enough so that you can enter the intersection without causing any other driver to slow down, stop or turn aside.

# MICHIGAN MIRROR

## NON-PARTISAN NEWS LETTER

Illustrating the A-1 problem of Michigan governments since Pearl Harbor is this personal story of how your "Michigan Mirror" writer in 1940 invested \$75 to buy a \$100 U. S. Defense bond.

That was ten years ago. The bond will come due next month—September. In ten years the value of the investment will have increased 33 1/3 per cent, or about 3 1/3 per cent each year. Our profit in terms of 1940 dollars will be \$25.

But what has happened to the purchasing power of the 1940 dollar?

No secret about that. It is worth about 60 cents, probably a bit less. The loss is \$40. Thus, our \$75 bond investment of 1940 is going to bring us \$60 worth of 1940 dollars. That, ladies and gentlemen, is what inflation has done to Michigan governments and Michigan citizens in the past ten years. By constantly driving down the purchasing power of the dollar, inflation causes a perpetual off-balance. As cost of living goes up, wages must be increased. As wages go higher, prices must go up. It's a senseless merry-go-round at the best.

Our purpose in calling attention to our 1940 investment is not to criticize the buying of government bonds. Our intangible return from that 1940 bond was the priceless right of freedom, our American heritage which you and I would have lost if Germany and Japan had won World War II.

We would like to emphasize one point: The postwar inflation problems of Michigan governments and Michigan people will become WORSE, not better, unless our government at Washington acts immediately to avoid the tragic mistakes of World War II.

Every now and then a voice is heard at Washington which courageously fore-warns against the needless price of inflation.

Bernard Baruch, chairman of the 1918 War Industries Board during World War I, has been advisor to two presidents through two world wars. Recently he appeared before the Senate Banking and Currency Committee at Washington. He condemned the Truman plan for priorities over production (without price and wage controls) as an open invitation to more inflation.

Here is a quotation: "It may be argued that the menace of inflation is not so frightful today, since we are not yet at war. Actually, the danger is greater. Today our economy already is operating at full blast, with little or no slack. Our national debt is about 257 billion dollars, about six times what it was when Hitler invaded Poland. Living costs have climbed so high that serious hardships already is being inflicted on many, particularly those with low or fixed incomes."

"Everywhere cities and States are searching desperately for the means of raising the salaries of teachers, firemen, policemen, nurses and others whose real wages have been so cruelly slashed by the inflation of the last 10 years. How much further can our cities and States go and still avoid disaster?"

The inflation of the last 10 years has undermined the stability of all our colleges, churches, hospitals and other institutions, shrinking the value of endowment funds while raising operating costs.

"It is forcing the reorganization of health insurance and hospitalization plans, raising the cost beyond the capacity of many to pay."

"It is cheapening the real worth of all insurance, all annuities, all savings."

"How much more inflation can our society stand?"

"Price and other controls are often opposed out of fear that such measures will concentrate power in the Government and threaten our freedoms. By inclinations, I, too, am opposed to

Government controls. But the gravest threats to the preservation of the American system today are not Government controls. They are military defeat abroad and further inflation at home."

Mr. Baruch pointed out that the Congressional price control bill of 1942 'legalized inflation' by permitting "wages to run free and farm prices to rise to 110 per cent of parity." The result: "A terrible price" paid by inflation which "added a hundred billions to the cost of the war, needlessly prolonging the conflict, unnecessarily increasing the toll of dead and wounded."

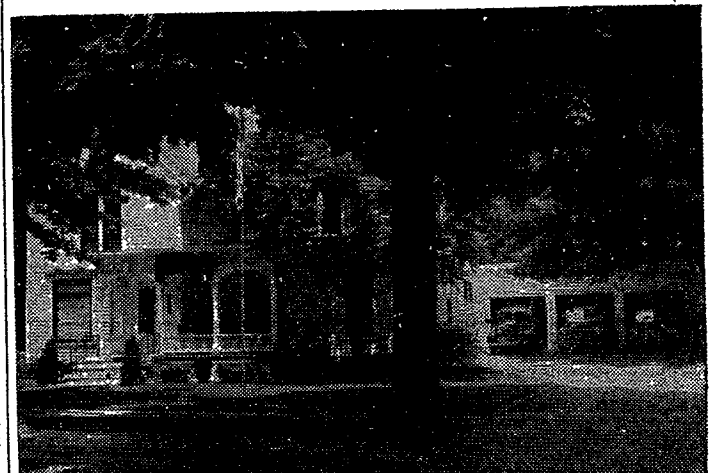

That's why our \$75 bond of 1940 paid off with only \$60.

Isn't it wonderful when you ask for information and get it quickly and accurately?

## GOV. ASKS CHILDREN'S UNIT BE ADDED TO STATE HOSPITAL

Following is a portion of the speech given by Governor G. Mennen Williams before a luncheon held at the Mayflower Hotel in Plymouth last Wednesday noon.

"It is a matter of great satisfaction to me that we have now embarked upon a continued construction program for the state's great mental hospital here at Northville.

"You really cannot appreciate what a shortage of mental hospitals means unless you have personally visited, as I have, the wards at Receiving Hospital. Only if you have seen the seriously disturbed mental patients housed in corridors and washrooms, without proper treatment, care, or supervision — only then do you realize fully the dreadful cost in human terms of our neglect of the mental health problem.

"The mistake of two years ago has now been at least in part corrected. We are continuing the construction at Northville, and when these facilities are ready, they will do a great deal to relieve the pressure upon Detroit's Receiving Hospital and upon the whole state mental hospital system.

"As you undoubtedly know, the legislature adopted my recommendation for substantial appropriations at Northville. These appropriations include \$287,000 for staff housing, \$2 million dollars as a down payment on the clinical building and some \$80,000 to draw plans for a projected \$2 million dollar infirmary unit.

"I believe the legislature was mistaken in its failure to appropriate the full amounts needed to complete the construction of the infirmary unit and the clinical hospital. In this matter the legislature followed its practice of appropriating less money than we all know will ultimately be

GOVERNOR WILLIAMS

needed, and calling the difference a "saving". Obviously it is no saving merely to delay appropriations for construction to which we have already committed ourselves.

"The appropriations for construction at Northville do not, of course, solve the mental hospital problem. Michigan still ranks 21st among the states in number of hospital beds in proportion to population. This is a dreadful failure and must be remedied at the earliest possible date. I shall do all in my power to advance the date on which we can hold up our heads among the states of the Union and honestly say that we are giving our people adequate and decent care when they are afflicted with mental disorders.

"It is particularly unfortunate that the legislature did not see fit to appropriate any money whatever — not even planning money, for a mental hospital for children at Northville. I presented the Special Session last Spring with a well worked out plan for such a children's insti-

tution to be located about a mile from the existing state hospital at Northville. This children's hospital would have been a pavilion type institution, consisting of a number of individual cottages and a central administration building.

"At the present time, we have no state mental hospitals where children in the curable stages of mental illness can be given the kind of specialized treatment which they need to have the best chance of recovery. This children's hospital would have answered this need and, in the long run, it would have saved the tax payers of Michigan many thousands and perhaps even millions of dollars which must otherwise be spent to segregate mentally ill children and maintain them as state charges perhaps for the rest of their lives.

"This children's hospital, to my mind, is a project which cannot be ignored indefinitely. The whole key to the problem of mental hospitals is to find better methods of treatment so that more patients can be released at a faster rate from these institutions.

"The reason we face a continuous increase in mental patients is simply because we have not developed ways and means of curing mental ailments as we cure other ills. The treatment of mentally ill children in the early stages of their affliction is one of the obvious methods of keeping those children out of adult mental hospitals in later life. So, aside from the questions of humanity involved and the moral duty we have to give the best possible mental care, it is only sound economy to build such a children's hospital.

"I am confident that the people themselves, as the mental health problem becomes more clearly defined, will demand that the legislature undertake so necessary and worthy a project."

The world stands aside to let pass anyone who knows where he is going.

## Nancy Williams Elected To Cedar Lake Council

Things had a festive atmosphere last Friday at Cedar Lake Girl Scout Camp. That was the night that the Scouts had a bang-up rootin' tootin' masquerade square dance. The camp council, made up of seven elected members (including Nancy Williams of Northville), had decided earlier in the week to have the dance. Everything from pirates to babes in arms were in evidence.

Thursday night, Oak Ridge, the unit housing the girls with intermediate camping experience held their cook out at Crooked Lake. Later they went over the nature trail that had been laid just a few weeks before by the Cedar Lake Scouts in cooperation with the Conservation Department.

On waterfront, a beginner's swimming certificate went to Nancy Williams.

Saturday, the mood turned more serious, for it was then that the girls said good-bye to Cedar Lake for the year. The counselor choir sang as the girls assembled on the waterfront. Then the campers took over the program which was based on a friendship theme. The candle-boats were lighted and were sent drifting out into the lake.

Also at Camp Cedar Lake from Northville this season, was Penny Niece.

Sister Helen, accompanied by another Sister from the Dominican Order at Adrian, visited Mrs. Jim Spagnuolo of East Main Street Monday. They accompanied Mrs. Spagnuolo on a trip to Montreal. Sister Helen and Mrs. Spagnuolo are sisters.

## DISORDER—DISASTER

According to a recent survey, about 20 per cent of all home accidents are caused by disorder in and about the home. No better start toward eliminating this cause of home accidents can be made than by cleaning up the yard, for, particularly during the warm-weather months, the yard is the locale of many accidents.

You'll be sorry you allowed a rake to be left lying in the grass if you step on it some evening. A touch of antiseptic and an adhesive bandage—one of those ready-to-use dressings with the gauze pad already affixed to the adhesive tape—may take care of the damage; on the other hand, the penalty may be a broken nose.

Other frequent yard hazards are broken glass, boards with projecting nails, rusted toys, broken outdoor furniture. If there is a swing in the yard, check the ropes or chains. True, a frayed rope or worn link may last through the season, but the risk far outweighs the trifling gain.

The final check you should make is of a different kind. If there are healthy, energetic children in the family you have to expect a certain number of minor casualties in spite of all precautions. Make sure, therefore, that the medicine cabinet contains such basic first-aid supplies as antiseptic, burn, ointment, gauze pads, roll gauze, ready-to-apply adhesive bandages and adhesive tape.

## State Fair Plans Free Entertainment

The Michigan State Fair, according to General Manager James D. Friel, is featuring more free entertainment and educational features this year than at any time since the fair was started over a century ago. It will be held September 1 through 10 in Detroit.

Once the family has paid the admission fare they can visit scores of special events free of charge. Along with the carnival spirit goes the husband calling contest, tug of war, greased pig contest, axe and sawing contest, clowns and parades of gay floats each day. The Old Timers Grove will be the scene of the Sheep Shearing contest, where skill and expert timing will vie for honors and prizes.

Beauty Queens from all parts of the State will be assembled in the Music Shell to pass in review for the judges and the loveliest girl from some-place in Michigan will be crowned queen. The Teeter Sisters will have two free outdoors shows daily, in which they fall from a height of 110 feet.

Teen-agers can be entertained by the fireworks that will be a nightly feature, high school bands, baton twirling contests, television shows and movies, including those of the soap box derbies.

Michigan artists will have their oil and water color paintings on display at the clubhouse. For the first time a treasure chest exhibit of replicas of the world's famous diamonds will be open for the public plus an exhibit of scarf pins valued at \$10,000. There will be a kitchen that talks telling of its own good features for the busy housewife. Kitchen stoves open and close themselves, refrigerators talk about their good points and other appliances vocally describe the workmanship of the products. The automotive industry will have an exhibition showing all the glory and luxury of new models, the comforts that the public car expect in modern design.

A cooking school, featuring leading dieticians and demonstrators from the State of Michigan will hold forth in White Hall on the Fairgrounds each afternoon and evening, with prizes for those that attend the school.

Two other features during the Fair in the Music Shell will be Body Beautiful Contests for men and women.

Four-H Club Dress Revue will be another of the added attractions during the Fair.

The 1950 Michigan State Fair is offering the public more for admission price this year than since it opened in 1849, 101 years ago.

## A&P's Wonderful Way of Selling Fresh Fruits and Vegetables

### Helps You Make Wonderful

# Salads!

You'll really appreciate the way we sell fresh fruits and vegetables at A&P. Because it guarantees their freshness. Here's how: As soon as a produce shipment arrives at A&P, checkers remove off-grade items and put them on a "Quick-Sale" table at reduced prices. They also remove such items from the produce racks several times a day. Result? The fruits and vegetables you select from A&P's regular displays will make you proud of your salads.

It's National Vegetable Week!

### Customers' Corner

These are salad days at A&P.

Are the tomatoes ripe, but firm, as they should be?

Is the lettuce crisp and sweet?

Are all the other vegetables fresh, clean and appetizing?

You'll be doing us a favor if you let us know any time you find any of our produce below par.

# Student Group Has Revived Freshman Rendezvous at U-M

Freshman Rendezvous, a Michigan tradition for many years, is being revived this year by the Student Religious Association at the University of Michigan.

Invitations have been sent to all incoming freshmen to attend a three-day weekend of fun, fellowship and discussion at the Detroit Recreation Camp on a lake near Brighton, according to Don Haskell, of Royal Oak, president of the S.R.A. The dates will be September 15 to 17, just in advance of the University's week-long orientation program for new students.

The Rendezvous will be limited to a total of 120 freshmen divided evenly between young men and women. Acceptance will be based upon the order of final registration.

Registration at Lane Hall on the campus and the bus ride to the camp will be the schedule for the first morning on Friday, September 15. After lunch, cabins will be assigned and then Dr. DeWitt C. Baldwin, director of the S.R.A., will conduct a forum on "Why Religion on the Campus?" A recreation period will precede supper followed by a party and a lakeside sing to wind up the first day.

Saturday's schedule will include a meeting of special interest groups with University faculty members present to answer questions regarding the fields in which the freshmen are interested. Three recreation periods, a talk by Dean of Students Erich A. Walter, an afternoon group discussion period and a hike around the lake also are on the schedule.

On Sunday, there will be a morning assembly with a talk by Howard Y. McClusky, professor

of educational psychology at the University. Buses will depart for the University campus after dinner.

## Softball Playoffs To Decide Champs

The men's softball league play-offs began Monday night with Stone's Hardware featuring the Optimists 11-7 and Schrader's Furniture topping the Mayors 9-4.

Bloom's Insurance was slated to face Bev. Smith Ford on Tuesday on the same bill with The Gay Nineties Girls and The Bloomer Girls, an exhibition game.

In the playoffs, a team has to be defeated twice before being eliminated. Last night's winners were scheduled to play each other, and losers were to play losers. The semi-finals will be tonight at Ford Field and the championship of the league will be decided tomorrow night (Friday).

The six teams in the league agreed before the season began that the league championship would be decided in playoffs in which all teams were eligible, rather than on won-lost percentages for the season.

To look at league percentages: Stone's Hardware, the Mayors and Schrader's Furniture ended the regular season at a first place tie, each having a six won and four lost record. The Optimists were next with 5-6, and Ford's and Bloom's trailed.

Three games were played Tuesday, August 1. The Mayors outscored Ford's 14-4 in a make-up game, Stone's nipped the Optimists 6-4 in another makeup, and Stone's, in their second game that night, trounced Burroughs Adding Machine of Plymouth 17-8, in an exhibition game.

The Mayors lost a 16-13 decision to a Milford team in an exhibition slugfest Wednesday, August 2, at Ford Field.

Bloom's Insurance, in the cellar, surprised Stone's last Thursday night with a 7-6 defeat, and Schrader's shut out Ford's 2-0 in the last two games of the scheduled season.

### THE PLAYOFFS

Stone's 11 - Optimists 7

In the first game of the play-offs, Stone's Hardware parlayed a five-run sixth inning with two runs in the seventh to abolish an Optimist Club 7-4 lead in the fifth and win by a final count of 11-7.

Although his nose was fractured by a pitched ball in the third inning, Perry Graham stayed in the game, shifting to right field and surrendering first base to Stinson. Graham later came back to his post at first.

Dave Pottinger and Ken Farrell were the winning battery for Stone's, Don Graham and Dick Gray the losers for the Optimists.

Schrader's 9 - Mayors 4

Hurler Lloyd Dion gave up only four hits in pitching Schrader's Furniture to a 9-4 win over the Mayors in the second game of the playoffs Monday night at Ford Field.

The Mayors got two runs in the first inning, both the result of passed balls. Charlie Cole beat out a swinging bunt and Elmer Balko was safe on a first base error. Both scored on balls which got by the catcher.

Pedro Menchaca scored Schrader's first run by beating out a high bouncer and coming home behind Sonny Johnson's single. In the fourth inning, Charlie Freydl singled and Jim Menard reached first safely on an error. Both came home on Dion's two-bagger, and Dion scored when the Mayor infield couldn't make a play on Pedro Menchaca's hit.

The big inning for Schrader's was the sixth when they accumulated five markers to add to the four they had. After Pedro Menchaca flied out to right, Dick Menard slammed a triple and scored on Lyster Wick's long hit which bounced over the center field fence and went for a ground rule double. Sonny Johnson hit a grounder and got to first safely. Charlie Freydl unlimbered a double, scoring Wick and Johnson. Second baseman Menchaca banged out a triple, Freydl came home, and Menchaca scored on Jim Menard's two-base hit.

## Bowling Season Rolls On Heels of Summer

August is supposedly the hottest month, but there are definite signs of fall and winter -- both Northville Center Recreation on South Center Street and Royal Recreation on West Main are opening their bowling alleys for early kegling enthusiasts this week.

Teams and leagues will be forming shortly and the owners of both Northville Center and Royal are planning organizational meetings for leagues.

## Free Press States Peace League Aims

The following article was published Saturday, August 5 by the Detroit Free Press retracting an article which they had previously printed and which in part was reprinted in an article appearing in last week's Record.

"The Women's International League for Peace and Freedom is an international and interracial organization whose aim is to work by nonviolent means for these conditions both at home and abroad which can assure peace and freedom.

"It was founded in 1915 by Jane Addams and is one of the nongovernmental agencies given consultative status by the Economic and Social Council of the United Nations and UNESCO, according to Mrs. Elsie L. Picon, national president.

"Granting of this status was opposed by Russia and her satellites, Mrs. Picon said.

"Jane Addams and Emily Greene Balch, honorary international president of the League, have been Nobel Peace Prize winners.

"At the end of World War II the United States Occupation Forces encouraged the League's representatives to organize a German section of the organization.

"The Free Press mistakenly intimated that the League had been a Communist front organization. It sincerely regrets this error." — Detroit Free Press.

Pullets grown on good, clean range, away from older birds, make good prospects for layers. Michigan State College poultrymen say this helps to prevent diseases carrying from older hens to the young pullet flock.
