Legion Officers Take Loyalty Oath

Newly installed officers, all veterans of World War II, took a loyalty oath in the presence of members at the American Legion, Lloyd H. Green Post 147, meeting last week. The oath, which disavows all past and present connection with subversive groups in the United States, was requested of all American Legion officers and is a part of the Legion's nation-wide vigilance against subversive activities in this country. Well known in Michigan is the anti-subversive work of John Denman, Legionnaire and WJR newscaster.

Since a vital part of the Legion's strength throughout the nation is its large membership, Northville's Lloyd H. Green Post is now conducting a membership drive to re-enlist the aid of all veterans who are now members, and to invite non-member veterans to join the organization.

Katharine Hepburn Coming To Cass

When Katharine Hepburn appears on the stage of the Cass Theatre, the week of October 9, in Shakespeare's comedy "As You Like It," it will mark her first visit before the footlights in seven years. Her last appearance in Detroit was in Philip Barry's "Without Love" in which she broke box office records.

With Miss Hepburn in "As You Like It" will be an exceptionally fine cast that includes such veterans as Ernest Thesiger, Aubrey Mather and Whitford Kane, all great performers for many years in the classics. These, together with the brilliant talents of William Prince, Judy Parrish, Pat Englund, Bill Owen, Cloris Leachman and Frank Rogier, rate as one of the most impressive casts assembled by the Guild.

The combination of The Guild and Miss Hepburn has always been a trademark of success. The Guild presented her ten years ago in Philip Barry's smash hit, "The Philadelphia Story" which ran for two seasons in New York and on tour. "Without Love" was equally successful but film commitments cut short the run.

SOIL CONSERVATION

The welfare of every man, woman and child in Michigan depends on the state's dairy industry represented by more than 132,000 dairy farmers with an investment of 2 and 1/2 billion dollars.

One in every six families in the state is dependent for livelihood on the dairy industry. More than 600,000 derive all or part of their incomes from dairying. Income from dairy herds last year amounted to \$681,000,000.

And this vast industry depends on butter for its solid foundation. Butter is the one dairy product which is a storable, staple food—the dairy product which absorbs excess production during the flush spring season and makes it possible to have a sufficient supply of fluid milk and other dairy products during the many months of low milk production.

Without butter, the vital dairy industry would be completely out of balance—during many months of the year fluid milk would be scarce—prices would zoom and the public health would be jeopardized. Butter is of great import to every person in Michigan—it helps to keep milk production on an even keel. Farmers realize the great importance of butter for it means large dairy herds throughout the state. Dairying is the greatest soil conservation measure known to mankind.

To keep Michigan prosperous and her people healthy, dairying must be maintained—milk provides one-fourth of all of our food. There is little wonder that thinking people want to protect the butter market against imitators who would help destroy Michigan's greatest industry for the sake of profit to themselves. And those who seek to wreck this state's dairy business for the most part have no interest in Michigan except to take her money away. Michigan is prosperous and a wonderful state in which to live largely because of her excellent dairy herds and unsurpassed abundant supply of milk.

Michigan's dairy industry has grown up with the state—it can be given a mortal blow over night by letting selfish imitators destroy the KEYSTONE of the industry—THE BUTTER MARKET.

Fall Planting Begun in Michigan Parks

Fall planting of 105,000 trees and shrubs in 15 mostly southern Michigan state park and recreation areas starts in early October.

Prison labor will be used to do most of the planting which will provide shade and game cover, according to the conservation department's parks division.

Including spring planting of 128,000 trees and shrubs, 233,000 pieces of stock will have been planted before the end of the year. This is more than double the total plantings made in 1949.

Prison crews will work with some 25 different varieties of stock in Waterloo, Bald Mountain, Holly, Ortonville, Metamora, Island Lake, Brighton and Pinckney recreation areas. Park crews will plant 25,000 white cedar at Hayes park and High-

land, Pontiac Lake, Proud Lake and Rochester-Utica recreation areas. Park men also will plant 900 trees at upstate Traverse City and Burt Lake parks.

Work methods on farms can often be improved. Studies at Michigan State College have shown that chore time can be cut as much as one-fourth by improving work methods. Sometimes only a small change in buildings or equipment is needed.

Have drinking bowls or other water supply always available to the dairy herd, say Michigan State College dairymen.

The average dairy cow needs 12 to 15 gallons of drinking water a day.

Prenuptial Parties Honor Bride-Elect

Beginning the pre-nuptial festivities honoring Marjorie McKeague's forthcoming marriage were two showers given by friends of the Air Line personnell in Miami previous to her return to Northville. Marjorie was associated with the National Air Lines as a stewardess for two years.

The affair honoring the bride-to-be in Northville was a miscellaneous shower given at the home of Mrs. Clarence Davis, of Cambridge Drive, Thursday, September 28. Mrs. Harry Clark and Mrs. Clarence Davis were the co-hostesses.

Yellow tapers and fall flowers of harmonizing color graced the buffet table. Guests from Detroit, Plymouth and Northville gathered to congratulate Marjorie.

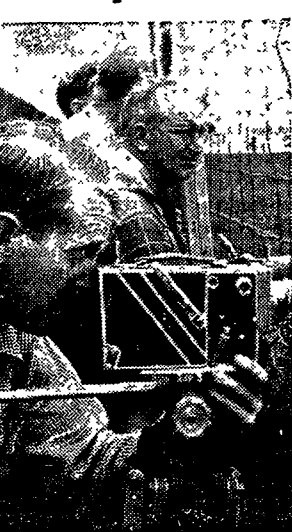

Sunday, October 1, friends from Detroit and surrounding areas joined to honor the bride-elect at a cocktail party held at the Robert Yerkes home on Haggerty Road. Mrs. Robert Yerkes, hosts for the event, received the guests in her home beautifully decorated with fall flowers.

A spinster dinner for the ladies of the bridal party and several other close friends occurred Wednesday, October 4 at the Yerkes home on Haggerty Road. Guerin Yerkes, home from Miami for the wedding, was hostess for the miscellaneous shower. Fall flowers complimented the decorative theme for the buffet setting.

A native of Jackson, Michigan, Barron was an outstanding athlete at St. Mary's High School. His prowess has not been wasted for he now scales walls, climbs trees and mountain peaks when necessary in order to record scenes in their most dramatic perspective.

Homemakers' Hints

—a wall knocked out here, new paint there—turns these bargains into beautiful year-round homes. First consideration, however, should be the right working equipment for the home—a convenient kitchen and bathroom, electricity, of course—and the right heating equipment. Many homemakers are discovering a new fuel oil heater that may be placed right in the living room—matching other furniture designs—and heating the entire home inexpensively and very efficiently.

The heater is called Duo-Therm—giving thrifty, clean and work-saving oil heat in homes without basements or central heating plants. It has a Power-Air Blower which circulates heat throughout the rooms and a thermostatic control for heat regulation.

One reason why this efficient heater is so popular is that it's designed just like fine furniture. There are Sheraton and Hopple, white and Chippendale Models for traditional rooms... and smart blond designs for modern rooms, each of them actually resembling a smart looking console.

There are styles for every purpose—for warm heating comfort in a trailer or a six-room house. No wonder so many homemakers—both in the city and in the country—are depending upon this economical, really thrifty way to warm homes in winter!

Area Schools due to the increasing number of children entering school each year, and revealed plans for the construction of a 12-room elementary building.
Inkster—The Inkster Board of Education has recently secured the services of Fred W. Frostic, former Superintendent of the Wyandotte Public Schools, as an educational consultant. Mr. Frostic is working under the direction of Clarence F. Scherer, Superintendent of The Inkster Public Schools.

Rochester — Mr. Russell W. Nowels, president of the Nowels Lumber & Coal Company left for New York City, where he will participate in a panel discussion before the Producer's Council. This council is composed of representatives of 80 percent of building material and lumber manufacturers.
Wayne—Larry Knox's presentation of a Life Membership in the American Legion was what the movie trade calls "a sleeper." After the ceremony proper Knox talked to the Legionnaires present in the Memorial Hall . . . and kept them spell-bound on the problems of civilian defense as they effect Wayne and the surrounding area.

Plymouth — When City Manager Al Glassford a few days ago issued a building permit to The Kresge Company for its new Plymouth store totalling \$211,000.00, he signed his name to the biggest building permit ever issued in Plymouth. In fact the total is almost three times as much as any other permit ever issued by the city.

Howell—Bruno Boemmer, employed by the State Department at the Office of the U. S. Land Commissioner for Bavaria in Germany is in Livingston county for a few days while he makes a study of rural life as he finds it in this area and ideas he can pick up here he hopes to use when he returns to his native country to help his people in their post-war readjustments.

No cocktail is worth seventy-five cents and yet we go right on buying them.
A movie director was giving his final instructions for the filming of a jungle scene. Addressing the male lead, he said: "You tear through the jungle as if you were running for your life. This tiger here," and the director pointed toward a cage on the set, "will pursue you for exactly 300 feet. No more. Do you get that?"
"I do," nodded the actor dubiously, "but does the tiger?" — Paul Streiner.

Safety Appeal Made To Fall Hunters
Upper peninsula hunters get in first shots this fall but conservation department law enforcement chief, Durward Robson, warns they also can be first to have their names recorded on new hunting casualty report forms being tried for the first time.
"With small game season now underway, upper peninsula hunters have a good two weeks to get the casualty list started," Robson declares. Lower peninsula small game season begins October 15.
"A total of 203 'other guys' were killed and wounded in 1949 hunting seasons throughout the state," he stresses. "Again this season the other guy might be unknown to your hunting party, or he could be a member of your hunting group. Or you can be the one someone else will have occasion to refer to as the 'other guy' this year."
While asking for the help of all hunters in making hunting safety a personal matter, Robson points out that the department's most promising program so far has been training youngsters in proper handling of firearms. One of the things demonstrated to fledgling hunters, which Robson says older hunters might heed, is how so many preventable mishaps occur because of careless loading and unloading of guns.

Boy Scouts Urged To Learn To Swim

"Every Scout a Swimmer," is a slogan which every boy and leader, every mother and dad hopes will come true. Fortunately, in this part of America it is not necessary to wait for summer in order to learn swimming and life saving. Many of our schools have pools; and there are pools in other institutions such as boys' clubs, the Y's and recreation centers — all of which encourage boys to enjoy water activities.

The Council-wide program, in which every Scout of this Area has opportunity to learn swimming and life saving during the fall and winter months, officially commences next Monday evening, October 9th.

Because of a splendid plan of cooperation between the Detroit and Hamtramck Boards of Education, and the Local Council, many school pools are available for Scout swimming and life saving activities. Similar plans of cooperation are being developed with officials in Dearborn, Royal Oak and other cities.

In these school pools, trained Scout Leaders give generously of their time, instructing and coaching Scouts in the manly, healthy art of swimming and life saving. These Scout Leaders—the only group of its kind in the country—are members of Scoutleaders Life Saving Corps No. 5 of the Detroit Chapter, American Red Cross. The Corps was chartered October 11, 1927, almost twenty-three years to the date of the official opening of the fall 1950 swimming season—next Monday evening.

In order to qualify for First Class rank, a Scout must swim fifty yards. To qualify for the Eagle, Scouting's top award, a Scout must obtain at least 13 required merit badges, including both swimming and life saving. Most Scouts who secure these merit badges, also achieve their Red Cross Junior Life Saving

and Water Safety Award. Many of them, when old enough — 17 years or older, qualify for their Red Cross Senior Life Saving Award. Every Scout in the area served by this paper is urged to take advantage of every opportunity to learn to swim. Some day you may save a life — and it could be your own!

Good milking practices mean a regular routine is observed by the dairyman. The udder is washed with warm water—the milking machine applied within 45 seconds or so after washing—and proper attention paid to all details.

Butchering should be postponed until you're sure near-freezing weather is here to stay. It requires near-freezing temperatures to cool down the 100 degree meat of a freshly slaughtered carcass to below 40 degrees in 24 hours.

Better Buy Buick!

PERHAPS you've noticed that there seem to be a lot of these brawny beauties running around on America's highways — and it isn't just that boldly gleaming front that spreads this impression.

It isn't just the fact that folks who own a Buick get such a bang out of it that they do a lot of driving.

Back of all this is another fact. It's a fact that contains a broad hint to anyone who'd like to know what's what in motorcar buys. 1950 Buicks are breaking all past popularity records, as registered in sales.

So we suggest that you do some personal investigating.

Find out, for example, how mas-

terful you feel, with Fireball power purring away the miles, at a "rolite touch of your toe on the gas treadle.

Find out how the jolts and jars seem to disappear, when you have big soft coil springs on all four wheels, and fat low-pressure tires on wide Safety-Ride rims.

Then there's Dynaflo Drive,* which Buick owners vote the biggest automotive hit that has come along in years.

With all this, there's room, and comfort, and road-hugging heft combined with a light and willing response to your hand on the

*Standard on Roadmaster, optional at extra cost on Super and Special models.

wheel — and prices that start down with the slices.

Seems like almost everyone wants to own one of these Buicks — and most people can. How about you? Isn't it a smart idea to see your Buick dealer now and get your name on his list?

Only BUICK has Dynaflo — and with it goes: HIGHER-COMPRESSION and with it goes: NEW-PATTERN styling, with MULTI-GUARD fender, taper-through fenders • TRAFFIC-HANDY size, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steady torque-tube

Mustangs Surprise Dearborn Lowry With Hair Raising 19-15 Defeat

In their first two games this season, Northville's Mustangs proved they could hand it out, but last Friday night they showed they can take it.

The Orange and Black squad saw a 12-0 lead against favored Dearborn Lowry melt away into a 13-12 deficit in a few wild minutes, then found the strength to score again, stall a murderous Lowry drive, suffer through a fumble which cost them two points and defeat Dearborn 19-15.

The Mustangs were in the underdog role when they squared off against Lowry at Fordson field but methodical drives in the first and second quarters paid off in two short touchdown dashes by fullback Leon Holman. An attempted dropkick and pass failed on conversion tries.

Lowry made their first bid for points in the third quarter with short jabs which carried them to the Northville 11-yard line after recovering a Mustang fumble on the 33, but three plays moved the ball only four yards and halfback Dick Gray grounded a fourth-down pass. Gray punted, but in five plays Lowry pushed the ball across on a quarterback sneak. The kick for the extra point was good and the score stood at 12-7.

When Lowry kicked off to Northville after the TD, Lady Luck turned her back. Holman ran the kickoff back to about the thirty-yard line, but fumbled

when tackled. A Dearborn line-man picked up the ball and, conveyed by a horde of teammates, carried all the way to score. The conversion kick was blocked, but in a matter of seconds, the Mustangs trailed 13-12 instead of leading.

The Mustangs ran an out-of-bounds kickoff from their 40 to the Lowry 43, gambled on a pass and failed. Lowry had to punt and Holman returned the ball to the 40. Then Holman made up for the touchdown fumble with gains of 10 and five yards, and a twelve-yard spurt that carried the ball to the eight-yard line and first down. On the first play, Gray ripped through left tackle and beat his way to the goal line, dragging three Lowry tacklers with him. Gray's drop kick was good for the extra point. Score: 19-13.

Dearborn, determined to get back into the game, began a drive from their 43. The heavy center of the line cleared the way for repeated line bucks, nearly all of them handoffs to a charging fullback or halfback. The drive carried to the Northville 15, and two plays netted five and three yards. But then the Northville line showed its great defensive strength, erected a brickwall, and stopped the next two plays cold on the seven.

On the first play after the Mustangs took over the ball, a pitch out to the left went wrong. The ball rolled into the end zone

where Don Maclean covered it, adding two points to the Dearborn total.

In the closing seconds, Lowry gambled with a pass, but Maclean intercepted on the three. The ball got away from him, but Don Graham picked it up. Maclean ran out the few remaining seconds with quarterback sneaks designed to kill time.

Gray and Holman, as usual, accounted for most of yardage gained by Northville. Outstanding in the game were the defensive strength and offensive punch of a team which doesn't average 155 pounds. Obviously outweighed in the line, the Mustangs dug in and found the drive when they needed it most.

Brighton... No. 4 for Mustangs?

The Northville Mustangs will be out to win their fourth straight game this season when Brighton comes to Ford Field tomorrow night at 8 p. m.

Brighton boasts a long record of wins, including a defeat of Northville last year. The line is reported to be fairly heavy, but the light Mustangs are getting used to being out weighed. The Brighton - Northville tangle should be the toughest test this year for the Orange and Black Squad.

October 13-20-27 games will be away, at Centerline, Inkster, Carver and Clarenceville.

Advance tickets for the game tomorrow night may be obtained from High School Varsity club members or at the High school.

Service Clubs Form Bowling League

A new bowling league got under way last night at Royal Recreation when teams representing and composed of members of the Rotary, Exchange and Optimist clubs began rolling.

The teams will bowl every Wednesday night, beginning at 9 p. m. Rotary and Exchange have a team each, and two teams represent the Optimist club.

Teen Aged To Get Bowling Lessons

Every Friday, for the next four weeks, boys and girls who bowl in the Saturday afternoon Teen Ageds league can obtain individual bowling instruction at Royal Recreation. The sessions will begin at 3:45 p. m.

Joe Alessi, proprietor of Royal Recreation, has offered his services as instructor for the children to improve their game. The only charge will be the actual cost of bowling.

ON CAPITOL HILL

NEWS and COMMENT

FROM CONGRESSMAN

GEORGE A. DONDERO

Political flip-flops are not limited solely to members of the American Communist Party.

This interesting fact was demonstrated recently by the lead story in the Wisconsin CIO News. This article proposed that the records of Members of Congress should be judged by comparing them with the voting record in the House of Congressman Vito Marcantonio, of New York.

According to the CIO News story, Marcantonio "has followed the (Communist) Party line devoutly." On this basis, the newspaper sought to show "how palsy-walsy Republican and Communist political ideologies become when it comes to voting time." The story was illustrated with a cartoon, showing the GOP and a "Commie" preparing to share the same bed.

This Marcantonio comparison is especially interesting, in view of the many "voting guides" issued by various pressure groups in American politics. Most significant, in this instance at least, of these voting guides are those issued by the CIO-PAC for the years from 1947 to 1950, inclusive. These guides tell whether a Member of Congress voted "right" or "wrong," in the opinion of the CIO, on every issue considered important by the CIO during each session.

In view of the new standard for determining the records of Members of Congress, suggested by the Wisconsin CIO News, it is surprising to note that in the 1947-50 period, Party Liner Marcantonio voted "right" 47 times, from the CIO standpoint, on a total of 52 "key" issues listed in the CIO-PAC voting guide.

Any sports editor would say that this was a batting average of .903, both for the CIO in the Marcantonio League, and for Marcantonio in the CIO League; more than enough to win the pennant in any league at all.

It is with a signal lack of regret that I concede my own batting average of somewhere around .076 (4 out of 52) in the Marcantonio League. As it happens, even Marcantonio, if he is a Party Liner, as the Wisconsin CIO News asserts, nevertheless sometimes votes with the Republicans. Some of the Fair Deal proposals in recent sessions of Congress were too much for the stomach, even of a reputed Party Liner.

Analysis of the CIO-PAC voting guides for the 1947-50 period shows, not only that Marcantonio voted "wrong" from the CIO-PAC viewpoint only four times out of 52, but also that one of the titular Democratic leaders in the House, an ardent supporter of the Truman administration, voted "wrong" only the same number of times out of 52, from that same CIO-PAC viewpoint.

On this basis, it might be suggested that the Fair Deal and the Party Liner, if he is such, possess identical batting averages in the CIO-PAC League. Instead of showing a cartoon with the GOP and the Party Liner preparing to occupy the same bed, the Wisconsin CIO News might better have substituted a Democratic Fair Deal donkey for the GOP.

All of this, of course, is both interesting and amusing, but has little significance, perhaps, beyond demonstrating who was boss in CIO political circles, prior to the purge of Communists in

labor union offices of responsibility and power. Possibly it may be taken, too, as a demonstration of the unique CIO-PAC ability to perform political flip-flops, without at the same time changing CIO-PAC politics.

Nov. 15 Deadline for Overseas Mail

(Continued from Front Page) sealed and sent first class. Although greeting cards may be mailed anytime, November 15 is the latest date that delivery can be expected to be made overseas before Christmas.

Federal law prohibits mailing perishables, lighter fluid and matches of all kinds.

Packages containing cigarettes and other tobacco products are unmailable through APO's located in Australia, England, France, Germany, Italy and Trieste and also the Navy No. 913, Fleet Post Office, Germany.

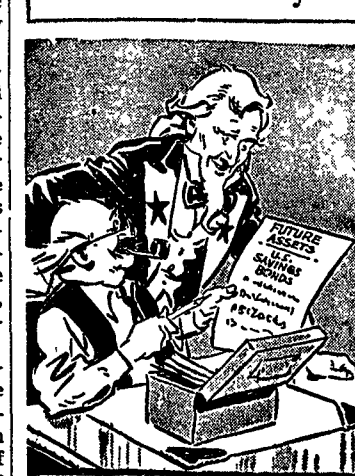

Postmaster Smith warns that boxes for overseas shipment must be of strong construction. Boxes of metal, wood or fiberboard are excellent. They must be tied by four separate pieces of cord, two lengthwise and two around the girth. It is also important that the contents be cushioned to protect against shock. To enclose a complete address in the package is quite advisable.

It is permissible to send hard candies, nuts, caramels, fruit cake and chocolate bars carefully wrapped in waxed paper.

A limit of fifty pounds has been set for Army Post Offices 124 and 125 c/o Postmaster, N. Y., N. Y. For all other destinations the parcels may weigh up to 70 pounds and may measure up to 100 inches in length and girth combined.

All mail should be carefully addressed with name, route number if rural, of street and number, and zone number if needed, town and state. Under new postal regulations it is very important to have the correct and complete address given as directory service can no longer be given to incorrectly addressed mail, and will be returned to the sender.

Plan Program for Expectant Parents

A new series of programs for expectant parents will be launched this year, the Wayne County Chapter of the Michigan Society for Mental Hygiene announced today.

The response to the first pilot program last year was so good that, despite the fact that only one series was originally planned, three were held. The new series will give expectant couples a chance to learn facts about childbirth and both physical and psychological factors which interest prospective parents. Leading physicians from Detroit act as instructors and discussion leaders. Several films and a style show will be featured at special meetings. The topics to be discussed include: "What Happens to the Baby During Pregnancy", "How Couples Feel About Pregnancy", "Emotional Needs of Infants", and "Family Adjustment During Pregnancy".

Details can be secured from the Michigan Society for Mental Hygiene, 153 E. Elizabeth, Room 645, Woodward 1-4005. The sessions will be held in Room 514 of the American Red Cross Building on Tuesday Evenings at 8:00 p. m., beginning October 24. Harold Webster, Executive Director of the Michigan Society for Mental Hygiene, announced that attendance will be limited to fifty couples.
