

Novi Methodists to Mark 125th Anniversary Oct. 15th

Novi Methodist Church will celebrate the 125th anniversary of the organization and the 75th anniversary of the present church building with special services on October 15 and 16.

Morning worship and sermon will begin at 9:45 a. m. October 15 with Rev. J. M. McLucas, the church's pastor, delivering the sermon. The choir will render two anthems and baptism, reception of new members and the dedication of new church furnishings will take place.

At the evening service beginning at 7:30 p. m., Bishop Marshall R. Reed, head of the Detroit Methodist area will preach the sermon. Former pastors attending the services will bring their greetings and the choir, accompanied by Mrs. Raymond Scheffer and directed by Mrs. J. M. McLucas will sing. Mrs. Merwin Campbell of Pinckney will be the guest soloist.

On Monday, October 16, a Family Night pot-luck dinner will be held beginning at 7:00 p. m. with the WSCS furnishing the coffee and rolls. The program for the evening will consist of talks delivered by Max Hewlett, Farmington attorney and Rev. Douglas Parker of Morenci, who is a former pastor from Novi. This program will conclude the anniversary services.

The history of the church dates back to 1830 when a group of people called Methodists organized the first Methodist society in Novi.

The following were among the original members: Mr. and Mrs. Henry VanAmburgh, Mr. and Mrs. Orange VanAmburgh and Mary VanAmburgh who were children of Rev. Henry VanAmburgh, a member of the Ohio Conference of the Methodist Episcopal Church. Other names appearing in the original membership were Mr. and Mrs. Caple, Mr. and Mrs. Willis Pardee, Mr. and Mrs. James Vandine and Lovisa Britton.

This group worshipped in a log school house for several years and later together with a group of Baptist brethren built a church for the use of both denominations. After some time the Methodist group discontinued worshipping in this building and later under the leadership of Rev. Thos. Nichols the Society was reorganized and met in the school house west of the present church building.

Among the names associated with this group were Ephraim Groner, Esther Groner, Mr. and Mrs. John A. Smith, Mary Cheesborough, Millie Ann Caple, Harriett Pardee, Alvin Sage, George Gilbert and Lovisa Devereaux. This group worshipped in the school house and in their homes until the present church was built in 1875. In the year 1871 Mr. C. Gage gave a deed to the land where the church was built, to the Trustees of the First Methodist Episcopal Church of Novi for the purpose of building a house of worship for the people called Methodists.

Rev. J. S. Smart, presiding Elder, dedicated the new church, debt free with fifteen members on the roll, and a balance on hand to build church sheds. The Baptist minister and his congregation attended the dedication services. In 1900 the 25th anniversary of the church was celebrated with special services. Rev. Seth Reed preached the anniversary sermon. At that time 40 members were on the roll and a Sunday School membership about the same in number. Rev. C. E. Marvin was pastor of Novi and Walled Lake Methodist churches. The men were active (Continued on Back Page)

Unique Hobby in Detroit Display

A very unusual hobby of doll repairing is the unique pastime of Mrs. Eleanor McKeague of North Rogers street.

When asked how she came to choose such a painstaking pastime, Mrs. McKeague replied, "Dolls have always been my treasure and I have most of the dolls I played with as a child."

A professional job of repairing a doll naturally requires a great deal of experience in perfection of a knack of working with certain types of tools and unusual equipment. For example, a blow torch is used for removing the peeled and cracked finish coating from the dolls' heads and bodies. Following this procedure, it is necessary to redecorate the doll and restore its features. A paint spray gun is most efficient for this. Mrs. McKeague finds it necessary to mix most of her own paints as flesh tints are not available in ready mixed form. The fine detailed work of the lips, eyelashes, eyebrows, and other features must be done with brushes. In many instances it is necessary to replace certain parts of the doll and therefore a supply of heads, wigs, arms et cetera are kept on hand.

The coming Christmas season promises a very busy time for Mrs. McKeague. Last year she and several colleagues repaired and dressed more than one hundred dolls for the children at Maybury Sanatorium, and this year the number is expected to be greatly increased.

Eleanor McKeague is a member of the Detroit Unit of the National Toy and Doll Collectors Club. She is now preparing exhibits for a show which is to be held Friday and Saturday, November 3rd and 4th at the Newberry House in Detroit.

Clothing obtained will be distributed by the Save the Children Federation in its program of assistance to children in isolated rural areas of the United States and in seven European countries.

Clothing collected by the Federation is distributed abroad for the relief of needy children in Austria, Finland, France, Greece, Germany, Holland and Italy. Cole Displays Collection at Art Institute

Lieut. Scott W. Cole, home on 45 day medical leave from Korea, has portions of his oriental art collection now on display at the Detroit Institute of Arts. The objects are part of the exhibition which opened on Sunday.

Cole first became interested in oriental art objects while he was a student at Wayne University. During World War II and the Korean War, his Army career has taken him to Japan and Korea where he has obtained first hand many authentic oriental art objects, increasing his collection to over 150 pieces.

On loan for the exhibit at the Detroit Institute of Arts are a collection of bronze tomb figures. The tomb figures, Cole said, were buried with the people. Many of them are warriors with a crusader like appearance. The tomb figures include Bodhistva, Buddhas, temple guardians, seated figures and dancers. The tomb figures are from Tang dynasty and are gilt covered with gold leaf. They are known as Wei Tartars.

Also on display are Temmoku porcelain bowls which were made in the Fukien province of China during the Sung dynasty in 960 A.D. The Celadon pottery dating back to 950 A.D., wood carvings and Japanese paintings are also a part of Cole's collection.

Cole said that the collecting of oriental art objects in the United States is a comparatively new hobby and warns against "antique rookeries." Many stores are pawning off worthless objects, he said, and the general public must be warned about such rookeries.

At the conclusion of his leave, Cole will report to Fitzsimmons General Hospital, Denver, Colorado for further medical treatment.

D. HARPER BRITTON

Auto Crash Claims D. Harper Britton

The Village was shocked and saddened last week-end to learn of the tragic death of D. Harper Britton, Northville attorney-at-law. Death occurred Saturday at Mercy Hospital, Bay City, following a four car crash Friday night on U.S. 23, two miles south of Pinconning.

Mr. Britton, accompanied by his father, Elmer Britton of Ann Arbor, was enroute to his summer home at St. Joseph's Island when the tragedy occurred. His wife, Sally and small son, John Harper, accompanied by Mrs. Britton's mother, Mrs. Edith Grier, had left Wednesday for California to visit their brother and son who was to leave for the armed service.

State Police said the accident happened when a truck, driven by Merrill Osterhout of Bay City, was forced to swerve into the middle lane of the highway to avoid hitting a car which had slowed down in front of him. As he swerved, his truck collided with a northbound car driven by Mary E. Hufnigel of Ypsilanti. Mr. Britton's car which was behind the Hufnigel auto sideswiped the truck driven by Osterhout. The senior Mr. Britton is still in Mercy Hospital, Bay City where he is being treated for facial injuries and fractured ribs.

The body lay in state until Wednesday noon at the Schrader Funeral Home and then was taken to the First Presbyterian Church where Rev. Harold Fredsell officiated at the 2:00 p. m. services. Interment was made in Rural Hill Cemetery.

Active pallbearers were Charles Schoultz, James Congo, James Littell, Robert Yerkes, Gerald Harrison and Carvel Bentley of Plymouth. Honorary pallbearers were Mayor Conrad E. Langfield and Village Commissioners, George Locke, Alton Peters, Jack Stubenvoll, Gerald Woodworth and Claude Ely.

Darwin Harper Britton was born forty-two years ago in Hudson, Indiana to Mr. and Mrs. Elmer Britton. He was graduated from Michigan Normal College, Ypsilanti, and the Detroit College of Law. For the past ten years he has made his home in Northville at 527 West Dunlap street.

"Always community minded," he was Village attorney; justice of the peace in Northville Township, former member of the Northville Township Board and superintendent of the Rural Hill Cemetery Association. His passing is a real loss to the Village and township of Northville.

He was a member of the Optimist Club, past president of the Exchange Club, member of the State Bar Association and was active in the formation of the local Barber Shop Quartet Society.

Surviving him are his wife, Sally and two year old son, John Harper of 527 West Dunlap street and his parents, Mr. and Mrs. Elmer Britton of Ann Arbor.

League Urges Curb on Gov't Wastefulness

The Northville Citizens League at their regular meeting Thursday passed a resolution that urges every person in the community to recognize the wasteful government spending and to do something about it.

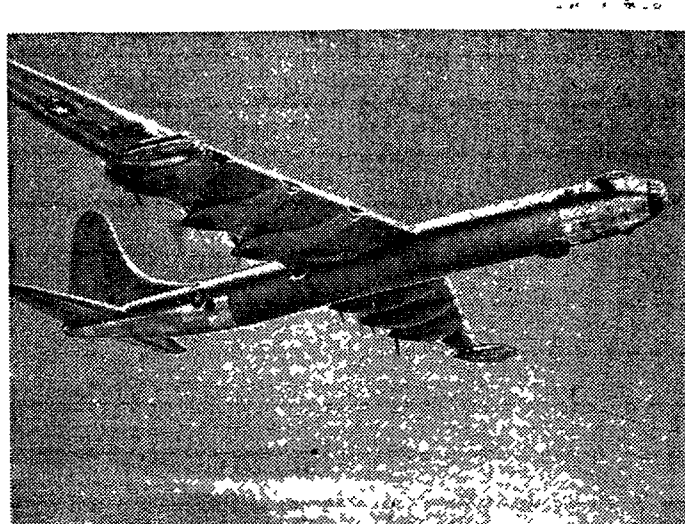

The League cites an example from a recent quotation by Senator John J. Williams on egg buying. The Senator stated that the Defense Department recently purchased four and one-fourth million dozen eggs at forty cents per dozen while the Agricultural Department has some 321 million dozen eggs in storage purchased at thirty-two cents a dozen under the farm price support program.

The Citizens League urges citizens to write their Congressman and demand an end to wastefulness. Only by a concerted effort from all citizens can we prevent the nation's being bankrupted by such poor business procedures.

William Weidner of Fairbrook Road and several friends from Pontiac anticipate spending the week-end in Lucerne, Michigan where they will test their skill at bow and arrow hunting.

Who Runs America?

the Congress? the President?

OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

THE VOLUNTARY WAY IS THE AMERICAN WAY!

• Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. • Today in America—70 million people are protected by Voluntary Health Insurance! • Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. • For information, ask your doctor—or your insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that

Land of the Free

BUT AMERICA IS NOT THE LAND OF THE FREE HANDOUT

Our Nation was founded on the principle that Freedom must be paid for—and is well worth paying for.

The American people have made great sacrifices in payment for liberty.

But they have refused to sacrifice liberty for promised "security"...to trade freedom for the spurious "safety" of State Socialism.

This firm is proud to be part of a community and a country where each American is free to worship

as he chooses—and grants that same privilege to his neighbor...where a business is free to create a better product, and to compete in the open market for patronage.

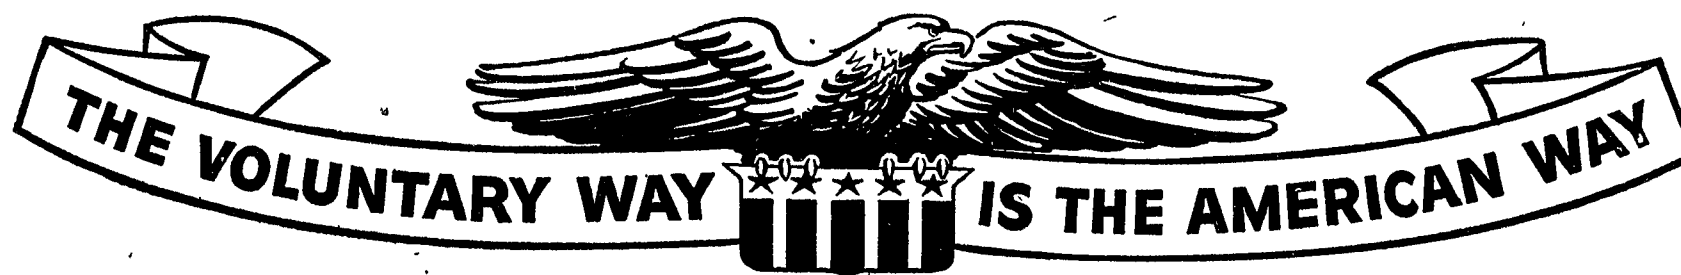

Unfettered by political controls, American medicine has made this the healthiest, strongest Nation in the world. Socialized medicine would endanger our physical health, our economic welfare and our political freedom.

With American medicine, we say...

Let's keep our right to manage our own lives...
to earn our liberty...to keep America the

LAND OF THE FREE

This message is presented by liberty-loving citizens of Northville who reaffirm their adherence to the principle of traditional American enterprise and initiative.

Miami, Fla. Home Awaits Mr. and Mrs. Wayne Harris

Marjorie McKeague of Miami, Florida and Northville and Wayne Harris of Miami, Florida and Enumclaw, Washington were united in marriage Saturday evening at the First Presbyterian Church.

Rev. Harold F. Fredsell read the first ring service before an altar flanked with candelabra and bronze and yellow chrysanthemums.

Candelabra were placed at each pew along with fall flowers tied with satin bows. Mrs. Michael O'Conner of Plymouth presided at the organ and Fred Kendall, also of Plymouth, sang Edward Lippe's, "How Do I Love Thee" and "The Greatest of These Is Love" by Roberta Bitgood.

Given in marriage by her father, Howard McKeague, the bride appeared in a waltz length gown of French imported lace over pale yellow taffeta. The gown was designed with a scooped neckline, bouffant skirt and a yellow bustle sash. A lace cap held her fingertip veil of illusion in place and she carried an arm bouquet of white gladiolus and stephanotis centered with two orchids. Matching necklace, earrings and bracelet, a gift from the bridegroom, completed the bride's ensemble.

Guerin Yerkes of Miami, Florida and Northville, was the bride's only attendant. She wore a gown of lime green bobbinette fashioned with an accordion-pleated skirt and draped neckline. A cap of bronze and yellow mums and net adorned her head and she carried an arm bouquet of yellow and bronze chrysanthemums.

Best man was Hugh Miller of Miami, Florida and seating the guests were Robert McKeague, brother of the bride, Paul Schweitzer of Toronto, Canada, cousin of the bride and Robert Ely of Northville.

For her daughter's wedding, Mrs. McKeague chose a Sanka crepe gown with moss green accessories. A corsage of Talamon roses was pinned to her shoulder.

The young couple then left on a six weeks' wedding trip to Seattle, Washington and Cranbrook, British Columbia. Marjorie's travel costume was a blue wool dress, with matching hat and gloves and gray cobra shoes and bag. A gray sheared opposum jacket completed the ensemble.

O.E.S. Celebrates Birthday Friday

Another milestone has been passed in the history of Orient Chapter No. 77, O.E.S., and its anniversary was honored last Friday, October 6, at the Masonic Temple. Past Matrons and Patrons, charter members, life members and honorary members were special guests.

The Chapter was opened at 5:30 p. m. and at 6:30 p. m. a delicious dinner was served. The tables were decorated with a facsimile of an anniversary train which stood up in the center of the tables, headed by a Diesel engine. Each section was lettered with the names of past worthy matrons and patrons with the year designated and the time of their service to the Chapter (consisting of 59 sections). Small vases of fall flowers centered the tables. Kerry Pattison and Ada Richards were responsible for the unique table decorations. An address of welcome was given by William Monroe, Worthy Patron, and the response was given by Eva Gray, Past Worthy Matron. A beautiful and delicious 7-tier cake was presented and its decorations were real rose buds and other floral trimmings. Esther Stone cut into this symbol of their birthday.

At the close of the dinner hour, the members and guests retired to the Chapter Room for the ceremonial. Esther Stone, Worthy Matron, and William Monroe, Worthy Patron, presided. Esther Stone greeted the members and guests with a toast for the year, and then with her corps of officers, formally retired and the following past matrons and patrons exemplified the degrees: Edith Strautz, Worthy Matron; Neil Hannaford, Worthy Patron; Angela Hannaford, Associate Matron; Horace Boyden, Associate Matron; Doris Atwood, Conductress; Dawn Holcomb, Associate Conductress; Lyda Murphy, Marshall; Nellie Freyd, Chaplain; Lydella Ely, Secretary; Hazel Boyden, Treasurer; Catherine Johnston, Organist; Ruth Denne, Ada; (Georgina Johnson was unable to fill the station of Ruth due to an accident resulting in a leg injury, therefore Kerry Pattison assumed her regular station; Marie Seitz, Esther; Iris Litsenberger, Martha; Ida Cooke, Electa; Mollie Lawrence, Warden. This was a present from the Past Matrons and Patrons to the Chapter, and also, a gift of money to be used in the furnishings of the new kitchen.

Ray Van Valkenburg was the soloist for the evening. Sarah Miller was the chairman of the dinner committee. With the newly decorated Chapter Room, a pleasant atmosphere, made this a pleasant evening of meeting old friends and new friends.

MICHIGAN MIRROR

NON-PARTISAN NEWS LETTER

The twang of bowstrings and the zing of arrows opened October in Michigan forests as a new army of Robin Hoods started a 36-day deer hunting season for archers. Does as well as bucks may be taken, except in a 20-county area of the north limited to bucks with at least 1/3-inch spikes.

At the same time, the season opened for new withholding tax deductions. Workers will find their first paychecks issued after October 1 subject to new income tax rates, roughly 20 percent higher than before.

Michigan Democrats are striving for harmony, a quality whose absence has plagued party relations in recent months. Forecasters agree that state Dems will need every asset to beat the G.O.P. in this off-year election, a trick they have not turned since 1912.

In Republican ranks, disharmony at the convention seems not to have upset that party's course too seriously. Former governor and present nominee Harry F. Kelly is putting up a good front of pleasure over the G.O.P. slate for state offices, although the convention went against his personal choice for attorney general.

The ranks of the unemployed are rapidly dwindling to nothing. State labor experts foresee in the next two months the most acute labor shortage here since 1943, as Michigan eases into its arsenal role.

Building is in the grips of the worst uncertainty in years. Sponsors of many large programs delayed plans after the war, then went ahead recently after giving up the futile wait for lower prices. Now Korea has already upped costs 10 to 15 percent, brought back escalator clauses and a whole new dilemma.

The wheels of the state's automaking machinery have reached a screaming pitch. Everything is right for production records: wage settlements (raises) promise labor peace, war threats promise customers. The only "if" is whether military production may demand enough materials to hurt output. By 1951, the year's production total should be over 6,000,000 units, 1,000,000 trucks.

War production will not hurt the auto industry seriously unless the car makers can't get steel. For the rest of it, designs can be changed to reduce chrome.

trim, copper parts, and the like. Cupid's aim improved about 100 percent when the Affaire Korea started. Marriage license bureaus reported rushing business. Kent county (Grand Rapids) set a summer record. Now brighter war news forecasts a decline in weddings.

The flight of dollars into "things" was maintained in September with a continued rise in war bond redemptions. The public is increasingly aware of the fugitive power of money during inflationary times. With the military spending now pledged, the danger is real, so people are turning to goods instead of savings.

The silver lining to this cloud is that inflation helps finance state government, may turn back the deficit. More sales at higher prices in Michigan stores mean more revenue for state and local governments from the sales tax. Collections are already running well ahead of last year.

Some Republican legislators have gone limbo so far as to hope publicly that the sales tax returns will soar high enough to spike Gov. Williams' arguments for a corporation tax in the state. The fallacy in this point of view is that inflation affects the cost of government as well as anything else, in due time. Any relief will be temporary at best.

Customers' Corner

Did you ever wonder what treatment is given the letters you write to Customers' Corner? Here's what happens to every letter received:

1. The letter is referred to the particular department or store involved for their study and reaction.
2. Once we get the necessary information your letter is answered.
3. If the subject is too complicated to be covered fully in a letter, a company representative visits you.
4. Your comments and suggestions are added to those of other customers to give us a better picture of what our customers want.

In other words, each letter is given the most careful consideration.

Won't you let us have your suggestions as to how we can make your A&P a better place to shop? Please write:

Plymouth — Annual and sick leave, insurance and work schedules of city employees will now be governed by a new set of administrative regulations worked out during the past few weeks by City Manager Albert Glassford, assisted by Commissioner Eleanor Hammond, Henry Fisher and Floyd Tibbitts.

Birmingham — Russell T. Berger, city treasurer, said this week that 94 per cent of the 1950 tax levy, due July 1, had been collected as of Sept. 30.

Emotional Factors Cause Draft Rejections

Wayne County was included in a report which showed that mental and emotional factors were causing nearly half of Michigan's high rate of Selective Service rejections.

The report was sent by Col. Glenn B. Arnold, State Selective Director in Lansing, to Major Louis B. Hershey, National Director.

Rejections for mental and emotional reasons are running higher now than during World War II, a late selective bulletin showed. According to this bulletin, during the first part of 1945, only about 43% of those called up for examination were rejected for mental or emotional factors.

"When better than one out of every nine men examined for military service in Michigan must be rejected for psychiatric, moral, or neurological reasons, the mental health crisis facing Michigan must be obvious," Russell J. Darling, State Director of the Citizen's Education Committee on Mental and Tuberculosis Hospitals, said in commenting on the report.

"The State's present mental hospitals are so overcrowded that more than 4,000 people are waiting for admittance because not a single hospital bed is available," Darling said.

This figure includes thousands already committed to mental hospitals by the courts, as well as an estimate of others known to need mental hospital treatment, he explained.

plained. The \$65,000.00 bond issue for mental and tuberculosis hospitals, which will be on the November 7th ballot, is the best chance we have of meeting the mental health crisis which confronts us," Darling declared.

He explained that citizens of Wayne county, as well as all other counties in Michigan, are directly affected by the crisis.

Bell Co. Announces Wartime Measures

William M. Day, vice-president and general manager of the Michigan Bell Telephone Company, announced plans today for the reactivation of most of the Company's wartime security measures for the protection of its buildings and property.

At the same time, Day said that "Michigan Bell facilities and the skill of its employees are further advanced for emergency than ever before." He expressed confidence that the Company will be able to meet "every military and war-production need" arising out of the Korean situation.

Measures being reinstated by the Company include the cancellation of "open house" activities at key points and other visits to central office buildings by public groups, placing of highly-important facilities under lock, drafting of disaster plans in certain key communities of the state, and resumption of a pass admission system to locations where vital facilities are housed. The latter will take some days to put in full effect.

Among the more important public activities affected by the security program will be the scheduled "open house" to celebrate the completion of the \$1,500,000 addition to the Kalamazoo central office building. Planned as a public event of early fall, this and similar activities are canceled.

Employees are being alerted as to their responsibilities in safeguarding the Company's plant and its service. Emergency equipment inventories are being checked as a contingency against possible damage to telephone buildings and property. Alternate cable routes, using existing facilities, are being set up.

During the last war, the Company installed stand-by Diesel power units in its principal central office buildings to permit

continuation of telephone service in the event of community power failures. Division plant superintendents are checking to determine whether additional units are advisable.

The Company will maintain close liaison with police officials to supplement its own protective network and with defense authorities to provide facilities for air-raid warning and other community protective systems.

"Since the last war," Day said, "Michigan Bell has expended nearly a quarter of a billion dollars on more and better facilities.

"Never before have so many people had telephone service. More than 668,000 telephones have been added by the Company throughout its territory since VJ-Day.

"We have 22,000 employees trained in communication skills. The Telephone Company and its people traditionally have stood up well in the face of disaster. In times like these when the national security is threatened, we are confident that we can meet the test, if and when it comes."

I'm grateful for any menial task when I can't get an idea to set down here. I'll sort checks, help move a safe, deliver a message or what have you. An empty head is unbearable.

Building Materials Shortage To Ease

Temporary local shortages of building materials are expected to disappear within the next few weeks, and the supply during the next year should be sufficient to meet all demands, according to Harold C. Church, local building materials dealer and member of the Public Affairs Committee of the National Retail Lumber Dealers Association.

"Because of freight car shortages and the unprecedented volume of building throughout the country, cement, rocklath and sheetrock have been in short supply during recent weeks, but most materials are being produced at record rates and the supply promises to catch up with demand in a short time," Mr. Church said.

"Although the new Federal credit restrictions may cut down housing construction by about one-third locally and elsewhere in the next 12 months, it is generally believed that the number of new homes built may still run as high as 800,000 or more, depending on the effect of credit restrictions and defense needs for materials.

"In general, so far as the materials supply is concerned, families planning to build or modernize a home will be able to do so, provided they are in a position to meet the slight increases in down payments and monthly payments.

"From all indications there also will be a large amount of farm and commercial construction, because farmers' income is expected to be high and many merchants have not yet gotten around to modernizing their stores. No credit restrictions have been placed on either farm or commercial construction.

"Unless the defense program is stepped up beyond the present schedule, there will be a relatively large amount of steel, copper, and other strategic materials for construction uses after defense needs are met, and many building products require no critical materials whatsoever."

Mustangs Trample Brighton 32-13, Snap Long Bulldog Winning Streak

Northville's Mustangs thoroughly whipped a highly-touted Brighton football team last Friday night, 32-13, snapping a string of Bulldog victories reported at 26 games. Fullback Leon Holman rammed over two of the TD's, Left Half Oakley Shoemaker got another, Captain Dick Gray got a fourth and flipped a pass to Left End Don Graham for the other tally. Gray added two points by drop-kicking one conversion and rushing for another.

"The Mustangs, physically and mentally keyed for the game, demonstrated effectively what can happen when the line and backfield work in close harmony. The light line, always tough on offense, opening holes where they were supposed to be, and blocking hard downfield.

The backs, sprung free into the secondary, picked up almost two hundred yards rushing. Gray carried 19 times and Holman 17, each averaging almost 5 yards a try. Shoemaker ran with the ball six times for a 5 plus average. Quarterback Don Maclean carried three times, each on a quarterback sneak, to pick up two first downs.

Brighton got into trouble on the first play, fumbling on their own 25, with Prom covering the ball for Northville. The Mustangs moved to the 7 but gave up possession on a pass that failed. When the Bulldogs punted four plays later, Bob Cole rammed through from guard to block the kick on the ten. Holman swept off right tackle to score, with Gray clearing the way Gray's drop-kick was good for the extra point.

In the second quarter, Brighton and Northville exchanged fumbles at midfield, traded punts, and the Mustangs moved again. On a series of plays originating on the Brighton 41 yard-line, Holman and Gray picked up 16 yards, then Gray's pass to Graham connected and Graham went across standing up. Gray hit the line for the extra point.

Shortly after the second half opened, Gray's punt from his own 23 was out of reach of the Brighton safety man. The ball bounded off his fingertips and Guard Del Black, coming downfield fast, covered the ball. A drive carried the Mustangs down to the Brighton four-yard line and first down, but the threat stalled when the Bulldogs unleashed the most vicious exhibition of tackling in the game, pushing Northville back to the 12 and taking the ball.

Brighton got a first down as the third quarter ended, but had to punt. Holman, at about the 30 yard-line, came in fast to take the short kick and provided the spectators with the biggest thrill of the game. The ball squirted through the fullback's arms and bounded forward Holman took the ball on the first bounce and ripped 70 yards down the sidelines to score. The conversion attempt failed.

Gray intercepted a Bulldog pass on the 32 three plays after the kickoff and the Mustangs, aided by a five-yard penalty, headed for paydirt again. This time it was Shoemaker who scored, on an off tackle slant from six yards out. The conversion was unsuccessful.

With a 26-0 lead in the last quarter, Coach Al Jones called on his reserves, benching the varsity. On the kickoff, Brighton's Wisser, who had played an outstanding game at quarterback all night, uncorked a fine 80-yard runback to score and revitalize the Bulldogs. The extra point try was no good.

With the game in the final minutes, Northville staged a 68-yard march to the Brighton end zone, Gray scoring on a four-yard spurt after passing 26 yards to Bob Prom at the four-yard line.

In the last minute of the game, Brighton exploded with a version of Northville's spread formation to score on two plays from 44 yards out. Wisser took a pass and stepped seven yards to the goal line. The game had ended on the TD, but the conversion kick was good.

Try to do to others as you would have them do to you, and do not be discouraged if they fail sometimes.

(Continued from Front Page) in the church for a time and then becoming disinterested, an Official Board of all ladies was elected. Trustees: Mrs. Sarah C. Taylor, Mrs. Wm. VanFleet, Mrs. Spencer; Steward, Mrs. Lillian Leavenworth; Class leader, Mrs. S. J. Hewlett; President of Epworth League, Miss Lulu Becker. The Sunday School also consisted of all ladies as teachers and officers. At that time it was the only known church in Methodism that was controlled by an all-ladies official board. This church was closed for some time and reopened by Rev. Wm. Richards of Northville June 2, 1929. Dr. John Martin was District Superintendent. There has never been a resident pastor in the Novi Methodist church, the church being served in connection with Walled Lake, Northville and Garden City Methodist churches, and since June 1944 the church has been served by Rev. J. M. McClellan, present pastor, in connection with the First Methodist Church, Brighton. During this summer many improvements have been made on the church property. Interior decorating,

new lights, new colored glass windows, oil heat and outside painting, new communion glasses and covers, pulpit Bible, Baptismal Font and Altar and new hymnals. All these improvements are paid for and the church is debt free. The membership of the church and Sunday School is the largest in its history and financial support has broken all records. The W.S.C.S. has played a very important part in raising the necessary funds for the improvements.

ON CAPITOL HILL NEWS and COMMENT FROM CONGRESSMAN GEORGE A. DONDERO

In the frenzied last-minute effort to change the Korean war from a political campaign liability into a campaign asset for the Truman administration supporters in Congress, now it is whispered that General Douglas MacArthur is far from being the great military genius the American people had believed.

This contemptible piece of ingratitude toward the man whose brilliant strategy in some degree is pulling the Trumanites out of the political mire created by the Administration's disastrous policy of appeasing Communism in Asia, reputedly was thought up by the boys, and their boy friends, in the State Department. It is even said that MacArthur's conduct of affairs in Japan, and particularly his forthright pronouncement with respect to Formosa, make him directly responsible for the North Korean Communist invasion of South Korea. No "big lie" ever invented by the State Department pinkos could have been more ridiculous.

As a matter of clear fact, known to everyone, MacArthur's policies in Japan, which he formulated himself, over the protests of the fellow-travelers, have made the Japanese people as a whole ardent allies of the United States. As a matter of fact, known to everyone who can read an ordinary calendar, MacArthur's visit to Formosa and his statement on the necessity of defending that citadel of American defense in Asia, came after and not before the outbreak of hostilities in Korea.

State Secretary Dean Acheson, himself, told a Congressional committee that MacArthur never was consulted on policy in Korea prior to the Communist invasion. Thereby Acheson tacitly admitted that MacArthur was called in only after the State Department and the White House had failed miserably. As everyone knows now, MacArthur was pitchforked into the Korean campaign with an impossible, small and poorly equipped army. His superlative skill, and the willing sacrifices of American boys in uniform, prevented another Bataan. In the end, MacArthur's strategic genius turned an American debacle into a route of the North Korean Communists.

Thus the State Department boys, with what would seem to be the tacit approval of the White House, have put themselves on record. Instead of expressing their gratitude to MacArthur, as any honorable men would, they are trying to cover up their own pitiful mistakes by smearing a man who will go down in history as one of the greatest generals, one of the greatest administrators, one of the greatest diplomats of all times.

On the one hand, there is this war in Korea, which could have been avoided, and which goes on at the cost of American lives and the spilling of American blood. On the other hand, there is a national election coming up here at home. And Democrats who are seeking re-election to Congress say that the favorable turn of events in the Korean war lends support to their claim upon the suffrage of the American people. When these two things are placed side by side, it makes one wonder if the Democrat politicians quite realize the meaning, the real implications, of their boast that successful warfare in Korea will win for them in the November 7 election.

Governor Attacks Truck Overloading

Trucks that break down Michigan's highways with overloads are the subject of a two-way attack by Governor G. Mennen Williams.

Governor Williams' investigation disclosed that teeth in the state's Michigan Vehicle Code are not being used to effect maximum control. These "teeth" include, for repeated violations, maximum fine up to 2c a pound for all excessive weight, and suspension of licenses on trucks or whole fleets for not to exceed 90 days.

"We discovered one record of a truck overloaded by 22,000 pounds," Governor Williams said. "That could have meant a fine of \$440 and elimination of that violator's trucks from the highways for 90 days."

The Governor found that the State Highway Department had records of previous violations, but had worked out no plan for getting the information to local justices, who, therefore, were sentencing each case as if it were a single violation, generally assessing a small misdemeanor fine. Governor Williams advised Highway Commissioner Charles M. Ziegler that it was his responsibility to get that information to the courts in cases coming before them.

"Such enforcement," Governor Williams said, "will soon stop willful violators, and will enable law-abiding truckers to get maximum use of good highways in their business."

For better handling of the problem in the future, Governor Williams has appointed a commission to determine what rules and regulations should govern trucking and how they can best be enforced. Dr. Paul G. Kauper, University of Michigan law professor, is chairman of the commission. "Through this double-barreled approach to the problem, we can reduce to a minimum current damage to Michigan's highways from excessive loads," Governor Williams said, "and I hope a thorough study will give us still better protection in the future, against overloads wastefully destroying our huge investments in state, county and township roads, and city and village streets."

Bundle Day . . .

(Continued from Front Page) areas of eight Southern and Midwestern States and on the Navajo Indian Reservation, in which the Federation operates its sponsored school program. Many of the children in the American areas served come from families with cash incomes of less than \$400 a year. If it were not for the Bundle Day collections, thousands of these children would not be able to attend school during inclement weather because of lack of proper clothing.

Superintendent R. H. Amerman said that wearable clothing of all types, in both baby's, children's and adult sizes; blankets, sheets and other bedding, and pairs of outgrown shoes are needed.

"I hope we will give a bit of ourselves with these gifts, by cleaning and mending the garments so they will express our good wishes for the children who receive them," he said.

A number of shipping bags have been ordered from the Federation, and leaflets will be given to all children in the school system to take home during the week, stating the purpose of the drive and asking the cooperation of parents.
