Northville Churches Join To Solicit Funds for CROP

Northville's churches are joining in the Christian Rural Overseas Program to aid needy people overseas. Rev. Lorenzo E. Woods, pastor of Our Lady of Victory church heads the drive and he is being assisted by Harry Sedan of the Methodist church, F. W. Sterner of St. Paul's Lutheran church and Rev. Harold F. Fredsell of the Presbyterian church.

This Sunday, worshippers will receive a brochure explaining CROP and on the following Sunday, they will be asked to donate money for the purpose of bringing relief to hungry and homeless people overseas. Donations may be made to the ministers of the various churches or to the above named representatives.

Effectiveness of the CROP program is based on the fact that the food is always given free to those in extreme need—regardless of race, nationality or religious affiliation. The food is distributed by church workers who are competent and experienced.

CROP's purpose is to feed the hungry, speed rehabilitation and to help build a better world. Especially needed are grains, soybeans, livestock, dairy products, dried products, dried nuts, nuts, raw cotton and wool.

Organized in 1947, 3,555 carloads of food weighing over 200,000,000 pounds have been collected. Countries which receive relief shipments of foodstuffs are Austria, Belgium, Burma, China, Czechoslovakia, Finland, France, Germany, Greece, Holland, Hungary, India, Indonesia, Italy, Japan, Korea, Lebanon, Malaysia, Mexico, Okinawa, Pakistan, Philippines, Poland, Siam and Yugoslavia. The U. S. government has given recognition to CROP and our government pays overseas freight for shipments destined to Marshall plan countries.

Truman Praises Business Women

Posters with the caption, "Measure Up for Full Partnership" in local merchants' windows are reminding citizens that this week is National Business Women's Week.

President Harry S. Truman in a letter of praise and encouragement for "National Business Women's Week," sent to the National Federation of Business and Professional Women's Clubs, Inc., on their 23rd anniversary commended the members for their theme.

"I know that the members of the National Federation of Business and Professional Women's Clubs wish to be judged on the basis of competence, in doing their jobs," his message states. "They do not wish to be the objects of adverse discrimination nor the subjects of special favoritism because of their sex."

"I am happy to give encouragement to the theme, 'Measure Up for Full Partnership,' which you have chosen for National Business Women's Week. I believe the steps which lead to success on the job are basically the same for both men and women. The most successful men and women I know have set their goals high and worked hard toward them. Successful people know that creative imagination as well as technical ability is necessary to adequate preparation for real partnership in a world's work."

"I am glad that American women are rising to their opportunities for work in business and the professions. Their participation in the activities of offices, conference rooms and legislative halls is good for the country. I am sure that the members of your organization will be increasingly successful in the everyday job of living up to your theme for 1950."

Campaign To Stress Pedestrian Safety

Night driving hazards will be the theme of the state-wide November traffic safety campaign, it is announced today by State Police Commissioner Donald S. Leonard.

The campaign, one of six being undertaken this year, is sponsored by the Michigan Association of Chiefs of Police and the State Safety Commission, in cooperation with the National Safety Council.

With the slogan, "Beware of the Careless Walker," special emphasis will be placed upon pedestrian safety.

Leonard pointed out that last year in Michigan alone 7,494 pedestrians were injured and 419 killed.

"It isn't always the driver's fault," he stated. "Pedestrians take unnecessary chances and make themselves targets for injury or death, particularly at night. Nevertheless drivers should be on watch for them, for it isn't pleasant to kill or injure a person even though you may not be at fault."

Statistics reported by 29 states show that night time driving is 23 1/2 per cent more dangerous in the number of accidents which are fatal and the night mileage death rate is three times the day death rate for cities and 2 1/2 times the day rate for rural areas.

"Police departments and safety groups throughout the state will participate in the campaign," Leonard said. "It is our hope to bring forcibly to the attention of drivers the necessity for greater vigilance and care when driving at night because of the extra hazards that are involved. Reduced speed, headlights and tail lights in working order and alertness will be stressed in the effort to lower the death and injury toll."

Dr. Norman Vincent Peale, well known columnist and author will tell a Detroit Town Hall audience how to break the worry habit, Wednesday morning, October 25, at eleven o'clock in the Fisher Theatre.

J. Littell Named Village Attorney

At a special meeting of the Village Commission Friday evening, James E. Littell was named Village attorney. He succeeds the late Dr. Harper Britton to that post.

In regular session Monday evening, the Village Council voted to buy a Ford V-8 three-quarter ton pick-up from Bev. Smith Motors, Inc. Payment of taxes without penalty was extended until December 1.

The Council discussed care of the trees throughout the Village. They instructed Mary Alexander, clerk, to contact Merrill Sweet, asking him to come to the next Council meeting to discuss tree trimming problems. No further business appearing, the meeting was adjourned.

Schools To Conduct Clothing Drive

Clothing given at the Save-the-Children "Bundle Day" drive in the Northville schools will help to clothe approximately 165,000 children in America and overseas, according to information principals C. T. Pregitzer and E. V. Ellison have received from the Save Children Federation, which distribute the clothing.

The local drive, to be conducted during the week of October 23-27, is part of a nationwide "Children's clothing crusade" conducted in public schools throughout America under auspices of a National Advisory Committee of school superintendents.

About a third of the children who will be helped are in seven war-depleted European countries. The rest live in disadvantaged rural areas of America and on the Navajo Indian Reservation and belong to such low income groups that they are to a considerable extent dependent on this clothing in order to go to school.

Mrs. Gordon S. White, director of the Federation's New York Workroom, which packs all Bundle Day clothing sent overseas, and much of that for domestic use, has some pointers for clothing givers who want to be sure their clothing will do the most good:

Most important is warm clothing—heavy underwear, wool skirts, suits, sweaters and coats. Bundle Day clothing goes to people whose first need is warmth—not style. If the clothing is warm, even adult sizes can be cut down and gratefully used.

Children's shoes are next in importance. Even though scuffed, America's outgrown shoes still have miles of use left in them. Here again, some adult sizes can be used. But, she warns, high-heeled women's shoes are of no use to either mothers or children in areas served by the Federation.

Babies' clothing is in constant demand. Diapers, crib-blankets, night-shirts, warm sweaters and undershirts are needed. The Federation features prompt shipment of all Bundle Day clothing. Overseas, all clothing is given away. In America it has been found a sounder social practice to make a small token charge, when feasible, for proud mountain families who "don't want charity" but who often are none the less unable to purchase adequate clothing for their children.

Clothing for such isolated rural areas is placed on racks, the prices marked. A child's sweater may be priced at 25c or 35c. Other prices are similarly low. After allowance has been made for expenses, the proceeds of the sales are used for the further benefit of children in the areas served. Care is taken to see that none is denied clothing for lack of ability to pay.

CROP Needs Your Gift Commodities

If on your doorstep, you found a hungry waif, you would feed him. Of course you would. Thousands of hungry, homeless orphans need your help, but the problem cannot be solved alone. It takes many working together to ease the pain of hunger. The Christian Overseas Program, CROP, is the means through which folks can work together to send donated American farm commodities to thousands of destitute persons overseas who are too poor to purchase goods made available by the Marshall Plan and ECA.

CROP is the program through which friendship foods are solicited from farm people on a community-wide basis and then turned over to established relief agencies of the donor's choice for distribution overseas to orphanages, institutions for the aged and ill, refugees and the hungry, irrespective of race or creed.

CROP's purpose is to feed the hungry, speed rehabilitation and to aid in building a better world. This can be done with commodities that sustain life and provide hope-restoring employment.

U. S. government recognition has been an important contribution. This is demonstrated by the fact that our government pays overseas freight for CROP shipment destined for Marshall Plan countries.

Since CROP's beginning in 1947, 3,555 carloads of foods, weighing over 200,000,000 pounds have been collected. The following major commodities composed the shipments: barley, beans, buckwheat, canned milk, corn, oats, rice, cotton, flour, lard, milk powder, milo-maize, nuts, rye, seed corn, seed wheat, soybeans, sugar, wheat and wool.

The date of delivering the grains you wish to donate to CROP will be October 30. They will be taken to the Ypsilanti Co-op.

Cash donations for the needy of Asia and Europe may be given to your minister on October 29. This is deductible from your income tax.

A broadcast for CROP will be given on WJR, October 22 at 8:35 a.m. to further explain its functions.

To the Editor

In response to your editorial of September 28th regarding the International Union of Students: The basis of the I. U. S. is not politics, but cooperation. Its goals transcend any political lines. They are goals of importance to all students, regardless of their political beliefs.

Every country in the world was represented at the congress in Prague. But, because the Communists delegates were there, it doesn't necessarily follow that the other delegates were Communists. No delegate there was interested in the politics, religion, or race of any other delegate. Each came there with work to do, and had no time to pry into the personal beliefs of other delegates.

It is an unfortunate thing that the United Press and the Associated Press embarked on a campaign of red-baiting against the I. U. S. that was completely unjustified, and leveled several completely untrue charges. I attended that Congress; the U. P. and A. P. correspondents did not. The entire press campaign was based on a series of rumors that had no truth attached to them.

Sincerely,
 Edward P. Lanning.

IF YOU'RE PALE AS A GHOST!!

When your skin has a pallor (sallow complexion) with that faded-out look, or your nerves are jaded and you have that "all-in" feeling, it is usually due to one thing, that is:

BLOOD POVERTY

Your blood cells may be fagged-out or shrunken, and you might not realize it. Even if you eat the "best" foods you may not be getting all the good out of your meals simply because you have SLOW Digestion, without knowing it (or gassy stomach) and as a result you are a victim of Blood Poverty! In other words, your blood is not getting the fullest good out of what you eat. So your blood-cells become worn-down and you have only half as much energy as you really need. You get up in the morning still tired, and your nerves become dull.

Hundreds here in Northville suffered with "faded-out" blood and stomach gas until they got CERTA-VIN. This is the new medicine containing 12 Herbs blended with Vitamin B and Iron; you take it before meals and it works with your food. Benefit comes quickly. Your food digests FASTER, with less gasiness, and you get more good out of your meals. In a few days your blood is energized with new red cells and your nerves become stronger. Weak, rundown people tell us they soon feel different all over. And best of all, our price on CERTA-VIN is reasonable. You can actually take this New, modern medicine for only a Few Cents a Day! So don't go on feeling half sick and half-well. Get CERTA-VIN—Northville Drug Co.

last Sunday evening from a visit with relatives at Flint. With them they brought armfuls of giant dahlias, untouched as yet by frost.

Mrs. Leslie Grundy is mourning the death of a sister who passed away at her home on Ten Mile Road Sunday morning.

Rally Day will be observed in the Neighborhood Bible School Sunday, October 22.

\$277,886 Paid For Leasing Privileges

A record 153,802 unproven acres were leased by 33 oil companies and independent operators at conservation department public oil and gas lease auction. Bidders also established a new record by paying the state \$277,886 in bonuses for leasing privileges.

The department's lands division reports the auction produced the highest average bid per acre, \$1.80, since 1941.

Nearly 74,800 acres of the record 194,404 acres offered for oil and gas exploration were leased by the Brazos Oil and Gas company of Houston, Texas. Carter Oil company of Grand Rapids made top bonus bids on another 29,242 acres.

Only proven acreage offered, a 76-acre parcel in Kalkaska county, brought \$6,700. The tract is near a producing gas well recently discovered in the Cannon creek field.

Usually when you tackle one of those classics you "ought to read," you find (a) it's in eye-straining type, and (b) it's pretty dull.

Hunt-Dayton Vows Pledged Thursday

In a candlelight ceremony, Dorothy Hunt, daughter of Mr. and Mrs. Robert Hunt of Novi, became the bride of Charles Dayton, son of Mr. and Mrs. Acel Dayton of Base Line Road. The double ring rites were performed at the First Baptist Church, Thursday, October 5, at 7:30 o'clock, Rev. Walter Ballagh, officiating.

Nuptial vows were repeated before an altar flanked by white gladioli, chrysanthemums, palms and candelabras. Norma Burnette presided at the organ, and Betty Hay sang "Through The Years" and "I Love Thee". Given in marriage by her father, the bride was attired in a gown of white slipper satin, fashioned with long, snug sleeves

ending in points over the wrists. The neckline of illusion and chantilly lace was accented with a small bertha of satin, and the full skirt fell over a hoop ending in a short train. Her fingertip veil was caught to a satin and chantilly lace crown. A sheaf bouquet of white chrysanthemums and gladioli, accented with ivy, completed her ensemble.

Mrs. William MacDumma, Jr., of Novi, attended as matron of honor. She chose a blue-gray dress of taffeta with small bertha edging the illusion neckline. A bouffant skirt fell over a hoop and a bouquet of contrasting flowers completed her attire.

Bridesmaids were Mrs. August Tierman of Farmington and Velma Dayton, sister of the groom. Mrs. Tierman was gowned in yellow marquisette over taffeta, fashioned with a stand up collar and a bouffant skirt. Her bouquet was of lavender mums and gladioli.

A green gown of an identical style was Velma's attire. She carried a similar bouquet of yellow mums and gladioli.

Harold Dayton served as best man for his brother. Ushers were Ralph Hunt of Farmington and Robert Dayton of Northville.

For her daughter's wedding, Mrs. Hunt chose a green crepe dress with black accessories. Mrs. Dayton was attired in a navy blue lace dress with gray accessories. Each mother was presented

False Rumors Worry Hunters in This Area

Wayne and Oakland counties are not closed to hunting this fall.

Somehow, rumors have been spread that the counties are out of bounds for hunters and conservation officers have been kept busy setting inquirers straight.

Three townships in Wayne county — Dearborn, Redford and Grosse Ile — are closed to all hunting by legislative act as are two townships in Oakland county — Bloomfield and Southfield.

Conservation Dept. Warn Duck Hunters

Waterfowl hunters who insist on taking chances or those who have no qualms over being labeled poor sports can disregard conservation department hunting suggestions.

Handle your gun, loaded or not, with the care due any gun, especially in a boat.

Do not go out on rough water without proper boating equipment.

Not more than two duck hunters should load into one boat.

Proper boating equipment does not include alcohol.

Keep untrained dogs out of the marshes.

Stay a reasonable distance away from the other hunter's blind.

Other hunters will not appreciate your practicing on their decoys.

Do not try to "stretch your gun barrel." Effective range of the shotgun is about 35-40 yards.

Amateur duck callers probably would do a lot better by leaving the gadget at home.

Ask for permission to use private property as a boat-launching site.

And remember it is not necessary to get the bag limit to have the hunting trip considered a success.

Largest Black Bear Falls To Archer

The largest black bear ever taken in Michigan with bow and arrow has been shot by archer Dean P. Loveless, Hamtramck, while hunting 15 miles north of Newberry.

Conservation department game men speculate that the over 600-pound male bear also may be larger than any taken with a gun.

The giant animal dressed out at 555 pounds and before probably weighed between 50 to 100 pounds more, according to M. K. Summiers, department district supervisor who examined it. In 1943 an estimated over 600-pound bear was shot with a gun in the Dead Stream area by a Houghton Lake area native, Arthur Jackson.

The bear taken by Loveless had six-by-nine-inch front paws, over 40-inch collar size and was seven feet and two inches in length.

Loveless says this was his fifth bear and ninth deer in nine years of hunting with the bow.

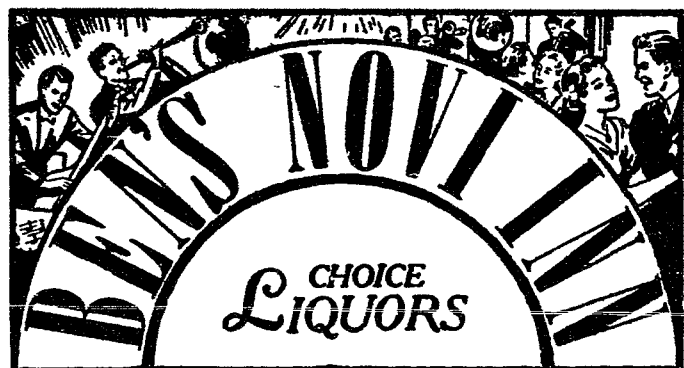

Hunting with his wife Lillian and Mr. and Mrs. Henry Burnell of Detroit, Loveless reports he shot the bear with a 70-pound bow from a distance of 41 feet. He says the bear ran about 40 feet before dropping. The arrow not only pierced the heart but extended a good two inches through the other side of it.

Loveless says he has yet to get a deer with bow and arrow this season.

All successful individuals have become such by hard work; by improving moments before they pass into hours, and hours that other people may occupy in the pursuit of pleasure.

Mustangs Get Past Center Line 25-21 for Fifth Straight Win This Year

Northville's Mustangs passed the mid-season grid mark by hanging up a 25-21 victory—their fifth straight this year—over Busch High School of Center Line in an away game last Friday night.

The Mustangs ran up a 19-0 lead in the first half but almost lost control in the third and fourth stanzas as Busch came back strong. Northville stalled a strong Busch bid for victory in the final minutes deep in Mustang territory.

Northville's performance was far off the form the Mustangs displayed against Dearborn Lowry and Brighton in the two previous games, but it had its bright spots. The Center Line tussle was good evidence that a team can't be "up" week after week.

The new rule this year which declares a fumble to be a free ball accounted for a touchdown by each team, both scored by linemen. Center Denny Curl picked up a Center Line fumble on the Northville 10 and raced 90 yards to score in the second quarter. End Phil Gough returned the favor in the last play of the half, grabbing a Northville bobble to go 45 yards to the end zone.

The Mustangs jumped off to an early lead, scoring the first time they had possession of the ball. Center Line punted to Northville, in the opening minutes and on the first play, Halfback Oakley Shoemaker scooted 39 yards on an off-tackle slant to score. Halfback Dick Gray's conversion kick missed.

Center Line took the kick-off, did nothing on three plays and kicked to the Mustang 44. Gray added four runs to Fullback Leon Holman's eight-yard effort to move the ball to the two-yard marker. Quarterback Don Maclean carried inches short of the goal-line, from where Gray plunged over for the second score. This time Gray's drop kick was good for the extra point.

The third Northville tally was Curl's 90-yard dash, with End Bob Prom's perfect block springing him free. The conversion missed.

As the half ended, Gough scored for Busch after picking up a Northville fumble. The extra-point kick was successful.

Center Line took the second-half kickoff, but stalled, Northville taking over on the Mustang 25. Holman then uncorked two beautiful runs of 24 and 49 yards behind sharp downfield blocking, driving to the Busch two. He hit the line for one yard, and Gray cracked through to score from there. An extra-point pass from Gray to Maclean was incomplete.

With the score 25 to 7, Center Line took control, scoring on a pass from Tom McGroarty to End Buck Baril. McGroarty set up Center Line's third score by intercepting Gray's pass on the Northville 24-yard line and scored from the seven on a spurt around right end. The successful extra-point attempt brought the score to 25-21.

Center Line made a final bid late in the last quarter after recovering a Mustang fumble on the Northville 45. Busch moved the ball to the 16 in two plays, tried the center for no gain, and

lost the ball after the Mustang secondary batted down three passes.

Don Maclean carried three times through the center as the time ran out.

Mustangs To Face Inkster Tomorrow

The Northville Mustangs will be out to extend their victory string to six tomorrow night when they face Inkster Carver under the lights at Inkster. The game will be at 8 p. m.

Inkster lost a close game to Clarenceville two weeks ago by a 7 to 6 count, and fell to Grosse Ile in the season opener, 27 to 7.

Injuries have taken their toll of the Mustang lineup this season. Northville will take on Inkster without the services of Dick Gussell, mainstay at left tackle. Gussell was injured in the closing minutes of the Center Line game last week and will be out of action for at least two games, and possibly the remainder of the season, because of a torn ligament or cartilage in his right leg.

Tom Shrake, injured in the Ypsilanti Roosevelt game opening the grid season, may have his knee in shape for the Inkster tilt or the Clarenceville game which follows, but is still on the doubtful list.

Chuck Dickinson has nursed two twisted ankles from the beginning of the season and has seen limited action. Bob Pullen has been holding down his position at right tackle despite a cracked wrist, playing games wearing a padded cast. And others have collected bumps, bruises and stitches throughout the season.

Rural Tele-news

BARK THAT BITES—To test various types of insulating coatings for telephone wires, Bell Laboratories maintain a dense birch forest in New Jersey. Wires strung through the forest show how different materials resist the rubbing action of tree limbs under actual outdoor conditions.

TIME WAS when the horse and buggy offered rural families and friends the only means of visiting back and forth. With the telephone, "visiting" without leaving the farm became possible. Now, extended area service, which permits subscribers in certain neighboring communities to call one another without a specific toll charge, is bringing telephone users on the farm even closer to their social and marketing centers. By the end of this year, over 200 Michigan Bell exchanges will have this new service.

USEFUL... AND FUN—A survey shows that more than half the farm families served by Michigan Bell use their telephones for reaching the doctor, dentist and veterinarian, and for ordering parts, repairs, feed and supplies. "Visiting" with friends and arranging church and social activities are high up on the list too.

Atchinson Attends Dealers Meeting

Northville auto dealer, O. S. Atchinson of Atchinson Motor Sales, was among 200 Chrysler-Plymouth dealers of this region attending a special meeting this week at the Chrysler Division in Detroit to hear plans for the 1951 Chrysler line.

David A. Wallace, president of the division, and Joseph A. O'Malley, the general sales manager, gave the dealers advance information on the 1951 models. Plans for the remainder of this year and company policies in general were also discussed.

Mr. Wallace declared that Chrysler apparently has every reason to expect a banner year in production because of an improved product and increased

manufacturing facilities. He qualified his statement, however, with the warning that certain elements in the future are problematical and that nobody can be sure what the materials situation will be next year or to what extent the government might deem it necessary to curtail those available for general manufacturing purposes.

Mr. O'Malley included in his talk a discussion of parts and service and used-car operation in terms of existing and anticipated conditions in the industry.

The meeting was one of a series that will eventually cover most of the country.

Mr. and Mrs. Frank Eaton of Balboa, Panama, formerly of Northville, were guests of Mr. and Mrs. R. D. Merriam of Beck Road at the Michigan-Dartmouth game in Ann Arbor recently.

MICHIGAN MIRROR

NON-PARTISAN NEWS LETTER

As football news blots up page one and a frosty tang fills the air, Michigan residents are brought abruptly back to reality by being reminded that now is the time to get those overseas Christmas packages off to that GI son or boyfriend.

It is a fall reminiscent of those lonely ones spent by millions of wives and relatives during World War II, with hundreds of Michigan men being recalled to service each month.

And optimistic though the front may look, defense (and offense) plans are going ahead in the state. A simple, ironclad priority system has been imposed on industry. A "DO" rating will give military contracts let by armed forces or the atomic energy commission the right of way in any plant.

But war production is expensive. Michiganites now are getting a taste of another income tax boost. A man making \$40 per week will pay some \$5 a week as against \$4.10 before the increase.

But this withholding tax jump also is seen by some as another test of the inflationary whirl. The impact will not be great.

economists agree, but it will cut down spending to some degree, especially in the lower brackets.

Announcing that pay scales for state employees are 20 percent lower than comparable scales for city and county employees in metropolitan areas, Gov. Williams has asked a boost in civil service rates. The present situation "inevitably breeds discontent and dissatisfaction..." the governor said.

A cheering note: While Michigan cities shudder at thought of A-bomb attacks and officials warn of possible dangers, the University of Michigan calmly announces the launching of a project for "constructive atom research." It will be financed through contributions.

The usual outward post-convention lull has begun in politics. But the under-currents are moving swiftly as the fall war of nerves rapidly is drawing to a climax. The A.D.A., C.I.O.-backed Democratic calm has been maintained while G.O.P. ranks are perking up their ears to the call of Fighting Republicans, Inc.

The group, founded by Vernon J. Brown, Mason, Michigan's elder Republican statesman, and Kit Clardy, Lansing attorney, now is beating the old tom-tom for a mass meeting "under the oaks" at Jackson, birthplace of the G.O.P. And even old line party men are beginning to listen!

"Too hot to handle" is the label most Michigan political candidates are putting on the butter-yellow oleo situation in the state which culminates in the voters' decision on Proposal No. 4 in the November election. The poor politicians are caught between the devil and the deep, since they fear the loss of votes from whatever stand they take on the issue. For this reason, few have taken a stand.

Legislative research on changes in the state unemployment compensation law has been postponed until after the election — probably until the January session opens. Disagreement has been over maximum benefits, extent of coverage, and the waiting period.

New precedent in labor-management relations is the \$33,000 judgment against the Detroit United Electrical and Radio Workers (local 937) for violation of a "no work stoppage" contract. The supreme court said the walk-

out was not the spontaneous decision of each individual employee.

Michigan probably will receive upwards of \$400,000 for conservation work—the Pittman-Robinson funds derived from federal taxes on sporting arms and ammunition. Some of the money will go into two upstate wildlife research stations.

M.S.C. experts see the next five years as the best opportunity for sustained profit in sheep raising. The sheep population now is the lowest in 85 years—some 35,000,000 head.

Less than 4,000 handicapped workers in Michigan now are out of work. Five years ago the number was above 15,000.

You can encourage your child's cleanliness habits by providing low towel racks and tooth-brush holders for him in the bathroom, advise Michigan State College home economists.

These days you can't tell from the price tag how much quality a car holds. Ford, for example, is still priced with the lowest... yet in other respects it's in the fine car class. Take its styling, for example, for two years in a row Ford has been the recognized fashion leader.

Like America's finest cars Ford offers you a V-8 engine. No other low-priced car does. Nor does any other car of any price offer you a choice of V-8 or Six engines. And remember, Ford's V-8 costs hundreds less than most sixes—Ford's Six costs even less.
