From October 29 to November 4 over two hundred girls in Northville will celebrate the National Girl Scout Week in conjunction with the birthday on October 31 of Juliette Low, founder of the Girl Scout Organization in the United States. Each troop will observe the day in their respective meetings with special programs.

An exhibit of various phases of scouting is on display in the window of Schrader's Furniture store this week to further commemorate the national celebration and to demonstrate the various aspects of the Girl Scout program to the public. One of the senior troops worked for several months on the exhibit which was recently presented to the American Legion Auxiliary. The many divisions of scouting include: nature, international friendship, arts and crafts, community life, homemaking, agriculture, literature, ceramics, music, outdoor sports and games, health and safety.

In the senior troops, nature studies and hikes take precedence over arts and crafts.

## Schools To Observe Education Week

It is with pleasure that the Northville Schools invite the community to share in the observance of American Education Week during the week of Nov. 5-11. Under the joint sponsorship of the school and Parent-Teachers Association, a full and interesting week of activities will be presented.

The theme for the thirtieth observance is singularly appropriate, "Government of, By, and For the People." No better interpretation of this theme can be found than in the following statement taken from Personal Growth Leaflet No. 58, published by the National Education Association. We subscribe to this statement wholeheartedly.

"The Path from despotism to freedom is a long, hard road. Every advantage we now enjoy has come because men and women have cared and dared to face hardship and failure and even death. Every advantage we now have can be quickly lost if we do not continue to care and dare. The challenge of dictatorship around the world can be met only by giving living proof in our own country that we practice what we preach and that government of, by and for the people releases immense resources of mind and spirit which are lost in any regime based on fear and force. The democratic way of life is built upon faith, freedom, equality, and opportunity. It asks not who is boss, but what is right and best. It is for us in our free common schools to help educate our generation for the great task of leading the world toward freedom, justice, and peace."

Daily messages or themes for the week are as follows: Sunday, Nov. 5, Moral and Spiritual Values; Monday, Nov. 6, Responsibilities of the Citizen; Tuesday, Nov. 7, Meaning of the Ballot; Wednesday, Nov. 8, Urgent School Needs; Thursday, Nov. 9, Opportunity For All; Friday, Nov. 10, Home - School - Community Teamwork; Saturday, Nov. 11, Freedom's Heritage.

Thursday will be especially observed in the schools by having students take over the various classes and administrative duties. A special invitation is extended to parents and others to visit classes anytime during the day. In the evening there will be an open house from 7:30 until 9:30 p. m. at which time teachers will be in their rooms to meet with parents. At 9:30 p. m. there will be a brief meeting of the P.T.A. followed by refreshments to be served by the P.T.A. A tour of the new grade school classrooms will be a special feature of the evening.

Schrader's Furniture store window will house a display symbolizing the theme of American Education Week, "Government of, By and For the People." Sunday, the churches in the community will hold special services giving recognition to the public school teachers.

Villagers will be reminded of the week's observance by posters which are being put on display in merchants windows. The posters were made by the art classes at school under the supervision of Mrs. William Rector. The speech classes under the direction of Miss Florence Panattoni will present four radio scripts over the school public address system next week. One of these will be in the form of a panel on the topic, "Is Our School Fulfilling Our Needs?"

It is hoped that many parents and others in the community will find it possible to participate in several of many functions in the community that are planned for the observance of American Education Week.

American Education Week is sponsored nationally by: The National Education Association, The American Legion, The United States Office of Education, The National Congress of Parents and Teachers.

Yvonne North, niece of Miss Alta Powers of Hutton Street, has been pledged to Kappa Kappa Sorority at Alma College.

## Science, Religion Discussed at School

Carl Zwinck, in his high school science classes this week, presented highlights of a talk given Sunday in Ann Arbor by Dr. Robert A. Milliken, American physicist who discovered cosmic rays and won the Nobel prize in physics for his studies on electrons.

Milliken spoke on the importance of science and religion in today's society. He denounced the misconception that there is a conflict between the two, calling them the two pillars which support our civilization. He stressed the importance of moral conduct to progress. Stating that defying God is futile, he urged persistent careful use of conscience and knowledge to promote peace.

## BPW Hears Talk on "One World"

A talk by Mrs. Judith Lowe of the University of Chicago, educator and worker in foreign fields, highlighted the district meeting of the Business and Professional Women's Club held Sunday at the Veterans of Foreign Wars Hall.

Mrs. Lowe's topic was "Can There Be One World?" She said that she was shocked at the prejudices of educated people and that we must dissolve these prejudices first before we can hope to have one world. Mrs. Lowe, who has lived abroad for many years, stated that socialized medicine seems to work for England, because before the advent of socialization, children got their care through welfare, men through the unions while there was no medical provision for women. She talked of France, with its multiple party system, and felt that France would always be allied with us.

Marion Crowthers of Monroe conducted a workshop. She divided the ladies into three groups. Their topics were Declaration of Human Rights, the United Nations and the Status of Women. After a fifteen minute discussion period, the groups gave reports.

The district president, Virginia Allen of Wyandotte presided over the business meeting. District dues were increased twenty-five cents and it was voted to hold the spring meeting in Monroe and the fall meeting in Ann Arbor. The major project of the club is the cancer fund. Club presidents in the district answered the roll call and reported on the number of members present. They were Ann Arbor, eight; Belleville, four; Monroe, ten; Mt. Clemens, five; Plymouth, five; Wayne, seven; Wyandotte, thirteen; Ypsilanti, fifteen; Northville, thirty-eight.

At the dinner meeting, Mrs. May Babbitt gave an interesting resume of the history of Northville. She elaborated on its institutions, industries and the spring. Evelyn Wood of Plymouth and William G. Williams of Eaton Drive delightfully entertained the audience with several musical selections.

The committee in charge of the Sunday meeting was Mrs. Marcela Douglas, Mrs. May Babbitt, Mrs. Mary Alexander, Mrs. Clara Broda, Mrs. Beatrice Carlson, Mrs. Gladys Connors, Miss Beatrice Ware and Miss Evelyn Ware.

## CORRECTION

Orient Chapter No. 77, O. E. S. regrets that in last week's issue of the Record, the name of Mrs. Pearl Green was used instead of Mrs. Rosetta Putnam. O. E. S. states that it should have read, "The Past Matrons of Orient Chapter No. 77 presented a memorial service for Estelle Stark, Ida S. Langfield and Rosetta Putnam."

Mrs. Pearl Green, who is a patient at Sessions Hospital, is recuperating from an illness. O. E. S. regrets this error.

Trombley Opposes New Consumer Taxes

"I have opposed, and will continue to oppose the levy of any new consumer taxes on the people of Michigan" is the message to our citizens from David J. Trombley, candidate for reelection, on the Democratic ticket, as State Representative, Seventh District.

"80% of taxes are now being paid by the consumers of Michigan, while the national average is only 60%. This is proof enough that the consumer of Michigan is well overburdened with consumer taxes, and I will continue to oppose an addition to that burden", continued Representative Trombley.

"Sales tax on necessities, especially food, should be eliminated. The increased tax on gasoline, which I opposed in the last session of the Legislature, is not the way to solve the problem of good roads. We, the minority introduced and fought for good roads to be paid by a corporation profits tax, but the majority voted against this. The State is running a deficit, and the majority party in the Legislature admits new taxation is necessary. I prefer a Corporation profits tax, which would be paid by those with the greatest ability to pay, and which would relieve small corporations and small businessmen."

Meredith Running for Drain Commissioner

A. L. Meredith, prominent Wayne County attorney, is the Republican candidate for the office of Wayne County Drain Commissioner at the election to be held on November 7.

Mr. Meredith has been a resident of Wayne County for 33 years and a practicing attorney and property owner for 24 years.

Mr. Meredith has not only been active in the legal and business affairs of the community, but has found time to be actively associated with Wayne County Civic Affairs, having served as National Speaker for the Red Cross, speaker for the War Chest and Community Fund Drives and for the Treasury Department in War Bond Sales and for the office of Civilian Defense.

He has been an active worker in the Boy Scouts for over 22 years.

Mr. Meredith, from his vast amount of business and legal experience, is qualified to fill the office of Wayne County Drain Commissioner and states that if elected to that office will constantly strive to give the people of this county an improved administration of that office.

## Dr. French Seeks Coroner Post

Dr. Albert L. French, a life-long resident of Detroit and Wayne County, a graduate of Wayne University who served on the teaching staff in the Department of Pathology, is a candidate on the Republican ballot for re-election to the office of Coroner. Dr. French has received the endorsement of the Detroit Citizens League.

He has been actively engaged in the practice of medicine for the past 35 years and has conducted thousands of autopsies and testified in hundreds of civil and criminal cases in courts of all jurisdictions.

Dr. French served the City of Detroit and Wayne County many years as county physician and later as chief medical examiner of Wayne County. He was then elected coroner and served five consecutive terms.

He firmly believes the professional and administrative duties of the coroner's office should be performed at all times with courtesy, economy and efficiency and in strict accordance with the statutory provisions governing the proper conduct and management of the office.

In 1941, he was appointed a member of the health committee of the Michigan Defense Council and is the recipient of the Certificate of Merit and Selective Service Medal from the U. S. Congress for loyal and faithful service in World War II.

## Fall Leaves Start Good Compost Pile

When you burn that fall accumulation of leaves you're letting good fertilizer for your garden and shrubs go up in smoke, Dr. L. M. Turk, head of the soil science department at Michigan State College advises. He suggests you use them to make a compost pile which will furnish artificial manure for next spring and summer.

By putting the leaves, grass clippings, mature weeds, corn fodder and straw in a pile and straw in a pile and treating the plant refuse with commercial fertilizer and ground limestone, valuable humus may be returned to the soil, Turk reports.

The soil scientist recommends that the leaves be put into a container that can be made with a few stakes and some chicken wire. By scattering a few handfuls of 10-6-4 fertilizer and some ground limestone on each layer and wetting it down, bacteria action will begin which will result in decomposition.

The compost pile should be kept moist, but you shouldn't apply enough water to cause drainage of the fertilizer from the leaves. The top of the pile should be saucer shaped, Dr. Turk advised, to catch rain.

The average city gardener can make as much as 125 cubic feet of artificial manure with leaves, 100 pounds of 10-6-4 fertilizer and 25 pounds of ground limestone, the soils authority reminded. If made this fall, it will be ready for use next spring.

Worm medicines may harm pets and livestock more than the parasites they are intended to destroy, especially if the animals are in a weakened condition.

## Dondero Seeking Re-election Nov. 7

Congressman George A. Dondero, who has represented the 17th Michigan District since its creation in 1932, is one of the top ranking members of Congress because of his continued service, legislative ability and his chairmanship of an important committee of the United States House of Representatives.

As Chairman of the Committee on Public Works in the 80th Congress, he promptly put a stop to wasteful authorizations for unnecessary public works and instituted committee resolution procedures that have resulted in

savings to the taxpayers of many thousands of dollars annually. For over fifty years people interested in eliminating water pollution, endangering public health and destroying wild life, unsuccessfully sought the enactment of legislation to this end. Congressman Dondero provided the leadership that developed stream pollution control legislation and secured its enactment by the 80th Congress. Public health officials have termed this one of the most constructive laws ever adopted by Congress and considerable progress has already been made under the provisions of this legislation.

Congressman Dondero seeks re-election to Congress on Tuesday, November 7.

Lights for poultry houses are recommended by Michigan State College poultrymen as good investments. Lights themselves do not take the place of good poultry management, they say, but good methods, plus lighting, mean more profits for the farmer. Give the hen a 14-hour day. Each light should have a reflector and every 200 square feet of floor should have one 50 watt light and reflector.

# Michigan Voter: PROTECT YOURSELF AND FAMILY!

## ① PROTECT YOURSELF

Against Imitation Butter

Your right to know—for sure—that there's BUTTER on the table—is threatened by a move to tamper with Michigan's long-standing imitation-BUTTER law. The present law is a GOOD law. It protects you—your family—and the family table. Especially, it also protects you when you "eat out."

Now, with a referendum vote on this subject on the ballot November 7, it's up to you. It's your job to protect yourself against imitation-BUTTER—to make sure you get the real thing. Vote "NO" on Proposal 4, November 7th.

## ② PROTECT YOURSELF

Against High Milk Prices

In case Michigan's present law—prohibiting substitutes colored yellow in imitation of BUTTER—is rendered ineffective in the November general election . . . thousands of Dairy Farms will be driven out of business. Milk will become scarcer . . . higher in price . . . as it has in other states which now allow imitation-BUTTER to be sold colored yellow. It is no accident that milk prices in cities in those states are 1½ cents a quart higher than milk prices in states (including Michigan) which maintain a protective law against selling imitation-BUTTER colored yellow. Keep Michigan milk plentiful—reasonable in price. Vote "NO" on Proposal 4, November 7th.

## ③ PROTECT YOUR OWN

and Michigan's Prosperity

WARNING: The first year Canada allowed substitutes to be colored yellow in imitation of BUTTER cost Dairy Farmers there 50 MILLION DOLLARS. That can happen in Michigan . . . where 600,000 people depend on Dairying for their livelihood . . . with an investment TWICE THAT OF THE ENTIRE WORLD OPERATIONS OF THE FORD MOTOR COMPANY! Reduce Michigan's income by many millions of dollars and you depress the market for all kinds of Michigan goods . . . besides irreparably damaging Michigan's soil and agriculture.

For your own sake . . . for your family's sake . . . for Michigan's sake . . . VOTE "NO"—on Proposal 4—general election, November 7th!

These facts are published by the Dairy Action League, 415 Hollister Building, Lansing, Mich., working with consumers, labor, farm and dairy groups in behalf of keeping Michigan's present and effective no-tax, butter-imitation law. It is financed by the 600,000 Michigan People dependent on dairying.

I wish to extend my thanks to Mr. Sam Stremich of the Northville Penniman-Allen Theatre, for his loyalty to this community by keeping the theatre open during the summer months. It is through his efforts that the townspeople enjoy the privilege of viewing the latest and best movie productions right here at home.

I feel Mr. Stremich should be personally commended for his services and civic mindedness. What better way can we show our appreciation than by patronizing our local theatre regularly.

Signed:

A Northville Merchant.

Increased driving visibility, pioneered by Studebaker in its earliest postwar cars, is carried on even more extensively in the 1951 models. One-piece windshields are now standard on all Champions and Commanders. The increased visibility provided by such windshields will make an important contribution to safer motoring. Also standard on most models are one-piece rear windows. Shown is the 1951 Champion 4-door Regal sedan.

**Mass Blood Typing  
Would Save Lives,  
U-M Doctor States**

Mass blood-typing of the gen-  
eral population might save count-  
less lives in the event of an  
atomic disaster, according to a  
University of Michigan doctor.

Speed in obtaining the right  
type of blood donors, the major  
problem in such a crisis, would  
result if every person knew their  
own blood type, Dr. Otto Tod  
Mallery, Jr., chief of the clinical  
laboratories at the University  
Hospital, declared.

Carrying out the simple pro-  
cedure in advance of a disaster  
would enable bloodtaking units  
to rapidly collect a known type  
of blood for immediate treatment  
of the most urgent casualties, he  
said.

Dr. Mallery pointed out that  
since it is possible to give all  
casualties the same type of blood  
regardless of their individual  
type, the major problem during  
an emergency, is to obtain donors  
with this "universal" type with-  
out having to test people who  
might have some other types of  
blood.

He explained that there are  
basically four blood types: O, A, B,  
and AB, each containing either a  
positive or negative "Rh" factor.  
The type "O-Rh negative" can  
be given safely to individuals  
who have any other type without  
causing the undesirable reactions

that result when the other types  
are mixed together, the doctor  
said.

In the general population about  
45 per cent of the people have  
blood type "O", although only  
approximately 15 per cent of  
these people are "Rh negative,"  
Dr. Mallery emphasized. For this  
reason, since the urgent casu-  
alties would all receive type  
O-Rh negative, as soon as they  
could be removed to a hospital  
area they would be given their  
own particular blood type to con-  
serve the critical O-Rh negative  
blood, he stated.

The quantities of blood needed  
in a disaster are too great to be  
supplied by the local community,  
he claimed. For example, the  
doctor pointed out that if a blast  
occurred in a town of 60,000 in-  
habitants, it has been estimated  
that there would be at least an  
immediate demand for 45,000  
pints of blood, plus a demand for  
additional quantities of plasma,  
other blood products or blood  
substitutes.

Over a four to six week period,  
the total demand for blood would  
amount to about a third of a mil-  
lion pints, he continued. On top  
of this, there would also be a  
need for a similar quantity of  
plasma and blood substitutes, he  
added.

Dr. Mallery maintained that  
present methods being used in  
mass blood-typing procedures  
now going on in Michigan are  
very reliable.

In line with civil defense pre-  
parations, he urged citizens to

lend full support to their local  
community drive to stockpile  
plasma which can be taken in ad-  
vance of disaster.

It will be found that he who  
is most charitable in his judg-  
ment is generally the least un-  
just.

### States Vie for Tourist Dollars

Competition among the states for tourist dollars reached a new high during the 1950 summer season, according to Robert J. Furlong, Executive Secretary of the Michigan Tourist Council.

"Five years ago two-thirds of the states were spending public funds for tourist advertising. This year all but two had legislative appropriations for this purpose," Furlong said.

He pointed out that Michigan was one of the first to recognize the potentialities of the tourist industry as a source of revenue and for some three decades has promoted its vacation attractions. This long history of advertising and promoting established for the state a clientele among the nation's tourists which meant "repeat business" year after year.

Furlong warned, however, that serious inroads are being made on that clientele as a result of the new competition from other states. "Not only are more states than ever before promoting themselves, but the advertising budgets of our old competitors

are larger than they have ever been," he said. "Those of Canada and Mexico have also reached new highs."

Referring to a nation-wide survey by the Crowell-Collier Publishing Co., Furlong commented that Michigan ranked third in the number of tourists entertained in 1949. While the state maintained this enviable position among the leaders, it dropped to 13th place in the amount of state appropriations for tourist promotion.

The unprecedented competition among the states is due to a realization that the tourist industry has become and will remain a vital factor in the general economy of each state and of the nation, according to the Council official.

"It is true," he said, "that bad weather had a crippling effect on the industry in Michigan and throughout the Midwest during the past summer season. But this by no means implies that a permanent downward trend is under way. America has acquired the vacation habit and there is every reason to believe that the habit is a permanent one."

Furlong concluded that if Michigan is to hold the gains it has made and in addition keep pace with its competitors in the tourist industry, there can be no relaxing in its efforts to promote and develop its vacation advantages.

"We must remember," he said, "that the tourist industry is a major source of revenue to our entire state and that in two-thirds of Michigan it is the number one income producer."

### O'Brien Seeking Prosecutor's Post

Gerald K. O'Brien, a veteran of World War I and lifelong Democrat, is a candidate for reelection to the office of Prosecutor.

In 1946, the people of Wayne County promoted Mr. O'Brien to the office of Prosecuting Attorney. He was re-elected in 1948 by the overwhelming plurality

of 176,024 votes over his opponent.

As Prosecutor, Mr. O'Brien appointed a special veterans' committee composed of veterans from his staff to give special attention to veterans' problems brought to the Prosecutor's Office.

Prosecutor O'Brien has taken a definite stand on the sex deviate who is guilty of criminal assaults on women and children; and has no hesitancy in insisting that such individuals be imprisoned. The primary purpose of the Prosecutor's Office is the trial and conviction of criminals. This has never been lost sight of as the 86 per cent convictions for the first six months of 1950 will attest.

### Schneider Is Nominee for State Senator

John H. Schneider, is the nominee for State Senator, on the Democratic Ballot, in the 18th District, at the coming election on November 7.

Schneider is well known in northwest Detroit. He has lived in this vicinity for the past 15 years. He has practiced law in the City of Detroit for the past 23 years, and he is a member of the Detroit Bar Association and the State Bar of Michigan. He has been active in Democratic party affairs.

The Detroit Citizens' League, in their publication, "The Civic Searchlight", lists him as "Preferred Candidate." His candidacy is endorsed by civic and labor leaders.

Schneider's chief reason for seeking to become a member of the State Senate is to serve in the cause of good government and good Americanism; to oppose all un-American groups; and to oppose any legislation that tends to infringe upon our Democratic principles of government. Constitutional Americanism is the key plank of his platform. He will oppose vigorously, any and all subversive acts or movements and he will fight Communism in all its forms.

### BETTER WITH BUTTER!

### Life is Better With Butter

Everyone prefers Butter to a Colored Imitation. Aside from the deceit and fraud which would result from permitting yellow oleomargarine to be sold in this state, every thinking voter wants to

### KEEP MICHIGAN PROSPEROUS

Butter is the foundation on which Michigan's two and one quarter billion dollar dairy industry is built. If the "butterleggers" undermine that foundation—the whole structure is in jeopardy.

Dairying is the state's greatest source of agricultural income and agriculture is Michigan's second largest industry.

Let us not expose that great industry to undermining by selfish out-state interests whose only concern is making more money for themselves. If we allow yellow oleomargarine to invade the butter market it invites cheap imitations of other dairy products to follow suit.

### Smith Is Candidate for Representative

George A. Smith, a well-known resident of Plymouth, is a Republican candidate for State Representative in the 7th District, Wayne County.

He has taught school for thirty-nine and a half years, 27 years being spent as superintendent of the public schools in Plymouth. He is a charter member of the Plymouth Rotary Club and in 1947 and 1948 served as District Governor. At present he is devoting a part of his time as secretary of the Plymouth Chamber of Commerce.

Four different Governors of Michigan have honored him by appointment as a member of the Michigan Institute Commission, which has jurisdiction over the State Public School at Coldwater, the Michigan School for the Blind, the Michigan School for the Deaf and the Michigan Employment Institution for the Blind.

Too many meals are built around steak and roast beef.

Sheep require good fencing and because of their fleece, electric fencing is not effective. Michigan State College animal husbandry specialists say keeping fences in good shape and replacing when necessary will help to make the sheep business more successful.

## Want a ride that's "out of this world"?

## Better Buy Buick!

WANT to be free from that nervous tensing up for a jolt every time a rough spot looms in the road ahead?

Want to enjoy the relaxing feel of a sure-footed car beneath you, that stays level even when the road doesn't?

Well, sir, ease into a Buick and see how such matters are cared for.

See what a wonderful difference in level buoyancy coil springs can make when you have them on all four wheels, not just the front ones.

Note what firm and solid steadiness is yours when a full-length torque-tube drive is your keel—how smoothly you stay on course when the rear wheels can't help but run true.

See what big, low-pressure tires and Buick's wide rims can do to pillow your course without jounce or sway.

In other words, sample this two-

ton beauty for over-all stance and balance—and the cradling comfort of its roomy interiors.

And while you're at it, get the very special thrill of its mighty Fireball power plant, plus the free-as-a-bird-in-flight bliss of its Dynaflow Drive.\*

It's an experience that you owe yourself—and it's yours for the asking. The thing to do is get in touch with your Buick dealer—and discover the ride that only Buick owners know.

\*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

FOUR-WAY FOREFRONT—This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

### Coash Denies Petition of Attorney General

Judge Louis E. Coash, of the Ingham Circuit Court, has denied the petition of the attorney-general to set aside the June order of the State Public Service Commission granting the Michigan

Bell Telephone Company a rate increase.

The court's decision related to a petition directed against the company under the court's general equity powers. Judge Coash ruled that his jurisdiction was limited to the regular statutory appeal against the Commission and its order. Such appeals have been filed and are pending in the same court.

## HOLMAN ALMOST MAKES IT

Fullback Leon Holman hits tackle for five yards, getting to the seven-yard line. Gray scored from the one-yard line two plays later.

## GRAY SCORES FROM THREE

Captain Dick Gray rams through middle on three-yard reverse to score first Mustang touchdown in second quarter. The play climaxed a drive from the Clarenceville 39-yard line.

## Mustangs Spill Clarenceville 25-12 for Seventh Win

Northville's Mustangs splashed to a muddy 25 to 12 victory over the Clarenceville Trojans last Friday afternoon to register their seventh straight football win this season. The game was at Clarenceville.

Halfback Dick Gray rammed the ball over on three, one and two yard reverses, for three of the scores, and Fullback Leon Holman went 65 yards through the middle and down the sideline on a spinner play for the other Northville touchdown. Bill Bingley rushed successfully for one conversion point.

Clarenceville's first TD was a gift. Tom Shrake, forced to punt from behind his own goal line, couldn't pick a bad center pass out of the mud and a Trojan line-man scooped the ball up and stepped into the end zone for six points. The other Trojan marker came in the last four minutes, a 35-yard sprint off left tackle against the Northville reserves.

The game was studded with fumbles and bad center passes caused by a slippery, mud-soaked ball which became increasingly hard to handle. The slimy ball nullified any plans for a passing attack. Clarenceville completed two of nine attempts, but Northville stuck to a ground attack.

The first two Mustang TD's climaxed 61 and 83 yard marches. Holman's 65-yard sprint came on the first play after Northville recovered a Trojan fumble on the 35. The last tally was the result of a fourth-down fumble on the Trojan six, recovered by Northville.

Because of the mud, the game was primarily a thrusting, jabbing, short-gain series of plays, although Gray almost eluded the Trojan safety man on a 46-yard ramble in the second quarter. And the sprints by Holman and the Trojan halfback that were good for scores.

Line play was better balanced than in some games this season. The Mustangs are always tough

## Mustangs, Rocks Tangle Tomorrow

Tomorrow night the Northville Mustangs face the critical point in their 1950 football season when they meet the Plymouth Rocks at Ford Field.

The Mustangs will be out to extend their winning streak to eight games. The Rocks have won three and lost two in the Suburban "B" league, and lost to Bentley of Livonia last Friday, 19-0. But in the traditional Northville-Plymouth rivalry, records don't count. For each team, this is the one they want to win.

The Rocks downed Northville last year 6-0, but lost 27-0 to the Mustangs in 1948. The game will be under the lights at 8 p. m., with a gate-bursting spectator throng in prospect.

The Mustangs will finish the grid season against the Lions of South Lyon in another home game the following week.
