

Show of Colors for Armistice

November 11 will bring out the flags all over the nation to honor the warriors who won a war in 1918. This is the color guard of the secretary of defense, composed of representatives of the army, navy, air force and marine corps. The ceremonial group appears with the secretary at certain official functions, such as the observance of Armistice Day. The secretary's flag (right) was first used by the late Secretary James Forrestal.

Pupils Take Over Classes Tuesday

Thursday evening, open house will be held at the Northville Grade and High school in observance of American Education Week. Teachers will be in their respective classrooms from 7:30 to 9:30 p. m. to meet with the parents.

At 9:30 p. m., there will be a brief meeting of the P.T.A. followed by refreshments and a tour through the nine classrooms which were recently added to the Grade school. A special initiation is being extended to parents to inspect their school system. On Tuesday, the pupils of NHS took charge of many of the classes. It is rather fitting that the day chosen for this was Election Day and also that it is a part of the celebration of American Education Week, the theme of which is "Government of, by, and for the People."

It is felt by the faculty that an experience of this kind is valuable in that it gives the pupils an opportunity to view the teaching profession from the teachers' standpoint.

John Rackov was superintendent of schools, James Whipple was high school principal and Dick Gussell was grade school principal for a day. Jan Riley was secretary to the grade principal and Ardith Bidwell was the high school principal's secretary. Following are the pupils who took over various teachers' classes: Shirley Thomas, Geraldine Hansen, Eileen Schoch, Charlene Stobbe, Martha Chapell, home economics; Don Blair, Nancy Ryder, David Severance, Kenneth Roberts, Alayne Austin, art; Bob Gregory, general math; driver training, Kenneth Rowe; library, Mary Ann Karschnick; Patsy Baskins, Richard Sands, Dave Hazlett, biology; Margaret Campbell, Arlene Gaab, general science.

The list continues with Mary Jean Woodruff, Marilyn Funk, Barbara Busch, Dick Sands, Theresa Duchesneau, Jean Campbell, Gail Bemish, Patsy Baskins, English; Barbara Couse, Janie Beckel, social science; Barbara Prunty, Marlene Weiss, Latin; Gay Duerson, Spanish; Phyllis Starr, economics; Shirley Carlson, sociology; Mary Lou Litsenberger, Lawrence Bemish, Conrad Burkman, U. S. History; Marilyn Funk, Tom Bernhardt, speech; Dolores Bell, Earl Hollis, Hazel Hammond, Tom Shraake, Bob Pullen, Mimi Harrison, English.

Chairmen of the committees, appointed by president, Charles Ely, are as follows: Joan Buck, refreshments; Nancy Littell, advertising; Dick Sands, tickets and programs; Donald Maclean, chaperones; Ted Masters, furniture; Gail Matzen, cleanup; Tom Moshimer, orchestra and Andrea Owen, theme and decorations.

Solicit Information for Village Calendar

The Northville Coordinating Council is gathering information for the annual community calendar.

Every village organization and church is asked to report their list of officers, meeting date and council representative to Mrs. Eldon Biery, telephone 317. Deadline for all information for the calendar is November 15.

The Coordinating Council earnestly seeks the cooperation of every organization and church in soliciting this information so that the calendar may be accurately printed and ready for distribution late in December.

Delores Bell Wins NHS Queen Contest

Delores Bell was crowned queen of Northville High school at ceremonies held at half time at the Plymouth vs. Northville High school gridiron classic Friday evening. The popular seventeen year old senior is the daughter of Mr. and Mrs. Mark Bell of East Base Line Road.

Dick Gray, captain of the NHS Mustangs, presented the queen with a bouquet of red roses and a gold trophy. The presentation was made on behalf of the "N" Club, sponsors of the contest which netted \$300.00. The funds will be used to promote the athletic program in the Northville schools. Forming the queen's court were Ruth Fulkerson, a junior, and Shirley Wick, a sophomore. Other finalists in the contest were Roberta Malott, Melna Fest, Judy Tetzlaff, Ila Baxter and Ardith Bidwell.

Delores will graduate in June and expects to enter college to study retailing. Her extra-curricular activities at NHS include the French Club, Drama Club, J-Hop, Junior Play, Senior Play and Girls Athletic League. She is a past Worthy Advisor of Rainbow Girls and spends her Saturdays clerking at Iversen's Bakery on East Main street. A member of the Methodist Church, Delores also sings in the choir.

Bradshaw To Talk on Home Highlights

Bruce B. Bradshaw, counselor on decorating and fine furniture, will be guest-speaker at a meeting sponsored by the Northville Woman's Club on November 17 at 2:45 at Northville Branch, Wayne County Public Library.

Presented by The J. L. Hudson Company Speakers' Bureau, Mr. Bradshaw's topic will be, "Home Highlights" - an informal discussion covering the principles which should be applied in choosing the style and furnishings for a home. It is Mr. Bradshaw's opinion that attractive rooms are not a matter of how much you spend but of applying good taste in the selection of colors, style, and accessories - then blending all elements together into a pleasing effect. Fabrics rich in texture and color, and decorating accessories are used in illustrating important points in his talk.

Mr. Bradshaw has engaged in interior decorating since 1928 and has done extensive research work in the historical background of fine furniture, color, fabrics, and planning of room arrangements. A member of The J. L. Hudson Company Speakers' Bureau, he is a popular speaker on interior decorating and allied subjects for groups in Detroit and other Michigan cities.

The Cub Scouts of Northville have again been requested to do an annual good turn for the many cancer sufferers of this area. December 2-9 is the week that has been designated for the White Cloth Drive. Northville will be canvassed by the Cubs who will collect the material which will remain for use in Northville.

Specifications are that the cloth must be white and clean. Place it in clean boxes, paper sacks or clean paper. No matter what the amount, every bit is badly needed. The Cubs urge everyone's cooperation in contributing material to alleviate the suffering of local cancer victims.

Mr. LeRoy Stewart of Irons, Michigan, was a guest at the home of George E. Hills of West Main street this week. Mr. Stewart, a former resident of Northville is en route to California where he will spend the winter months.

Optimists Present Memorial Trophy

Optimist President James Little, right, presented the D. Harper Britton Memorial Trophy to High School principal, Elroy Ellison, left, who accepted it on behalf of the high school pupils.

Home Rooms to Compete for D. Harper Britton Trophy

The D. Harper Britton Memorial Trophy was presented to the high school last week by the Northville Optimist Club. The trophy will later be awarded to the high school home room which gets out the most vote in the general election.

The handsome gold trophy cup topped with an eagle is mounted on a brown Bakelite base and is on display in the NHS study hall. It is a fitting memorial for the late D. Harper Britton, civic-minded Northville attorney, who last month was killed in an auto crash.

The contest is being conducted in the following manner. Each person who voted in the election Tuesday was given a tag which said, "I voted! Did you?" The bottom half of the tag is perforated and the voter is being asked to sign his name, saying that he voted. The home-room collecting the greatest number of tags per pupil will be the home room to win the trophy.

The trophy will be presented to the home room at an assembly in the near future by Optimist Club president, James Little and Fred Hunter, chairman of the Americanism committee of the club.

The contest will be held each year at election time in an effort to get out the vote.

Vegetable Cheese Treat

Bright idea for a fall main dish is corned beef and cauliflower in mellow cheese sauce served piping hot in individual casseroles. These three "Cs"—cauliflower, corned beef and cheese sauce—are a texture and flavor trio superb, and make imaginative use of one of fall's most dramatic vegetables with delicious, nutritious cheese.

Make this hearty main dish now while cheese is so abundant and so reasonable.

Cauliflower Scallop

- | | |
|---|--|
| 1 cauliflower | 1 1/2 cups milk |
| 1 cup coarsely chopped cooked corned beef | Salt, pepper |
| 3 tablespoons butter or margarine | 1/2 pound mild flavored pasteurized process cheese, shredded |
| 3 tablespoons flour | Buttered crumbs |

Break the cauliflower into flowerets and cook in boiling salted water until tender. Drain well, and arrange in 3 or 4 individual casseroles. Sprinkle the cauliflower with the chopped corned beef. Make a cream sauce with the butter or margarine, flour, milk and seasonings. When thick and smooth, add three-fourths of the shredded cheese, and stir until it is melted. Pour this cheese sauce over the cauliflower and corned beef in the casseroles, bake 10 minutes in a moderate oven, 350 degrees F., sprinkle with the crumbs and the remaining cheese and bake 10 more minutes.

Pedestrians Warned of Traffic Hazards

"You're only two feet from death," said Chief Joseph Denton today, "anytime you venture into the street." His remark was made in connection with the State Safety Commission's November program of traffic safety education, which he heads in this area.

"419 persons in Michigan walked to their deaths in 1949," he said, "and the toll of injured pedestrians ran into 4 figures." The danger to those who walk in—or cross—streets is ever-present. They are, in reality, just two feet from death.

November's program has pedestrian safety as its theme and is being coordinated by the State Safety Commission in cooperation with the National Safety Council.

"At this time of year," Chief Denton said, "pedestrian deaths begin their dizzy climb to top the monthly average for the rest of the year. In cities, particularly, the toll of walkers is staggering during October, November, and December. In November we can predict that pedestrian deaths will run almost twice as many as during a summer month."

The additional dangers of reduced visibility and inclement weather during these months make carelessness and disregard for traffic rules on the part of pedestrians doubly foolhardy, according to Chief Denton.

"To emphasize these dangers to pedestrians this month the slogan 'Beware of the Careless Walker' is being displayed on posters, leaflets and motion picture screens and carried over the air by radio stations," he said.

"Our immediate goal," Chief Denton said, "is to utilize every means possible to bring home to all walkers three important factors involved in pedestrian accidents. Pedestrians should keep in mind that:

"1. In any dispute involving a pedestrian and a car, the car is sure to win. The average automobile outweighs the walker by 10 to 20 times. This is one good reason why it is ridiculous for a pedestrian to take chances. He can't win.

"2. Rules and regulations designed to control and protect pedestrians are not based on whims. Surveys made by some cities and states have indicated that from three out of four to eight out of ten pedestrians in fatal accidents were walking in violation of some traffic rule at the time.

"3. Blind obedience to traffic rules and regulations is no fool-proof means of escaping death or injury. Alertness is too often discarded when the pedestrian feels that he has the right of way. He should always expect the unexpected."

Definite, tangible reductions in Northville's pedestrian deaths and injury rate this winter are not only possible, the State Safety Commission feels, but inevitable.

"Inevitable, that is, if the pedestrians themselves want it that way," Chief Denton said, grimly. "Inevitable, that is, if they remember that everytime they step from a curb, from a streetcar, or from a safety island that they are just two feet from death!"

The large reduction in the 1950 Michigan bean crop can be traced to bacterial blight. Dr. Axel L. Anderson, Michigan State College plant pathologist, says that blight was indirectly responsible for the loss due to weathering this year.

During the past generation, the forest economy of the nation has been emerging gradually from one supplied by virgin forests to one of reliance upon growing timber as a crop.

State Farm Crops On Way to Europe

From the farms of Michigan and 16 other states, the flow of food directed by the Christian Rural Overseas Program (CROP) to feed the needy in Europe and Asia is gaining volume for the fourth season of CROP activity.

How the sharing of food by the world's needy amounts to a substantial total has been demonstrated by CROP in its first three years. More than 3,550 freight carloads of various foods have been collected, sent abroad and distributed through the three parent agencies: Catholic Rural Life, Church World Service and Lutheran World Relief. This year they are aiming at 1,350 carloads.

The central ideas of CROP's program are that food in kind sent by bona fide farmers is a lot better than money and (2) that the spirit of Christian good will is essential in a gift, even in such practical items as corn and beans.

These principles were emphasized when CROP ceremonies started a Friendship Food Ship from Chicago on United Nations Day, October 24. Aboard the freighter were quantities of food symbolizing the carloads soon to move from farm centers to seaport, and dried eggs and powdered milk contributed from government surplus stocks. Children in the costumes of their parent lands brightened the scene and a band provided by the courtesy of the Chicago Federation of Musicians played the national anthem.

"Man does not live by bread alone, but by a combination of bread and the divine spirit," which CROP exemplifies," said the speaker of the day, Dr. Raymond W. Miller, Consultant of The Food and Agriculture Organization of the United Nations. Recently returned from trips to Europe and Asia for FAO, Dr. Miller told of seeing the result of a small planting of hybrid seed corn provided by CROP and taken to Italy by a representative of Catholic Rural Life.

"In America hybrid corn is commonplace, but there, even in a small plot, it had increased the yield so that it was the most talked-about thing in the Po Valley," he said.

CROP operates as state organizations in 17 states. In most of them, the governor is chairman of the CROP unit. Out-in the farm areas, the gifts of food are collected and taken to central points where carloads can be assembled.

The kinds of food handled by CROP include wheat, corn, rice, beans, peas, soybeans, lard, honey, dried fruits and nuts. The corn is processed and the oil and syrup derived are shipped overseas.

A considerable quantity of baled cotton has been sent along with the food as a means of furnishing work. The cotton and the seed corn, in the words of Dr. Miller, do a special good by "helping the recipients to help themselves."

Approximately 60 carloads of food were aboard the Friendship Food Ship. Additional carloads will start moving soon in a regular flow, as will other cars from other ports. Included in the early cars were a number carrying powdered milk and powdered eggs donated by the government from its surplus stores. On these CROP paid transportation from storage points to shipping points.

Our grand business is not to see what lies dimly in the distance, but to do what lies clearly at hand.—Carlyle.

Uncle Sam Says

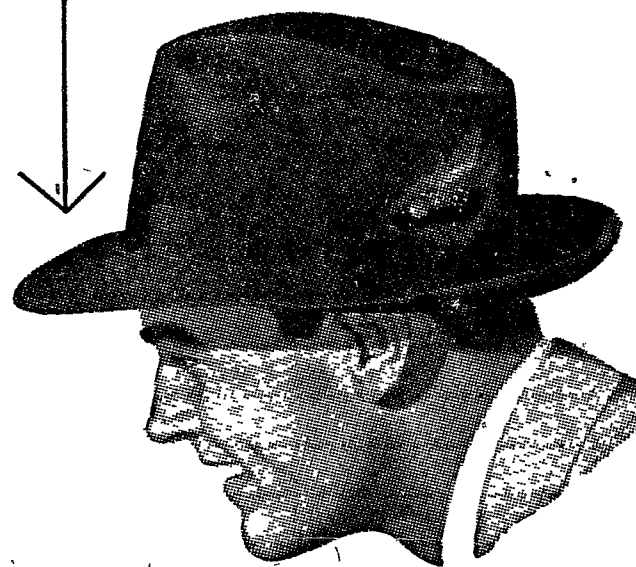

A lot of folks are tempted to speculate with their money. With the farmers, however, there's enough speculation in farming itself—what with the weather, insects, plant disease, livestock sickness, and prices. For the farmers, a safe, sure way of building financial security is with U. S. Savings Bonds. Should he need extra cash his money is handy, it's always there for emergencies. So, farmers, be sure that part of your fall crop or livestock check goes into Savings Bonds. They pay \$4 for every \$3 invested in ten short years. This is the time to resolve—"NOW LET'S ALL BUY BONDS."

Classified Ad Course To Be Tested at MSC

Michigan State College's jour-
nalism department has been se-
lected as a proving ground for
an experimental program to
train students for work in the
classified advertising field.

Sponsored by the National As-
sociation of Advertising Man-
agers, the program will feature
lectures by prominent men in the
field, and student participation in
"internship" jobs in the Lansing
area. The program will begin this
fall.

If the experiment works, the
association will recommend the
adoption of a similar plan as a
regular course for other colleges
and universities in the nation, ac-
cording to Gilbert Gillett, edu-
cational director of the national
association.

Gillett, classified advertising
manager of the Flint Journal,
said classified advertising is a
field full of job opportunities for
trained personnel, and one that
has been overlooked in the past.

fast to the end in his obedience

all time and peoples the supremacy

Bear Hunting To Begin November 15

The whitetail deer will be the
prime big game target starting
November 15 but not a few Mich-
igan hunters will be on the alert
for perhaps the state's most cov-
eted hunting prize . . . bear.

The conservation department
estimates there are upwards of
5,000 bear in Michigan, most of
which ought to be fat and heal-
thy. Field reports indicate a
good berry crop and other bear
delicacies in plentiful supply
this year.

How many bears the hunters
proudly will lug home is some-
thing else again. A repeat per-
formance of last year's late Nov-
ember weather and bruin will be
a hard animal to find. The 1949
kill dropped some 50 percent to
about 700 animals, with snow
and frigid blasts believed to have
hastened hibernation while the
hunting season was in progress.

Getting just a bear would be
sufficient thrill to any deer
hunter, however there are a rela-
tive few already in possession of
trophy number one and cast-
ing envious glances at the new
record established by a bow
hunter this fall. Hamtramck
archer Dean P. Loveless bagged
a well over 600-pound bear in
Roscommon county which not
only is the largest ever taken
with bow and arrow but also
may be the largest ever taken
in the state by any means.

In the simultaneous 16-day
deer and bear seasons the hunter
who wants a crack at bruin
would have his best chance
across the Straits. The depart-
ment estimates three-quarters of
the bear population is in the up-
per peninsula. Better northern
lower peninsula bear hunting
territory includes Cheboygan,
Presque Isle, Alpena and Mont-
morency counties.

There is no change in the
hunting fee with the resident
paying \$3.50 for his license and
the non-resident \$35.

In some counties bear are not
protected and can be hunted at
any time except during the five-
day period immediately preced-
ing the November 15 opening of
deer and bear seasons. During
this period it is unlawful to be
in the field with a rifle larger
than .22 caliber, or with a shot-
gun with buckshot, ball or slug
load, or cut shell. Regulations
concerning these counties can be
checked with the local conserva-
tion officer.

Emergency Message Service for Hunters

The Michigan State Police and
the State Conservation Depart-
ment will again provide emer-
gency message service to deer
hunters.

Hunters are invited to register
their names and camp locations
at the nearest State Police post
or conservation department
headquarters. "before leaving
home they should advise their
families of the station at which
they are going to register.

Messages will not be delivered
if a hunter is at a location, such
as a hotel, with regular commu-
nications facilities available. Mes-
sages also must be of an emer-
gency type. Deliveries will be
made by State Police or conser-
vation department officers.

WHEN YOU FEEL WEAK AS A CAT

If you have that good-for-noth-
ing feeling, like you are half-sick
and half-well, and your nerve
energy is weak and low, the
chances are it is due to one thing;
doctors call it:

BLOOD POVERTY

Your blood cells may be fag-
ged-out or shrunken, and you
might not realize it. Even if you
eat the "best" foods you may
not be getting all the good out
of your meals simply because
you have SLOW Digestion, with-
out knowing it (or gassy stom-
ach) and as a result you are a
victim of Blood Poverty! In other
words, your blood is not getting
the fullest good out of what you
eat. So your blood-cells become
worn-down and you have only
half as much energy as you really
need, you get up in the morn-
ings still tired, and your nerves
become dull.

"These performances are featured each year by the University Musical Society at nominal prices which only partly cover the expense of production," according to Charles A. Sink, president of the society. "They are offered as a public contribution to the Christmas season."

Both the 300-member University Choral Union and the 75-piece University Musical Society Symphony Orchestra will take part under the direction of Lester McCoy, an associate conductor of the musical society. Mrs. Mary Stubbins, of Ann Arbor, will be the organist.

The featured soloists will be Nancy Carr, Chicago soprano; David Lloyd, Minneapolis-born tenor; Eunice Alberts, a contralto from Boston; and Oscar Natzka, a bass from New Zealand. Both Miss Carr and Miss Alberts will be making their first appearances in Ann Arbor. Lloyd and Natzka took part in the 1949 performances of "Messiah."

The Michigan Tourist Council reports that a nation-wide survey placed Michigan in third place in the number of tourists in 1949. California and New York were tied for first with Florida in fourth place.

CHEVROLET TRUCKS
with Chevrolet's Hypoid Rear Axle

Single-Unit Housing

Here's maximum strength... longer trouble-free service! Chevrolet rear axle housings are formed into tubular steel beams; no bolts or rivets to work loose.

Full-Size inspection plates

Easy-to-remove, one-piece inspection plate saves time and labor... provides full view of rear axle gears when removed.

Splined Axle-to-Hub connection

Splines—not bolts—deliver the driving power evenly—without strain—on all heavy-duty models. Loose axle shaft bolts and costly grease leaks are eliminated.

Straddle-Mounted Pinion

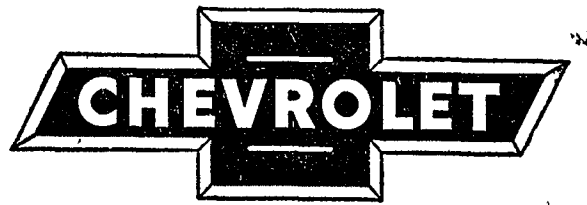

Gears last longer... pinion gear is supported at each end by ball bearings to keep it in mesh. Adjustable thrust pad prevents distortion of ring gear when starting heavy-duty trucks with heavy loads.

4-Pinion Differential

Load and shock of heavy loads are distributed over four pinions instead of two in all Chevrolet medium- and heavy-duty trucks—for longer axle life and greater strength.

Chevrolet trucks are engineered to "take it" on the roughest, the toughest jobs. The single-unit design housing and splined axle-to-hub connection of Chevrolet's hypoid heavy-duty rear axle mean strength and stamina found in no other truck rear axle in Chevrolet's class. Combine that with other outstanding Chevrolet features... powerful Valve-in-Head engines, Synchro-Mesh transmissions, channel-type frames with alligator-jaw cross members! Here is the truck that can handle tough jobs... America's most popular truck. Come in and see these great Chevrolet trucks today.

A reception for one hundred and fifty guests in the parish hall of St. Paul's Lutheran Church, November 4, followed the eight o'clock ceremony which united Lauramae Wick, daughter of Mrs. Doris Wick of West Seven Mile Road and Henry Wick of Yerkes street and Robert Black in marriage.

Guests who gathered to witness the marriage were from Detroit, Highland Park, Kalamazoo, Breedsville, Allegan, Howell, Plymouth and Northville.

Rev. E. E. Rossow read the

nuptial rites before an altar flanked by baskets of colored mums. Presiding at the organ was Selma Schnute who accompanied Mrs. Arthur Miller, soloist, in "O Perfect Love".

Given in marriage by her brother, Frederick, the bride chose a gown of white satin fashioned with a full skirt and long long sleeves. Lace accents on the open collar and neckline were repeated on the peplum and a satin cap, crested with seed pearls, held her lace edged fingertip veil in place. Her cascade bouquet was composed of white roses and carnations.

Performing the duties of maid of honor was Mrs. August Nicolson of Waukesha, Wisconsin, sister of the bride. She was gowned in blue satin styled with a stand up collar. Her gauntlets and hat matched her gown in color, and the ensemble was complimented by a cascade bouquet of contrasting mums.

Bridesmaids, Sally Merriam of Beck Road and Eileen Schoch of Yerkes Avenue were gowned in taffeta frocks identical in fashion, with off-shoulder necklines and bouffant skirts. Their gauntlets and chapeaux matched the gowns in color, dusty rose and gold, respectively. The girls wore rhinestone necklaces, gift of the bride, and cascade bouquets of beehive chrysanthemums with satin streamers to match their gowns completed their ensembles.

Flower girl was Sharon Wick, sister of the bride. Her floor length dress was of lace trimmed aqua taffeta, fashioned with puffed sleeves and peplum and was complimented by a matching taffeta hat and gauntlets. Sharon's flower basket was also fashioned of aqua taffeta.

Cleon Newton served as best man and ushers seating the guests were Hubert Black, brother of the bridegroom, and Lester Wick, brother of the bride.

A black suit with contrasting accessories and a corsage of yellow carnations was the attire of the bridegroom's mother, Mrs. William Black.

A green suit topped by a white fur coat and a rose corsage from the center of the bridal bouquet composed Lauramae's traveling costume for a week's motor trip to an unknown destination. NATIONAL BOARD OF FIRE UNDERWRITERS

ON CAPITOL HILL
NEWS and COMMENT FROM CONGRESSMAN
GEORGE A. DONDERO

Uncle Sam never defaults on his debts. Of that you may be sure. When you bought a savings bond from the government in 1940, expecting this year to get back \$4 for every \$3 you invested then, you made no mistake. When you cash in the bonds you bought in 1940, if you have not already done so, you will receive \$4 for every \$3 you invested. Uncle Sam will pay his debt in full, plus interest, exactly as he promised.

But since 1939, something has happened to the dollars you invested, and to the dollars Uncle Sam pays you as interest on your investment. They won't buy as much now as they did ten years ago. Therefore, while Uncle Sam has kept his word, when he pays you \$3 plus \$1 interest for every \$3 you invested ten years ago, nevertheless you have suffered an actual loss on your investment.

To demonstrate the truth of this statement, let us take a list of typical food items, such as every family buys each week. Let us compare the prices of these items in 1939 and in 1950. By this means we may show how much less those dollars buy today than they did ten years ago.

In 1939, one pound of butter cost 30c, today it costs 71c; in 1939, five pounds of sugar cost 27c, today the cost is 51c; in 1939, fifteen pounds of potatoes cost 39c, today the cost is \$1.03; in 1939, one pound of round steak cost 37c, today it costs 93c; in 1939, one pound of pork chops cost 30c, today it costs 82c; in 1939, one pound of veal cutlet cost 42c, today it costs \$1.08; in 1939, one dozen eggs cost 28c, today the cost is 57c; in 1939, one dozen oranges cost 35c, today the cost is 51c; in 1939, one No. 2 can of sweet corn cost 11c, today it costs 16c; in 1939, one No. 2 can of tomatoes cost 8c, today it costs 16c; and in 1939, one quart of milk, home delivered, cost 11c, today it costs 22c.

When the 1939 prices of these items are added up, they come to \$2.98, or almost exactly the \$3 you invested in savings bond units, in order to get back \$4 this year. But today, when you go out to buy these things that cost \$2.98 in 1939, you must add to your \$4 the sum of \$2.70, because these things do not cost \$2.98 but \$6.70. Thus your \$4 today is worth approximately \$2.70 less than your \$3 was worth in 1939. The dollars still remain dollars, but they will buy less than half as much today as they did in 1939.

This something that has happened to the dollars you work so hard to earn, and try so hard to stretch in order to meet the high cost of living, is the inflation everybody talks so about so

much. By inflation, the value of the dollar in terms of goods is depreciated; the dollar is devalued, as the economists say.

In the early days of the New Deal, Franklin D. Roosevelt devalued the dollar by White House order. Thus some banks, which then were in trouble, paid off their debts to depositors in dollars that were cheaper and easier to get, because they bought less when paid out than when deposited in the banks. The national debt was reduced, not in number of dollars, but in the value of dollars, so principal and interest were more easily paid when government bonds fell due. With cheaper dollars, wages and prices soared, and everybody felt prosperous, with more dollars to jingle in his pockets, even though they would not buy so much.

The destructiveness of World War II caused all kinds of shortages, and this added to inflation. The profligate spending policies of the Truman administration since World War II have kept the wage-price spiral moving upward. More dollars, even though worth less than half as much as before, it seems, win votes in national elections; or so the Truman Administration appears to believe.

It would be a good thing for everyone, when Congress meets again, and the President demands more and more spending, to let your voice be heard in opposition.

Uncle Sam Says

"NOW LET'S ALL BUY BONDS" is the suggestion to be carried by the U. S. Savings Bonds Division this Fall to more than 60 million people now employed throughout the United States. Your "Uncle Sam" endorses this great effort because I know that the Payroll Savings Plan now in operation in thousands of concerns is the means of building future financial security for everyone participating in the program. Savings, built up through the Payroll Savings Plan will enable YOU to take that mortgage off YOUR home—and off YOUR future. A well-managed home maintains a financial reserve against future needs and emergencies. Start YOUR RESERVE today.

Brighton — The voters of Brighton Area School District indicated very definitely at the polls that they want better schools when they overwhelmingly approved a \$400,000 building program. The margin of victory for the two proposals was over six to one, one of the largest majorities in any school bond proposal in Michigan in many years.

Plymouth — The Community Fund drive has reached the \$7000 mark with \$5000 left to go before the goal of \$12,000 is reached. The drive here follows the pattern all over the country. Returns are coming in slowly but workers are confident the goal will be made if people will send their contributions in as soon as possible.

MSC Ag Engineering Is Now Accredited

National accreditation has been awarded the department of agricultural engineering at Michigan State College, according to Prof. Arthur W. Farrall, department head.

MSC's agricultural engineering department is believed to be the sixth in the nation, so recognized by the Engineering Council for Professional Development. The Council includes all major engineering societies in the U. S., and is the official accrediting body for American engineering schools.

Prof. Farrall said the five-man examining committee, which inspected the department May 19, was especially impressed with the physical facilities for teaching agricultural engineering, which the committee called "about the best in the nation." The committee also commended the department for its teaching staff and graduate and research program.

Among the most recent research developments drawing praise from the inspection group were the mechanization of sugar beet culture, the frost machine, and rural electrification improvements, Prof. Farrall said.
