This is the wreckage-strewn naval air station at Pearl Harbor following one of the Japanese sneak attacks on the morning of December 7, 1941. This is the blow that transformed a period of diplomatic parrying into a striking war and convinced the American people that a potential enemy is apt to have a rapier concealed in his diplomatic brief case.

## Tour Lures French Family To Make Home in Village

A visit to the United States a year ago proved so interesting that Mr. and Mrs. George Henri Muller of Paris, France, decided to make their home here.

Mr. and Mrs. Muller and their three charming children, Frank, aged nine, Christine, seven, and Phillippe, twenty months, arrived in Northville last Monday and are living in the Thomas Ankner home at 930 North Center street. The Mullers arrived in New York on the French liner, Liberte, November 27 from Le Havre, France, braving a hurricane while at sea.

Mr. Muller and his vicarious, pretty wife, Brigitte visited the United States a year ago, spending some time with the latter's uncle and aunt in Columbia, South Carolina. They toured 5,000 miles in their French auto, "Vedette" and liked the country so much that they returned to Paris for their children.

Mr. Muller is an engineer at the Dearborn Ford plant. For five years he had been associated with the French Ford plant at Poissy where he was in charge of the experimental department. He took his training at the Lycee Pasteur and the Lycee G'Anson de Sully at Paris, the latter school being a special one for engineering. His work was interrupted during the war years when he was an officer in the French army serving as an interpreter. He speaks, French, English and German fluently.

Mrs. Muller states that their trip from New York to Northville was a most interesting one. After encountering the hurricane while at sea, they motored through Pennsylvania where they found driving hazardous due to the several feet of snow which fell.

Mr. and Mrs. Muller both speak English fluently, but their three children as yet have not learned to speak English. They will soon enroll in the Northville grade school where they will study the English language.

The Mullers' impressions of Northville are that it is a pleasant town and the people are very "nice and friendly". They miss their television set which they had to leave in Paris but hope to have one soon as they feel that it will be a big aid in educating the children.

The Muller family is looking forward to Christmas and the holidays. French Christmas customs are somewhat similar to ours, Mrs. Muller said, and they plan on having a Christmas tree and all the trimmings. They are pleased with the quaintness of Northville and the way it is "all dressed up" for the holidays.

Mrs. Muller is looking forward to the coming of spring as she expects her mother who is living in Paris, to visit her. Hobbies for the Mullers include swimming and reading for Mrs. Muller and automotive mechanics for Mr. Muller.

Miss Orr and Mr. Thompson are studying voice under the direction of Harold Haugh and Mr. Pearson and Miss Hanslovsky are students of Arthur E. Hackett at the University.

The community chorus has been practicing for the past several Sunday afternoons at the First Presbyterian church house. An invitation has been extended by director, Leslie G. Lee, to all college and university students who will be home for the Christmas holidays, to attend the final practice session on the afternoon of December 17 and sing with the chorus that evening. About 85 voices are expected to be in the chorus.

## Social Security Law Affects Farm Help

Every farmer with hired help and farm and other agricultural workers should become familiar with the new amendment to the Social Security program as soon as possible, advises E. B. Hill, agricultural economist at Michigan State College. Social security for farm workers will be effective January 1, 1951.

Here in brief are some of the important provisions listed by Hill:

"Regular" farm workers are covered - farm operators and their families are not, with the exception of children over 21. A regular farm worker is one who works three months during one calendar quarter for one farm operator and who works at least 60 days and earns at least \$50 cash in the succeeding 3-month period for the farmer. Non-cash "wages" such as room, board or farm products cannot be counted.

The 3-month periods begin in January, April, July or October. Workers may use the last quarter of 1950 to qualify. They pay no tax during the quarter in which they qualify.

Household workers on farms are considered farm workers. Wages paid by a farmer to his children under 21 do not count toward social security. Neither do wages paid by a husband to his wife, by a wife to her husband, or by sons and daughters to parents.

The farm worker should get a social security card from the nearest social security office if he does not already have a card.

What must the farm operator do? Hill emphasizes that the program is compulsory and the operator will be held responsible for the collection and remission of the tax.

The farm operator should get the proper forms from the United States Collector of Internal Revenue. He fills in the name and social security number of his hired worker, number of days worked, and amount of cash wages paid the worker in that quarter. At the end of each quarter the employer sends this report to the Collector of Internal Revenue along with the social security tax.

The tax is 3 percent through 1953 - 1 1/2 percent is deducted from the worker's wages and 1 1/2 percent is contributed by the farm operator. It will pay farmers with hired help to keep an accurate record of days worked, wages paid and taxes deducted.

Further details about how the social security program affects you can be obtained from your nearest social security office.

## Villagers Urged To Buy Xmas Seals

Mrs. W. L. Howard, chairman of the Northville double-barred cross Christmas Seal Sale announced that December 7 is the 44th birthday of the first Christmas Seal Sale and that volunteers throughout the country are paying tribute to its originator and designer, the late Emily Bissell. The first Seal Sale in the United States opened in Wilmington, Delaware on December 7, 1907.

Mrs. Howard contrasted the status of the anti-tuberculosis movement in 1907 with the situation today when a "huge army of 3,000 tuberculosis associations in the 48 states and in the District of Columbia and in the Canal Zone, Alaska, Hawaii, and Puerto Rico" work the year round against tuberculosis and its spread. The TB and Health Society of Wayne County is one of the 3,000 affiliates.

"When Miss Bissell conducted the first Seal Sale in Wilmington, tuberculosis was the leading cause of death in the United States," Mrs. Howard said. "Today the disease has been forced down to ninth place among the leading causes of death in Michigan but tuberculosis is still taking a severe toll of American lives with an annual death count of more than 40,000. In Wayne County last year it took 891 lives."

"At the time of the first Seal Sale, little was known about tuberculosis, how it could be treated, and what the chances were for its cure. Today we know a great deal about the way in which tuberculosis germs strike and destroy."

"We know that it is possible to cure tuberculosis in almost all stages, although it is easiest to cure when found in an early stage. Increased knowledge about tuberculosis on the part of our people has armed them with knowledge of how to protect themselves against the disease and how to take measures to prevent its spread."

"But there is still a great deal to be done if we want to make our communities and our nation safe from the scourge of tuberculosis. Even today, there is one American dying of tuberculosis every 13 minutes. The disease is still killing over 40,000 people in the United States annually. And tuberculosis leads the causes of death from disease among our young people between 15 and 35."

Mrs. Howard pointed out that the annual sale of double-barred cross Seals to raise funds to fight tuberculosis has become an honored American tradition. From (Continued on Back Page)

## Village Council Discusses Housing

At the Village Commission meeting Monday evening, a letter was read from the Northville Coordinating Council stating that the substandard housing conditions which they believed to exist in the four apartments in the rear of 147 East Main Street should be alleviated. The Village Commission has referred the matter to Health Officer, Dr. V. George Chabut, for his recommendation.

The Northville Coordinating Council further asked the Commission to prevent persons from parking on the boulevard on Plymouth Avenue. The Coordinating Council feels that the trees and sod are being damaged and that proper care is not being given the boulevard. Wayne County has jurisdiction on the boulevard and the matter has been referred to their office.

The social security act which was passed this year stated that all municipal employees may participate in the privileges of the act with state approval. The matter was referred to the finance committee for further consideration and they will report their findings to the Village Council at their next meeting.

Tom Carrington was appointed by the Commission to be the regular delegate to the Northwest Wayne Development Council and at a later date alternates will be named. A civilian defense head will be appointed in the near future for the Village by the Commission.

## New Development Council Organized

At a recent organizational meeting of the Northwest Wayne Development Council held at the Plymouth Township Hall, Earl J. Demel of Plymouth was elected chairman and Tom Carrington of West Main street was elected vice chairman.

Other officers elected for the council are George Davis, secretary and George N. Bentley, treasurer. The group decided to hold monthly meetings and it was organized as a unit of the Regional Planning Commission of the Detroit metropolitan area.

The purpose of the Development Council is to coordinate the work of the commission in projects developing sewage, water, recreation, transportation and other facilities in the entire area which includes Wayne, Oakland and Macomb counties and the four eastern townships of Washtenaw county. The area comprises some three million people. The commission is composed of 46 representatives of industry, churches, labor, management and transportation.

At the meeting held last Tuesday were Tom Carrington and Charles F. Murphy of Northville; Robert Shafer, Northville Township; George Davis and Thomas Majchrzak, Redford Township; Dr. Floyd Armstrong, Plymouth; Charles Rathburn and Earl Demel, Plymouth Township; George M. Bentley, Livonia.

The list continues with T. Ledyard Blakeman, director of the planning commission; William B. Edmonson, assistant director, and Robert J. Carpenter, planner.

## Woman's Club Speaker

BETTY ROBERTS

## Woman's Club To Hear Betty Roberts

Betty Roberts of Birmingham will return to Northville to speak for the Christmas Tea which honors new members of the Northville Woman's Club, December 15. Her topic will be, "This was the Christmas," an old Serbian folk tale. The program will begin at 2:30 p. m. at the Village Library and has been designated as "Guest Day", when members may bring their friends.

Miss Roberts is well known in this area for her many appearances before women's organizations of Northville. For twenty-three years her voice was heard daily over the air waves, but three years ago, she decided to devote her entire time to travel lectures and special Christmas stories.

Her presentation here will feature a charming old world folk story from Serbia, little known in this country. To make the afternoon more festive, she will wear an old fashioned gown featuring the soft red and greens of the Christmas season.

## Police Chief Warns Winter Drivers

A grim warning was given Northville drivers today in a special statement by Chief Joseph Denton.

"Winter—and all the dangers that it brings to drivers—is with us again. Indications of what we have in store for us this winter will soon be felt. We can't ignore the obvious much longer."

Chief Denton cited two major dangers winter consistently pulls from its bag of deadly tricks to confound the unwary motorist—reduced visibility and slippery roads.

"During an average year, the National Safety Council tells us, the driver's vision was found to have been obstructed in one out of five fatal accidents. Of these, obscurements about two-fifths were rain, snow or sleet on the windshield." Chief Denton also quoted National Safety Council findings in talking about the dangers of slippery road surfaces and bad weather conditions. "An unfavorable road condition—wet, muddy, snowy or icy—was reported for one out of five fatal accidents. In one out of seven fatal accidents the weather was rainy, foggy or snowy."

Chief Denton pointed out that the adverse weather conditions cited in these figures match perfectly with Northville's run-of-the-mill winter weather forecasts.

Chief Denton warned motorists to check the safety equipment on their cars NOW—before winter settles down with a real vengeance. Particular emphasis was laid on the following mechanical features and equipment necessary for safe driving:

1. Equalized brakes.
2. Good tires.
3. Tire chains.
4. Bright, well aimed lights.
5. Defrosters.
6. Heaters.

Although the hazards of winter driving should not be minimized Chief Denton said, a deadpan fatalism on the part of drivers does not help the situation.

"It pays to be a little scared of winter driving," he said, "but the only real solution to keeping safe during these months lies in foresighted, shrewd preparation for the conditions to be encountered, and in driving slowly . . . and being sure to follow the safe driving slogan for November—'Beware of the Careless Walker.'"

## Council Approves Tree Care Program

Recognizing that much of the attractiveness of Northville is contributed by the beautiful trees that line its streets, the Village Commission has determined upon a course of action intended to perpetuate this beauty. For some time the Commission has been having a study made of the condition of trees on Village property. The study has indicated that many trees have diseased or dead wood which should be removed, both from the standpoint of public safety and for the good of the tree.

Monday evening at its regular meeting, the Commission authorized John Miller, proprietor of the Green Ridge Nursery, to proceed at once to remove diseased and dead wood from trees on Village property along Dunlap Street. It is contemplated that where undesirable trees, such as certain softwood varieties, are found, these will be removed and more permanent trees of the hardwood variety will be planted.

The Commission contemplates an extensive program ultimately covering the entire Village over a period of several years. It is hoped and expected that the results will be such as to warrant the Commission in annually allocating certain sums for the continued care and maintenance of Village trees.

In respect to trees on public property within the limits of streets under the jurisdiction of the County Road Commission, an effort will be made to induce the County Road Commission to cooperate in the same program.

Those property owners who have trees on Dunlap Street within their own property line and who desire trimming or other maintenance care on such trees are advised to contact Mr. Miller while such work is being done for the Village and while the men and equipment are on the job.

## L. Lee To Direct Male Chorus Group

The Northville-Plymouth Male Chorus, which was in existence many years ago, was reorganized recently and now meets each Tuesday evening at 8:00 p.m. in the Brock house on West Main Street.

Leslie G. Lee is the director of the group and the committee for reorganization is composed of Mr. Lee, Carl Bryan, George Lockhart, and Russell H. Amerman. Mrs. Norman Frid (Marcia Sparling) of East Main Street is the accompanist.

The membership now totals about 25 voices and is open to any male in this area who enjoys singing. Tentative plans for the future include making a public appearance sometime in the spring. The group was reorganized through the efforts of several villagers who wished to get together because they liked to harmonize.

## Jr. Police Begin Winter Activities

Jr. Police held their meeting in the Recreation Building on Dunlap street last Saturday from 1:00 to 3:00 o'clock under the supervision of the Northville Recreation Committee. Refreshments were served following a session of basketball and BB target shooting. Top marksmen were Charles Wilson, with eight out of ten shots, and John Wortman, with five out of ten.

If the weather is cooperative, the Jr. Police will have a snow party Saturday, December 9. Boys are requested to meet at the Scout Building at 1:00 o'clock. Police Chief Denton, Dave Pottinger and Wilson Funk will supervise activities. Sr. Police are asked to come dressed warm, but are requested not to bring any equipment (sleds, etc.).

The Grace Tremper Circle will meet at the Methodist Church House Thursday, December 14. A cooperative lunch will be served at 12:30. ## Handling of Traffic-Injured Persons Demands Calm, Wayne U. Doctor Says

To demonstrate the proper way to put an accident victim in a comfortable position while awaiting a doctor's arrival, three Wayne University medical students work from one side. Necessary lifting and lowering is done in unison.

"Don't just let her lie there. Do something!"

Such advice from bystanders at the scene of an auto accident has brought harm to hundreds of crash victims, says Dr. Duncan A. Cameron, assistant professor of surgery at Wayne University and chairman of a Detroit accident-problems committee sponsored by the American College of Surgeons.

If you witness an accident in which people are injured, stay calm, says Dr. Cameron. Repress the impulse to do something fast, except when necessary to lift wreckage from victims, control bleeding, or divert traffic.

Here are two principles upon which the doctor's tips are based:

1. If the victim is not seriously injured, just do what common sense dictates, after talking things over with him.  
2. If the person is seriously injured, be reluctant to disturb his position. If you must shift the victim, do so only enough to make him

more comfortable. Telephone for a doctor and ambulance, if possible.

"Rarely does an injured person's life depend upon instant aid," Dr. Cameron says. "The bystander is far more likely to hurt the victim than to help him, if he does the wrong thing."

If it is known that medical help cannot be obtained for a very long time, then:

1. Look for a possible broken limb. Pull this member carefully in the direction of its own axis—then keep it straight with splints.  
2. Put the vomiting person or the spine injury victim face down.  
3. Do not urge the patient to take food or water.  
4. Do not shake an unconscious victim in an attempt to rouse him. Unconsciousness may indicate concussion of the brain.  
5. If transportation is absolutely necessary, use a litter. For longer trips a truck or wagon is better than an automobile, since the victim can lie flat.

## Fire Tragedies Mar Yule Celebrations

Fire turns Christmas into tragedy for hundreds of families every year, the National Board of Fire Underwriters warns in a statement urging caution with the flammable Yule tree.

A spark and a Christmas tree reduced most of the Pennsylvania town of Hyndman to ashes last year when fire spread from one house through several business and residential blocks. The sprightly holiday wreaths on town lamp posts became a grisly reminder of the Christmas night blaze to scores of families left homeless.

One of the most tragic Christmas fires struck at a Babbs Switch, Oklahoma, school party some years ago. Thirty-six persons were killed and 100 injured when candles ignited a huge Christmas tree.

Highly flammable Christmas

decorations spread a blaze that started in the kitchen of a St. Johns, N. F., hall a few years ago. The fire and subsequent panic caused the deaths of 99 persons, injured scores of others.

A short circuit in electric lights on a Christmas tree sparked a fire that killed 17 persons, and injured 30 others in a Hartford, Conn., convalescent home in 1946.

One of the most common reports of Christmas tree fires every year, the fire authorities pointed out, is the fire started by a carelessly tossed cigarette or match. A publishing executive lost his life last year as a result of a lighted cigarette stub dropped among Christmas wrappings in his Scarsdale, N. Y., home. His wife was severely injured when she jumped out of a bedroom window.

In defense of myself, I can honestly report that I never turned to the comic pages of a newspaper before reading the headlines on the front page.

## Dr. Harker Named Alma College Head

The election of Dr. John Stanley Harker, pastor of the First Presbyterian Church of Hamilton, Ohio, as the new president of Alma College, has been announced by Dr. Stephen S. Nisbet, chairman of the Board of Trustees of Alma College.

The new president of Alma College, who will take office at the start of the second semester on January 31, is a native of New Jersey. He holds his Bachelor of Arts degree from Grove City College, Pa., and his Bachelor of Divinity degree from McCormick Theological Seminary. He has also completed his Master's Degree in the School of Education at the University of Pittsburgh and has practically completed his Ph. D. from the same school. In 1941, Grove City College conferred upon him the degree of Doctor of Divinity.

Dr. Harker replaces Dr. Dale D. Welch who last May resigned to become vice-president in charge of financial promotion of Whitworth College, Spokane, Washington.

I know a thousand ways of getting into trouble, but am a novice in getting out.

Fifteen-year old Terry McMillan of Detroit, but who spends his vacations and most of his weekends with his grandparents, Mr. and Mrs. Ira Wagner, of Shadyside avenue, returned home Tuesday from a trip to New York. Two weeks ago Terry got a week's leave from school in order to accompany some friends on a sightseeing trip to New York City. Mrs. Ervin Bohlinger, Mayfield avenue, received a letter this week from her soldier son, Don, who is with the 2nd Division in Korea. The Neighborhood Sunshine Sisters held a lively interesting session in the Neighborhood Meeting-House last Wednesday afternoon. Prayers for the nation and for peace were a feature of the devotional service. During the program Mrs. James Simpson read from one of our popular Sunday School publications illustrating the power of prayer. Several women contributed clippings or told experiences from their own daily living. Some reports were made and a few plans made.

During the social hour Mrs. Maynard Horton served tea and cake. The next Sunshine get-together will be held in the Neighborhood Meeting-House on Wednesday at 2 o'clock. This will be the annual Christmas grab-bag party. Each lady will bring a wrapped gift, without a name card. Gifts should be home-made, if at all convenient, and should cost the donor not more than 50c. All parcels will be placed in a container, from which, by the number method, each one present will draw a package to take home.

Children attending will have a special grab-bag of their own. Birthday cakes honoring two of the Sunshine Sisters will be cut and served at the close of the meeting. The two are Edna Sidelink and Betty Horton.

Children of the Neighborhood Church section will have their annual Christmas grab-bag exchange on Friday evening, December 15, at 7 o'clock in the Neighborhood Church. Mrs. James Simpson was hostess to a special Sunshine meeting held at her home last Monday evening. Seven were present and made necessary preparations for a miscellaneous bridal shower to be tendered Miss Ina Mae Tallman, on December 9.

## If Your Stomach Is Like a GAS Factory!

When you eat a meal and it turns right into gas, it's a sign your food is not digesting quickly enough. It just lays there and ferments. So you are in misery with gas for hours afterward.

Many Northville people used to feel that way before they got CERTA-VIN. This new medicine digests food faster and better. Taken before meals it works with your food. Gas pains go! Inches of bloat vanish! Contains Vitamin B-1 with Iron to give pep and make nerves stronger. People soon feel different all over. So don't go on suffering. Get CERTA-VIN — Northville Drug Company.

If you crave a tender, thick steak, oozing juice, don't order it without noting the price, because if the price isn't more than you intended to spend, the steak won't be what you wanted.

Around midnight I am always pleased to recall Somerset Maugham's reflection that he heeded the injunction to do each day two unpleasant tasks. Maugham said he did. He never wanted to go to bed, but he did. He never wanted to get up, but he did.

## Dec. Bride Wears Lace and Net Gown

June Pritchett of Eastlawn Sanatorium and Sgt. Paul Palmer of Camp Lejeune, North Carolina were united in marriage Saturday morning at Our Lady of Victory Parish. June's parents are Mr. and Mrs. Frank Pritchett of Marshall and Paul is the son of John Palmer of Novi avenue and the late Mrs. Palmer.

Rev. Lorenzo E. Woods read the mass before an altar which was flanked with baskets of white chrysanthemums. The bride, who was given in marriage by her father, wore a ballerina length gown of white lace and net over taffeta. The low round neckline was edged with net pleating and the fitted bodice was designed with long sleeves, ending in points over the wrists. Her fingertip veil was edged with lace and was held in place by a tiara crested with pearl beads. She carried a white Bible adorned with gardenias and streamers. A single strand of pearls completed the bridal ensemble.

June's only attendant was Mrs. Leonard Bogotaitis (Beverly Shipley) of Detroit who was gowned in an aqua net ballerina length gown fashioned with a jacket which buttoned to the neck. A pink hat and bouquet of gold chrysanthemums and yellow roses completed her costume.

Best man was Leonard Bogotaitis of Detroit and seating the guests was the bridegroom's brother, Russell Palmer of Northville.

For her daughter's wedding, Mrs. Pritchett chose a blue and white print dress and a corsage of white carnations and gardenias.

A wedding breakfast followed the ceremony at the Veterans' Memorial Hall and later that evening a reception for 100 guests was held at the hall. The bride table was decorated with a centerpiece of white chrysanthemums, flanked with lighted tapers.

The young couple are honeymooning in Detroit. Upon conclusion of his leave, Paul will return to his camp and June will return to her duties at Eastlawn Sanatorium.

Mr. and Mrs. John Hochkins of Baseline Road are the parents of a nine pound, eleven ounce boy, John Thomas, Jr., born November 21 at Mt. Carmel Hospital, Detroit.

## Post-Korea Buying Rush Taps Savings

Evidence of the inflation forces set off by the Korean aggression last June is provided by an analysis of the consumer buying rush during this past summer.

A U. S. Department of Commerce study shows that by drawing on their liquid assets and going deeper into debt, the American people as a whole were spending at an annual rate of more than \$10 billions over and above their current income in the July-September period in their rush to buy homes and durable goods. The effect of this added buying was all the more intense because of the rise in aggregate personal incomes to a new high in the period, reaching a yearly rate above \$223 billions in August.

There was a general and rapid rise in prices as a result, with the cost of living just falling short of equalling the all time high established in August-September, 1948.

This situation and the anticipated effect of the program to expand U. S. defenses led to prompt credit and fiscal action, including higher personal income and corporation taxes, to fight the threat of a runaway rise in prices. Recent developments make it clear that these steps are not enough and that even stiffer taxation and other measures will be necessary to put the defense program on a pay-as-you-go basis and preserve the purchasing power of the dollar. An essential part of this program is the strictest economy in Government, particularly in non-military spending.

Department of Commerce figures show that consumers in the aggregate drew down their savings deposits by nearly a billion dollars in the third quarter of this year, equivalent to about \$3.5 billions on an annual rate basis. This contrasts with the fact that savings deposits showed no change in the same months of 1949 while in the comparable 1948 period there was a reduction of less than \$100 millions.

### 3 Factors Cited As Causing Close Race for Governor

The hotly contested gubernatorial race in Michigan this

year can be attributed to three main factors, according to a University of Michigan political scientist.

Dr. Samuel J. Eldersveld, assistant professor of political science, listed these reasons as contributing to the close election: 1) the high participation at the polls throughout the state; 2) a higher

urban and metropolitan turn-out than normal for an off-year election; and 3) the considerable support given the Democratic candidate in the rural upstate counties.

He indicated that participation in the present election fell behind the 1948 total gubernatorial vote by only 140,000. That the high participation proved an advantage for the Democrats can be realized in view of a 1948 study conducted by the University's Survey Research Center which showed that 65 per cent of the eligible non-voters throughout the nation is a group with definite Democratic leanings, he said.

Professor Eldersveld pointed out, the high off-year Democratic turn-out in Detroit and Wayne County proved to be a crucial factor in the election. This contrasts sharply to the 1942 and 1938 election when Van Waggoner and Murphy, both incumbents, were defeated primarily by virtue of the low metropolitan Democratic vote, he explained.

The voting pattern in the rural upstate counties where considerable split-balling took place provides one of the most interesting aspects in the election, he declared. Certain Upper Peninsula counties while going primarily Republican gave Governor Williams a plurality of 1,500 votes and upwards over former Governor Harry Kelly, he asserted.

Vernon L. Beal, a graduate

student in the Department of History and presently engaged in research on the Chase S. Osborn papers at the Michigan Historical Collections, contends the present election is very unusual from an historical viewpoint.

After a review of Michigan's voting history, Beal reports that "for the first time since the founding of the Republican Party in 1854, a Democratic candidate has been able to wage a nip-and-tuck battle for the governor's office against a Republican candidate with reputed unified party support."

Both Beal and Professor Eldersveld believe that the personality of Governor Williams was the key to his strong showing, rather than an overall Democratic Party strength.

The political belief that Democrats are helpless in off-year elections in Michigan has partially been exploded as a result of the 1950 gubernatorial race, Professor Eldersveld maintained.

### Knitted Dresses Need Special Care for Good Looks

Your fashionable knitted dress will continue to look well and give you good service throughout the holiday season and the winter if you follow a few simple rules in caring for it.

Suggestions from Florence Rann, extension clothing specialist at Michigan State College, remind us that knitted wool fabrics lose their shape more quickly than do woven fabrics. They are knitted of one continuous thread and do not have a filling thread that goes over and under warp threads as woven fabrics do.

Knitted fabrics cannot be brushed satisfactorily. It is a good plan to shake the garment gently after each wearing and re-shape it as well as possible. Frequent airings are important.

Knitted dresses should be hung up between wearings—but more carefully than other dresses, so that they won't sag. If the dress is closely knitted and there is no excessive bulk in the skirt, the dress can be hung, with the shoulders straight, on a wide-shouldered hanger. However, the skirt should be drawn over the rod of a second hanger.

Another method is to hang the dress over the hanger's crossbar with the waistline carefully placed on the rod. If the dress is too wide for the hanger, fold it once lengthwise. If a bulge develops at any point, dampen the wool slightly, re-shape it and dry it flat.

public utility easement for the use and benefit of the public.

## Persistent Cough Needs Attention, U-M Doctor Says

A cough that persists for a prolonged period of time indicates possible presence of a chest disease, according to a University of Michigan doctor.

There are essentially three diseases that have a chronic cough as an important symptom, Dr. Robert L. Taylor, junior clinical instructor and research assistant in surgery, pointed out. The diseases are bronchiectasis, pulmonary tuberculosis, and lung cancer, he said.

Unfortunately, too many people feel that a chronic cough is something non-significant and does not warrant investigation, the doctor asserted. Many men, in particular, attribute their cough to smoking and consequently put off going to a physician, he indicated.

Bronchiectasis, a common disease probably second only to pulmonary tuberculosis in diseases of the lung, is characterized by enlargement of the small bronchi and bronchial tubes which are off-shoots of the windpipe, he explained.

Secretions collect in the enlarged tubes and become stagnated and infected, the U-M doctor said. Patients with bronchiectasis complain of a cough that is productive of rather large amounts of sputum, not uncommonly containing a small amount of blood, he added.

With the event of penicillin and the new antibiotics the complications of these childhood diseases are fewer and we can hope to prevent the development of bronchiectasis in later life, he said.

A person with tuberculosis frequently notices a cough as his first symptom and, in contrast to bronchiectasis, very frequently raises blood, sometimes in alarming amounts, Dr. Taylor continued.

Patients with cancer of the lung frequently have an attack suggestive of pneumonia but the symptoms do not clear rapidly as they usually do with pneumonia, he indicated.

Weight loss, ease of fatigue, pain in the chest, hoarseness and shortness of breath are all symptoms that may be associated with cancer as well as the other two diseases, he said. In fact, two or more of these diseases may be present in the same person, thus it is important that chronic coughs be investigated by a reliable physician whenever they occur, he declared.

Frequent x-ray examinations and checkups with your doctor are great weapons against these diseases; it takes only a few minutes to have a chest x-ray, and it might save your life, Dr. Taylor concluded.

## Farm Expenses Increased Five Fold in Past Decade

Farm expenses have increased almost five-fold over the past decade and not many farmers would care to return to the "good old days" of low expenses—if they had to accept the level of income that accompanied them.

This increase in cost of farm operation has been accompanied by some phenomenal changes in the composition of expenses. Machinery expense made up only 14 per cent of the total in 1935-39 while in 1947-49 it accounted for 21 per cent. Also, farmers are spending proportionately more for seed, fertilizer and crop expense than they spent 15 years ago.

These changes have been accompanied by a substantial increase in man labor efficiency on farms.

## Low Temp. Rendering Of Lard Is Recommended

Your home-rendered lard will be of better quality if you use a low temperature for rendering, nutrition specialists report.

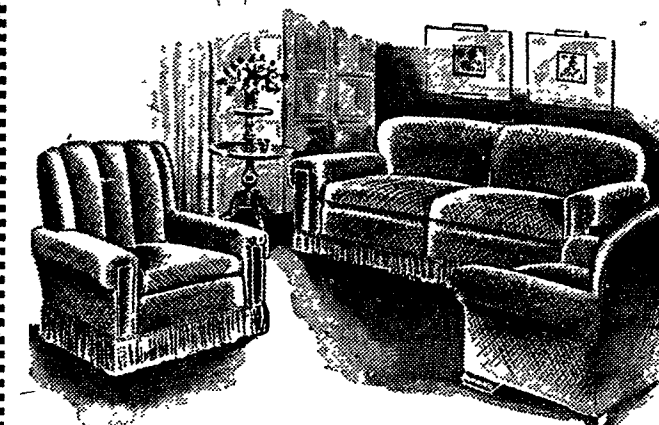

A low temperature is needed to give the greatest yield of lard from the fat and to prevent scorching and sticking, which changes the flavor. Render the lard as promptly as possible after the carcass has been thoroughly chilled—preferably within 24 hours.

## How can you pass up prices like these?

As we've been saying for quite a spell — "Whatever your price range—Better buy Buick."

But maybe we'd better get down to brass tacks, as to just what this suggestion means.

In the lower-price field, this has been happening:

Four out of ten Buick SPECIALS—bought by people with a car to trade in—have been bought by folks who formerly drove one of the so-called "low-priced three." They found they could afford a Buick!

In the fine-car field, something even more impressive has happened:

Four out of five people who looked at a ROADMASTER and another very distinguished automobile decided in favor of ROADMASTER!

So—whatever your price range, take a look at our prices—and at what you get for your money.

What you get is the thrill of owning the greatest Buick of all time—as registered by record-breaking sales.

What you get is power and style and comfort and performance that are hard to match in any other automobile.

More specifically—you get the power-with-thrift of Buick's famous Fireball high-compression engine—a style that stands out in any company—a ride with the comfort of coil springs on every wheel—and performance that makes you feel like the head man on any highway.

Better come in today—and see what can be done about getting quick delivery.

## NHS Teams Win Basketball Openers

Northville's basketball teams inaugurated the cage season last Friday night with victories over the South Lyon reserves and varsity. The Mustangs topped the Lions 40 to 29, and the Colts rode roughshod over the South Lyon reserves 57 to 16.

**MUSTANGS**  
After trailing for three quarters, the Mustangs opened up in the last period with 15 points while holding the Lions to three foul shots to win going away.

Bob Prom led scorers on both teams with 13 points. South Lyon's Hock had 12.

Coch Dick Kay's squad had trouble getting the ball through the hoop in the first three stanzas, but nearly everyone clicked in the last quarter. The Mustangs controlled the ball more than their share of the game, but missed at the foul line. The Northville hoopers made only four free throws of 19 chances. South Lyon gathered 11 points on foul shots, more than a third of their total score, but missed 17 times.

The Northville team is without height on the first squad, but may make up the lack of timber-toppers with speed and ball handling in future games.

The summary:  
Northville ... 40  
South Lyon ... 29

**COLTS**  
The Northville reserve squad, called the Colts by this writer to distinguish them from the varsity, started slowly in their game with the South Lyon reserves, but took charge of the game from the second period on.

Coch Al Jones adopted the platoon system for the game, keeping two teams more or less intact, using them as the framework for substitutions. He started Lamar Nalley, Glen Howarth, Lucien Lovewell, Bob Scheffer and Ed Nash, all freshmen, and sent in another crew consisting of Ken Rowe, Denny Curl, Gary Hix, Jim Mitchell and Al Iversen at various times. He also sent in everyone else in uniform. Howarth paced both teams in scoring, rapping in eight field goals for 16 points, but almost every man on the team shared in the scoring. Half of South Lyon's 16 points were acquired at the foul line.

### Christmas Seals

(Continued from Front Page)  
Miss Bissell's modest appeal in Wilmington in 1907 has come nationwide participation in a campaign against this communicable disease.

"A great deal has been accomplished since the first Seal Sale. Yet the toll of life and suffering and economic loss which tuberculosis still exacts in this country leaves no room for complacency. That is why we urge everyone in our community to buy red and green Christmas Seals with the three little angels. And when you buy them, use them. They carry with them a health message that is vital to every county resident."
