

Got any phonograph records that are collecting dust and that you would like to put to good use? The patients at Maybury Sanatorium would be grateful for them, says Dr. W. Leonard Howard, medical superintendent. Be it be-bop or long haired stuff, long playing or short recordings, a place will be found for them.

In order to carry on their radio programs over station WHMS, many hundreds more records are needed. Anyone wishing to contribute records is asked to leave them at the Northville Record office which will see that they are delivered to the sanatorium.

We think that Bud Hartner, superintendent of Northville streets, and his mighty crew of workmen did a splendid job in keeping Village streets in fine shape during the recent heavy snowfalls. Bud and his gang deserve a lot of credit for their many long hours spent digging the Village out.

Wanted: Someone to translate Chinese. The Record office was recently the recipient of a book written completely in Chinese, sent by Northville's inestimable Mayor, Conrad E. Langfield, who with his bride has been enjoying the enchantment of Hawaii. It looks like it might prove to be interesting... anyway, we'd at least like to know the title of the thing.

Our orchid for the good neighbor of the week goes to Sam Stremich, Sam, who manages the local Penniman Allen theatre noticed that a neighboring business place, Sibley's Style Shop, was having a small fire, namely, that the awning was ablaze. Using his head, Sam reached for his fire extinguisher and quickly put out the blaze before much damage was done to the awning.

Northville grade school children collected \$108.21 for the recent March of Dimes campaign, and the high school pupils donated a total of \$34.08. The school's total intake was \$142.29. Have you sent in your contribution yet? It's still not too late. Donations may be sent to Nelson C. Schrader, who is chairman of the local Dimes drive.

Dr. Howard Makes Appeal for Phonograph Records

An appeal has been made to the public by Dr. W. Leonard Howard, medical superintendent of Maybury Sanatorium, to donate phonograph records to be used by the San for their disc jockey programs.

Maybury recently inaugurated its radio station, WHMS, which is exclusively devoted to education and entertainment for the bedridden tuberculosis patients. Rehabilitation counselor Konrad Facknitz is one of the popular disc jockeys.

Dr. Howard explained that records of all speeds are acceptable and that several hundred more are needed to carry on the programs. Radio station WHMS broadcasts over the hospital's electrical wiring system on an unused radio frequency. Anyone wishing to donate records is asked to leave them at the Northville Record office.

Beginning Wednesday, February 14, a musical appreciation course will be conducted for 16 weeks from 3:30 to 4:30 p. m. by Mrs. Robert Westley of North Center Street. Classical records will be needed and anyone willing to donate or loan her records from their collection for use in teaching the course, should contact Mrs. Westley or Maybury Sanatorium. Old phonograph record cabinets are also needed and donors of them should contact the Sanatorium.

Other features of station WHMS are talks on patient care by Dr. W. L. Howard, book reviews by Maybury librarian, Alice Flynn and music records from a tiny lap organ by Ralph Diethelm.

Under the auspices of the United Council of Church Women, the service is interdenominational and international in scope. The prayer will first be spoken by the Christian women in the Fiji Islands, 30 miles east of the Interfactual Date Line, is echoed in hundreds of languages and dialects around the world until the final "Amen" is spoken in the cold Alaska and the tropic warmth of the Tonga Islands in the Southwest Pacific. The theme of this year's prayer is "Perfect Love Casts Out Fear."

Prominent guest preachers from week to week will speak on the emphasis of faith in Jesus Christ, the Holy Spirit, the Church, in Forgiveness and in Life Eternal. Mr. Fredsell will preach in the Plymouth Presbyterian Church the following week. Each Wednesday during Lent a fellowship supper is held at the Church House, 6:30 p. m. with those attending bringing a passing dish and their own table service. Coffee is served by the various circles of the Woman's Union. After the supper the Lenten Service is held in the church proper at 7:30 p. m. Blood Bank Drive Set for March 22

Announcement has been made that the Red Cross Blood Bank will visit Northville on Thursday, March 22. Lloyd H. Green Post No. 147, American Legion, will spearhead the blood bank and recruit donors.

Charles Carrington, Legion Commander, stated that the bank will be in town from 3:00 to 8:00 p. m. and that it is hoped that at least 200 pints of blood will be donated. More than ever blood is needed for the boys in the armed forces and an earnest appeal is being made for Villagers to respond to the call.

Pianist To Give Concert Feb. 13

Holders of Community Concert tickets will hear the brilliant young American pianist, William Schatzkammer in a concert Tuesday, February 13 at the First Presbyterian church house. Concert time is 8:15 p. m.

Schatzkammer was born and educated in New York City. Upon graduation from high school, he attended the Juillard School of Music. The summer after his graduation from Juillard, Schatzkammer was chosen from among 60 pianists to play Gershwin's "Rhapsody in Blue" at the Lewisohn Stadium in New York. This was his debut and a great success. It was followed up by a formal recital debut in Town Hall, New York, for which Schatzkammer received enthusiastic acclaim leading to a contract with RCA Victor records and with Columbia Artists management which has since sponsored his annual transcontinental tours.

Schatzkammer was no stranger to American concert audiences, however, for he divided three seasons as assisting artist to Mia Slavenska and her Ballet Variante and to several noted singers, and he had more than 600 performances in this role to his credit before he embarked on his first and highly successful solo recital tour. His first recording from RCA Victor, Scriabin's Sonata No. 4 in F Sharp, which has only recently been released, has garnered unusual praise throughout the country.

He is married to Mary Bray who is also a pianist. Their New York home is just off Gramercy Park, and they have a summer camp in Putnam County, New York.

Proceeds Benefit BPW Cancer Fund

The Northville Business and Professional Club at their recent card party cleared \$190.00 which will be used in their revolving cancer fund.

Mrs. Dawn Holcomb was chairman for the party and she was assisted by Mrs. Clara Broda, Mrs. Ann Young, Mrs. Meta Myers and Mrs. Betty Conroy. Forty tables were occupied on the first floor of the Veterans of Foreign Wars Hall last Tuesday evening and each table, winner was presented with a china cup and saucer. Refreshments were served in the basement of the hall.

Four thousand women in the Business and Professional Women's Clubs in Michigan have united in a common purpose to decrease their own death rates and to help one another do so and to be part of an informed public. This is the basis of the state revolving cancer fund. The funds from the card party will be turned into the state fund and they will readily be made available to BPW members should they be stricken with cancer.

The Business and Professional Women's Club have taken a positive stand in the fight against cancer. At their 1948 convention, they adopted two resolutions: that the Michigan Federation of Business and Professional Women's Clubs establish a revolving fund to be contributed to by the state and individual clubs to provide financial assistance to their members who may need a loan for cancer treatment. That application for loan shall be made to the President of the local club who in turn will present it to the Cancer Foundation. Payment shall be made after the loan has been authorized by the Cancer Foundation and the State President.

Council Inaugurates Plans for Village Development

At the regular Village Commission meeting Monday evening, the Council voted to have the municipal planning firm of Waring and Johnson, Detroit, draw up a master plan for the future development of the Village, working in conjunction with the planning commission.

Thomas R. Carrington, chairman of the Village Planning Commission, was present to submit the Commission's view with regard to business parking area and alleys. Mr. Carrington cited the dire need for free parking space in the four-block business area. The Village clerk was instructed by the Council to make a contribution of \$10.00 to the northwest Wayne Planning Council for use in disseminating printed material regarding their activities.

The Council voted to appropriate another \$1,000 to the Village tree trimming program which was inaugurated recently. John Miller of Green Ridge Nursery, who is doing the work on Dunlap street was present to report that so far his crew has trimmed 61 trees, removed 11, topped five ready to drop, leaving 37 trees still to be trimmed. The money which was appropriated will be used to carry on the work which will be confined to streets running from Main to Randolph street. Many of the trees which are being removed will be replaced in the spring with trees about 15 years old which range from 18 to 25 feet in height. Clerk Mary Alexander was instructed to write the Wayne County Road Commission asking that they care for the trees which are along the streets under their jurisdiction.

Names of Men in Service Wanted

In cooperation with the Northville Exchange Club, the Record this week began sending the paper free to local men now serving with the armed forces.

So that the list may be as nearly complete as possible, the Record asks that parents and friends of local men in service send their complete address in, either on a penny post card or by phoning 200.

The Northville Exchange Club recently inaugurated a program whereby they hope to keep the boys in touch with local activities while they are serving in the armed forces. Those boys about to enter service or who are home on furlough are invited to attend the Club as guests.

The Northville Mustangs and Colts will take the basketball court against the Milford Redskins Tuesday night, February 13, in games at Milford. The Colts will begin their game at 7:15 p. m. and the varsity match follows.

Milford defeated Northville 53 to 25 in the Northville gym December 12, but the Colts trounced the Redskins reserves 65 to 16.

Crowds continue to stay away from Northville games in droves, despite rapid improvement in both the varsity and reserve squads, improvement which is resulting in close, exciting games.

Willow Run Airport Is Exchange Topic

Members of the Northville Exchange Club last week heard a talk given by Bob Larson, general manager of the Willow Run Airport. He was introduced by Dr. Hugh Godfrey, program chairman for January.

Larson told the members how the airport serves the eight major airlines with no one line controlling the policies. The authority is vested in a central coordinating organization which serves them all in an impartial manner. The airport operates at a loss as do all major commercial airports with the exception of two, and is owned by the University of Michigan. The airlines make up the deficits in return for the use and maintenance of the field. Pilots, Larson said, appreciate the airport as it has long and well laid out runways.

Lenten Message - -

By the Rev. Harold F. Fredsell, Pastor, First Presbyterian Church

LET ME KEEP LENT
 Let me keep Lent
 Let me not kneel and pray,
 Forego some trifle every day,
 Fast - and take Sacrament -
 And then
 Lend tongue to slander, hold
 ancient grudge, DENY
 The very Lord whom I would
 glorify.

Let me keep Lent,
 Let my heart glow in grace,
 Let Thy light shine till my illum-
 ined face
 Will be a testament
 Read by all men,
 That hate is buried, Self crucified
 new born
 The spirit that shall rise on Easter
 morn.

Lent commemorates that period in the life of our Lord, when for forty days he remained in the wilderness to spiritually prepare himself for His life work. We feel that it was during this period that through prayer and communion he developed the inner disciplines, and thought through his faith—that enabled him in the crucial moment to readily lay down His life that men might know the better way.

Likewise in the Christian Year, Lent is that season set aside when man is particularly reminded of his need to restore the inner springs of his spiritual life. It reminds man that he is more than a physical being, that the hunger of his soul demands some means by which in time the Eternal grows real, the invisible shines through the seen, conscience is

quicken, resources are deepened, and hope is renewed, — until one hears the trumpets of the soul again and is made adequate to face life.

Our forefathers used to observe Lent with prayers and fasting. Self-denial is encouraged. The Churches will observe special services to strengthen our faith. I am not appealing for any special message as such during our Lenten Season. But I am haunted by the fact that most of us could be lifted to new levels of spiritual quality—if we took in earnest what is implied. This thing particularly I lay upon your consciences; there is no more subtle and certain way of denying the great matter than by denying the means to it. Few people deny the principles of education or the desirability of an educated life, but by listlessness and laziness thousands refuse to master the techniques of study by which alone the educated life can come. They intend to refuse the road, not the goal, but, lo! he who refuses the road has refused the goal.

Millions are so losing God! I know of a student of music who hopes sometime to be a concert pianist and who at one time practiced five hours a day with his right thumb alone. That is the test of his sincerity, his teacher said to him. Does he want what he says he wants enough to master the techniques? Yet how many of us spend five minutes a day on the thoughtful nurture of our spiritual life? "Be not deceived; God is not mocked: for whatsoever a man soweth; that shall he also reap."

Cooking potatoes in milk as in scalloped potatoes usually results in curdling. Thicken the milk with flour before combining with the potatoes.

Adding lemon juice to a lemon pie filling before cooking may result in a thin filling. Add the lemon juice at the end. It will also keep more of the natural lemon flavor.

Perhaps the most common error in cooking is the use of wrong measurements. Measuring cups and spoons may vary greatly in size. Level, rounding or heaping spoonfuls give quite different measures.

Rules are necessary in the game of football. They are even more necessary on the highway, because the final score may be death in an accident. The National Safety Council asks motorists and pedestrians to know and obey traffic laws.

W. C. T. S. Herd Receives Honors

Six cows in the Training School herd have established life time production records of 100,000 pounds of milk. One cow, Wacont Princess Ina, has a life time production record of 160,860 pounds of milk. Her butterfat production during this period was 5374.7 pounds. During her life this cow delivered 10 calves and produced milk 3801 days.

The six cows were singled out for certificate awards at the annual Holstein-Friesian Association meetings, during Farmers' Week at Michigan State College. The combined production of the six cows approaches 1/4 million pounds (741,287 pounds). All cows on test are subject to the closest check and investigation by impartial testers provided by the Holstein-Friesian Association. The herd is comprised of fifty producing cows.

Numerous offspring from this fine herd have been sold to dairymen in this community and in adjoining states. It should be pointed out that the Training School herd is milked and cared for by boys assigned there as a regular part of their training.

... with his modern Electric Range!

Jack Benny, star of "THE JACK BENNY SHOW" heard every Sunday over CBS, coast to coast

"The mythical Jack Benny of the radio isn't really stingy—he merely hates to spend money," says Mrs. Benny (Mary Livingstone to all her radio fans), "but although the real Jack Benny is most generous, he still considers our Electric Range real economy."

Sure—you have economical operation with the modern Electric Range—but that's only one feature. It's almost human—different from any range you've ever tried. You don't guess at the cooking heat. Flip a switch, and you get just the heat you need. You don't peek or watch while things are in the oven. You know the automatic controls are doing that for you. Nothing new to learn—except how much better, how much easier cooking can be when you have a modern Electric Range. You can learn all about it at your dealer's!

ABE'S ORIGINALITY
STANDING ON THE SOIL where, in one of the most momentous of all battles, almost 46,000 gallant soldiers of the North and the South had given up their lives for causes which they upheld in all sincerity, Abraham Lincoln dedicated the National Soldiers' Cemetery on the field of Gettysburg (Nov. 19, 1863) with a masterly oration. It contains fewer than 300 words, but each is a forensic pearl of price . . . Thirteen years before (May 29, 1850), the concluding phrase had been used by Theodore Parker in his "American Idea" address at the New-England anti-slavery convention in Boston, when he said that the American idea of democracy demanded a GOVERNMENT OF ALL THE PEOPLE, BY ALL THE PEOPLE, FOR ALL THE PEOPLE. Long before that (Jan. 26, 1830) Daniel Webster, in his celebrated reply to Hayne at Washington, had emphasized the PEOPLE'S GOVERNMENT, MADE FOR THE PEOPLE, AND ANSWERABLE TO THE PEOPLE . . . What mattered it that they had anticipated the sentiment of Lincoln? The kernel of the thought was still sound. Never had it been given utterance under such impressive circumstances.

"Among free men there can be no successful appeal from the ballot."
—Abraham Lincoln.

Speaking of his family, Lincoln once said: "I don't know who my grandfather was, but I am much more concerned to know what his grandson will be."

"Let us have faith that right makes might; and in that faith let us to the end dare to do our duty as we understand it."
—Abraham Lincoln.

Here's a classic example of the type of house most American families look for. It's Good Housekeeping magazine's "Small House of the Month" for February. Features include: 1,250 feet of floor area; full basement; 12 closets; and fireplace. The exterior is brick veneer, vertical siding, and wood shingles. Protect Bags

To keep empty feed sacks from being damaged by mice or rats, take a piece of iron pipe slightly longer than the width of the sacks and suspend it from the ceiling with two lengths of wire. Wool reserve for the world are gone and a serious shortage is expected during 1951. Demand is expected to stay high in the United States. Edison To Sponsor "Range of Stars"

"The Range of the Stars" is a slogan which will soon be familiar to millions of electricity users across the nation. It highlights the new Edison Electric Institute sponsored program for the promotion of electric ranges which will carry the endorsement of eight of Hollywood's top stars.

Bob Hope, Jack Benny, Eddie Cantor, Broderick Crawford, Alan Ladd, Pat O'Brien, Gene Au'ry, and Robert Young are the stars whose names will headline the program. But of equal importance to American housewives is the enthusiastic approval of electric cooking given by the wives of these famous personalities.

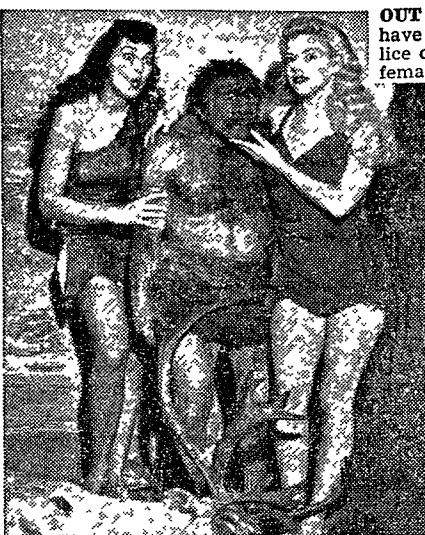

The program, developed by the industry's Electric Kitchen and Laundry Committee, centers around a colorfully printed twelve-page booklet entitled "How to Hold a Star." This features the favorite recipe of each star as prepared by his wife. The booklet is highlighted by photographs of the eight couples taken in their own electric kitchens and is available, free, at any appliance dealer where the "Range of the Stars" is displayed.

Over 1175 appliance dealers and all Detroit Edison offices in South-eastern Michigan will feature this electric range campaign throughout February and March. Newspapers, radio, television and billboards will carry the story of the stars and their testimonials to electric cooking.

During the last ten years, sales of electric ranges throughout the United States have been quadrupled and the number of ranges in service more than tripled. Range sales in 1950 climbed to a record peak of 1,800,000 whereas sales in 1940 totaled 450,000. The number of ranges in service by the end of 1950, according to Electrical Merchandising magazine, totaled 8,195,000, an impressive increase over the 1940 total of 2,510,000. These figures indicate the growing popularity of electric cooking.

Detroit Edison's Vice President and Sales Manager, Fred A. Compton, points out that last year more electric ranges were added to Edison lines than ever before—28,386 Edison customers switched to electric cooking. "The Range of the Stars" program, says Compton, "will make 1951 another banner year for electric ranges."

Long-term Investment that pays daily dividends

THESE days thoughtful people turn their minds to the durability of things they purchase. But it's rare when doing your duty turns out to be the best way to satisfy your heart's desire.

That's what's so marvelous about this '51 Buick. If you picked a car just for the lift it gives you—your pride in its power—or its generous comfort—you couldn't make a better choice.

But make note of this: That gleaming new push-bar forefront, which greets your eye with flashing beauty, contains 25 grille bars made of stamped steel, individually mounted to "give" and come back unharmed.

But make note of this: Buick's great-powered engine is a Fireball, wondrously lively and eager at the mere touch of your toe—but it also wrings extra power from every drop of fuel, and has the mechanical perfection

that comes only from years of experience with this basic design. Dynaflo Drive gives you effortless smoothness of control—but it also eliminates clutch repair bills, saves tires, eases strain on the whole driving mechanism, from engine to differential.

The road-steady gait of a Buick assures relaxed security—and is also evidence that you have a durable, deep-silled, X-braced frame beneath you. However you check it, you'll discover this: The things that make you yearn for a Buick on first acquaintance, are the very same things that make Buick such a smart long-time buy.

Better see your Buick dealer—soon.

Standard equipment, accessories and trim illustrated are subject to change without notice.

Colts Lose Game To Inkster, 48-22

The Inkster reserve squad defeated Northville's Colts 48 to 22 Tuesday, Jan. 30, in a basketball game on the Northville court. Inkster height and an accurate passing attack were too much for the Colts to master.

The rangy Inkster team controlled both backboards most of the game, giving the Colts little opportunity to shoot their share of the time.

Only three Northville players participated in scoring, which is some indication of the tough Inkster defense. In most games this season, points have been fairly evenly divided among seven or eight players.

Northville matched points with Inkster in the first quarter, 10 to 10, but lost ground steadily throughout the rest of the contest.

Some of the mothers took cookies and a bushel of apples to Percy Jones Hospital. Valentines are being sent to Veterans at Maybury San. Mrs. Myra Ward was appointed hospital chairman for the chapter and Mrs. Pennell was appointed Americanism chairman.

Lester Ward and Russ Baker came home by plane from Camp McCoy, Wisconsin for a short visit with the Ruben Wards.

Mustangs Rally But Inkster Wins Close Game, 46-44

A strong closing drive fell two points short as Inkster Carver High School defeated the Northville quintet 46 to 44 Tuesday night, Jan. 30. Inkster led by a small margin most of the way, but the Mustang rally in the last two minutes quickly closed the gap. Inkster played it safe in the final seconds, freezing the ball and forcing Northville to foul in attempts to get possession.

Don Graham paced the scoring with 15 points. He was followed by Bob Prom and Inkster's Don Williams, each with 14 markers.

The speedy Inkster crew employed a close man-to-man defense difficult to handle on the small Northville court and displayed a sharp passing attack.

The steadily improved Northville five kept pace until the third period, then fell behind as their shots failed to hit accurately. The Mustangs found the range again in the last quarter and outscored Inkster 16 points to 7, but couldn't make up an 11-point deficit.

Don Graham, Charlie Rebitzke, Dick Gray, Tom Shrake and Bob Pullen went all the way in the game. Coach Dick Kay elected not to use the men on the bench as long as the starting team held up, probably on the theory that a substitute would be "cold" for a few moments, long enough to give the opportunistic Inkster squad an edge.

Announcing... New DODGE "Job-Rated" Trucks

The trucks that do the most for you!

More powerful than ever! Dodge now offers you the most powerful "Job-Rated" trucks in Dodge history! Eight engines—94 to 154 horsepower—with power increases as high as 20%!

You get the right power for your job... in the finest performing trucks that ever carried the Dodge name! Yet these new Dodge "Job-Rated" Trucks are priced with the lowest!

NEW! Smarter styling! New beauty combined with massive, rugged appearance. New hood line for better road visibility. Roomy new cab interiors in contrasting colors—new comfort with redesigned seats.

NEW! Easier handling! Shorter turning diameters than ever before—for even greater maneuverability! More convenient steering wheel angle for greater driving comfort. New worm-and-roller steering gears for easier steering—plus all the ease-of-handling features that made Dodge "The Choice of Champions" in the 1950 National Truck Roadtest!

NEW! Extra-quiet brakes! Another Dodge engineering first! New, molded, tapered cyclebond brake linings contact brake drums with smoother, more even action—practically eliminating brake squeal. Less tendency of brakes to "grab"—and lining life is greatly extended. Standard on trucks 1½-ton and up, except for air brake models.

More than 50 brand-new features including...

- NEW SMOOTHER RIDE with new, "Oriflow" shock absorbers; standard on ½, ¾, and 1-ton models.
- NEW EASIER LOADING with lower ground-to-floor height on all models through 2 tons.
- NEW EASIER BAD-WEATHER STARTING with new moisture-proof ignition and high-torque starting motor.
- NEW MORE ECONOMICAL PERFORMANCE with higher compression ratio—on all models through 1 ton.
- NEW EASIER-TO-READ INSTRUMENTS—now grouped in a cluster placed in front of the driver.
- NEW TWIN CARBURETION AND EXHAUST SYSTEM for greater power with economy—available on all high-tonnage models.
- NEW SMOOTHER ENGINE IDLING with "hotter" spark plugs; on all models through 1 ton.

A model to fit your job!

ANOTHER DODGE EXCLUSIVE! Gyrol Fluid Drive now available on ½, ¾, and 1-ton models.

Come in to see the new DODGE Trucks on display Saturday, February 10

ON CAPITOL HILL NEWS and COMMENT FROM CONGRESSMAN GEORGE A. DONDERO

It is now conceded by the Truman administration, Members of Congress, and the general public that this new war we are heading into must be a 'Pay-as-you-go' war, so far as it is humanly possible.

Higher taxes will not only help pay for the war, but they will prevent in some degree inflationary spending in competition for scarce civilian goods.

Perhaps this is why he has proposed an immediate increase of \$10 billion, by upping personal and corporate income taxes, and excise taxes on such things as cigarettes, liquor, automobiles, and gasoline. He told the House Ways and Means Committee recently that he would leave it up to Congress to find ways of raising the extra \$6 billion.
