

Wilson Funk, Rev. William Johnson, Dr. S. F. Campbell, Orson Atchinson and President Essie Nilder of the Northville Exchange Club along with Tom Wick, Junior Exchange, liberated well over a thousand brook trout in the Rouge River last week. Through the courtesy of E. R. Widmyer and the U. S. Fish Hatchery, the trout measured from eight to 11 inches in length. Exchanges Bill Petz and Ken Rathburn furnished trucks for this noteworthy project of replenishing the streams.

For seven year old David Sackett of Rayson Street collecting comic books is "strictly serious business." David's daddy, Captain Roger Sackett wrote his family stating that the soldiers at the Army Hospital at Nara Japan, wanted to read comic books.

So David busied himself, asking all the children at the Northville Grade school to donate their old books. Over 350 were collected at the school and many were sent by the inmates at the Detroit House of Correction. Wilson Funk of the Northville Recreation Committee has agreed to see that they get sent to the patients at the hospital. The Boy's club have 20 packages wrapped and ready for mailing. All they need is the postage which will amount to approximately 90 cents per package. Anyone wishing to donate postage is requested to contact Wilson Funk, phone 794J.

Mrs. William S. Milne and Tom Fisher are contributors to the sock and tie collection for inmates at the Detroit House of Correction. Many, many more are still needed to carry on the work in the occupational therapy department. Leave your old beat-out, battered cravats at either the Northville Record office or at the home of E. J. Willis, 119 Rayson Street. Northville citizens have already donated about 700 ties to the cause. Let's hit the thousand mark this week!

Been enjoying these balmy days? No one quite discovers the pleasures of spring like the small fry. Three of the Village's younger generation raced by having a tricycle race the other day. One moppet, aged four years or so, spilled and tore a considerable rent in his jacket. Shouted his companion, "Gee whiz, you're going to catch it when you get home."

This is the final chapter to the saga of the Chinese book we received from Northville's genial mayor, Conrad E. Langfield, while he was honeymooning in Hawaii. We finally found someone who could translate the book. Claims she, it is a book used by the missionaries. You read it from the back to the front, and from the bottom of the page to the top.

Congratulations, Northville! The Detroit Chapter of the American Red Cross recognizes with deep gratitude the efforts of the Northville County Branch in oversubscribing its quota in the recent fund campaign and for the excellent response in securing blood donors when the Bloodmobile Unit was in Northville on March 22.

Proclamation

Last year some 210,000 families lost a father, a mother, or a child to cancer. Of these more than 100,000 were in the prime of life, between the ages of 30 and 65. They were stricken when their families, their work and their communities needed them most.

Those who have lost a dear one, know cancer as a terrible threat. They know that the disease reaches beyond the patient to family and loved ones all of whom must share the serious burden.

Happily, there is a brighter side. Physicians can now cure half of those who develop cancer if the disease is diagnosed early and treated promptly. Today, however, only about one in four, who have the disease, are being saved.

We as individuals have a great responsibility: to strike back at cancer through spreading life-saving facts and through contributing to the Cancer Crusade. Lives will be saved in our country, our state, our community, and perhaps in our own families.

Therefore, I, C. E. Langfield, Mayor of Northville, Michigan, take great pleasure in proclaiming April as Cancer Control Month. I call on all citizens to join in the Cancer Crusade of the American Cancer Society. I heartily subscribe to the Crusade's theme: Guard Your Family. Strike Back. Give to Conquer Cancer.

DeHoCo Tour Shows Rehabilitation Work

A tour through the Women's Division of the Detroit House of Correction reveals the work that is being done to rehabilitate the inmates for the time when they will once again take their places in society. DeHoCo has all the women who have been convicted of committing a felony under State statutes.

Warden A. Blake Gillies and his staff work with the women in a warm, friendly manner and when they leave, most of them are equipped to lead a normal, happy life. They have learned to cooperate with others, and many have learned a useful skill so that they may find a pleasant occupation. Mrs. Dorothy Leuty is director of the Women's Division.

When a woman first enters DeHoCo, whether it be for larceny or murder, she first spends a period of time in quarantine at the hospital. She is then assigned to one of the eight cottages where she is responsible for the upkeep of her room. Most of the women take great pride in their rooms and make them very feminine by adding ruffled curtains, drapes and bedspreads.

Their days are spent working about the grounds. How would you like to face 34,000 pounds of laundry on a Monday morning? The women do all the washing and ironing for Herman Kiefer Hospital, Maybury Sanatorium, the Fire Houses, Receiving Hospitals along with their own at DeHoCo. Many are engaged in sewing where they make their entire wearing apparel from white anklets to uniforms.

Many make rugs and drapes. The more than 600 ties which have been collected in the Village are used to make gay, multi-colored draperies which are very handsome. We saw the women tearing the ties apart and making strips of them in preparation for weaving them together.

A layman can't help being impressed by the very humane way in which the women are treated. Warden and Mrs. Gillies and Mr. and Mrs. Ed. Gardiner who guided our party on the tour spoke warmly to the women as we threaded our way from one building to another. Guests at the luncheon and tour were Mr. and Mrs. E. J. Willis, Wilson Funk, Mayor Conrad E. Langfield, Rev. E. E. Rossow, Eleanor Breitmeyer, Mrs. Harry Richards, Jr., and Mrs. Dorothy Leuty.

Mrs. Oscar Hammond, Mrs. Arthur Gotts, Mrs. Merner Wilcox, Mrs. Starr Bray, Mrs. William Canfield, Miss Jessie Hutson, Mrs. D. J. Stark and Mrs. Lucile Felker attended the 10th annual meeting of the Ann Arbor District of the Methodist Society, Christian Service in Monroe Tuesday, April 10.

HARRY BRODIE CLARK

Harry B. Clark Succumbs Sunday

Through the passing of Harry Brodie Clark, Northville has lost one of its most illustrious and beloved citizens.

Mr. Clark was born July 25 1870 in Pittsfield, Massachusetts, to the late George and Abbie Clark. The family migrated to Northville when he was six years of age and settled on a farm three miles west of the Village which is now property of the Maybury Sanatorium. In 1909 he was united in marriage and the couple moved to the Meadowbrook House on East Eight Mile Road in 1925 where they resided until 1941 when they purchased their present home on Thayer Boulevard.

As a farmer, dairyman, and for twenty-five years a director of the local bank, Mr. Clark played an important role in the business and social life of the growing community. He was a life member of the three Masonic bodies of Northville: the Blue Lodge, the Chapter and Knights Templars. For several years he was president of the Masonic Association. He was also a member of the Moslem Temple of Detroit, Elk Lodge of Pontiac and a member of the local Rotary Club for 25 years.

Always intensely civic-minded, Mr. Clark was one of the organizers of the Northville Wayne County Fair and as one of his most cherished hobbies, was a manager of the Horse Show for many years. He also served on the Board of Directors of Rural Hill Cemetery, and under his leadership, the organization realized many developments and improvements.

Funeral services were conducted from the Schrader Funeral Home at 2:00 p.m. Tuesday, April 10. Officiating at the final rites were Rev. Harold Fredsell of the First Presbyterian Church of which he was a member of long-standing. Assisting Rev. Fredsell was Dr. J. Leslie French of Ann Arbor. Interment was made in the family plot in Rural Hill cemetery.

Serving as active pallbearers were: E. L. Millis, Russell Walker, Perry Holmes, Charles Carington and A. Russell Clarke.

Honorary pallbearers were: William Forney, Robert Coolman, Howard McKeague, Roy Terrill, John Boyce, Gerald Woodworth, Carmel Benton, Clarence Davis and Edmund Beard.

Council Adopts Parking Changes

Several changes in parking in the Village were adopted by the Council at their last regular meeting, Tuesday evening, April 3. They were adopted upon the recommendation of Commissioner George Locke and Police Chief Joseph Denton who had made an extensive survey of the parking bottlenecks.

No parking will be permitted at any street intersection within 20 feet of the corner, except at the two corners where there are traffic signals. These corners will be marked, painted and signs erected prohibiting such parking. Main Street has been designated as a fire lane and a 24-hour ban has been placed on parking on the south side of the street from Wing to Rogers Street. Linden Street from Dunlap to Main has been designated for one-way parking and it will be done on the east side of the thoroughfare. The sidewalk area on Linden Street in front of Atchison Memorial Hospital has been marked as a loading and unloading zone. Parking on the west side of West Street has also been eliminated between Main and Dunlap Streets. Church Street is also a fire lane and parking will be banned from the east side of the street.

The goal of the American Cancer Society Crusade is to help raise funds so that the program can continue to save lives through educating the general public.

Election Correction

In last week's election story, it was erroneously stated that C. W. Schutte was elected justice of the peace to fill the vacancy created by the death of C. E. McCullough. It should have read that he was elected to fill the vacancy created by the death of C. M. Chase.

The majority of citizens voting the special school election Tuesday approved the six mill limitation which will be assessed against all property in Northville and Novi School District No. 2 for a five year period, from 1951 through 1955.

Of the 337 ballots cast at the Village Hall, 288 signified "yes," while 69 taxpayers voted "no" on the proposition. Over 2000 persons were eligible to vote in Tuesday's election.

By the granting of the extra millage for a five year period, Northville school children have been assured that the school system can at least be maintained at its present level. With the extra revenue, Superintendent Russell H. Amerman states the school district will gain about \$25,000 per year. The Board of Education hopes to maintain a fine teaching staff, and improve the school curriculum and keep the buildings in good repair.

Kroger Scholarship Plan Announced

Eighty-six outstanding high school graduates will enter college next fall under the Kroger Company scholarship plan, Joseph B. Hall, Kroger president, announced today. The program, which offers \$200 one-year scholarships at the land-grant colleges of 17 midwestern and southern states, was extended this year to cover two additional states, Alabama and North Carolina.

"We hope these scholarships will encourage worthy young men and women to enter college who might not otherwise have the opportunity to do so," Mr. Hall said. The awards are divided between students planning to major in home economics and those specializing in agriculture.

Graduates of accredited high schools in the 17 states are eligible. Applications for Kroger scholarships and information on the program may be obtained from the deans of the colleges of agriculture, or through county agents, home economics teachers or vocational agriculture teachers.

MICHIGAN MIRROR NON-PARTISAN NEWS LETTER

The post-election mood of many legislative leaders is distinctly cool towards making any tax deal with G. Mennen Williams.

Reasons: (1) Williams' partisan attack on Dr. Lee Thurston, state superintendent of public instruction, alleging inaction in an official inquiry into the Litchfield school-paddling scandal. (2) The voters' reaffirmation of confidence in the Republican party as shown by the spring election outcome.

The governor keeps insisting that a state corporation profits tax is not a "consumer" tax and that "it could not be translated into a general price increase." His statement is at direct variance with the accepted fact that federal income taxes imposed upon corporations are paid ultimately by consumers in the form of higher prices.

Republican legislative leaders are apt to press for enactment of a gasoline tax increase, already approved by the Senate, and let the chips fall where they may. Such a levy coupled with additional taxes on corporations may be the final answer to needs for better highways and a solution of the state deficit.

The spring election didn't boost the governor's stock with the state legislature.

The unique means of determining draft status for those seeking college training seems established. Centers have been designated all over Michigan to give examinations which will determine whether the students are sufficiently promising as college material to warrant their deferments from military service.

Opposition has been discovered to the plan. Some selective service boards, sparked by Grand Rapids board No. 43, vow they will defer every farm worker in their jurisdiction if college deferments are allowed. Says Gen. Glenn B. Arnold, Michigan director: "If a board refuses to abide by the regulations, it will be removed."

The senate has delivered a stinging slap at the University of Michigan. It has approved a measure providing that any state institution selling TV rights must make provision for free public reception. Says Sen. Harold M. Ryan (D-Detroit): "Last year the University piped a broadcast into a Detroit theater and charged \$2.50 to viewers—where does that leave the fellow with the TV set?"

Philip A. Hart officially has resigned as commissioner of state corporation and securities commission to continue as director of the Detroit office of price stabilization to which post he was appointed some 2½ months ago.

Dr. Lee M. Thurston, superintendent of schools, urges high school graduates to go ahead with plans despite draft fears. He says the student may get in one or two years before induction and his program can be more easily completed upon discharge.

Michigan will graduate 25,000 high school students this spring.

Michigan's TB death rate is declining. Discovery of new cases has remained about the same over the last 10 years. Some 6,000 cases are diagnosed annually, as against 5,900 cases per year between 1930 and '39. But the death rate has been cut in half in the last 20 years.

State road maps which have been so difficult to find the last few months now have been distributed. More than 300,000 have been sent out.

Last year 36,417 Michigan residents paid \$11,286,439 in intangible taxes on stocks, bonds, land contracts, mortgages and accounts.

The automobile industry in Michigan has completed its largest first quarter output in the history of the business—some 2,000,000 units. It is reasonably confident of doing as well in the next three months. And most car makers are planning on producing guns and civilian goods simultaneously. Perhaps that predicted automobile shortage won't mature.

Another large crop of pheasants is expected in southern Michigan this year. According to rural mail carrier and conservation winter surveys the game birds did not suffer too much from the heavy winter. Too, last year's delayed frowning sea-

son resulted in an abundance of unharvested corn in many areas which offered a larger than usual food supply.

Frank G. Pardee, state mining engineer and appraiser, has been loaned to the office of defense mobilization in Washington, D. C. Working with the defense minerals administration, he will

be in charge of western hemisphere iron ore resources development and supply.

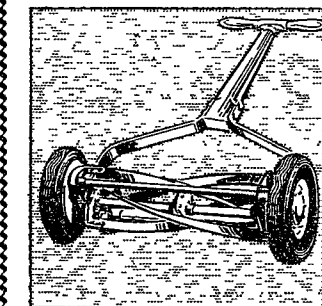

Chickens are a good source of cash income practically the year around and they also supply the family with a source of good, wholesome food, points out the Michigan State College poultry department.

If you want longer wear from your gloves, never tug or jerk them on or off. Remember the seams are strained when you keep pressing down between the fingers, say Michigan State College home economists. No thread, not even nylon, is strong enough to withstand much of this abuse.

NICE COOKIES . . . Four GPs in Korea sent word to New York's Hunter College saying they'd heard of the classic beauty of the coeds, but while pinups were fine, a cake or a cookie was finer. So three students in the home economics department, Eileen Walsh, Florence Hemminger and Elaine Brooks, got to work and cooked up this batch for the boys. Here they are tasting the cookies which they hope the boys will appreciate more than pinup pictures.

Wright Homestead Open to Public

The old homestead of Wilbur and Orville Wright, inventors of the airplane, will be opened to the public for the first time in Greenfield Village, Dearborn, next Saturday, April 14, when the outdoor museum of The Edison Institute begins its summer season.

This latest addition to the Greenfield Village public exhibits, first of several new projects planned for the 1951 season, has been announced by A. K. Mills, Executive Director of The Edison Institute.

The Wright homestead, originally located in Dayton, Ohio, was brought to Greenfield Village by Henry Ford and added to his collection of homes and early workshops of famous Americans. In this modest white frame house Orville Wright was born in 1871. He and Wilbur grew up in it, and Wilbur died there in 1912. Today the house contains many of the original furnishings from the period before the memorable flight at Kitty Hawk.

April 14, the opening date of Greenfield Village, will also be the anniversary of the assassination of Abraham Lincoln. The chair in which Lincoln sat at the time of the assassination is on display in Greenfield Village's Logan County Court House, originally in Illinois, where Lincoln pleaded cases for eight years while on circuit.

Greenfield Village will be open to the public every day from April 14 until November 1. Hours are 9 a.m. to 5:30 p.m. Monday through Friday, and 9:30 a.m. to 6:30 p.m. Saturday, Sunday and holidays.

Most of the accident death toll is made up of one or two-death accidents, the National Safety Council says. Only three catastrophes in 1950 caused more than 50 deaths each - the November wind and snow storm in the Northeastern states, the collision of two suburban trains in New York, and the crash of a scheduled air transport plane into Lake Michigan.

U. of M. Chosen for Apr. 24 Town Meet

"Why Worry About the Atom Bomb?" will be the topic for discussion when "America's Town Meeting of the Air" is broadcast from the University of Michigan campus on Tuesday, April 24, starting at 9 p.m.

The broadcast from the Rackham Lecture Hall will originate over Radio Station WHRV in Ann Arbor and will be carried by 286 affiliated outlets of the American Broadcasting Company network.

The April 24th program is under the auspices of the University's Phoenix Project and the Ann Arbor Junior Chamber of Commerce. George V. Denny, Jr., president of Town Hall and founder and moderator of "Town Meeting," will be there to preside in his usual role. The panel of speakers will be announced in the near future. "America's Town Meeting" is a modern adaptation of the old New England town meeting where citizens gathered to discuss the problems of their government. It has been on the air since May of 1935.

The way to overcome the fear of sickness and death will be brought out in the Lesson-Sermon of April 15 under the subject, "Are Sin, Disease, and Death Real?"

The Golden Text is from Psalms (68:8): "He that is our God is the God of salvation; and unto God the Lord belongs the issues from death."

Lesson-sermon passages from the Bible (King James Version) include I John 4:18: "There is no fear in love, but perfect love casteth out fear: because fear hath torment. He that feareth is not made perfect in love."

Space Travel Expert Maps Two-Way Trip To Moon by Rockets

POINT MUGU, Calif.—Arthur V. St. Germain, an authority on rockets, missiles and jet engines, and senior test engineer for the Fairchild guided missiles division at the navy's secret missile test center, says space travel is much closer than most people realize.

As proof of his statement, St. Germain offered detailed plans for a five stage rocket which he said could carry two men to the moon, land there and return. He said that his design, while not in production, was practical with "the application of techniques already at our disposal. This is probably the first time in history that people have known so much about an invention yet to be made."

The space ship would tower 325 feet into the air above the launching site, weigh 360,000 pounds and attain a speed of 25,000 miles an hour. Power would be provided by four rockets, one telescoped inside the other, which would drop off one by one as the ship roared upward through the earth's gravitational sphere.

The fifth rocket, carrying the crew, would coast to the moon once it reached outer space. The return journey would require far less fuel because the moon, being smaller than the earth, has little gravitational pull.

St. Germain said liquid hydrogen and oxygen would be the best fuels, pending development of an atomic engine. He added that the landing on the moon would be made last, first, with jets and rockets acting as brakes.

The engineer's space ship is one of the latest concepts for travel to the moon and back. But the fact that he could talk about it for publication indicates that the craft is not an immediate project.

Point Mugu is the site from which the navy launches top secret weapons which travel hundreds of miles out to sea.

The local C. F. Smith store for two years.

She is survived by her husband, Hugh, of 23577 Novi Road, her daughter, Patricia Ann, aged 3, and her mother, Mrs. John Olkewicz of Evanston, Illinois. Also surviving are a sister, Mrs. Esther Volante and three brothers, John, Roy and Oscar Lundquist, all of Illinois.

DUFF WARD
Duff Ward died at Maybury Sanatorium April 6 at the age of 42 years.

The remains were at the Schrader Funeral Home until Monday when they were shipped to Columbus, Mississippi for burial.

Surviving is a sister, Mrs. James DuBoise of Columbus, Mississippi. Mr. Ward was a patient at Maybury Sanatorium for the last three years. For several years he had been employed as a machinist at General Motors.

Traffic accidents since 1900 have killed almost twice as many Americans as have been killed in action or died of wounds in all the nation's wars, the National Safety Council says.

Bell Telephone Files Application To Broaden "Priority System"

The Michigan Bell Telephone Company today announced it is seeking to broaden the "priority system" under which service is provided to applicants when facilities are not immediately available to all on the waiting list.

In an application filed with the Michigan Public Service Commission, the company requests permission to give Group 1, rather than Group 4 or Group 7, priority to telephone services associated with preparations for the national defense.

Michigan Bell has used the priority plan to care for service requests on an equitable basis since the War Production Board ordered it in 1943. A peacetime modification was approved by the Commission in 1946 under the company's tariff.

Group 1 priority would apply to services for:

A—concerns furnishing material, equipment, or facilities to the Armed Forces or their suppliers.
B—United Nations units.

C—executive officers, direct administrative officers, and other employees when their duties are essential to a customer who qualifies for business service under a Group 1 priority.

D—Civilian Defense units.
E—labor unions which have collective bargaining agreements with customers who qualify for Group 1 priority.

F—business concerns which maintain or service equipment for business customers who qualify for Group 1 priority.

G—offices of new housing developments, offices of the producers, processors, and distributors of food, food storage concerns, etc.

Other changes in the plan relate to the provision of service when essential to the protection of life, and in cases where serious illness or physical disability exist. Under the present order, Michigan Bell is able to offer only "temporary" service in such cases.

The company also seeks permission to continue to furnish a lower grade of service than requested by the applicant, if necessary, until such time as the desired service can be made available.

"This," the company stated, "is in the interest of an equitable utilization of available facilities to the greatest advantage consistent with national security and the public safety, health, and welfare."

CARD OF THANKS

"The bonds Ruby and I bought for our country's defense will provide one-half of our retirement income!"

MR. AND MRS. CHARLES A. TOLBERT OF JEFFERSON, GEORGIA CAN TELL YOU—IT'S PRACTICAL AS WELL AS PATRIOTIC TO BUY BONDS FOR DEFENSE

"We expect bonds to provide 50% or more of our retirement income," says Charles Tolbert. "Thanks to Payroll Savings, we feel that we've signed our personal declaration of independence and made it a living thing through regular purchase of bonds. If you don't save regularly, you don't save at all!"

"Ruby and I signed up for Payroll Savings in 1942 when it was offered at Jefferson Mills where we both work," says Mr. Tolbert. "We're most grateful to Mr. Morris Bryan, the mill president, for this opportunity."

"Out of Ruby's \$45 and my \$50 a week we've saved more than \$5,000 in bonds! In 1947 we made a \$1,500 down payment on our house with them. 10 per cent of our earnings go into bonds and will continue to do so!"

The Tolberts' story can be your story, too—Start saving now!

You can make your dreams for the future come true, just as the Tolberts are doing, and easily. Start now! Just take these three steps:

1. Decide to put saving first, before you even draw your pay.
2. Save a regular amount systematically, week after week or month after month.

3. Sign up today in the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

You'll be providing security for yourself, your family and our free way of life. And you'll make your dreams come true!

The girls just finished the basketball season, winning the Detroit Municipal Open League championship in the playoffs with four wins and a loss. They finished in second place in the regular league season.

The girls won 24 of 27 basketball games, compiling 994 points to their opponents' 649. Leading scorers for the team were Doris Woods with 309, Vera Jehnson with 218 and Jean Siterlet with 165. Gloria Fellows tossed in 134 points in 12 games before joining the WACS.

The Daisy Girls, under the management of Floyd Fleming and the coaching of Joe Sowa and Will Rayburn, have won four softball crowns and two basketball titles.

Fleming says the softball team is looking for more good players. Any girls interested in trying out for the team should make contact with Fleming at the Daisy company or phone Plymouth 204-W.

I'm a very conservative fellow. I watch the parades and by I'm neither red-blooded, nor yellow, I don't break a leg on the try. I'm never in headlines or columns. I haven't a good batting eye. And yet I'm the top of this country. I'm only the average guy.

I'm the unknown that nobody looks at. I'm neither below, nor above. I never get public attention. My wife is the woman I love. My name is a blank to the millions. To those who take life on the fly. And yet I'm the top of this nation—I'm only the average guy.

The Two Mysteries

St. Petersburg, Fla.—There are two baseball mysteries in this land of palm and pine, gulf and grapefruit, citrus and circus, sun and sand. The two mysteries are the Boston Red Sox and the Brooklyn Dodgers. People wander into their camps, look over their line-ups, wander out and keep asking: "Why don't they win 90 per cent of their games? What's the matter with 'em?"

The Red Sox have the hardest-hitting, the greatest run-scoring team in baseball. Williams, Doerr, Pesky, Stephens, Bondreau, wallpopping Droppo, Gooden turn pale. To their 1950 staff the Red Sox have added Bill Wright and Ray Scarborough, two fine pitchers. How can they lose? How could they lose in 1947-1948-1949-1950? They could not—but they did despite a great manager, Joe McCarthy.

Tom Yawkey has bought them everything except General MacArthur and the Marines. Do they expect Yawkey to do the pitching and hitting?

I have been one of many who saw the Red Sox at work in Florida in recent seasons who knew their past performance charts—and so picked them. I am now one of many who won't pick them until they can prove they can win big games in a pinch. This is where they have failed—under heavy pressure. Why? I don't know. But they have. They have blown in the stretch—and the stretch is all that counts. Joe Gordon, a great ballplayer, said to me last June in Philadelphia, "They are the greatest looking ball club I ever saw at Fenway Park. They are minor leaguers on the road, a whipped, beaten bunch." Who can explain that? The records prove that Gordon was right. They look good enough to win the A.L. pennant by 10 games this season. They may not finish third. Along with many others I can't pick a team that should win by eight or 10 games, and can't win by even one game. There is more to a baseball team than hitting and pitching. A ball club can have spirit and a soul as well as a lone competitor.

Turnbull, Alessi Win Tournament

Bruce Turnbull and Joe Alessi combined kegling talents to win the Inter-Service Club doubles bowling championship at Royal Recreation last Saturday and Sunday.

Representing the Exchange Club, Turnbull and Alessi topped ten teams from Exchange, Rotary and Optimist clubs with a total of 1135.

The teams bowled with a 60 percent handicap on 350 scratch. Plans for next year's tourney will lower the comparatively stiff handicap.

Dr. L. W. Snow and Jim Green captured the doubles trophy for the Optimist club in last year's tournament.

Future Teachers Pledge Members

A chapter of the Future Teachers of America organization was installed recently in the Northville High School.

This organization is an affiliate of the National Education Association, and is sponsored by the local Teacher's Club. The chapter has been named the Ida B. Cooke-F.T.A. Club to honor Mrs. Cooke who has been an inspiration in our schools for many years.

The F.T.A. was organized by the National Education Association in 1937 in honor of Mr. Horace Mann, who is known in the educational world as the "Father of the American School System". The object of the F.T.A. is to enlist our finest young people in the cause of education. The Northville Chapter is the twenty-fifth to be organized in Michigan.

The local group became associates of the teaching staff at the installation service. Mr. Russell Amerman, Superintendent of Schools, presided and assisting him were Miss Florence Panatoni, president of the Teacher's Club and Miss Elizabeth Vickland, chairman of the sponsor committee.

Mr. Amerman presented to Ila Newton, president of the club, the charter granted by the National Education Association which will have a place in the High School office.

Members of the club have already given valuable assistance to teachers in both the elementary grades and the high school in various projects. At the same time, the members are obtaining first hand experience in their chosen profession.

There are twenty-eight members in the group: Lois Rossow, Janie Beckel, Maxine Clark, Gilbert Black, Betty Ledford, Sharon Teshka, Mary Shoemaker, Judy Walker, Sandra Schoof, Nancy Harrison, Jane Fulkerson, Jean Campbell, Ila Newton, Mary Lou Litzinger, Nancy Sanislow, Dorothy Benton, Nola DeKay, Angela Bongiovanni, Lucile Morse, Arlene Gaab, James Whipple, Mary Lou Ware, Joanne Rowe, Betty Stevens, Lyda Killeen, Joan Haworth, Nancy Wiles, and Robert Prom. The Teacher's Club Committee directly responsible consists of Elizabeth Vickland, Grace Pollock and Charles Yahn.

Garden Clubs Meet for Annual Luncheon

One hundred and sixty-six members and guests attended the annual spring luncheon of the Woman's National Farm and Garden Association with Rose-dale and Northville as guests of the Plymouth Branch. The affair was held Monday afternoon, April 9, at the Plymouth Masonic Temple.

Guests of honor was Mrs. Hramd Hampikian, a nationally President of the Association, who is the mother of Governor G. Mennen Williams.

Speaker of the afternoon was Hramd Hampikian, a national known landscape architect, who addressed the group on the topic "Modern Trend in Landscaping and Gardening". He discussed the trend to outdoor living rooms and rumpus rooms and emphasized the necessity of "victory gardens".

The luncheon tables were gaily decorated in a spring motif featuring unusual arrangements of pink geraniums and begonias.

The Northville officers are reminded of the board meeting to be held Monday, May 7 at 1:30 p. m. at the home of Mrs. D. H. Clark at 42150 East Seven Mile Road.

Security Branch Increases Service

Beginning in April, a representative from the Detroit-Northwest office of the Social Security Administration, located at 12065 Wyoming will be at the Plymouth Post Office the second and fourth Thursday of each month at 11:00 a. m., Clarence A. Mattson, Acting Manager of the office announced today.

A second trip to Plymouth each month to provide better services for the residents of this area is due principally to the changes in the Social Security law made effective last September, Mattson explained. Many more people are now eligible for benefits due to the liberalization of the requirements for payment under the amended law. Also since credit has been added for military service, World War II survivors of deceased servicemen should contact a Social Security representative to find out about possible payments because of the time spent in military service.

Another major change in the law, Mattson added, now permits workers age 75 or over to receive their social security benefit regardless of their earnings from a job under social security.

"Our field representative will gladly assist all claimants to apply for their social security benefits, and will provide information for anyone who has an inquiry about the changes in the social security law. In addition he will help anyone obtain a social security account number or a duplicate of his original number if the card has been lost," Mattson stated.

Hobby Show Open for Local Entries

Wilson Funk, director of the Northville Recreation Committee, has announced that the Hobby Show section of the P. T. A. Carnival which will be held Friday, April 20 at the High School, is open for entries for any hobby or collectors items.

Comprising the commercial exhibits will be items of fanwork, rugs, drapes, etc., made in the Woman's Division of the Detroit House of Correction, the Men's Division of DeHoCo and patients of the Maybury Sanatorium.

The committee requests that local people desiring to enter their hobby in the show mail a post card to the Northville Recreation Committee stating the articles they wish to display so that proper space may be reserved for them.

Journal Publishes Teacher's Article

An article written by Miss Olga Nelson, elementary teacher in the Northville Grade school, appears in the March issue of the "Michigan Education Journal".

Entitled "Special Teaching in the Regular Classroom", Miss Nelson points out that the teacher who possesses valuable knowledge of special classroom teaching procedure can apply it to the handicapped or mentally retarded children. Many children who are slow-learning are in the regular classroom and they are incapable of keeping up with their classmates. "A regular room may contain one or more of these slow-learning children," she states, "for over 15 percent of school children are dull-normal or backward".

These children require a modified curriculum. A daily program for the slow child "should be based upon the child's mental age and his total maturation level". Particularly they need an opportunity to think and to realize democratic living. "This leads to his taking responsibilities which will in time aid him in becoming a responsible citizen in the community and in the world."
