

Friday afternoon found the Village bustling with about as much activity as is usually found in Northville. A Vernors ginger-ale truck was proceeding west on East Main street when the engine stalled, blocking traffic, since workmen were repairing the street.

Cars gathered, grew restless, and tried to wiggle through the maze. Suddenly there appeared O. E. Schneider of North Center street, who stepped to the center of the thoroughfare, and directed the traffic, until the truck, after several snorts, growls and thunders, regained its momentum and proceeded on its way.

The Northville Exchange Club in cooperation with the Northville Record in February began sending Records to the local men serving Uncle Sam. From Korea to Germany papers are sent to boys who comment that they are like receiving a letter from home. A check shows that 452 papers have been mailed in the three month period. Any parent who would like their son to receive the Record should leave the address at the Record Office. Changes of address should be promptly reported so that an accurate list can be kept.

Last Wednesday, Exchangees William Funk, D. J. Stark, Rev. William Johnson, Bob Lyke, Dr. S. F. Campbell, and Chuck Ely liberated 1500 rainbow trout in the local Rouge River. This is an annual Exchange project made possible through the cooperation of the U. S. Fish Hatchery.

The new cabinets built by the Girl Scouts in the Scout Building were stained and varnished by Clyde Dethloff as his contribution to the fine work being done by the Scouts in Northville. John Harnden donated the stain and varnish used on the cabinets.

Dr. Waldo Johnston, Mrs. Finbar O'Leary, Mrs. Norman Witt, Mrs. D. E. Wick and Mrs. Clarence Jerome this week contributed old socks, stockings and ties to the collection for the Detroit House of Correction. They are used to make draperies and many more are needed to carry on the good work. Leave yours today at the Northville Record office or at the home of E. J. Willis, 119 Rayson Street.

The Council recently approved a tree trimming and care program for the Village so that Northville's scenic beauty can be perpetuated. A few weeks ago they authorized John Miller of the Green Ridge Nursery to plant maple, locust and maidenhair trees where dead ones had been removed. It is most important that Villagers water these new saplings weekly, or they will die. Villagers are asked to cooperate in this project.

Children of all ages wherever possible will gather Sunday to honor Mother on her day. Artist Norman Rockwell designed the official Mother Day poster for this year which bears the slogan, "Nothing's too Good for Mom."

Police To Promote "Operation Safety"

His lights flickered off for only an instant, but in that time a pedestrian stepped in front of his automobile. The result—another death due to improper vehicle maintenance!

This incident, pointing up the vital importance of keeping cars in perfect mechanical condition, was related yesterday by Joseph Denton, of Northville in announcing that the department this month is promoting the May theme of "Operation Safety", a program for reducing traffic injuries and deaths. The program is sponsored by the State Safety Commission and the National Safety Council.

"Unsafe automobiles driven by negligent drivers figured in 12 per cent, or approximately 3,300, of the nation's fatal traffic accidents in 1949, Denton said. "This is tragic when it is remembered that most faulty automobiles could be put in safe working condition in only a few minutes, and at little cost."

Denton reported that poorly aimed or defective lights, bad brakes, worn steering mechanisms or worn tires are the chief faults of unsafe automobiles. He urged every motorist in Northville to have these mechanical features checked by a competent mechanic at least twice a year. Rear and stop lights, windshield wipers, muffler, window glass, horn, and rear-view mirror should be inspected likewise, he said.

Dear Sirs:
 You may not know who I am, but I am one of the hometown boys who has been called into service, and one of the many grateful ones who has been receiving the Northville Record weekly. If you only knew how much this means to me, as a close contact with home and as a morale builder, you will realize how grateful I am that you are doing us boys this wonderful favor.

I receive my paper every Friday and I read every item from the front page to the last page, advertisement's and all, and when I do read it, my mind returns back to the home town, and it gives me the feeling that I still am part of it. It keeps me up to date with what is going on there and offers many items of good, fresh news there at home. I receive quite a lot of mail from my folks and friends around home, receiving your paper is a group of friends that covers everything I want to know.

So in closing I want to say "thank you" again, and someday I hope to repay you, in some way, for your kindness and thoughtfulness. I will never forget this wonderful job you are doing.

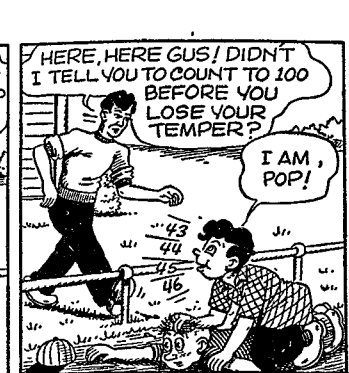

Sincerely,
 Pvt. Robert H. Stover.

It's the only new-type engine in any "new car"!

Chrysler FirePower

Finest engine
ever put
in an automobile

180 HORSEPOWER

The new Chrysler Hemispherical Combustion Chamber, heart of the finest car engine built today. In this dome-topped area, you see the only ideal combustion chamber... the only way to develop full combustion, full compression, full work and value from every drop of fuel!

With so many engines claiming newness... how can we call FirePower the only new type engine today? The answer's very simple, and one you ought to know before you invest in a car. The fact is that engine "improvements" happen every year... but a basically new motor car engine is a very rare thing. And FirePower is the most basic new development since Chrysler introduced high-compression in 1924!

To get to the heart of the matter, just go to the heart of the engine... the combustion chamber where the spark fires gas into power. Here Chrysler brings you something no car has had till now... a Hemispherical combustion chamber... the only perfect and ideal combustion chamber in any passenger car. Here the same amount of gasoline delivers you

far more energy than it could in any other car. What this means to the man at FirePower's wheel is impossible to tell you till you take that wheel yourself. FirePower's 180 horsepower can outperform any other... on the road, even on regular grade gas.

Remember, too, that Chrysler now offers the wondrous road-ease of new Oriflow shock absorbers with twice the shock-absorbing power of any others... and the exclusive safety and delight of Hydraguide power steering* which takes four-fifths of the work out of steering! You can learn for yourself how Chrysler has changed your motoring life by seeing your Chrysler dealer now!

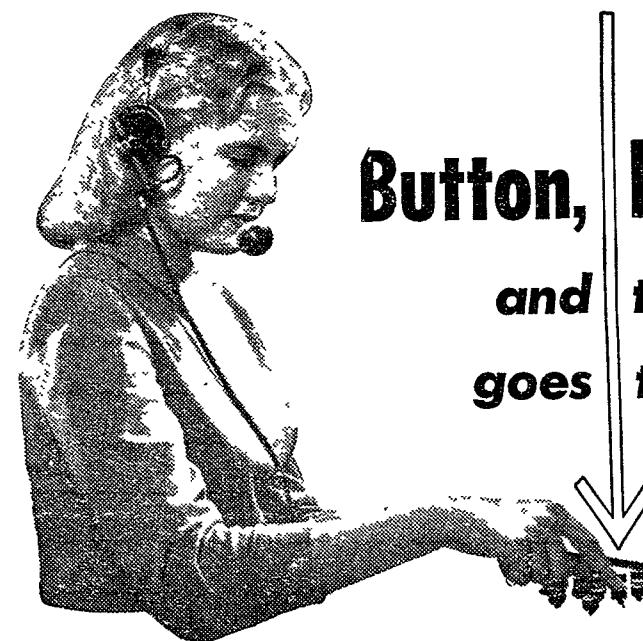

*HYDRAGUIDE regular on Crown Imperials, optional at extra cost on all New Yorker and Imperial models.

Button, button and the call goes through

Push buttons simplify a lot of jobs in this electric age:

Ten little push buttons now help Long Distance telephone operators handle more calls more quickly.

A customer gives the operator the out-of-town number. She swiftly presses several buttons, which correspond to the letters and numbers on a telephone dial, and the call goes straight through to the distant telephone.

That's the way it works in Detroit and a number of cities throughout the country. In many other places, including more than a dozen Michigan exchanges, telephone operators speed Long Distance calls by dialing direct to many points with regular dials.

Named "operator toll dialing," this new development is already used on 1½ million Long Distance calls daily and is steadily being expanded. Every minute it saves is important right now as the nation turns to the telephone to hurry our defenses.

To help speed your Long Distance call, please give the operator the out-of-town telephone number.

Telephone lines are busy with national defense

SAFEST TRUCKS ON THE ROAD

NEW DODGE "Job-Rated" Trucks

The trucks that do the most for you

Why a "Job-Rated" truck is your safest investment

A "Job-Rated" truck is engineered at the factory to fit a specific job... save you money... last longer. Every unit from engine to rear axle is "Job-Rated"—engineered to haul a specific load over the roads you travel and at the speeds you require.

Every unit that **SUPPORTS** the load—frame, axles, springs, wheels, tires and others—is engineered right to provide the strength and capacity needed.

Every unit that **MOVES** the load—engine, clutch, transmission, propeller shaft, rear axle and others—is engineered right to meet a particular operating condition.

Safer stops with "Job-Rated" Brakes

Step on the brakes of your Dodge "Job-Rated" truck and you're sure of smooth stopping action far in excess of normal requirements. You get long-lasting Cyclebond "no-rivet" brake lining—with lining area increased as G.V.W. rating goes up! Now, on models 1½-ton and up, except air brake models, you get another Dodge "first"—new Tapered, Molded Cyclebond brake lining. It's longer-lasting, extra quiet—free from "squeal." Independent hand brake adds to safety.

Safer steering and easier handling

Now, you can maneuver your Dodge "Job-Rated" truck with less effort! Steering is more accurate. New easy-acting worm-and-roller steering gears on many models. To make driving still safer, Dodge "Job-Rated" trucks have new, shorter turning diameters. You also get the easy-handling advantages of cross-steering, short wheelbase, wide front tread. All these features add up to the easiest handling truck on the market!

Safer visibility with "Pilot-House" cabs

When you drive a Dodge "Job-Rated" truck you look through the biggest windshield of any popular truck! You have a clear close-up of the road, made possible by new, lower hood line. For even greater visibility you can get De Luxe and Custom cabs with rear quarter windows. All-steel "Pilot-House" cabs provide extra safety, too. Top, floor and sides are welded together—not bolted! No wonder owners agree that Dodge "Job-Rated" trucks are the **safest** on the road!

FLUID DRIVE now available

Only Dodge "Job-Rated" trucks offer this great "exclusive"—available on all ½-, ¾-, and 1-ton models and Route-Vans. Helps assure less wheel-spinning on slippery surfaces... less tendency to spin in mud, sand, snow or wherever the going is tough. What's more, gyrol Fluid Drive makes driving easier, helps protect loads, lowers upkeep costs, and lengthens truck life.

Come in today... see and drive the "safest" truck on the road... a **DODGE "Job-Rated" TRUCK**

Speculation on the appointment of Blair Moody to the chair vacated by the late Senator Arthur Vandenberg still buzzes around the Capitol City. Some say Williams seeks the vice-presidential nomination in 1952. At least he now has a booster full time in Washington.

But in any event the governor has stuck out his neck. Democratic leaders in the state are highly miffed and if Moody doesn't measure up to standards the party could drop its 40-year-old leader. It has happened before.

Fred M. Alger, Jr. is getting into the next gubernatorial race early. Now convinced he would have had the nomination in '50 if he hadn't hesitated too long, the secretary of state already makes it clear that he will be a candidate.

Most Republican circles now feel Alger would have beaten Williams in 1950 by pulling a heavier Detroit vote than Kelly drew.

A new process of electrically charging dust particles in fungicides and insecticides may revolutionize the fight against insects and plant disease. M.S.C. laboratory tests show charged dust particles give five to 10 percent better coverage. More tests are scheduled in the field this summer.

While beating the drum for a better Michigan, freshman legislator Robert E. Faulkner (R-Coloma) says: "I will not be put into the position of a crime buster for local authorities". In stumping for a "little Kefauver" committee, Faulkner sticks by his guns and still says Grand Rapids is a bad, bad city.

The Michigan library board wants a separate library building. Stating it has been treated like a step-child, the board points out that no provision has been made for library quarters in the new state office building.

The state department of labor and industry reports the cost of living in the state soared to an all-time high in March of this year. Showing an increase of 3.6 percent, the index figure for Michigan is 170.2, a jump of 70.2 percent since Pearl Harbor.

Interscholastic Press Group to Meet at U-M

The Michigan Interscholastic Press Association will meet at the University of Michigan Friday, May 11, under the auspices of the Department of Journalism.

ALWAYS BE CAREFUL DRIVING

The difference goes more than Skin-Deep

Nobody wonders what you're driving when you roll by in this one.

In the 1951 line-up, its brand-new front-end styling stands out with a beauty all its own.

You're the proud owner of a Buick—and the whole world knows it.

But you—at the wheel—enjoy a long list of differences that go far deeper than looks.

The ride is different—level and true. You sit the road with special assurance — because Buick's torque-tube drive keeps rear wheels firmly aligned—soft coil springs on all four wheels soak up the bumps and bobbles—honest weight keeps you on a steady keel.

The power is different—eager and sure. Buick's high-compression Fireball engine does wonders with fuel — and no matter what you demand in emergency, there's horsepower to spare.

Handling is different—this car seems to steer itself on straightaway or curve —and swings lightly into parking spots inches shorter than you'd think you need.

Capping it all, there's the silken versatility of Dynaflo Drive,* that takes all the tenseness out of driving — responds to your slightest wish with a surging swoop of power.

No doubt about it, what you get in a Buick is far more than just a new car — it's a whole new experience in getting pleasurably from here to there.

So why not explore this difference? Come, take a Buick over and find out how very much satisfaction smart money can buy.

Equipment, accessories, trim and models are subject to change without notice.

No other car provides all this!

BROWNIE TROOP 11

We closed the meeting with taps.
