

The Northville branch of the Wayne County library has issued a plea that all overdue books be turned into the library. During June, all overdue books, no matter how long overdue may be returned and no fines will be charged or no questions will be asked states Miss Rhea Lyon, librarian. She asks that citizens hunt for all property belonging to the library and return it promptly.

Friday morning, 39 seniors of Northville High school accompanied by class sponsors, Mr. and Mrs. Charles Yahn and Mrs. Pauline Smith, arrived in the Village sleepy-eyed, but happy and full of countless memories of their trip to the Nation's Capitol. The group stayed at the Annapolis Hotel where several other high school seniors were housed.

More sock and tie contributors are Mrs. N. McCaldier, Mrs. John W. Swain, Mrs. Howard C. Rodgers, Mrs. Ralph Wilson, Mrs. John Sioh, Mrs. W. Reynolds and several persons who didn't leave their names. They will be turned over to the Detroit House of Correction for use in making draperies. Many more are needed. Leave yours at the Record office or with E. J. Wilps, 119 Rayson Street.

More of those official Michigan highway maps have arrived. You can get yours free of charge, by stopping in at the Record office. First come, first served.

All Northville boys serving in the armed forces may receive the Northville Record free as the result of an arrangement which has been made with the Exchange Club. Servicemen's addresses should be left at the Record office along with any changes of address.

Senator Estes Kefauver is said to have campaigned in Tennessee wearing a coonskin cap. Glenn Taylor was purported to have toured Idaho and using a guitar. But Kefauver and Taylor have nothing on these NHS youngsters who have been nominated for Student Council posts. Campaign managers "have been" dressing up paper hats, suckers carrying campaign slogans, chemistry experiments giving the components of a good treasurer, and even the barber shoppers have written parodies for their favorite candidates. To add to the fizzle dazle of the hotly contested campaign, a couple of nominees have passed out handbills promising orange and black convertibles for dates.

As has been the custom for the past several years, those persons who participated in the Memorial Day parade Wednesday were given ice cream treats, compliments of Mayor Conrad E. Langfield, president of Northville Laboratories, Inc.

Members of the Northville Exchange Club, their wives and friends will attend the Detroit Tigers vs. Boston Red Sox baseball game Thursday, June 7.

Downs 8th Season To Open June 11

Starting its eighth campaign June 11 with one of the best stake programs in history and an entry list that includes many of the nation's top pacers and trotters, Northville Downs is looking forward to its most successful season.

President H. B. Dennison and Operational Manager Orlow G. Owen freely predict that the 1951 54-night meeting at the Downs will be better than any of those in the past seven years. Entries for all stakes closed April 1 and the list of nominees looks like the "royal family" of the harness world.

Owen, who has charge of all stable applications, indicated that more than 600 already have been received. At the moment all horses have been cleared out of the grounds to allow a thorough disinfection of the stables. Those still in training are at the Detroit Fair Grounds while the others who wintered at the grounds have left for Toledo and Jackson.

Everything will be in tip top shape when the meeting begins June 11. The two feature events—the \$10,000 Governor's Cup open trot and the \$10,000 Michigan Pacing Derby—will be held during the final two weeks of the meeting.

Thirteen classy trotters have been nominated for the Governor's trot. The field includes Proximity, top money winning trotter of all time, Jeffrey Hanover, Demen Hanover, Boyne Hanover, Full Force, Royal Comet and Sailor Signal.

The remainder of the list: Sidney Guy, Billy Carleton, Buckle B., Buddy Patchen, Oh Johnny and Red Chuck. Grattan Volo, winner in 1949 and 1950 will not be back to defend its title. Royal Blackstone, winner of the 1950 Pacing Derby, heads the list of 16 contenders for the stake this year. He will be closely pressed by such outstanding pacers as Charming Scot, Irish Hal, Express Hal, Rodgan, Hollywood Brewer and The Diplomat.

Hollywood Brewer Northville's "rags to riches" pacer of 1950, which was changed from the trot to the pace and became one of the best at the half-mile oval, is reported rounding into its best shape again. The remainder of the list: Dale Brewer, Ensign John, Handbook, Mac Dale, My Chief, Nelly Abbedale, Royal Man, Theo A. Abbe and Widow Paul.

Extended-Area Phone Service Goes into Operation Monday

Extended-area telephone service between Northville and four of its neighboring communities, will be inaugurated at exactly 12:01 a.m., Monday, June 4, George P. Hartwick, manager here for the Michigan Bell Telephone Company, announced today.

The new service will permit Northville telephone customers to make calls without paying toll charges to Farmington, Plymouth, Walled Lake, and South Lyon. Their local calling area will climb from its present level of 1,927 telephones, to an all-time high of 10,996 telephones.

Committee To Study Recreation Program

The future of the Northville Recreation program was the subject of a special Village Council meeting Monday evening. Also in attendance were members of the Northville Township Board, Superintendent Russell H. Amerman and Recreation Director Wilson Funk.

Mayor Conrad E. Langfield appointed a committee to analyze the needs of the recreation program and they will make a report at the next Council meeting Monday night. Appointed to the committee which will meet Friday afternoon in the Mayor's office are Commissioner Alton Peters, Superintendent R. H. Amerman, Mrs. E. J. Willis, treasurer of the Recreation Committee, Township Supervisor Mollie Lawrence, Recreation Chairman Orson Atchinson and Director Wilson Funk.

Commissioner George Locke was appointed by the Mayor to make a survey of buses which might be available for purchase for the use of the Recreation Committee. It was pointed out by Director Funk that during the past two years he has put 30,000 miles on his own auto by transporting the boys around to their various athletic events. He outlined the need for some dependable mode of transportation so that the boys may continue their competitive sports program.

Director Funk also stressed the need that the Recreation Committee be reorganized so that more interest in the program could be stimulated through more cooperation among the members. Action on the problems confronting the youth program for the Township and the Village will be taken at next Monday's Council meeting.

Mrs. Robert Coolman and her daughter, Becky, of West Dunlap street left Thursday morning for Akron, Ohio, where they will visit relatives. Friday they plan to pick up Dick at Wooster College which has dismissed for summer vacation.

Wayne-Oakland League Champions

Northville High school linksmen carried off top honors in the Wayne-Oakland league golf tournament at Bob O'Link May 15, topping Milford, Holly and Clarkston. Art Carlson, Denny Winkler, Coach Morritt Meaker, Glenn Howarth and Tom Wick pose above with the league trophy. Wick was medalist with a 94 and Winkler carded a 96 for second. The team aggregate was 16 strokes better than the nearest team, Coach Meaker tutors a squad of 13 high school linksmen.

Calls to the four communities in their extended-area plan may be made by Northville users by giving the operator the name of the community and the number there that they wish to reach. A "sticker" relating to the calling procedure already has been mailed to subscribers for inclusion in their present directory.

Directories To Be Distributed
Prior to the "cutover," a Farmington-Walled Lake directory will have been distributed to subscribers, as a companion volume to the Northville-South Lyon, and Plymouth directories they now have.

When the new service goes into effect, the telephone rates customers now pay, will be raised slightly under an order previously approved by the Michigan Public Service Commission.

For 1-party residence service, the rates would go from \$3.00 monthly, to \$3.50; for 2-party residence service, from \$2.50 to \$3.00; for 4-party residence service, from \$2.25 to \$2.50; and for rural residence service from \$2.50 to \$2.75.

One-party business subscribers would pay \$6.50 instead of the present \$5.50, 2-party business subscribers would pay \$5.50 instead of present \$4.50, and rural business customers \$4.25, instead of \$3.75.

Manager Hails New Service
These rates would apply, Hartwick said, until such time as the Commission approves the company's current application for an additional increase.

Extended-area service has been hailed by the manager as a far-reaching development, designed to meet the "community of interest" which has grown up between exchanges. In giving its approval of the new service, the Commission called it a "forward-looking step" in telephony.

Hartwick also pointed out that, "at a single price the user gets a packaged service that permits him to use his telephone to the maximum advantage."

Under the plan to be introduced here Monday, the 10 cents toll charge now applying on calls between Northville and Farmington, Walled Lake, Plymouth and South Lyon will be eliminated. Until then, however, customers making such inter-community calls will be charged the regular toll rates.

The accident happened when the auto owned by Booth and driven by Carpenter sideswiped two cars and hit a third head-on. Injured were Carsey Cogar and Rose Ruth Ware of South Lyon and Violet Smith and Florence Littler of Plymouth.

To save on auto tires, motorists are reminded: 1. Tires will last twice as long at 30 m.p.h. as at 50 m.p.h. 2. High speed is much more harmful to tires in hot weather than in cold. Tire treads wear five times faster at 100 degrees than at 40 degrees. 3. Go slow on roads which have sharp projecting stones. 4. Take curves and turns slowly. Speeding around curves can multiply tire wear as much as 10 times.

That the evils which confront mankind to-day are the result of mesmeric influences just as they were in Bible times is brought out in the Lesson-Sermon under the topic "Ancient and Modern Necromancy, alias Mesmerism and Hypnotism, De-nounced" to be read Sunday, June 3.

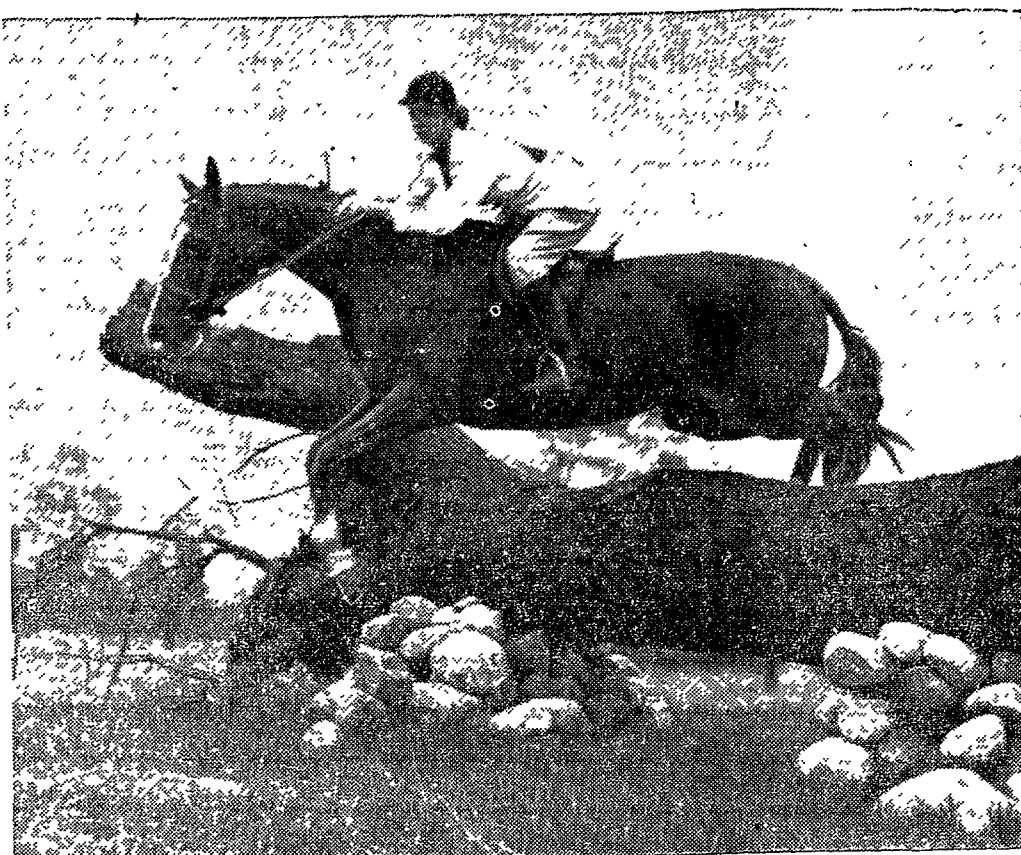

The Golden Text is from Romans (16:19, 20): "I would have you wise unto that which is good, and simple concerning evil. And the God of peace shall bruise Satan under your feet shortly."

Among the Bible citations is this passage, (Isa. 8:19): "And when they shall say unto you, Seek unto them that have familiar spirits, and unto wizards that peep, and that mutter: should not a people seek unto their God? for the living to the dead?"

Long-Due Navajo Education Right Now is Reality

Brigham City, Utah—Navajo Indian youngsters, 1,238 of them, are currently enrolled in a year-old institution here that promises relief to a much-debated issue. The government's Intermountain Indian School is located on a 1,000 acre campus nearly 500 miles from the reservation and offers firm grounding in English, arithmetic, trade subjects, home economics and other basic subjects.

The completely modern school boasts a swimming pool, dormitories, dining rooms, shops, and classroom facilities equal to that to be found anywhere.

Dr. George A. Boyce, superintendent, believes that the school will turn out graduates capable of competing for jobs in fields never before open to Navajos, enabling a great number of them to leave the squalid reservation where 65,000 tribesmen now live at a meager subsistence level.

The situation is a sharp contrast to that of the past, and, at long last, is an indication that the nation is really determined to give the Indian his due. World War II tests found the young Navajo tribesmen to be shockingly close to 100 per cent illiterate, despite the treaty signed in 1868 promising adequate schooling for the tribal children.

The present Intermountain school came about as a result of the abandonment of the Bushnell Hospital, which occupied the site during World War II. The one and two story brick and wood structures were originally built at a cost of \$12,000,000, with \$2,500,000 spent for remodeling over the last two years.

Starting with an operational budget of \$1,421,320 for the current year, Dr. Boyce has gathered a staff of 269 employees. Sixty-six are Navajos and forty-five members of other tribes. Due to the fact that the chief educational difficulty is in teaching English to the children, a high proportion of the Indian staff members serve as teacher-interpreters and house mothers.

The three schools operating on the campus feature basic curriculum planned to serve children in selected age groups, those with a previous knowledge of English, and teen-agers who must graduate before completing a full quota of academic years.

The progress that the school has been making, and will make, is evident. Standard testing data similar to that used in the California school system, indicate that 672 pupils who have completed one full academic year at Intermountain registered a median gain of 1.6 years in such subjects as English and arithmetic, progress that the instructors believe comparable to that in metropolitan schools.

But academic classes are not the only classes at Intermountain. Full emphasis is placed on the inculcation of work skills and living habits. It is necessary to teach children arriving at the school the proper use of knife and fork, shower baths and plumbing facilities totally lacking in reservation homes.

"Learn by doing," is practically a school motto. A student council system is maintained and older boys and girls learn to handle food stuffs by managing the campus canteen. Scout troops have been formed as have a score of hobby clubs.

"Town visits" are also a method of teaching students the basic fundamentals of city life. Trips to Brigham City and Salt Lake City are sponsored, with municipal buildings, libraries, newspaper plants and radio stations all receiving visits.

The campus chapel is an exhibit of democracy in religion. Catholic, Protestant and Mormon church services are conducted on Sundays and the church leaders of each denomination visit the school one day in mid-week for an extra hour of religious instruction.

Poor Private Wilbur Hates Bugle Call in the Morning

Let it be known that Wilbur just hates to get up in the morning and if the Army buglers operate on Daylight Saving Time, he may not be able to stand it all.

His worried mother conveyed that information to Gen. Lewis B. Hershey, Draft Director.

She said that Wilbur, not otherwise identified, was about to be drafted and she feared that he would not fare so well with Army living.

"He never could stand to get up early in the mornings, and I no they may get up awfully early in the Army," she wrote. "And it will be even a hour earlier if they have daylight saving. So please General Hershey don't let them have daylight saving because I don't think Wilbur could stand getting up so early in the mornings and wouldn't do justice to being a soldier."

City traffic congestion is adding well over \$1 billion a year to the cost of operating American passenger cars, Automobile Club of Michigan reported. The Club cited studies to show that current congestion adds a minimum of six-tenths of a cent a mile to cost of 185 billion miles driven in cities each year.

Thorough driver training can be given to every boy and girl high school student at a cost of about \$30 each—less than the cost of a wrecked fender, Automobile Club of Michigan estimates.

The St. Paul's Lutheran Church was the scene Saturday evening of the marriage of Mildred Ruth Stueckle, daughter of the late Mr. and Mrs. Paul Stueckle and James P. Walden, son of Mr. and Mrs. Ralph Walden of Novi.

Music Teachers Ass'n Certifies H. Schnute

The Michigan Music Teachers' Association has recently organized a system of certification of its members. Purpose of the action is to improve teaching standards among private instructors of music in the state and to give parents of pupils some measure of evaluation of their selected teacher's worth.

The plan, briefly, requires teachers to submit their qualifications and credentials to the executive secretary and then to present three students for an audition. These are reviewed by the certification committee and appraisal board and then referred to the association for approval.

Determining factors are the judgment of the teacher's work as determined through the success of his pupils in the auditions as well as the instructor's musical training and professional and teaching experience.

Among the Michigan teachers who were certified at a Muskegon meeting last month was Henry Schnute of North Center street, a well known local instructor.

Snow To Graduate from Alma College

Dr. John A. Visser, minister of the Westminster Church, Detroit, will be the speaker at the 64th annual commencement exercises of Alma College on Saturday, June 2, when 107 seniors will be graduated. Dr. Visser will speak on "We Want Security."

Graduating from Northville will be Linwood W. Snow, son of Dr. and Mrs. Linwood W. Snow of West Main Street. "Buzzy" will receive a Bachelor of Arts degree.

The commencement exercises will be held on the lawn in front of the Alma College library, starting at 9:45 a.m. In case of inclement weather, the exercises will be held in the chapel. Commencement week opened with the baccalaureate exercises in the college chapel at 8:00 p.m. on Sunday evening. President John Stanley Harker addressed the graduating seniors on the subject, "Life is a Landscaping Job."

Proving Ground Tests American Weapons Power

WASHINGTON, D.C. - Apparently balanced delicately on a tapered nose, the relic of a 43,600-pound bomb—America's largest in World War II—stands like a sentry at the entrance to Maryland's Aberdeen Proving Ground.

This 20-foot blockbuster, poised on its concrete pedestal, is about as obsolete as a totem pole for the marker of a grim laboratory of Mars is charged with perfecting the newest weapons of a nation's arsenal. For, the deadly science of warfare, as practiced at the proving ground at the head of Chesapeake Bay has left the heavy bomb of the blockbusting T-12 far behind.

Nation's Strength
On this stretch of tidewater lowland the cutting edge of America's sword and the strength of its shield and chariot are constantly being tested. Here, on the spot where bombs were once dropped from balloons, is the world's most advanced laboratory of ordnance, resounding almost constantly to the blast of weapons of the future, the roar of tanks, trucks and tractored caissons.

New recoil-less rifles firing howitzer shells have given the small jeep the built-in wallop of a two-and-a-half-ton artillery piece. Shoulder carried bazookas make the infantryman a match of the biggest tank. New artillery shells twist and torture armor plate in fantastic ways still kept secret. Guided missiles, without moving an inch, "fly" in a supersonic wind tunnel at better than 3,000 miles per hour.

Sprawled across more than 100 square miles of land and water on the west shoulder of the upper Chesapeake, Aberdeen Proving Ground has fields, swamps and woods with names going back to Maryland's earliest Colonial days. Penny Come Quick Area, Poverty Island, and Old Woman's Gut were once frontier outposts, their favorable positions giving the Colony's first settlers protection against Indian raids.

The Joppa Road first wagon trail across Maryland, began where the village of Baltimore first stood at the head of the boat traffic on the bay. Today a line of powder magazines marks this early settlement of the Calverts, Lord Baltimore.

"Paradise" Area
To experts in the art of growing shoe peg corn, the Aberdeen area eventually became the "Garden of Eden." When the Army purchased the land in 1917, some 3,000 Marylanders and 12,000 horses, mules, sheep and goats and swine had to be evacuated from their fertile farms.

The upper bay region, fed by the wandering creeks and fresh water sloughs and the Bush and Gunpowder rivers, is a virtual paradise for duck hunters and fishermen. The wide Susquehanna empties into the Chesapeake above Aberdeen, forming a tunnel for waterfowl migrating along the Atlantic flyway. The booming of shotguns from the river flats echoes the thunder of the artillery from the proving range each autumn.

Deer live in abundance within the 74,435 acre Aberdeen preserve, yet rarely are one killed by the shells within the target area. Somehow the nimble animals live

L. Durocher Khayyam

The Costly Slump

New York, May—No one can explain a slump. One can only take a flying guess. One can only guess what actually happened to the

Grantland Rice Dodgers, Giants and Phillies were rated in the plateau country, practically neck and neck.

I know Durocher worked his bunch into first-class physical shape. Condition has always been a big word in the Durocher dictionary. He rates mental attitude just as high.

"This club had no pennant faith itself last summer," he said one morning, "until June had passed into July. Then it began to believe it could win, a very big factor. From that point on through July, August and September we played the best ball in the league. Now we are starting this season with a stronger faith in ourselves than we had at any time last summer. The team has been strengthened by the additions of Noble, Bowman and Wilson. I feel sure we have a fine chance to win, although I know also how good the Dodgers are. A good start will be a big help."

Whereupon this hustling, well-conditioned ball club took a fast running start and dived for the bottom of the pit. Here was a better team than the squad that outplayed the league for three months. It was a match for any team it faced all spring, including the Indians. But after picking up two games in Boston, the following moody events started taking place.

No. 1—The pitching became extremely erratic. When the pitching improved, bad outfield and infield play wrecked game after game. I saw one outfielder turn a simple putout into a game-winning home run by misjudging the same ball twice.

No. 2—The consistent power at bat became extremely inconsistent. The Giants could hit only on days when the other team was getting more hits and runs. They couldn't suppress the few well-pitched games they got.

No. 3—The team lost its hustle. It soon began to look whipped. There was a dazed look on practically every Giant face.

No. 4—The squad was overtensioned. It was drawn tighter than a dozen drums. Apparently all its early faith and belief had been wrecked.

The Rest of the Way

No one can say just how far the Giants ragged start will crowd them close to 1951 oblivion. It certainly won't be any big help. They are still only a few games back of the leaders and now that the losing skain has been broken it may be a different story. A few winning games could get them going again.

I ran across several managers and veteran ballplayers who didn't believe Hearn and Maglie would do nearly as well with a pennant chance as they did when far out of the race. There is a big psychological difference. It was important to win this spring. It wasn't too important last summer when the team was far behind. Jansen, Hearn and Maglie are still three good pitchers. Jansen has pitched two fine games and another good one. Hearn and Maglie so far haven't been nearly as effective as they were last summer on a team practically out of the running.

No one can lay any blame so far on Durocher. He has picked the pitchers he was figured to pitch. He hasn't the relief hurlers which he expected to have back in St. Petersburg.

The poor outfielding on the club wasn't expected. After all Durocher can't do the hitting and the fielding from the bench of the coach's box.

In the middle of a slump you become jittery and jumpy. You expect something morbid or melancholy to happen at any given moment. You are looking for trouble in every inning. You wear your collar cut low so as to be prepared for the worst. Finally the situation becomes so desperate you become numb—and then start winning again with most of the tension removed.

Commanders Praise Front Line Morale Of Troops in Korea

A Pentagon general who toils far into each night to insure that Korean commanders are supplied with equipment and trained troops is finding inspiration these days in a letter he received from a United States Army battalion commander who is leading army troops in battle.

"I've taken off at first light with them," the battalion commander writes. "Fought all day and into the night, buttoned up on a mountain peak in two feet of snow, beat off two counterattacks during the night—and when morning came, found them ready to move out. No gripes, no despair—"

"How can you help but love men like that? I've almost decided that United States Army men just don't crack."

The commander said his battalion is well-trained, tough, sound as a dollar, and loves to fight. At the time he wrote, the battalion had been in regimental reserve for five days.

"The men don't like it," he said, "they'd rather be on the move and so would I."

"I've got three rifle companies that are top-notch. There's little to choose between them. In planning an attack, I can toss a coin to determine the company that's going to make the main effort."

"In the past two months, we've experienced almost every type of operation in the book except a river crossing and we're looking forward to that in the near future."

"Of course, the most outstanding thing about this outfit—and it's none of my doing so I can brag about it—is the spirit of the men themselves."

"Whenever I feel low, I get out among them and talk with them—it's the best medicine in the world for the commander who wonders how much further he can push his outfit before it begins to crack."

Determined Traffic Officer Finally Gets Drunken Driver

OSHKOSH, Wis.—Lt. Harry Kripner, traffic officer of Oshkosh, by good, is not a man to give up easily. Kripner recently nabbed a weaving motorist, but he had to get his squad car out of a ditch to do it.

As Kripner pulled alongside the weaving car, a third auto hit the squad car. The pursued motorist drove on and Kripner and the other vehicle went into a ditch. The occupant of the third car was injured, so Kripner saw that he was cared for and then radioed for an ambulance.

The officer then backed his own car out of the ditch and caught up with the weaving vehicle, whose driver received a \$100 drunken driving fine.

Blind Brothers Successfully Manage Large Farm Farm

KAUKAUNA, Wis.—If you hadn't been told, you would hardly guess the truth as you watch the Willems brothers, Henry and Aloysius, go about the work on the farm that has been in the Willems family for 100 years. Even after you know, it is hard to believe that the two brothers, who move so quickly and surely, are both blind.

For almost 30 years Henry and Aloysius have managed the farm and done all the chores. They have daily milked 30 head of cattle and care for a sizeable flock of chickens and several hogs.

"We don't do field work, such as silo filling and plowing," Henry explains. "We have good neighbors and they help us out. If they are busy we hire someone to do it. We make our own decisions as to when it is time to plant."

Although the brothers sold much of their stock at a recent auction, they still have "enough to fuss around with" on the farm.

Recreation is not a big problem for the two. Both enjoy trips to town for a chat with neighbors and during bad weather spells they listen to "talking books" supplied by the state.

Three sisters, Alvira, Malenia and Hilaria, live with the brothers, and take care of all paper work connected with management of the farm.

Cluster of Cabs Tips Cop To Illegal Poker Session

MILWAUKEE, Wis.—Anyone looking for a taxicab at 2:45 here on a recent morning would have been faced with trouble finding one, providing he was not in one given block.

Patrolman Eugene Buraczewski, although not looking for a cab, discovered eight of them parked in a neat row while walking his beat early in the morning. This would ordinarily not have bothered the patrolman at all, except for the discovery that none of the vehicles had drivers.

Buraczewski felt it his duty to investigate the situation. He noticed that lights were burning in only one nearby residence—on the second floor.

As he neared the room, he overheard voices. "I'll raise." Then, "Two aces win." He returned to an alarm box and called the station for help. One cabbie faced charges of running a gaming house, the others of being patrons.
