

For the fifth straight year, Mayor Conrad E. Langfield and C. R. Ely and Sons furnished orange soft drink and ice respectively to the youth of Northville on the Fourth of July. The youth enjoyed an outing of games and softball on Ford Field.

The Record office has received a request from the Highland Cemetery Association of Ypsilanti seeking the address of a William E. Palmer or his heirs. Palmer at one time was believed to be a resident of Northville. Anyone having any information concerning him or his family is asked to call the Record office.

A former Northville soldier, Pfc Ernest C. Pudney, is reported to have been wounded in Korea. He is now hospitalized, and would appreciate cards and letters. Write him: Pfc Ernest C. Pudney, R. A. 16293576, 361 Station Hospital, APO 1055, c/o P.M., San Francisco, California.

Clifford Cranson of South Center Street was in the Record office Friday to tell us that his corn averages between 50-60 inches in height, proving that the old adage about corn being knee high on Fourth of July doesn't always hold true.

Leading the Fourth of July parade in the Village last week was John Wallace's six pony palomino hitch from Birmingham. The pony hitch was followed by several children on horseback and youngsters leading their pets or riding their bicycles. The children had a free ride on the pony hitch at Ford Field.

Sock and tie contributors this week included Dayton Bunn of South Rogers Street, D. J. Stark of Scott Avenue and Mrs. E. A. Chapman of High Street. Many more are needed for the Detroit House of Correction Occupational Therapy department. To date 1685 ties, 831 stockings, 951 socks, six dresses, seven slips and many carpet rags have been turned in.

Risk Determines Most Accidents

"Basically, the failure to recognize the difference between a calculated risk and a needless, foolish risk is the factor that contributes to the death of thousands of motorists every year," Chief Denton told the Northville Record today.

The motorist who travels at high speeds, he said, either feels that he is running no risk at all or feels that the risk is negligible. Both ideas are false, Chief Denton said.

"At Bonneville, Utah," he said, "John R. Cobb, in 1947, attained a new land speed record—403 miles an hour. The dangers involved in driving a vehicle at a speed greater than six miles per minute almost stagger the imagination. To Cobb, however, this was a carefully calculated risk. The test was carefully supervised, the course was closely examined for surface smoothness and the vehicle was as mechanically near perfection as possible.

"The result was," Chief Denton said, "that Cobb was courting death no more than any of us who drives 40 miles an hour when the visibility is bad, the highway wet or slippery, or when our tires are thread-bare!"

Chief Denton continued his discussion of speed by claiming that the simple process of driving three blocks to the grocery store is a calculated risk.

"By driving safely and sanely, however," he said, "we are calculating our risks in such a way as to minimize the dangers to ourselves. The moment that our speed becomes faster than road, weather or the mechanical condition of our car warrens we begin to enter the ranks of the foolish."

Chief Denton's emphasis on the dangers of speed came in support of the State Safety Commission's July program of public education for traffic safety which is being sponsored in cooperation with the National Safety Council.

Stage Concert On Belle Isle

The second Festival Symphony Concert will be conducted by Antal Dorati, Conductor of the Minneapolis Symphony Orchestra. It will be presented at 8:00 p.m., Sunday, July 15, at the Remick Band Shell on Belle Isle. In the event of rain, the concert will be given in the Naval Armory on the mainland.

Now in his early forties, Dorati has more than twenty years experience as an orchestra conductor. He was only 18 when he directed his first orchestra in Budapest. Since then he has become known throughout the world, leading orchestras in such widely separated places as Florence, Italy and Sydney, Australia.

Born in Budapest, Dorati was enrolled early in the city's Academy of Music by his parents, both of whom were musicians. He was trained as conductor, pianist, and composer. During the time he was at the Academy, he studied under Hungary's most distinguished composers, Bela Bartok and Zoltan Kodaly.

During the 1930's he conducted orchestras in all parts of Europe, performing with such dissimilar organizations as the Municipal Opera of Munster, the Ballet Russe de Monte Carlo, and the Budapest Philharmonic.

He made his American debut in 1937 when he conducted the National Symphony in a Beethoven concert. In 1941, he returned to the United States to stay. For two years he was the director of the New Opera Company and, at the same time, was musical director for the Ballet Theatre.

In 1945 the Dallas Symphony Orchestra, which had been suspended for the war years, was reactivated. Dorati was invited to become the permanent conductor. He traveled 8000 miles to audition and engage musicians, bringing together a group that is now famous throughout the country.

He is now conductor of the Minneapolis Symphony Orchestra, with which he has experienced an almost unparalleled success.

The program Dorati will conduct has been selected to fit into the over-all scheme of Detroit's 250th Birthday Festival. Pierre Montoux conducted a program of French music reflecting the French origin of the city. Sir Ernest MacMillan will conduct a British program, representing the period of Britain's rule over Detroit. An all-American program will be led by Valter Poole, resident conductor of the Detroit Symphony. Dorati will direct a program of international composition representative of Detroit's ties with the entire world.

The concert will be made up of the following pieces: Meistersinger Prelude, Wagner; Symphony in E Minor, Dvorak; Intermission; Espana Rhapsody, Chabrier; Porgy and Bess - A Symphonic Picture, Gershwinn-Bennett.

Michigan 4-H Club Program Ranks High

Records show Michigan's 4-H Club program is at or near the top when compared with other states.

With 5,244 clubs, Michigan leads the nation. With 88.96 per cent of the nearly 60,000 members completing all the projects undertaken, Michigan leads the north-central region of 12 states.

Ranking third in the percentage of completions in the United States and territories, Michigan is led only by Maine, Rhode Island and Puerto Rico, all with very small total memberships.

A. G. Kettunen, state 4-H Club leader at Michigan State College, credits the local volunteer leaders for much of the success of the program in Michigan.

Guests Tuesday at the Rotary Club luncheon were Plymouth members Don Sutherland, Blake Gillis, Russ Daane, Frank Arlen, and Bill Wood. From Hamtramck came Wally Williams, and Dave Boyce of San Gabriel, California was brother John's guest. Cy Owens came with Phil Ogilvie and Henry Lee of Honolulu was Mayor Con Langfield's guest.

Stone, Hotel Teams Post Softball Wins

The Northville Hotel unlimbered their big guns and pounded the Mayors softball team 13 to 5 Monday night.

The Mayors jumped into an early 3 to 1 lead in the first inning and the score was knotted at 4 to 4 at the end of the second, but the Hotel sluggers got two runs in the third and five in the fourth to take the game out of the doubtful stage.

In the second game Monday night, the league-leading Stone's squad had to go nine innings to turn back the Cy Owens Ford team.

With the tally even at 6-6 in the seventh inning, Stone's pushed Don Maclean across the plate in the ninth after he and Thompson had walked.

Beall Gets Mexican Engineering Post

Lloyd M. Beall of South Center street left this week for El Canelo, Tamaulipas, Mexico where he has accepted a position with the Mexican Federal Power Commission.

Two years ago, the Mexican Government purchased the power plant of the local Ford factory with the understanding that when the time came for its reconstruction, the company would supply a qualified engineer as Superintendent of Construction and Operation. It is in this capacity that Mr. Beall will serve for the next year or until the job of reconstruction is completed and the modern plant is operating smoothly.

Henry Ford purchased the complex steam power plant at a cost of \$200,000. It was erected in the new Ford Plant in 1936 under the supervision of Mr. Beall who served as the plant's Chief Engineer for the past fifteen years.

Beall, who is recognized as an authority on diesel engines, has published many articles on the subject in leading engineering magazines. He has been with the Ford Company for about 33 years, having served as Chief Engineer on the Ford Boats for about 15 years previous to his Northville appointment.

Accident Claims Wallace R. Reid

Tragedy struck a Northville family Saturday afternoon when Wallace R. Reid, aged 25, was killed while working in Trenton.

Wallace was working for the summer months for the G. F. Taft Construction Company. They were engaged in moving earth for the new Chrysler plant. Wallace met death when a tractor and scraper operated by Hugh Johnson of Detroit accidentally ran over him.

The son of Mrs. Emma Reid of Fairbrook Road, Wally was graduated from Northville High school in 1943. He worked for the National Cash Register Company for five years, and last year attended Tri-State College, Angola, Indiana, where he was an honor student. He was a member of the Optimist Club and the First Presbyterian church.

Jr. Horse Show Proceeds Go To Finance Youth Projects

At the regular meeting of the Northville Optimist Club Wednesday evening, a complete report of the recent Junior Horse Show which was sponsored and put on by the club, showed that a profit of \$2,939.00 was realized.

Of Community Importance The Northville Optimists, as all Optimist Clubs throughout the world, are pledged to help the youth of the community. Their aim is to guide youngsters in better ways of living, in awakening interest in civic affairs,

local and national, in better citizenship, ethics, sportsmanship, to help the less fortunate, and in general to guide the growing youngsters to their responsibilities. Many underprivileged children are thus directed to a better understanding of their importance as good citizens.

The Junior Horse Show becomes important to the community in two ways. The boys and girls who participate are given a day of good clean sportsmanlike competition, and at the same time the Optimist Club secures revenue to undertake the youth work program of the community throughout the coming year. All revenue from the show is set aside in a special fund and can only be used for youth work.

Projects Named Last year the Northville Optimist Club spent \$1,165.50 on worthwhile boy and girl projects in the community. A partial list of the projects is as follows:

Basket ball program; prizes for Labor Day children's program; delinquent children film for Adult Education; basket ball back boards erected on three playgrounds; funds for Girl Scout equipment; funds for Boy Scout equipment; expenses of boy to Boy State; boxing equipment; P.T.A. Kids Carnival; oratorical contest; Maybury Children's Fair; vote getting contest in the schools to promote voters to go to the polls; juniors taken to Optimist dinners; Shrine Circus for grade school children; High School Forensic society; Safety Patrol boys to ball game; copies of the Constitution of the United States distributed to grade school children; Boy's Republic Glee Club; Americanism Program of films and pamphlets.

The Northville Optimist Club, only three years old, has already won national recognition for its work in the community, and has been twice selected as the outstanding Optimist Club of Michigan for its youth program.

The records of the club disclose that over seven hundred individual boys and girls have participated in some activity sponsored by the organization.

During the fourth week of racing, Northville Downs broke all its records for mutuels handle.

The betting for the six days totaled \$1,274,166 for the best week in the track's eight years of operation.

It even surpassed the previous high of \$1,083,160 in the first week of the current meeting.

Prior to that, the largest week was in 1948 when the machines clicked to the tune of \$1,075,631. The total betting for 22 days this year is \$4,294,295. This compares with \$3,372,903 for 22 days in 1950.

WINS AWARD

ALICE NEWTON

Alice Newton Wins Ford Scholarship

Still more honors have been bestowed upon Alice Caroline Newton, valedictorian of this year's class of Northville High school.

Alice is one of 70 seniors from 14 states that have been awarded four-year college scholarships in the first nationwide competition among eligible children of Ford Motor Car Company employees. Alice's father, Vernon Newton, is employed at the local Ford Valve plant.

The scholarship amounts to tuition and eighty per cent living expenses at any college or university in the United States. Alice plans to enter the University of Michigan in the fall where she was also awarded an Alumni-Regents scholarship.

Alice garnered many honors at NHS, among those being a four year sociology award, English medal, band and All-League band pins, and the Reader's Digest award. Currently, she is working part time at the local branch of the Wayne County library.

Fifty of the Ford winners are from Michigan, 35 of them sons and daughters of employees of the Ford Rouge plant in Dearborn, and 15 are from other Ford plants in the state.

Other states having winners are: Ohio, four, New York, three; two each from Pennsylvania and California and one each from Minnesota, Indiana, Missouri, Massachusetts, Tennessee, Kentucky, Utah, Texas and Iowa. Sixty-nine per cent of Ford employees live and work in Michigan. Thirty-seven of the winners are boys and 33 are girls.

All winners will receive full tuition and customary academic fees at any recognized college or university they chose. To be eligible for the scholarships, in addition to being sons or daughters of Ford employees, the pupils had to be in the top third of their high school class and take a competitive examination given by the Educational Testing Service, Princeton, New Jersey. Class standing, examination grades, time spent in outside work and extra curricular activities, and recommendations of high school principals and senior counselors were scores to determine the winners from among the 255 who completed their test.

The Ford Motor Company Fund is a non-profit membership corporation organized for educational, scientific and charitable purposes and is supported principally by contributions from Ford Motor Company. The 70 scholarship winners will be guests of the Fund in Detroit and Dearborn on July 16-17-18.

Mr. and Mrs. Conrad E. Langfield of Fairbrook Road returned recently from Traverse City where Mr. Langfield attended the Dairymen's Convention.

Mr. and Mrs. Clifton D. Hill and son, Michael Daly of Beck Road will leave Saturday for a stay at their summer home at Hubbard Lake. They will also call on friends in Alpena.

Mr. and Mrs. Arthur Breitmeyer and children, Kenny and Judy of West Street will leave shortly on their vacation which they will spend at East Tawas.

Defense Council To Buy Medical Unit

The Northville Civilian Defense Council met Friday evening, June 29, at the Village Hall for the purpose of discussing the distribution of 3,000 cards which have been printed and will be given out to all villagers.

The cards are designed to aid citizens in knowing what to do in case of atomic attack. Cards may be obtained from Mrs. Mary Alexander at the Village Hall. Village and township citizens are welcome to them. They are very compact and may be carried in a billfold.

At the Monday night meeting held by the Village Council it was voted to appropriate \$500 for the purchase of a medical unit to be used at the discretion of the medical department of the Civilian Defense program in case of disaster. The cost of the unit at retail value would be \$6,000 but the Federal government is supplying the units for \$2,000 and making them available to the states. The Federal government absorbs 50 per cent of the actual cost or \$1,000 and the State absorbs another 25 per cent or \$500. There is enough medical material to care for 660 medical casualties and the unit is good for ten years. It will be stored in the fire hall after it is remodeled.

The civilian defense publicity committee is now lining up speakers and films which will be available to clubs later in the fall.

The Detroit Red Cross has offered to provide free instructors for first aid courses giving the latest methods in atomic first aid. The dates of these classes will be announced at a later date.

Local Scouts In Pre-Jamboree Camp

Dick Gunsell and Jim Lapham arrived at Camp Kiwanis, Illinois, Saturday, on the first leg of their journey which eventually will take them to the World Scout Jamboree at Bad Ischl, Austria, August 3-10.

For the past few weeks the boys have made continuous trips to the doctor's office receiving the many required preventive inoculations. At the Chicago camp the boys will join some 550 Scouts and leaders where they will undergo an orientation and training program in preparation for their overseas jaunt. The 550 delegates represent scout troops from every state of the Union.

Friday, July 13 the boys will entrain for Hoboken, New Jersey where they will board the S. S. Argentina for Algiers, North Africa. From there they will visit Naples, Rome, Venice and Switzerland, arriving at Bad Ischl on August 3 for the jamboree.

Applications Open for Benefit Rodeo

The public is cordially invited to attend a real "wild west" rodeo, complete with all the thrilling acts of the, bareback riders, bronc riding, steer riding contests, a scurry race, musical chair contests and various speed and action exhibits.

The second annual Michigan Junior Championship Rodeo will be held Sunday, July 22 at the Ivory Polo Field on East Eight Mile Road. The Sports Guild, which is a non-profit organization, is sponsoring the annual event and Lincoln Friend of the Howdy-Doodle Ranch is the show production manager.

Entries, which must be filed with Mr. Friend, are open to all boys and girls 17 years of age and under. Many local applications have already been received and the show promises to be an exciting one.

Proceeds of the rodeo will send many underprivileged children to summer camps supplied with all the necessary sports equipment to insure a wonderful time.

German Visitor To Study Rural Homes

A German woman, interested in learning how American women and youth are trained and organized in home improvement groups, is spending six months in Michigan with expenses paid by Michigan home economics extension groups.

Miss Ingeborg Timmier, 27, is arriving in early July and, through Michigan State College extension staff members, will work with Michigan home economics groups. She is from Schleswig-Holstein, Germany, and has been a student in home economics at Danzig.

The young woman has expressed a desire to acquaint herself with 4-H Club groups, their practices and procedures, and to return to Germany to help train German country youth and women.

Miss Timmier's first public appearance will probably be at the annual Michigan Homemakers' Conference at Michigan State College, July 10 to 13. About 1,000 members of Michigan home economics extension groups from many counties in the state are expected to attend the session.

Summer Enrollment at MSC Nears 5,200

Michigan State College's 1951 summer school enrollment is expected to come close to breaking the college's all-time summer registration.

An estimated 5,200 students are expected to enroll this summer compared to 5,063 in 1950 and

5,288 in the peak year, 1947, according to Kermit Smith, assistant registrar.

At the end of late registration for the two official summer terms, 4,902 students had registered. Male students totaled 3,485 and veterans numbered 1,460.

Registration of students in special credit workshops and clinics later in the summer is

expected to swell the total to the 5,200 figure.

Choosing the right varieties now can make a big difference in the quality of frozen foods you take out of your freezer next winter. Be sure you freeze only the recommended varieties of fruits and vegetables this summer.

How to make Wise Tracks to a Beauty

How do you buy a new car?

Are you one of those people who buy on love at first sight?

Or do you check cars feature for feature, price for price—then pick the one that gives you the most for your money?

Whichever you are, we'd like to suggest that you come in and see our 1951 Buicks.

It's a sure bet you'll go for the swift, smart look of a SPECIAL, SUPER or ROADMASTER—fall seriously in love with the pace and power of its bonnet-filling engine.

And it's a cinch you'll go for the room and richness of those Buick interiors—the serene smoothness of Dynaflo Drive* and all-coil springing.

But don't let your emotion be the only

judge—get the practical picture too.

Note that the power that gives you such a big kick here comes from Buick's famed valve-in-head Fireball Engine—which means you get a lot of miles from each gallon of gas you buy.

Note that the silken ease you enjoy with Dynaflo* goes hand in hand with real money savings in maintenance costs.

Above all, note what a Buick's price tag includes—how much more sheer automobile you get in a Buick than the same money would buy elsewhere.

How about making tracks to our showroom right soon—checking thoroughly into the matter—and see if you don't fall in love with a smart-buy Buick?

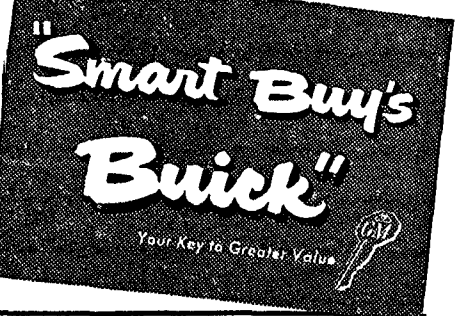

Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Series.

Report for the Police Department for the month of June 1951 was submitted by Chief Joseph Denton; Dr. V. Geo. Chabut presented the report of the Health Dept., and Comm. Peters reported on the meeting of the Recreation Board held at the Board of Education offices.

Moved by Stubenvoll, supported by Peters, that these reports be accepted and placed on file. Carried.

Comm. Ely reported that the Dump had been bulldozed and was in very good shape at the present time.

Dr. V. Geo. Chabut suggested that the Village purchase a Casualty Kit such as is recommended by the State Civil Defense organization, and after discussing the advisability of having such a kit, it was moved by Locke, supported by Woodworth, that one (1) Group 5, F.C.D.A. Casualty Kit be purchased, the Village to pay 25 per cent of the cost. (The balance is paid by the State and Federal Governments.) Carried.

Atty. James Littell reported on the progress made regarding alleys.

No further business appearing, meeting was adjourned.

Signed

Mary Alexander, Clerk
